YOU MEN WHO MILK COWS!

You Are A Vital Part Of National Defense!

More milk is needed for the manufacture of cheese and evaporated milk to meet our own requirements and for export.

Boost Your Herd's Milk Production By

- Feeding heavier on concentrates—especially the good cows.
- Doing a better job of milking cows—faster and cleaner.
- Feeding concentrates to dry cows so they will be ready to go to work when they freshen.

Ask for Bulletin B-69, "Feeding and Care of the Dairy Herd." Also C-142, "Starring Milk."
