Rotating Equipment Advisor
BP
Whiting, Indiana

Stephen R. (Steve) Locke is a Senior Consultant with E. I. du Pont de Nemours and Company, Inc., with 37 years of turbomachinery and rotating equipment experience. He is assigned to DuPont Engineering Technology Rotating Machinery Group, in Old Hickory, Tennessee. Since 1983, Mr. Locke has consulted on turbomachinery and process machinery for repairs, reliability improvements, retrofits, new equipment specification and startups, performance modeling, and more recently on machinery Process Safety Management. In his first 11 years in DuPont, he held plant assignments in the Petrochemicals Department providing technical assistance to operations and maintenance, including the startup of several large process compressors and other rotating and process equipment.

Mr. Locke received a B.S. degree (Mechanical Engineering, 1972) from Purdue University and is a member of ASME. He has presented several papers at the Turbomachinery Symposia, the University of Virginia ROMAC, and represents DuPont on Texas A&M’s Turbomachinery Research Consortium.

Curt Miller is with exida Consulting LLC.

Lil Kassie is presently Rotating Equipment Advisor for BP refining. He is located at BP’s Whiting, Indiana, refinery where he has worked for 24 years. He has held positions as Rotating Equipment Specialist, Superintendent of the Rotating Equipment and Reliability Engineering Group, and Senior Rotating Equipment Consultant. In his present position, Mr. Kassie is responsible for providing machinery expertise, sharing and implementing equipment practices, and development coaching for improving equipment reliability and plant availability throughout BP. Prior to his tenure at BP, Mr. Kassie worked as Rotating Equipment Superintendent for Energy Cooperative Inc. and as a Field Service Engineer for Ingersoll Rand. He has presented technical papers at various rotating equipment conferences including the Turbomachinery Symposium and Rotating Machinery Users Council.

Mr. Kassie holds B.S. and M.S. degrees (Mechanical Engineering) from the University of Wisconsin.
