Creating the Composite Veterinary Library
- Adapted from the American Association of Health Science Libraries annual survey
- Tool for benchmarking and trends analysis
- Constructed from the majority (mean and median values) response for selected data reported

The Composite Veterinary Library
- Located within the College of Veterinary Science
- Veterinary collections located in veterinary library
- Reports to and is funded by university library
- Collections prefer electronic over print, earlier print editions are retained and includes AVs
- Funding has remained unchanged or reduced
- Space has been internally reassigned
- Staffing levels show no significant changes in any category (librarians, paraprofessionals, clerical and student workers)

Investigators: Esther Carrigan, Heather K. Moberly, Derek Halling
- Services and activities offered onsite
  - Expert searching
  - Reserve book collection
