Paper presented at the 1st Annual Symposium of the Mary Kay O'Connor Process Safety Center,  
"Beyond Regulatory Compliance, Making Safety Second Nature",  
George Bush Presidential Conference Center, College Station, Texas  
March 30-31, 1998.

---

### **ABSTRACT**

Many companies are developing Behavioral Safety Process to improve safety. In 1995, the Montell Jackson plant designed and implemented a behavioral Safety Process using the expertise of Terry McSween and Quality Safety Edge. The process is a three-pronged approach to improving safety as a product of our company culture. We will discuss our journey into the world of Behavioral Safety and provide an insight to our successes. We will also explain our plans for the future.
