

3D Challenge 2018

Call for Proposals

10th Visualization Development Competition & 6th 3D Printing Competition

Texas A&M University at Qatar's Research Computing and Mechanical Engineering departments call for proposals for their 10th Visualization Development Competition (VDC18) and 6th 3D Printing Competition (3DP18). The competitions seek to encourage the most innovative uses of the Texas A&M University at Qatar's immersive visualization and 3D printing facilities in teaching and research. The selected projects will be developed over a time period of 2 months with support of Research Computing and Mechanical Engineering staff. The call is open to the whole Education City, Qatar University and interested local industry.

Guidelines & submission

The deadline is March 2, 2018

More information on the participation and submission can be found at <http://bit.do/vdc18>
