

THE ELECTRICAL & COMPUTER ENGINEERING PROGRAM PRESENTS

Petrophysics Lecture by: Heavysege, Grant R

Head of Petrophysics Department - RasGas

Tuesday, June 24, 2008
10 a.m. – 1 p.m.
Lecture Hall 144

- * Introduction and History of Logging
- * Rock and Fluid Properties
- * Petrophysics Overview
- * Borehole Environment
- * Gamma Ray Logging and Shale Volume
- * Lithology
- * Tool Physics
- * Porosity
- * Fluid Contacts and Saturation
- * Khuff Petrophysics

There will be a short talk afterward by Mr. Nazri Nor on "Downhole completions"

A light lunch will be served after lecture.
