Subject: Request for using published material in my dissertation

Dear Sir/Madam,

I am a PhD student at Texas A&M University, Department of Chemistry.

I would like to include an image with captions directly copied from our published article `The role of cysteine peptidases in coronavirus cell entry and replication: The therapeutic potential of cathepsin inhibitors` in my PhD dissertation.

Do you allow me to do it? If yes, do you provide a formal permission form for it?

Thanks,
Erol Vatansever
PhD Student
Texas A&M University, Department of Chemistry
