## FOREWORD

This booklet is a companion guide to the video in this package. The video is from a series of presentations made at one of the UNHCR Emergency Management Training Programmes. The presentations were made before a classroom audience and edited into this format.

Each video is an introduction to the key issues of the topic. They are designed to be useful in the field as a quick source of information during emergencies, as a supplement to training programmes and as a review of the topic for experienced professionals.

Each video represents only a small part of the information that a refugee relief manager needs in emergencies. The viewer will benefit from using several of the videos from this series.

This booklet supplements the video and functions as a Viewer's Guide. Most Guides are in two parts. The first part gives an outline of the key words and phrases in the presentations, many of which frequently appear on screen. This material assists the viewer to follow the presentation and to make quick reviews during the video. The second part of most study guides is a "Presentation Summary". This is intended to be useful as a review of the material and a reference to the topic.
