How a Small E&P Company Manages SEMS (Safety and Environmental Management Systems) on Large Deepwater Drilling Operations

Charlie Culver
LLOG Exploration

E-mail: charliec@llog.com

Abstract

Presentation will cover how a relatively small company like LLOG (~200 employees) manages SEMS and HSE on large offshore drilling operations.

- Development of an effective SEMS (Safety and Environmental Management Plan).
- Benefits of the SEMS Plan
- Day to day implementation of the SEMS Plan – Offshore & Office
- Alignment of contractor policy and procedures with SEMS (bridging document)
- Using the right resources concurrently to implement contractor and operator SEMS
- Employee participation and management support of SEMS

Maximum 20 minutes of presentation from a power point presentation and 5 minutes for questions and answer.
