

Discussion Group T16: Gas Turbine Operation and Maintenance

Leaders:

- Meherwan Boyce (The Boyce Consultancy)
- Francisco Gonzalez (Cheniere)
- Rainer Kurz (Solar Turbines, Inc.)

Suggested Topics:

- Preventive/predictive maintenance
- Condition monitoring
- Air filtration onshore and offshore
- Fogging/evaporative cooling/inlet chilling
- Liquid fuel handling and storage
- Gas fuel issues
- Lean premix combustion and emissions issues
- Repair techniques
- Matching of driver and driven equipment
- Auxiliary systems reliability
- Noise
- Maintenance and spare parts philosophies, including LTSAs, OEM versus non-OEM, engine exchange
- Component failures
