101

101

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the information is both reliable and comprehensive.

The third part of the report focuses on the results of the analysis. It shows a clear trend of growth over the period studied. This is supported by several key indicators and statistical data points.

Finally, the document concludes with a series of recommendations for future actions. These are based on the findings of the analysis and aim to optimize the current processes and improve overall efficiency.

Preface

The Index-Catalogue of Medical and Veterinary Zoology is an index to the world's literature on animal parasites of animals, including man. The Catalogue is distributed to qualified individuals and libraries throughout the world without charge. It has been maintained in cumulative files since 1892. Only the Author Catalogue has been published in its entirety. A revision of the Author Catalogue of the Index-Catalogue of Medical and Veterinary Zoology, consisting of Parts 1 to 18, was published during the period 1932-52. Beginning in 1953, a series of supplements designed to publish the backlog was initiated. This was completed with Supplement 6, published in 1956. From 1956 to 1964, supplements covering authors A to Z were issued on an annual basis.

Beginning with Supplement 15, the Parasite-Subject Catalogues, containing indices to the author references, have been issued. The Author Catalogues of Supplements 15-21 continued the format of previous supplements. Users should note that for each reference in the Author Catalogues of these supplements the author(s) plus the date and letter (e.g., Smith, J.; and Doe, L., 1978 b) are the key to all items in the Parasite-Subject Catalogues derived from that reference. In other words, when using the Parasite-Subject Catalogues of Supplements 15-21, it is necessary to consult the Author Catalogue of the corresponding supplement for complete bibliographic information.

Commencing with Supplement 22, basic bibliographic information is included with each entry in Parts 2-7. It should be emphasized, however, that it will still be useful to consult the Author Catalogue for a variety of other information that may be found there: Title of the reference, translated title, language of text and summaries, issue date, library from which the original may be obtained, published corrections, related references by the same author, and other miscellaneous information.

Each supplement consists of the following parts:

- Part 1, Authors: A-Z
- Part 2, Parasite-Subject Catalogue: Parasites: Protozoa
- Part 3, Parasite-Subject Catalogue: Parasites: Trematoda and Cestoda
- Part 4, Parasite-Subject Catalogue: Parasites: Nematoda and Acanthocephala
- Part 5, Parasite-Subject Catalogue: Parasites: Arthropoda and Miscellaneous Phyla
- Part 6, Parasite-Subject Catalogue: Subject Headings and Treatment
- Part 7, Parasite-Subject Catalogue: Hosts

Users should bear in mind that this is an Index-Catalogue, not a treatise, and should not expect to find reasons for any given entry. Nor does citing of synonymy mean that it is necessarily correct. The same statement holds for hosts, locations, localities, authorship of taxa, designation of new taxa, etc. These items are cited as given by the author(s) of the publication being indexed.

The information included in any given supplement represents only the publications that have been indexed in that supplement; and therefore, exclusion of, or limited entries for, any given author or parasite has no significance. No pretension is made for completeness, and assistance in correcting errors or obtaining additional information is appreciated. Reprints of papers on parasitology are requested.

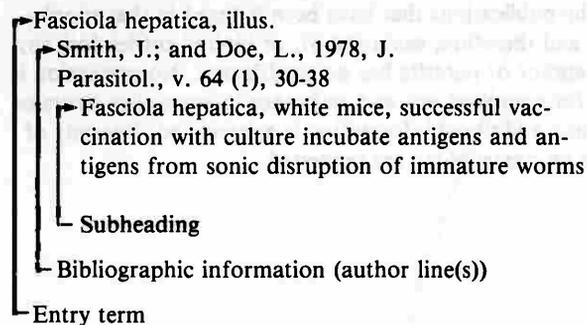

Explanatory Note

Author Catalogue

The Author Catalogue (Part 1 of each supplement) contains full bibliographic information for each publication indexed during the compilation of that supplement. A symbol for the library from which the original publication may be obtained is given at the end of each entry, e.g., Wa, Wm, Wc, etc. A key to these library symbols may be found in Supplements 10 and 20. A list of serial abbreviations new to our files is published at the beginning of each Author Catalogue.

Parasite Catalogues

The Parasite Catalogues (Parts 2-5 of each supplement) are divided by parasite phyla (Protozoa, Trematoda, etc.). They are arranged alphabetically by genera, parasitic diseases, and higher taxa and then alphabetically by species within genera. Entries under each heading are in turn arranged alphabetically by authors and then chronologically for each author. Each entry consists of the name of the parasite or parasitic disease, the author(s) of the publication, date, abbreviated title of the publication, volume, number, inclusive pages, and a subheading. Illustrations of parasites are indicated by the word *illus.* following the name of the parasite.

A variety of information is found indented beneath the author line(s) of each entry: Classification, hosts, synonymy, keys, treatment, etc. Subheadings are guides to the subject matter of the publication.

- (1) **Classification:** In entries based on systematic articles, the subheading may give the higher taxa in which the taxon has been placed or it may list the lower taxa included in a higher taxon.
- (2) **Hosts:** The only hosts recorded are those that pertain directly to the author's own work. Scientific host names are used unless the author gives only common names, in which case the host names are given exactly as in the original publication.

However, when host common names are in Cyrillic alphabet languages, host Latin names are assigned and listed instead of the common name; these are in square brackets [].

Locations of parasites in or on hosts are given in parentheses (). Where a host-parasite relationship is well known, a host may be given under a parasite name and not in the Host Catalogue; this applies particularly to parasites of medical and veterinary importance and of worldwide distribution. A + before the host name on the parasite entry means that no host entry was made for this particular reference.

- (3) **Synonymy:** Usually only those synonyms which the author indicates as new, or which are new to the files of the Index-Catalogue of Medical and Veterinary Zoology, are given.
- (4) **Keys:** The subheading "key" indicates that the name is included in a taxonomic key.
- (5) **Treatment:** When there are several antiparasitic agents mentioned in a publication, a general term is used in the subheading, e.g., anthelmintics, insecticides, protozoacides. However, in the Treatment Catalogue, all agents tested by the investigator(s) are listed.
- (6) **Geographic Distribution:** When there are multiple hosts and geographic localities, the appropriate locality is recorded after each host name; when the hosts of a parasite are all from one locality, they are recorded as "all from" this locality.
- (7) **Other Subject Matter:** Phrases indicate other subject matter discussed (e.g., immunity, metabolism, morphology, etc.).

Subject Headings Catalogue

The Subject Headings Catalogue (the first section of Part 6 of each supplement) is an alphabetic arrangement of entry terms from a controlled list of subject headings. Each entry consists of the subject heading, bibliographic information, and a subheading reflecting the information contained in the paper. Subject headings with numerous entries are separated into alphabetized subdivisions, e.g.,

Immunity
Immunity, Agglutination
Immunity, Allergy

Treatment Catalogue

In the Treatment Catalogue (a section of Part 6 of each supplement), all entries referring to one antiparasitic agent are grouped under one heading (regardless of the name used by the investigator) and are then listed alphabetically by author. Other names for the same agent are cross-referenced to the name used for filing. When generic and chemical names are available, preference is given to those names as headings

rather than to trade names or code numbers and letters. Code number designations for compounds are entered in the Number Index in numerical order and cross-referenced to the name under which they are listed in the alphabetical section. Salts of a compound are usually grouped together, e.g., piperazine adipate, piperazine citrate, etc., are all listed under Piperazine. Sometimes verifying synonymy of drug names is impossible; consequently, groupings and cross-references are not always authenticated although as many as possible have been checked with reliable sources. In some instances, the cross-references are based entirely on information in papers indexed and verification was not possible. Foreign language terminology has been anglicized where feasible. Chemosterilants, Molluscicides, and Repellents are entered under these three collective headings and not under the individual chemical. The format is the same as the parasite entries: Entry term (in this case, drug name), bibliographic information, and subheading.

Host Catalogue

The Host Catalogue (Part 7 of each supplement) is arranged alphabetically by genera, common names, and higher taxa and then alphabetically by species within genera. Nominate subspecies are interfiled with the species. Entries under each heading are in turn arranged alphabetically by author(s) and then chronologically for each author. The format is the same as in the other Catalogues, i.e., entry term (in this case, host name), bibliographic information, and subheading. Indented beneath the author line(s) of each host entry are all the parasites of a particular phylum that were reported from this host in the paper in question. Body locations of these parasites will be found in parentheses () either in the subheading or with the host name. Experimental infection is reported as such. When there are multiple parasites and geographic localities, the appropriate locality is recorded after each parasite name; when the parasites from this host are all from one locality, they are recorded as "all from" this locality. When authors use only common names of hosts, scientific names are cautiously supplied from authoritative sources after

careful consideration. Cross-references from the common name used by the author to the scientific name supplied by the Index-Catalogue are filed among the host entries. Such supplied names are given in square brackets []. If a scientific name cannot be supplied, English common names are used. Scientific names or English common names are always supplied for common names in Cyrillic alphabet languages, and no cross-references are made. Surveys of parasites of humans and domestic animals are often indexed under geographic headings and entered in Part 6, Subject Headings, in addition to appearing in the Host Catalogue. In this case, all parasite phyla are grouped under the same host entry, and individual parasite entries are not included in the Parasite Catalogue.

Visitors are welcome to come to the Animal Parasitology Institute to use the cumulative files. Arrangements should be made in advance for lengthy visits.

All correspondence should be addressed to:

Index-Catalogue of Medical and Veterinary Zoology
Animal Parasitology Institute
USDA, ARS, BARC-East, Building 1180
Beltsville, Maryland 20705 U.S.A.

It is hoped that these Catalogues will serve as a useful tool to workers in the field of parasitology. Users are requested to preserve the Catalogues, since they are not designed for general distribution and the edition is limited.

The compilers thank the staffs of the National Agricultural Library, the National Library of Medicine, and all other libraries who have aided us invaluablely by making publications available to us.

Trade names are used in this publication solely for the purpose of providing specific information. Mention of a trade name does not constitute a guarantee or warranty of the product by the U.S. Department of Agriculture or an endorsement by the Department over other products not mentioned.

Section 1: Introduction and background information regarding the project or document.

Section 2: Detailed description of the subject matter, including objectives and scope.

Section 3: Methodology and approach used for the study or project.

Section 4: Results and findings of the study, including data analysis.

Section 5: Discussion and conclusions drawn from the results.

Section 6: References and sources used in the document.

Section 7: Appendix and supplementary information related to the main text.

Section 8: Acknowledgments and thank you notes to contributors.

Section 9: Final remarks and future research directions.

Section 10: Bibliography and list of references.

redescription
Crenidens crenidens (intestine): Karachi coast
- Afrogyrodactylus* Paperna, 1968
Kritsky, D. C.; and Thatcher, V. E., 1977, *Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico*, 53-60
Gyrodactylidae
key
- Ahpua* n. g.
Caballero y C., E.; and Bravo-Hollis, M., 1973, *Rev. Biol. Trop.*, v. 21 (1), 33-40
Discocotylidae, Opisthogyninae
tod: *A. piscicola* n. sp.
- Ahpua piscicola* n. sp. (tod), illus.
Caballero y C., E.; and Bravo-Hollis, M., 1973, *Rev. Biol. Trop.*, v. 21 (1), 33-40
Polydactylus octonemus (filamentos branquiales): Aguas marinas de las escolleras de Ciudad Madero, Estado de Tamaulipas, Golfo de Mexico, Mexico
- Alaria* sp.
Addison, E. M.; and Boles, B., 1978, *Canad. J. Zool.*, v. 56 (10), 2241-2242
Gulo gulo (digestive tract): District of Mackenzie, Northwest Territories, Canada
- Alaria* sp.
Byman, D.; et al., 1977, *Canad. J. Zool.*, v. 55 (2), 376-380
Canis lupus (feces): northeastern Minnesota
- Alaria* sp.
Pence, D. B.; and Meinzer, W. P., 1979, *Internat. J. Parasitol.*, v. 9 (4), 339-344
helminth fauna of *Canis latrans*, low similarity with those from other geographic regions in North America, associations between pairs of species in terms of frequency of occurrence, mean levels of infection in presence or absence of other species, host age and sex effects
Canis latrans (intestine): West Texas
- Alaria* sp.
Ramalingam, S.; and Samuel, W. M., 1978, *Canad. J. Zool.*, v. 56 (11), 2454-2456
Bubo virginianus (intestine): Alberta, Canada
- Alaria* sp.
Rau, M. E.; and Gordon, D. M., 1978, *Canad. J. Zool.*, v. 56 (8), 1765-1767
helminths overwintering in garter snakes, host hypobiosis not accompanied by significant changes in prevalence or intensity of parasite infections
Thamnophis s. sirtalis (fat body): Ille Perrot, Province Quebec, Canada
- Alaria alata* (Schrank, 1788) Klause, 1914
Babaev, Ia., 1976, *Izvest. Akad. Nauk Turkmen. SSR, s. Biol. Nauk* (4), 68-74
Vulpes vulpes: area of Karakum canal, Turkmenistan

- Alaria alata* (Goeze, 1782)
Frank, C., 1977, *Ang. Parasitol.*, v. 18 (4), 206-215
Vulpes vulpes (Ausgang des Duodenums, Jejenum): Nordsiedlerseegebiet (Burgenland/Osterreich)
- Alaria alata* (Goeze, 1782)
Ianchev, I.; and Ridzhakov, N., 1977, *Khel'mintologiya, Sofiya*, v. 4, 73-96
Vulpes vulpes crucigera (small intestine): Northwestern Bulgaria
- Alaria alata* (Goeze, 1782)
Iushkov, V. Iu., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 22, 232-248
Canis lupus
Vulpes vulpes
(small intestine of all): all from Komi ASSR
- Alaria alata* (Goeze, 1782), illus.
Machida, M.; Kitamura, Y.; and Kamiya, H., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (3), 144-147
Vulpes vulpes schrencki (small intestine): Hokkaido, Japan
- Alaria alata*
Merkusheva, I. V., 1976, *Vestsi Akad. Navuk BSSR, s. Biial. Navuk* (4), 88-94
helminths of murine rodents, changes in parasite fauna compared to changes in forest biotope over several years: Belorussian Polesia
- A[*laria*] *alata*
Slepnev, N. K., 1973, *Vet. Nauka--Proizvod.*, *Trudy, Minsk*, v. 11, 130-135
[*Canis familiaris*]: northern zone of Belorussia
- Alaria americana* Hall and Wigdor, 1918
Addison, E. M.; Pybus, M. J.; and Rietveld, H. J., 1978, *Canad. J. Zool.*, v. 56 (10), 2122-2126
Ursus americanus: central Ontario, Canada
- Alaria arisaemoides*
Samuel, W. M.; Ramalingam, S.; and Carbyn, L. N., 1978, *Canad. J. Zool.*, v. 56 (12), 2614-2617
Canis latrans
C. lupus
Vulpes vulpes
(small intestine of all): all from area around Riding Mountain National Park, southwestern Manitoba
- Alaria (Paralaria) canadensis* Webster and Wolfgang 1956
Johnson, A. D., 1979, *J. Parasitol.*, v. 65 (1), 154-160
as syn. of *A. (Paralaria) mustelae* Bosma 1931
- Alaria canis*
Loebenber, D.; et al., 1979, *J. Parasitol.*, v. 65 (2), 233
dogs naturally infected with various helminths, anthelmintic activity of Sch 20350
- Alaria marcianae* LaRue
Byman, D.; et al., 1977, *Canad. J. Zool.*, v. 55 (2), 376-380
Canis lupus (gastrointestinal tract): north-eastern Minnesota
- Alaria marcianae* (La Rue, 1917)
Dickinson, J. P.; and Johnson, A. D., 1978, *Comp. Biochem. and Physiol.*, v. 60B (3), 277-279
Alaria marcianae adults, electrophoretic separation of esterase isoenzymes
- Alaria marcianae* (La Rue 1917)
Johnson, A. D., 1979, *J. Parasitol.*, v. 65 (1), 154-160
Rana pipiens
cat (exper.)
- Alaria marcianae*
Pence, D. B.; and Meinzer, W. P., 1979, *Internat. J. Parasitol.*, v. 9 (4), 339-344
helminth fauna of *Canis latrans*, low similarity with those from other geographic regions in North America, associations between pairs of species in terms of frequency of occurrence, mean levels of infection in presence or absence of other species, host age and sex effects
Canis latrans (intestine): West Texas
- Alaria marcianae*
Samuel, W. M.; Ramalingam, S.; and Carbyn, L. N., 1978, *Canad. J. Zool.*, v. 56 (12), 2614-2617
Canis latrans
C. lupus
Vulpes vulpes
(small intestine of all): all from area around Riding Mountain National Park, southwestern Manitoba
- Alaria marcianae*
Stone, J. E.; and Pence, D. B., 1978, *J. Parasitol.*, v. 64 (2), 295-302
helminth parasitism of *Felis rufus*, nature, prevalence, intensity, ecological relationships of parasitism including concentration of dominance, similarity of helminth faunas between different geographic areas, and nature of distributions of aggregations of helminth species in this host
Felis rufus (small intestine): Rolling Plains of West Texas
- Alaria (Paralaria) mustelae* Bosma 1931, illus.
Johnson, A. D., 1979, *J. Parasitol.*, v. 65 (1), 154-160
synonymy, morphology, life history
Mephitis mephitis: Minnesota
Spilogale putorius: Minnesota
Taxidea taxus: Minnesota
Mustela vison (small intestine) (nat. and exper.): Minnesota
Mustela erminea: Minnesota
Mustela frenata: Minnesota
Planorbula armigera (exper.)
Rana pipiens (throat, back, and tail muscles) (nat. and exper.)
white rats (glands and fat of neck and jaw region, intercostal muscles, subscapular fat, fatty tissue in body cavity, abdominal muscles, muscles of hind and fore legs) (exper.)
Procyon lotor (anterior part of small intestine) (exper.)
cat (exper.)
- Alaria (Paralaria) taxideae* Swanson and Erickson 1946
Johnson, A. D., 1979, *J. Parasitol.*, v. 65 (1), 154-160
as syn. of *A. (Paralaria) mustelae* Bosma 1931

- Alcicorninae Tendeiro, 1954
Kohn, A., 1971, Atas Soc. Biol. Rio de Janeiro, v. 14 (3-4), 65-66
Prosorhynchidae, includes: *Alcicornis MacCallum*, 1917; *Telerhynchus Crowcroft*, 1947; *Dollfustrema Eckmann*, 1934
- Alcicornis MacCallum*, 1917
Gupta, V.; and Ahmad, J., [1978], An. Inst. Biol., Univ. Nac. Mexico, v. 47 (2), s. Zool., 1976, 9-18
key to species, includes: *Alcicornis multi-dactylus Madhavi*, 1974; *A. scomberi* n. sp.; *A. carangis MacCallum*, 1917; *A. baylisi Nagaty*, 1937; *A. cirrudiscoides Velasquez*, 1959; *A. thapari Hafeezullah and Siddiqi*, 1970; *A. siddiqi Nahas and Cable*, 1960
- Alcicornis MacCallum*, 1917
Kohn, A., 1971, Atas Soc. Biol. Rio de Janeiro, v. 14 (3-4), 65-66
Prosorhynchidae, Alcicorninae
- Alcicornis baylisi Nagaty*, 1937
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Caranx malabaricus: South China Sea
- Alcicornis carangis MacCallum*, 1917
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
Carangoides malabricus (intestine)
- Alcicornis scomberi* n. sp., illus.
Gupta, V.; and Ahmad, J., [1978], An. Inst. Biol., Univ. Nac. Mexico, v. 47 (2), s. Zool., 1976, 9-18
key
Scomber microlepidotus (intestine): Bay of Bengal, at Puri, Orissa
- Alcicornis thapari Hafeezullah and Siddiqi*, 1970
Gupta, V.; and Ahmad, J., [1978], An. Inst. Biol., Univ. Nac. Mexico, v. 47 (2), s. Zool., 1976, 9-18
key
- Allacanthochasmus Van Cleave*, 1933
Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
Cryptogonimidae, Neochasminae
- Allasogonoporus amphoraeformis* (Moedlinger, 1930)
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
Syn.: *Parabascus oppositus Zdzitowiecki*, 1969
- Allencotylya Price*, 1962
Kritsky, D. C.; Noble, E. R.; and Moser, M., 1978, J. Parasitol., v. 64 (1), 45-48
Heteraxinidae, Heteraxininae
emended generic diagnosis
- Allencotylya pricei* sp. n., illus.
Kritsky, D. C.; Noble, E. R.; and Moser, M., 1978, J. Parasitol., v. 64 (1), 45-48
Damalichthys vacca (gills): Redondo Beach, California
- Allobenedenia epinepheli* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
Epinephelus quernus (gills): Hawaii
- Allocreadium* sp., illus.
Iliushina, T. L., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 55-64
description of metacercaria
Psectrocladius psilopterus: Karasuk lake system
- Allocreadium carparum Odening*, 1959
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Cyprinus carpio: Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Allocreadium dogieli*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Blicca bjoerana
all from Dabie lake, Poland
- Allocreadium fasciatusi Kakaji*, 1969, illus.
Madhavi, R., 1978, J. Helminth., v. 52 (1), 51-59
Allocreadium fasciatusi, synonymy, life history, description of life cycle stages, revision of original description
Aplocheilus melastigma (intestine, stomach wall) (nat. and exper.)
Amnicola travancorica (nat. and exper.)
Mesocyclops leuckarti (haemocoel) (exper.)
Microcyclops varicans (haemocoel) (exper.)
Macrocyclus distructus (haemocoel) (exper.)
ostracod (exper.)
Esomus danricus
Ophiocephalus punctatus
Aplocheilus panchax
all from stream near campus of Andhra University, Waltair, India
- Allocreadium fasciatusi Kakagi* 1969
Madhavi, R., 1979, J. Fish Biol., v. 14 (1), 47-58
Allocreadium fasciatusi in *Aplocheilus melastigma*, seasonal changes in incidence and intensity, maturation cycle, host sex and length, seasonal occurrence in intermediate host *Amnicola travancorica*
Aplocheilus melastigma (intestine)
A. panchax
Esomus danricus
Channa punctata
Amnicola travancorica
all from stream at Waltair, India
- Allocreadium isoporum* (Looss, 1894)
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, J. Fish. Research Bd. Canada, v. 33 (11), 2489-2499
Esox lucius (intestine): Aishihik Lake and Stevens Lake, Yukon Territory
Thymallus arcticus (intestine): Aishihik Lake, Yukon Territory
- Allocreadium isoporum*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Rutilus rutilus
Leuciscus idus
all from Kol'skii peninsula, USSR

- Allocreadium isoporum* Zooss
Mashtakov, A. V.; et al., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 68-71
[*Abramis brama*] (intestine): Votkinsk reservoir
- Allocreadium isoporum* (Looss, 1894) Looss, 1900
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
synonymy, description
Rutilus rutilus (intestine): Gdansk Bay (Baltic Sea)
- Allocreadium isoporum* (Looss, 1894)
Skriabina, E. S., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 148-155
description
Leuciscus l. baicalensis
Phoxinus czekanowskii
all from middle course of Kolyma river
- Allocreadium isoporum*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Blicca bjoerena
all from Dabie lake, Poland
- Allocreadium isoporum macrorchis* (Looss, 1894)
Nedeva-Menkova, I., 1977, Khelminologiya, Sofiia, v. 4, 34-39
Barbus meridionalis petenyi
Leuciscus cephalus
(intestine of all): all from Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Allocreadium montanum* Sidorov et Butenko subsp. *pamiri* new subspecies, illus.
Ashurova, M.; and Koval, V. P., 1972, Parazitologiya, Leningrad, v. 6 (4), 391-393
Schizopygopsis stoliczkai
Schizothorax intermedius
Nemachilus stoliczkai
(intestine of all): all from Eastern Pamir
- Allocreadium ophiocephali* Srivastava, 1960, illus.
Madhavi, R.; and Hanumantha Rao, K., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 247-253
Allocreadium ophiocephali, structure of female reproductive system
- Allocreadium pseudotritoni* Rankin, 1937, illus.
Brooks, D. R.; and Fusco, A. C., 1978, J. Mississippi Acad. Sc., v. 23, 95-99
Pseudotriton r. ruber
Desmognathus f. fuscus
all from Athens, Georgia
- Allocreadium transversale*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Phoxinus phoxinus: Kol'skii peninsula, USSR
- Allocreadium transversale* (Rudolphi, 1802)
Skriabina, E. S., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 148-155
description
Catostomus c. rostratus
Thymallus arcticus pallasi
all from middle course of Kolyma river
- Allodiclidophora* Yamaguti, 1963
Lamothe-Argumedo, R., [1968], An. Inst. Biol., Univ. Nac. Mexico, v. 38 (1), s. Zool., 1967, 47-58
Diclidophorinae, key
- Allodiscocotyla lae* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
Scomberoides sancti-petri (gill): Hawaii
- Alloglossidium corti*
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, Tr. Am. Micr. Soc., v. 96 (1), 145-148
Anguilla rostrata
Ictalurus platycephalus
all from middle Georgia
- Alloglossoides* gen. n.
Corkum, K. C.; and Turner, H. M., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 176-178
Macroderoididae
mt: *A. cardiacola* sp. n.
- Alloglossoides cardiacola* sp. n. (mt), illus.
Corkum, K. C.; and Turner, H. M., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 176-178
Procambarus acutus acutus (antennal gland): Rosedale, Iberville Parish, Louisiana
- Alloheterocotyla* n. gen.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
Monocotylidae; Monocotylinae
tod: *A. aetobatis* (Hargis, 1955) n. comb.
- Alloheterocotyla aetobatis* (Hargis, 1955) n. comb. (tod), illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description
Syns.: *Heterocotyle aetobatis* Hargis, 1955; *Heterocotyle floridana* of Pearse, 1949
Aetobatis narinari (gills): Hawaii
- Allomicrocotyla onaga* Yamaguti, 1965, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description
Etelis carbunculus (gill): Hawaii
- Allomonaxine carangoides* Yamaguti, 1965, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description
Carangoides sp. (gills): Hawaii
- Allopodocotyle lepomis* (Dobrovolsky), illus.
Foster, L. A.; and Hall, J. E., 1978, J. Parasitol., v. 64 (2), 376-377
location of gelatinase in several different types of trematode cercariae
Spirodon dilatata: West Virginia
- Allopseudaxine* sp.
Rohde, K., 1978, Biol. Zentralbl., v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Katsuwonus pelamis

- Alloposeudaxine katsuwonis (Ishii, 1936) Yamaguti, 1943, *illus.*
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
description
Katsuwonus pelamys (gill): Hawaii
- Alloposeudaxine yaito n. sp., *illus.*
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
Euthynnus yaito (gill): Hawaii
- Alloposeudaxinidae
Kritsky, D. C.; Noble, E. R.; and Moser, M., 1978, *J. Parasitol.*, v. 64 (1), 45-48
family justified
- Allopseudoaxininae Yamaguti, 1963
Gupta, N. K.; and Chanana, A., 1976, *Rev. Iber. Parasitol.*, v. 36 (3-4), 277-296
Axinidae, key
- Alloposeudaxinoides euthynni Yamaguti, 1965, *illus.*
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
description emended
Euthynnus yaito (gill): Hawaii
- Alloposeudaxinoides vagans (Ishii, 1936) n. comb., *illus.*
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
description
Katsuwonus pelamys (gills): Hawaii
- Alloposeudaxinoides vagans
Rohde, K., 1978, *Biol. Zentralbl.*, v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Katsuwonus pelamys
- Alloposeudodiclidophora opelu Yamaguti, 1965, *illus.*

Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Anas rubripes
Bucephala clangula
(small intestine of all): all from Canada
- Apatemon gracilis* (Rudolphi, 1819)
Noseworthy, S. M.; and Threlfall, W., 1978, J. Parasitol., v. 64 (2), 365-367
Aythya collaris (duodenum, ceca): Canada
- Apatemon gracilis* (Rudolphi 1819), illus.
Palmieri, J. R.; and James, H. A., 1976, Great Basin Nat., v. 36 (1), 97-100
Apatemon gracilis in *Helobdella stagnalis*, *Placobdella parasitica*, and *Erpobdella punctata*, effects of leech behavior on cercarial penetration and localization
- Apatemon gracilis*
Sankurathri, C. S.; and Holmes, J. C., 1976, Canad. J. Zool., v. 54 (10), 1742-1753
parasites and commensals (*Oligochaeta* and larval *Digenea*) of *Physa gyrina* in control area vs. area affected by thermal effluents, prevalence, seasonal changes, interactions (including ingestion of cercariae by oligochete), ecological model: Lake Wabamun, Alberta
- Apatemon gracilis*
Smithers, S. R., 1976, Immunol. Parasit. Infect., 296-332
schistosomiasis, fascioliasis, *Clonorchis sinensis*, *Apatemon gracilis*, immunity, review
- Apatemon gracilis*
Sudarikov, V. E., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 182-194
Herpobdella octoculata: Volga delta
Anas platyrhynchos dom[estica] (exper.)
- Apatemon* (*Apatemon*) *gracilis* (Rudolphi, 1819)
Szidat, 1928
Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (ileum, caeca, cloaca): Baltic Coast, Gdansk Province, Poland
- Apatemon gracilis congolensis* Dubois et Fain, 1956, illus.
Gupta, N. K.; and Miglani, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 219-248
description
wild duck: Port Blair (Andaman and Nicobar Islands), India
- Apatemon gracilis minor* (Yamaguti, 1933), illus.
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
Strigeata, description and taxonomic significance of cercarial sensory apparatus, distribution of sensillae
Limnaea stagnalis: Volga delta
- Apatemon gracilis pellucidus* (Yamaguti, 1933), illus.
Rau, M. E.; and Gordon, D. M., 1977, Canad. J. Zool., v. 55 (7), 1200-1201
Apatemon gracilis pellucidus, technique for demonstration of metacercariae in deep tissues of *Culaea inconstans*: Ile Perrot, Province Quebec
- Apatemon gracilis pellucidus* (Yamaguti, 1933)
Rau, M. E.; and Gordon, D. M., 1978, J. Fish Dis., v. 1 (3), 259-263
Apatemon gracilis pellucidus in *Culaea inconstans*, frequency distribution and localization in host populations of homogeneous age and size structure: swamp on Ile Perrot, Province of Quebec, Canada
- Apatemon* (*Australapatemon*) *intermedius* (S. J. Johnston, 1904)
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
brief description
Oxyura australis: Tailem Bend, South Australia
Accipiter fasciatus: Mallala, South Australia
- Apatemon* (*Apatemon*) *jamesi* sp. n., illus.
Palmieri, J. R.; Krishnasamy, M.; and Sullivan, J. T., 1979, J. Helminth., v. 53 (1), 51-63
life cycle
Anas platyrhynchos (upper to middle small intestine) (nat. and exper.): Kuala Pilah, Negri Sembilan, Kampung Panglang, Sri Menanti Town, West Malaysia
Lymnaea rubiginosa (nat. and exper.): West Malaysia
Hirudinaria manillensis: West Malaysia
Dinobdella ferox (nat. and exper.): West Malaysia
- Apatemon* (*Australapatemon*) *minor* Yamaguti, 1933
Grytner-Ziecina, B.; and Sulgostowska, T., 1978, Acta Parasitol. Polon., v. 25 (11-20), 121-128
trematodes of 3 spp. of *Anatinae*, distribution in host intestine
Oidemia fusca (jejunum, ileum): Baltic Coast
- Apatemon minor*
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Planorbis planorbis: Crimea
- Apatemon* (*Australapatemon*) *minor* Yamaguti, 1933, illus.
Zajicek, D., 1971, Folia Parasitol., v. 18 (1), 50
measurements
Planorbis planorbis: fishpond Klec near Lomnice n/Luzn
Erpobdella octoculata (muscles): fishpond Klec near Lomnice n/Luzn
Hirundo rustica (exper.) (mucosa of duodenum, jejunum)

- Apatemon* (*Apatemon*) *somateriae* Dubois, 1948
Grytner-Zieciná, B.; and Sulgostowska, T.,
1978, *Acta Parasitol. Polon.*, v. 25 (11-20),
121-128
trematodes of 3 spp. of Anatinae, distri-
bution in host intestine
Somateria mollissima (jejunum): Baltic Coast
- Apatemon* (*Apatemon*) *vitelliresiduus* n. sp.,
illus.
Dubois, G.; and Angel, L. M., 1972, *Tr. Roy.
Soc. South Australia*, v. 96 (4), 197-215
Biziura lobata (intestine): Taillem Bend,
Purnong and Caloot, R. Murray, South Aus-
tralia; Sandgate, Queensland
- Aphalloides coelomicola* Dollfus et coll., 1957
Deblock, S., 1978, *Ann. Parasitol.*, v. 53 (6),
577-593
Hydrobia ventrosa: cote de France (Mediterranean) ?
- Aphalloides coelomicola*
Vaes, M., 1978, *Vlaams Diergeneesk. Tijdschr.*,
v. 47 (3), 274-278
Aphalloides coelomicola in *Pomatoschistus*
microps (coelom), incidence and intensity
from July to October: Dievenгат, Belgium
- Aphalloides coelomicola* Dollfus, Chabaud and
Golvan, 1967
Vaes, M., 1979, *Ann. Parasitol.*, v. 54 (3),
303-312
multiple infection of *Hydrobia stagnorum*
with larval trematodes, interactions between
parasite species: north of Belgium
- Aphanurus* sp.
Meyers, T. R., 1978, *Proc. Helminth. Soc.
Washington*, v. 45 (1), 120-128
Brevortia tyrannus (stomach): Raritan Bay,
New Jersey
- Aphanurus balticus* Slusarski, 1957
Nikolaeva, V. M., 1966, *Respublik. Mezhved-
omstv. Sborn.*, Akad. Nauk Ukrain. SSR, s.
Biol. Moria, 52-66
as syn. of *Aphanurus stossichi* (Monticelli,
1891) Looss, 1907
- Aphanurus stossichi*
Chernyshenko, A. S., 1966, *Respublik. Mezhved-
omstv. Sborn.*, Akad. Nauk Ukrain. SSR, s.
Biol. Moria, 105-113
ichthyoparasite fauna, extensity and inten-
sity of invasion, species composition 4
estuaries, Black Sea (northern coastal re-
gion)
- Aphanurus stossichi* (Monticelli, 1891) Looss,
1907, illus.
Nikolaeva, V. M., 1966, *Respublik. Mezhved-
omstv. Sborn.*, Akad. Nauk Ukrain. SSR, s.
Biol. Moria, 52-66
Syn.: *Aphanurus balticus* Slusarski, 1957
Engraulis encrasicholus
Box boops
Myctophum punctatum
all from Adriatic Sea [and/or] Tyrrhenian
Sea
- Aphanurus stossichi* (Monticelli, 1891) Looss,
1907
Nikolaeva, V. M.; and Kovaleva, A. A., 1966,
Respublik. Mezhvedomstv. Sborn., Akad. Nauk
Ukrain. SSR, s. *Biol. Moria*, 67-79
Trachurus mediterraneus ponticus: Mediter-
ranean basin
- Aphanurus stossichi* (Monticelli, 1891), illus.
Zaika, V. E.; and Solonchenko, A. I., 1966,
Respublik. Mezhvedomstv. Sborn., Akad. Nauk
Ukrain. SSR, s. *Biol. Moria*, 140-141
description of metacercaria
Acartia clausi (body): Black Sea in region
of Sevastopol
- Apharyngostrigea*
Shigin, A. A., 1974, *Trudy Gel'mint. Lab.*,
Akad. Nauk SSSR, v. 24, 220-232
key to some genera based on cercarial sen-
sory apparatus
- Apharyngostrigea* sp., illus.
Shigin, A. A., 1974, *Trudy Gel'mint. Lab.*,
Akad. Nauk SSSR, v. 24, 220-232
Strigeata, description and taxonomic sig-
nificance of cercarial sensory apparatus,
distribution of sensillae
Galba palustris: Volga delta
- Apharyngostrigea cornu*
Astakhova, T. V.; and Stepanova, G. A., 1972,
Parazitologiya, Leningrad, v. 6 (4), 364-368
Ctenopharyngodon idella (body cavity): pond
and spawning-nursery fisheries, Volga delta
- Apharyngostrigea cornu*
Ginetsinskaia, T. A.; et al., 1971, *Parazito-
logiya, Leningrad*, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and
fat distribution in yolk glands and complex
eggs, accumulation of reserve substances in
yolk glands appears to vary with type of
egg development (in external environment vs.
in uterus of parent), digenetic trematodes
accumulate only glycogen and not fat
- Apharyngostrigea cornu* (Zeder, 1800)
Leonov, V. A., 1960, *Uchen. Zapiski Gor'kovsk.
Gosudarstv. Pedagog. Inst. im. M. Gor'kii*,
v. 27, 29-37
degree of infection by host age (adult/young)
[*Ardea cinerea*]
[*Ardea purpurea*]
[*Egretta garzetta*]
(intestine of all): all from Black Sea
preserve, Kherson oblast
- Apharyngostrigea simplex* (S. J. Johnston, 1904)
Dubois, G.; and Angel, L. M., 1972, *Tr. Roy.
Soc. South Australia*, v. 96 (4), 197-215
Ardea novaehollandiae (upper intestine):
Taillem Bend, River Murray, South Australia
- Apharyngostrigea squamatoconus* n. sp., illus.

1902) Luehe, 1902
- Apocreadium mexicanum* Manter, 1937
Fischthal, J. H., 1978, *J. Helminth.*, v. 52
(1), 29-39
Apocreadium mexicanum, *Pseudocreadium lamel-
liforme*, *Paracryptogonimus americanus*, allo-
metric growth of body proportions and or-
gans, taxonomic implications
Balistes vetula: off Belize

- Aponurus sp.
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Pomatomus saltatrix (gill filaments): Raritan Bay, New Jersey
- Aponurus carangis Yamaguti, 1952
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Decapterus sp. 4: South China Sea
- Aponurus lagunculus Looss, 1907
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Megalaspis cordyla
Seriola nigrofasciata
Selar crumenophthalmus
Carangidae gen. sp. 1
Atropus atropus
all from South China Sea
- Apophallus brevis Ransom, 1920
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (striated muscle, mainly at base of caudal fin and distal edge of operculum): Ryan Lake, Algonquin Park, Ontario
- Apophallus donicus (Skrjabin et Lindtrop, 1919) Price, 1931, illus.
Wierzbicka, J.; and Wierzbicki, K., 1973, Acta Ichthyol. et Piscat., v. 3 (1), 75-89
description of metacercariae, measurements
Lucioperca lucioperca
Perca fluviatilis
Acerina cernua
all from western Pomerania of Poland
- Apophallus microtestis Leonov, 1957
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young) [*Nycticorax nycticorax*] (intestine): Black Sea preserve, Kherson oblast
- Apophallus muehlingi Jaegerskiold, 1899
Kakacheva-Avramova, D., 1976, Khelminologia, Sofia, v. 1, 12-18
Leuciscus cephalus
Vimba vimba carinata
(fin of all): all from Bulgarian section of Danube River
- Apophallus muehlingi
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Lithoglyphus naticoides: Crimea
- Apophallus muehlingi
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Abramis ballerus
Blicca bjoerckna
all from Dabie lake, Poland
- Apophallus muehlingi (Jaegerskiold, 1899) Luehe, 1909, illus.
Wierzbicka, J.; and Wierzbicki, K., 1973, Acta Ichthyol. et Piscat., v. 3 (1), 75-89
description of metacercariae, measurements
Abramis brama: Dabie lake
A. ballerus: Dabie lake
Blicca bjoerckna
Vimba vimba
Alburnus alburnus
Scardinius erythrophthalmus
all from western Pomerania of Poland
- Apophallus venustus Luhe, 1909
Tedla, S.; and Fernando, C. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 833-843
Perca flavescens (muscle): Bay of Quinte, Lake Ontario
- Aporocotyle simplex Odhner, 1900, illus.
Grabda, J., 1977, Acta Ichthyol. et Piscat., v. 7 (2), 15-34
degree of parasite infestation of *Theragra chalcogramma* (gills, stomach lumen, intestine, between viscera), commercial value: imported from USSR

multiple infection of *Hydrobia stagnorum* with larval trematodes, interactions between parasite species: north of Belgium
- Asymphylodora dneproviana* Ivanitzky, 1928
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of *A. imitans* (Muehling, 1898) Looss, 1899
- Asymphylodora fishelsoni* sp. n., *illus.*
Fischthal, J. H., 1979, J. Helminth., v. 53 (4), 357-362
Asymphylodora fishelsoni sp. n., allometric growth
Aphanius dispar richardsoni (intestine): brackish water spring at Ein Fashkha, north-west shore of the Dead Sea, Israel
- Asymphylodora imitans* Muehling, 1898
Kakacheva-Avramova, D., 1976, Khelminthologia, Sofia, v. 1, 12-18
Blicca bjorkna (intestine): Bulgarian section of Danube River
- Asymphylodora imitans* (Muehling, 1898) Looss, 1899
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
synonymy
Blicca bjoercna
Abramis brama
(intestine of all): all from Gdansk Bay (Baltic Sea)
- Asymphylodora imitans* Muehling, 1898 form "A" *sensu* Szidat 1943
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of *A. kubanicum* (Issaitschikoff, 1923) Markewitsch, 1951
- Asymphylodora imitans*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
A. ballerus
Blicca bjoercna
all from Dabie lake, Poland
- Asymphylodora cubanicum*
Chernyshenko, A. S., 1966, Respublik. Mezhdomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)
- Asymphylodora kubanicum* (Issaitschikov 1923)
Eslami, A.; and Kohneshahri, M., 1978, Acta Zool. et Path. Antverpiensia (70), 153-155
Rutilus rutilus katum: south Caspian Sea, Iran
- Asymphylodora kubanicum* (Issaitschikov, 1923) Markewitsch, 1951
Evans, N. A., 1978, J. Zool., London, v. 184 (2), 143-153
Asymphylodora kubanicum, occurrence in *Bithynia tentaculata* (intermediate host) and *Rutilus rutilus* (intestine) (definitive host), seasonal variation, age of definitive host; annual cycle of occurrence and maturation in roach due primarily to host feeding habits and water temperature: Worcester-Birmingham canal 1 km south of Stoke Works, Bromsgrove
- Asymphylodora kubanicum* (Issaitschikoff, 1923)
Rokicki, J., 1970, Acta Parasitol. Polon., v. 18 (1-12), 71-79
Vimba vimba (intestine): River Vistula, Poland
- Asymphylodora kubanicum* (Issaitschikoff, 1923) Markewitsch, 1951, *illus.*
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
description
Syn.: *A. imitans* Muehling, 1898 form "A" *sensu* Szidat 1943
Vimba vimba
Coregonus lavaretus
Abramis brama
Blicca bjoercna
Zoarces viviparus
Leuciscus idus
Rutilus rutilus
(intestine of all): all from Gdansk Bay (Baltic Sea)

- Asymphylodora kubanicum*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama: Dabie lake, Poland
- Asymphylodora markewitschi* Kulakovska, 1947
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
Vimba vimba
Leuciscus idus
(intestine of all): all from Gdansk Bay (Baltic Sea)
- Asymphylodora tincae* (Modeer, 1790), illus.
van den Broek, E.; and de Jong, N., 1979, J. Helminth., v. 53 (1), 79-89
Asymphylodora tincae, life cycle, morphology of various stages
Syn.: *Cercariaeum paludinae impurae* De Filipi, 1854
Tinca tinca (intestines) (nat. and exper.)
Bithynia tentaculata (digestive gland) (nat. and exper.)
B. leachi
Physa fontinalis
Lymnaea peregra
all from small lake near Amsterdam, Netherlands
- Asymphylodora tincae* (Modeer, 1790)
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Tinca tinca: Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Asymphylodora tincae* (Modeer, 1790) Luehe, 1909
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
synonymy
Tinca tinca (intestine): Gdansk Bay (Baltic Sea)
- Asymphylodora tincae* (Modeer, 1790), illus.
Skriabina, E. S., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 148-155
description
Leuciscus l. baicalensis (intestine)
Catostomus c. rostratus
all from middle course of Kolyma river
- Athesmia* sp.
Leong, T. S.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 122-126
parasites of *Rattus r. diardii*, influence of human habitats on rat parasite fauna
Rattus rattus diardii (hepatic-portal vein): Kuala Lumpur and nearby villages
- Athesmia heterolecithodes* (Braun 1899)
Davidson, W. R.; et al., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 156-161
Bonasa umbellus: West Virginia
- Atlanticotyle* gen. n.
Mamaev, Iu. L.; and Zubchenko, A. V., 1978, Zool. Zhurnal, v. 57 (8), 1131-1139
Diclidophoridae, Diclidophoropsinae
tod: *A. notacanthi* sp. n.
- Atlanticotyle notacanthi* sp. n. (tod), illus.
Mamaev, Iu. L.; and Zubchenko, A. V., 1978, Zool. Zhurnal, v. 57 (8), 1131-1139
Notacanthus nasus (gills): northern section of Atlantic Ocean, region of underwater ridge of Reykjanes
- Atrophecaecum burminis* Bhale Rao, 1940, illus.
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
- Auritelorchis* nom. nov.
Stunkard, H. W., 1979, Tr. Am. Micr. Soc., v. 98 (1), 142
for: *Paratelororchis* Stunkard & Franz, 1977, preoccupied by *Paratelororchis* Mehra & Bokhari, 1932
- Auritelorchis auridistomi* (Byrd, 1937) n. comb.
Stunkard, H. W., 1979, Tr. Am. Micr. Soc., v. 98 (1), 142
Syn.: *Paratelororchis auridistomi* (Byrd, 1937) Stunkard & Franz, 1977
- Auritelorchis bifurcus* (Braun, 1900) n. comb.
Stunkard, H. W., 1979, Tr. Am. Micr. Soc., v. 98 (1), 142
Syn.: *Paratelororchis bifurcus* (Braun, 1900) Stunkard & Franz, 1977
- Auritelorchis dollfusi* (Stunkard & Franz, 1977) n. comb.
Stunkard, H. W., 1979, Tr. Am. Micr. Soc., v. 98 (1), 142
Syn.: *Paratelororchis dollfusi* Stunkard & Franz, 1977
- Austroilharzia* [sp.]
Rohde, K., 1978, Search, v. 9 (1-2), 40-42
Larus novaehollandiae: Heron Island (southern end of Great Barrier Reef, 80 km from mainland), Australia
- Austroilharzia pulmonale* sp. nov., illus.
Liu, C. M.; and Pai, K. M., 1974, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 20 (3), 291-296
Capella gallinago gallinago (pulmonary vessels): Tayushu, Huaiteh Hsien and Yinmaho, Kiutai Hsien, Kirin Province, China
- Austroilharzia terrigalensis* Johnston, 1917, illus.
Rohde, K., 1977, Ztschr. Parasitenk., v. 52 (1), 39-51
Austroilharzia terrigalensis, synonymy, description, life cycle, failure to produce cercarial dermatitis in humans
Egretta sacra: Heron Island, Great Barrier Reef, Australia
Larus novaehollandiae (faeces, mucosa): Heron Island, Great Barrier Reef, Australia
Planaxis sulcatus (nat. and exper.) (muscles of foot and mantle): Heron Island, Great Barrier Reef, Australia
chickens (exper.) (mesenteric veins)
- Austroilharzia terrigalensis*
Rohde, K., 1978, Search, v. 9 (1-2), 40-42
Planaxis sulcatus: Heron Island, Australia
chickens (exper.)
- Austroilharzia terrigalensis*
Walter, J. C., 1979, Internat. J. Parasitol., v. 9 (2), 137-140
Austroilharzia terrigalensis in *Velacumantus australis* is always associated with germinal sacs of other trematodes and retards the development of these other species

- Austrobilharzia variglandis*
Kravitz, P.; and Lewis, M., 1977, Rhode Island Med. J., v. 60 (8), 382-383
Austrobilharzia variglandis causing swimmer's itch in humans, clinical aspects, cercarial life cycle, transmission in waters of Rhode Island
- Austrocalicotyle splendens* sp. nov., illus.
Szidat, L., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 155-160
Raja agassizi (cloaca): Atlantico sur
- Austromicrophallus* Szidat, 1964
Deblock, S., 1978, Ann. Parasitol., v. 53 (1), 47-52
as syn. of *Levinseniella* Stiles and Hassall, 1901
- Axine**
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key to species from Hawaiian fishes
- Axine belones* Abildgaard, 1794, illus.
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
monogeneans in *Exocoetus*, patterns of extensivity and intensivity of invasion, both increase with host age
Exocoetus volitans (gills): tropical zones of Indian and Pacific Oceans
- Axine belones* Abildgaard, 1794, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key, description
Parexocoetus brachypterus (gills): Hawaii
- Axine depauperati* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Hemiramphus depauperatus (gills): Hawaii
- Axine ibanezi* n. sp., illus.
Tantalean V., M., 1975, Rev. Biol. Trop., v. 22 (2), 1974, 211-215
Exocoetus volitans (branquias): Chorrillos, Dept. Lima, Peru
- Axine seriola* Ishii, 1936
Ogawa, K.; and Egusa, S., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (6), 388-396
as syn. of *Heteraxine heterocerca* (Goto, 1894) Yamaguti, 1938
- Axine spilonopteris* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Cypselurus spilonopteris (gills): Hawaii
- Axine yamagutii* (Meserve, 1938) Sproston, 1946, illus.
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
monogeneans in *Exocoetus*, patterns of extensivity and intensivity of invasion, both increase with host age
Exocoetus volitans (gills): 16°49'3" [north latitude], 62°02'8" [east longitude], Indian Ocean
- Axinidae**
Gupta, N. K.; and Chanana, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 277-296
emend., key to subfamilies
- Axininae**
Kritsky, D. C.; Noble, E. R.; and Moser, M., 1978, J. Parasitol., v. 64 (1), 45-48
separation from *Heteraxinidae* justified
- Axininae** Monticelli, 1903
Gupta, N. K.; and Chanana, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 277-296
Axinidae, key
- Axinoides**
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key to species from Hawaiian fishes
- Axinoides bulbosus* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Belone platyura (gills): Hawaii
- Axinoides diploporus* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Ablennes hians (gills): Hawaii
- Axinoides kola* Unnithan, 1957, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key, description
Ablennes hians (gills): Hawaii
- Axinoides strongylurae* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Strongylura gigantea (gills): Hawaii
- Azygia longa**
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, Tr. Am. Micr. Soc., v. 96 (1), 145-148
Esox niger: middle Georgia
- Azygia lucii** (Mueller)
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[*Esox lucius*] (stomach)
[*Lucioperca lucioperca*] (stomach)
all from Kamsk reservoir
- Azygia lucii**
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Perca fluviatilis
Thymallus thymallus
Salvelinus alpinus
Rutilus rutilus
all from Kol'skii peninsula, USSR
- Azygia lucii**
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
[*Esox lucius*]: Neman river basin
- Azygia lucii** (Müller, 1776)
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Esox lucius
Stizostedion lucioperca
Perca fluviatilis
Anguilla anguilla
all from Macha Lake fishpond system, Czechoslovakia (N. Bohemia)

- Azygia lucii* (Mueller, 1776) Luehe, 1909
Rokicki, J., 1975, Acta Parasitol. Polon.,
v. 23 (1-11), 37-84
synonymy
Perca fluviatilis (intestine): Gdansk Bay
(Baltic Sea)
- Azygia lucii* Mueller
Vysotskaia, R. U.; and Sidorov, V. S., 1973,
Parazitologiya, Leningrad, v. 7 (1), 51-57
8 helminth species from freshwater fish,
lipid content, variation with respect to
parasite maturity, host species and habitat,
and season
- Azygia lucii* (O. F. Mueller, 1776) Luehe, 1909
Wierzbicki, K., 1970, Acta Parasitol. Polon.,
v. 18 (1-12), 45-55
Perca fluviatilis (intestine): Lake Dargin,
Mazurian Lakeland, Poland
- Azygia marulii* sp. n., illus.
Jaiswal, G. P.; and Narayan, G., 1971, Folia
Parasitol., v. 18 (2), 165-168
Channa marulius (intestine): Hyderabad, A.
P., India
- Azygia robusta* Odhner, 1911
Skriabina, E. S., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 148-155
Stenodus 1[eucichthys] nelma
Brachymystax lenok
Acipenser baeri
[*Coregonus*] (intestine)
Thymallus arcticus pallasi (intestine)
Lota lota (intestine)
all from middle course of Kolyma river
- Azygia rosacea* (v. Nordmann, 1832) n. comb.
Odening, K., 1978, Ang. Parasitol., v. 19 (1),
58-62

- Bacciger Nicoll, 1914
Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
Cryptogonimidae, Baccigerinae
- Bacciger bacciger (Rud., 1819) Nicoll, 1914
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Venus gallina: Novorossiisk bays
- Bacciger bacciger (Rud.)
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Bacciger bacciger (Rud. 1819) Nicoll, 1914
Kovaleva, A. A., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 32-38
seasonal variation of invasion extensity and intensity, host age
Atherina mochon pontica
A. hepsetus
A. bonapartei
(intestine of all): all from Black Sea (region of Karadag)
- Bacciger bacciger (Rud., 1819) Nicoll, 1914
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 67-79
Trachurus mediterraneus ponticus: Mediterranean basin
- Bacciger harengulae (Cercaria pectinata), illus.
Bae, P. A.; Kang, P. A.; and Kim, Y., 1977, Bull. Fish. Research and Development Agency (Kungnip Susan Chinghungwon yon'gu pogo) (18), 131-140
Bacciger harengulae, cercarial development and seasonal incidence in hard clam, Meretrix lusoria (gonad, midgut, gill): western and southern coasts of Korea
- Bacciger harengulae (Cercaria pectinata)
Pyen, C. K.; et al., 1978, Bull. Fish. Research and Development Agency (Kungnip Susan Chinghungwon yon'gu pogo) (20), 97-108
Bacciger harengulae (Cercaria pectinata) in Meretrix lusoria, infection rate, monthly variation, influence of environmental factors and parasitism on mortality of hard clams: west and south coast of Korea
- Baccigerinae Yamaguti, 1958
Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
Cryptogonimidae
includes: Bacciger
- Balfouria monogama (Leiperia, 1908)
Kigaye, M. K., 1977, Bull. Animal Health and Prod. Africa, v. 25 (3), 295-298
Leptoptilos crumeniferus (small intestine): Mukuno abattoir, about 16 km from Kampala, Uganda
- Baschkirovitrema incrassatum
Fleming, W. J.; Dixon, C. F.; and Lovett, J. W., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 131-135
Lutra canadensis (small intestine): Alabama
- Bathycreadium Kabata, 1961
Slusarski, W., 1971, Acta Parasitol. Polon., v. 19 (9-18), 121-132
as syn. of Nicolla Wisniewski, 1933
- Beauchampia alluaudi (Beauchamp 1913)
Bwathondi, P. O. J., 1977, Univ. Sc. J., v. 3 (1-2), 41-44
synonymy
Bufo regularis (urinary bladder): University of Dar es Salaam
- Beaveria beaveri Lee, 1965
Betterton, C., 1979, Internat. J. Parasitol., v. 9 (4), 313-320
intestinal helminths of small mammals, patterns of parasitism with respect to host ecology
Rattus sabanus
R. whiteheadi
all from Peninsular Malaysia
- Beaverostomum brachyrhynchus Gupta, 1963, illus.
Rietschel, G.; and Werding, B., 1978, Ztschr. Parasitenk., v. 57 (1), 57-82
description
Sterna maxima (intestines): Isla de Salamanca, Northern Columbia

Joseph, M. M., 1978, J. Invert. Path., v. 32 (3), 381-383
Bucephalus sp. in *Crassostrea madrasensis* (mantle, digestive gland, normal site of gonad, gills, labial palps), worm measurements, parasitic castration, total inhibition of gametogenesis, seasonal incidence: Mulki estuary
- Bucephalus* sp.
Stephen, D.; and Joseph, M. M., 1977, Science and Culture, v. 43 (9), 387-388
Bucephalus sp., parasitic castration of *Crassostrea madrasensis* (gonads)
Mytilus viridis (gonads): all from South Kanara district, Karnataka
- Bucephalus fragilis* Velasquez, 1959
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Megalaspis cordyla
Chorinemus lysan
all from South China Sea
- Bucephalus haimeanus* (Lacaze-Duthiers, 1854)
Higgins, J. C., 1979, Parasitology, v. 78 (1), 99-106
Bucephalus haimeanus, metacercaria, role of tegument in absorption of particulate material and small molecules in solution
- Bucephalus haimeanus*
Sannia, A.; and James, B. L., 1978, Ztschr. Parasitenk., v. 56 (1), 1-11
as syn. of *Labratrema minimus* (Stossich)
- Bucephalus introversus* Manter, 1940
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Seriola nigrofasciata: South China Sea
- Bucephalus marinum* Vlass
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Bucephalus markewitschi* Koval, 1949
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of *Bucephalus polymorphus* Baer, 1827
- Bucephalus paracheterotentaculates* Velasquez, 1959
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Seriola nigrofasciata
S. dumerili
all from South China Sea
- Bucephalus polymorphus* Baer, 1827
Batur, B., 1977, Acta Parasitol. Polon., v. 24 (20-27), 203-220
Bucephalus polymorphus, *Rhipidocotyle illense*, life cycles, morphology and biology of developmental stages, discovered that cercaria described by Baer, 1927, as *B. polymorphus* is in fact larval stage of *R. illense*, proposal to retain name *B. polymorphus* and to replace *R. illense* with *R. campanula* submitted to International Commission on Zoological Nomenclature
Dreissena polymorpha
Rutilus rutilus
Scardinius erythrophthalmus
Blicca bjoerkna
- Alburnus alburnus*
Tinca tinca
Gobio gobio
Abramis brama
B. bjoerkna X *A. brama*
all from Poland
- Bucephalus polymorphus*
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)

Williams, H. H.; McVicar, A. H.; and Ralph, R., 1970, Symposia Brit. Soc. Parasitol., v. 8, 43-77
Calicotyle sp. and *Pseudanisakis rotundata*, body shape and orientation in host gut
Raja radiata (cloaca, rectum, rectal gland): Scottish waters
- Calicotyle australis* Johnston, 1934
Young, P. C., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 163-175
Aptychotrema banksi: Moreton Bay, Queensland
- Calicotyle kroeyeri* Diesing, 1850, illus.
Lambert, A., 1978, Ann. Parasitol., v. 53 (6), 551-559
8 species of Monogenea of fish, oncomiracidia, ciliated cells, chetotaxy
- Calicotyle kroeyeri*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Raja radiata (cloaca): Scottish waters
- Calicotyle rosinae* sp. n., illus.
Kuznetsova, I. G., 1970, Parazitologiya, Leningrad, v. 4 (4), 312-315
Raja brachyurops (cloaca): Patagonian shelf (Atlantic coast of Argentina)
- Calicotyle sjegi* sp. n., illus.
Kuznetsova, I. G., 1970, Parazitologiya, Leningrad, v. 4 (4), 312-315
Raja brachyurops (oviducts): Patagonian shelf (Atlantic coast of Argentina)
- Calicotylinae
Szidat, L., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 155-160
Calicotylinae, morphology, biology, ecology, review
- Calycodes anthos* (Braun, 1899)
Sey, O., 1977, Acta Zool. Acad. Scient. Hungar., v. 23 (3-4), 387-394
Calycodes anthos, morphology, histopathology
Caretta caretta: Egyptian coast
- Campula oblonga*
Dailey, M. D.; and Walker, W. A., 1978, J. Parasitol., v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Phocoenoides dalli (pancreatic duct): southern California
- Campulla palliata*
Cordes, D. O.; and O'Hara, P. J., 1979, N. Zealand Vet. J., v. 27 (7), 147-150
Delphinus delphis (bile ducts): marine zoological park
- Campula rochebruni* (Poirier 1886) Bittner et Sprehn, 1928
Dailey, M. D.; and Walker, W. A., 1978, J. Parasitol., v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Delphinus delphis (hepatopancreatic duct): southern California
- Capsala
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key to species from Hawaiian fishes
- Capsala sp.
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
monogeneans in *Exocoetus*, patterns of extensivity and intensivity of invasion, both increase with host age
Exocoetus volitans: Pacific Ocean
- Capsala* (*Caballerocotyla*) *biparasitica* (Goto, 1894) Price, 1960, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description, key
caligoid copepod (dorsal surface): Hawaii
- Capsala gotoi* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
caligoid copepod (carapace)
Parathunnus sibi (gills)
all from Hawaii

- Capsala neothunni* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Neothunnus macropterus (gills): Hawaii
- Capsala nozawae* (Goto, 1894) Price, 1938, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description, key
Parathunnus sibi (gills)
Thunnus alalonga (gills)
Acanthocybium solandri (gills)
caligoid copepod
all from Hawaii
- Capsala ovalis* (Goto, 1894) Price, 1938, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description, key
Makaira audax
M. ampla
Tetrapterus angustirostris
Istiophorus orientalis
Istiompax marlina
(gill plates of all): all from Hawaii
- Capsalidae**
Lambert, A., 1978, Ann. Parasitol., v. 53 (4), 351-357
Capsalidae (*Benedenia monticelli*, *Trochopus pini*, *Entobdella soleae*), oncomiracidium, ciliated cells, chetotaxy
- Capsaloides**
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key to species from Hawaiian fishes
- Capsaloides cristatus* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Makaira sp.
Tetrapterus angustirostris
(gills of all): all from Hawaii
- Capsaloides istiophori* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Istiophorus orientalis
Makaira audax
(gills of all): all from Hawaii
- Capsaloides nairagi* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Makaira sp. (gills)
Tetrapterus angustirostris (buccal cavity)
all from Hawaii
- Capsaloides sinuatus* (Goto, 1894) Price, 1938, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description, key
Makaira audax (gills): Hawaii
- Capsaloides tetrapteri* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Tetrapterus angustirostris (gills): Hawaii
- Carassotrema kui* Tang et Ling
Wu, P. H.; et al., 1975, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 21 (2), 190-198
parasites of fishes: China
- Cardiocephaloides brandesii* (Szidat, 1928) Sudarikov, 1959, illus.
Rietschel, G.; and Werding, B., 1978, Ztschr. Parasitenk., v. 57 (1), 57-82
description
Sterna maxima (intestines): Isla de Salamanca, Northern Columbia
- Cardiocephaloides hilli* (S. J. Johnston, 1904), illus.
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
description
Larus novaehollandiae (duodenum, intestine): Glenelg, West Island, and St. Kilda, South Australia
- Cardiocephaloides musculosus* (S. J. Johnston, 1904), illus.
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
description
Chlidonias hybrida: Tailem Bend, South Australia
Hydroprogne caspia: Townsville, Queensland (small intestine of all)
- Cardiocephaloides ovicorpus* n. sp., illus.
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
Phalacrocorax melanoleucos brevirostris: Dunedin, New Zealand
P. varius: Port Gawler, South Australia (intestine of all)
- Cardiocephalus longicollis* (Rudolphi, 1819) Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 88-92
Larus argentatus: northern areas of Central Siberia
- Cardiocephalus longicollis* (Rud., 1819), illus.
Sudarikov, V. E.; and Karmanova, E. M., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 174-178
Cardiocephalus longicollis, partial life cycle, metacercaria described, cercaria could be *Cercaria pseudonassae*
Diplodus annularis (cerebrum)
Gobius melanostomus (cerebrum)
G. batrachocephalus "
G. niger "
Spicara maris "
Uranoscopus scaber "
Larus minutus (exper.) (duodenum, small intestine)
all from Black Sea at south coast of Crimea
- Carmyerius* sp., illus.
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, J. Nat. Hist., v. 13 (4), 499-506
Bulinus forskali (digestive gland): Lochinvar National Park, Zambia
- Carmyerius* sp., may be *C. spatiosus*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, J. Helminth., v. 53 (3), 251-252
Bulinus forskali: Lochinvar National Park, Zambia
sheep (exper.)
- Carmyerius* sp. possibly either *C. mancupatus* or *C. spatiosus*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, J. Nat. Hist., v. 13 (4), 499-506
Kobus leche kafuensis (rumen): Lochinvar National Park, Zambia

- Carmyerius mancupatus*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, *J. Helminth.*, v. 53 (3), 251-252
Kobus leche (rumen): Lochinvar National Park, Zambia
- Carmyerius spatiosus, illus.*
Pacenovskiy, J.; Hovorka, J.; and Krupicer, I., 1975, *Folia Vet.*, v. 19 (1-2), 191-201
description
Ovis aries: Mongolische Volksrepublik

Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, *J. Helminth.*, v. 53 (3), 251-252
Kobus leche (rumen): Lochinvar National Park, Zambia
- Carmyerius synethes* (Fischoeder, 1901) Stiles & Goldberger, 1910, *illus.*
Eduardo, S. L., 1975, *Philippine J. Vet. Med.*, v. 14 (1), 117-124
description
carabaos (rumen): National Abattoir, Marulas, Valenzuela, Bulacan, Philippines
- Carmyerius synethes* (Fischoeder, 1901)
Eduardo, S. L., [1977], *Philippine J. Vet. Med.*, v. 15 (1-2), 1976, 117-122
Carmyerius synethes and *Gastrothylax crumenifer* from slaughtered animals, egg-shell formation, histochemical observations
- Castroia nyctali* Gvozdev, 1953
Skvortsov, V. G., 1971, *Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk* (6), 53-59
Syn.: *Paralecithodendrium kasakhstanica* Tschun-Sjun et Genis, 1962-1963
- Catadiscus Freitaslenti* Ruiz, 1934
Masi Pallares, R.; and Maciel, S., 1974, *Rev. Paraguaya Microbiol.*, v. 9 (1), 55-60, refs. 54
Leptodactylus typhonius (intestino grueso): Paraguay
- Catadiscus inopinatus* Freitas, 1941
Musi Pallares, R.; and Maciel, S., 1974, *Rev. Paraguaya Microbiol.*, v. 9 (1), 55-60, refs. 54
Leptodactylus ocellatus (intestino grueso): Paraguay
- Catantropis rauschi* sp. nov., *illus.*
Gupta, V.; and Jehan, A., [1979], *An. Inst. Biol., Univ. Nac. Mexico*, v. 48 (1), s. Zool., 1977, 13-26
Anas poecilorhyncha (intestine): Lucknow
- Catantropis verrucosa* (Froelich, 1789) Odhner, 1905, *illus.*
Brglez, J., 1974, *Zborn. Bioteh. Fak. Univ. Ljubljani, Vet.*, v. 11 (1-2), 171-175
Anas platyrhynchos
A. crecca
Bithynia tentaculata
all from Slovenia
- Catantropis verrucosa* (Froelich, 1789) Odhner, 1905
Filimonova, L. V., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 179-186
Cygnus bewickii
Anser fabalis
Anas platyrhynchos
A. falcata
A. penelope
A. acuta
A. crecca
Anas sp.
Bucephala clangula
Aythya fuligula
A. marila
Anas formosa
all from Yakutiia
- Cathaemasia spectabilis* (Odhner, 1926)
Kigaye, M. K., 1977, *Bull. Animal Health and Prod. Africa*, v. 25 (3), 295-298
Leptoptilos crumeniferus (mucosal lining of pharynx, and oesophagus): Mukono abattoir, about 16 km from Kampala, Uganda
- Caudotestis* Issaitschikov, 1928
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
redefined
Syn.: *Lebouria* (*Caudotestis*) Issaitschikov, 1928
- Caudotestis nicolli* Issaitschikov, 1928, *illus.*
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
synonymy, description
Anarhichas lupus (intestine): Green Bank, eastern seaboard of Canada
Triglops murrayi (intestine): Grand Bank, Green Bank, and Banquereau, eastern seaboard of Canada
- Cemocotyle noveboracensis* (MacCallum, 1919)
Price, 1962, *illus.*
Caballero y C., E.; and Bravo-Hollis, M., [1968], *An. Inst. Biol., Univ. Nac. Mexico*, v. 38 (1), s. Zool., 1967, 27-34
synonymy, amended, redescribed
Caranx hippos (branquias): Campeche, Camp. Golfo de Mexico, Mexico
- Cemocotyle trachuri* Kovaljova, 1970
Gaevskaia, A. V.; and Kovaleva, A. A., 1979, *Zool. Zhurnal*, v. 58 (8), 1110-1116
as syn. of *Cemocotyle trachuri* Dillon et Hargis, 1965
- Cemocotyle trachuri* Dillon et Hargis, 1965, *illus.*
Gaevskaia, A. V.; and Kovaleva, A. A., 1979, *Zool. Zhurnal*, v. 58 (8), 1110-1116
differences in invasion by monogeneans were shown with respect to host species and region
brief description
Syn.: *Cemocotyle trachuri* Kovaljova, 1970
Trachurus t. trachurus: North Sea
- Cemocotylella carangis* n. sp., *illus.*
Yamaguti, S., 1968, *Monogenetic trematodes of Hawaiian fishes*, 287 pp., *illus.*
Caranx helvolus (gill): Hawaii

- Cemocotylella elongata* (Meserve, 1938)
Euzet, L.; and Vala, J. C., 1977, *Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico*, 35-44
Mulloidichthys martinicus (branchies): Guadeloupe
- Centrocestus* spp.
Saito, S.; et al., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Centrovarium* Stafford, 1902
Lamothe-Argumedo, R., [1973], *Rev. Soc. Mexicana Hist. Nat.*, v. 31, 1970, 183-191
Cryptogonimidae, Cryptogoniminae
- Cephalogonimus mehrai* Pande, 1932
Lakshmi, V. V.; and Rao, K. H., 1978, *Ztschr. Parasitenk.*, v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
Lissemys punctata punctata (intestine)
- Cephalogonimus retusus* Dujardin
Bozhkov, D., 1976, *Khelmitologiya, Sofiya*, v. 1, 5-11
helminths, transmission experiments, *Rana ridibunda* to *Rana dalmatina*
- Cephalogonimus retusus* (Dujardin, 1845) Odhner, 1910
Frandsen, F., 1974, *Acta Parasitol. Polon.*, v. 22 (1-11), 49-66
Rana esculenta (ductus choledochus): Denmark

ceneses: Crimean coast
- Cercaria catascopii* n. sp., illus.
Scott, M. E.; and Burt, M. D. B., 1976, Canad.
J. Zool., v. 54 (12), 2200-2207
Cercaria catascopii n. sp., causative agent
of swimmers' itch, distribution of infected
snails in lakes of recreational importance
Lymnaea c. catascopium: Magaguadavic Lake
(York County), Chamcook Lake, & Lake Utopia
(Charlotte County), New Brunswick, Canada
Physa gyrina: Magaguadavic Lake (York
County), New Brunswick, Canada
- Cercaria catenata* Cawston, 1917, illus.
Jain, G. P.; and Yadav, D. C., 1967, Rev.
Biol. Trop., v. 15 (1), 185-193
division of echinostome cercariae into 3
main groups (Echinosolenata; Echinobiso-
lenta; Echinopolysolenata) based on their
excretory system
- Cercaria cellulosa* Looss
Stadnichenko, A. P., 1972, Parazitologia,
Leningrad, v. 6 (2), 154-160
10 trematode spp. in *Viviparus viviparus*,
pathogenic effect studied by histological
and histochemical methods, host sex differ-
ences with respect to parasite occurrence,
intensity, and localization: Ukraine [and/
or] lower Volga

- Cercaria cerastodermae* I nom. nov. [i. e. new sp.], illus.
Sannia, A.; James, B. L.; and Bowers, E. A., 1978, *J. Nat. Hist.*, v. 12 (5), 487-500
cercariae and metacercariae, mother and daughter sporocysts
Syn.: *Cercaria lepidapedon rachion* (Cobbold, 1858) *sensu* Lebour, 1908; *Lepidapedon rachion* (Cobbold, 1858) *sensu* Lebour, 1908
Cerastoderma edule (haemocoel of digestive gland, gonad): Kyle of Tongue, North Scotland; lower Thames estuary at Chalkwell ooze and Maplin Sands
- Cercaria cerastodermae* I Sannia, James, and Bowers, 1978
Sannia, A.; and James, B. L., 1978, *Ztschr. Parasitenk.*, v. 56 (1), 1-11
Cercaria cerastodermae I in *Cerastoderma edule*, variations in occurrence as related to season, size, age, distribution and species of host; double infections with other trematodes: Thames estuary
- Cercaria chackai* Nadakal et al., 1969, illus.
Sundararaman, V.; and Nadakal, A. M., 1979, *Cell and Tissue Research*, v. 201 (3), 479-486
Cercaria chackai, striated muscle of tail, ultrastructure
- Cercaria chandrapali* n. sp., illus.
Bansal, A. K.; and Jain, S. P., 1978, *Agra Univ. J. Research, Science*, v. 25 (3), 1976, 5-10
Cercaria chandrapali, encystment [lapsus p. 5 as *C. chandrapali*]
Indoplanorbis exustus: Kithum Lake, District Agra, U. P., India
- Cercaria chauhani* Pandey and Jain, 1971, illus.
Bansal, A. K., 1978, *Agra Univ. J. Research, Science*, v. 25 (3), 1976, 11-19
Cercaria chauhani, redescription, encystment, longevity in various mediums
Indoplanorbis exustus: Keetham Lake, Agra District, India
- Cercaria chelawaensis* n. sp., illus.
Srivastava, S., 1978, *Proc. Indian Acad. Sc.*, Sect. B, *Animal Sc.*, v. 87 (12), 329-337
Indoplanorbis exustus: pond in village Chelawa four miles from Lucknow
- Cercaria chinahatensis* n. sp., illus.
Srivastava, S., 1978, *Proc. Indian Acad. Sc.*, Sect. B, *Animal Sc.*, v. 87 (12), 329-337 [lapsus p. 332 as *C. chinahatesis*]
Indoplanorbis exustus: Chinahat lake, Lucknow
- Cercaria chinahatesis* [lapsus p. 332 for *C. chinahatensis* n. sp.]
Srivastava, S., 1978, *Proc. Indian Acad. Sc.*, Sect. B, *Animal Sc.*, v. 87 (12), 329-337
- Cercaria chisolinata* Faust, 1918
Jain, G. P.; and Yadav, D. C., 1967, *Rev. Biol. Trop.*, v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (*Echinostolenata*; *Echinobisolenta*; *Echinopolysolenata*) based on their excretory system
- Cercaria chungathi* Peter and Srivastava, 1955
Jain, S. P., 1977, *Agra Univ. J. Research*, v. 25 (1), 1976, 81-98
amphistome and other (unidentified) trematode infections of aquatic snails, incidence, seasonal variation
Gyraulox convexusculus: Bareilly District (U. P., India)
- Cercaria clavicauda* sp. n., illus.
Niewiadomska, K., 1970, *Acta Parasitol. Polon.*, v. 18 (27-41), 341-346
Spiralina vortex: Stregiel Lake (Mazurian Lakeland), Poland
- Cercaria complexa* Faust, 1919
Jain, G. P.; and Yadav, D. C., 1967, *Rev. Biol. Trop.*, v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (*Echinostolenata*; *Echinobisolenta*; *Echinopolysolenata*) based on their excretory system
- Cercaria constricta* Faust, 1919, illus.
Jain, G. P.; and Yadav, D. C., 1967, *Rev. Biol. Trop.*, v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (*Echinostolenata*; *Echinobisolenta*; *Echinopolysolenata*) based on their excretory system
- Cercaria cordiformis* Wesenberg-Lund, 1934
Bykhovskaia, I. E. (*Pavlovskaja*); and Kulakova, A. P., 1971, *Parazitologija, Leningrad*, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Cercaria cotylicerca* A Dollf.
Dolgikh, A. V., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. *Biol. Moria*, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria cotylicerca* B Dollf.
Dolgikh, A. V., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. *Biol. Moria*, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria creta*
Saito, S.; et al., 1975, *Kiseichugaku Zasshi* (*Japan. J. Parasitol.*), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria cristata* La Valette, 1855
Bykhovskaia, I. E. (*Pavlovskaja*); and Kulakova, A. P., 1971, *Parazitologija, Leningrad*, v. 5 (3), 222-232
Bithynia leachi: Kurish Gulf
- Cercaria dichotoma* Lebour, 1911
Pascoe, D.; and Richards, R. J., 1970, *Acta Parasitol. Polon.*, v. 18 (1-12), 107-114
Cercaria dichotoma, daughter sporocysts, variation in respiratory quotient over a period of starvation
- Cercaria dichotoma* Lebour, 1911
Richards, R. J.; Pascoe, D.; and James, B. L., 1970, *Acta Parasitol. Polon.*, v. 18 (27-41), 347-357
Cercaria dichotoma, daughter sporocysts containing metacercariae, variations in metabolism during starvation in sea water and in L-glutamine and glucose solution

- Cercaria distyloides*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria dogieli* Dolgikh
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria douglasi*
Sankurathri, C. S.; and Holmes, J. C., 1976, Canad. J. Zool., v. 54 (10), 1742-1753
parasites and commensals (Oligochaeta and larval Digenea) of *Physa gyrina* in control area vs. area affected by thermal effluents, prevalence, seasonal changes, interactions (including ingestion of cercariae by oligochaete), ecological model: Lake Wabamun, Alberta
- Cercaria emasculans* Pelseneer, 1906
Pois, N. V.; Tsimbaliuk, A. K.; and Ardasheva, N. V., 1974, Parazitologiya, Leningrad, v. 8 (5), 413-419
Renicolidae
key
- Cercaria equitator* Sinitz.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria euxinica* nov. sp., illus.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Gibbula euxinica: region of Liubvi cape, Novorossiisk
- Cercaria fennica* II Wikgren, 1956, illus.
Bykhovskaia, I. E. (Pavlovskaja); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Cercaria flexicorpa* Collins
Foster, L. A.; and Hall, J. E., 1978, J. Parasitol., v. 64 (2), 376-377
location of gelatinase in several different types of trematode cercariae
Helisoma trivolvis: Tygart River, West Virginia
- Cercaria furcicauda* Faust
Foster, L. A.; and Hall, J. E., 1978, J. Parasitol., v. 64 (2), 376-377
location of gelatinase in several different types of trematode cercariae
Spirodon dilatata: West Virginia
- Cercaria ghaziaporzanae* n. sp., illus.
Nasir, P., 1979, Internat. J. Parasitol., v. 9 (4), 293-295
Gundlachia sp.: Laguna de Los Patos, near Universidad de Oriente, Cumana, Venezuela
- Cercaria gibbulae* Dolgikh
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria gymnocephala* sp., illus.
Bykhovskaia, I. E. (Pavlovskaja); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata
E. leachi
all from Kurish Gulf
- Cercaria gynetzinskaji* Dolgikh
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria gyraulusi* Peter and Srivastava, 1955
Jain, S. P., 1977, Agra Univ. J. Research, v. 25 (1), 1976, 81-98
Gyraulus convexiusculus: Bareilly District (U. P., India)
- Cercaria gyraulusi* Peter and Srivastava, 1955
Jain, S. P., 1978, Zool. Anz., Jena, v. 200 (3-4), 185-218
as syn. of Gigantocotyle bathycotyle (Fischer, 1901) Nasmark, 1937
- Cercaria helicorbisi* Kumar et al., 1968
Jain, S. P., 1977, Agra Univ. J. Research, v. 25 (1), 1976, 81-98
amphistome and other (unidentified) trematode infections of aquatic snails, incidence, seasonal variation
Helicorbis coenosus: Bareilly District (U.P., India)
- Cercaria helicorbisi* Kumar et al. (1968), illus.
Jain, S. P., 1978, Zool. Anz., Jena, v. 200 (5-6), 360-368
Cercaria helicorbisi, redescription, emergence from snail, swimming activity, longevity, encystment
Helicorbis coenosus: Agra district, India
frog (exper.) (skin)
- Cercaria helvetica* XI Dubois, 1929, illus.
Bykhovskaia, I. E. (Pavlovskaja); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Cercaria helvetica* XII Dubois, 1928, illus.
Bykhovskaia, I. E. (Pavlovskaja); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Cercaria helvetica* XIX Dubois, 1928, illus.
Bykhovskaia, I. E. (Pavlovskaja); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Cercaria hirosheimensis*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria incerta*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan

- Cercaria indicae* XII Sewell, 1922
Jain, G. P.; and Yadav, D. C., 1967, Rev. Biol. Trop., v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (Echinosenolentata; Echinobisolenata; Echinopolysolenata) based on their excretory system
- Cercaria indicae* XX Sewell, 1922
Jain, G. P.; and Yadav, D. C., 1967, Rev. Biol. Trop., v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (Echinosenolentata; Echinobisolenata; Echinopolysolenata) based on their excretory system
- Cercaria indicae* XXIII Sewell, 1922
Jain, G. P.; and Yadav, D. C., 1967, Rev. Biol. Trop., v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (Echinosenolentata; Echinobisolenata; Echinopolysolenata) based on their excretory system
- Cercaria indicae* XXVI
Hafeez, M.; and Rao, B. V., 1979, Indian Vet. J., v. 56 (7), 622
gamma-irradiated metacercariae of *Cercaria indicae* XXVI, failure to infect lamb
- Cercaria indicae* XLVIII Sewell, 1922
Jain, G. P.; and Yadav, D. C., 1967, Rev. Biol. Trop., v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (Echinosenolentata; Echinobisolenata; Echinopolysolenata) based on their excretory system
- Cercaria innominatum*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria introverta*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria kazachstanica* IV Butenko, 1967
Pojmanska, T., 1975, Acta Parasitol. Polon., v. 23 (1-11), 23-36
as syn. of *Neoleucochloridium holostomum* (Rudolphi, 1819)
- Cercaria kazachstanica* IV Butenko, 1967
Soboleva, T. N.; and Osipovskaia, L. L., 1979, Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol. (1), 26-34
as syn. of *Leucochloridium kazachstanica*
- Cercaria kazachstanica* VIII sp. n., illus.
Beliakova, Iu. V., 1979, Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol. (1), 35-38
Bithynia leachi: Ol'dyr river, Irgiz-Turgaisk basin
- Cercaria kowalewskii* nov. sp., illus.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Hydrobia ventrosa: Sudzhuksk lagoon, Novorossiisk
- Cercaria laevicardium*
Stunkard, H. W., 1978, Biol. Bull., v. 155 (2), 383-394
Lintonium vibex, life cycle, taxonomic relations, literature review, results support the postulate that *Cercaria laevicardium* is larval stage of *L. vibex*
- Cercaria laqueator* Sinitzin, 1911
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Rissoa splendida
R. euxinica
all from Novorossiisk bays
- Cercaria laqueator* Sinitz.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria largofurcata* sp. n., illus.
Bykhovskaia, I. E. (Pavlovskaja); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Cercaria lebouri*
Williams, I. C.; and Ellis, C., 1976, Glasgow Naturalist, v. 19 (4), 307-315
Littorina littoralis
Littorina saxatilis
all from Mainland, Shetland
- Cercaria lepidapedon* rachion (Cobbold, 1858) sensu Lebour, 1908
Sannia, A.; James, B. L.; and Bowers, E. A., 1978, J. Nat. Hist., v. 12 (5), 487-500
as syn. of *Cercaria cerastodermae* I nom. nov. [i. e. new sp.]
- Cercaria levantina* 14, illus.
Lengy, J.; and Gold, D., 1978, Israel J. Zool., v. 27 (4), 209-220
Cercaria levantina 14, 15, and 16, descriptions, swimming behavior, development, encystation attempts with *C. levantina* 16
"Cercaria levantina 14 is a pharyngeal, longifurcate monostome furcocercaria of the Vivax group."
Bithynia sidoniensis: 'Ada stream (near Binyamina), Israel
- Cercaria levantina* 15, illus.
Lengy, J.; and Gold, D., 1978, Israel J. Zool., v. 27 (4), 209-220
Cercaria levantina 14, 15, and 16, descriptions, swimming behavior, development, encystation attempts with *C. levantina* 16
Bithynia sidoniensis: 'Ada stream (near Binyamina), Israel
- Cercaria levantina* 16, illus.
Lengy, J.; and Gold, D., 1978, Israel J. Zool., v. 27 (4), 209-220
Cercaria levantina 14, 15, and 16, descriptions, swimming behavior, development, encystation attempts with *C. levantina* 16
Bithynia sidoniensis: 'Ada stream (near Binyamina), Israel

- Cercaria leyteensis* no. 7 (= *C. philippindica* Tubangui, 1928), illus.
Ito, J., 1977, Japan J. Exper. Med., v. 47 (4), 223-248
description
Melanoides tuberculatus
Antemelania dactylus
A. asperata
all from Leyte Island, Philippines

Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: Hiroshima Prefecture, Japan
- Cercaria limnaea ovata*
Gvozdev, M. A., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Khoz-iaistva, Leningrad, v. 93, 127-129
Lymnaea stagnalis: Kaleval region, Karelia
- Cercaria linearis*
Moore, M. N.; and Halton, D. W., 1977, Ztschr. Parasitenk., v. 53 (1), 115-122
Himasthla leptosoma, *Cryptocotyle lingua*, *Cercaria linearis* in *Littorina littorea*, lysosomal hydrolases in digestive cells of infected and uninfected snails
- Cercaria linearis* Stunkard, 1932, illus.
Popiel, I.; and James, B. L., 1978, Ztschr. Parasitenk., v. 56 (3), 251-265
Cercaria stunkardi, *C. linearis*, daughter sporocysts in chemically defined media, variations in oxygen consumption and ultrastructure, body wall degenerates but contained cercariae remain healthy
- Cercaria littorinae saxatilis* II
Williams, I. C.; and Ellis, C., 1976, Glasgow Naturalist, v. 19 (4), 307-315
Littorina saxatilis: Mainland, Shetland
- Cercaria littorinae saxatilis* IV
Williams, I. C.; and Ellis, C., 1976, Glasgow Naturalist, v. 19 (4), 307-315
Littorina saxatilis: Mainland, Shetland
- Cercaria littorinae saxatilis* V Popiel, 1976, illus.
Popiel, I., 1978, Ztschr. Parasitenk., v. 56 (2), 167-173
Cercaria littorinae saxatilis V daughter sporocyst, ultrastructure of body wall
- Cercaria littorinae saxatilis* V
Stunkard, H. W., 1979, Biol. Bull., v. 156 (2), 234-245
"this larva is so similar to the cercaria of *Odhneria* *odhneri* that specific identity is probable"
- Cercaria longicerca*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria macrostoma*
Williams, I. C.; and Ellis, C., 1976, Glasgow Naturalist, v. 19 (4), 307-315
Lymnaea peregra: Mainland, Shetland
- Cercaria mehrai* (Faruqui) Jain, 1958, illus.
Jain, G. P.; and Yadav, D. C., 1967, Rev. Biol. Trop., v. 15 (1), 185-193
Cercaria mehrai, redescription with emphasis on excretory system; division of echinostome cercariae into 3 main groups (*Echinolenata*; *Echinobisolenta*; *Echinopolysolenata*) based on their excretory system
- Cercaria melaniarum*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria membranosa* Zdun.
Stadnichenko, A. P., 1972, Parazitologiya, Leningrad, v. 6 (2), 154-160
10 trematode spp. in *Viviparus viviparus*, pathogenic effect studied by histological and histochemical methods, host sex differences with respect to parasite occurrence, intensity, and localization: Ukraine [and/or] lower Volga
- Cercaria metentera* Sinitz.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria micrura* Filippi, 1857, illus.
Bykhovskaia, I. E. (Pavlovskiaia); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Cercaria milfordensis* Uzmann
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria misenensis* Palombi
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria monostomen* Ankel, 1962
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
as syn. of *Xiphidiocercaria* II Sordi, 1959
- Cercaria monostyloides*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria myocerca* Villot, 1879, illus.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
description
Angulus exiguus: Novorossiisk bays
- Cercaria nassae* Dolgikh, 1965
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Cyclonassa neritea: Novorossiisk bays
- Cercaria nassae* Dolgikh, 1965
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast

- Cercaria nigrospora* Wergun, illus.
Stadnichenko, A. P., 1972, *Parazitologiya*, Leningrad, v. 6 (2), 154-160
10 trematode spp. in *Viviparus viviparus*, pathogenic effect studied by histological and histochemical methods, host sex differences with respect to parasite occurrence, intensity, and localization: Ukraine [and/or] lower Volga
- Cercaria nikolaewi* nov. sp. [nomen nudum]
Dolgikh, A. V., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Rissoa splendida: region of Liubvi cape, Novorossiisk
- Cercaria nipponensis*
Saito, S.; et al., 1975, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Cercaria ogunis* n. sp., illus.
Doenges, J., 1977, *Ztschr. Parasitenk.*, v. 52 (3), 297-309
Cercaria ogunis n. sp., positive geotaxis and phototaxis, rapid swimming velocity, peculiar organ possibly a statocyst
Bulinus globosus (nat. and exper.): Lufodo and Ipoporo, Abeokuta (Nigeria, Ogun-State)
Rana (nat. and exper.): Ipopora, Abeokuta (Nigeria, Ogun-State)
- Cercaria onkari* Jain, 1969
Jain, S. P., 1977, *Agra Univ. J. Research*, v. 25 (1), 1976, 81-98
amphistome and other (unidentified) trematode infections of aquatic snails, incidence, seasonal variation
Indoplanorbis exustus: Bareilly District (U. P., India)
- Cercaria opacocorpa* Cable, illus.
Foster, L. A.; and Hall, J. E., 1978, *J. Parasitol.*, v. 64 (2), 376-377
location of gelatinase in several different types of trematode cercariae
Spirodon dilatata: West Virginia
- Cercaria ophicerca* Palombi, 1934
Dolgikh, A. V., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Meretrix rudis
Gouldia minima
all from Novorossiisk bays
- Cercaria ophicerca* Palombi
Dolgikh, A. V., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria orientalis* 5 sp. n., illus.
Pois, N. V.; Tsimbaliuk, A. K.; and Ardasheva, N. V., 1974, *Parazitologiya*, Leningrad, v. 8 (5), 413-419
Microphallidae
Littorina kurila (digestive gland): Sea of Okhotsk, western coast of Kamchatka, Ust-Tigilia region, cape Babushkina
- Cercaria orientalis* 6 sp. n., illus.
Tsimbaliuk, A. K.; and Pois, N. V., 1974, *Parazitologiya*, Leningrad, v. 8 (2), 98-102
Littorina brevicula
L. mandchurica
(digestive gland of all): all from Japan Sea, Peter the Great Bay (Pos'et Bay)
- Cercaria orientalis* 7 sp. n., illus.
Tsimbaliuk, A. K.; and Pois, N. V., 1974, *Parazitologiya*, Leningrad, v. 8 (2), 98-102
Falsicingula athera: Japan Sea, Peter the Great Bay (Pos'et Bay), Furugel'ma island
- Cercaria pacifica* 1 sp. n., illus.
Pois, N. V.; Tsimbaliuk, A. K.; and Ardasheva, N. V., 1974, *Parazitologiya*, Leningrad, v. 8 (5), 413-419
Opcoelidae
Falsicingula athera (gonad): Sea of Japan, Peter the Great Bay, Posyet Bay, Furugel'ma island, North cove
- Cercaria pacifica* 2 sp. n., illus.
Pois, N. V.; Tsimbaliuk, A. K.; and Ardasheva, N. V., 1974, *Parazitologiya*, Leningrad, v. 8 (5), 413-419
Renicolidae
key
Littorina squalida (digestive gland): Sea of Japan, Peter the Great Bay, Posyet Bay, Furugel'ma island, West cove
- Cercaria palustris* Chatterji, 1933
Jain, G. P.; and Yadav, D. C., 1967, *Rev. Biol. Trop.*, v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (*Echinolenata*; *Echinobisolenta*; *Echinopolysolenata*) based on their excretory system
- Cercaria parvicaudata* Stunkard & Shaw, 1931, illus.
Bhutta, M. S., 1977, *Biologia*, Lahore, v. 23 (2), 103-109
Cercaria parvicaudata, morphology and histochemistry of penetration and cystogenous gland cells
- Cercaria parvicaudata* Stunkard and Shaw, 1931
Pois, N. V.; Tsimbaliuk, A. K.; and Ardasheva, N. V., 1974, *Parazitologiya*, Leningrad, v. 8 (5), 413-419
Renicolidae
key

Cannon, L. R. G., 1978, Proc. Roy. Soc. Queensland, v. 89, 45-57
Gyliauchenidae (?)
key, brief description of redia
Cerithium moniliferum (haemocoel adjacent to rectum): southern side of Heron Island, Great Barrier Reef, off Queensland
- Cercaria queenslandae* IX n. sp., illus.
Cannon, L. R. G., 1978, Proc. Roy. Soc. Queensland, v. 89, 45-57
Heterophyidae
key, brief description of redia
Cerithium moniliferum (gonad): southern side of Heron Island, Great Barrier Reef, off Queensland

- Cercaria queenslandae* X n. sp., illus.
Cannon, L. R. G., 1978, Proc. Roy. Soc. Queensland, v. 89, 45-57
Hemiuridae
key, brief description of redia
Cerithium moniliferum (lying parallel and adjacent to intestine above mantle cavity): southern side of Heron Island, Great Barrier Reef, off Queensland
- Cercaria reflexae* Cort, 1914
Jain, G. P.; and Yadav, D. C., 1967, Rev. Biol. Trop., v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (Echinosenata; Echinobisolenta; Echinopolysolenata) based on their excretory system
- Cercaria reflexicauda* Khan, 1970
Khan, D.; and Haseeb, M. A., 1976, Pakistan J. Zool., v. 8 (2), 173-176
Ganeo micracetabulus and *Cercaria reflexicauda* cercariae, effects of 5 insecticides at various concentrations, toxicity varies but results indicate cercariae are susceptible to insecticides
Indoplanorbis exustus: vicinity of Lahore, India
- Cercaria rhionica* VIII Olenev et Dobrovolskiy Voronin, V. N., 1974, Parazitologiya, Leningrad, v. 8 (4), 359-364
hyperparasitized by *Nosema rhionicae* sp. n.
Melanopsis praemorsa: reservoirs in valley of Rioni river, Western Caucasus
- Cercaria rissoae* Dolgikh
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria roscovita* Stunkard, 1932
Pois, N. V.; Tsimbaliuk, A. K.; and Ardasheva, N. V., 1974, Parazitologiya, Leningrad, v. 8 (5), 413-419
Renicolidae
key
- Cercaria rothschildi* Palombi
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria sagittarius* Sinitzin, 1911
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Bittium reticulatum: Novorossiisk bays
- Cercaria sagittarius* Sinitz.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria sebastopoli* Dolgikh, 1965
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria secundum* Nicoll, 1906
Jain, G. P.; and Yadav, D. C., 1967, Rev. Biol. Trop., v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (Echinosenata; Echinobisolenta; Echinopolysolenata) based on their excretory system
- Cercaria sinitzini* Rothschild, 1938
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Atlantique)
- Cercaria sinitzini* Rothschild
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria sinuosa* Sinitz.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Cercaria splendens* Szidat, 1932
Gvozdev, M. A.; and Ermakova, S. V., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Khoziaistva, Leningrad, v. 93, 121-124
Cercaria splendens, structure, biology
Anisus vortex
Gyraulus acronicus
all from lakes of Karelia
- Cercaria stunkardi* Palombi, 1934, illus.
Popiel, I.; and James, B. L., 1978, Ztschr. Parasitenk., v. 56 (3), 251-265
Cercaria stunkardi, *C. linearis*, daughter sporocysts in chemically defined media, variations in oxygen consumption and ultrastructure, body wall degenerates but contained cercariae remain healthy
- Cercaria subulo* Pag.
Stadnichenko, A. P., 1972, Parazitologiya, Leningrad, v. 6 (2), 154-160
10 trematode spp. in *Viviparus viviparus*, pathogenic effect studied by histological and histochemical methods, host sex differences with respect to parasite occurrence, intensity, and localization: Ukraine [and/or] lower Volga
- Cercaria tetralophocerca* Rebecq, 1964
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche; Atlantique)
- Cercaria trisolenta* Faust, 1917, illus.
Jain, G. P.; and Yadav, D. C., 1967, Rev. Biol. Trop., v. 15 (1), 185-193
division of echinostome cercariae into 3 main groups (Echinosenata; Echinobisolenta; Echinopolysolenata) based on their excretory system

Isoparorchidae, key
- Cladolecithotrema* Ichihara, 1970
Srivastava, C. B., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 325-333
Isoparorchidae, Isoparorchinae
- Clavunculus bursatus*
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Lepomis macrochirus
Micropterus salmoides
both from Florida
- Cleidodiscus* Mueller
Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Cleidodiscus* sp.
Armas, G., 1979, J. Fish Dis., v. 2 (6), 543-547
Mugil cephalus (gills): Rio Moche coastal lagoon, northern Peru
- Cleidodiscus* sp.
Boxrucker, J. C., 1979, Parasitology, v. 78 (2), 195-206
metazoan parasites of *Ictalurus melas*, seasonal incidence and abundance in thermal outfall area vs. unaltered area, thermal effluent had little effect on incidence, differences in abundance are considered due to factors other than temperature: Lake Monona, Dane County, Wisconsin

- Cleidodiscus alatus* Mueller 1938
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Ambloplites rupestris: Ontario
- Cleidodiscus alatus*
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1251-1253
gill parasites of *Ambloplites rupestris*, role of season, habitat, host age, and sex: Bay of Quinte, and West Lake, Ontario
- Cleidodiscus banghami*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Micropterus dolomieu (gills): Susquehanna River, Pennsylvania
- Cleidodiscus capax*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Pomoxis nigromaculatus (gills): Susquehanna River, Pennsylvania
- Cleidodiscus glenorensis* Hanek and Fernando, 1972
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Ambloplites rupestris: Ontario
- Cleidodiscus glenorensis*
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1251-1253
gill parasites of *Ambloplites rupestris*, role of season, habitat, host age, and sex: Bay of Quinte, and West Lake, Ontario
- Cleidodiscus megalonchus* (Mueller 1936) Mizelle and Hughes 1938
Sullivan, J. R.; et al., 1978, J. Parasitol., v. 64 (5), 810-812
as syn. of *Leptocleidus megalonchus* Mueller 1936
- Cleidodiscus nematocirrus*
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, Tr. Am. Micr. Soc., v. 96 (1), 145-148
Lepomis gulosus
L. macrochirus
all from middle Georgia
- Cleidodiscus pricei* Mueller
Cloutman, D. G., 1978, J. Parasitol., v. 64 (1), 170-172
Cleidodiscus pricei on *Ictalurus platycephalus* (gills), significant difference in intensity among different host age groups but not between males and females, seasonal abundance, possible role of immunity: Lake Norman, North Carolina
- Cleidodiscus pricei*
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Ictalurus nebulosus
Ictalurus natalis
both from Florida
- Cleidodiscus robustus* Mueller 1934
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Lepomis gibbosus: Ontario
- Cleidodiscus robustus* Mueller 1934
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1247-1250
gill parasites of *Lepomis gibbosus*, role of season, habitat, host age, and sex: Ontario, Canada
- Cleidodiscus stentor* Mueller 1937
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Ambloplites rupestris: Ontario
- Cleidodiscus stentor* Mueller 1937
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1244-1246
Cleidodiscus stentor, *Ergasilus centrarchidarum* on *Ambloplites rupestris*, seasonal dynamics and spatial distribution: West Lake and Glenora, Ontario
- Cleidodiscus stentor*
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1251-1253
gill parasites of *Ambloplites rupestris*, role of season, habitat, host age, and sex: Bay of Quinte, and West Lake, Ontario
- Cleithrarticus bulbovagina* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
Acanthurus dussumieri (gills): Hawaii
- Cleithrarticus cleithrarticus* Mizelle, 1963, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description
Acanthurus olivaceus
A. dussumieri
A. mata
(gills of all): all from Hawaii
- Clinostome*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, J. Nat. Hist., v. 13 (4), 499-506
Bulinus forskali: Lochinvar National Park, Zambia
- Clinostomoides brieni* Dollfus, 1950, illus.
Fischthal, J. H.; and Thomas, J. D., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 73-79
description
Clarias senegalensis (pharyngeal region): Nungua Lake, Ghana
- Clinostomulum*
Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
[this name used under the heading "Genus *Clinostomum* Leidy, 1856", apparently being proposed here for larval forms]
- Clinostomulum marginatum* (Rud., 1819), illus.
Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
[this species discussed under the heading "Genus *Clinostomum* Leidy, 1856"; fig. labeled *Clinostomum marginatum* (Rud.)]
Neofundulus paraguayensis (unencysted in body cavity): Formosa Province, Argentina

- Clinostomum* sp.
Combes, C.; and Theron, A., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 141-150
trematodes, periodicity of cercarial emission, types of rhythms and factors synchronizing them, adaptive value in completion of life cycle, potential use in prevention of human and animal infection
- Clinostomum* sp.
Ritakumari, S. D.; and Nair, N. B., 1979, Current Sc., Bangalore, v. 48 (2), 84-85
[Letter]
Lepidocephalus thermalis (skin): stream near Trivandrum city, south-west coast of India
- Clinostomum complanatum*
Ginetsinskaia, T. A.; et al., 1971, Parazitologia, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Clinostomum complanatum* (Rudolphi, 1819), illus.
Grabda-Kazubska, B., 1974, Acta Parasitol. Polon., v. 22 (22-34), 285-293
Clinostomum complanatum, description, presence of larval stage in an artificially warmed lake suggests possibility of acclimatization of parasites brought occasionally to more northern areas by avian hosts during seasonal migration
Perca fluviatilis: Lichenskie Lake (environs of Konin, central Poland)
Rutilus rutilus (gill arch): Lichenskie Lake (environs of Konin, central Poland)
Ardea cinerea (mucosa of oesophagus near pylorus): lake Sniardwy (Mazurian Lake-land), Poland
- Clinostomum complanatum* (Rudolphi, 1819)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[*Ardea cinerea*]
[*Ardea purpurea*]
[*Egretta alba*]
[*Egretta garzetta*]
[*Nycticorax nycticorax*]
all from Black Sea preserve, Kherson oblast
- Clinostomum complanatum* (Rudolphi, 1819), Braun, 1899, illus.
Rietschel, G.; and Werding, B., 1978, Ztschr. Parasitenk., v. 57 (1), 57-82
description
Casmerodius albus (pharynx): Isla de Salamanca, Northern Columbia
- Clinostomum dasi* Bhalerao, 1942
Chakrabarti, K. K., 1970, Rev. Biol. Trop., v. 17 (1), 1969, 91-96
Heteropneustis fossilis: local fish market, India
- Clinostomum marginatum* Rudolphi, 1819
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (body muscle): Ryan Lake, Algonquin Park, Ontario
- Clinostomum marginatum*
Hazen, T. C.; and Esch, G. W., 1978, J. Fish Biol., v. 12 (5), 411-420
Clinostomum marginatum in *Micropterus salmoides*, infection percentages compared in thermal and ambient parts of a reservoir, relationship to body condition and length of host, seasonal changes
Micropterus salmoides
Lepomis gulosus
L. macrochirus
L. auritus
Pomoxis nigromaculatus
all from Par Pond, near Aiken, South Carolina
- Clinostomum marginatum*
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Erimyzon sucetta: Florida
- Clinostomum marginatum* (Rud., 1819)
Tedla, S.; and Fernando, C. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 833-843
Perca flavescens (muscle): Bay of Quinte, Lake Ontario
- Clinostomum tilapiae* Ukoli, 1966
Fischthal, J. H.; and Thomas, J. D., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 73-79
Tilapia heudeloti
T. zillii
T. galilaea
all from Nungua Lake, Ghana
- Cloacitrema narrabeenensis* (Howell & Bearup, 1967), illus.
Dixon, K. E.; and Colton, M., 1978, Internat. J. Parasitol., v. 8 (6), 491-499
Cloacitrema narrabeenensis, cystogenic cells in mature cercariae, surface structures of cercaria, formation of metacercarial cyst wall, light and electron microscopic and histochemical study
- Cloacitrema narrabeenensis*
Walter, J. C., 1979, Internat. J. Parasitol., v. 9 (2), 137-140
Austroilhariza terrigalensis in *Velacumantus australis* is always associated with germinal sacs of other trematodes and retards the development of these other species
- Clonorchiasis
Iwamura, K., 1977, Therapiewoche, v. 27 (38), 6618-6638
helminth infections of liver, humans, diagnosis, pathology, extensive clinical review
- Clonorchiasis
Seo, B. S., 1974, Taehan Uihak Hyophoe Chi (J. Korean Med. Ass.), v. 17 (7), 450-455
human trematode infections, incidence, trends: Korea
- Clonorchis
Akhtaruzzaman, K. M.; et al., 1978, Tropenmed. u. Parasitol., v. 29 (4), 427-431
comparison of different methods for detection of intestinal protozoa and helminths in human stool
- Clonorchis sinensis
Barrett-Connor, E., 1972, South. Med. J., v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel

- Clonorchis sinensis*
Bartlett, M. S.; et al., 1978, J. Clin. Microbiol., v. 7 (6), 524-528
modified zinc sulfate flotation technique evaluated in comparison with formalin-ether concentration method for recovery of protozoan cysts and helminth eggs and larvae from feces preserved in formalin less than and longer than 1 month, results suggest that (except for schistosomes) F-ZnSO₄ compares favorably to FE method for detecting infections of clinical significance
- Clonorchis sinensis, illus.*
Cheah, J. S.; et al., 1970, Singapore Med. J., v. 11 (4), 287-289
Clonorchis sinensis, man, case report, pathology, chloroquine, possibly infected by eating raw fresh-water carp imported from China: Singapore
- Clonorchis sinensis*
Chu, J. K., 1972, Taehan Uihak Hyophoe Chi (J. Korean Med. Ass.), v. 15 (8), 685-690
human parasites, differential diagnosis
- Clonorchis sinensis, illus.*
Fujino, T.; and Ishii, Y., 1979, Internat. J. Parasitol., v. 9 (5), 435-448
6 spp. of digenetic trematodes, gut epithelia, comparative ultrastructural topography, scanning and transmission electron microscopy
- Clonorchis sinensis, illus.*
Fujino, T.; Ishii, Y.; and Choi, D. W., 1979, J. Parasitol., v. 65 (4), 579-590
Clonorchis sinensis, newly excysted juveniles and adult worms, tegument, surface ultrastructure, scanning and transmission electron microscopy
- Clonorchis sinensis, illus.*
Hamajima, F.; et al., 1979, Internat. J. Parasitol., v. 9 (3), 241-249
Clonorchis sinensis, *Metagonimus takahashii*, *Paragonimus miyazakii*, in vitro effects of bithionol and menichlopholan on motility, metabolism, and fine structure
- Clonorchis sinensis, illus.*
Kamiya, H.; et al., 1973, Japan. J. Vet. Research, v. 21 (3), 51-56
stray dogs (bile duct): Sapporo, Hokkaido, Japan
- Clonorchis sinensis, illus.*
Kammerer, W. S.; et al., 1977, Trop. Doctor, v. 7 (3), 105-106
Clonorchis sinensis, incidence survey in Chinese immigrants living in New York City
- Clonorchis sinensis*
Kim, Y. I.; Yang, D. H.; and Chang, K. R., 1974, Soul Uidae Chapchi (Seoul J. Med.), v. 15 (3), 247-255
Clonorchis sinensis, humans, possible relationship to cholangiocellular carcinoma of the liver, comparative evaluation of infected persons from areas of high and low endemicity: Pusan and Seoul areas of Korea
- Clonorchis sinensis*
Kobayashi, M.; et al., 1978, Internat. J. Parasitol., v. 8 (6), 471-477
Paragonimus ohirai, *Clonorchis sinensis*, adults, detection of carbamoyl phosphate synthetase, its catalytic and regulatory properties, some other enzyme activities of pyrimidine nucleotide biosynthesis, actual operation of de novo pyrimidine biosynthetic pathway
- Clonorchis sinensis*
Lee, D. M.; et al., 1975, Soakwa (J. Korean Pediat. Ass.), v. 18 (11), 20-24 (808-812)
Clonorchis sinensis, children living in endemic area, prevalence, effects on nutritional status: Daehap meon, Chang Yeong county, Kyungnam province
- Clonorchis sinensis*
Lee, Y. S., 1979, Trop. and Geog. Med., v. 31 (1), 69-74
pattern of liver diseases in humans, includes information on clonorchiasis, schistosomiasis, ascariasis, and amoebic abscesses: Singapore
- Clonorchis sinensis*
Nagahana, M.; et al., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (1), 41-45
Clonorchis sinensis, *Myocastor coypus* found to be suitable experimental host but no natural infections were found in Okayama Prefecture
- Clonorchis sinensis*
Reeder, M. M., 1975, Seminars Roentgenol., v. 10 (3), 229-243
parasitic infections of human liver and bile ducts, radiologic diagnosis, general review
- Clonorchis sinensis, illus.*
Saito, T., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (3), 132-143
Clonorchis sinensis, cercarial integument, ultrastructure
Parafossarulus manchouricus: Naktong river, Pusan, Korea
- Clonorchis sinensis, illus.*
Schussele, A.; and Laperrouza, C., 1971, Schweiz. Med. Wchnschr., v. 101 (47), 1677-1687; (48), 1713-1717
Fasciola hepatica, *Clonorchis sinensis*, human hepatic infections, extensive clinical review: life cycle, epidemiology, morphology, pathology, diagnosis, therapy, case reports
- Clonorchis sinensis*
Smithers, S. R., 1976, Immunol. Parasit. Infect., 296-332
schistosomiasis, fascioliasis, *Clonorchis sinensis*, *Apatemon gracilis*, immunity, review
- Clonorchis sinensis*
Soulsby, E. J. L., 1976, Immunol. Parasit. Infect., 152-161
helminth infections, serodiagnosis, review
- Clonorchis sinensis*
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Clonorchis sinensis, illus.*
Van Ros, G., 1973, Rev. Franc. Gastro-Enterol. (89), 35-50
human intestinal helminths, differential diagnosis
- C[lonorchis] *sinensis*
Zierdt, W. S., 1978, Am. J. Clin. Path., v. 70 (1), 89-93
human intestinal parasites, description of simple method for recovery of eggs, larva and cysts from feces by concentration device, comparison with other methods of parasite recovery

- Clupecotyle brevoortia* Hargis, 1955
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Brevoortia tyrannus (gill filaments): Raritan Bay, New Jersey
- Cochleotrema* Travassos et Vogelsang, 1931
Sharma, P. N.; and Gupta, A. N., 1971, Folia Parasitol., v. 18 (3), 285-288
Opisthotrematidae, key
- Codonocephalus*
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
key to some genera based on cercarial sensory apparatus
- Codonocephalus urnigerus*
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Codonocephalus urnigerus* (Rud., 1819), illus.
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
Strigeata, description and taxonomic significance of cercarial sensory apparatus, distribution of sensillae
Limnaea stagnalis
Galba palustris
all from Volga delta
- Coitocaecum skrjabini* Ivanitzky, 1928
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of *Nicolla skrjabini* (Ivanitzky, 1928) Dollfus, 1959
- Coitocaecum tropicum* Manter, 1940
Gupta, N. K.; and Miglani, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 219-248
as syn. of *Ozakia tropica* (Manter, 1940) Manter, 1947
- Conchosoma spathula* (Creplin, 1829) Stoss, 1898
Gupta, N. K.; and Mishra, P. N., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 3-33
as syn. of *Neodiplostomum* (*Neodiplostomum*) *attenuatum attenuatum* (Linstow, 1906) La Rue, 1926
- Concinnum*
Groschafft, J., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 81-85
Eurytrematini, key
- Concinnum ellipticum* Travassos, 1944
Petrova, K., 1976, Khelmintologiya, Sofiia, v. 1, 78-87
Dryobates medius (gall bladder): Stara Planina mountain, Bulgaria
- Concinnum ten* Yamaguti, 1939, illus.
Ashizawa, H.; et al., 1978, Bull. Fac. Agric. Univ. Miyazaki, v. 25 (1), 77-84
Concinnum ten in *Martes melampus melampus*, pathology of pancreatic duct: Miyazaki Prefecture
- Concinnum ten*, illus.
Murakami, T.; Ashizawa, H.; and Saito, I., 1978, Bull. Fac. Agric. Univ. Miyazaki, v. 25 (1), 107-110
Meles meles anakuma (pancreatic duct): Miyazaki Prefecture
- Concinnum ten* (Yamaguti, 1939), illus.
Uchida, A.; Itagaki, H.; and Kugi, G., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25(4), 319-323
Nyctereutes procyonoides viverrinus
Vulpes vulpes japonica
Meles meles
Martes m. melampus
Mustela sibirica itatsi (pancreas of all): all from Oita Prefecture, Kyushu, Japan
- Conspicuum*
Groschafft, J., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 81-85
Eurytrematini, key
- Corpopyrum capellae* Yamaguti, 1933
Kifune, T.; and Shiraishi, S., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (3), 144-147
as syn. of *Cyclocoelum* (*Haematotrephus*) *capellae* (Yamaguti, 1933) [? n. comb.]
- Corpopyrum kossacki* Witenberg, 1923
Odening, K., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 109-119
as syn. of *Cyclocoelum brasilianum* Stossich, 1902
- Corrigia vitta* (Dujardin, 1845)
Mas-Coma, S., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 139-154
Eliomys quercinus ophiusae (canales interlobulares del pancreas): isla de Formentera (Balears)
- Corrigia vitta* (Dujardin, 1845), illus.
Mas-Coma, S.; and Montoliu, I., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 95-109
Brachylaemus sp. aff. *recurvus*, *Dollfusinus frontalis*, *Corrigia vitta*, bioecology, distribution in different insular habitats, coexistence in phylogenetically distinct free living small mammals
Eliomys quercinus ophiusae (pancreas): Formentera, Islas Pitiusas
- Cotylospidinae* Yamaguti, 1963
Simpson, D. T.; and McGraw, J. L., jr., 1979, Southwest. Nat., v. 24 (4), 557-561
key to genera
includes: *Laterocotyle* n. gen.; *Cotylogasteroides*; *Cotylogaster*; *Texanocotyle* n. gen.; *Cotylospis*; *Lissemysia*
- Cotylospis*
Simpson, D. T.; and McGraw, J. L., jr., 1979, Southwest. Nat., v. 24 (4), 557-561

(body cavity of all): all from Kamsk reservoir
- Cotylurus platycephalus* (Creplin, 1825)
Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Anas rubripes (bursa): Canada
- Cotylurus platycephalus* (Creplin, 1825) Szidat, 1928, illus.
Niewiadomska, K., 1970, Acta Parasitol. Polon., v. 18 (1-12), 57-70
description, valid species
Podiceps cristatus
Larus ridibundus
all from Poland
- Cotylurus platycephalus* (Creplin, 1825)
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 88-92
Stercorarius pomarinus
Sterna paradisaea
all from northern areas of Central Siberia
- Cotylurus platycephalus*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Abramis ballerus
Blicca bjoercna
all from Dabie lake, Poland
- Cotylurus* (*Ichthyocotylurus*) *platycephalus*
platycephalus (Creplin, 1825)
Dubois, G., 1978, Ann. Parasitol., v. 53 (1), 53-62
synonymy
Podiceps cristatus (bursa Fabr.): Wolgast
Sterna hirundo (bursa Fabr.): Wolgast
Falco albicilla (bursa Fabr.): Wolgast
Colymbus spec. (bursa Fabr.)
Larus flavipes (bursa Fabr.): Greifswald
L. argentatus (bursa Fabr.): Greifswald
L. ridibundus (bursa Fabr.): Greifswald
Lestris pomarina (bursa Fabr.): Greifswald
Larus medius (bursa Fabr., intestine): Greifswald
Colymbus ruficularis (sic): Wolgast?
Alca torda: Greifswald
Larus sp.?: Wolgast
Larus marinus: Greifswald
Uria troile (sic): Greifswald
Larus fuscus: Greifswald
- ?*Cotylurus strictus* Endrigkeit, 1940
Odening, K., 1979, Ann. Parasitol., v. 54 (2), 171-183
as syn. of *Ichthyocotylurus variegatus* (Creplin, 1825)

- Cotylurus strigeoides*, illus.
Zajicek, D., 1971, *Folia Parasitol.*, v. 18 (2), 113-118
description
Columba livia dom. (exper.)
Gallus gallus (exper.) (first half of jejunum)
Anas platyrhynchos dom. (nat. and exper.)
A. platyrhynchos
A. strepera
Aythya ferina
A. fuligula
Lymnaea stagnalis
L. auricularia
all from southern Bohemia
- Cotylurus sullivanii* sp. n., illus.
Palmieri, J. R.; Krishnasamy, M.; and Sullivan, J. T., 1979, *J. Helminth.*, v. 53 (1), 51-63
Melanoides tuberculata: Klang Gates, Malaysia
- Cotylurus variegatus* (Creplin, 1825), illus.
Bakke, T. A., 1979, *Fauna, Oslo*, v. 32 (1), 23-26
Acerina cernua: Svellet, northern part of lake Oyeren, Akershus County, Norway
Larus canus (exper.) (lumen of large intestine)
- Cotylurus variegatus* (Creplin, 1825)
Dubois, G., 1978, *Ann. Parasitol.*, v. 53 (1), 53-62
as syn. of *Cotylurus* (*Ichthyocotylurus*) *p. platycephalus* (Creplin, 1825)
- Crassicutis*
Joy, J. E., 1971, *Folia Parasitol.*, v. 18 (3), 233-234
brief review of geographical distribution and host records
- Crassicutis archosargii*
Joy, J. E., 1971, *Folia Parasitol.*, v. 18 (3), 233-234
Archosargus probatocephalus: Gulf of Mexico, Texas
- Crassiphiala bulboglossa* Van Haitsma, 1925
Davis, J. R.; and Huffman, D. G., 1978, *Texas J. Sc.*, v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (skin): near San Marcos, Texas
- Crassiphiala bulboglossa*
Erickson, J. E., 1978, *J. Parasitol.*, v. 64 (5), 899
Etheostoma zonale: southern Minnesota
- Creadium isoporum* Looss, 1899
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *Allocreadium isoporum* (Looss, 1894) Looss, 1900
- Crepidostomum* sp.
Cone, D. K.; and Anderson, R. C., 1977, *Canad. J. Zool.*, v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (pyloric caecum): Ryan Lake, Algonquin Park, Ontario
- Crepidostomum* sp.
Davis, J. R.; and Huffman, D. G., 1978, *Texas J. Sc.*, v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis: near San Marcos, Texas
- Crepidostomum cooperi*
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, *Tr. Am. Micr. Soc.*, v. 96 (1), 145-148
Anguilla rostrata
Lepomis auritus
L. gulosus
L. macrochirus
L. megalotis
L. microlophus
L. punctatus
Noturus gyrinus
Pomoxis annularis
all from middle Georgia
- Crepidostomum cooperi* Hopkins, 1931
Tedla, S.; and Fernando, C. H., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 833-843
Perca flavescens (intestine): Bay of Quinte, Lake Ontario
- Crepidostomum cornutum*
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, *Tr. Am. Micr. Soc.*, v. 96 (1), 145-148
Lepomis gulosus: middle Georgia
- Crepidostomum cornutum*
Deutsch, W. G., 1977, *Proc. Pennsylvania Acad. Sc.*, v. 51 (2), 122-124
Micropterus dolomieu (cecae, stomach, intestine): Susquehanna River, Pennsylvania
- Crepidostomum farionis* (O. F. Mueller, 1784)
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Salvelinus namaycush (intestine): Aishihik Lake, Yukon Territory
Prosopium cylindraceum (intestine): Aishihik Lake, Yukon Territory
Thymallus arcticus (intestine): Aishihik Lake, Yukon Territory
Coregonus clupeaformis (intestine): Aishihik Lake and Stevens Lake, Yukon Territory
- Crepidostomum farionis*
Cordero-del-Campillo, M.; and Alvarez-Pellitero, M. P., 1976, *Rev. Iber. Parasitol.*, v. 36 (1-2), 35-66
Salmo trutta m. fario: River Orbigo, Leon, NW Spain
- Crepidostomum farionis* (O. F. Mueller, 1784)
Curtis, M. A., 1979, *Naturaliste Canad.*, v. 106 (2), 337-338
Salvelinus alpinus (posterior intestine, gall bladder): southern Baffin Island
- Crepidostomum farionis*
Kennedy, C. R., 1978, *J. Fish Biol.*, v. 13 (4), 457-466
parasite fauna of *Salvelinus alpinus*, comparison of species composition, number, diversity, and equitability in lakes on Norwegian mainland and its offshore Arctic islands, results do not agree well with predictions of island biogeographical theory
Salvelinus alpinus: Troms, Norway (Skogsfjordvann lake, Ringvassoy; Fiskelausvann lake; Raisjavrre lake; Anjavann lake)

- Crepidostomum farionis*
Konovalov, S. M.; Shevliakov, A. G.; and Krasin, V. K., 1970, *Parazitologiya*, Leningrad, v. 4 (6), 547-556
parasite fauna of various groups of young *Oncorhynchus nerka*, comparative analysis reveals 3 ecological groups: Lake Azabach'e, Kamchatka river basin
- Crepidostomum farionis*
Makhovenko, E. T., 1972, *Parazitologiya*, Leningrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka
- Crepidostomum farionis*
Mamer, B. E., 1978, *J. Parasitol.*, v. 64 (2), 314
Salmo gairdneri: Silver Lake and Toad Lake, Whatcom County, Washington
S. clarki: Silver Lake and Lake Squalicum, Whatcom County, Washington
- Crepidostomum farionis* (Mueller, 1784)
van Maren, M. J., 1979, *Bull. Zool. Mus. Univ. Amsterdam*, v. 6 (24), 189-200
Thymallus thymallus: Rhone River, N.E. of Lyon, France
- Crepidostomum farionis* (Muller, 1784)
Skriabina, E. S., 1973, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 23, 148-155
Thymallus arcticus pallasi
Stenodus l[eucichthys] nelma
Coregonus lavaretus
C. nasus
all from middle course of Kolyma river
- Crepidostomum farionis* (Muller, 1784)
Thompson, P.-A.; and Threlfall, W., 1978, *Naturaliste Canad.*, v. 105 (5), 429-431
prevalence, intensity
Salvelinus fontinalis (stomach, small intestine, pyloric caeca): Port-Cartier-Sept-Iles Park, Quebec
- Crepidostomum ictaluri*
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, *Tr. Am. Micr. Soc.*, v. 96 (1), 145-148
Noturus gyrinus: middle Georgia
- Crepidostomum isostomum*
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, *Tr. Am. Micr. Soc.*, v. 96 (1), 145-148
Aphredoderus sayanus: middle Georgia
- Crepidostomum metoecus* Braun, 1900
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Cottus cognatus (intestine): Aishihik Lake and Stevens Lake, Yukon Territory
Lota lota (intestine): Aishihik Lake, Yukon Territory
Esox lucius (intestine): Aishihik Lake and Stevens Lake, Yukon Territory
Salvelinus namaycush (intestine): Aishihik Lake, Yukon Territory
Thymallus arcticus (intestine): Aishihik Lake, Yukon Territory
Coregonus clupeaformis (intestine): Aishihik Lake and Stevens Lake, Yukon Territory
- Crepidostomum metoecus*
Cordero-del-Campillo, M.; and Alvarez-Pellitero, M. P., 1976, *Rev. Iber. Parasitol.*, v. 36 (1-2), 35-66
Salmo trutta m. fario: River Orbigo, Leon, NW Spain
- Crepidostomum metoecus*
Kazakov, B. E., 1973, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 23, 64-70
Thymallus thymallus
Lota lota
Salmo trutta m. fario
Coregonus lavaretus
all from Kol'skii peninsula, USSR
- Crepidostomum metoecus* (Braun, 1900), illus.
Skriabina, E. S., 1973, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 23, 148-155
description
Thymallus arcticus pallasi (intestine): middle course of Kolyma river
- Cricocephalus megastomus* Looss, 1902, illus.
Groschaff, J.; Coy Otero, A.; and Tenora, F., 1977, *Acta Univ. Agric., Fac. Agronom., Brno*, v. 25 (4), 155-167
description
Chelonia m. mydas (intestine(?)): Gulf of Guanahacabibes, Cuba
- Cricocephalus resectus* Looss, 1902
Sey, O., 1977, *Acta Zool. Acad. Scient. Hungar.*, v. 23 (3-4), 387-394
Chelone mydas: Egyptian coast
- Crocodylicola* Poche, 1925
Dubois, G., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 51-59
Polycotylineae
- Crocodylicola pseudostoma* (Willemoes-Suhm, 1870)
Poche, 1926
Brooks, D. R.; Overstreet, R. M.; and Pence, D. B., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 237-238
Alligator mississippiensis: Louisiana
- Crocodylicola pseudostoma* (Willemoes-Suhm, 1870)
Poche 1925
Dubois, G., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 51-59
synonymy

Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *Nicolla skrjabini* (Ivanitzky, 1928) Dollfus, 1959
- Crowcrocoecum skrjabini*
Sten'ko, R. P., 1978, *Zool. Zhurnal*, v. 57 (5), 658-663
Lithoglyphus naticoides: Crimea
- Cryptocotyle* sp.
Berger, V. Ia.; and Kondratenkov, A. P., 1974, *Parazitologiya*, Leningrad, v. 8 (6), 563-564
larval trematode-infected *Hydrobia ulvae*, lowered resistance to desiccation and fresh water

- Cryptocotyle concavum*
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition
[Pleuronectes flesus]
[Pisces] bychok-zelenchak
[Pisces] bychok-pomatoshistus
all from 4 estuaries, Black Sea (northern coastal region)
- Cryptocotyle concava* Creplin, 1825, illus.
El-Shabrawy, M. N.; and Imam, S. A., 1978, Vet. Med. J., Giza, v. 24 (24), 1976, 49-54
description
dogs: Cairo, Giza and their suburbs, Egypt
- Cryptocotyle concavum* (Creplin, 1825)
Grytner-Zieczina, B.; and Sulgostowska, T., 1978, Acta Parasitol. Polon., v. 25 (11-20), 121-128
trematodes of 3 spp. of Anatinae, distribution in host intestine
Oidemia fusca (duodenum, jejunum, ileum, rectum)
O. nigra (duodenum, jejunum, ileum)
Somateria mollissima (duodenum, jejunum, ileum)
all from Baltic Coast
- Cryptocotyle concavum* (Creplin, 1825)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[*Ardea cinerea*]
[*Egretta alba*]
[*Egretta garzetta*]
(intestine of all): all from Black Sea preserve, Kherson oblast
- Cryptocotyle concavum*
Naidenova, N. N., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 46-51
larval form, intensity of infestation
Gobius melanostomus
G. batrachocephalus
G. fluviatilis
G. ratan
G. cephalarges
G. niger
G. ophiocephalus
all from Black Sea [and/or] Azov Sea
- Cryptocotyle concavum* (Creplin, 1825) Luehe, 1899
Sulgostowska, T.; and Grytner-Zieczina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (ileum, caeca, rectum, duodenum, jejunum): Baltic Coast, Gdansk Province, Poland
- ?*Cryptocotyle jejuna* (Nicolli, 1907)
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche; Atlantique)
H. ventrosa: cote de France (Mediterranee)
- Cryptocotyle lingua* (Creplin)
van den Broek, W. L. F., 1979, J. Fish Biol., v. 14 (4), 395-402
Cryptocotyle lingua, incidence and intensity of infection, seasonal levels of infection prove useful indicators to migratory movements of individual fish populations, localization, host age
Merlangius merlangus
Trisopterus luscus
Pleuronectes platessa
Platichthys flesus
all from Medway Estuary, Kent
- Cryptocotyle lingua* (Creplin)
Ching, H. L., 1978, Canad. J. Zool., v. 56 (8), 1877-1879
Littorina scutulata
sculpins
silver smelt
Larus glaucescens (nat. and exper.) (intestine)
Oligocottus maculosus (exper.)
Platichthys stellatus (exper.)
Leptocottus armatus (exper.)
all from Vancouver, British Columbia, Canada
- Cryptocotyle lingua* (Creplin), illus.
Irwin, S. W. B.; Threadgold, L. T.; and Howard, N. M., 1978, Parasitology, v. 76 (2), 193-199
Cryptocotyle lingua, redia, surface morphology with special reference to birth papilla and release of cercariae, scanning and transmission electron microscopy
- Cryptocotyle lingua* (Creplin, 1825)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[*Ardea cinerea*]
[*Egretta alba*]
[*Egretta garzetta*]
[*Nycticorax nycticorax*]
(intestine of all): all from Black Sea preserve, Kherson oblast
- Cryptocotyle lingua*
McDaniel, J. S.; MacInnis, A. J.; and Read, C. P., 1976, Rice Univ. Studies, v. 62 (4), 205-209
flatworms (free-living, symbiotic, parasitic), effects of carbon dioxide on glucose incorporation, results suggest that rates of glycogen synthesis in some flatworms vary with level of available carbon dioxide in the environment
- Cryptocotyle lingua*, metacercariae
MacKenzie, K.; and Gibson, D. I., 1970, Symposia Brit. Soc. Parasitol., v. 8, 1-42
Pleuronectes platessa
Platichthys flesus
(somatic tissues of all): all from Scotland
- Cryptocotyle lingua*
Moeller, H., 1978, J. Fish Biol., v. 12 (4), 311-323
fish parasites, effects of salinity and temperature on development and survival of parasitic and free-living stages

- Cryptocotyle lingua*, *illus.*
Moore, M. N.; and Halton, D. W., 1977, Ztschr. Parasitenk., v. 53 (1), 115-122
Himasthla leptosoma, *Cryptocotyle lingua*, *Cercaria linearis* in *Littorina littorea*, lysosomal hydrolases in digestive cells of infected and uninfected snails
- Cryptocotyle lingua* (Creplin), *illus.*
Rees, F. G., 1978, Proc. Roy. Soc. London, s. B, Biol. Sc. (1140), v. 200, 245-267
Cryptocotyle lingua, ultrastructure and development of ventrogenital complex and its mode of operation in copulation
Gobius minutus (exper.)
- Cryptocotyle lingua*, *illus.*
Rees, F. G., 1979, Internat. J. Parasitol., v. 9 (5), 405-419
Cryptocotyle lingua, spermatozoon, spermiogenesis, ultrastructure
- Cryptocotyle lingua*, *illus.*
Rees, F. G., 1979, Ztschr. Parasitenk., v. 60 (2), 157-176
Cryptocotyle lingua, development and ultrastructure of female reproductive ducts in metacercaria and adult
Gobius minutus (exper.) (fins)
Littorina littorea
domestic chicks (exper.) (intestine)
- Cryptocotyle lingua* Creplin
Shotter, R. A., 1976, J. Fish Biol., v. 8 (2), 101-117
Merlangius merlangus (skin, fins, eyes):
Manx waters near Isle of Man and/or Morecambe Bay, N.W. coast of England
- Cryptocotyle lingua*
Williams, I. C.; and Ellis, C., 1976, Glasgow Naturalist, v. 19 (4), 307-315
Littorina littorea
Littorina littoralis
Littorina saxatilis
all from Mainland, Shetland
- Cryptogonimidae* Ciurea, 1933
Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
revision
includes: *Acetodextrinae*; *Baccigerinae*; *Biovarinae*; *Caecincolinae*; *Cryptogoniminae*; *Exorchiinae*; *Metadeninae*; *Multigonotylinae*; *Neochasminae*; *Polyorchitrematinae*; *Pseudoexorchiinae*; *Pseudometadeninae*; *Siphoderinae*; *Tubanguinae*

Radix auricularia
(mantle tissue complex): all from Crimea
- Cyclocoelinae Stossich, 1902
Tang, C.; and Tang, C., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (1), 91-106
Cyclocoelidae, key
- Cyclocoelum Brandes, 1892
Gupta, P. D., 1970, *Rec. Zool. Surv. India*, v. 62 (3-4), 1964, 171-190
Cyclocoelidae, key
- Cyclocoelum Brandes, 1892
Tang, C.; and Tang, C., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (1), 91-106
Cyclocoelidae, key
- Cyclocoelum bikanerensis* n. sp., illus.
Gupta, P. D., 1970, *Rec. Zool. Surv. India*, v. 62 (3-4), 1964, 171-190
Fulica atra (air sacs, body cavity): Devikund, Bikaner Dist., Rajasthan, and Calcutta, W. Bengal, India
- Cyclocoelum (Haematotrephus) brasilianum* Stossich, 1902, illus.
Odning, K., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. *Zool.*, 1970, 109-119
synonymy, description
Hydrophasianus chirurgus (Leibeshohle): died Tierpark Berlin (DDR), imported from India
- Cyclocoelum (Haematotrephus) capellae* (Yamaguti, 1933) [? n. comb.]
Kifune, T.; and Shiraishi, S., 1977, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 26 (3), 144-147
synonymy
Xenus cinereus (body cavity): Yamatomachi, Yamato-gun, Fukuoka Prefecture, Kyushu, Japan
- Cyclocoelum (C.) capellum* Khan, 1935
Tang, C.; and Tang, C., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (1), 91-106
as syn. of *Cyclocoelum mutabile* (Zeder, 1800) Kossack, 1911
- Cyclocoelum elongatum* Harrah, 1921, illus.
Feizullaev, N. A., 1971, *Parazitologiya*, Leningrad, v. 5 (4), 335-338
Cyclocoelum vagum and *C. elongatum* are twin species, indistinguishable morphologically (except for presence or absence of pigimentary ocelli in embryos) but differing in ecology, biology, and life cycles
- Cyclocoelum (Haematotrephus) lanceolatum*: Dubois, G., 1959
Gupta, P. D., 1970, *Rec. Zool. Surv. India*, v. 62 (3-4), 1964, 171-190
as syn. of *Haematotrephus lanceolatum* (Wedl, 1858) Stossich, 1902
- Cyclocoelum (C.) macrorchis* Harrah, 1922
Tang, C.; and Tang, C., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (1), 91-106
as syn. of *Cyclocoelum mutabile* (Zeder, 1800) Kossack, 1911
- Cyclocoelum microstomum*
Ginetsinskaia, T. A.; et al., 1971, *Parazitologiya*, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Cyclocoelum microstomum* (Creplin, 1829), illus.
Rietschel, G., 1979, *Ztschr. Parasitenk.*, v. 58 (3), 265-274
brief description
Succinea elegans: Hessen
Fulica atra (abdominalen Luftsacken) (exper.)
- Cyclocoelum microstomum*
Sten'ko, R. P., 1978, *Zool. Zhurnal*, v. 57 (5), 658-663
Radix auricularia
Planorbis planorbis
all from Crimea
- Cyclocoelum microstomum* (Creplin, 1820), illus.
Sten'ko, R. P., 1979, *Biol. Nauki, Min. Vyssh. i Sredn. Spets. Obraz. SSR* (181) (1), 28-33
Planorbis planorbis
Radix auricularia
(mantle tissue complex): all from Crimea
- Cyclocoelum microstomum* (Creplin, 1829) Kossack, 1911
Tang, C.; and Tang, C., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (1), 91-106
synonymy
Fulica a. atra: vicinity of Fuzhou, Fujian

- Cyclocoelum mutabile* (Zeder 1800) Dubois 1959
Dyer, W. G., 1977, Tr. Illinois State Acad. Sc., v. 70 (3-4), 391-392
Fulica americana (air sacs): Williamson County, southern Illinois
- Cyclocoelum mutabile* (Zeder, 1800)
Iskova, N. I., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (6), 59-63
Cyclocoelum mutabile confirmed as parasite of Rallidae and separable from *C. obscurum* (Leidy, 1887), morphological characteristics
- Cyclocoelum mutabile* (Zeder), *illus.*
McLaughlin, J. D., 1977, Canad. J. Zool., v. 55 (2), 274-279
Cyclocoelum mutabile in *Fulica americana* (exper.), migratory route
- Cyclocoelum mutabile*
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Cyclocoelum mutabile* (Zeder, 1800) Kossack, 1911, *illus.*
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
synonymy
Tringa glareola
Capella gallinago gallinago
C. stenura
C. megala
Numenius arguata orientalis
N. borealis minutus
Charadrius dominicus fulvus
Glareola maldivarum
Rostratula benghalensis benghalensis
Anas c. crecca
all from vicinity of Fuzhou, Fujian
- Cyclocoelum nebularium* Khan, 1935
Odening, K., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 109-119
as syn. of *Cyclocoelum brasilianum* Stossich, 1902
- Cyclocoelum obscurum* (Leidy 1887)
Dronen, N. O., jr.; and Badley, J. E., 1979, J. Parasitol., v. 65 (4), 645-649
Numenius americanus (body cavity, air sacs): Galveston, Texas
- Cyclocoelum obscurum* (Leidy, 1887)
Iskova, N. I., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (6), 59-63
Cyclocoelum obscurum confirmed as parasite of Charadriiformes and separable from *C. mutabile* (Zeder, 1800), morphological characteristics
- Cyclocoelum oculum* (Kossack, 1911)
McLaughlin, J. D., 1977, Canad. J. Zool., v. 55 (9), 1565-1567
Cyclocoelum oculum, life cycle
Promenetus exacuus: Delta Marsh, Delta, Manitoba
Fulica americana (exper.) (nasal and orbital sinuses)
- Cyclocoelum oculum*, *illus.*
Taft, S. J.; and LeGrande, W. H., 1979, J. Parasitol., v. 65 (4), 666-667
Cyclocoelum oculum, chromosome studies
- Cyclocoelum straightum* Khan, 1935
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
as syn. of *Cyclocoelum mutabile* (Zeder, 1800) Kossack, 1911
- Cyclocoelum titiri* Chatterjee, P. N., 1958
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
as syn. of *Haematotrephus lanceolatum* (Wedl, 1858) Stossich, 1902
- Cyclocoelum (Haematotrephus) tringae*: Dubois, 1959 (*nec* Stossich, 1902)
Kifune, T.; and Shiraishi, S., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (3), 144-147
as syn. of *Cyclocoelum (Haematotrephus) capellae* (Yamaguti, 1933) [? n. comb.]
- Cyclocoelum vagum* Marishita, 1924, *illus.*
Feizullaev, N. A., 1971, Parazitologiya, Leningrad, v. 5 (4), 335-338
Cyclocoelum vagum and *C. elongatum* are twin species, indistinguishable morphologically (except for presence or absence of pigmentary ocelli in embryos) but differing in ecology, biology, and life cycles
- Cyclocotyla bellones* (Otto, 1821), *illus.*
Lambert, A., 1978, Ann. Parasitol., v. 53 (6), 551-559
8 species of Monogenea of fish, oncomiracidia, ciliated cells, chetotaxy
- Cyclocotyla bellones* Otto, 1821, *illus.*
Lopez-Roman, R.; and Guevara Pozo, D., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 135-138
Cyclocotyla bellones, parasite of *Meinertia oestroides* in Boops boops (cavidad bucal): costa de Granada (Mar de Alboran), Espana
- Cyclorchis campula*, *illus.*
Migaki, G.; et al., 1979, J. Am. Vet. Med. Ass., v. 175-(9), 926-928
Cyclorchis campula in *Platanista gangetica* (large bile ducts), pathologic changes: Steinhart Aquarium, Golden Gate Park, San Francisco, California, captured in Indus River, West Pakistan
- Cylindrorchiidae*
Srivastava, C. B., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 325-333
as syn. of *Isoparorchiidae*
- Cylindrorchiinae* Poche, 1926
Srivastava, C. B., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 325-333
Isoparorchiidae
includes: *Cylindrorchis*
- Cylindrorchis* Southwell, 1913
Srivastava, C. B., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 325-333
Isoparorchiidae, *Cylindrorchiinae*

- Cypselurobranchitrema spilonopter* Yamaguti, 1966
 Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
 monogeneans in *Exocoetus*, patterns of extensivity and intensity of invasion, both increase with host age
Exocoetus volitans: Pacific Ocean
E. monocirrus: Indian Ocean (gills of all)
- Cypselurobranchitrema spilonopter* Yamaguti, 1966, illus.
 Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus. description
Cypselurus spilonopterus (gill): Hawaii
- Cystodiplostomulum*
 Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
 [this name used under the heading "Genus *Cystodiplostomum* Dubois, 1936 (?)", apparently being proposed here for larval forms]
- Cystodiplostomulum gymnoti* n. sp., illus.
 Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
 [this species described under the heading "Genus *Cystodiplostomum* Dubois, 1936 (?)", comb. not made]
Gymnotus carapo (encysted in body musculature): Laguna Salta La Vieja, Chaco Province, Argentina
- Cystodiplostomum* Dubois, 1936
 Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
 Polycotylineae
 includes: *Cystodiplostomum hollyi* Dubois, 1936
- Czosnowia Zdzitowiecki*, 1967
 Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
 as syn. of *Parabascus* Looss, 1907
- Czosnowia joannae* Zdzitowiecki, 1967
 Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
 as syn. of *Parabascus duboisi* (Hurkova, 1961) Odening, 1964

- Dactylogyrosis
Bachinskii, V. P., 1969, Rybn. Khoziaist., Kiev (8), 104-106
parasites as possible causes of epizootics in fish: Kremenchugsk reservoir
- Dactylogyrosis
Iashchuk, V. D., 1977, Veterinariia, Moskva (6), 70-73
dactylogyrosis, economic losses to fish farms measured
- Dactylogyrus
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologiya, Leningrad, v. 5 (4), 320-329
monogeneans of fish (primarily Dactylogyrus), variation in size of body and attachment organs, of localization on host, and of developmental cycle with respect to host age and size, taxonomic implications
- Dactylogyrus
Kazakov, B. E., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 59-62
Monogeneoidea of fish, analysis of zoogeographic groups, comparison of some morphological and ecological parameters: Kol'skii peninsula
- Dactylogyrus Diesing
Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Dactylogyrus Diesing, 1850
Price, C. E.; and Henderson, A., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (2), s. Zool., 1969, 195-203
Dactylogyrus, diagnosis, anatomy, high degree of specificity for cyprinid fishes
- Dactylogyrus sp.
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, Tr. Am. Micr. Soc., v. 96 (1), 145-148
Lepomis macrochirus: middle Georgia
- Dactylogyrus sp.
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)
- Dactylogyrus sp. 1, illus.
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
description
Gobio albipinnatus tenuicarpus (gills): Lake Buyr nur, Mongolia
- Dactylogyrus sp. 2, illus.
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
description
Gobio gobio cynocephalus (gills): River Onon near Binder, Mongolia
- Dactylogyrus sp.
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Dactylogyrus sp.
Lester, R. J. G., 1974, Syesis, v. 7, 195-200
Gasterosteus aculeatus (gills): near Vancouver, British Columbia
- Dactylogyrus achmerowi Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus acus Mueller, 1938
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
D. campostomus (Kimpel, 1939) reassigned to D. acus Mueller, 1938
- Dactylogyrus akaraicus sp. n., illus.
Mikhailov, T. K., 1974, Parazitologiya, Leningrad, v. 8 (1), 45-48
Barbus lacerta cyri (gills): Araks basin (Akarachai river), Azerbaidzhan
- Dactylogyrus alatocirrus Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus alatus Linstow, 1878, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Alburnus albidus arborella (gills): Lake Skadar near Vranina, Montenegro
- Dactylogyrus alatus Linstow, 1878
Nedeva-Menkova, I., 1977, Khelmintologiya, Sofiia, v. 4, 34-39
Alburnus alburnus (gills): Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Dactylogyrus alatus Linstow, 1878
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Alburnus alburnus: Kursiu Marios Lagoon
- Dactylogyrus albertensis, illus.
Price, C. E.; and Henderson, A., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (2), s. Zool., 1969, 195-203
description
- Dactylogyrus amphibothrium Wagener
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[Acerina cernua] (gills): Kamsk reservoir
- Dactylogyrus amphibothrium Wagener, 1857
Kazakov, B. E., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 26-31
Acerina cernua (gills): Murmansk oblast
- Dactylogyrus amphibothrium
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Acerina cernua: Kol'skii peninsula, USSR
- Dactylogyrus amphibothrium Wagener
Mashtakov, A. V.; et al., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 68-71
[Acerina cernua] (gills): Votkinsk reservoir

- Dactylogyrus amphibothrium* Wagener, 1857
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Acerina cernua: Kursiu Marios Lagoon
- Dactylogyrus anchoratus* Dujardin, 1845, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
Cyprinus carpio (gills): Lake Skadar near Vranina, Montenegro
- Dactylogyrus araxicum* [lapsus p. 45 for *D. araxicus* sp. n.]
Mikhailov, T. K., 1974, Parazitologija, Leningrad, v. 8 (1), 45-48
- Dactylogyrus araxicus* sp. n., illus.
Mikhailov, T. K., 1974, Parazitologija, Leningrad, v. 8 (1), 45-48
[lapsus p. 45 as *D. araxicum*]
Varicorhinus capoeta gracilis
V. capoeta sevangi
(gills of all): all from basin of Araks and Talyshsk rivers, flowing into the Caspian Sea south of the mouth of the Kura river, Azerbaidzhan
- Dactylogyrus arcuatus* Yamaguti, 1942
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus assimovi* sp. n., illus.
Dzhalilov, U. D., 1970, Parazitologija, Leningrad, v. 4 (4), 316-320
Nemachilus stoliczkai: Pyandzh river basin (in Iashil'kul, Bulunkul, Zorkul lakes, in Pyandzh, Aksu, Gunt rivers)
N. stoliczkai lacus nigri: Karakul lake (gills of all)
- Dactylogyrus atratuli* Hanek and Fernando, 1972
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
as syn. of *D. cheloideus* Rogers, 1967
- Dactylogyrus attenuatus* Mizelle and Klucka, 1953
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
D. umbratilis (Kimpel, 1939) reassigned to *D. attenuatus* Mizelle and Klucka, 1953
- Dactylogyrus aureus*
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Notemigonus crysoleucas: Florida
- Dactylogyrus auriculatus* Nordmann, 1832, illus.
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologija, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinoid armature of haptor, and copulatory complex
- Dactylogyrus auriculatus*
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologija, Leningrad, v. 5 (4), 320-329
monogeneans of fish (primarily *Dactylogyrus*), variation in size of body and attachment organs, of localization on host, and of developmental cycle with respect to host age and size, taxonomic implications
- Dactylogyrus auriculatus*
Iziumova, N. A., 1970, Parazitologija, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Abramis ballerus (exper.)
- Dactylogyrus auriculatus* Dujardin
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[*Abramis brama*]: Upper Kama
- Dactylogyrus auriculatus*
Otvodova, G. D., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad, v. 93, 112-116
[*Abramis brama*] (gills): Pskov-Chudskoe lake
- Dactylogyrus auriculatus* (Nordmann, 1832)
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Abramis brama: Kursiu Marios Lagoon
- Dactylogyrus auriculatus* (Nordmann, 1832)
Nybelin, 1936
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Abramis brama (gills): Lake Dabie near Szczecin, Poland
- Dactylogyrus aviunguis* Chien, 1974
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
Syn.: *D. micropogoni* Hanek et al., 1975
- Dactylogyrus babensis* sp. n., illus.
Ha Ki, 1971, Parazitologija, Leningrad, v. 5 (5), 429-440
Cirrhina molitorea (gill lobes): river Bo (Laokay), lake Ba-Be (Bak-Kan), and Hanoi, North Vietnam
- Dactylogyrus baueri* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes
Carassius auratus: Lake Hong-Hu, Hubei Province
- Dactylogyrus bicornis* Malewitszkaja, 1941, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Rhodeus sericeus (gills): Lake Skadar near Vranina, Montenegro
- Dactylogyrus bispiralis* sp. n., illus.
Rizvi, S. S. H., 1978, Acta Parasitol. Polon., v. 25 (11-20), 111-120
Cirrhina mrigala (gills): Indus river, Larkana, Pakistan
- Dactylogyrus borealis* Nybelin, 1936, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Phoxinus phoxinus (gills): Lake Veliko Crno, Montenegro

- Dactylogyrus borealis* Nybelin, 1936
Kazakov, B. E., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 26-31
Phoxinus phoxinus (gills): Murmansk oblast
- Dactylogyrus borealis*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Phoxinus phoxinus: Kol'skii peninsula, USSR
- Dactylogyrus borealis* Nybelin, 1937, *illus.*
Prost, M., 1974, Acta Parasitol. Polon., v. 22 (12-21), 139-147
Phoxinus phoxinus (fins): mountain stream of Wolkowyjka, Bieszczady Mts., Poland
- Dactylogyrus branchialis* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus buddi* Dechtiar, 1974
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, J. Fish. Research Bd. Canada, v. 33 (11), 2489-2499
Cottus cognatus (gills): Aishihik Lake and Stevens Lake, Yukon Territory
- Dactylogyrus bullosus* Mizelle and Donahue, 1944
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
D. superficialis (Kimpel, 1939) reassigned to *D. bullosus* Mizelle and Donahue, 1944
- Dactylogyrus campostomus* (Kimpel, 1939)
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
reassigned to *D. acus* Mueller, 1938
- Dactylogyrus carpathicus* Zachwatkin, 1951
Nedeva-Menkova, I., 1977, Khelmitologiya, Sofiia, v. 4, 34-39
Barbus meridionalis petenyi (gills): Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Dactylogyrus caucasicus* sp. n., *illus.*
Mikailov, T. K.; and Shaova, N. D., 1973, Parazitologiya, Leningrad, v. 7 (4), 336-338
Alburnoides bipunctatus eichwaldi: mountain regions of Kura river basin
A. bipunctatus rossicus natio kubanicus: middle region of Kuban river (gills of all)
- Dactylogyrus cernyi* Hanek et al., 1975
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
as syn. of *D. flagristylus* Chien, 1974
- Dactylogyrus charbinensis* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus cheloideus* Rogers, 1967
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
Syn.: *D. atratuli* Hanek and Fernando, 1972
- Dactylogyrus chenchileui* Gussev, 1962
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus chenminjungae* Gussev, 1962
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus chinensis* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus chondrostomi* Malewitskaja, 1941, *illus.*
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Chondrostoma kneri (gills): Lake Skadar near Vranina, Montenegro
- Dactylogyrus chraniłowi*
Iziumova, N. A., 1970, Parazitologiya, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Rutilus rutilus (exper.)
Abramis brama (exper.)
- Dactylogyrus chraniłowi* Bychowsky
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[*Abramis ballerus*] (gills): Kamsk reservoir
- Dactylogyrus chraniłowi* Bychowsky, 1933
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Abramis ballerus (gills): Lake Dabie near Szczecin, Poland
- Dactylogyrus clavaeformis* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus contortus* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus cornoides* Glaser et Gussev, 1967
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Vimba vimba: Kursiu Marios Lagoon
- Dactylogyrus cornoides* Glaeser et Gusev, 1967
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Blicca bjoerana (gills): Lake Dabie near Szczecin, Poland

- Dactylogyrus cornu*
Iziumova, N. A., 1970, *Parazitologiya*, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Abramis ballerus (exper.)
- Dactylogyrus cornu* Linstow, 1878
Paskeviciute, A., 1978, *Lietuvos TSR Moks. Akad. Darbai*, s. C (84), (4), 73-80
Vimba vimba: *Kursiu Marios Lagoon*
- Dactylogyrus cornu* Linstow, 1878
Wierzbicka, J., 1974, *Acta Parasitol. Polon.*, v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Blicca bjoerana (gills): Lake Dabie near Szczecin, Poland
- Dactylogyrus crucifer* Wagener, 1857
Ergens, R., 1971, *Folia Parasitol.*, v. 18 (3), 241-254
Rutilus rutilus (gills): Lake Ugiy nur, Mongolia
- Dactylogyrus crucifer* Wagener, 1857
Gusev, A. V.; and Kulemina, I. V., 1971, *Parazitologiya*, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinoid armature of haptor, and copulatory complex
- Dactylogyrus crucifer*
Iziumova, N. A., 1970, *Parazitologiya*, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Cyprinus carpio (exper.)
Carassius carassius (exper.)
Abramis ballerus (exper.)
- Dactylogyrus crucifer* Wagener
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod*, Akad. Nauk SSSR (36) 64-68
[*Rutilus rutilus*] (gills): Kamsk reservoir
- Dactylogyrus crucifer* Wagener
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod*, Akad. Nauk SSSR (36), 71-76
[*Rutilus rutilus*]: Upper Kama; Chusovaia river; Kamsk reservoir
- Dactylogyrus crucifer* Wagener, 1857
Kakacheva-Avramova, D., 1976, *Khelmintologiya*, Sofia, v. 1, 12-18
Scardinius erythrophthalmus (gills): Bulgarian section of Danube River
- Dactylogyrus crucifer* Wagener, 1867
Kazakov, B. E., 1971, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 21, 26-31
Rutilus rutilus (gills): Murmansk oblast
- Dactylogyrus crucifer*
Kazakov, B. E., 1973, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 23, 64-70
Rutilus rutilus: Kol'skii peninsula, USSR
- Dactylogyrus crucifer* Wagener
Mashtakov, A. V.; et al., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod*, Akad. Nauk SSSR (36), 68-71
[*Rutilus rutilus*] (gills): Votkinsk reservoir
- Dactylogyrus crucifer* Wagener, 1857
Paskeviciute, A., 1978, *Lietuvos TSR Moks. Akad. Darbai*, s. C (84), (4), 73-80
Rutilus rutilus: *Kursiu Marios Lagoon*
- Dactylogyrus crucifer*
Rumiantsev, E. A., 1972, *Parazitologiya*, Leningrad, v. 6 (5), 416-418
Dactylogyrus populations on *Rutilus rutilus*, effect of annual changes in water temperature on time of infection peak: Kuito lakes, northern Kareliia
- Dactylogyrus cryptomeres* Bychowsky, 1934, illus.
Ergens, R., 1971, *Folia Parasitol.*, v. 18 (3), 241-254
Gobio gobio cynocephalus (gills): River Onon near Binder, Mongolia
- Dactylogyrus ctenopharyngodonis* Achmerow, 1952
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes
Ctenopharyngodon idellus: Lake Hong-Hu, Hubei Province
- Dactylogyrus curriculi* sp. n., illus.
Ha Ki, 1971, *Parazitologiya*, Leningrad, v. 5 (5), 429-440
Squaliobarbus curriculus (gill lobes): Kien-An, North Vietnam
- Dactylogyrus curvicirrus* Achmerow, 1952
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus curvicirrus* Achmerow, 1952, illus.
Ergens, R., 1971, *Folia Parasitol.*, v. 18 (3), 241-254
Culter alburnus (gills): Lake Buyr nur, Mongolia
- Dactylogyrus denticulati* sp. n., illus.
Ha Ki, 1971, *Parazitologiya*, Leningrad, v. 5 (5), 429-440
Spinibarbichthys denticulatus (gill lobes): lake Ba-Be (Bak-Kan) and river Bo (Lao-kay), North Vietnam

Hemiculter leucisculus: Lake Hong-Hu, Hubei Province
- Dactylogyrus hypophthalmichthys* Achmerow, 1952
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes
Hypophthalmichthys molitrix: Lake Hong-Hu, Hubei Province
- Dactylogyrus hypophthalmichthys* Achmerov
Wu, P. H.; et al., 1975, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 21 (2), 190-198
parasites of fishes: China
- Dactylogyrus intermedius* Wegener, 1909
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus irinae* sp. n., illus.
Dzhaliilov, U. D., 1970, Parazitologija, Leningrad, v. 4 (4), 316-320
Schizopygopsis stoliczkai (gills): Pyandzh river basin (in Iashil'kul, Bulunkul, Zorkul lakes, in Pyandzh, Aksu, Gunt rivers)
- Dactylogyrus irinae* Dzhaliilov, 1970
Ashurova, M., 1973, Parazitologija, Leningrad, v. 7 (2), 164-168
Schizopygopsis stoliczkai: Sarez Lake, central Pamir
- Dactylogyrus ivanovici* n. sp., illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
Pachychilon pictum (gills): Lake Skadar near Vranina, Montenegro
- Dactylogyrus izjumovae* Gussev, 1966
Kakacheva-Avramova, D., 1976, Khelmitologija, Sofiia, v. 1, 12-18
Scardinius erythrophthalmus (gills): Bulgarian section of Danube River
- Dactylogyrus jaini* Rizvi, 1974, preoccupied by *D. jaini* Price, 1968
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
renamed: *D. rizvii* nom. nov.
- Dactylogyrus jaini* Price, 1968
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
as syn. of *D. ericymbae* Rogers, 1967
- Dactylogyrus kendalanicus* sp. n., illus.
Mikailov, T. K., 1974, Parazitologija, Leningrad, v. 8 (1), 45-48
Varicorhinus capoeta sevangi (gills): Araks basin, Azerbaidzhan
- Dactylogyrus lamellatus*
Astakhova, T. V.; and Stepanova, G. A., 1972, Parazitologija, Leningrad, v. 6 (4), 364-368
Ctenopharyngodon idella (gills, skin): pond and spawning-nursery fisheries, Volga delta
- Dactylogyrus lamellatus* Achmerow, 1952
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus lamellatus* Achmerow, 1952
Kakacheva-Avramova, D., 1976, Khelmitologija, Sofiia, v. 1, 12-18
Ctenopharyngodon idella (gills): Bulgarian section of Danube River
- Dactylogyrus laokajensis* sp. n., illus.
Ha Ki, 1971, Parazitologija, Leningrad, v. 5 (5), 429-440
Varicorhinus tonkinensis (gill lobes): Laokay, North Vietnam
- Dactylogyrus latituba* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus lineatus* Mizelle and Klucka, 1953
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
D. semotilus (Kimpel, 1939) reassigned to *D. lineatus* Mizelle and Klucka, 1953
- Dactylogyrus linstowi* Bychowsky, 1936
Ashurova, M., 1973, Parazitologija, Leningrad, v. 7 (2), 164-168
Schizothorax intermedius: Sarez Lake, central Pamir
- Dactylogyrus longicopula* Bychowsky, 1936
Ashurova, M., 1973, Parazitologija, Leningrad, v. 7 (2), 164-168
Schizothorax intermedius: Sarez Lake, central Pamir
- Dactylogyrus longsoi* Gussev, 1962
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes
Squaliobarbus curvicolus: Lake Hong-Hu, Hubei Province
- Dactylogyrus magnicirrus* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province

- Dactylogyrus magnihamatus* Achmerow, 1952
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes
Culter erythropterus
Erythroculter ilishaeformis
E. dabryi
all from Lake Hong-Hu, Hubei Province
- Dactylogyrus mantschuricus* Gussev, 1962
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes:
Lake Hong-Hu, Hubei Province
- Dactylogyrus martinovici* n. sp., illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
Pachychilon pictum (gills): Lake Skadar near Vranina, Montenegro
- Dactylogyrus micracanthus* Nybelin, 1936
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Scardinius erythrophthalmus: Kursiu Marios Lagoon
- Dactylogyrus micropogoni* Hanek et al., 1975
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
as syn. of *D. aviunguis* Chien, 1974
- Dactylogyrus minor* Wagener, 1857, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Alburnus albidus arborella (gills): Lake Skadar near Vranina, Montenegro
- Dactylogyrus minor* Wagener, 1909
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Alburnus alburnus: Kursiu Marios Lagoon
- Dactylogyrus minutus* Kulwicz, 1927
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes:
Lake Hong-Hu, Hubei Province
- Dactylogyrus modestus* Bychowsky, 1957
Ashurova, M., 1973, Parazitologiya, Leningrad, v. 7 (2), 164-168
Schizothorax intermedius: Sarez Lake, central Pamir
- Dactylogyrus molitorelli* sp. n., illus.
Ha Ki, 1971, Parazitologiya, Leningrad, v. 5 (5), 429-440
Cirrhina molitorella (gill lobes): lake Ba-Be (Bak-Kan), river Bo (Laokav), and Hanoi, North Vietnam
- Dactylogyrus mollis* Chien, 1974, preoccupied by *D. mollis* (Wedl, 1857) Diesing, 1858
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
renamed: *D. flexibilis* nom. nov.
- Dactylogyrus montschadskyi* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes:
Lake Hong-Hu, Hubei Province
- Dactylogyrus montschadskyi* Gussev, 1955, illus.
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
Culter alburnus (gills): Lake Buyr nur, Mongolia
- Dactylogyrus moorei* Monaco and Mizelle, 1955
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
D. whipplius (Kimpel, 1939) reassigned to *D. moorei* Monaco and Mizelle, 1955
- Dactylogyrus mrigali* sp. n., illus.
Rizvi, S. S. H., 1978, Acta Parasitol. Polon., v. 25 (11-20), 111-120
Cirrhina mrigala (gills): Indus river, Larkana, Pakistan
- Dactylogyrus nanoides* Gussev, 1966
Nedeva-Menkova, I., 1977, Khelmitologiya, Sofiia, v. 4, 34-39
Leuciscus cephalus (gills): Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Dactylogyrus nanus* Dogiel et Bychowsky, 1934
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologiya, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinoid armature of haptor, and copulatory complex
- Dactylogyrus nanus*
Iziumova, N. A., 1970, Parazitologiya, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Cyprinus carpio (exper.)
Abramis ballerus (exper.)
- Dactylogyrus nanus* Dogiel et Bychowsky
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[*Rutilus rutilus*]: Upper Kama
- Dactylogyrus nanus* Dogiel et Bychowsky, 1934
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Rutilus rutilus: Kursiu Marios Lagoon
- Dactylogyrus nanus*
Rumiantsev, E. A., 1972, Parazitologiya, Leningrad, v. 6 (5), 416-418
Dactylogyrus populations on *Rutilus rutilus*, effect of annual changes in water temperature on time of infection peak: Kuito lakes, northern Kareliia
- Dactylogyrus nasalis* Strelkow et Ha Ky, 1964, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Rutilus rubilio
Scardinius erythrophthalmus scardafa (nasal cavities of all): all from Lake Skadar near Vranina, Montenegro

- Dactylogyrus nasalis* Strelkov et Ha Ky, 1964
Iunchis, O. N., 1974, *Parazitologija*, Leningrad, v. 8 (3), 205-207
Dactylogyrus nasalis on *Rutilus rutilus*, occurrence in relation to season and host age, localization on host at different stages of infection, life span of worms
Rutilus rutilus (body surface, fins, gills, nasal cavity)
Blicca bjoerkna (nasal cavity)
Scardinius erythrophthalmus (nasal cavity)
Alburnus alburnus (nasal cavity)
all from Lake Verkhnee Vrevo, Leningrad oblast
- Dactylogyrus navicularis* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes
Chilogobio nigripinnis: Lake Hong-Hu, Hubei Province
- Dactylogyrus nobilis* Lang et Yu
Wu, P. H.; et al., 1975, *Tung Wu Hsueh Pao* (*Acta Zool. Sinica*), v. 21 (2), 190-198
parasites of fishes: China
- Dactylogyrus oreoleucisci* sp. n., illus.
Ergens, R.; and Dulmaa, A., 1970, *Folia Parasitol.*, v. 17 (1), 1-11
Oreoleuciscus potanini (gills): Lake Khar, Mongolia

- Dactylogyrus sphyrna* Linstow, 1878
Wierzbička, J., 1974, *Acta Parasitol. Polon.*, v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Blicca bjoerkna (gills): Lake Dabie near Szczecin, Poland

- Dactylogyrus spinibarbichthi* sp. n., illus.
Ha Ki, 1971, *Parazitologiya*, Leningrad, v. 5 (5), 429-440
Spinibarbichthys denticulatus (gill lobes): lake Ba-Be (Bak-Kan) and river Bo (Laokay), North Vietnam
- Dactylogyrus squaliobarbi* Gussev, 1962
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus suchengtaii* Gussev, 1962
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus suecicus* Nybelin, 1936
Gusev, A. V.; and Kulemina, I. V., 1971, *Parazitologiya*, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinous armature of haptor, and copulatory complex
- Dactylogyrus suecicus* Nybelin
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR* (36), 71-76
[*Rutilus rutilus*]: Upper Kama
- Dactylogyrus suecicus* Nybelin, 1936
Paskeviciute, A., 1978, *Lietuvos TSR Moks. Akad. Darbai, s. C* (84), (4), 73-80
Rutilus rutilus: Kursiu Marios Lagoon
- Dactylogyrus sukkurensis* sp. n., illus.
Rizvi, S. S. H., 1978, *Acta Parasitol. Polon.*, v. 25 (11-20), 111-120
Cirrhina mrigala (gills): Indus river, Sukkur, Pakistan
- Dactylogyrus sungariensis* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus superficialis* (Kimpel, 1939)
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 141-147
reassigned to *D. bullosus* Mizelle and Donahue, 1944
- Dactylogyrus symavesi* sp. n., illus.
Rizvi, S. S. H., 1978, *Acta Parasitol. Polon.*, v. 25 (11-20), 111-120
Cirrhina mrigala (gills): Indus river, Larkana, Pakistan
- Dactylogyrus tihsiukangi* Gussev, 1962
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus tincae* Gussev, 1965
Paskeviciute, A., 1978, *Lietuvos TSR Moks. Akad. Darbai, s. C* (84), (4), 73-80
Tinca tinca: Kursiu Marios Lagoon
- Dactylogyrus tonkinensis* sp. n., illus.
Ha Ki, 1971, *Parazitologiya*, Leningrad, v. 5 (5), 429-440
Varicorhinus tonkinensis (gill lobes): Laokay, North Vietnam
- Dactylogyrus tridigitatus* Gussev, 1955
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes: Lake Hong-Hu, Hubei Province
- Dactylogyrus trioxonis* Achmerow, 1952, illus.
Ergens, R., 1971, *Folia Parasitol.*, v. 18 (3), 241-254
description
Acanthorhodeus asmussii (gills): Lake Buyrunur, Mongolia
- Dactylogyrus tuba* Linstow, 1878
Gusev, A. V.; and Kulemina, I. V., 1971, *Parazitologiya*, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinous armature of haptor, and copulatory complex
- Dactylogyrus tuba* Linstow, 1878
Kazakov, B. E., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 21, 26-31
Leuciscus idus (gills): Murmansk oblast
- Dactylogyrus tuba*
Kazakov, B. E., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 64-70
Leuciscus idus: Kol'skii peninsula, USSR
- Dactylogyrus tuba* Linstow, 1878
Paskeviciute, A., 1978, *Lietuvos TSR Moks. Akad. Darbai, s. C* (84), (4), 73-80
Aspius aspius: Kursiu Marios Lagoon
- Dactylogyrus umbratilis* (Kimpel, 1939)
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 141-147
reassigned to *D. attenuatus* Mizelle and Klucka, 1953
- Dactylogyrus unguiformis* sp. n., illus.
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 141-147
Cottus bairdi (external surface): Siphon Ponds near Siphon Road, 6.8 km NW of Chubbuck, Bannock Co., Idaho
- Dactylogyrus unguulatus* sp. nov., illus.
Chang, C. Y.; and Ji, G. L., 1978, *Shui Sheng Sheng Wu Hsueh Chi K'an* (*Acta Hydrobiol. Sinica*), v. 6 (3), 353-363
Xenocypris argentea (gill): middle Yangtze valley (Jiayu, Lake Hong-Hu, Hubei Province)
- Dactylogyrus uyeni* sp. n., illus.
Ha Ki, 1971, *Parazitologiya*, Leningrad, v. 5 (5), 429-440
Cirrhina molitorella (gill lobes): river Bo (Laokay), lake Ba-Be (Bak-Kan), and Hanoi, North Vietnam
- Dactylogyrus vastator*
Fotis, G., 1979, *Ellen. Kteniatrike*, v. 22 (1), 7-14
Cyprinus carpio: Karpfenteichwirtschaft in Chrysoupolis (Regierungsbezirk Kawala)
- Dactylogyrus vastator*
Iziumova, N. A., 1970, *Parazitologiya*, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Abramis ballerus (exper.)
A. brama (exper.)

- Dactylogyrus vastator*
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
+[fish]: Neman river basin
- Dactylogyrus vistulae* Prost, 1957, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Leuciscus cephalus albus
Alburnoides bipunctatus
(gills of all): all from Montenegro
- Dactylogyrus vistulae* Prost, 1957
Nedeva-Menkova, I., 1977, Khelmitologia, Sofiia, v. 4, 34-39
Leuciscus cephalus
Rutilus rutilus
(gills of all): all from Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Dactylogyrus whipplius* (Kimpel, 1939)
Kritsky, D. C.; Kayton, R. J.; and Leiby, P. D., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 141-147
reassigned to *D. moorei* Monaco and Mizelle, 1955
- Dactylogyrus wunderi* Bychowsky, 1931
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologia, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinoid armature of haptor, and copulatory complex
- Dactylogyrus wunderi*
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologia, Leningrad, v. 5 (4), 320-329
monogeneans of fish (primarily *Dactylogyrus*), variation in size of body and attachment organs, of localization on host, and of developmental cycle with respect to host age and size, taxonomic implications
- Dactylogyrus wunderi*
Iziumova, N. A., 1970, Parazitologia, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Abramis ballerus (exper.)
- Dactylogyrus wunderi* Bychowsky
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[*Abramis brama*]: Upper Kama
- Dactylogyrus wunderi* Bychowsky, 1933
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologia, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinoid armature of haptor, and copulatory complex
- Dactylogyrus wunderi*
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologia, Leningrad, v. 5 (4), 320-329
monogeneans of fish (primarily *Dactylogyrus*), variation in size of body and attachment organs, of localization on host, and of developmental cycle with respect to host age and size, taxonomic implications
- Dactylogyrus wunderi*
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologia, Leningrad, v. 5 (4), 320-329
monogeneans of fish (primarily *Dactylogyrus*), variation in size of body and attachment organs, of localization on host, and of developmental cycle with respect to host age and size, taxonomic implications
- Dactylogyrus wunderi*
Iziumova, N. A., 1970, Parazitologia, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Abramis ballerus (exper.)

Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[*Abramis brama*]: Upper Kama
- Dactylogyrus wunderi*
Otvodova, G. D., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad, v. 93, 112-116
[*Abramis brama*] (gills): Pskov-Chudskoe lake
- Dactylogyrus wunderi* Bychowsky, 1931
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Abramis brama: Kursiu Marios Lagoon
- Dactylogyrus wunderi* Bychowsky, 1931
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Abramis brama (gills): Lake Dabie near Szczecin, Poland
- Dactylogyrus zandti* Bychowsky, 1933
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologia, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinoid armature of haptor, and copulatory complex
- Dactylogyrus zandti*
Iziumova, N. A., 1970, Parazitologia, Leningrad, v. 4 (5), 466-472
Dactylogyrus spp., larvae transferred to unusual hosts attached only occasionally and then failed to attain sexual maturity, adults transferred to gills lived there and produced eggs
Abramis ballerus (exper.)
- Dactylogyrus zandti* Bychowsky
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[*Abramis brama*]: Upper Kama
- Dactylogyrus zandti*
Otvodova, G. D., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad, v. 93, 112-116
[*Abramis brama*] (gills): Pskov-Chudskoe lake
- Dactylogyrus zandti* Bychowsky, 1933
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Abramis brama: Kursiu Marios Lagoon
- Dactylogyrus zandti* Bychowsky, 1933
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Abramis brama (gills): Lake Dabie near Szczecin, Poland
- Dactylogyrus zoanyngi* sp. n., illus.
Ha Ki, 1971, Parazitologia, Leningrad, v. 5 (5), 429-440
Cirrhina molitorella (gill lobes): river Bo (Laokay), lake Ba-Be (Bak-Kan), and Hanoi, North Vietnam
- Dactylostomum winteri* n. sp., illus.
Caballero y C., E.; and Caballero R., G., 1971, Rev. Biol. Trop., v. 18 (1-2), 1970, 139-147
Paralabrax maculatofasciatus (intestino): Aguas marinas de la Isla de Cerralvo, Golfo de California, Territorio Sur, Baja California, Mexico
- Dactylostomum winteri* Caballero y C., et Caballero R., 1971, illus.
Caballero y C., E.; and Caballero R., G., [1977], Rev. Biol. Trop., v. 24 (2), 1976, 229-234
Clinocottus analis australis (mucosa del intestino anterior): Laguna Beach, California
- Decemtestis manteri* sp. n., illus.
Zhukov, E. V., 1970, Parazitologia, Leningrad, v. 4 (4), 321-326
Kareius bicoloratus (intestine): Posyet settlement, Posyet Bay, Sea of Japan

- Dendritobilharzia pulverulenta* (Braun, 1901)
Khalifa, R., 1976, Acta Parasitol. Polon., v. 24 (1-10), 1-9
Dendritobilharzia pulverulenta, morphology, life cycle, first record and description of cercaria
Anisus vortex: Swieczajty Lake, Poland
Planorbis planorbis: " " "
Anas platyrhynchos dom[estica] (renal blood vessels) (exper.)
Fulica atra (renal blood vessels): Stregiel Lake, Poland
- Dendromonocotyle cortesi* sp. nov., illus.
Bravo-Hollis, M., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (2), s. Zool., 1969, 161-178
mantarraya gris (superficie dorsal externa del cuerpo): Bahía de Los Angeles e Isla Rasa, Golfo de Cortes, Baja, California
- Dendromonocotyle kuhlii* Young, 1967, illus.
Kearn, G. C., 1979, Internat. J. Parasitol., v. 9 (6), 545-552
skin-parasitic monogeneans of fish, occurrence of gut pigment in relation to habitat (host dorsal vs. ventral surface), pigment distribution in upper skin of fish hosts, chemical nature of pigment; Entobdella soleae does not contain gut pigment and does not damage host dermis during feeding
Amphotistius kuhlii: Moreton Bay, Queensland, Australia
- Deretrema* sp., illus.
Paggi, L.; and Orecchia, P., 1976, Parassitologia, v. 18 (1-3), 21-32
Blennius pavo (intestino): litorale fra Santa Marinella e Civitavecchia, Prov. Roma
- Deretrema pycnorganum* (Rees, 1953) Yamaguti, 1958
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
synonymy
Anarhichas lupus (gall-bladder): Banquereau, eastern seaboard of Canada
A. minor (gall-bladder): Funk Island Bank, eastern seaboard of Canada
- Derogenes adriatica* nov. sp., illus.
Nikolaeva, V. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 52-66
Diplodus annularis (stomach): Adriatic Sea
- Derogenes cacozelus* Nicoll, 1907
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Lecithaster gibbosus* (Rudolphi, 1902) Luehe, 1902
- Derogenes fuhrmanni* Mola, 1912
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Derogenes varicus* (Mueller, 1780) Looss, 1901
- Derogenes latus* Janiszewska, 1953
Nikolaeva, V. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 52-66
Trigla pini (intestine, pyloric caeca): Mediterranean Sea
- Derogenes minor* Looss, 1901
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Derogenes varicus* (Mueller, 1780) Looss, 1901
- Derogenes parvus* Szidat, 1950
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Derogenes varicus* (Mueller, 1780) Looss, 1901
- Derogenes plenus* Stafford, 1904
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Derogenes varicus* (Mueller, 1780) Looss, 1901
- Derogenes varicus* (Muller, 1784)
Appy, R. G.; and Dadswell, M. J., 1978, Canad. J. Zool., v. 56 (6), 1382-1391
Acipenser oxyrinchus (esophagus): Saint John River estuary, N.B., Canada
- Derogenes varicus* (Mueller, 1780) Looss, 1901
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
synonymy
Ammodytes americanus (stomach): Grand Bank and Banquereau, eastern seaboard of Canada
Anarhichas denticulatus (stomach): Funk Island Bank, eastern seaboard of Canada
A. lupus (stomach): Flemish Cap and Green Bank, eastern seaboard of Canada
Boreogadus saida (stomach): Hamilton Inlet Bank and Grand Bank, eastern seaboard of Canada
Gadus morhua (stomach): Funk Island Bank and Banquereau, eastern seaboard of Canada
Glyptocephalus cynoglossus (stomach): Funk Island Bank, Hamilton Inlet Bank, and St. Pierre Bank, eastern seaboard of Canada
Hemitripterus americanus (stomach): Sable Island Bank, eastern seaboard of Canada
Hippoglossoides platessoides (stomach): Grand Bank, Hamilton Inlet Bank, and Banquereau, eastern seaboard of Canada
Hippoglossus hippoglossus (stomach): Hamilton Inlet Bank and Banquereau, eastern seaboard of Canada
Limanda ferruginea (stomach): Sable Island Bank, eastern seaboard of Canada
Lycodes reticulatus (stomach): Grand Bank, eastern seaboard of Canada
L. vahli (stomach): Grand Bank and Funk Island Bank, eastern seaboard of Canada
Myoxocephalus octodecemspinosus (stomach): Sable Island Bank, eastern seaboard of Canada
M. scorpius (stomach): Green Bank, eastern seaboard of Canada
Reinhardtius hippoglossoides (stomach): Hamilton Inlet Bank and Grand Bank, eastern seaboard of Canada
Triglops murrayi (stomach): Green Bank, Grand Bank, and Banquereau, eastern seaboard of Canada
Urophycis tenuis (stomach): Green Bank and St. Pierre Bank, eastern seaboard of Canada
- Derogenes varicus* (Mueller, 1776)
Gaevskaia, A. V.; and Umnova, B. A., 1977, Biol. Moria, Vladivostok (4), 40-48
Merluccius bilinearis: Georges Bank
Melanogrammus aeglefinus: Georges Bank
Gadus morhua: Georges Bank; Nova Scotia
Alosa pseudoharengus: Georges Bank
Clupea harengus: Georges Bank
Limanda ferruginea: Georges Bank
Scomber scombrus: Georges Bank
Sebastes marinus: Grand Newfoundland Bank
Urophycis tenuis: Massachusetts Bay
all from Northwest Atlantic

- Derogenes varicus*
Grozdilova, T. A., 1974, Parazitologiya, Leningrad, v. 8 (4), 293-298
Oncorhynchus gorbusha: White Sea; Barents Sea; Umba [and/or] Keret rivers
- Derogenes varicus* (Mueller, 1784) Looss, 1901, illus.
Køie, M., 1979, Ztschr. Parasitenk., v. 59 (1), 67-78
Derogenes varicus, redescription, developmental stages, scanning electron microscopy
Syn.: *Cercaria appendiculata* Pelseneer, 1906
Natica alderi: Oresund
N. pallida: Oresund; Disco Bay, Western Greenland
N. catena: western Kattegat
N. clausa: Disco Bay, Western Greenland
Paracalanus parvus (exper.) (body cavity)
Pseudocalanus elongatus (exper.) (body cavity)
Temora longicornis (exper.) (body cavity)
Acartia sp. (exper.) (body cavity)

Cuora amboinensis: Telok Anson, Malaysia

- Diaschistorchis pandus* (Braun, 1901)
Sey, O., 1977, Acta Zool. Acad. Scient. Hungar., v. 23 (3-4), 387-394
Caretta caretta: Egyptian coast
- Diclidophora*
Hanson, A. W., 1979, J. Parasitol., v. 65 (3), 457-459
diagnosis given by Yamaguti (1963) emended
- Diclidophora Kroyer*, 1938
Lamothe-Argumedo, R., [1968], An. Inst. Biol., Univ. Nac. Mexico, v. 38 (1), s. Zool., 1967, 47-58
Diclidophorinae, key
- Diclidophora coelorhynchi*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Coelorhynchus australis: Cook Strait, New Zealand
- Diclidophora denticulata*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Pollachius virens: Bergen, Norway
- Diclidophora denticulata*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Pollachius virens (gills): Scottish waters
- Diclidophora embiotocae* sp. n., illus.
Hanson, A. W., 1979, J. Parasitol., v. 65 (3), 457-459
Amphisticus rhodoterus
Hyperprosopon ellipticum
H. argenteum
(gills of all): all from coast of Lincoln County, Oregon
- Diclidophora esmarkii*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Trisopterus esmarkii: Bergen, Norway
- Diclidophora luscae*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Trisopterus luscus: Plymouth, England
- Diclidophora luscae*, illus.
Shaw, M. K., 1979, Ztschr. Parasitenk., v. 59 (1), 43-51
monogeneans, ultrastructure of clamp sclerites
- Diclidophora luscae*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Trisopterus luscus (gills): Scottish waters
- Diclidophora macruri*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Macrurus rupestris: Bergen, Norway
- Diclidophora merlangi*, illus.
Halton, D. W., 1978, Parasitology, v. 76 (1), 29-37
Diclidophora merlangi, trans-tegumental absorption of L-alanine and L-leucine, worm is clearly sanguinivorous and digests blood in well-developed gut but may also be capable of supplementing this diet with low molecular weight organic nutrient absorbed directly from sea water via tegument
- Diclidophora merlangi*
Houlihan, D. F.; and Macdonald, S., 1979, Exper. Parasitol., v. 48 (1), 109-117
Diclidophora merlangi, *Entobdella soleae*, egg production and respiratory rate at different oxygen partial pressures
- Diclidophora merlangi*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Odontogadus merlangus: Plymouth, England
- Diclidophora merlangi*
Smith, J. W., 1969, Norwegian J. Zool., v. 17 (1), 57-63
Diclidophora merlangi, *Clavella adunca* f. *devastatrix*, and *Lernaecera branchialis* on *Merlangius merlangus*, incidence in relation to locality and host sex, intensity of infection, microhabitats: British waters
- Diclidophora merlangi*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Merlangius merlangus (gills): Scottish waters
- Diclidophora merlangi?*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Gadus morhua (gills): Scottish waters
- Diclidophora minor*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Micromesistius poutassou: Plymouth & Bergen
- Diclidophora minor*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Micromesistius poutassou (gills): Scottish waters

- Diclidophora palmata*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Molva molva: Bergen, Norway
- Diclidophora palmata*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Molva molva (gills): Scottish waters
- Diclidophora phycidis*, illus.
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Phycis blennoides: Irish Atlantic Slope
- Diclidophora pollachii*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Pollachius pollachius: West of Scotland
- Diclidophora pollachii*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Pollachius pollachius (gills): Scottish waters
- Diclidophora pugetensis*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Atheresthes stomias: Puget Sound, USA
- Diclidophorinae (Cerfontaine), 1895, Yamaguti, 1963
Lamothe-Argumedo, R., [1968], An. Inst. Biol., Univ. Nac. Mexico, v. 38 (1), s. Zool., 1967, 47-58
Diclidophoridae
key to genera, includes: Allodiclidophora Yamaguti, 1963; Bravocotyle gen. nov.; Echinopelma Raecke, 1945; Osphryobothrus Yamaguti, 1958; Diclidophora Kroyer, 1938
- Diclidophoroides maccallumi* Price, 1943
Gaevskaia, A. V.; and Umnova, B. A., 1977, Biol. Moria, Vladivostok (4), 40-48
Urophycis chuss: region of Nova Scotia
U. tenuis: Massachusetts Bay
(gills of all): all from Northwest Atlantic
- Diclidophoroides maccallumi* Price, 1943
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Urophycis chuss (gill filaments): Raritan Bay, New Jersey
- Diclidophoropsis* sp.
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Paralichthys dentatus (gill filaments, gill arch)
Prionotus strigatus (gill filaments)
all from Raritan Bay, New Jersey
- Diclybothrium* Leuckart
Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Diclybothrium armatum* Leuckart, 1835
Appy, R. G.; and Dadswell, M. J., 1978, Canad. J. Zool., v. 56 (6), 1382-1391
Acipenser brevirostrum (gills): Saint John River estuary, N.B., Canada
- Dicrocoeliidae
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
key
- Dicrocoeliidae
Panin, V. Ia., 1974, Parazitologiya, Leningrad, v. 8 (2), 93-97
Dicrocoeliidae, cenogenetic adaptations and their role in evolution
- Dicrocoeliids
Mawson, P. M., 1971, Tr. Roy. Soc. South Australia, v. 95 (3), 169-183
Amphibolurus fionii? (gall bladder, bile duct)
Rattus fuscipes murrayi (gall bladder)
all from Pearson Island, western coast of South Australia
- Dicrocoeliosis
Petkov, A.; et al., 1977, Vet. Sbirka, v. 75 (1), 28-30
helminthiasis, sheep, dehelminthization increases productivity (milk and wool yield, growth) and decreased death rate
- Dicrocoeliosis
Salimov, B., 1977, Veterinariia, Moskva (8), 71-72
dicrocoeliosis, sheep, control, detection of infected pastures, eradication of intermediate hosts: Samarkand
- Dicrocoelium spp.
Corba, J., 1978, Vet. Med. Rev. (1), 77-81
Fasciola hepatica, cattle, sheep, bilevon injection highly effective and well tolerated; not effective against Dicrocoelium spp.
- Dicrocoelium dendriticum
Calamel, M.; Villemin, P.; and Leimbacher, F., 1979, Rec. Med. Vet., v. 155 (1), 37-46
Dicrocoelium dendriticum, sheep, diamphenethide, efficacy in relation to duration, dosage, host age, and retreatment
- Dicrocoelium dendriticum
Corba, J.; et al., 1978, Veterinarstvi, v. 28 (6), 274-275
Dicrocoelium dendriticum, sheep, trials of cambendazole, fenbendazole, diamfenetid
- Dicrocoelium dendriticum
Corba, J.; et al., 1979, Brit. Vet. J., v. 135 (4), 318-323
helminths of sheep and cattle, efficacy of fenbendazole

- Dicrocoelium dendriticum*
Eslami, A.; et al., 1976, J. Vet. Fac. Univ. Tehran, v. 32 (1-4), 21-27
Fasciola hepatica, *Dicrocoelium dendriticum*, *Ornithobilharzia turkestanicum*, *Linguatula serrata*, incidence in liver of ruminants; important cause of economic losses: Tehran abattoir
- Dicrocoelium dendriticum*
Guralp, N.; Oguz, T.; and Zeybek, H., 1977, Vet. Fak. Dergisi, Ankara Univ., v. 24 (1), 85-89
Dicrocoelium dendriticum, sheep, chemotherapeutic trials with embay 8440
- Dicrocoelium dendriticum*
Keller, H., 1978, Schweiz. Arch. Tierh., v. 120 (4), 189-193
Dicrocoelium dendriticum, F[asciola] hepatica, cattle, glutamate-dehydrogenase and L- γ -glutamyl-transferase activities in sera, compared with cattle not showing macroscopic visceral lesions
- Dicrocoelium dendriticum*
Landsverk, T.; Gamlem, H.; and Svenkerud, R., 1978, Vet. Path., v. 15 (2), 186-195
ewe (bile ducts): Gotland
- Dicrocoelium dendriticum*
Macchioni, G.; et al., 1978, Clin. Vet., Milano, v. 101 (4), 185-190
Dicrocoelium dendriticum, sheep, efficacy of thiabendazole at various dosage rates, post mortem counts of adult parasites
- Dicrocoelium dendriticum*
Manas Almendros, I.; et al., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 751-773
Dicrocoelium dendriticum, frequency in cattle, according to host age and sex, seasonal distribution: Granada, Spain
- Dicrocoelium dendriticum*, *illus.*
Neuhaus, W., 1978, Ztschr. Parasitenk., v. 55 (3), 209-221
Dicrocoelium dendriticum, *Pleurogenoides medians*, *Fasciola hepatica*, length of uterus as correlated with body size at different stages of development, mathematical analysis of growth
- Dicrocoelium dendriticum*
Reinhardt, P., 1978, Monatsh. Vet.-Med., v. 33 (23), 898-901
Dicrocoelium dendriticum, sheep, efficacy of various anthelmintics compared
- Dicrocoelium dendriticum*
Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
cattle: imported to United Arab Republic
- Dicrocoelium dendriticum*
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Dicrocoelium dendriticum*
Tuchschnid, P. E.; Kunz, P. A.; and Wilson, K. J., 1978, European J. Biochem., v. 88 (2), 387-394
Dicrocoelium dendriticum, hemoglobin, isolation and characterization
- Dicrocoelium dendriticum*, *illus.*
Van Ros, G., 1973, Rev. Franc. Gastro-Enterol. (89), 35-50
human intestinal helminths, differential diagnosis
- Dicrocoelium hospes* (Looss, 1907)
Tager-Kagan, P., 1979, Rev. Elevage et Med. Vet. Pays Trop., n. s., v. 32 (1), 53-55
Dicrocoelium hospes in slaughter animals, 1-year incidence survey
bovins
ovins
caprins
all from departement de Niamey, Niger
- Dicrocoelium lanceatum*
Fromunda, V.; and Popescu, S., 1977, Rev. Crest. Animalelor, v. 27 (7), 41-46
Fasciola hepatica, *Dicrocoelium lanceatum*, *Paramphistomum cervi*, ruminants, intermediate hosts, pasture habitat, seasonal distribution, preventive and control measures, review
- Dicrocoelium lanceatum*
Gottschalk, C., 1973, Ang. Parasitol., v. 14 (1), 44-54
endo-parasites of *Lepus europaeus*, seasonal dynamics, distribution according to locality, sex and age of host, economic importance of parasitism for regional hunting: Ostthuringen, DDR
- Dicrocoelium lanceatum* Stiles et Hassal, 1896
Maklakova, L. P., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 111-115
[*Lepus timidus*] (liver): Moscow game farms
- Dicrocoelium lanceatum* (Stiles et Hassall, 1896)
Paraschivescu, D., 1978, Trav. Mus. Hist. Nat. "Gr. Antipa", Bucuresti, v. 19, 321-323
Dicrocoelium lanceatum-infested *Formica* spp. (gaster) during host tetany phase: meadows of Dimbovita district, Muntenia, Romania
- Dicrocoelium lanceatum*
Trifonov, T. R., 1978, Vet. Med. Nauki, v. 15 (6), 108-112
helminths of liver, sheep, 5 year post-mortem survey, occurrence, mixed infections: Bourgas
- Dicrocoelium lanceolatum*
Badie, A., 1978, Ann. Parasitol., v. 53 (4), 373-385
Dicrocoelium lanceolatum, sheep, annual activity cycle of intermediate hosts (*Cionella lubrica*, *Formica nigricans* and *F. cunicularia*), seasonal variation in number of parasitized ants, effect of climatic factors (temperature, rainfall), application to forecasting method: Limousin
- Dicrocoelium lanceolatum*
Ranucci, S.; and Grol-Ranucci, H., 1978, Clin. Vet., Milano, v. 101 (6), 324-333
Dicrocoelium lanceolatum, *Echinococcus granulosus*, sheep, changes in serum enzymes and proteins and blood bilirubin and cholesterol
- Dicrogaster* sp., *illus.*
Dolghikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
description
Hydrobia ventrosa: Novorossiisk bays

- ?*Dicrogaster contractus* Looss, 1902
Deblock, S., 1978, *Ann. Parasitol.*, v. 53 (6), 577-593
Hydrobia ventrosa: cote de France (Mediterranean)
- Dicrumentia* Mamaev, 1969
Vala, J. C.; and Euzet, L., 1977, *Vie et Milieu*, s. A, *Biol. Marine*, v. 27 (I-A), 1-9 key
- Dictyangium chelydrae* Stunkard 1943
Rosen, R.; and Marquardt, W. C., [1979], *J. Parasitol.*, v. 64 (6), 1978, 1148-1149
Pseudemys scripta elegans (colon): Lake Conway, Faulkner County, Arkansas
- Dictyocotyle coeliaca*
Treasurer, J. W., 1976, *Glasgow Naturalist*, v. 19 (4), 325-333
Raja radiata (body cavity): Scottish waters
- Didymozoid, illus.*
Yamaguti, S., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 845-848
special modes of nutrition in some digenetic trematodes
- Didymozoidae* gen. sp.
Gaevskaia, A. V., 1977, *Biol. Nauk., Min. Vyssh. i Sredn. Spetsial. Obrazovan. SSSR* (164), year 20 (8), 47-52
brief description
Sthenoteuthis pteropus (stomach wall): Atlantic Ocean
- Didymozoidae* gen. sp. larva III, *illus.*
Gaevskaia, A. V.; and Nigmatullin, Ch. M., 1976, *Zool. Zhurnal*, v. 55 (12), 1800-1810
Ommastrephes bartrami (stomach wall): Atlantic Ocean
- Didymozoidae* gen. sp. larva IV, *illus.*
Gaevskaia, A. V.; and Nigmatullin, Ch. M., 1976, *Zool. Zhurnal*, v. 55 (12), 1800-1810
Ommastrephes bartrami (stomach wall): Atlantic Ocean
- Didymozoidae* gen. sp. larvae, *illus.*
Parukhin, A. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, *Akad. Nauk Ukrain. SSR, s. Biol. Moria*, 80-96
Seriola nigrofasciata
Caranx malabaricus
Selar mate
S. crumenophthalmus
all from South China Sea
- Didymozoidae* gen. sp. larva, *illus.*
Reimer, L. W.; et al., 1971, *Parazitologiya, Leningrad*, v. 5 (6), 542-550
Calanus finmarchicus
Sagitta elegans
Tomopteris helgolandica
Pleurobrachia sp.
Dimophyes arctica
Halistemma sp.
Aglantha digitalis
Obelia sp.
Phialidium hemisphaericum
Leuckartiara octona
all from North Sea
- Didymozoidae* gen. sp. I
Rohde, K., 1978, *Biol. Zentralbl.*, v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Katsuwonus pelamis
- Didymozoidae* gen. sp. II
Rohde, K., 1978, *Biol. Zentralbl.*, v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Katsuwonus pelamis
- Didymozoidae* gen. sp. III
Rohde, K., 1978, *Biol. Zentralbl.*, v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Katsuwonus pelamis
- Didymozoon bravohollisiae* sp. nov., *illus.*
Velasquez, C. C., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. *Zool.*, 1970, 161-162
Sphyraena sp. (base of gill arch): Malabon, Rizal, Luzon Island, Philippines
- Digenea*
Benazzi, M.; and Benazzi Lentati, G., 1976, *Animal Cytogenet.*, v. 1, 182 pp.
platyhelminthes, gametogenesis, chromosome pattern, cycles, and evolution, reproductive mechanisms, cytotaxonomy
- Digenea*
Rohde, K., 1978, *Marine Biol.*, v. 47 (2), 125-134
marine Monogenea and Digenea, latitudinal differences in host specificity, digenetic host specificity increases from cold to warm seas but no such gradient exists in Monogenea, differences explained in terms of reproductive strategies
- Digenea* gen. sp.
Grozdilova, T. A., 1974, *Parazitologiya, Leningrad*, v. 8 (4), 293-298
Oncorhynchus gorbuscha: White Sea
- Dihemistephanus* Manter, 1940 nec Looss, 1901
Nasir, P.; and Gomez, Y., 1977, *Riv. Parasitol.*, Roma, v. 38 (1), 53-73
as syn. of *Manteria Caballero*, 1950

- Dinosoma aguljasi* sp. n., illus.
Tkachuk, L. P., 1979, Zool. Zhurnal, v. 58 (9), 1290-1295
Alloctytus verrucosus
Neocyttus rhomboidalis
Cyttosoma boops
(stomach of all): all from Aguljas shoal
- Dinosoma thoria* nov. sp., illus.
Nikolaeva, V. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 52-66
Arnoglossus thori (stomach): Aegean Sea
- Dinurus longisinus* Looss, 1907
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Caranx malabaricus: South China Sea
- Dinurus magnacetabulum* sp. nov., illus.
Gu, C.; and Shen, J., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (4), 373-387
[lapsus p. 373 as *D. megnacetabulum* sp. nov.]
Caranx mate: China Sea
- Dinurus megnacetabulum* sp. nov. [p. 373, lapsus for *D. magnacetabulum* sp. nov.]
Gu, C.; and Shen, J., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (4), 373-387
- Dinurus selari* Paruchin (in press) [nomen nudum]
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Carangidae: South China Sea
- Dinurus selari* sp. nov., illus.
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 97-104
Selar crumenophthalmus
S. mate
Caranx malabaricus
Atropus atropus
Decapterus sp.
(stomach [and/or] intestine of all): all from Gulf of Tonkin, South China Sea
- Dinurus tornatus* (Rudolphi, 1819) Looss, 1907, illus.
Fernandes, B. M. M., 1971, Atas Soc. Biol. Rio de Janeiro, v. 14 (3-4), 91-92
Coryphaena hippurus (estomago, intestino): Baia de Guanabara
- Dionchus agassizi*, illus.
Ktari, M. H., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 61-67
Dionchus agassizi, *D. remorae*, anatomy, development, rate of parasitism on *Echeneis naucrates*, distribution of adults and egg clusters on gills
Echeneis naucrates (branchies): golfe de Tunis; golfe de Gabes
- Dionchus remorae*, illus.
Ktari, M. H., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 61-67
Dionchus agassizi, *D. remorae*, anatomy, development, rate of parasitism on *Echeneis naucrates*, distribution of adults and egg clusters on gills
Echeneis naucrates (branchies): golfe de Tunis; golfe de Gabes
- Dionchus remorae* (MacCullum, 1916) Price, 1938
Young, P. C., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 163-175
Echeneis naucrates: Heron Island, Queensland
- Dioncopseudobenedenia kala Yamaguti*, 1965, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description
Naso unicornis (gill): Hawaii
- Dioncopseudobenedenia kala Yamaguti*, 1965
Young, P. C., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 163-175
Naso annulatus: Heron Island, Queensland
- Dioncopseudobenedenia macracantha* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
Naso unicornis (gills): Hawaii
- Diptherostomum brusinae* (Stoss, 1889) Stoss, 1904
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Cyclonassa kamyschiensis: Novorossiisk bays
- Diptherostomum brusinae* Stoss.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Diptherostomum microacetabulum* Shulman-Albova, 1952
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
Syn.: *Pseudozoogonoides microacetabulum* (Shulman-Albova) Zhukov, 1957
Hippoglossoides platessoides (intestine): Flemish Cap, Sable Island Bank, and Grand Bank, eastern seaboard of Canada
- Diplasiocotyle johnstoni*
Rohde, K., 1978, Biol. Zentralbl., v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Aldrichetta forsteri
- Diplectanotrema trachuri* Kovaljova, 1970, illus.
Gaevskaia, A. V.; and Kovaleva, A. A., 1979, Zool. Zhurnal, v. 58 (8), 1110-1116
differences in invasion by monogeneans were shown with respect to host species and region
description
Trachurus t. trachurus
T. picturatus
(pharyngeal fold): all from shelf waters of West Sahara to Straits of Gibraltar, bank of Azores Archipelago

- Diplectanum
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key to species from Hawaiian fishes
- Diplectanum aequans, illus.
Lambert, A., 1977, Compt. Rend. Acad. Sc., Paris, v. 285, s. D, Sc. Nat., (14), 1243-1246
larval chaetotaxy and ciliated cells in a Monopisthocotylea (*Diplectanum aequans*) and a Polyopisthocotylea (*Microcotyle mormyri*) compared, results show evidence of two larval types and confirm affinities of Polystomatidae with Polyopisthocotylea but not proximity of Polystomatidae with Tetraonchidae
- Diplectanum aequans (Wagener, 1857) Diesing, 1858, illus.
Oliver, G., 1977, Ztschr. Parasitenk., v. 53 (1), 7-11
Diplectanum aequans, pathogenic effect of fixation on gills of *Dicentrarchus labrax*
- Diplectanum aequans (Wagener, 1857) Diesing, 1858, illus.
Oliver, G., 1978, Ztschr. Parasitenk., v. 57 (3), 247-250
Diplectanum aequans, *D. sciaenae*, ovoviviparity
- Diplectanum aequans
Paperna, I.; and Baudin Laurencin, F., 1979, Aquaculture, v. 16 (2), 173-175
Dicentrarchus labrax (gills): marine cultures in France
- Diplectanum curvivagina n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Pristipomoides sieboldii
Arnillo auricilla
(gills of all): all from Hawaii
- Diplectanum diplobulbus n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Kyphosus cinerascens (gills): Hawaii
- Diplectanum kuhlia n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Kuhlia sandvicensis (gills): Hawaii
- Diplectanum nenu n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Kyphosus cinerascens (gills): Hawaii
- Diplectanum opakapaka n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Pristipomoides microlepis
Aphareus rutilans
(gills of all): all from Hawaii
- Diplectanum priacanthi n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Priacanthus boops (gills): Hawaii
- Diplectanum querni n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Epinephelus quernus (gills): Hawaii
- Diplectanum sciaenae* Van Beneden et Hesse, 1863, illus.
Oliver, G., 1978, Ztschr. Parasitenk., v. 57 (3), 247-250
Diplectanum aequans, *D. sciaenae*, ovoviviparity
- Diplectanum spiculare* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Kyphosus cinerascens (gills): Hawaii
- Diplocreadium* Park, 1939
Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
as syn. of *Diploproctodaem* La Rue, 1926
- Diplodiscus amphichrus* Tubangui, 1933, illus.
Agrawal, V., 1967, Rev. Biol. Trop., v. 15 (1), 1-11
description
Bufo sp. (rectum): Lucknow
- Diplodiscus amphichrus*, illus.
Kanwar, U.; and Agrawal, M., 1977, Zool. Polon., v. 26 (2), 117-124
Diplodiscus amphichrus, cytochemical studies of Mehlis' gland cells
- Diplodiscus fischthalicus* Meskal, 1970, illus.
Baysade-Dufour, C.; et al., 1978, Ann. Parasitol., v. 53 (6), 595-605
Diplodiscus subclavatus, *D. fischthalicus*, cercariae, comparison of excretory system and chaetotaxy
Bulinus forskalii: Togo
- Diplodiscus lali* Pandey and Chakrabarti, 1968, illus.
Pandey, K. C.; and Agrawal, N., 1979, Folia Morphol., v. 27 (1), 57-59
Diplodiscus lali, egg, miracidium, description, emergence and behavior
Rana tigrina: Lucknow
- Diplodiscus mehrai* Pande, 1937, illus.
Karyakarte, P. P.; Patil, T. P.; and Chawda, D. B., 1976, Marathwada Univ. J. Sc. (Nat. Sc.), v. 15 (8), 125-127
Diplodiscus mehrai, neurosecretory cells, location and morphology
- Diplodiscus mehrai* Pande, 1937, illus.
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
- Diplodiscus mehrai* Pande, 1937
Li, M.; and Gu, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 163-169
Rana nigromaculata: Peking, China
Bufo bufo gargarizans: Peking, China
- Diplodiscus mehrai* Pande, 1937, illus.
Pandey, K. C.; and Jain, K. M., 1976, J. Zool. Soc. India, v. 26 (1-2), 1974, 145-148
description
Pila globosa: Chinhat Jheel, Lucknow

- Diplodiscus subclavatus* (Pallas, 1760), illus.
Bayssade-Dufour, C.; et al., 1978, Ann. Parasitol., v. 53 (6), 595-605
Diplodiscus subclavatus, *D. fischthalicus*, cercariae, comparison of excretory system and chetotaxy
Planorbis planorbis: Pologne
- Diplodiscus subclavatus* Goeze, illus.
Bozhkov, D., 1976, Khel'mintologiya, Sofiia, v. 1, 5-11
helminths, transmission experiments, *Rana ridibunda* to *Rana dalmatina*
- Diplodiscus subclavatus* (Goeze, 1782) Diesing, 1836
Frandsen, F., 1974, Acta Parasitol. Polon., v. 22 (1-11), 49-66
Rana esculenta
R. temporaria
R. arvalis
Bombina bombina
Bufo bufo
Triturus cristatus
(rectum of all): all from Denmark
- Diplodiscus subclavatus* Pallas, illus.
Krasnodembskii, E. G., 1973, Parazitologiya, Leningrad, v. 7 (5), 418-422
5 trematode species, maritae, glandular cells, morphology, localization, location in helminth body where their secretions are excreted
- Diplodiscus subclavatus*
Odening, K.; Bockhardt, I.; and Graefner, G., 1979, Zool. Jahrb., Jena, Abt. Syst., v. 106 (2), 214-241
key
- Diplodiscus subclavatus* (Pallas, 1760) Diesing, 1836, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana arvalis
R. esculenta
R. ridibunda
R. temporaria
Bombina bombina
B. variegata
Triturus vulgaris
all from Czechoslovakia
- Diplodiscus subclavatus*, illus.
Ramulu, G. R.; and Rao, L. N., 1979, Current Sc., Bangalore, v. 48 (16), 745 [Letter]
Diplodiscus subclavatus, suckers, esterase activity and mode of innervation; esterase activity also in caeca
- Diplodiscus subclavatus* Pallas, 1760
Skriabin, V. A., 1979, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (2), 74-75
Triturus cristatus
Rana ridibunda
(large intestine of all): all from Crimea
- Diplodiscus subclavatus*
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Planorbis planorbis: Crimea
- Diphloheterocotyla dasyatis* Yamaguti, 1965, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description
Dasyatis sp. (*D. hawaiiensis*?) (gill): Hawaii
- Diploporetta* Strandt, 1942
Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
as syn. of *Diploproctodaeum* La Rue, 1926
- Diploporus* Ozaki, 1928 nec Traschal, 1866
Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
as syn. of *Diploproctodaeum* La Rue, 1926
- Diploproctodaeae* Ozaki, 1928
Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
as syn. of *Lepocreadiidae* (Odhner, 1905)
Nicoll, 1934
- Diploproctodaeinae* Park, 1939
Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
Syn.: *Amarocotylinae* Travassos, Freitas and Buehrnheim, 1965
- Diploproctodaeum* La Rue, 1926
Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
synonymy
- Diploproctodaeum ghanensis* (Fischthal and Thomas, 1970) n. comb., illus.
Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
description and measurements
Syn.: *Bianium ghanensis* Fischthal and Thomas, 1970
Lophocephalus laevigatus (intestine): El dique, Cumana, Sucre State, Venezuela
- Diplostomatidae* [sp.]
Skriabina, E. S., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 148-155
Leuciscus l. baicalensis
Hypomesus olidus
(eyes of all): all from middle course of Kolyma river
- Diplostomiasis*
Bachinskii, V. P., 1969, Rybn. Khoziaist., Kiev (8), 104-106
parasites as possible causes of epizootics in fish: Kremenchugsk reservoir
- Diplostomidae*
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
key
- Diplostomulum* sp., undescribed
Davis, J. R.; and Huffman, D. G., 1978, Texas J. Sc., v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (skin): near San Marcos, Texas
- Diplostomulum* sp.
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Ictalurus nebulosus: Florida
- Diplostomulum clavatum*
Chernyshenko, A. S., 1966, Respublik. Mezhdomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)

- Diplostomulum desmognathi*
Dunbar, J. R.; and Moore, J. D., 1979, J. Tennessee Acad. Sc., v. 54 (3), 106-109
helminths of plethodontid salamanders, host specificity correlated with host habitat
Desmognathus quadramaculatus
D. fuscus
D. monticola
all from Horse Cove area, Washington County, Tennessee
- Diplostomulum gymnoti* n. sp., illus.
Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
[this species described under the heading "Genus *Diplostomum* Nordmann, 1832", comb. not made]
Gymnotus carapo (unencysted in brain): Laguna Salta La Vieja, Chaco Province, Argentina
- Diplostomulum huronense* (LaRue, 1927) Hughes and Hall, 1929
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (vitreous humour of eye): Ryan Lake, Algonquin Park, Ontario
- Diplostomulum huronense* La Rue, 1927
Tedla, S.; and Fernando, C. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 833-843
parasite fauna of *Perca flavescens*, seasonal changes in incidence and intensity
Perca flavescens (vitreous humor): Bay of Quinte, Lake Ontario
- Diplostomulum mordax* Szidat and Nani, 1951, illus.
Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
[this species discussed under the heading "Genus *Austrodiplostomum* Szidat and Nani, 1951"; fig. labelled *Austrodiplostomum mordax* Szidat and Nani, 1951]
Basilichthys (unencysted in brain): Argentina, Chile, Uruguay
Basilichthys bonariensis (brain tissue)
- Diplostomulum scheuringi* Hughes, 1929
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (vitreous humour of eye): Ryan Lake, Algonquin Park, Ontario
- Diplostomulum scheuringi* Hughes, 1929
Davis, J. R.; and Huffman, D. G., 1978, Texas J. Sc., v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (coelom): near San Marcos, Texas
- Diplostomulum scheuringi* Hughes, 1929
Hendrickson, G. L., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 64-68
Salmo trutta
Perca flavescens
(vitreous humor of all): all from Lake Hattie, southeastern Wyoming
- Diplostomulum scheuringi* Hughes, 1929
Tedla, S.; and Fernando, C. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 833-843
Perca flavescens (vitreous humor): Bay of Quinte, Lake Ontario
- Diplostomulum spathaceum*, illus.
Arata, N.; et al., 1977, Bol. Chileno Parasitol., v. 32 (3-4), 89-92
Salmo gairdneri (cornea; cristalino): Rio Polux, Provincia de Aysen
- Diplostomulum spathaceum*
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)
- Diplostomulum spathaceum* (Rudolphi, 1819)
Hendrickson, G. L., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 60-64
Catostomus catostomus
C. commersoni
Hybognathus hankinsoni
Perca flavescens
Pimephales promelas
Semotilus atromaculatus
Salmo gairdneri
S. trutta
Salvelinus fontinalis
(eyes of all): all from southeastern Wyoming
- Diplostomulum spathaceum*
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
+[fish]: Neman river basin
- Diplostomulum*
Shigin, A. A., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 186-195
Diplostomum spp., comparative study of distribution of sensillae on cercariae of four species, taxonomic significance of cercarial sensory apparatus in this genus
- Diplostomulum*
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
key to some genera based on cercarial sensory apparatus
- Diplostomulum*
Shigina, N. G.; and Grobov, O. F., 1972, Parazitologiya, Leningrad, v. 6 (5), 469-475
metacercariae (from eyes of fish) hyperparasitized by *Nosema diplostomi* sp. n.: salmon farm "Skhodnia", Moskovsk oblast
- Diplostomulum* sp.
Ashurova, M., 1973, Parazitologiya, Leningrad, v. 7 (2), 164-168
Schizopygopsis stoliczkai: Sarez Lake, central Pamir
- Diplostomulum* sp.
Grozdilova, T. A., 1974, Parazitologiya, Leningrad, v. 8 (4), 293-298
Oncorhynchus gorbuscha: Umba [and/or] Keret rivers
- Diplostomulum* sp.
Makhovenko, E. T., 1972, Parazitologiya, Leningrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka

- Diplostomum* sp.
Mamer, B. E., 1978, *J. Parasitol.*, v. 64 (2), 314
Salmo gairdneri (retinal-choroid area of eyes): Silver Lake, Whatcom County, Washington
S. clarki (retinal-choroid area of eyes): Silver Lake and Lake Squalicum, Whatcom County, Washington
Mergus merganser: Silver Lake, Whatcom County, Washington
- Diplostomum* spp.
Otvodova, G. D., 1975, *Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad*, v. 93, 112-116
[Abramis brama] (eyes, musculature): Pskov-Chudskoe lake
- Diplostomum* spp.
Rau, M. E.; Gordon, D. M.; and Curtis, M. A., 1979, *J. Fish Dis.*, v. 2 (4), 291-296
Diplostomum spp. in *Coregonus clupeaformis* (eyes), lack of bilateral symmetry in distribution of metacercariae, computer simulation of observed phenomenon demonstrated that asymmetry was not due to chance but was product of positive feedback mechanism, hypothesized that increased blood supply to inflamed tissues will channel more metacercariae to an already infected eye: Squaw Lake, Schefferville, Quebec
- Diplostomum adamsi* sp. n., illus.
Lester, R. J. G.; and Huizinga, H. W., 1977, *Canad. J. Zool.*, v. 55 (1), 64-73
Diplostomum adamsi, life cycle, pathogenesis, some comparisons with *D. spathaceum* and *D. scudderi*
Perca flavescens (retina) (nat. and exper.): Collins Bay, Lake Nipissing, Ontario; Bay of Quinte, Lake Ontario
Lymnaea stagnalis (exper.)
L. elodes (exper.)
Larus argentatus (small intestine) (exper.)
- Diplostomum adamsi*
Lester, R. J. G., 1977, *Canad. J. Zool.*, v. 55 (2), 288-292
Diplostomum adamsi, frequency distribution in *Perca flavescens*, estimate of host mortality: Bay of Quinte, Lake Ontario
- ?*Diplostomum* (*Diplostomum*) *amygdalum* Dubois & Pearson, 1965
Dubois, G.; and Angel, L. M., 1972, *Tr. Roy. Soc. South Australia*, v. 96 (4), 197-215
Nycticorax caledonicus: Tailem Bend, South Australia
- Diplostomum baeri* Dubois, 1937
Kakacheva-Avramova, D., 1976, *Khel'mintologiya, Sofiia*, v. 1, 12-18
Perca fluviatilis (eye): Bulgarian section of Danube River
- Diplostomum baeri* Dubois, 1937
Sergeeva, T. P., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 21, 88-92
Larus canus
Chlidonias leucoptera
Sterna paradisea
all from northern areas of Central Siberia
- Diplostomum clavatum*
Iskov, M. P., 1979, *Gidrobiol. Zhurnal*, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Diplostomum clavatum* (Nordmann, 1832)
Nedeva-Menkova, I., 1977, *Khel'mintologiya, Sofiia*, v. 4, 34-39
as syn. of *Tylodelphys clavata* (Nordmann, 1832)
- Diplostomum commutatum*
Iskov, M. P., 1979, *Gidrobiol. Zhurnal*, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Diplostomum* (*Austrodiplostomum*) *compactum* (Lutz, 1928) Dubois, 1970, illus.
Rietschel, G.; and Werding, B., 1978, *Ztschr. Parasitenk.*, v. 57 (1), 57-82
description
Phalacrocorax olivaceus (intestines): Isla de Salamanca, Northern Columbia
- Diplostomum cuticola* Leidy, 1856
Palmieri, J. R., 1976, *Great Basin Nat.*, v. 36 (3), 334-346
as syn. of *Posthodiplostomum minimum* (MacCallum, 1921)
- Diplostomum gasterostei* Williams, 1966
Andrews, C., 1979, *J. Fish. Biol.*, v. 15 (2), 195-209
parasite fauna of *Perca fluviatilis*, host specificity, comparison with different localities in British Isles, factors affecting composition
Perca fluviatilis (humour, retina): Llyn Tegid, Wales
- Diplostomum gobiorum* Shgin, 1965
Shigin, A. A., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 186-195
Diplostomum spp., comparative study of distribution of sensillae on cercariae of four species, taxonomic significance of cercarial sensory apparatus in this genus
Radix auricularia: Volga delta (Astrakhansk preserve)
- Diplostomum indistinctum*
Iskov, M. P., 1979, *Gidrobiol. Zhurnal*, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Diplostomum indistinctum* Guberlet, 1923
Sergeeva, T. P., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 21, 88-92
Larus argentatus: northern areas of Central Siberia
- Diplostomum indistinctum* (Guberlet, 1923)
Shigin, A. A., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 186-195
Diplostomum spp., comparative study of distribution of sensillae on cercariae of four species, taxonomic significance of cercarial sensory apparatus in this genus
Radix ovata: Rybinsk reservoir (Darwin preserve)
- Diplostomum indistinctum*
Sten'ko, R. P., 1978, *Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool.* (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Diplostomum indistinctum*
Sten'ko, R. P., 1978, *Zool. Zhurnal*, v. 57 (5), 658-663
Radix auricularia: Crimea

- Diplostomum macrostomum*
Iskov, M. P., 1979, *Gidrobiol. Zhurnal*, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Diplostomum mergi* Dubois, 1932
Bain, G. A.; and Threlfall, W., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 219-221
Lophodytes cucullatus (mid small intestine): Ontario
- Diplostomum mergi* Dubois, 1932
Shigin, A. A., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 186-195
Diplostomum spp., comparative study of distribution of sensillae on cercariae of four species, taxonomic significance of cercarial sensory apparatus in this genus
Radix auricularia: Volga delta
- Diplostomum paraspathaceum* Shigin, 1965
Shigin, A. A., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 22, 227-231
Diplostomum paraspathaceum, *D. spathaceum*, lowering rate of growth of [*Ctenopharyngodon idella*], possible factor in fish culture
- Diplostomum parviventosum* Dubois, 1932, *illus.*
Sergeeva, T. P., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 140-144
description
[*Chlidonias nigra*] (intestine): Azov sea
- Diplostomum* (*Diplostomum*) *parvulum* n. sp., *illus.*
Dubois, G.; and Angel, L. M., 1972, *Tr. Roy. Soc. South Australia*, v. 96 (4), 197-215
Hydroprogne caspia
Pelecanus conspicillatus
(intestine of all): all from Tailem Bend, South Australia
- Diplostomum phoxini* (Faust, 1918) Arvy et Buttner, 1954, *illus.*
Agapova, A. I.; and Galieva, K. S., 1972, *Parazitologiya, Leningrad*, v. 6 (2), 148-153
description of metacercaria and marita
Phoxinus tschekanowskii (brain, spinal cord): river Shiderty, Karagandinsk oblast, Kazakhstan
Larus ridibundus (small intestine) (exper.)
- Diplostomum phoxini*
Kazakov, B. E., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 64-70
Phoxinus phoxinus: Kol'skii peninsula, USSR
- Diplostomum phoxini*
Sten'ko, R. P., 1978, *Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool.* (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Diplostomum phoxini*
Sten'ko, R. P., 1978, *Zool. Zhurnal*, v. 57 (5), 658-663
Radix auricularia: Crimea
- Diplostomum phoxini*
Williams, I. C.; and Ellis, C., 1976, *Glasgow Naturalist*, v. 19 (4), 307-315
Lymnaea peregra: Mainland, Shetland
- Diplostomum* (*Tylodelphys*) *podicipinum podicipinum* Kozicka & Niewiadomska, 1960, *illus.*
Dubois, G.; and Angel, L. M., 1972, *Tr. Roy. Soc. South Australia*, v. 96 (4), 197-215
Podiceps cristatus: Tailem Bend, South Australia
- Diplostomum pungitis*
Kazakov, B. E., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 64-70
Pungitius pungitius
Gasterosteus aculeatus
all from Kol'skii peninsula, USSR
- Diplostomum pusillum* (Dubois, 1928), Nazmi, 1932, *illus.*
Agapova, A. I.; and Galieva, K. S., 1972, *Parazitologiya, Leningrad*, v. 6 (2), 148-153
description of metacercaria and marita
Nemachilus strauchi (eye): vicinity of Alma Ata, Kazakhstan
[*Mus musculus*] (small intestine) (exper.)
- Diplostomum repandum* Dubois et Rausch, 1950, *illus.*
Sergeeva, T. P., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 140-144
description
[*Chlidonias hybrida*]
[*Larus minutus*]
(intestine of all): all from Azov sea
- Diplostomum scudleri* (Olivier)
Lester, R. J. G., 1974, *Syesis*, v. 7, 195-200
Gasterosteus aculeatus (eye): near Vancouver, British Columbia
- Diplostomum scudleri*, *illus.*
Lester, R. J. G.; and Huizinga, H. W., 1977, *Canad. J. Zool.*, v. 55 (1), 64-73
Diplostomum adamsi, life cycle, pathogenesis, some comparisons with *D. spathaceum* and *D. scudleri*
Gasterosteus aculeatus (retina): British Columbia
- Diplostomum spathaceum* (Rudolphi, 1819)
Andrews, C., 1979, *J. Fish. Biol.*, v. 15 (2), 195-209
parasite fauna of *Perca fluviatilis*, host specificity, comparison with different localities in British Isles, factors affecting composition
Perca fluviatilis (lens): Llyn Tegid, Wales
- Diplostomum spathaceum* (Rudolphi, 1819)
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Coregonus clupeaformis (vitreous humor, lens): Aishihik Lake and Stevens Lake, Yukon Territory
Prosopium cylindraceum (vitreous humor, lens): Aishihik Lake, Yukon Territory
Catostomus catostomus (vitreous humor, lens): Aishihik Lake, Yukon Territory
Cottus cognatus (vitreous humor): Aishihik Lake and Stevens Lake, Yukon Territory
Lota lota (vitreous humor, lens): Aishihik Lake, Yukon Territory
Esox lucius (vitreous humor): Aishihik Lake, Yukon Territory
Salvelinus namaycush (vitreous humor, lens): Aishihik Lake, Yukon Territory
Thymallus arcticus (vitreous humor, lens): Aishihik Lake, Yukon Territory
- Diplostomum spathaceum*
Astakhova, T. V.; and Stepanova, G. A., 1972, *Parazitologiya, Leningrad*, v. 6 (4), 364-368
Ctenopharyngodon idella (crystalline lens): pond and spawning-nursery fisheries, Volga delta

- Diplostomum spathaceum*
Burrough, R. J., 1978, *J. Fish Biol.*, v. 13 (1), 19-32
Tylodelphys clavata and *Diplostomum spathaceum* in roach, rudd, and roach/rudd hybrids, population biology, seasonal changes in incidence, intensity of infection, and frequency distribution, relationship of infection to fish size (age)
Rutilus rutilus
Scardinius erythrophthalmus
Rutilus rutilus x *Scardinius erythrophthalmus* (eyes of all): all from Higher and Lower Leys, Slapton Ley, South Devon
- Diplostomum spathaceum*
Christensen, N. O., 1978, *Ztschr. Parasitenk.*, v. 57 (2), 155-162
Diplostomum spathaceum, *Hypoderaeum conoideum*, *Plagiorchiidae* sp., *Notocotylus attenuatus*, labelling cercariae with radio-selenium by incubating host snails with radioisotope, no negative effects on cercariae, possible applications of technique; labelled *H. conoideum* for radioisotope assay of host-finding by measuring snail-bound radioactivity in *Helisoma duryi* after exposure to cercariae
- Diplostomum spathaceum* (Rudolphi 1819)
Heckmann, R. A.; and Palmieri, J. R., 1978, *Great Basin Nat.*, v. 38 (4), 473-477
Salmo gairdneri
Richardsonius balteatus
Catostomus ardens
Gila atraria
Lepomis macrochirus
Catostomus platyrhynchus
Salvelinus fontinalis
Salmo clarki
Salmo trutta
Cyprinus carpio
Ictalurus melas
all from Utah
- Diplostomum spathaceum*
Iskov, M. P., 1979, *Gidrobiol. Zhurnal*, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Diplostomum spathaceum* (Rudolphi)
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR* (36) 64-68
[*Rutilus rutilus*] (eye): Kamsk reservoir
- Diplostomum spathaceum* (Rudolphi)
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR* (36), 71-76
[*Rutilus rutilus*]: Kamsk reservoir
- Diplostomum spathaceum* (Rudolphi)
Lester, R. J. G., 1974, *Syesis*, v. 7, 195-200
Gasterosteus aculeatus (lens): near Vancouver, British Columbia
- Diplostomum spathaceum*, *illus.*
Lester, R. J. G.; and Huizinga, H. W., 1977, *Canad. J. Zool.*, v. 55 (1), 64-73
Diplostomum adamsi, life cycle, pathogenesis, some comparisons with *D. spathaceum* and *D. scudderii*
Larus argentatus: eastern Lake Huron
Perca flavescens (lens) (exper.)
Carassius auratus (lens) (exper.)
Salvelinus namaycush (lens) (exper.)
Catostomus commersoni (lens) (exper.)
Lymnaea elodes (exper.)
- Diplostomum spathaceum*
McLaughlin, J. D., 1974, *Canad. J. Zool.*, v. 52 (9), 1185-1190
Pelecanus erythrorhynchus: Delta Marsh, Manitoba
- Diplostomum spathaceum* Rud.
Mashtakov, A. V.; et al., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR* (36), 68-71
[*Rutilus rutilus*] (eyes)
[*Abramis brama*] (eyes)
[*Perca fluviatilis*] (eyes)
all from Votkinsk reservoir
- Diplostomum spathaceum* (Rudolphi, 1819)
Moravec, F., 1978, *Scripta Fac. Scient. Nat. Univ. Purkynianae Brun.*, *Biol.*, v. 8 (2), 77-80
Abramis brama
Gobio gobio
Rutilus rutilus
Leuciscus cephalus
Cyprinus carpio
Tinca tinca
Esox lucius
all from Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Diplostomum spathaceum* Rudolphi, 1819, *illus.*
Palmieri, J. R.; Heckmann, R. A.; and Evans, R. S., 1976, *Great Basin Nat.*, v. 36 (1), 86-96
Diplostomum spathaceum, incidence, host specificity, host habitats, potential health hazards to wildlife and man
Lymnaea palustris
Lymnaea stagnalis
Lymnaea auricularia (exper.)
Larus californicus
Larus delawarensis
Salvelinus fontinalis
Salmo trutta
Catostomus discobolus
Salmo clarki
Micropterus salmoides
Catostomus platyrhynchus
Salmo gairdneri
Richardsonius balteatus
Gila atraria
Catostomus ardens
all from Utah
- Diplostomum spathaceum* (Rudolphi, 1819)
Sergeeva, T. P., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 21, 88-92
Larus argentatus: northern areas of Central Siberia
- Diplostomum spathaceum* (Rud.)
Seyda, M., 1973, *Acta Ichthyol. et Piscat.*, v. 3 (2), 67-76
Anguilla anguilla: Szczecin Firth, West Odra River, and Dabie Lake, Poland
- Diplostomum spathaceum* (Rud., 1891)
Shigin, A. A., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 22, 227-231
Diplostomum paraspathaceum, *D. spathaceum*, lowering rate of growth of [*Ctenopharyngodon idella*], possible factor in fish culture
- Diplostomum spathaceum* (Rud., 1819)
Shigin, A. A., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 186-195
Diplostomum spp., comparative study of distribution of sensillae on cercariae of four species, taxonomic significance of cercarial sensory apparatus in this genus
Limnaea stagnalis: Volga delta, Rybinsk reservoir and Moskovsk oblast

- Diplostomum spathaceum, illus.
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
Strigeata, description and taxonomic significance of cercarial sensory apparatus, distribution of sensillae
Limnaea stagnalis
Galba palustris
Radix auricularia
- Diplostomum spathaceum
Shigin, A. A.; and Gorovaia, T. V., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 232-240
Diplostomum spathaceum cercariae, measurement of elimination by cladoceran Moina macrocopa and estimation of its role in regulating numbers of cercariae
Limnaea stagnalis: fishery, Moskovskoi oblast
- Diplostomum spathaceum
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Diplostomum spathaceum
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Radix auricularia: Crimea
- Diplostomum spathaceum s. 1.
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Abramis ballerus
Blicca bjoerana
all from Dabie lake, Poland
- Diplostomum spathaceum (Rudolphi, 1819) Braun, 1893
Wierzbicki, K., 1970, Acta Parasitol. Polon., v. 18 (1-12), 45-55
Perca fluviatilis: Lake Dargin, Mazurian Lakeland, Poland
- Diplostomum spathaceum (Rudolphi, 1890)
Willemsse, J. J., 1968, Bull. Zool. Mus. Univ. Amsterdam, v. 1 (8), 83-87
Scardinius erythrophthalmus: Ouderkerk aan de Amstel
- Diplostomum (Diplostomum) spathaceum murrayense (Johnston & Cleland, 1938), illus.
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
Larus novaehollandiae (intestine): Taillem Bend, Swan Reach, River Murray, and Yalkuri, South Australia
- Diplostomum thaparia (Lal, 1939) Bhalerao, 1942
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
as syn. of Strigea nephronis Vidyarthi, 1937
- Diplostomum vancleavei Agersborg, 1925
Palmieri, J. R., 1976, Great Basin Nat., v. 36 (3), 334-346
as syn. of Posthodiplostomum minimum (MacCallum, 1921)
- Diplozoon Nordmann, 1832, emend.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
key to subgenera, includes: Diplozoon Nordmann, 1832; Paradiplazoon subgen. nov.
- Diplozoon
Kazakov, B. E., 1971, Trudy Gel'mint Lab., Akad. Nauk SSSR, v. 22, 59-62
Monogeneoidea of fish, analysis of zoogeographic groups: Kol'skii peninsula
- Diplozoon Nordmann
Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Diplozoon Nordmann, 1832
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
subgen. of Diplozoon
key
- Diplozoon (Paradiplazoon) sp. 1, illus.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
description
Gobio sp. (gills): River Amur at the village of Elabuga
- Diplozoon (Paradiplazoon) sp. 2, illus.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
description
Megalobrama terminalis (gills): lake Bolon'
- Diplozoon (Paradiplazoon) sp. 3, illus.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
description
Phoxinus lagowskii (gills): River Amur at the village of Kal'ma
- Diplozoon sp.
Nedeva-Menkova, I., 1977, Khel'mintologiya, Sofiia, v. 4, 34-39
Barbus meridionalis petenyi (gills): Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Diplozoon [sp.]
Oliver, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 121-125
Barbus meridionalis (intestine): Herault and Pyrenees-Orientales, France
Gobio gobio: Herault, France
Telestes soufia agassizi: Herault, France
Chondrostoma toxostoma: Herault, France
- Diplozoon sp. I
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Scardinius erythrophthalmus: Kursiu Marios Lagoon
- Diplozoon sp. II
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Alburnus alburnus: Kursiu Marios Lagoon
- Diplozoon sp. III
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Gobio gobio: Kursiu Marios Lagoon
- Diplozoon agdamicum sp. n., illus.
Mikhailov, T. K., 1973, Parazitologiya, Leningrad, v. 7 (2), 145-153
Leuciscus cephalus orientalis (gills): Kura basin, Azerbaidzhan

- Diplozoon (Paradiplozoon) amurensis subgen. et sp. nov., illus.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
Pseudaspius leptocephalus (gills): lakes Bolon and Udy1'
- Diplozoon chazaricum sp. n., illus.
Mikhailov, T. K., 1973, Parazitologiya, Leningrad, v. 7 (2), 145-153
[lapsus p. 147 as D. chazarikum]
Rutilus frisii kutum (gills): South Caspian, Kura, Azerbaidzhan
- Diplozoon chazarikum [lapsus p. 147 for D. chazaricum sp. n.]
Mikhailov, T. K., 1973, Parazitologiya, Leningrad, v. 7 (2), 145-153
- Diplozoon doi sp. n., illus.
Ha Ki, 1971, Parazitologiya, Leningrad, v. 5 (5), 429-440
Squaliobarbus curriculus
Hypophthalmichthys harmandi
Cirrhina molitorella
Carassius auratus
(gill lobes of all): all from reservoirs of Kien-An, Hanoi, and Ha-Bak, North Vietnam
- Diplozoon (Paradiplozoon) erythroculteris subgen. et sp. nov., illus.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
Erythroculter mongolicus (gills): River Amgun'
- Diplozoon gracile, illus.
Lambert, A., 1977, Compt. Rend. Acad. Sc., Paris, v. 285, s. D, Sc. Nat. (14), 1243-1246
larval chaetotaxy and ciliated cells
- Diplozoon gussevi
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Diplozoon gussevi Glaeser et Glaeser, 1964
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Blicca bjoerchna (gills): Lake Dabie near Szczecin, Poland
- Diplozoon homoion Bychowsky et Nagibina
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[Rutilus rutilus] (gills): Kamsk reservoir
- Diplozoon homoion Bychowsky et Nagibina
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[Rutilus rutilus]: Upper Kama; Chusovaia river; Kamsk reservoir
- Diplozoon homoion Bychowsky et Nagibina, 1959
Kazakov, B. E., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 26-31
Rutilus rutilus (gills): Murmansk oblast
- Diplozoon homoion
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Rutilus rutilus: Kol'skii peninsula, USSR
- Diplozoon homoion, illus.
Khotenovskii, I. A., 1975, Parazitologiya, Leningrad, v. 9 (1), 17-27
Diplozoon spp., morphology of eggs and larvae, technique for hatching larvae and their impregnation by silver, distribution of ciliated cells and sensillae in larvae, possible use of egg and larval characters in species differentiation
- Diplozoon homoion Bychowsky et Nagibina, 1959
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Rutilus rutilus: Kursiu Marios Lagoon
- Diplozoon homoion Bykhovskij et Nagibina 1959, illus.
Prost, M., 1974, Acta Parasitol. Polon., v. 22 (12-21), 139-147
Phoxinus phoxinus: mountain stream of Wolkowyjka, Bieszczady Mts., Poland
- Diplozoon homoion gracile
Macdonald, S.; and Jones, A., 1978, J. Helminth., v. 52 (1), 23-28
Diplozoon homoion gracile from Barbus meridionalis, egg-laying and hatching rhythms, probably synchronized to host behavior so as to increase chances of successful invasion by larvae
- Diplozoon kurensis sp. n., illus.
Mikhailov, T. K., 1973, Parazitologiya, Leningrad, v. 7 (2), 145-153
Barbus lacerta cyri (gills): Kura basin and Talysh river, Azerbaidzhan
- Diplozoon kuthkaschenicum sp. n., illus.
Mikhailov, T. K., 1973, Parazitologiya, Leningrad, v. 7 (2), 145-153
Alburnus filippii
A. charusini hohenerkeri
(gills of all): all from Kura basin, Azerbaidzhan
- Diplozoon (Paradiplozoon) marinae subgen. et sp. nov., illus.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
Hypophthalmichthys molitrix (gills): River Amur at the village of Elabuga
- Diplozoon markewitschi, illus.
Khotenovskii, I. A., 1975, Parazitologiya, Leningrad, v. 9 (1), 17-27
Diplozoon spp., morphology of eggs and larvae, technique for hatching larvae and their impregnation by silver, distribution of ciliated cells and sensillae in larvae, possible use of egg and larval characters in species differentiation
- Diplozoon markewitschi Bychowsky, Gintowt et Koval, 1964
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Vimba vimba: Kursiu Marios Lagoon
- Diplozoon megan Bychowsky et Nagibina, 1959
Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologiya, Leningrad, v. 5 (2), 162-171
monogenetic trematodes of fish, effect of host age on size of body, chitinous armature of haptor, and copulatory complex

- Diplozoon megan Bychowsky et Nagibina
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[Leuciscus idus] (gills): Kamsk reservoir
- Diplozoon megan Bychowsky et Nagibina, 1959
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Leuciscus idus: Kursiu Marios Lagoon
- Diplozoon mingetschauricum sp. n., illus.
Mikhailov, T. K., 1973, Parazitologija, Leningrad, v. 7 (2), 145-153
Barbus capito (gills): Kura basin, Azerbaidzhan
- Diplozoon (Diplozoon) mylopharyngodonis subgen. et sp. nov., illus.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
Mylopharyngodon piceus (gills): village of Elabuga on the Amur
- Diplozoon nagibinae Glaeser, 1965
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Abramis ballerus (gills): Lake Dabie near Szczecin, Poland
- Diplozoon nipponicum
Kawatsu, H., 1978, Bull. Japan. Soc. Scient. Fish. (Nippon Suisan Gakkaishi), v. 44 (12), 1315-1319
Diplozoon nipponicum in crucian carp (gills), hypochromic microcytic anemia, hematological characteristics, incidence in relation to season and host size, effective treatment with trichlorfon (DEP): basin of the river Asakawa
- Diplozoon nipponicum, illus.
Khotenovskii, I. A., 1975, Parazitologija, Leningrad, v. 9 (1), 17-27
- Diplozoon nipponicum Goto, 1891
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Cyprinus carpio: Kursiu Marios Lagoon
- Diplozoon (Paradiplozoon) parabramidis subgen. et sp. nov., illus.
Akhmerov, A. Kh., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 5-19
Parabramis pekinensis (gills): River Amur at the village of Elabuga; mouth of Sungari; lake Opel'-Chlia
- Diplozoon paradoxum
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)
- Diplozoon paradoxum (Nordmann 1832)
Eslami, A.; and Kohneshahri, M., 1978, Acta Zool. et Path. Antverpiensia (70), 153-155
Rutilus frisii katum (gills): south Caspian Sea, Iran
- Diplozoon paradoxum Nordmann 1832, illus.
Halvorsen, O., 1969, Norwegian J. Zool., v. 17 (1), 93-103
Diplozoon paradoxum on roach, bream, hybrids of roach and bream, and white bream, morphological adaptability, host specificity
Rutilus rutilus
Abramis brama
Blicca bjoerkna
Rutilus rutilus x Abramis brama
all from river Glomma, Norway
- Diplozoon paradoxum Nordmann
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[Abramis brama] (gills): Kamsk reservoir
- Diplozoon paradoxum Nordmann
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[Abramis brama]: Upper Kama; Chusovaia river; Kamsk reservoir
- Diplozoon paradoxum, illus.
Kearn, G. C., 1978, Ztschr. Parasitenk., v. 57 (1), 35-47
Diplozoon paradoxum, oncomiracidium, median, pigment-shielded eyes and lateral unshielded eyes, electron microscopy
- Diplozoon paradoxum, illus.
Khotenovskii, I. A., 1975, Parazitologija, Leningrad, v. 9 (1), 17-27
Diplozoon spp., morphology of eggs and larvae, technique for hatching larvae and their impregnation by silver, distribution of ciliated cells and sensillae in larvae, possible use of egg and larval characters in species differentiation
- Diplozoon paradoxum Nordmann
Mashtakov, A. V.; et al., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 68-71
[Abramis brama]
[Pelecus cultratus]
(gills of all): all from Votkinsk reservoir
- Diplozoon paradoxum
Otvodova, G. D., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad, v. 93, 112-116
[Abramis brama] (gills): Pskov-Chudskoe lake
- Diplozoon paradoxum Nordmann, 1832
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Abramis brama: Kursiu Marios Lagoon
- Diplozoon paradoxum Nordmann
Stranock, S. D., 1979, Irish Naturalists' J., v. 19 (9), 311-315
Diplozoon paradoxum, incidence in upstream fish, absence downstream; failure to exper. cross-infect Phoxinus phoxinus and Noemacheilus barbatulus, D. paradoxum from various cyprinids may represent different host-specific species or sub-species
Gobio gobio (nat. and exper.)
Rutilus rutilus
all from Fairywater, Co. Tyrone, Northern Ireland

- Diplozoon paradoxum* Nordmann, 1832
Wierzbicka, J., 1974, *Acta Parasitol. Polon.*, v. 22 (12-21), 149-163
Monogeneoidea of certain Cyprinidae, seasonal dynamics
Abramis brama (gills): Lake Dabie near Szczecin, Poland
- Diplozoon pavlovskii* Bychowsky et Nagibina, 1959
Kakacheva-Avramova, D., 1976, *Khel'mintologiya, Sofiia*, v. 1, 12-18
Aspius aspius (gills): Bulgarian section of Danube River
- Diplozoon pavlovskii* Bychowsky et Nagibina, 1959
Paskeviciute, A., 1978, *Lietuvos TSR Moks. Akad. Darbai*, s. C (84), (4), 73-80
Aspius aspius: Kursiu Marios Lagoon
- Diplozoon persicum* sp. n., *illus.*
Mikhailov, T. K., 1973, *Parazitologiya, Leningrad*, v. 7 (2), 145-153
Vimba vimba persicus (gills): South Caspian, Azerbaidzhan
- Diplozoon rutili*, *illus.*
Khotenovskii, I. A., 1975, *Parazitologiya, Leningrad*, v. 9 (1), 17-27
Diplozoon spp., morphology of eggs and larvae, technique for hatching larvae and their impregnation by silver, distribution of ciliated cells and sensillae in larvae, possible use of egg and larval characters in species differentiation
- Diplozoon sapa* sp. n., *illus.*
Mikhailov, T. K., 1973, *Parazitologiya, Leningrad*, v. 7 (2), 145-153
Abramis sapa bergi: South Caspian, Kura, Azerbaidzhan
- Diplozoon schulmani* sp. n., *illus.*
Mikhailov, T. K., 1973, *Parazitologiya, Leningrad*, v. 7 (2), 145-153
Alburnoides bipunctatus eichwaldi (gills): Kura basin, Azerbaidzhan
- Diplozoon* (Paradiplozoon) *skrjabini* subg. et sp. n., *illus.*
Akhmerov, A. Kh., 1974, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 24, 5-19
Leucisculus waleckii (gills): River Deviatka (lake Udy1'), lake Chlia and River My
- Diplozoon varicorhini* sp. n., *illus.*
Mikhailov, T. K., 1973, *Parazitologiya, Leningrad*, v. 7 (2), 145-153
Varicorhinus capoeta sevangi (gills): Araksa basin, Azerbaidzhan
- Diporpa* [sp.]
Oliver, G., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 121-125
Phoxinus phoxinus
Telestes soufia agassizi
all from Herault, France
- Discocotyle*
Kazakov, B. E., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 22, 59-62
Monogeneoidea of fish, analysis of zoogeographic groups, comparison of some morphological and ecological parameters: Kol'skii peninsula
- Discocotyle* Diesing
Molnar, K., 1970, *Magy. Allatvilaga* (100), v. 2, (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Discocotyle sagittata* (Leuckart, 1842)
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Coregonus clupeaformis
Prosopium cylindraceum
Salvelinus namaycush
Thymallus arcticus
(gills of all): all from Aishihik Lake, Yukon Territory
- Discocotyle sagittata*
Grozdilova, T. A., 1974, *Parazitologiya, Leningrad*, v. 8 (4), 293-298
Oncorhynchus gorbusha: White Sea
- Discocotyle sagittata* Leuckart, 1842
Kazakov, B. E., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 21, 26-31
Coregonus albula
C. lavaretus
Salmo trutta fario
Thymalus thymalus
(gills of all): all from Murmansk oblast
- Discocotyle sagittata*, *illus.*
Koerting, W., 1977, *Fisch u. Umwelt* (4), 37-48
fish parasites, histopathological changes
- Dissosaccus gravidus* (Looss, 1907) Skrjabin et Guschanskaja, 1955
Nikolaeva, V. M., 1966, *Respublik. Mezhdomestv. Sborn., Akad. Nauk Ukrain. SSR*, s. Biol. Moria, 52-66
Serranellus cabrilla (liver): Mediterranean Sea
- Dissosaccus medius* (Acena, 1941) Skrjabin et Guschanskaja, 1955
Nikolaeva, V. M., 1966, *Respublik. Mezhdomestv. Sborn., Akad. Nauk Ukrain. SSR*, s. Biol. Moria, 52-66
Spicara smariss (stomach, intestine): Adriatic Sea
- Distoma* sp. of Linton (1901)
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
as syn. of *Stenakron vetustum* Stafford, 1904
- Distomum appendiculatum* (Rudolphi) of Olsson (1868) in part and Levinsen (1881)
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
as syn. of *Hemiurus levinseni* Odhner, 1905
- Distoma appendiculatum, ventricosum, ocreatum* of authors (see Dawes, 1947)
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
as syn. of *Brachyphallus crenatus* (Rudolphi, 1802) Odhner, 1905
- Distomum appendiculatum* (Rudolphi, 1802) sensu Olsson 1868
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *Hemiurus luehei* Odhner, 1905
- Distoma clavatum*, *illus.*
Dobson, J., 1970, *Ann. Roy. Coll. Surg. England*, v. 47 (4), 233-242
Distoma clavatum, included in display of "Peculiar organs of Adhesion" in John Hunter's Museum
- Distoma crystallinum* Rudolphi, 1819
Gupta, N. K.; and Mishra, P. N., 1976, *Rev. Iber. Parasitol.*, v. 36 (1-2), 1-34
as syn. of *Strigea sphaerula sphaerula* (Rudolphi, 1803) Mathias, 1925

- Distoma cygnoide* Travassos, 1922
Vicente, J. J.; and dos Santos, E., 1976,
Atas Soc. Biol. Rio de Janeiro, v. 18, 27-42
as syn. of *Gorgoderina* (*Gorgorimma*) *parvica*
Travassos, 1922
- Distomum echiuri* nov. spec.
Greeff, R., 1879, Nova Acta Acad. Nat. Curios.,
v. 41, pt. 2 (1), 1-172
Echiurus pallasii (Samenblasen)
- Distoma furcigerum* Olsson, 1868
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of *Steringophorus furciger* (Olsson,
1868) Odhner, 1905
- Distoma holostomum* Rudolphi, 1819
Bakke, T. A., 1978, Zool. Scripta, v. 7 (1),
19-23
Distoma holostomum differs from *Urogonimus*
macrostomus
- Distoma incisum* Rudolphi of van Beneden (1868)
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of *Fellodistomum fellis* (Olsson,
1868) Nicoll, 1909
- Distoma isoporum* Looss, 1894
Rokicki, J., 1975, Acta Parasitol. Polon.,
v. 23 (1-11), 37-84
as syn. of *Allocreadium isoporum* (Looss,
1894) Looss, 1900
- Distoma muelleri* Levinsen, 1881
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of *Progonus muelleri* (Levinsen, 1881)
Looss, 1899
- Distomum ocreatum* (Molin) of Linton (1900, 1901)
in part
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of *Hemiurus levinseni* Odhner, 1905
- Distoma ocreatum, appendiculatum, ventricosum* of
authors (see Dawes, 1947)
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of *Brachyphallus crenatus* (Rudolphi,
1802) Odhner, 1905
- Distoma rachion* Cobbold, 1858
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of *Lepidapedon rachion* (Cobbold,
1858) Stafford, 1904
- Distoma ringens* Rudolphi, 1819
Bakke, T. A., 1978, Zool. Scripta, v. 7 (1),
19-23
as syn. of *Urogonimus macrostomus* (Rudolphi,
1803) Monticelli, 1888
- Distoma sanguineum* Sonsino, P., 1894
Gupta, P. D., 1970, Rec. Zool. Surv. India,
v. 62 (3-4), 1964, 171-190
as syn. of *Anchitrema sanguineum* (Sonsino,
1894) Looss, 1899
- Distoma varicum* (Mueller) Zeder, 1803
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of *Derogenes varicus* (Mueller, 1780)
Looss, 1901
- Distoma ventricosum, ocreatum, appendiculatum* of
authors (see Dawes, 1947)
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of *Brachyphallus crenatus* (Rudolphi,
1802) Odhner, 1905
- Distomum vibex* Linton, 1900
Gomes, D. C., 1969, Atas Soc. Biol. Rio de
Janeiro, v. 12 (4), 187-189
as syn. of *Lintonium vibex* (Linton, 1900)
- Distome*
Allison, F. R., 1979, N. Zealand J. Zool.,
v. 6 (1), 13-20
Cominella glandiformis: Heathcote-Avon
estuary, Christchurch, New Zealand
- Distomiasis*
Burel, J.; et al., 1979, Bull. G.T.V. (3),
15-21
chronic enteritis in slaughter cattle, plan
for statistical study of observed parasite
lesions: lower Normandy
- Distomiasis*
Capron, A.; et al., 1974, Tijdschr. Gastro-
enterol., v. 17 (1), 17-23
hepato-biliary parasitic infections, humans,
use of immunologic diagnostic techniques for
post-therapeutic evaluations
- Distomiasis*
Iwamura, K., 1977, Therapiewoche, v. 27 (38),
6618-6638
helminth infections of liver, humans, diagno-
sis, pathology, extensive clinical review
- Distomiasis*
Simitzis-Le Flohic, A. M.; et al., 1977,
Semaine Hop. Paris, v. 53 (22-23), 1369-1370
schistosomiasis with minor parasitism of
distomiasis, ascariasis, trichocephaliasis,
woman with presenting symptoms of adrenal
insufficiency, cortisone therapy resulted
in aggravated symptoms and asthenia, para-
sitism diagnosed, piperazine therapy resulted
in toxic neurologic reactions, illness re-
solved after niridazole therapy: France
(had resided in Central African Republic)
- Distomum*. See *Distoma*.
- Dolichoenterum* Osaki, 1924
Kohn, A., 1971, Atas Soc. Biol. Rio de Janeiro,
v. 14 (3-4), 65-66
Bucephalidae, Bucephalinae
- Dolichoenterum longissimum* Ozaki, 1924
Maillard, C.; and Lambert, M., 1978, Ann.
Parasitol., v. 53 (4), 367-371
Conger conger: Golfe du Lion en Mediter-
ranee occidentale
- Dolichosaccus*-complex
Prudhoe, S., [1972], An. Inst. Biol., Univ.
Nac. Mexico, v. 41 (1), s. Zool., 1970, 135-143
Dolichosaccus-complex from amphibians and
reptiles, new classification, specific struc-
ture, differentiation from *Opisthioglyphe*-
complex

- Dolichosaccus (Lecithopyge) novaezealandiae* sp. nov., illus.
Prudhoe, S., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 135-143 [lapsus p. 135 as *D. novaezealandiae*]
Leiopelma archeyi (ileum): Tokatea Ridge, near Coronandel, North Island, New Zealand
L. hochstetteri (intestine): New Zealand; Mangakakariki Stream, inland from Te Araroa, East Cape Province, North Island, New Zealand
- Dolichosaccus novaezealandiae* [lapsus p. 135 for *D. novaezealandiae* sp. nov.]
Prudhoe, S., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 135-143
- Dolichosaccus rastellus* (Olsson, 1876) Travassos, 1930
Li, M.; and Gu, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 163-169
Bufo bufo gargarizans: Peking, China
- Dolichosaccus rastellus* (Olsson, 1876) Looss, 1899, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp. helminths of amphibians, incidence, host affinities
Rana esculenta
R. ridibunda
Bombina variegata
all from Czechoslovakia
- Dolichosaccus (Lecithopyge) rastellus* (Olsson, 1876), illus.
Prudhoe, S., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 135-143
synonymy, redescription
Rana temporaria (intestine): England
R. temporaria parvipalmata (duodenum): Province of Alva, Spain
- Dollfusinus frontalis* Biocca et Ferretti, 1958
Mas-Coma, S., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 139-154
Eliomys quercinus ophiusae (senos nasales)
Rattus rattus (senos nasales)
Erinaceus algirus cf. vagans (senos nasales como frontales)
all from isla de Formentera (Balears)
- Dollfusinus frontalis* Biocca et Ferretti, 1958, illus.
Mas-Coma, S.; and Kahmann, H., 1978, Acta Parasitol. Polon., v. 25 (11-20), 135-147
Dollfusinus frontalis in rodents, occurrence, distribution, growth, morphology, life cycle
Eliomys quercinus ophiusae (Nasenhohle): Formentera
E. quercinus gymnesicus (Nasenhohle): Menorca
Rattus rattus (Nasenhohle): Formentera
- Dollfusinus frontalis* Biocca & Ferretti, 1958, illus.
Mas-Coma, S.; and Montoliu, I., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 95-109
Brachylaemus sp. aff. *recurvus*, *Dollfusinus frontalis*, *Corrigia vitta*, bioecology, distribution in different insular habitats, coexistence in phylogenetically distinct free living small mammals
Eliomys quercinus ophiusae (fosas nasales)
Rattus rattus (fosas nasales)
Erinaceus algirus vagans (fosas nasales, senos frontales)
all from Formentera, Islas Pitiusas
- Dollfustravassosius* Freitas and Kohn, 1967
Srivastava, C. B., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Auton. Mexico, 325-333
as syn. of *Peloroelminis* Fischthal and Kuntz, 1964
- Dollfustrema* Eckmann, 1934
Kohn, A., 1971, Atas Soc. Biol. Rio de Janeiro, v. 14 (3-4), 65-66
Prosorhynchidae, Alciorninae
- Dracovermis* new genus
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
Liolopidae
tod: *D. occidentalis* new species
- Dracovermis brayi* new species, illus.
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
Syn.: *Harmotrema* sp. Baylis, 1940
Crocodylus cataphractus (intestine): 'Belgian Congo'
- Dracovermis nicolli* (Mehra) new combination
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
diagnosis
Syn.: *Harmotrema nicollii* Mehra, 1936 [footnote reads: "The Editor does not consider that the emendation of *nicollii* [sic, for *nicollii*] to *nicolli* is a 'justified emendation' according to the International Code of Zoological Nomenclature"]
Gavialis gangeticus (small intestine): Allahabad, U.P., India
- Dracovermis occidentalis* new species (tod), illus.
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
Alligator mississippiensis (anterior third of intestine): Cameron Parish, Louisiana; Horn Island, Jackson County, Mississippi
- Dracovermis rudolphii* (Tubangui & Masilungan) new combination
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
diagnosis
Syn.: *Harmotrema rudolphii* Tubangui & Masilungan
Crocodylus porosus (small intestine): Palawan, Philippine Islands
- Drepanocephalus parvicephalus* n. sp., illus.
Rietschel, G.; and Werding, B., 1978, Ztschr. Parasitenk., v. 57 (1), 57-82
Phalacrocorax olivaceus
Sula leucogaster
(intestines of all): all from Isla de Salamanca, Northern Columbia
- Drepanocephalus spathans* Dietz, 1909, illus.
Rietschel, G.; and Werding, B., 1978, Ztschr. Parasitenk., v. 57 (1), 57-82
description
Phalacrocorax olivaceus
Sula leucogaster
(intestines of all): all from Northern Columbia

Duboisia teganuma (Ishii, 1935) comb. n., illus.
Sudarikov, V. E.; Shigin, A. A.; and Zhatkan-
baeva, D., 1973, *Parazitologiya*, Leningrad,
v. 7 (1), 58-60

Syn.: *Cyathocotyle teganuma* Ishii, 1935

Podiceps cristatus

P. griseigena

(intestine of all): all from lake Baitak of
the Turgai river basin, Kazakh SSR [and/or]
Volga river delta

Dytiscus sp.

Iliushina, T. L., 1973, *Trudy Gel'mint. Lab.*,
Akad. Nauk SSSR, v. 23, 55-64

Plagiorchis laricola: Karasuk lake system

- Echeneidocoelium indicum Simha et Pershad, 1964
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
Echeneis naucrates (intestine)
- Echinochasmus sp., illus.
Leyan, V.; Franjola, R.; and Oberg, C., 1979, Bol. Chileno Parasitol., v. 34 (1-2), 47-48
Echinochasmus sp. from Canis familiaris (intestino delgado), morphology, adult worm and egg measurements compared with E. perfoliatus: ciudad de Valdivia, Chile
- Echinochasmus sp.
Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (duodenum): Baltic Coast, Gdansk Province, Poland
- Echinochasmus (Echinochasmus) amphibolus Kotlan, 1922
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Egretta garzetta]
[Nycticorax nycticorax]
(intestine of all): all from Black Sea preserve, Kherson oblast
- Echinochasmus amphibolus Kotlan, 1922
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Amauornis phoenicura
Caprimulgus indicus
(intestine of all): all from Vietnam
- Echinochasmus (Echinochasmus) bagulai Verma, 1935
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Nycticorax nycticorax] (intestine): Black Sea preserve, Kherson oblast
- Echinochasmus beleocephalus (Linstow, 1873), illus.
Karmanova, E. M., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 46-53
Echinochasmus beleocephalus, descriptions of cercaria and metacercaria
Bithynia tentaculata (nat. and exper.)
(liver): Volga delta
[heron] (exper.) (small intestine)
[Gallus gallus] (exper.) (intestine)
[pigeon] (exper.) (intestine)
[Alburnus alburnus] (exper.) (gill filaments)
[Scardinius erythrophthalmus] (exper.) (gill filaments)
[Lebistes] (exper.) (gill filaments)
- Echinochasmus (Echinochasmus) baeleocephalus (Linstow, 1873)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Ardea cinerea]
[Ardea purpurea]
[Egretta alba]
[Egretta garzetta]
[Nycticorax nycticorax]
(intestine of all): all from Black Sea preserve, Kherson oblast
- Echinochasmus (Episthmium) bursicola (Creplin, 1837), illus.
Karmanova, E. M., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 71-76
Echinochasmus bursicola, life cycle, description of stages
[Egretta alba] (bursa of Fabricius, cloaca): Volga delta
Bithynia tentaculata (nat. and exper.): Volga delta
[Alburnus alburnus] (gills) (exper.)
[Ardea cinerea] (bursa of Fabricius, large intestine) (exper.)
- Echinochasmus (Episthmium) bursicola (Creplin, 1837)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Ardea cinerea]
[Ardea purpurea]
all from Black Sea preserve, Kherson oblast
- Echinochasmus coaxatus Dietz, 1909, illus.
Karmanova, E. M., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 46-53
Echinochasmus coaxatus, descriptions of miracidium, redia, cercaria, and metacercaria
Bithynia tentaculata (nat. and exper.)
(liver): Volga delta
[Alburnus alburnus] (nat. and exper.)
[Scardinius erythrophthalmus] (nat. and exper.)
[Blicca bjoerkna]
[Abramis brama]
[Tinca tinca]
[Rutilus rutilus]
[Perca fluviatilis]
(gill filaments of all): all from Volga delta
- Echinochasmus (Episthmium) colymbi (Schigin, 1956) Skrjabin et Baschkirova, 1956
Karmanova, E. M., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 53-56
as syn. of Schiginella colymbi (Schigin, 1956) [n. comb.]
- Echinochasmus haliasturis Odening, 1962
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
as syn. of Echinochasmus megavitellus Lal, 1939
- Echinochasmus indicus n. sp., illus.
George Varghese, C.; et al., 1974, Kerala J. Vet. Sc., v. 4 (2), 1973, 127-132
Canis domesticus (small intestine): Mannuthy (Kerala, India)
- Echinochasmus (Episthmium) intermedius Skrjabin, 1919
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Egretta alba] (bursa of Fabricius): Black Sea preserve, Kherson oblast
- Echinochasmus japonicus westsibiricus subsp. n., illus.
Filimonova, L. V., 1979, Zool. Zhurnal, v. 58 (8), 1103-1109
Bithynia inflata: lake of Karasuk river, Novosibirsk oblast
ducklings (exper.)
chicken (exper.)

- Echinochasmus megavitellus* Lal, 1939, illus. Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Syn.: *Echinochasmus haliasturis* Odening, 1962
Ardeola bacchus
Ketupa zeylonensis
(small intestine of all): all from Vietnam
- Echinochasmus (Echinochasmus) militaris* Leonov, 1958
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young) [*Ardea cinerea*]
[*Egretta alba*]
all from Black Sea preserve, Kherson oblast
- Echinochasmus mordax* (Looss, 1899)
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Ketupa zeylonensis (small intestine): Vietnam
- Echinochasmus perfoliatus*
Leyan, V.; Franjola, R.; and Oberg, C., 1979, Bol. Chileno Parasitol., v. 34 (1-2), 47-48
Echinochasmus sp. from *Canis familiaris* (intestino delgado), morphology, adult worm and egg measurements compared with *E. perfoliatus*: ciudad de Valdivia, Chile
- Echinochasmus perfoliatus*
Linnik, V. Ia., 1974, Vet. Nauka--Proizvod., Trudy, Minsk, v. 12, 136-138
6 species of trematodes found in fish of Berezina river
- Echinochasmus (Episthmium) schigini* (Schigin, 1956) Bychowskaja-Pawlowskaja, 1962
Karmanova, E. M., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 53-56
as syn. of *Schiginella colymbi* (Schigin, 1956) [n. comb.]
- Echinochasmus spinosus* Odhner, 1911, illus. Karmanova, E. M., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 63-68
Echinochasmus spinosus, life cycle, description of egg, miracidium, cercaria, and metacercaria
Podiceps cristatus
Bithynia tentaculata (liver) (exper.)
Alburnus alburnus (nat. and exper.) (tissue of gill filaments)
Scardinius erythrophthalmus (nat. and exper.) (tissue of gill filaments)
Lebistes reticulatus (exper.) (tissue of gill filaments)
Rutilus rutilus caspicus (tissue of gill filaments)
Blicca bjoerkna (tissue of gill filaments)
Abramis brama (tissue of gill filaments)
all from Volga delta
- Echinochasmus tobi*
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Echinocollidae* Odening, 1961
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
as syn. of *Saakotrematidae* (Odening, 1961)
Odening, 1962
- Echinoparyphium* Dietz 1909
Buscher, H. N., 1978, J. Parasitol., v. 64 (1), 52-58
key to species, includes: *Echinoparyphium schulzi* Matevossian 1951; *E. baculus* (Diesing 1850); *E. pavlovskii* Bychovskaya and Kublakova 1965; *E. chinensis* Ku, Li, and Chu 1964; *E. sisjakowi* Skvortzov 1934; *E. agnatum* Dietz 1909; *E. ichthyophilum* Mendheim 1940; *E. japonicum* Ando and Ozaki 1923; *E. sinorchis* Oshmarin 1956; *E. serratum* Howell 1968; *E. aconiatum* Dietz 1909; *E. speotyto* sp. n.; *E. westsibiricum* Isaichikov 1925; *E. paracinctum* Bychovskaya-Pavlovskaya 1953; *E. syrdariense* Burdelev 1937; *E. elegans* (Looss 1899); *E. bioccalerouxi* Dollfus 1953; *E. ral-phaudyi* Lie et al. 1975; *E. dunni* Lie and Umathevy 1965; *E. baculoides* Dollfus 1951; *E. ellisi* Johnston and Simpson 1944; *E. mordwilko* Skrjabin 1915; *E. flexum* (Linton 1892); *E. recurvatum* (v. Linstow 1873); *E. hydromyos* Angel 1966
- Echinoparyphium* sp.
Davidson, W. R.; et al., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 156-161
Bonasa umbellus: Maine
- Echinoparyphium* sp.
MacKinnon, B. M.; and Burt, M. D. B., 1978, Canad. J. Zool., v. 56 (2), 350-354
platyhelminth parasites of *Ondatra zibethica*, incidence and intensity, influence of host habitat: New Brunswick
- Echinoparyphium* sp.
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Larus genei
Streptopelia chinensis
(small intestine of all): all from Vietnam
- Echinoparyphium* sp. ?
Wright, C. A.; Rollinson, D.; and Goll, P. H., 1979, Parasitology, v. 79 (1), 95-105
Bulinus senegalensis and associated parasites, isoelectric focusing studies on enzymes, differences in prevalence and variety of infections in 7 host populations: south bank of Gambia River
- Echinoparyphium aconiatum*
Gvozdev, M. A., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Khoz-iaistva, Leningrad, v. 93, 127-129
Lymnaea stagnalis: Kaleval region, Karelia
- Echinoparyphium aconiatum* Dietz, 1909, illus. Zdarska, Z., 1971, Folia Parasitol., v. 18 (3), 207-213
Echinoparyphium aconiatum, larval stages, body tegument, histochemistry, morphology
- Echinoparyphium australasianum* (Nicol 1914)
Buscher, H. N., 1978, J. Parasitol., v. 64 (1), 52-58
"belongs in its original genus, *Echinostoma*."

- Echinoparyphium clerici* Skrjabin 1915
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"this species should also be placed in the genus *Echinostoma*." [comb. not made]
- Echinoparyphium dollfusi* Agarwal 1959
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"probably belongs in the genus *Paryphostomum*."
- Echinoparyphium elegans* (Looss, 1899)
Bain, G. A.; and Threlfall, W., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 219-221
Lophodytes cucullatus (mid small intestine): Ontario
- Echinoparyphium elegans* (Looss, 1899)
Mahoney, S. P.; and Threlfall, W., 1978, *Canad. J. Zool.*, v. 56 (3), 436-439
Anas rubripes (small intestine): Canada
- Echinoparyphium emollitum* (Nicoll 1914)
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"belongs in the genus *Echinostoma* as originally described."
- Echinoparyphium indicum* Rai 1962
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"generic identity must remain questionable."
- Echinoparyphium nordiana* Baschkirova 1939
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"should be removed from the genus *Echinoparyphium*."
- Echinoparyphium nordiana vietnamense* Nguen Thi Le, sub. sp. nov., illus.
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 21, 60-68
Amaurornis phoenicura (small intestine): Vietnam
- Echinoparyphium paracinctum* Bychowskaja-Pawlow-skaja, 1953
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 21, 60-68
Anas platyrhynchos dom. (small intestine): Vietnam
- Echinoparyphium paraulum* (Dietz 1909)
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"belongs in its original genus, *Echinostoma*."
- Echinoparyphium paraulum*, illus.
Graeber, K.; and Storch, V., 1979, *Zool. Anz.*, Jena, v. 202 (5-6), 331-347
cestodes, trematodes, integument, scanning and transmission electron microscopy, morphology
- Echinoparyphium petrowi* (Nevostrueva 1954)
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"nature of the collar spines is not sufficient to support the inclusion of this species in the genus *Echinoparyphium*."
- Echinoparyphium politus* Skrjabin 1915
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"this species should also be placed in the genus *Echinostoma*." [comb. not made]
- Echinoparyphium querquedulae* Ablasov and Chibichenko 1960
Buscher, H. N., 1978, *J. Parasitol.*, v. 64 (1), 52-58
"must be removed from the genus *Echinoparyphium*."
- Echinoparyphium recurvatum* (Linstow, 1873)
Bain, G. A.; and Threlfall, W., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 219-221
Lophodytes cucullatus (posterior small intestine): Ontario
- Echinoparyphium recurvatum* (Linstow 1873)
Davidson, W. R.; et al., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 156-161
Bonasa umbellus: Michigan
- Echinoparyphium recurvatum*
Hair, J. D.; and Holmes, J. C., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 253-269
usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Echinoparyphium recurvatum*
Jilek, R., 1977, *Tr. Illinois State Acad. Sc.*, v. 70 (1), 105-107
Ondatra zibethica zibethica: southern Illinois
- Echinoparyphium recurvatum* (Linstow, 1873)
Mahoney, S. P.; and Threlfall, W., 1978, *Canad. J. Zool.*, v. 56 (3), 436-439
Anas rubripes (small intestine, caeca): Canada
- Echinoparyphium recurvatum* (Linstow, 1873)
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 21, 60-68
Anas platyrhynchos dom.
Tringa glareola
Hoplopterus duvaucelii
Amaurornis phoenicura
Acridotheres cristatellus
Streptopelia chinensis
(intestine of all): all from Vietnam
- Echinoparyphium recurvatum* (Linstow, 1873)
Ramalingam, S.; and Samuel, W. M., 1978, *Canad. J. Zool.*, v. 56 (11), 2454-2456
Bubo virginianus (intestine, cloaca): Alberta, Canada
- Echinoparyphium recurvatum*, illus.
Sankurathri, C. S.; and Holmes, J. C., 1976, *Canad. J. Zool.*, v. 54 (10), 1742-1753
parasites and commensals (*Oligochaeta* and larval *Digenea*) of *Physa gyrina* in control area vs. area affected by thermal effluents, prevalence, seasonal changes, interactions (including ingestion of cercariae by oligochete), ecological model: Lake Wabamun, Alberta

- Echinoparyphium recurvatum*
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Echinoparyphium recurvatum*
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Radix auricularia
Planorbis planorbis
Physa
all from Crimea
- Echinoparyphium recurvatum* (Linstow, 1873)
Sten'ko, R. P., 1979, Biol. Nauki, Min. Vyssh. i Sredn. Spets. Obraz. SSR (181) (1), 28-33
Radix auricularia
Galba truncatula
Physa acuta
Planorbis planorbis
Anisus spirorbis
Gyraulus gredleri
Physa fontinalis
Segmentina nitida
Gyraulus laevis
(mantle tissue of all): all from Crimea
- Echinoparyphium recurvatum* (Linstow, 1873) Luehe, 1909
Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (jejunum, ileum, rectum): Baltic Coast, Gdansk Province, Poland
- Echinoparyphium recurvatum*
Williams, I. C.; and Ellis, C., 1976, Glasgow Naturalist, v. 19 (4), 307-315
Lymnaea peregra: Mainland, Shetland
- Echinoparyphium recurvatum*
Zajicek, D., 1971, Folia Parasitol., v. 18 (2), 113-118
Columba livia dom. (exper.) (first half of jejunum)
Anas platyrhynchos dom. (exper.) (first quarter of jejunum)
Gallus gallus (exper.) (first half of jejunum)
- Echinoparyphium speotyto* sp. n., illus.
Buscher, H. N., 1978, J. Parasitol., v. 64 (1), 52-58
Speotyto cunicularia (anterior part of small intestine): near Boise City, Cimarron County, Oklahoma
- Echinopelma Raecke*, 1945
Lamothe-Argumedo, R., [1968], An. Inst. Biol., Univ. Nac. Mexico, v. 38 (1), s. Zool., 1967, 47-58
Diclidophorinae, key
- Echinostoma* sp.
Leong, T. S.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 122-126
parasites of Rattus r. diardii, influence of human habitats on rat parasite fauna
Rattus rattus diardii (small intestine): Kuala Lumpur and nearby villages
- Echinostoma* sp.
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Anas platyrhynchos dom.
Gallus gallus dom.
(intestine of all): all from Vietnam
- Echinostoma* sp.
Petrova, K., 1976, Khel'mintologiya, Sofiia, v. 1, 78-87
Corvus corone cornix (intestine): Stara Planina mountain, Bulgaria
- Echinostoma* sp.
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 88-92
Larus argentatus: northern areas of Central Siberia
- Echinostoma aegyptica* Khalil et Abaza, 1924
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Gallus gallus dom. (intestine): Vietnam
- Echinostoma audyi*, illus.
Dondero, T. J., jr.; Ow-Yang, C. K.; and Lie, K. J., 1977, Southeast Asian J. Trop. Med. and Pub. Health, v. 8 (3), 359-363
Echinostoma audyi, Hypoderaeum dingeri, unsuccessful attempts to induce acquired resistance in Lymnaea rubiginosa using irradiated miracidia, amebocytic response to irradiated parasites was slow, no obvious enlargement of amebocyte-producing organ, no resistance to homologous challenge; development of acquired resistance may be related to speed with which snails destroy irradiated sporocysts
- Echinostoma audyi*
Palmieri, J. R.; et al., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (2), 256-259
experimentally infected by Nosema sp.
Lymnaea rubiginosa (exper.)
- Echinostoma audyi*
Sullivan, J. T.; and Palmieri, J. R., 1979, J. Parasitol., v. 65 (1), 50-54
Echinostoma audyi, effect of duration and intensity of infection on survival of Lymnaea rubiginosa exposed to copper sulfate
- Echinostomum bursicola*
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Echinostoma caproni* Richard, 1964
Notteghem, M. J.; Leger, N.; and Cavier, R., 1979, Ann. Pharm. Franc., v. 37 (3-4), 153-156
Echinostoma caproni, mice, flubendazole
- Echinostoma caproni* Richard, 1964, illus.
Richard, J.; and Brygoo, E. R., 1978, Ann. Parasitol., v. 53 (3), 265-275
Echinostoma caproni, life cycle, larval morphology
Mus musculus (duodenum)
Biomphalaria glabrata
Planorbis corneus
Lymnaea stagnalis
Pisidium casertanum
Melania tuberculata truncatula
Rana temporaria (rein)
Rattus norvegicus
poulets
(all exper.)

- Echinostoma chloropodis* (Zeder, 1800)
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Amaurornis phoenicura (intestine): Vietnam
- Echinostoma chloropodis* (Zeder, 1800)
Petrova, K., 1976, Khel'mintologiya, Sofiya, v. 1, 78-87
Gallinula chloropus (caecum): Stara Planina mountain, Bulgaria
- Echinostoma chloropodis*, illus.
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (3), 338-343
Echinostoma chloropodis, description of cercaria and metacercaria from snails and marita from duckling (exper.)
Planorbis planorbis
Anisus spirorbis
(hepatopancreas of all): all from Ukrainsk SSR (Krym, lake Donuzlav)
- Echinostoma chloropodis*
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Planorbis planorbis
Anisus spirorbis
all from Crimea
- Echinostoma chloropodis* (Zeder, 1800)
Sten'ko, R. P., 1979, Biol. Nauki, Min. Vyssh. i Sredn. Spets. Obraz. SSR (181) (1), 28-33
Planorbis planorbis
Anisus spirorbis
(hepatopancreatic gland of all): all from Crimea
- Echinostoma corvi* Yamaguti, 1935
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Corvus torquatus (intestine): Vietnam
- Echinostoma dietzi*
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Echinostoma eduardoi* sp. nov., illus.
Ghosh, R. K.; and Chauhan, B. S., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 165-168
Banicota bengalensis (intestine): Salt Lake, Calcutta, India
- Echinostoma erraticum* (Lutz, 1924), illus.
Komma, M. D., 1972, Rev. Patol. Trop., v. 1 (4), 463-471
Echinostoma erraticum, justification for validity of species
- Echinostoma erraticum* Lutz, 1924
Komma, M. D., 1974, Rev. Patol. Trop., v. 3 (1), 57-63
Echinostoma erraticum sporocysts, morphological changes and development in experimentally infected *Biomphalaria straminea*
- Echinostoma hortense* Asada, 1926, illus.
Arizono, N.; et al., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (1), 36-45
Echinostoma hortense, egg measurements, clinical symptoms
humans (nat. and exper.) (stool): Osaka and Kobe Prefecture, Japan
dog (exper.) (small intestine)
Misgurnus anguillicaudatus (soft tissues adjacent to gills)
- Echinostoma hortense*, illus.
Fujino, T.; and Ishii, Y., 1979, Internat. J. Parasitol., v. 9 (5), 435-448
6 spp. of digenetic trematodes, gut epithelia, comparative ultrastructural topography, scanning and transmission electron microscopy
- Echinostoma hortense* Asada, 1926, illus.
Kamiya, H.; and Ishigaki, K., 1972, Japan. J. Vet. Research, v. 20 (4), 117-128
description, measurements
Mustela sibirica itatsi (upper small intestine): Teshio district, northern Hokkaido, Japan
- Echinostoma hortense*, illus.
Tani, S., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (4), 262-273
Echinostoma hortense, humans (feces), treatment with kamala
Misgurnus anguillicaudatus
all from Akita Prefecture, Japan
- Echinostoma hortense* (Asada, 1926)
Tani, S., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (6), 461-467
Misgurnus anguillicaudatus
Acheilognathus moriokeae
Rattus norvegicus
Mustela sibirica
Martes melampus
Canis familiaris
all from Akita Prefecture, Japan
- Echinostoma leonense* sp. nov. [nom. nud.]
Fashuyi, S. A.; and Williams, M. O., 1977, Ztschr. Parasitenk., v. 54 (1), 55-60
trematode-infected snails, role of oligochaete *Chaetogaster limnaei* in dynamics of trematode transmission (possibly protects snails against miracidia, plays no part in reducing number of cercariae), seasonal distribution in relation to cercarial shedding
Bulinus globosus: Bo, Sierra Leone
- Echinostoma liei*
Lie, K. J.; and Heyneman, D., 1979, Internat. J. Parasitol., v. 9 (6), 533-537
Echinostoma spp., acquired resistance in 4 *Biomphalaria glabrata* strains
- Echinostoma liei*
Lie, K. J.; and Heyneman, D., 1979, Internat. J. Parasitol., v. 9 (6) 539-543
Echinostoma spp., capacity of irradiated sporocysts to suppress natural host resistance to *Schistosoma mansoni* in schistosome-resistant *Biomphalaria glabrata*
- Echinostoma liei*
Lie, K. J.; Heyneman, D.; and Richards, C. S., 1979, Internat. J. Parasitol., v. 9 (6), 529-531
Biomphalaria glabrata, specificity of natural resistance to trematode infections

- Echinostoma lindoense*
Cheng, T. C.; et al., 1978, *J. Invert. Path.*, v. 31 (1), 57-62
Echinostoma lindoense-infected *Biomphalaria glabrata*, elevation of aminopeptidase activity in hemocytes and serum, possible that this lysosomal enzyme may degrade surface proteins of secondarily introduced parasites and thus act as form of acquired humoral immunity
- Echinostoma lindoense*
Lie, K. J.; and Heyneman, D., 1979, *Internat. J. Parasitol.*, v. 9 (6), 533-537
Echinostoma spp., acquired resistance in 4 *Biomphalaria glabrata* strains
- Echinostoma lindoense*
Lie, K. J.; and Heyneman, D., 1979, *Internat. J. Parasitol.*, v. 9 (6) 539-543
Echinostoma spp., capacity of irradiated sporocysts to suppress natural host resistance to *Schistosoma mansoni* in schistosome-resistant *Biomphalaria glabrata*
- Echinostoma lindoense*
Lie, K. J.; Heyneman, D.; and Richards, C. S., 1979, *Internat. J. Parasitol.*, v. 9 (6), 529-531
Biomphalaria glabrata, specificity of natural resistance to trematode infections
- Echinostoma malayanum* Leiper, 1911
Mohandas, A.; and Nadakal, A. M., 1978, *Ztschr. Parasitenk.*, v. 55 (2), 139-151
Echinostoma malayanum, development in rats, heavy population density effects (lengthened prepatent period, undersized worms, decreased proteins, lipids, calcium, and ash but not glycogen); pathological changes in rat intestine; in vitro metacercarial excystment
- Echinostoma malayanum*
Nizami, W. A.; Siddiqi, A. H.; and Waseemul Islam, M., 1977, *Ztschr. Parasitenk.*, v. 52 (3), 275-280
digenetic trematodes, comparative quantitative studies of acetylcholinesterase in seven species, higher quantities in species inhabiting gastrointestinal tract than in those parasitizing liver or swimbladder, apparently a biochemical adaptation to counteract peristalsis
- Echinostoma malayanum*
Sinniah, B., 1979, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 10 (1), 115-121
distribution and prevalence
Rattus rattus diardii
R. exulans
(small intestine of all): all from Peninsular Malaysia
- Echinostoma malayanum* Leiper 1911
Sullivan, J. T.; and Palmieri, J. R., 1978, *J. Parasitol.*, v. 64 (5), 939-940
Echinostoma malayanum, infection rate of *Indoplanorbis exustus* (exper.) decreased as shell diameter increased, cause of relative nonsusceptibility of large snails not known
- Echinostoma miyagawai* Ishii, 1932
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 21, 60-68
Anas platyrhynchos dom. (intestine): Vietnam
- Echinostoma miyagawai*
Sten'ko, R. P., 1978, *Zool. Zhurnal*, v. 57 (5), 658-663
Planorbis planorbis
Anisus spirorbis
all from Crimea
- Echinostoma miyagawai* Ishii, 1932
Sten'ko, R. P., 1979, *Biol. Nauki, Min. Vyssh. i Sredn. Spets. Obraz. SSR* (181) (1), 28-33
Planorbis planorbis (mantle tissue): Crimea
- Echinostoma paraensei*
Lie, K. J.; and Heyneman, D., 1979, *Internat. J. Parasitol.*, v. 9 (6), 533-537
Echinostoma spp., acquired resistance in 4 *Biomphalaria glabrata* strains
- Echinostoma paraensei*
Lie, K. J.; and Heyneman, D., 1979, *Internat. J. Parasitol.*, v. 9 (6) 539-543
Echinostoma spp., capacity of irradiated sporocysts to suppress natural host resistance to *Schistosoma mansoni* in schistosome-resistant *Biomphalaria glabrata*
- Echinostoma paraensei*
Lie, K. J.; Heyneman, D.; and Richards, C. S., 1979, *Internat. J. Parasitol.*, v. 9 (6), 529-531
Biomphalaria glabrata, specificity of natural resistance to trematode infections
- Echinostoma paraulum* Dietz, 1909
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 21, 60-68
Streptopelia chinensis (intestine): Vietnam
- Echinostoma porteri* sp. nov. [nom. nud.]
Fashuyi, S. A.; and Williams, M. O., 1977, *Ztschr. Parasitenk.*, v. 54 (1), 55-60
trematode-infected snails, role of oligochaete *Chaetogaster limnaei* in dynamics of trematode transmission (possibly protects snails against miracidia, plays no part in reducing number of cercariae), seasonal distribution in relation to cercarial shedding
Limnaea natalensis: Bo, Sierra Leone
- Echinostoma revolutum* (Froelich, 1802)
Bain, G. A.; and Threlfall, W., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 219-221
Lophodytes cucullatus (small intestine, large intestine): Ontario
- Echinostoma revolutum* (Froelich 1802)
Dyer, W. G.; and Klimstra, W. D., 1977, *Tr. Illinois State Acad. Sc.*, v. 70 (3-4), 356-362
Ondatra zibethicus (small intestine): southern Illinois
- Echinostoma revolutum, illus.*
Fried, B.; and Bennett, M. C., 1979, *J. Parasitol.*, v. 65 (1), 38-40
Echinostoma revolutum, encystment of cercariae
- Echinostoma revolutum*
Fried, B.; and Boddorff, J. M., 1978, *J. Parasitol.*, v. 64 (1), 174-175
Echinostoma revolutum, neutral lipids, qualitative analysis in adult flukes

- Echinostoma revolutum*, illus.
Fried, B.; and Butler, M. S., 1978, J. Parasitol., v. 64 (1), 175-177
Echinostoma revolutum metacercaria: bicarbonate pretreatment significantly enhanced infectivity in domestic chick; chemical excystation; development on chick chorioallantois
- Echinostoma revolutum*
Fried, B.; and Shapiro, I. L., 1979, J. Parasitol., v. 65 (2), 243-245
Echinostoma revolutum adults, occurrence and release of phospholipids, thin-layer chromatographic analysis
- Echinostoma revolutum*, illus.
Graeber, K.; and Storch, V., 1979, Zool. Anz., Jena, v. 202 (5-6), 331-347
cestodes, trematodes, integument, scanning and transmission electron microscopy, morphology
- Echinostoma revolutum*, illus.
Gulka, G. J.; and Fried, B., 1979, Internat. J. Parasitol., v. 9 (1), 57-59
Echinostoma revolutum, metacercarial cyst, histochemistry and ultrastructure
- Echinostoma revolutum*
Haiba, M. H.; Rahman, M. S.; and Kawasmeh, Z. A., 1977, J. Egypt. Vet. Med. Ass., v. 37 (4), 49-60
Echinostoma revolutum, chickens, ducklings, mice, blood cell counts, hemoglobin picture, serum total proteins and their electrophoretic patterns, clinical pathology: Egypt
- Echinostoma revolutum*
Jilek, R., 1977, Tr. Illinois State Acad. Sc., v. 70 (1), 105-107
Ondatra zibethica zibethica: southern Illinois
- Echinostoma revolutum* (Froelich, 1802) Looss, 1899
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
Acridotheres tristis (intestine)
- Echinostoma revolutum*
MacKinnon, B. M.; and Burt, M. D. B., 1978, Canad. J. Zool., v. 56 (2), 350-354
platyhelminth parasites of *Ondatra zibethica*, incidence and intensity, influence of host habitat: New Brunswick
- Echinostomum revolutum*
MacNeill, A. C.; and Barnard, T., 1978, Canad. Vet. J., v. 19 (1), 17-21
Anatidae: British Columbia
- Echinostoma revolutum* (Froelich, 1802)
Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Anas rubripes
Bucephala clangula
(small and large intestine of all): all from Canada
- Echinostoma revolutum*, illus.
Manuel, M. F.; and Sison, M. O., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 64-74
incidence, intensity
Anas boschas (small intestine, ceca): Philippines
- Echinostoma revolutum* (Froelich, 1802)
Noseworthy, S. M.; and Threlfall, W., 1978, J. Parasitol., v. 64 (2), 365-367
Aythya collaris (small intestine, ceca, large intestine, cloaca): Canada
- Echinostoma revolutum* (Froelich, 1802)
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 60-68
Anas platyrhynchos dom.
Gallus gallus dom.
Columba livia
(small intestine of all): all from Vietnam
- Echinostoma revolutum* (Froelich, 1802)
Petrova, K., 1976, Khel'mintologiya, Sofiya, v. 1, 78-87
Coracias garrulus (caecum): Stara Planina mountain, Bulgaria
- Echinostoma revolutum* (Froelich, 1902)
Ramalingam, S.; and Samuel, W. M., 1978, Canad. J. Zool., v. 56 (11), 2454-2456
Bubo virginianus (ceca, cloaca): Alberta, Canada
- Echinostomum revolutum* (Froelich)
Shotter, R. A., 1978, Zool. J. Linn. Soc., London, v. 62 (2), 193-203
parasites of *Columba guinea*, intensity of infection, sex of host: Ahmadu Bello University Campus, Zaria, Nigeria
- Echinostoma revolutum*
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Echinostoma revolutum*
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Radix auricularia
Physa
all from Crimea
- Echinostoma revolutum* (Froelich, 1802)
Sten'ko, R. P., 1979, Biol. Nauki, Min. Vyssh. i Sredn. Spets. Obraz. SSR (181) (1), 28-33
Radix auricularia
Planorbis planorbis
Galba truncatula
Physa acuta
Anisus spirorbis
Gyraulus gredleri
(mantle tissue of all): all from Crimea
- Echinostoma revolutum* (Froelich, 1802), illus.
Travassos, L.; de Freitas, J. F. T.; and Kohn, A., 1968, Atas Soc. Biol. Rio de Janeiro, v. 11 (6), 215-216
description
Cairina moschata dom. (falo, cloaca, bursa Fabricii): Belem, Castanhal, Estado do Para, Brasil

- Echinostoma revolutum*
Wright, C. A.; Rollinson, D.; and Goll, P. H., 1979, *Parasitology*, v. 79 (1), 95-105
Bulinus senegalensis and associated parasites, isoelectric focusing studies on enzymes, differences in prevalence and variety of infections in 7 host populations: south bank of Gambia River
- Echinostoma revolutum*
Zajicek, D., 1971, *Folia Parasitol.*, v. 18 (2), 113-118
Gallus gallus (exper.) (ileum)
- Echinostoma robustum* Yamaguti, 1935
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen Thi Le, 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 21, 60-68
Streptopelia chinensis
S. orientalis
S. tranquebarica
(intestine of all): all from Vietnam
- Echinostomum spinosum* Odhner, 1910
Odening, K., 1978, *Ang. Parasitol.*, v. 19 (1), 58-62
as syn. of *Monilifer spinulosus* (Rudolphi, 1809)
- Echinostomatidae
Gupta, P. D., 1970, *Rec. Zool. Surv. India*, v. 62 (3-4), 1964, 171-190

measurements
Blarina brevicauda: Ontario, Canada
- Episthmium colymbi* Schigin, 1956
Karmanova, E. M., 1974, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 24, 53-56
as syn. of *Schiginella colymbi* (Schigin, 1956) [n. comb.]
- Ergenstrema mugilis* (Paperna, 1964), illus.
Lambert, A., 1977, *Compt. Rend. Acad. Sc., Paris*, v. 285, s. D, Sc. Nat., (14), 1243-1246
larval chaetotaxy and ciliated cells
- Ergenstrema mugilis* Paperna, 1964, illus.
Lambert, A., 1977, *Ztschr. Parasitenk.*, v. 52 (3), 229-240
Ergenstrema mugilis, larval and postlarval development, ciliated cells, chaetotaxy, and excretory system of oncomiracidium
Liza ramada (branchiospines) (nat. and exper.)
- Eriolepterus* [lapsus for *Eriolepturus*]
Gu, C.; and Shen, J., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (4), 373-387
- Eriolepturus*
Gu, C.; and Shen, J., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (4), 373-387
[lapsus as *Eriolepturus*]
- Eriolepterus* [sic] *trichiuri* sp. nov., illus.
Gu, C.; and Shen, J., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (4), 373-387
Trichiurus haumela: China Sea
- Ercocotyle abbreviata* (Olsson, 1876)
Threlfall, W., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 805-811
Squalus acanthias: Newfoundland

- Ercocotyle canis*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Galeorhinus galeus (gills): Scottish waters
- Ercocotyle catenulata* (Guberlet, 1933), illus.
Lambert, A.; and Maillard, C., 1979, Ann. Parasitol., v. 54 (1), 113-115
Ercocotyle catenulata, oncomiracidium, description of ciliated cells and chetotaxy
- Ercocotyle septistoma* n. sp., illus.
Maillard, Cl.; and Paperna, I., 1978, Ann. Parasitol., v. 53 (5), 487-494
Sphyrna mokarran (branchies): cote nord du golfe d'Akaba de la mer Rouge
- Ercocotyle sphyrae* (MacCallum, 1931)
Maillard, Cl.; and Paperna, I., 1978, Ann. Parasitol., v. 53 (5), 487-494
Sphyrna mokarran: Nueiba (Wasit), dans le golfe d'Akaba de la mer Rouge
- Ercocotyle sphyrae* (MacCallum, 1931) Price, 1942, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description
Sphyrna lewini (gills): Hawaii
- Euclinostomum heterostomum* (Rudolphi, 1809)
Travassos, 1928
Fischthal, J. H.; and Thomas, J. D., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 73-79
Tilapia zillii
T. heudeloti
(kidneys of all): all from Nungua Lake, Ghana
- Euclinostomum heterostomum* (Rudolphi, 1809), illus.
Grabda-Kazubska, B., 1974, Acta Parasitol. Polon., v. 22 (22-34), 285-293
description
Ardea cinerea (larynx, oesophagus, bronchi): Milicz (fish-pond system in valley of Barycz, Lower Silesia), Poland; lake Koszno (environs Szczytno, Mazurian Lakeland), Poland
- Eucotyle* sp. (cohnii Skrzabin, 1924?)
Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Bucephala clangula (kidney): Canada
- Euplorchis californiensis*
Yoshino, T. P., 1976, J. Invert. Path., v. 28 (2), 209-216
Euhaplorchis californiensis rediae, effect on digestive gland cells of *Cerithidea californica*, light and electron microscopy
- Eumegacetes artamii* Mehra, 1935, illus.
Sharma, P. N., [1978], Riv. Parassitol., Roma, v. 38 (2-3), 1977, 233-245
intestinal trematodes from various vertebrates, hydrolytic enzymes, distribution in parasite gut, functional significance
- Eumegacetes artamii* Mehra, 1935, illus.
Sharma, P. N., 1979, Indian J. Exper. Biol., v. 17 (5), 479-483
10 digenetic trematodes, histochemical localization of glycogen, lipids, proteins, and phosphatases in parenchyma and other tissues
Dicurus macrocercus
- Euparadistomum indica* (Baugh, 1956) n. comb.
Gupta, V.; and Jehan, A., [1979], An. Inst. Biol., Univ. Nac. Mexico, v. 48 (1), s. Zool., 1977, 13-26
Syn.: *Platynotrema indica* Baugh, 1956
- Eupolystoma*
Lambert, A.; Combes, C.; and Ktari, M. H., 1978, Ztschr. Parasitenk., v. 56 (2), 175-181
Polystomoides, relationships to other genera in *Polystomatidae* based on morphology of oncomiracidia
- Eupolystoma*
Tinsley, R. C., 1978, J. Helminth., v. 52 (4), 291-302
amended diagnosis
- Eupolystoma alluaudi* (de Beauchamp, 1913)
Fournier, A.; and Combes, C., 1978, Zoomorphol., v. 91 (2), 147-155
Polystoma integerrimum, structure and function of eyespots of free-swimming larva studied by electron microscopy, light concentration occurs by reflection rather than by refraction and all *Polystomatidae* appear to present this reflecting system (same structure also found in *P. pelobatis*, *Eupolystoma alluaudi*, and *Polystomoides ocellatum*)
- Eupolystoma alluaudi*, illus.
Fournier, A.; and Combes, C., 1979, Compt. Rend. Acad. Sc., Paris, v. 289, s. D, Sc. Nat. (10), 745-747
Eupolystoma alluaudi, demonstration of embryonic developmental duality resulting in 2 types of larvae, one of which is responsible for internal cycle (multiplication in host by sexual reproduction) and one of which assures host-to-host transmission
- Eupolystoma alluaudi* (de Beauchamp, 1913) Euzet and Combes, 1967, illus.
Tinsley, R. C., 1978, J. Helminth., v. 52 (4), 291-302
Eupolystoma alluaudi, morphology
Bufo regularis (urinary bladder): West Africa (Yagoua, Cameroun; Dagango, Togo)
Nectophrynoides malcolmi (urinary bladder): Bale, Ethiopia, East Africa
- Eupolystoma anterorchis* sp. n., illus.
Tinsley, R. C., 1978, J. Helminth., v. 52 (4), 291-302
Bufo pardalis (urinary bladder, kidneys, kidney ducts): Noordhoek and Clovelly, Cape Peninsula, Republic of South Africa
- Eupolystoma anterorchis*, illus.
Tinsley, R. C., 1978, Parasitology, v. 77 (2), 121-132
Eupolystoma anterorchis, oviposition; hatching; oncomiracidium, distribution of tegumental ciliated cells and sensillae, systematic implications
Bufo pardalis (urinary bladder): Cape area, South Africa
- Eurycreadium problematicum* (Issaitschikov) Yamaguti, 1934
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Stenakron vetustum* Stafford, 1904

- Eurysorchis australis*
Rohde, K., 1978, Biol. Zentralbl., v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Seriolella brama
- Eurytrema* Looss, 1907
Eduardo, S. L.; Manuel, M. F.; and Tongson, M. S., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 104-116
key to species occurring in domestic ruminants
- [*Eurytrema* sp.] *euritrem*
Palatkin, K. A., 1978, Vestnik Sel'skokhoz. Nauki Kazakhstana (3), 76-77
Bradybaena lantzi
B. plectotropis phaeozona
B. plectotropis plectotropis
B. semenovi
all from south western Kazakhstan
- [*Eurytrema* sp.] *euritremy*
Palatkin, K. A., 1978, Vestnik Sel'skokhoz. Nauki Kazakhstana (6), 71-73
[*Eurytrema* sp.] *metacercariae*, infection of grasshoppers on pastures in various ecological zones
Conocephalus discolor
Platycoleis intermedia
all from southwestern Kazakhstan
- Eurytrema coelomaticum* (Giard et Billet, 1892)
Looss, 1907, illus.
Eduardo, S. L.; Manuel, M. F.; and Tongson, M. S., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 104-116
description, key
Syn.: *E. media* Tschertkova, 1959
cattle (pancreatic ducts): Philippines
- Eurytrema coelomaticum*, illus.
Shen, Y. S.; Liu, J. J.; and Huang, S. W., 1978, J. Chinese Soc. Vet. Sc., v. 4 (1), 35-39
goats (pancreas): abattoirs, Taiwan
- Eurytrema coelomaticum*
Tang, C.; et al., 1979, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 25 (3), 234-242
Eurytrema pancreaticum, incidence survey, larval forms and juveniles compared with *E. coelomaticum*, concluded that *E. coelomaticum* has independent status
- Eurytrema dajii* Bhalerao, 1924
Eduardo, S. L.; Manuel, M. F.; and Tongson, M. S., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 104-116
key
- Eurytrema escuderoi* new species, illus.
Eduardo, S. L.; Manuel, M. F.; and Tongson, M. S., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 104-116
key
cattle
Bubalus bubalis
(pancreatic ducts of all): all from Pangasinan [and/or] Batangas, Philippines
- Eurytrema media* Tschertkova, 1959
Eduardo, S. L.; Manuel, M. F.; and Tongson, M. S., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 104-116
as syn. of *E. coelomaticum* (Giard et Billet, 1892) Looss, 1907
- Eurytrema ovis* Tubangui, 1925
Eduardo, S. L.; Manuel, M. F.; and Tongson, M. S., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 104-116
key
- Eurytrema ovis*
Tang, C.; et al., 1979, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 25 (3), 234-242
Eurytrema pancreaticum, incidence survey, larval forms and juveniles compared with *E. coelomaticum*, concluded that *E. coelomaticum* has independent status, "*E. ovis* is probably a synonym of *E. pancreaticum*."
- Eurytrema pancreaticum*
Ahn, J.-H.; and Seo, B. S., 1972, Soul Uidae Chapchi (Seoul J. Med.), v. 13 (4), 235-242
Paragonimus westermani, *Eurytrema pancreaticum*, paper chromatographic analysis of carbohydrate metabolism, determination of amino acid fractions and other metabolites
- Eurytrema pancreaticum* (Janson, 1889) Looss, 1907, illus.
Eduardo, S. L.; Manuel, M. F.; and Tongson, M. S., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 104-116
description, key
cattle
Bubalus bubalis
all from Philippines
- Eurytrema pancreaticum*, illus.
Fujino, T.; and Ishii, Y., 1979, Internat. J. Parasitol., v. 9 (5), 435-448
6 spp. of digenetic trematodes, gut epithelia, comparative ultrastructural topography, scanning and transmission electron microscopy
- Eurytrema pancreaticum* (Janson), illus.
Fujino, T.; Ishii, Y.; and Mori, T., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (4), 240-255
Paragonimus ohirai, *Eurytrema pancreaticum*, spermatozoa and spermatogenesis, scanning and transmission electron microscopy
- Eurytrema pancreaticum*
Klochkova, V. I.; Vykhestiuk, N. P.; and Burenina, E. A., 1978, Zhurnal Evoliuts. Biokhim. i Fiziol., v. 14 (6), 533-537
Eurytrema pancreaticum, glycolytic pathways
- Eurytrema pancreaticum* (Janson, 1889), illus.
Nadykto, M. V., 1973, Parazitologiya, Leningrad, v. 7 (5), 408-417
Eurytrema pancreaticum, morphology, life cycle and development
Bradybaena fragilis (nat. and exper.)
B. selskii (nat. and exper.)
B. middendorffi (nat. and exper.)
B. maacki (nat. and exper.)
B. arcasiana
Conocephalus chinensis (nat. and exper.)
Oecanthus longicaudus (nat. and exper.)
all from Primorski krai

- Eurytrema pancreaticum*, *illus.*
Panin, V. Ia.; and Ksembaeva, G. Kh., 1971, *Parazitologiya*, Leningrad, v. 5 (4), 330-334
Eurytrema pancreaticum, migratory route and morphogenesis in rabbits and goats
Conocephalus discolor [Leporidae] (exper.)
[*Capra hircus*] (exper.)
- Eurytrema pancreaticum*, *illus.*
Shen, Y. S.; Liu, J. J.; and Huang, S. W., 1978, *J. Chinese Soc. Vet. Sc.*, v. 4 (1), 35-39
cattle (pancreas): abattoirs, Taiwan
- Eurytrema pancreaticum*
Shien, Y. S.; et al., 1979, *J. Chinese Soc. Vet. Sc.*, v. 5 (2), 133-138
Eurytrema pancreaticum, cattle and goats, pathological changes of pancreas: Taipei abattoir
- Eurytrema pancreaticum* (Janson, 1889), *illus.*
Tang, C.; et al., 1979, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 25 (3), 234-242
Eurytrema pancreaticum, incidence survey, larval forms and juveniles compared with *E. coelomaticum*, concluded that *E. coelomaticum* has independent status, "*E. ovis* is probably a synonym of *E. pancreaticum*."
Ganesella virgo
Conocephalus chinensis
all from Heilungking Province, China
- Eurytrema procyonis*
Smith, S. L.; Wagner, J. E.; and Wightman, S. R., 1977, *Missouri Vet.*, v. 27 (1), 20-21
Eurytrema procyonis, domestic cats (pancreatic ducts), case reports: southwest-central Missouri
- Eurytrema tonkinense* Gallard et Ngu, 1944
Eduardo, S. L.; Manuel, M. F.; and Tongson, M. S., [1977], *Philippine J. Vet. Med.*, v. 15 (1-2), 1976, 104-116
key
- Eurytrematini*
Groschaft, J., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 81-85
key to genera, includes: *Lubens*; *Zonorchis*; *Platynosomum*; *Concinnum*; *Skrjabinus*; *Conspicuum*; *Pancreatrema*; *Bravotrema* gen. nov.
- Euzetrema knoeppfleri* Combes, 1965, *illus.*
Fournier, A., 1978, *Parasitology*, v. 77 (1), 19-26
Euzetrema knoeppfleri, ultrastructure of digestive caecum, partially haematophagous diet, digestive process, evidence for synchronous cycle of gastrodermal activity and 'apocrine-like' release of residues of digestion
- Euzetrema knoeppfleri* (Combes, 1965), *illus.*
Lambert, A., 1977, *Compt. Rend. Acad. Sc., Paris*, v. 285, s. D, *Sc. Nat.*, (14), 1243-1246
larval chaetotaxy and ciliated cells
- Excoitocaecum skrjabini* (Ivanitzky, 1928)
Slusarski, 1958
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *Nicolla skrjabini* (Ivanitzky, 1928) Dollfus, 1959
- Exorchiinae* Yamaguti, 1938
Lamothe-Argumedo, R., [1973], *Rev. Soc. Mexicana Hist. Nat.*, v. 31, 1970, 183-191
Cryptogonimidae
includes: *Exorchis*
- Exorchis Kobayashi*, 1915
Lamothe-Argumedo, R., [1973], *Rev. Soc. Mexicana Hist. Nat.*, v. 31, 1970, 183-191
Cryptogonimidae, *Exorchiinae*

- Falciunguis parabramis Achmerow, 1952
Chang, C. Y.; and Ji, G. L., 1978, Shui Sheng Sheng Wu Hsueh Chi K'an (Acta Hydrobiol. Sinica), v. 6 (3), 353-363
monogenetic trematodes of commercial fishes
Parabramis pekinensis: Lake Hong-Hu, Hubei Province
- [Fasciola] fastsiolami
Bashirov, R. G., 1975, Vet. Nauka--Proizvod., Trudy, Minsk, v. 13, 129-134
nematodes, trematodes, cattle, age and seasonal dynamics on specialized farms: Belorussia
- Fasciola
Brown, D. S., 1978, Pulmonates, v. 2A, 287-333
pulmonate molluscs as intermediate hosts for digenetic trematodes, review with emphasis on Fasciola and Schistosoma
- Fasciola
Crossland, N. O., 1977, Advances Drug Research, v. 12, 53-88
Fasciola, Schistosoma, mammals, life cycles, relation between parasite numbers and effects of disease, use of incidence and prevalence data to estimate efficiency of control programmes, host and parasite population dynamics, mathematical models, integration of control methods
- [Fasciola] fastsiolami
Lipnitskii, S. S.; and Iakubovskii, M. V., 1975, Vet. Nauka--Proizvod., Trudy, Minsk, v. 13, 143-147
helminths, protozoa, cattle, influence of micro-elements in host diet on infectivity
- Fasciola
Sato, T.; et al., 1978, Nippon Zyuisi-Kai Zassi (J. Japan Vet. Med. Ass.), v. 31 (11), 655-659
acute fascioliasis, dairy cows, pathology, rice straw as main source of infection: Nara Prefecture
- Fasciola
Sato, Y.; et al., 1979, Nippon Zyuisi-Kai Zassi (J. Japan Vet. Med. Ass.), v. 32 (3), 145-148
Fasciola, survival of metacercariae encysted on rice straws and polyethylene sheets in field, infectivity to mice measured monthly: Sendai, northern Japan
- Fasciola
Shaka, S.; and Nansen, P., 1979, Vet. Parasitol., v. 5 (2-3), 145-154
fascioliasis, sheep, epidemiology: seasonal availability of metacercariae, parasite stages overwintering on pasture: Denmark
- Fasciola
Vishniauskas, A. I., 1978, Magy. Allat. Lapja, v. 100, v. 33 (8-9), 551-552
Fasciola, sheep (exper.), dertil injectable
- Fasciola sp.
Akahane, H., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (6), 340-346
Fasciola sp., rabbits, acute and chronic phases of infection, hematological changes
- Fasciola sp.
Akahane, H., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (6), 347-352
Fasciola sp., rabbits, acute and chronic phases of infection, Ouchterlony and complement fixation titers
- Fasciola sp.
Akahane, H.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (2), 55-60
Fasciola sp. eggs in human feces, comparison of various pre-treatment and concentration techniques
- Fasciola sp.
Akahane, H.; and Oshima, T., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (4), 231-234
Fasciola sp., existence of strain with large eggs and strain with small eggs, heritability of trait: Japan
- Fasciola spp., illus.
Frag, H. F.; et al., 1979, J. Trop. Med. and Hyg., v. 82 (9-10), 188-190
Fasciola spp., focus of human infection in Nile Delta, epidemiological survey, incidence of eggs in human and domestic animal feces, identification of species infecting humans not yet determined: Egypt
- Fasciola intermediate type, illus.
Huang, S. W.; et al., 1979, J. Chinese Soc. Vet. Sc., v. 5 (2), 79-85
Fasciola spp., cattle and water buffaloes, morphology, egg hatching time, phototaxis, and infectivity of miracidia to Limnea ollula (exper.), intra-species variation: Taipei abattoir, Taiwan
- Fasciola sp.
Kimura, S.; and Shimizu, A., 1978, Science Rep. Fac. Agric., Kobe Univ., v. 13 (1), 167-173
Fasciola sp., goats (exper.); pathological changes in liver, tissue reaction to immature and adult flukes
- Fasciola sp., illus.
Kyronepseppa, H. J. P.; and Goldsmid, J. M., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (1), 16-21
survey, human intestinal parasites of patients admitted to mission hospital in Owamboland, South West Africa
- Fasciola spp.
Ribbeck, R.; and Witzel, G., 1979, Monatsh. Vet.-Med., v. 34 (2), 56-61
Fasciola spp., cattle, sheep, economic loss
- Fasciola sp., illus.
Yoshihara, S.; et al., 1979, Japan. J. Vet. Sc., v. 41 (3), 227-233
Fasciola sp., production of specific antisera against antigens isolated from agar-gel plates, use of these antisera in fluorescent antibody studies on distribution of antigens in adult flukes
- Fasciola cervi Schrank, 1790
Odening, K.; Bockhardt, I.; and Graefner, G., 1979, Zool. Jahrb., Jena, Abt. Syst., v. 106 (2), 214-241
as syn. of Paramphistomum cervi (Zeder, 1790)
- Fasciola crenata Rudolphi, 1802
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of Brachyphallus crenatus (Rudolphi, 1802) Odhner, 1905
- Fasciola crenata Rudolphi, 1802
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of Brachyphallus crenatus (Rudolphi, 1802) Odhner, 1905

- Fasciola gigantica*
Altaif, K. I., 1979, Trop. Animal Health and Prod., v. 11 (4), 241-245
helminths, Awassi sheep, tetramisole, rafoxanide, body weight gains, wool growth: Iraq
- Fasciola gigantica*
Andrews, P.; Dorn, H.; and Wirtz, S., 1977, Vet.-Med. Nachr. (2), 129-134
Fasciola hepatica, *F. gigantica*, cattle (nat. and exper.), bilevon-injektion, bilevon-R tablet formulation, rafoxanide, and nitroxylnil compared
- Fasciola gigantica*
Baalawy, S. S., 1975, Bull. Animal Health and Prod. Africa, v. 23 (1), 99-102
Fasciola gigantica, rabbits, passive immunization with homologous immune serum and sensitized lymphocytes from previously infected rabbits and heterologous immune serum from previously infected goats, results indicate both humoral and cell-mediated factors take part in immune mechanism
- Fasciola gigantica*
Baharsefat, M.; and Firouzi, Sh., 1977, Bull. Office Internat. Epizoot., v. 87 (7-8), 703-706
Fasciola hepatica, *F. gigantica*, control, review: Iran
- Fasciola gigantica*, *illus.*
Baketana, K.; et al., 1977, Bull. Animal Health and Prod. Africa, v. 25 (2), 136-140
Fasciola gigantica, cattle, post-mortem examinations, pathological lesions: Lubumbashi, Shaba, Zaire
- Fasciola gigantica*
Barrett-Connor, E., 1972, South. Med. J., v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Fasciola gigantica*
Ben-Ismail, R.; Carme, B.; and Gentilini, M., 1979, Path. Biol., v. 27 (8), 487-489
Fasciola hepatica, *F. gigantica*, *Echinococcus granulosus*, detection of blood group antigen Pl activity in extracts, not detected in *T[aeenia] saginata* extract
- Fasciola gigantica*
Castelino, J. B.; and Preston, J. M., 1979, Brit. Vet. J., v. 135 (2), 198-203
Fasciola gigantica, cattle, influence of breed and age on prevalence, abattoir survey: Kenya
- Fasciola gigantica*, *illus.*
Cheema, A. H., 1974, Vet. Path., v. 11 (5), 407-416
Fasciola gigantica, *F. hepatica*, cattle (gall bladders), gross and histopathologic findings: Iraq; southern Iran
- Fasciola gigantica*
Dumag, P. U.; et al., 1976, Philippine J. Animal Indust., v. 31 (1-4), 72-86
Fasciola gigantica-infected *Lymnaea rubiginosa* snails, intra-molluscan development, cercarial output, distribution pattern of metacercariae on pasture grasses
- Fasciola gigantica*, *illus.*
Farag, H. F.; et al., 1979, J. Trop. Med. and Hyg., v. 82 (9-10), 188-190
Fasciola spp., focus of human infection in Nile Delta, epidemiological survey, incidence of eggs in human and domestic animal feces, identification of species infecting humans not yet determined: Egypt
- Fasciola gigantica*
Federis, M. T.; and Tongson, M. S., 1977, Philippine J. Animal Indust., v. 32 (1-4), 94-114
Fasciola gigantica, cattle, carabaos, niclosulide, anthelmintic efficacy based on egg counts of fecal samples, less effective in young animals, no adverse side effects: Philippines
- Fasciola gigantica*
Gadzhiev, Ia. G.; et al., 1977, Veterinariia, Moskva (5), 63-64
Fasciola gigantica, cattle, acute infection outbreak, related to increased *Lymnaea auricularia* population in newly irrigated area: Azerbaidzhan SSR
- Fasciola gigantica*
Gaur, S. N. S.; et al., 1979, Indian J. Animal Sc., v. 49 (2), 159-161
deer, wild (feces): National Jim Corbett Park, Uttar Pradesh
- Fasciola gigantica*, *illus.*
Huang, S. W.; et al., 1979, J. Chinese Soc. Vet. Sc., v. 5 (2), 79-85
Fasciola spp., cattle and water buffaloes, morphology, egg hatching time, phototaxis, and infectivity of miracidia to *Limnea ollula* (exper.), intra-species variation: Taipei abattoir, Taiwan
- F[*asciola*] *gigantica*
Jha, S. N.; et al., 1977, Kerala J. Vet. Sc., v. 8 (1), 119-125
F[*asciola*] *gigantica*, G[*igantocotyle*] *explanatum*, and *Echinococcus granulosus* in bovines, incidence, gross and microscopic pathology
bovines (liver, lumen of bile ducts): Bihar, India
- Fasciola gigantica*
Kimura, S.; and Shimizu, A., 1978, Japan. J. Vet. Sc., v. 40 (3), 357-359
Fasciola gigantica, survival of metacercariae on rice plants exposed to various room temperatures and relative humidities for varying lengths of time, infectivity to rabbits (exper.), significance in use of rice stems as cattle feed
- Fasciola gigantica* [and/or] *hepatica*
Magzoub, M.; and Kasim, A. A., 1978, Trop. Animal Health and Prod., v. 10 (4), 205-206
prevalence
cattle
sheep
goats
camels
(livers of all): all from abattoirs, Saudi Arabia

- Fasciola gigantica*
Mango, A. M.; Mango, C. K. A.; and Esamal, D., 1977, Bull. Animal Health and Prod. Africa, v. 25 (3), 251-256
Fasciola gigantica, rabbits and guinea pigs, mortality, susceptibility, prepatency, and worm recovery, rabbits slightly more resistant than guinea pigs
- Fasciola gigantica*
Masaba, S.; Kanyambo, F. N.; and Moyo, M., 1977, Bull. Animal Health and Prod. Africa, v. 25 (4), 421-425
Fasciola gigantica, *Echinococcus granulosus*, slaughtered cattle, incidence, main causes of liver and lung condemnation: Mwanza abattoir, Tanzania
- Fasciola gigantica*
Mohan Rao, M. R. K.; and Choudary, C., 1979, Indian Vet. J., v. 56 (10), 890-891
Fasciola gigantica in *Bubalus bubalis* (liver), aberrant location in spleen and lung, pathology: India
- Fasciola gigantica* Cobbold
Mzembe, S. A. T.; and Chaudhry, M. A., 1979, Trop. Animal Health and Prod., v. 11 (4), 246-250
Fasciola gigantica, ecology of intermediate host, *Lymnaea natalensis*; seasonal distribution of fluke infestation in snail: Malawi
- Fasciola gigantica*, *illus.*
Ogambo-Ongoma, A. H., 1975, Bull. Animal Health and Prod. Africa, v. 23 (3), 303-314
Fasciola gigantica, occurrence of 2 cercarial generations in life cycle, anatomy of cercaria
- Fasciola gigantica*
Ojukwu, E. M.; and Ikeme, M. M., 1978, Bull. Animal Health and Prod. Africa, v. 26 (3), 242-247 [pages assembled incorrectly]
helminths, Zebu cattle, helmoal B, critical tests and field trials: Nigeria
- Fasciola gigantica*, *illus.*
Palmieri, J. R.; et al., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (2), 256-259
experimentally infected by *Nosema* sp. *Lymnaea rubiginosa* (exper.)
- Fasciola gigantica*
Qadir, A. N. M. A., 1979, Indian Vet. J., v. 56 (5), 429-431
Fasciola gigantica, goats, acedist, comparison with bilevon: Bangladesh
- Fasciola gigantica*
Razafindrakoto, C.; Ranaivoson, A.; and Megard, J. P., 1978, Rev. Elevage et Med. Vet. Pays Trop., n. s., v. 31 (2), 165-169
Fasciola gigantica, Malagasy zebu cattle, rafoxanide injectable, recommended for curative and prophylactic treatment
- Fasciola gigantica*
van Schalkwyk, P. C.; et al., 1979, J. South African Vet. Ass., v. 50 (1), 31-35
helminths, sheep (nat. and exper.), albendazole
- Fasciola gigantica*
Schillhorn van Veen, T. W.; and Buys, J., 1979, Tropenmed. u. Parasitol., v. 30 (2), 194-197
Fasciola gigantica, attempted serodiagnosis of chronic infection using a fluorescent antibody technique with single and multiple whole-fluke antigens; test seems of doubtful use in areas where fascioliasis as well as other fluke infections are endemic
- Fasciola gigantica*
Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
cattle
sheep
camels (lungs, liver)
all imported to United Arab Republic
- Fasciola gigantica*
Shoeb, S. M.; et al., 1977, Egypt. J. Bilharz., v. 4 (2), 141-148
bilharziasis, humans, diagnosis using fractionated *Fasciola gigantica* antigens for intradermal test vs. homologous *Schistosoma mansoni* antigen
- Fasciola gigantica*
Tager-Kagan, P., 1978, Rev. Elevage et Med. Vet. Pays Trop., n. s., v. 31 (4), 437-442
Fasciola gigantica, cattle, sheep, and goats, epidemiology, economic importance, prophylaxis: Niger
- Fasciola gigantica*, *illus.*
Tinar, R., 1975, Vet. Fak. Dergisi, Ankara Univ., v. 22 (3-4), 125-136
Fasciola gigantica, sheep, diagnosis, indirect immunofluorescence technique satisfactory
- Fasciola gigantica*
Tongson, M. S., 1978, Philippine J. Vet. Med., v. 17 (1-2), 106-120
Fasciola gigantica, *F. hepatica*, life cycle review, control programs: Philippines
- Fasciola gigantica*
Tripathy, S. B.; and Chakrabarti, A., 1978, Indian J. Animal Health, v. 17 (2), 163-166
Fasciola gigantica, cattle, disophenol: India
- Fasciola gigantica*, *illus.*
Troncy, P. M.; and Vasseau-Martin, N., 1975, Bull. Animal Health and Prod. Africa, v. 23 (2), 203-205
Fasciola gigantica, existence of sporocyst stage
- Fasciola gigantica*
Ueno, H., 1977, Bull. Office Internat. Epizoot., v. 87 (7-8), 693-699
Fasciola gigantica, epidemiological survey, seasonal appearance of cercariae in aquatic rice field, longevity of metacercariae on rice straw after harvesting, establishment of frequency and timing of anthelmintic application (rice straw used as roughage for stabled cattle, cattle manure used as fertilizer in rice fields): Japan
- Fasciola gigantica*, *illus.*
Uzoukwu, M.; and Ikeme, M. M., 1978, Bull. Animal Health and Prod. Africa, v. 26 (2), 162-167
Fasciola gigantica, Fulani Zebu cattle, hepatic changes in natural chronic infestations, gross lesions, histopathology: Nsukka abattoir, Nigeria

- Fasciola gigantica*, *illus.*
Van Ros, G., 1973, *Rev. Franc. Gastro-Enterol.* (89), 35-50
human intestinal helminths, differential diagnosis
- Fasciola gigantica*
Vassiliades, G., 1978, *Rev. Elevage et Med. Vet. Pays Trop.*, n. s., v. 31 (1), 57-62
Fasciola gigantica, survival of *Limnaea natalensis* in drought conditions, beginning of rainy season optimal time for molluscicide application: Senegal
- Fasciola gigantica*
Wellington, A. C., 1978, *J. South African Vet. Ass.*, v. 49 (2), 125-126
Fasciola gigantica, *Haemonchus placei*, *Bunostomum phlebotomum* and *Oesophagostomum radiatum*, cattle, nitroxylin injected subcutaneously achieved class A efficacy when evaluated by non parametric method, not effective against *Cooperia* spp.
- Fasciola gigantica*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, *J. Nat. Hist.*, v. 13 (4), 499-506
Kobus leche kafuensis (bile ducts): Lochinvar National Park, Zambia
- Fasciola globipora* Rudolphi, 1802
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *Sphaerostomum globiporum* (Rud., 1802) Szidat, 1944 *nec* Looss 1899, partim
- Fasciola hepatica*
Aitken, M. M.; et al., 1978, *J. Comp. Path.*, v. 88 (1), 75-84
Fasciola hepatica increased susceptibility of cattle to lethal effects of *Salmonella dublin* and predisposed to development of carrier state
- Fasciola hepatica*
Aitken, M. M.; et al., 1978, *J. Comp. Path.*, v. 88 (3), 433-442
Fasciola hepatica, effects of intravenous *Salmonella dublin* on cattle at different stages of fluke infection, susceptibility to *S. dublin*, possible serious effects
- Fasciola hepatica*
Aitken, M. M.; et al., 1978, *J. Comp. Path.*, v. 88 (4), 555-562
Fasciola hepatica, effects of flukes on response of rats to *Salmonella dublin* (lethal dose reduced; excretion of *S. dublin* enhanced and prolonged; infection persisted longer) were similar to those in cattle; similar effects not produced by *Nippostrongylus brasiliensis*
- Fasciola hepatica*
Aitken, M. M.; et al., 1979, *Research Vet. Sc.*, v. 27 (3), 306-312
Fasciola hepatica-infected and non-infected cattle, immune responses to *Salmonella dublin*, *Brucella abortus*, and ovalbumin
- Fasciola hepatica*
Alcaino, H.; and Baker, N. F., 1977, *Arch. Med. Vet.*, Valdivia, v. 9 (1), 68-71
Fasciola hepatica, review of enzymes, isozymes and metabolic pathways
- Fasciola hepatica*
Amato Neto, V.; and da Silva, L. J., 1977, *Rev. Inst. Med. Trop. S. Paulo*, v. 19 (4), 275-277
human (fezes): cidade de Cacapava, Estado de Sao Paulo, Brasil
- Fasciola hepatica*
Ambroise-Thomas, P., 1977, *Tech. Immunofluoresc. et React. Immuno-enzymat.*, 271-276
immunofluorescence for diagnosis of human parasitic diseases, review with specific techniques for *Fasciola hepatica*
- Fasciola hepatica*
Anderson, P. H.; Berrett, S.; and Patterson, D. S. P., 1978, *J. Comp. Path.*, v. 88 (2), 245-251
Fasciola hepatica, cattle, resistance to re-infection, increases in plasma glutamate dehydrogenase and gamma-glutamyl transferase activities after first infection but not second, gross pathology of liver, less damage from second infection
- Fasciola hepatica*
Andrews, P.; Dorn, H.; and Wirtz, S., 1977, *Vet.-Med. Nachr.* (2), 129-134
Fasciola hepatica, *F. gigantica*, cattle (nat. and exper.), bilevon-injektion, bilevon-R tablet formulation, rafoxanide, and nitroxylin compared
- Fasciola hepatica*
Andrews, P.; and Meister, G., 1978, *Ztschr. Parasitenk.*, v. 56 (3), 305-308
Fasciola hepatica, mice of various strains, considerable differences in susceptibility and mortality among strains, problem in chemotherapeutic studies, attempt to find strain susceptible to infection but refractory to damage
- Fasciola hepatica*
Angehrn, W.; and Wegmann, T., 1975, *Schweiz. Med. Wchnschr.*, v. 105 (22), 715-718
Fasciola hepatica, woman, fluke found in common bile duct during surgery for suspected gall bladder infection, clinical case report, discussion of parasite life cycle, and clinical features of human infection: region of St. Gallen, Switzerland
- Fasciola hepatica*
Australian Bureau of Animal Health, 1977, *Bull. Office Internat. Epizoot.*, v. 87 (7-8), 675-691
Fasciola hepatica, epidemiology, distribution, economic loss, pathogenesis, immunity, diagnosis, chemotherapy, review: Australia
- Fasciola hepatica*
Bagadi, H. O.; and Sewell, M. M. H., 1973, *Research Vet. Sc.*, v. 15 (1), 49-53
Fasciola hepatica and *Clostridium novyi* (oedematiens) type B causing infectious necrotic hepatitis, sheep, epidemiological survey: southern Scotland
- Fasciola hepatica*
Bagadi, H. O.; and Sewell, M. M. H., 1973, *Research Vet. Sc.*, v. 15 (1), 53-61
Fasciola hepatica and *Clostridium novyi* (oedematiens) type B causing experimentally induced infectious necrotic hepatitis in guinea-pigs, rabbits, and for first time in sheep

- Fasciola hepatica*
Baharsefat, M.; and Firouzi, Sh., 1977, Bull. Office Internat. Epizoot., v. 87 (7-8), 703-706
Fasciola hepatica, *F. gigantica*, control, review: Iran
- Fasciola hepatica* L.
Bankov, I.; et al., 1977, Khel'mintologiya, Sofiia, v. 4, 3-10
Fasciola hepatica, increased enzyme activity in blood serum of guinea pigs
- Fasciola hepatica* L.
Bankov, I.; and Osikovski, E., 1976, Khel'mintologiya, Sofiia, v. 2, 13-19
Fasciola hepatica, identification of free amino acids and other ninhydrin-positive compounds
- Fasciola hepatica* L.
Bankov, I.; and Tosheva, R., 1976, Khel'mintologiya, Sofiia, v. 2, 20-25
Fasciola hepatica, guinea pigs, changes in acid-soluble nucleotide content of liver
- Fasciola hepatica*
Barrett, J., 1978, Parasitology, v. 76 (3), 269-275
Fasciola hepatica adults, activation of succinate dehydrogenase, significance of results in regulation of tricarboxylic acid cycle in parasitic helminths
- Fasciola hepatica*
Barrett, J.; Coles, G. C.; and Simpkin, K. G., 1978, Internat. J. Parasitol., v. 8 (2), 117-123
Fasciola hepatica adults, activities and intracellular distribution of enzymes of acetate and propionate production, possible pathways of acetate and propionate production
- Fasciola hepatica*
Barrett-Connor, E., 1972, South. Med. J., v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Fasciola hepatica*
Bartlett, M. S.; et al., 1978, J. Clin. Microbiol., v. 7 (6), 524-528
modified zinc sulfate flotation technique evaluated in comparison with formalin-ether concentration method for recovery of protozoan cysts and helminth eggs and larvae from feces preserved in formalin less than and longer than 1 month, results suggest that (except for schistosomes) F-ZnSO₄ compares favorably to FE method for detecting infections of clinical significance
- Fasciola hepatica*
Beddok, R. A.; and Mansour, T. E., 1979, Biochem. Pharmacol., v. 28 (24), 3689-3692
Fasciola hepatica, serotonin-activated adenylate cyclase, antagonism by levorphanol and dextrorphan
- Fasciola hepatica*
Ben-Ismaïl, R.; Carne, B.; and Gentilini, M., 1979, Path. Biol., v. 27 (8), 487-489
Fasciola hepatica, *F. gigantica*, *Echinococcus granulosus*, detection of blood group antigen Pl activity in extracts, not detected in T[*aenia*] saginata extract
- Fasciola hepatica*, *illus.*
Bennett, C. E., 1978, Parasitology, v. 77 (3), 325-332
Fasciola hepatica, identification of soluble adult antigen on tegumental surface of juveniles
- Fasciola hepatica*
Berdyeva, G. T.; and Driuchenko, E. A., 1975, Parazitologiya, Leningrad, v. 9 (1), 28-30
Ascaris suum, *Ascaridia galli*, *Fasciola hepatica*, histidine metabolism, determination of histamine and histidine-ammonia-lyase
- Fasciola hepatica*
Berry, C. I.; and Dargie, J. D., 1978, Vet. Parasitol., v. 4 (4), 327-339
Fasciola hepatica, sheep (exper.), pathophysiology: influence of dietary protein and iron on erythrokinetics
- Fasciola hepatica*
Bolbol, A. S.; Hammond, J. A.; and Sewell, M. M. H., 1978, Vet. Sc. Commun., v. 2 (3), 231-235
Fasciola hepatica, rabbits, repeated infections terminated by rafoxanide, host response in terms of resistance, serum glutamic dehydrogenase assays, eosinophil counts, and post-mortem appearance of liver
- Fasciola hepatica*
Boray, J. C., 1978, Vet. Parasitol., v. 4 (2), 127-141
Fasciola hepatica (Australian strain, sheep origin), relative susceptibility of indigenous and exotic *Lymnaea* spp. and parthenogenetic development of parasite in these species, effect of snail size, potential impact of introduced exotic snails for epidemiology of fascioliasis: Australia
Lymnaea tomentosa
L. columella
L. viridis
L. auricularia rubiginosa (development only to young sporocysts)
L. lessoni (" " " ")
(all exper.)
- Fasciola hepatica*
Bouree, P., 1977, Rev. de Med., Paris, v. 18 (38), 1960-1968
Entamoeba histolytica, *Fasciola hepatica*, *Echinococcus granulosus*, human hepatic forms, therapeutic aspects compared
- Fasciola hepatica*
Bratanov, V.; Penchev, P.; and Dinev, P., 1977, Vet. Med. Nauki, v. 14 (2), 45-49
helminths in sewage, decontamination by electrocoagulation and electroflotation after preliminary treatment with calcium hydroxide: livestock farms, Bulgaria
- Fasciola hepatica*, *illus.*
Brenes, R. R.; et al., 1967, Rev. Biol. Trop., v. 15 (1), 137-142
Fasciola hepatica, first report of intermediate host, exper. life cycle in rabbits; positive skin tests in over half of human inhabitants surveyed
Lymnaea columella: Grano de Oro, Moravia de Chirripo, Cartago, Costa Rica
conejos (conductos biliares) (exper.)

- Fasciola hepatica*
Brindle, Y.; Letarte, R.; and Gagnon, J., 1979, *Canad. J. Microbiol.*, v. 25 (6), 788-789
Fasciola hepatica, hemagglutination titers in *Alces americana*: Province of Quebec, Canada
- Fasciola hepatica*
Brunsdon, R. V., 1977, *Bull. Office Internat. Epizoot.*, v. 87 (7-8), 665-673
Fasciola hepatica, distribution, incidence, significance, control recommendations; distribution and ecology of snail hosts, review: New Zealand
- Fasciola hepatica*
Bulajic, M.; et al., 1977, *Srpski Arhiv Tselok. Lekar.*, v. 105 (7-8), 657-663
Fasciola hepatica, human, immunodiagnosis, comparative study of complement fixation, double diffusion precipitation, and indirect fluorescent antibody tests
- Fasciola hepatica*
Burden, D. J.; et al., 1978, *Research Vet. Sc.*, v. 25 (3), 302-306
Fasciola hepatica, *Ostertagia ostertagi*, concurrent daily infection of calves, *F. hepatica* had little influence on size and structure of *O. ostertagi* worm population or vice versa; no evidence of clinical disease, no difference in weight gain compared to singly infected calves
- Fasciola hepatica*
Burden, D. J.; and Hammet, N. C., 1978, *Vet. Rec.*, v. 103 (8), 158
Fasciola hepatica, calves (exper.), detection of prepatent infections with microenzyme-linked immunosorbent assay (micro-ELISA) test, promising results, no cross reaction with *Ostertagia ostertagi*
- Fasciola hepatica*
Campbell, N. J.; et al., 1978, *Vet. Parasitol.*, v. 4 (2), 143-152
Fasciola hepatica, failure to induce homologous immunity in sheep vaccinated with irradiated metacercariae
- Fasciola hepatica*
Campbell, N. J.; Dineen, J. K.; and Kelly, J. D., 1979, *Research Vet. Sc.*, v. 26 (3), 391-393
effect of *Taenia hydatigena* infection on existing and concurrent infections of *Fasciola hepatica* in sheep
- Fasciola hepatica*
Campbell, N. J.; and Hall, C. A., 1979, *Research Vet. Sc.*, v. 26 (1), 90-93
Fasciola hepatica, benzimidazole-resistant strains of *Haemonchus contortus* and *Trichostrongylus colubriformis*, sheep (exper.), efficacy of albendazole
- Fasciola hepatica*
Campbell, N. J.; Kelly, J. D.; and Dineen, J. K., 1978, *Vet. Parasitol.*, v. 4 (4), 317-325
Fasciola hepatica, rats, functional role for gut in development of age resistance demonstrated by comparing number and development of flukes recovered following oral vs. intraperitoneal administration of encysted metacercariae
- Fasciola hepatica*
Campbell, N. J.; Kelly, J. D.; and Martin, I. C. A., 1979, *Internat. J. Parasitol.*, v. 9 (5), 469-474
Taenia taeniaeformis, *Fasciola hepatica*, rats, homologous resistance and cross resistance
- Fasciola hepatica*, illus.
Canning, E. U.; Higby, G. C.; and Nicholas, J. P., 1979, *Parasitology*, v. 79 (3), 381-392
Nosema eurytremae, pathogenicity to *Fasciola hepatica* in *Lymnaea trunculata* -
- F[*asciola*] *hepatica*
Carli, S.; et al., 1979, *Riv. Zootecn. e Vet.* (1), 7-9
F[*asciola*] *hepatica*, in vitro, lucensomycin, fluke motility, effect of drug reduced by steroid compounds, not affected by alpha-mercaptopropionylglycine
- Fasciola hepatica*
Cawthorne, M. A.; et al., 1971, *Research Vet. Sc.*, v. 12 (6), 516-520
sheep, carbon tetrachloride toxicity markedly increased by prior administration of DDT, ethoxyquin given 24-48 hr before CCl₄, prevented toxicity, ethoxyquin did not diminish fasciolicidal action of CCl₄
- Fasciola hepatica*
Cheema, A. H., 1974, *Vet. Path.*, v. 11 (5), 407-416
Fasciola gigantica, *F. hepatica*, cattle (gall bladders), gross and histopathologic findings: Iraq; southern Iran
- Fasciola hepatica*
Chevis, R. A. F.; and Kelly, J. D., 1978, *N. Zealand Vet. J.*, v. 26 (9), 218-220
Fasciola hepatica, rats and sheep (both exper.), mebendazole, parabendazole, cambendazole, thiabendazole, anthelmintic activity, molecular structure-activity analyses
- Fasciola hepatica*
Chi, C. W.; and Isseroff, H., 1979, *J. Nutrition*, Bethesda, v. 109 (7), 1299-1306
Fasciola hepatica, rats, growth studies, nitrogen balance studies, disposition of excessive proline
- Fasciola hepatica*
Chowaniec, W.; and Markiewicz, K., 1970, *Acta Parasitol. Polon.*, v. 18 (1-12), 25-32
Fasciola hepatica, course of experimental infections in rabbits in relation to age of metacercariae and temperature at which snail intermediate hosts have been maintained, latter considered to be a factor in virulence of metacercariae but not former
- Fasciola hepatica*
Chroustova, E.; Willomitzer, J.; and Strouhal, Z., 1977, *Veterinarstvi*, v. 27 (10), 460-462
Fasciola hepatica, wild ruminants, prevalence, BHS treatment, Frescon for snail control
- Fasciola hepatica*, illus.
Coil, W. H., 1977, *Ztschr. Parasitenk.*, v. 54 (3), 229-232
Fasciola hepatica miracidia, scanning electron microscopy of penetration into *Fossaria bulimoides*, topographic miracidial morphology, course and rate of penetration

- Fasciola hepatica*
Coles, G. C.; and Briscoe, M. G., 1978, Vet. Rec., v. 103 (16), 360-361 [Letter]
Fasciola hepatica eggs, LD₅₀ values of 7 benzimidazoles determined and compared with values for *Haemonchus contortus* eggs
- Fasciola hepatica*
Corba, J., 1978, Vet. Med. Rev. (1), 77-81
Fasciola hepatica, cattle, sheep, bilevon injection highly effective and well tolerated; not effective against *Dicrocoelium* spp.
- Fasciola hepatica*
Corba, J., 1978, Vet.-Med. Nachr. (1), 77-81
Fasciola hepatica, cattle, sheep, bilevon injection
- Fasciola hepatica*
Corba, J.; et al., 1978, Veterinarstvi, v. 28 (2), 87-88
Fasciola hepatica, heifers, brotianid, rafoxanide
- Fasciola hepatica*
Corba, J.; et al., 1979, Brit. Vet. J., v. 135 (4), 318-323
helminths of sheep and cattle, efficacy of fenbendazole
- Fasciola hepatica*
Corba, J.; Hovorka, J.; and Popovic, S., 1973, Vet. Med., Praha, v. 46, v. 18 (6), 365-370
Fasciola hepatica, sheep, efficacy of diamphenethide
- Fasciola hepatica*
Corba, J.; Pacenovsky, J.; and Krupicer, I., 1976, Vet. Med. Rev. (2), 181-189
Fasciola hepatica, sheep; Paramphistomum spp., cattle, brotianide
- Fasciola hepatica*, illus.
Correa, M. O.; and Fleury, G. C., 1971, Rev. Soc. Brasil. Med. Trop., v. 5 (5), 267-270
Fasciola hepatica, human, case report, cure with dehydroemetine: Estado de Sao Paulo
- Fasciola hepatica*, illus.
Cosme, A.; et al., 1979, Med. Clin., Barcelona, v. 73 (10), 438-442
Fasciola hepatica, woman, choledochal obstruction, case report, clinical review: Orrio (Guipuzcoa)
- Fasciola hepatica*
Courtin, S.; et al., 1979, Arch. Med. Vet., Valdivia, v. 11 (1), 23-26
Oryctolagus cuniculus (liver): Nahuelbuta, Chile
- Fasciola hepatica*
Craig, T. M.; and Bell, R. R., 1978, J. Am. Vet. Med. Ass., v. 173 (1), 104-107
Fasciola hepatica, *Fascioloides magna*, seasonal transmission to cattle pastured in 2 ecologically dissimilar areas of Texas, drug treatment in late summer, especially of young cattle, may considerably reduce *Fasciola hepatica* in snail vectors, while control of *Fascioloides magna* is not considered practicable at present time
- Fasciola hepatica*
Cruthers, L. R.; et al., 1978, Experientia, v. 34 (12), 1574
variety of nematodes, cestode, and trematode species in domestic animals, orally active benzimidazole anthelmintics discovered to be active by injection also
- Fasciola hepatica*
Cvetkovic, Lj.; and Lepojev, O., 1978, Acta Parasitol. Iugoslavica, v. 9 (2), 81-89
snails found in epizootic regions of fasciolosis
Lymnaea truncatula
L. stagnalis
all from SR Srbiji
- Fasciola hepatica*
Czczuga, B., 1977, Bull. Acad. Polon. Sc., Cl. II, s. Sc. Biol., v. 25 (7), 471-474
Fasciola hepatica and bovine liver, carotenoid content, xanthophylls are dominating carotenoids in *F. hepatica*, column and thin-layer chromatography
- Fasciola hepatica*, illus.
Dancescu, P.; Rafael-Stefanescu, G.; and Titeica, M., 1979, Ann. Parasitol., v. 54 (2), 261-262
Fasciola hepatica, human, 3 months after anthelmintic treatment, elimination in bile of large number of deformed and shriveled eggs: Roumania
- Fasciola hepatica*
Dargie, J. D.; and Berry, C. I., 1979, Internat. J. Parasitol., v. 9 (1), 17-25
Fasciola hepatica, sheep, development of hypoalbuminemia during course of primary infection, accompanying changes in albumin metabolism, influence of protein intake
- Fasciola hepatica*
Dargie, J. D.; Berry, C. I.; and Parkins, J. J., 1979, Research Vet. Sc., v. 26 (3), 289-295
Fasciola hepatica, sheep (exper.) given hay or hay plus pelleted supplement, feed intake and digestibility, body weight and nitrogen balance
- Fasciola hepatica*, illus.
Davies, C., 1978, Internat. J. Parasitol., v. 8 (3), 197-206
Fasciola hepatica, metacercariae grown in vitro in 2 different media, ultrastructure of tegument and digestive caeca, comparison with development of these 2 systems during maturation in vivo
- Fasciola hepatica*
Davies, C.; et al., 1979, Research Vet. Sc., v. 26 (2), 259-260
Fasciola hepatica, unsuccessful attempts to immunise rats using in vitro culture antigens from newly excysted metacercariae
- Fasciola hepatica*, illus.
Davies, C.; and Smyth, J. D., 1978, Internat. J. Parasitol., v. 8 (2), 125-131
Fasciola hepatica, in vitro cultivation of metacercariae under wide variety of conditions was generally unsuccessful, cultured metacercariae appeared to be in state of 'suspended animation' because when injected into mice they developed into egg-producing adults; partially developed flukes recovered from mice continued somatic growth in vitro but their genitalia failed to develop further
- Fasciola hepatica*, illus.
Debray, C.; et al., 1975, Semaine Hop. Paris, v. 51 (45), 2735-2737
Fasciola hepatica, echinococcosis, man, mixed infection, case report

- Fasciola hepatica*
Delak, M., 1970, Acta Parasitol. Iugoslavica, v. 1 (1-2), 59-64
fascioliasis, domestic animals, review of drugs used in Yugoslavia and their possible side effects
- Fasciola hepatica*
Delak, M.; and Radokovic, M., 1978, Vet. Arhiv, Zagreb, v. 48 (1), 17-22
Fasciola hepatica from bile ducts of cattle, and bovine liver samples, amount of contamination with DDT, γ -HCH, and α -HCH
- Fasciola hepatica*
Dey-Hazra, A., 1976, Ztschr. Parasitenk., v. 50 (2), 198
helminths, pigs, mode of pathogenicity, review
- Fasciola hepatica*
Dimitrov, G.; Kuncheva, K.; and Georgiev, B., 1978, Vet. Med. Nauki, v. 15 (6), 92-100
Fasciola hepatica, sheep (exper.) on diets with 2 different levels of protein content, serum protein levels, numbers of worms established and reaching maturity
- Fasciola hepatica*
Dineen, J. K.; Kelly, J. D.; and Campbell, N. J., 1978, Internat. J. Parasitol., v. 8 (3), 173-176
Fasciola hepatica, nature and characteristics of cross protection produced in sheep by infection with *Cysticercus tenuicollis*, mechanism unknown, may be immunological
- Fasciola hepatica*
Doy, T. G.; Hughes, D. L.; and Harness, E., 1978, Research Vet. Sc., v. 25 (1), 41-44
Fasciola hepatica, rats, 3-week-old initial infection results in high degree of immunity to subsequent challenge, this resistance could be detected within 48 h of challenge and was a true immunity and not an alteration in migratory behavior, eosinophils were prevalent in lamina propria of small intestine and increased markedly after challenge
- Fasciola hepatica*
Elliot, A., 1972, Rev. Peruana Med. Trop., v. 1 (2), 78-83
Fasciola hepatica, immunologic observations on 5 persons with fascioliasis, higher antibody titers found during invasive phase than were found during biliary phase
- Fasciola hepatica*
Ertel, J. C.; and Isseroff, H., 1976, Rice Univ. Studies, v. 62 (4), 97-109
Fasciola hepatica, ornithine- δ -transaminase (OTA), partial purification and characterization, concluded that high specific activity of OTA and its high tolerance for α -ketoglutarate result in high levels of proline formation
- Fasciola hepatica*
Eslami, A.; et al., 1976, J. Vet. Fac. Univ. Tehran, v. 32 (1-4), 21-27
Fasciola hepatica, *Dicrocoelium dendriticum*, *Ornithobilharzia turkestanicum*, *Linguatula serrata*, incidence in liver of ruminants; important cause of economic losses: Tehran abattoir
- Fasciola hepatica*
Euzebey, J.; and Gevrey, J., 1979, Rev. Med. Vet., Toulouse, v. 130 (8-9), 1149-1150, 1155-1160
fascioliasis and strongylosis, sheep on naturally dry and artificially irrigated pastures, plan for anthelmintic prophylaxis: Spain
- Fasciola hepatica*
Eyckmans, L.; Vandepitte, J.; and Vandembroucke, J., 1971, Tijdschr. Gastro-enterol., v. 14 (2), 90-96
Fasciola hepatica-infected humans, 3 case reports, ingesting wild watercress probable source of infection: Belgium
- Fasciola hepatica*, *illus.*
Frag, H. F.; et al., 1979, J. Trop. Med. and Hyg., v. 82 (9-10), 188-190
Fasciola spp., focus of human infection in Nile Delta, epidemiological survey, incidence of eggs in human and domestic animal feces, identification of species infecting humans not yet determined: Egypt
- Fasciola hepatica*
Ferreira, L. D. B. B., 1977, Reposit. Trab. Lab. Nac. Invest. Vet., Lisboa, v. 9, 137-139
Fasciola hepatica, observation of miracidia after coproculture
- Fasciola hepatica*
Ferrell, J. E., jr.; et al., 1979, Molec. Pharm., v. 16 (2), 556-568
structure/activity studies of flavonoids as inhibitors of *Fasciola hepatica* cyclic AMP phosphodiesterase and relationship to quantum chemical indices
- Fasciola hepatica*
Foreyt, W. J.; and Todd, A. C., [1979], J. Parasitol., v. 64 (6), 1978, 1132-1134
Lymnaea bulimoides (exper.)
unsuccessful attempt to infect 5 other *Lymnaea* spp. from Wisconsin
- Fasciola hepatica*
Frame, A. D.; et al., 1979, J. Agric. Univ. Puerto Rico, v. 63 (1), 27-30
Fasciola hepatica, cattle (liver), prevalence in 1973-1976 compared to 1948-1949, economic impact: slaughterhouses in Puerto Rico
- Fasciola hepatica*
Frame, A. D.; and Bendezu, P., 1978, J. Parasitol., v. 64 (1), 136
Fasciola hepatica, cattle, consistent increase in prevalence 1973-1976: Puerto Rico
- Fasciola hepatica*
Fromunda, V.; and Popescu, S., 1977, Rev. Crest. Animalelor, v. 27 (7), 41-46
Fasciola hepatica, *Dicrocoelium lanceatum*, *Paramphistomum cervi*, ruminants, intermediate hosts, pasture habitat, seasonal distribution, preventive and control measures, review
- Fasciola hepatica*, *illus.*
Fujino, T.; and Ishii, Y., 1979, Internat. J. Parasitol., v. 9 (5), 435-448
6 spp. of digenetic trematodes, gut epithelia, comparative ultrastructural topography, scanning and transmission electron microscopy

- Fasciola hepatica*
Furmaga, S.; and Gundlach, J. L., 1978, Acta Parasitol. Polon., v. 25 (11-20), 179-189
Fasciola hepatica-infected calves, parasitological findings, erythrocyte counts, packed cell volume, hemoglobin, transferin, iron, eosinophils, neutrophils, lymphocytes, total leukocytes, implications for etiology of anemia
- Fasciola hepatica*
Furmaga, S.; Gundlach, J. L.; and Sobieszewski, K., 1974, Acta Parasitol. Polon., v. 22 (12-21), 229-247
Fasciola hepatica-infected and uninfected sheep treated and not treated with 3 fasciolicides (fasciolin, distolon, and zanil), blood serum levels of Ca, P, Na, K, and Mg
- Fasciola hepatica*
Furmaga, S.; Gundlach, J. L.; and Sobieszewski, K., 1975, Acta Parasitol. Polon., v. 23 (1-11), 159-175
Fasciola hepatica-infected rabbits and sheep, white blood cell picture during course of infection
- [*Fasciola*] *hepatica*
Gallardo, A.; Saez, J. M.; and Enriques, G., 1976, Rev. Espan. Enferm. Apar. Digest., v. 48 (4), 471-482
[*Fasciola*] *hepatica*, human, with resulting obstructive jaundice, extensive case report: Cazalla de la Sierra, Spain
- Fasciola hepatica*
Galves Tio, A., 1972, Rev. Peruana Med. Trop., v. 1 (2), 99-100
Fasciola hepatica, humans, associated cholecystitis, case reports: Peru
- Fasciola hepatica*
Galvez Rodriguez, A.; et al., 1976, Rev. Cubana Med., v. 15 (1), 7-12
human digestive tract parasites, diagnostic value of analysis of biliary drainage for evidence of gastrointestinal and biliary tract infections
- Fasciola hepatica*
Genchi, C.; and Locatelli, A., 1978, Clin. Vet. Vet., Milano, v. 101 (7), 376-378
Fasciola hepatica, cattle, allergic diagnosis by intradermal inoculation of lyophilized somatic antigen
- Fasciola hepatica* L.
Georgiev, B., 1978, Vet. Med. Nauki, v. 15 (10), 45-50
Fasciola hepatica, length of development in *Galba truncatula* (nat. and exper.), seasonal distribution of cercarial release, overwintering: Rhodope mountains; Thracian lowlands
- F[*asciola*] *hepatica*
Georgieva, D., 1978, Vet. Sbirka, v. 76 (4), 32-33
anthelmintic treatment, lambs, weight gains
- Fasciola hepatica*
Ginetsinskaia, T. A.; et al., 1971, Parazitologia, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- F[*asciola*] *hepatica*
Gladysz-Pawlak, K., 1977, Acta Parasitol. Polon., v. 24 (28-34), 345-355
F[*asciola*] *hepatica*, cattle, diagnosis with latex reaction, recommended as particularly useful for mass field examinations
- Fasciola hepatica*
Gold, D.; and Goldberg, M., 1977, Israel J. Zool., v. 25 (4), 1976, 178-185
Fasciola hepatica, separate and combined effect of light and temperature on hatching of eggs
- Fasciola hepatica*
Goll, P. H.; and Scott, J. M., 1978, Brit. Vet. J., v. 134 (6), 551-555
Fasciola hepatica, sheep, *Lymnaea truncatula* population density determined by adequate rainfall, parasite transmission mainly 'overwintering' variety, 'summer infection' and acute fascioliasis outbreaks in above average rainfall: Central Highlands, Ethiopia
- Fasciola hepatica*
Gomes, P.; Velarde, A.; and Chiriboga, J., 1973, J. Agric. Univ. Puerto Rico, v. 57 (1), 87-88
Fasciola hepatica miracidia, simple method for mass production
- Fasciola hepatica*
Goose, J., 1978, Nature, London (5677), v. 275, 216-217
Fasciola hepatica, excretory/secretory products, toxicity to rat lymphoid splenic cells, reduction of immune adherence of peritoneal cells to flukes in vitro, postulated that *F. hepatica* produces substances which are toxic to its host's lymphocytes and that these substances may protect the parasite from its host's immune defenses
- Fasciola hepatica*
Grados B., O.; and Berrocal S., L. A., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (6), 425-427
Fasciola hepatica, humans, bithionol: Peru
- Fasciola hepatica*
Gundlach, J. L., 1971, Acta Parasitol. Polon., v. 19 (1-8), 9-47
Fasciola hepatica, structure of 41 antigens, serologic activity in rabbits using 5 tests
- Fasciola hepatica*
Gundlach, J. L., 1971, Acta Parasitol. Polon., v. 19 (19-28), 285-306
Fasciola hepatica, rabbits, serological response, dynamics in relation to intensity and duration of infection and to superinfection (complement fixation, passive hemagglutination, gel precipitation, and immunoelectrophoresis with various antigens)
- Fasciola hepatica*
Gutierrez-Q., M.; Martuscelli-Q., A.; and Oyarzabal-C., J. H., 1976, Rev. Invest. Salud Pub., Mexico, v. 36 (4), 203-213
sera of children with eosinophilia and history of parasitism compared with sera of normal children, indirect hemagglutination test

- Fasciola hepatica*
Guttowa, A.; and Boniecka, B., 1977, Acta Parasitol. Polon., v. 24 (28-34), 315-322
Fasciola hepatica, *Trianaophorus nodulosus*, embryos, in vitro effects of pesticides Vapam and Lebaycid, implications for effects of environmental pollution on structure of ecosystems
- Fasciola hepatica*
de Haro Arteaga, I.; et al., 1977, Rev. Invest. Salud Pub., Mexico, v. 37 (1), 57-64
Fasciola hepatica, incidence survey of local domestic animals and possible vector snails for evidence of infection, attempted experimental infection of snails: Almoloya del Rio, Estado de Mexico
- Fasciola hepatica*
Harris, R. E.; and Charleston, W. A. G., 1977, N. Zealand J. Zool., v. 4 (4), 395-399
path analysis of physical and biological variables in marsh microhabitats of *Lymnaea tomentosa* and *L. columella*, intermediate hosts of *Fasciola hepatica*
- Fasciola hepatica*
Hawkins, C. D.; and Morris, R. S., 1978, Vet. Parasitol., v. 4 (4), 341-351
Fasciola hepatica, sheep (exper.), degree of productivity depression assessed by body-weight change, midside patch wool growth, fleece weights, and feed digestibility
- Fasciola hepatica*
Hayes, T. J., 1978, J. Parasitol., v. 64 (2), 374-376
Fasciola hepatica, rats, protective immunity to reinfection is expressed by 48 hrs after challenge
- Fasciola hepatica*
Hayes, T. J.; and Mitrovic, M., 1979, Experimentia, v. 35 (3), 325-326
Fasciola hepatica, sheep (exper.), potent fasciolicidal activity of 2-hydroxy-2',3,4',5,5',6-hexachlorobenzene-sulfonanilide
- Fasciola hepatica*
Henriksen, S. A.; and Pilegaard-Andersen, C., 1979, Nord. Vet.-Med., v. 31 (1), 6-13
Fasciola hepatica, bovine, frequency in fecal examinations, 1963-1977, seasonal variation; pronounced declining tendency, 1973-1977: Denmark
- Fasciola hepatica*
Hillyer, G. V., 1979, Exper. Parasitol., v. 48 (2), 287-295
Fasciola hepatica, complexity of adult worm antigens, cross-reactivity with sera to *Schistosoma mansoni* and *Schistosoma japonicum*, presence of one common antigen between the two genera, protection of mice immunized with *Fasciola hepatica* antigens to challenge exposure with *Schistosoma mansoni* cercariae
- Fasciola hepatica*
Hillyer, G. V.; and Cervoni, M., 1978, J. Immunol. Methods, v. 20, 385-390
Fasciola hepatica, *Schistosoma mansoni*, purification of specific antigens by means of a combination of Laurell crossed immunoelectrophoresis for immunization using complexed antigen and affinity chromatography with monospecific antibody
- Fasciola hepatica*
Hillyer, G. V.; Pelley, R. P.; and del Llano de Diaz, A., 1979, J. Parasitol., v. 65 (1), 55-60
Fasciola hepatica, solubilization of antigens which are reactive with anti-*Schistosoma mansoni* antiserum
- Fasciola hepatica*
Hillyer, G. V.; and Sagramoso de Ateca, L., 1979, Infect. and Immun., v. 26 (3), 802-807
Fasciola hepatica antigens which induce cross-protection against *Schistosoma mansoni*, isolation by concanavalin A affinity chromatography, properties
- Fasciola hepatica*
Hillyer, G. V.; and Santiago de Weil, N., 1979, J. Parasitol., v. 65 (5), 680-684
Fasciola hepatica, rats, rabbits, enzyme linked immunosorbent assay can be used for serodiagnosis and for prediction of chemotherapeutic success
- Fasciola hepatica*
Hocquet, P., 1976, Rev. Prat., Paris, v. 26 (16), 1203-1206
Fasciola hepatica, human hepatic infection, general clinical review
- Fasciola (Fasciola) hepatica*
Holland-Moritz, W.; Nickel, S.; and Hiepe, T., 1977, Monatsh. Vet.-Med., v. 32 (23), 889-893
Fasciola hepatica, calves, *Galba truncatula*, epizootiology (ameliorated and unameliorated pastures, population density of *G. truncatula*, soil structure, vegetation, hydrological and climatic factors); importance of melioration for complex fascioliasis control program: Potsdam, East Germany
- Fasciola hepatica*
Hope Cawdery, M. J.; and Lindsey, W., 1977, Proc. Seminar Biol. Control (Dublin, Feb. 17-18), 161-169
Fasciola hepatica, decline of fluke and *Lymnaea truncatula* populations on reclaimed western blanket peat, possible relationship to predation by *Hydromya dorsalis*: Co. Mayo, Ireland
- Fasciola hepatica*
Howell, M. J., 1979, J. Parasitol., v. 65 (5), 817-819
Fasciola hepatica, rats, vaccination with precipitated antigen-antibody complex recovered from cultures of metacercariae in immune rat serum and emulsified with Freund's complete adjuvant
- Fasciola hepatica*
Howell, M. J.; and Sandeman, R. M., 1979, Internat. J. Parasitol., v. 9 (1), 41-45
Fasciola hepatica, precipitate which forms when metacercariae are cultured in immune rat serum is a complex of parasite metabolic antigen and rat Ig (possibly IgG), vaccination of rats with precipitate in FCA confers significant degree of protection
- Fasciola hepatica*
Hrzenjak, T.; Popovic, M.; and Ehrlich, I., 1978, Vet. Arhiv, Zagreb, v. 48 (3), 131-137
Fasciola hepatica, fatty acid composition

- Fasciola hepatica*, *illus.*
Huang, S. W.; et al., 1979, *J. Chinese Soc. Vet. Sc.*, v. 5 (2), 79-85
Fasciola spp., cattle and water buffaloes, morphology, egg hatching time, phototaxis, and infectivity of miracidia to *Limnea ollula* (exper.), intra-species variation: Taipei abattoir, Taiwan
- Fasciola hepatica*
Hughes, D. L.; Harness, E.; and Doy, T. G., 1978, *Research Vet. Sc.*, v. 25 (3), 356-359
Taenia hydatigena, goats, sheep, cattle (all exper.), challenged orally with *Fasciola hepatica* metacercariae, showed no evidence of resistance
- Fasciola hepatica*
Isseroff, H.; and Smith, K. R., [1979], *J. Parasitol.*, v. 64 (6), 1978, 1134-1135
Fasciola hepatica, laboratory cultivation of *Fossaria cubensis* for use as intermediate host
- Fasciola hepatica*
Isseroff, H.; Spengler, R. N.; and Charnock, D. R., 1979, *J. Parasitol.*, v. 65 (5), 709-714
Fasciola hepatica, rats, anemia, similarity to anemia produced by infused proline
- Fasciola hepatica*
Jakutowicz, K.; and Korpaczewska, W., 1979, *Bull. Acad. Polon. Sc., Cl. II, s. Sc. Biol.*, v. 27 (1), 69-70
6 tapeworms and *Fasciola hepatica*, determination of Cu concentration, atomic absorption spectrometry
- F[*asciola*] *hepatica*
Keller, H., 1978, *Schweiz. Arch. Tierh.*, v. 120 (4), 189-193
Dicrocoelium dendriticum, F[*asciola*] *hepatica*, cattle, glutamate-dehydrogenase and L- γ -glutamyl-transferase activities in sera, compared with cattle not showing macroscopic visceral lesions
- Fasciola hepatica*
Kendall, S. B.; et al., 1978, *J. Comp. Path.*, v. 88 (1), 115-122
Fasciola hepatica, cattle highly resistant to reinfection after initial infection had been terminated by anthelmintic treatment 3 or 22 weeks previously, 82% reduction in worm burden of reinfected cattle, much smaller size of flukes recovered from reinfected animals, precipitin production less in response to second infection than primary infection
- Fasciola hepatica*
Kilejian, A.; and MacInnis, A. J., 1976, *Rice Univ. Studies*, v. 62 (4), 161-174
12 helminth species, DNA buoyant density and base composition, analysis of satellite DNAs of *Hymenolepis* spp., satellite DNA and chromosome diminution in *Ascaris lumbricoides*
- Fasciola hepatica*
Kimura, S.; and Shimizu, A., 1977, *Nippon Zyuishi-Kai Zassi (J. Japan Vet. Med. Ass.)*, v. 30 (12), 642-645
Fasciola hepatica, cattle, recommended timing of anthelmintic treatment: Kobe area
- Fasciola hepatica*
Knight, R. A., 1978, *J. Parasitol.*, v. 64 (4), 601-605
Fasciola hepatica of ovine and bovine origin, effects of experimental infection in homologous and heterologous hosts, "Since there appear to be no strain differences in infectivity and pathogenicity of flukes from sheep and cattle, sheep and cattle isolates would more correctly describe flukes cultured from one or the other host."
- Fasciola hepatica*
Koebler, P.; Bryant, C.; and Behm, C. A., 1978, *Internat. J. Parasitol.*, v. 8 (5), 399-404
Fasciola hepatica, ATP synthesis in succinate decarboxylase system from mitochondria, inhibition in vitro by mebendazole and a soluble derivative of cambendazole
- Fasciola hepatica*, *illus.*
Køie, M.; Nansen, P.; and Ørnbjerg Christensen, N., 1977, *Ztschr. Parasitenk.*, v. 54 (3), 289-297
Fasciola hepatica rediae, cercariae, cysts, excysted metacercariae, migratory stages, scanning electron microscopy
- Fasciola hepatica*
Kolesnikov, V. I., 1977, *Sborn. Nauch. Rabot SibNIVI* (28), 143-146
Fasciola hepatica, rabbits, new anthelmintics tested, phenacetine highly effective
- Fasciola hepatica*
Kozar, M., 1974, *Acta Parasitol. Polon.*, v. 22 (35-44), 473-483
Fasciola hepatica, rats immunized with *Galba truncatula* or *Lymnaea tomentosa* antigens, subsequently infected with metacercariae from same or different snail species, intensity of infection, liver anatomo-pathological changes, parasite adaptation to snails discussed
- Fasciola hepatica*
Kozhokaru, A. F.; and Topaly, V. P., 1976, *Med. Parazitol. i Parazitar. Bolezni*, v. 45 (2), 178-183
Fasciola hepatica total and mitochondrial lipids, ox brain total lipids, and ox heart mitochondrial lipids as sources of bimolecular phospholipid membranes in which proton conductivity induced by aromatic sulfides, sulfoxides, and sulfones correlated with their fasciolicidal effects and permitted toxicity evaluation
- Fasciola hepatica*
Lalic, R.; Cuperlovic, K.; and Movsesijan, M., 1976, *Acta Vet.*, Beograd, v. 26 (2), 69-75
Fasciola hepatica, rabbits immunized with secretory/excretory antigen, antibodies detected with complement fixation, precipitation, and fluorescent antibody tests, immunologically identical antibodies found after infection
- Fasciola hepatica*
Lamberg, K. J., 1978, *Norsk Vet.-Tidsskr.*, v. 90 (4), 223-227
Fasciola hepatica, sheep, outbreak described, possible snail hosts, rafoxanide treatment: Rogaland

- Fasciola hepatica*
Le Bars, H.; and Banting, A. de L., 1979, *Med. & Chir. Digest.*, v. 8 (5), 435-441
Fasciola hepatica, exper. infection in rabbits, sheep, and cattle, variations in blood parameters that reflect alterations in liver function compared with normal values in order to establish standards for studying toxicity of flukicides
- Fasciola hepatica*
Lehner, R. P.; and Sewell, M. M. H., 1979, *Vet. Parasitol.*, v. 5 (4), 315-323
Fasciola hepatica, maintenance in vitro of adult flukes in continuous-flow system
- Fasciola hepatica*
Lehner, R. P.; and Sewell, M. M. H., 1979, *Vet. Sc. Commun.*, v. 2 (4), 337-340
Fasciola hepatica, rats, rabbits, and mice, failure of attempted immunization with metabolic antigens of *F. hepatica*
- Fasciola hepatica*
Leimbacher, F., 1978, *Rev. Med. Vet.*, Toulouse, v. 129 (7), 1027-1046
Fasciola hepatica, sheep, assessment of earlier forecast, practical interest for large scale use as guide in establishment of control programs: Limousin
- Fasciola hepatica*
Lur'e, B. L.; Kochetova, M. M.; and Shumakovich, I. E., 1977, *Vestnik Moskov. Univ.*, s. Biol. (1), 27-29
Fasciola hepatica, *Ascaris suum*, and other invertebrates, qualitative analysis of catecholamines in tissues
- Fasciola hepatica* [and/or] *gigantica*
Magzoub, M.; and Kasim, A. A., 1978, *Trop. Animal Health and Prod.*, v. 10 (4), 205-206
prevalence
cattle
sheep
goats
camels
(livers of all): all from abattoirs, Saudi Arabia
- Fasciola hepatica*
Mansour, T. E., 1979, *Science* (4405), v. 205, 462-469
helminths, regulation of motility, metabolism, chemotaxis, and egg formation in relation to development of new and more selective chemotherapeutic agents, review
- Fasciola hepatica*
Mansour, T. E.; and Mansour, J. M., 1977, *Biochem. Pharmacol.*, v. 26 (24), 2325-2330
Fasciola hepatica, phosphodiesterase, properties, kinetics, effect of phosphodiesterase inhibitors on motility and endogenous cAMP concentrations in fluke heads
- Fasciola hepatica*
Mansour, T. E.; and Mansour, J. M., 1979, *Biochem. Pharmacol.*, v. 28 (12), 1943-1946
Fasciola hepatica, effect of some phosphodiesterase inhibitors on adenylate cyclase
- Fasciola hepatica*
Marchand, A., 1978, *Prat. Vet. Equine*, v. 10 (4), 165-166
Fasciola hepatica, horses, review
- Fasciola hepatica*
Markiewicz, K.; Kuleta, Z.; and Romaniuk, K., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 177-182
Fasciola hepatica, cows, laboratory rats, serum ornithine carbamoyltransferase activity as indicator of extent of liver injury, anatomopathological and histopathological examinations
- Fasciola hepatica*
Medina, F. R.; and Woodbury, R., 1979, *J. Agric. Univ. Puerto Rico*, v. 63 (3), 366-376
Lymnaea spp., molluscicidal assay of 200 Puerto Rican terrestrial plants, possible use in biological control of snail vectors of fascioliasis hepatica
- Fasciola hepatica*
Meek, A. H.; and Morris, R. S., 1979, *Austral. Vet. J.*, v. 55 (2), 58-60
Fasciola hepatica metacercariae encysted on herbage, longevity, winter vs. summer, irrigated and non-irrigated pastures: Werribee, Victoria
- Fasciola hepatica*
Meek, A. H.; and Morris, R. S., 1979, *Austral. Vet. J.*, v. 55 (2), 61-64
Fasciola hepatica, sheep (exper.) maintained under grazing conditions, no evidence that previous infection conferred significant host resistance to future challenge
- Fasciola hepatica*
Meek, A. H.; and Morris, R. S., 1979, *Austral. Vet. J.*, v. 55 (8), 365-369
Fasciola hepatica, sheep grazing on irrigated vs. non-irrigated pastures, temporal distribution of acquisition of infection, influence of infection on productivity, outline of suitable treatment regimen: northern Victoria
- Fasciola hepatica, illus.*
Michael, A. I.; and Awadalla, H. N., 1976, *J. Egypt. Vet. Med. Ass.*, v. 35 (4), 9-16
Fasciola hepatica, distribution of enzymes, histochemical study
- Fasciola hepatica, illus.*
Moczon, T., 1976, *Bull. Acad. Polon. Sc.*, Cl. II, s. Sc. Biol., v. 24 (5), 289-292
Fasciola hepatica miracidia, inhibitory effect of pesticides on enzyme activity
- Fasciola hepatica, illus.*
Nansen, P.; and Joergensen, R. J., 1977, *Nord. Vet.-Med.*, v. 29 (6), 263-266
parasite eggs in fecal material from archaeological site, early Viking period (750-800 A. D.): Ribe, Denmark
- Fasciola hepatica*
Nansen, P.; Midtgaard, N., 1977, *Nord. Vet.-Med.*, v. 29 (6), 257-262
Fasciola hepatica, sheep, high frequency in adults and strikingly low frequency in lambs results from marshland management system; summer grazing on dike and its seaward side where snail vectors are not found prevents lamb infection; massive infection of adults also prevented: South-western Jutland

- Fasciola hepatica*
Naquira, C.; et al., 1972, Rev. Peruana Med. Trop., v. 1 (1), 33-37
Fasciola hepatica, epidemiologic survey for possible causes of human fascioliasis in the central highland of Peru
- Fasciola hepatica*
Nava, C.; Metlich, M. A.; and Marti M., M., 1974, Rev. Invest. Clin., v. 26 (2), 181-185
Fasciola hepatica, human, case report of hepatic distomiasis with eggs found also in the bile and biliary tract, emetine chloride therapy resulted in permanent cure; diagnostic considerations, emphasis on frequent association between parasitism and gallstones: Villa de Reyes, San Luis Potosi, Mexico
- Fasciola hepatica*, illus.
Neuhaus, W., 1978, Ztschr. Parasitenk., v. 55 (3), 209-221
Dicrocoelium dendriticum, Pleurogenoides medians, *Fasciola hepatica*, length of uterus as correlated with body size at different stages of development, mathematical analysis of growth
- Fasciola hepatica*
Northup, J. K.; et al., 1979, J. Biol. Chem., v. 254 (23), 11861-11867
Fasciola hepatica, adenylate cyclase, detergent extraction from membrane preparations, properties of solubilized vs. particulate enzyme
- Fasciola hepatica*
Northup, J. K.; and Mansour, T. E., 1978, Molec. Pharm., v. 14 (5), 804-819
Fasciola hepatica, ligand specificity of adenylate cyclase-coupled serotonin receptors
- Fasciola hepatica*
Northup, J. K.; and Mansour, T. E., 1978, Molec. Pharm., v. 14 (5), 820-833
Fasciola hepatica, role of guanine nucleotides in coupling adenylate cyclase and serotonin receptors
- Fasciola hepatica*
Oakley, G. A.; Owen, B.; and Knapp, N. H. H., 1979, Vet. Rec., v. 104 (22), 503-507
Fasciola hepatica, dairy heifers (exper.), production and performance (growth, gestation period, conception rate, calf birth-weights, milk production)
- Fasciola hepatica*
Ørnbjerg Christensen, N.; et al., 1978, Exper. Parasitol., v. 46 (1), 113-120
Schistosoma mansoni, *Fasciola hepatica*, cross-resistance in mice
- Fasciola hepatica*
Ørnbjerg Christensen, N.; Nansen, P.; and Frandsen, F., 1978, J. Helminth., v. 52 (1), 61-67
Fasciola hepatica, host-finding capacity of miracidia in relation to time, number of miracidia per snail (*Lymnaea truncatula*), and several physico-chemical environmental factors (light/dark, water volume, pH, turbidity, salinity)
- Fasciola hepatica*
Onet, E.; Constantinescu, V.; and Sandu, G., 1978, Rev. Med. Vet., Toulouse, v. 129 (6), 933-937
Fasciola hepatica, cattle (biliary canal), isolation of 3 mycobacteria strains: Cluj abattoir, Rumania
- Fasciola hepatica*
Over, H. J.; et al., 1977, Tijdschr. Diergeneesk., v. 102 (5), 304-317
Fasciola hepatica, control of intermediate host, *Lymnaea truncatula*, by Frescon (N-tritylmorpholine), field conditions trial, effectiveness determined by snail population measurements and infections of tracer lambs, particularly effective when used in spring
- Fasciola hepatica*
Over, H. J.; et al., 1978, Tijdschr. Diergeneesk., v. 103 (2), 129-139
Fasciola hepatica in sheep grazing on known contaminated pastures, diamphenethide, good results: province of Zeeland, the Netherlands
- Fasciola hepatica*
Pelley, R. P.; and Hillyer, G. V., 1978, Am. J. Trop. Med. and Hyg., v. 27 (6), 1192-1194
Schistosoma mansoni, *Fasciola hepatica*, demonstration of common antigen
- Fasciola hepatica*
Petrov, D.; Milushev, I.; and Monov, M., 1978, Vet. Med. Nauki, v. 15 (4), 33-39
Oestrus ovis, sheep, neguvon, ranide, and dovenix compared; use of ranide economically justified only for mixed infection with *Fasciola hepatica*
- Fasciola hepatica*
Petrovic, M.; and Deedler, A. M., 1979, Period. Biol., v. 81 (2), 513-515
Fasciola hepatica, immunodiagnosis, application of Defined Antigen Substrate Spheres system to immunofluorescence and immunohisto-peroxidase reactions, cross-reactivity with *Schistosoma mansoni*
- Fasciola hepatica*, illus.
Poliakova-Krusteva, O.; et al., 1977, Khel-mintologija, Sofija, v. 4, 50-58
Fasciola hepatica, origin, ultrastructure, and function of subcuticular cells of tegument, localization of DNA synthesis, high degree of DNA-replication indicates mitotic activity of non-differentiated subcuticular cells
- Fasciola hepatica*
Poliakova-Krusteva, O.; and Krustev, L., 1972, Virchows Arch. B, Cell Path., v. 11 (4), 334-342
Fasciola hepatica-infected rabbits, enzyme-histochemical studies of pathological process in liver
- Fasciola hepatica*
Pouplard, L.; and Pecheur, M., 1977, Hohenheimer Arbeit., Reihe Tier Prod. (87), 64 pp.
helminthiasis, cattle, epizootiology, therapeutic and husbandry control methods, monographic review

- Fasciola hepatica*
Prichard, R. K., 1978, *Parasitology*, v. 76 (3), 277-288
Fasciola hepatica, metabolic profile of adult flukes obtained from rafoxanide-treated sheep, concluded that mode of action of rafoxanide in vivo is by uncoupling oxidative phosphorylation
- Fasciola hepatica*, *illus.*
Rajasekariah, G. R., 1978, *Experientia*, v. 34 (11), 1458-1459
Fasciola hepatica, ingestion of cercariae by *Chaetogaster limnaei* (an annelid ectocommensal on *Lymnaea tomentosa*, the intermediate host of the liver fluke), possible exploitation as biological control measure
- Fasciola hepatica*
Rajasekariah, G. R.; et al., 1979, *Parasitology*, v. 79 (3), 393-400
Fasciola hepatica, rats, mice, attempts to induce protection against infection by injection of in vitro-derived excretory/secretory products of either migrating larvae or adult worms
- Fasciola hepatica*
Rajasekariah, G. R.; et al., 1979, *Ztschr. Parasitenk.*, v. 58 (2), 175-180
Fasciola hepatica, unsuccessful attempts to immunise rats and mice by oral dosing with *Taenia hydatigena* eggs or by vaccination with various *T. hydatigena* antigen preparations, results suggest that mice and rats are inappropriate as models for investigating cross-immunity between these 2 species
- Fasciola hepatica*
Rajasekariah, G. R.; and Howell, M. J., 1978, *Austral. J. Exper. Biol. and Med. Sc.*, v. 56 (6), 747-756
Fasciola hepatica, rats, acquired immunity against different challenge doses of metacercariae, antibody responses following both primary and challenge infection
- Fasciola hepatica*
Rajasekariah, G. R.; and Howell, M. J., 1978, *Exper. Parasitol.*, v. 44 (2), 233-238
Fasciola hepatica, rats, effectiveness of different developmental stages of parasite in stimulating resistance to challenge infection, all implanted stages conferred significant degree of protection with the exception of adult worms
- Fasciola hepatica*, *illus.*
Rajasekariah, G. R.; and Howell, M. J., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 138-139
Fasciola hepatica in *Lymnaea tomentosa* (exper.), passage of cysts in feces is not a natural form of emission but due to snail ingestion of cysts from contaminated environment, viability of fecal cysts, infectivity to rats
- Fasciola hepatica*
Rajasekariah, G. R.; and Howell, M. J., 1979, *J. Parasitol.*, v. 65 (4), 481-487
Fasciola hepatica, rats, transfer of immunity by serum and cells from infected to naive animals, hematological and precipitating antibody responses of recipients
- Fasciola hepatica*
Reeder, M. M., 1975, *Seminars Roentgenol.*, v. 10 (3), 229-243
parasitic infections of human liver and bile ducts, radiologic diagnosis, general review
- Fasciola hepatica*
Reid, J. F. S.; and Armour, J., 1978, *Vet. Rec.*, v. 102 (1), 4-7
helminths, sheep, economic effects (death, poor growth rate, poor food utilisation, poor fleece quality), outline of more efficient prophylactic programmes than those currently adopted by sheep farmers: United Kingdom
- Fasciola hepatica*
Renart, M. F.; et al., 1979, *Biochem. and Biophys. Research Commun.*, v. 89 (4), 1146-1153
Fasciola hepatica, fluoride and guanosine nucleotide activated adenylate cyclase, reconstitution after inactivation
- Fasciola hepatica*
Rew, R. S.; Colglazier, M. L.; and Enzie, F. D., 1978, *J. Parasitol.*, v. 64 (2), 290-294
Fasciola hepatica, lambs (exper.), diamfenetide, clinical and anthelmintic effects, value of serum gamma-glutamyl transpeptidase in detecting hepatobiliary damage
- Fasciola hepatica*
Ribbeck, R.; and Witzel, G., 1979, *Monatsh. Vet.-Med.*, v. 34 (2), 56-61
Fasciola spp., cattle, sheep, economic loss
- Fasciola hepatica*
Ritchie, L. S.; et al., 1978, *J. Agric. Univ. Puerto Rico*, v. 62 (2), 139-144
Fasciola hepatica in *Lymnaea cubensis* snails, increased snail numbers coincident with heavy rainfall, frequency of infection in cattle more than doubled, need for long term epidemiological research: Puerto Rico
- Fasciola hepatica*
Rodriguez, A.; and Gonzalez, H., 1975, *Rev. Inst. Nac. Hig.*, Caracas, v. 8 (1-2), 111-114
Fasciola hepatica, human, case report: Maracay, Estado Aragua, Venezuela
- Fasciola hepatica*, *illus.*
Rodriguez Loeches Fernandez, J.; et al., 1976, *Rev. Cubana Cirug.*, v. 15 (2), 221-229
Fasciola hepatica, humans, 2 case reports of parasitic cholangitis simulating cholelithiasis, surgical management: Cuba
- Fasciola hepatica*
Ronald, N. C.; Craig, T. M.; and Bell, R. R., 1979, *Am. J. Vet. Research*, v. 40 (9), 1299-1300
Fasciola hepatica, *Fascioloides magna*, cattle, albendazole, controlled evaluation: Texas
- Fasciola hepatica*
Rondelaud, D., 1978, *Ann. Parasitol.*, v. 53 (1), 63-74
Fasciola hepatica-infected or non-infected *Lymnaea truncatula*, disturbance of daily rhythm of behavior in presence of predators

- Fasciola hepatica*
Rondelaud, D., 1978, Ann. Parasitol., v. 53 (6), 623-630
Fasciola hepatica, *Lymnaea glabra*, *L. truncatula*, and *L. palustris* found in malacological survey of water-cress pools responsible for human cases of fascioliasis, exper. infections show that *L. glabra* as well as *L. truncatula* can serve as vector, biological control by introduction of predatory snail *Zonitoides nitidus*: Limousin
- Fasciola hepatica*, *illus.*
Rondelaud, D.; and Barthe, D., 1978, Ann. Parasitol., v. 53 (2), 201-213
Fasciola hepatica, development of redial generations in *Lymnaea truncatula* in relation to temperature, desiccation of habitat, and host body size
- Fasciola hepatica*
Rondelaud, D.; and Barthe, D., 1978, Ann. Parasitol., v. 53 (3), 255-264
Fasciola hepatica-infected *Lymnaea truncatula*, reconstitution of digestive epithelium at end of parasitic cycle
- Fasciola hepatica*
Rondelaud, D.; and Barthe, D., 1978, Compt. Rend. Soc. Biol., Paris, v. 172 (6), 1194-1200
Fasciola hepatica, development of rediae in *Limnaea* spp., dependent upon host growth
- Fasciola hepatica*
Rondelaud, D.; and Barthe, D., [1979], J. Parasitol., v. 64 (6), 1978, 1130-1131
Fasciola hepatica, presence of erratic cercariae in lumina of digestive gland of *Zonitoides* snails preying on infested *Lymnaea truncatula*, lack of infestation in *Zonitoides* after ingesting prey makes it suitable for biological control
- Fasciola hepatica*
Rowlands, D. ap T.; and Clampitt, R. B., 1979, Vet. Parasitol., v. 5 (2-3), 155-175
Fasciola hepatica, sheep, cattle (both exper.), bodyweight, blood and plasma analyses, emphasis on use of plasma enzyme levels to detect and monitor liver damage and to assess efficacy of diamphenethide against immature flukes
- Fasciola hepatica*
Rushton, B.; and Murray, M., 1978, J. Path., v. 125 (1), 11-16
Fasciola hepatica, sheep (nat. and exper.) (liver), intrahepatic vascular lesions, stages of portal vein stenosis identified by using acrylic resin casts prepared from diseased vasculature
- Fasciola hepatica*
Sawma, J. T.; Isseroff, H.; and Reino, D., 1978, Comp. Biochem. and Physiol., v. 61A (2), 239-243
rats, induction of bile duct hyperplasia by infusion of proline (but by none of the other amino acids tested), proline-induced hyperplasia resembles that observed in bile ducts of *Fasciola hepatica*-infected rats
- Fasciola hepatica*
van Schalkwyk, P. C.; et al., 1979, J. South African Vet. Ass., v. 50 (1), 31-35
helminths, sheep (nat. and exper.), alben-dazole
- Fasciola hepatica*
Schulman, M. D.; et al., 1979, J. Parasitol., v. 65 (4), 555-561
Fasciola hepatica, rats, 4-amino-6-trichloro-ethenyl-1,3-benzenedisulfonamide, pharmacokinetic basis for efficacy
- Fasciola hepatica*, *illus.*
Schussele, A.; and Laperrouza, C., 1971, Schweiz. Med. Wchnschr., v. 101 (47), 1677-1687; (48), 1713-1717
Fasciola hepatica, *Clonorchis sinensis*, human hepatic infections, extensive clinical review: life cycle, epidemiology, morphology, pathology, diagnosis, therapy, case reports
- Fasciola hepatica*, *illus.*
Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
cattle
sheep
all imported to United Arab Republic
- Fasciola hepatica*
Simonc, T. and Locatelli, A., 1978, Arch. Vet. Ital., Milano, v. 29 (3-4), 101-103
Fasciola hepatica homogenates, serotonin (5-HT) activates and 3',5'-cyclic GMP inhibits glycogen-phosphorylase activity
- Fasciola hepatica*
Smithers, S. R., 1976, Immunol. Parasit. Infect., 296-332
schistosomiasis, fascioliasis, *Clonorchis sinensis*, *Apatemon gracilis*, immunity, review
- Fasciola hepatica*
Soulsby, E. J. L., 1976, Immunol. Parasit. Infect., 152-161
helminth infections, serodiagnosis, review
- Fasciola hepatica*
Speiser, F.; and Weiss, N., 1979, Experientia, v. 35 (11), 1512-1514
112 sera from Europeans with parasitologically proven helminthiasis tested in enzyme-linked immunosorbent assay against 7 non-purified helminth antigens, extensive cross-reactions
- Fasciola hepatica*
Stpiczynska, R.; Rzczkowska, A.; and Guttowa, A., 1978, Bull. Acad. Polon. Sc., Cl. II, s. Sc. Biol., v. 26 (6), 405-410
Fasciola hepatica, stimulatory effect of pesticides on invasive activity of miracidia and on asexual reproduction of larvae in *Lymnaea tomentosa* snails
- Fasciola hepatica*
Supperer, R., 1973, Tieraerztl. Prax., v. 1 (1), 33-42
parasitic diseases of swine, intensive rearing, treatment and control measures, review
- Fasciola hepatica*
Supperer, R., 1973, Tieraerztl. Prax., v. 1 (4), 403-412
parasites of calves, diagnosis, pathology, therapy, review
- Fasciola hepatica*
Sykes, A. R., 1978, Vet. Rec., v. 102 (2), 32-34
subclinical parasitism in sheep, effects of parasites localized in abomasum, small intestine, and liver on bodyweight gain, efficiency of food utilization, and serum constituents, diagnostic aids

- Fasciola hepatica*
Tarczynski, S.; and Szepelski, L., 1970, Acta Parasitol. Polon., v. 18 (42-50), 513-519
Fasciola hepatica metacercariae, longevity and infectivity in hay, effect of different methods of hay drying used in Poland, concluded that hay may contain infective metacercariae in spite of adequate drying methods, only proper ensilage of green roughage makes it safe from infective forms of liver fluke
- Fasciola hepatica*, illus.
Threadgold, L. T., 1978, Parasitology, v. 76 (1), 85-90
Fasciola hepatica, apical surface of gastrodermal cells, actual 3-dimensional organization and intracellular ultrastructure, transmission and scanning electron microscopy
- Fasciola hepatica*, illus.
Threadgold, L. T.; and Brennan, G., 1978, Exper. Parasitol., v. 46 (2), 300-316
Fasciola hepatica, basal infolds and associated vacuoles of tegument: general and enzymatic histochemistry, osmotic behavior, theory outlining possible mode of operation of tegument as transporting epithelium
- Fasciola hepatica*
Timofeev, B. A.; et al., 1978, Veterinariia, Moskva (4), 67-68
Fasciola hepatica, cattle, disalan effective, no toxic effect; comparison of anthelmintic effect with dertil
- Fasciola hepatica*
Tinar, R., 1978, Vet. Fak. Dergisi, Ankara Univ., v. 25 (3), 372-378
Fasciola hepatica, sheep (exper.), numbers of eggs in feces highest between 1600 and 1900 hours during day
- Fasciola hepatica*
Tongson, M. S., 1978, Philippine J. Vet. Med., v. 17 (1-2), 106-120
Fasciola gigantica, *F. hepatica*, life cycle review, control programs: Philippines
- Fasciola hepatica*
Trifonov, T. R., 1978, Vet. Med. Nauki, v. 15 (6), 108-112
helminths of liver, sheep, 5 year post-mortem survey, occurrence, mixed infections: Bourgas
- Fasciola hepatica*
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Fasciola hepatica*
Urquhart, G. M., 1978, Colloque Immun. Parasit. Dis. (Thiverval-Grignon, Sept. 5-9, 1977), 263-273
irradiated vaccines for helminths, evaluation of reasons for success of Dictol and failure of attempts to develop other vaccines, colloquium presentation
- Fasciola hepatica*
Valenzuela, G., 1979, Bol. Chileno Parasitol., v. 34 (1-2), 31-35
Fasciola hepatica eggs from bile of infected bovines, viability and survival as affected by in vitro development in outdoor temperatures: Valdivia, Chile
- Fasciola hepatica*
Valenzuela, G.; and Sievers, G., 1977, Bol. Chileno Parasitol., v. 32 (3-4), 84
Fasciola hepatica, simple method for culture of eggs under natural conditions
- Fasciola hepatica*
Vishniauskas, A.; and Rudaitis, A., 1978, Veterinariia, Moskva (4), 68-69
Fasciola hepatica, cattle (exper.), acemidophene, dertil and sulfene compared, acemidophene insufficiently effective
- Fasciola hepatica*
van Vugt, F.; van der Meer, P.; and van den Bergh, S. G., 1979, Internat. J. Biochem., v. 10 (1), 11-18
Fasciola hepatica adults, formation of propionate from succinate and of acetate from pyruvate as terminal processes in energy metabolism
- Fasciola hepatica*
Wensvoort, P.; Over, H. J.; and van Strien, M. J., 1979, Vet. Quart., v. 1 (2), 75-81
Fasciola hepatica, cattle (exper.), character, extent, and localization of perilobular fibrosis in liver
- Fasciola hepatica*
Wilson, R. A.; and Taylor, S. L., 1978, Parasitology, v. 76 (1), 91-98
Fasciola hepatica in *Lymnaea truncatula*, curvilinear relationship between miracidial density and snail density as manifested by successful establishment of an infection in snail host, level of parasitization not related exponentially to temperature, depth of free water overlying mud surface was absolute requirement for miracidia to successfully infect snails
- Fasciola hepatica*
Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca mulatta (liver): wild caught in Asia, maintained at National Center for Primate Biology
- Fasciola hepatica*
Ziegler, K., 1979, Vet. Med., Praha, v. 52, v. 24 (7), 391-395
Fasciola hepatica, cattle, dovenix and bilevon highly effective; drug toxicity tests in rats
- Fasciola luciopercae* Mueller, 1776
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of *Bunodera luciopercae* (Mueller, 1776) Luehe, 1909
- Fasciola varica* Mueller, 1780
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Derogenes varicus* (Mueller, 1780) Looss, 1901
- Fascioliasis
Alonge, D. O.; and Fasanmi, E. F., 1979, Trop. Animal Health and Prod., v. 11 (1), 57-62
diseases and parasites of cattle resulting in carcass condemnations, abattoir survey, economic importance and public health: northern Nigeria

- Fascioliasis**
Boray, J. C., 1978, *Vet. Parasitol.*, v. 4 (2), 127-141
Fasciola hepatica (Australian strain, sheep origin), relative susceptibility of indigenous and exotic *Lymnaea* spp. and parthenogenetic development of parasite in these species, effect of snail size, potential impact of introduced exotic snails for epidemiology of fascioliasis: Australia
- Fascioliasis**
Breza, M.; and Corba, J., 1976, *Veterinarstvi*, v. 26 (10), 453-455
fascioliasis, cattle, comparison of two new coprological techniques (sedimentation method and flotation-sedimentation method)
- Fascioliasis**
Contreras B., J. A., 1976, *Vet. Med. Rev.* (2), 190-195
fascioliasis, cattle, high incidence of abortions reduced substantially and permanently following bilevon R treatment and snail control programme using copper sulphate: Venezuela
- Fascioliasis**
Cotteleer, C.; and Fameree, L., 1976, *Vet. Med. Rev.* (2), 196-202
fascioliasis, cattle, bilevon-R treatment combined with prophylactic decontamination of pastures with frescon evaluated during 3-year control scheme
- Fascioliasis**
Ernst, S.; and Aguilar, H., 1978, *Bol. Chileno Parasitol.*, v. 33 (3-4), 66-69
zoonotic helminths, domestic animals, prevalence survey: Valdivia slaughter house, Chile
- Fascioliasis**
Euzebey, J., 1978, *Cahiers Med. Vet.*, v. 47, spec. no., 165-184
fascioliasis and strongylosis of ruminants, cestodiasis of all species of animals, anthelmintic therapy, review
- Fascioliasis**
Evans, D. G.; and Pratt, J. H., 1978, *Brit. Vet. J.*, v. 134 (5), 476-492
critical analysis of slaughterhouse condemnation data for cattle, pigs, and sheep 1969-1975, incidence of different disease conditions, factors affecting condemnation levels including seasonal variations, slaughtering level, and correlations between condemnations for different diseases
- Fascioliasis**
Forsek, Z.; et al., 1977, *Vet. Glasnik*, v. 31 (10), 771-779
fascioliasis, *Echinococcus granulosus*, sheep, diagnosis and control, review: Jugoslavia
- Fascioliasis**
Hofmann, W.; and Amrousi, S. E., 1975, *Vet. Med. J.*, Giza, v. 22 (22), 175-183
diseases of cattle, horses, and dogs, estimation of enzymes GOT and GPT to evaluate degree of hepatic involvement
- Fascioliasis**
Karnaukhov, V. K., 1977, *Sovet. Med.* (7), 84-88
high blood eosinophilia in presence of human helminthiasis and other infections, greatest diagnostic difficulties encountered with ascariasis, strongyloidiasis, fascioliasis and opisthorchiasis
- Fascioliasis**
Karnaukhov, V. K., 1979, *Sovet. Med.* (5), 86-90
helminthiasis, humans, typical errors in diagnosing and treating acute and chronic infections, especially hormone administration prior to diagnosis, case reports, management
- Fascioliasis**
Merenyi, L., 1978, *Magy. Allat. Lapja*, v. 100, v. 33 (2), 132-134
fascioliasis, control, treatment: Nograd county
- Fascioliasis**
Nageotte, A., 1979, *Prat. Vet. Equine*, v. 11 (2), 129
fascioliasis, horses, clinical aspects, case reports
- Fascioliasis**
Nickel, S., 1978, *Monatsh. Vet.-Med.*, v. 33 (23), 915-917
parasitoses of farm animals, potential effects of soil and water improvement programs
- Fascioliasis**
Oleinik, A. P., 1977, *Veterinariia*, Moskva (5), 65-67
fascioliasis, sheep, diamphenethide, determining dosage and toxicity levels
- Fascioliasis**
Orlovskii, V. I.; and Zharikov, I. S., 1974, *Vet. Nauka--Proizvod.*, Trudy, Minsk, v. 12, 120-121
fascioliasis and paramphistomiasis, bovine, distribution in Vitebsk oblast
- Fascioliasis**
Petkov, A., 1977, *Vet. Sbirka*, v. 75 (5), 34-36
fascioliasis, sheep and cattle, distribution and seasonal dynamics: Bulgaria
- Fascioliasis**
Petkov, A.; et al., 1977, *Vet. Sbirka*, v. 75 (1), 28-30
helminthiasis, sheep, dehelminthization increases productivity (milk and wool yield, growth) and decreased death rate
- Fascioliasis**
Speiser, F.; and Weiss, N., 1979, *Experientia*, v. 35 (11), 1512-1514
112 sera from Europeans with parasitologically proven helminthiasis tested in enzyme-linked immunosorbent assay against 7 non-purified helminth antigens, extensive cross-reactions
- Fascioliasis**
Willomitzer, J.; and Rozkosny, R., 1977, *Acta Vet. Brno*, v. 46 (3-4), 315-322
Stagnicola palustris, *Lymnaea tomentosa*, laboratory rearing of *Dictya umbrarum* for control of intermediate host snails
- Fascioliasis**
Zharikov, I. S.; and Orlovskii, V. I., 1973, *Vet. Nauka--Proizvod.*, Trudy, Minsk, v. 11, 116-118
fascioliasis, prevalence in cattle: southern zone of Belorussia

- Fascioloides magna* (Mueller, 1774), *illus.*
Chroustova, E., 1978, *Veterinarstvi*, v. 28 (3), 130-132
Fascioloides magna, experimental infection of *Lymnaea palustris*, potential intermediate host in Czechoslovakia
- Fascioloides magna* (Bassi, 1875)
Chroustova, E., 1979, *Vet. Parasitol.*, v. 5 (1), 57-64
Fascioloides magna, successful infection of *Lymnaea palustris* (exper.), metacercariae thus obtained were infective for guinea-pigs, rabbits, and goat, no flukes were recovered from sheep but changes were produced in the organs
- Fascioloides magna*, *illus.*
Coil, W. H., 1977, *Ztschr. Parasitenk.*, v. 52 (1), 53-59
Fascioloides magna miracidia, scanning electron microscopy of penetration of snail *Fossaria bulimoides*, attraction, attachment, morphology of apical papilla and epidermal plates, shedding of cilia and epidermal plates
- Fascioloides magna*
Craig, T. M.; and Bell, R. R., 1978, *J. Am. Vet. Med. Ass.*, v. 173 (1), 104-107
Fasciola hepatica, *Fascioloides magna*, seasonal transmission to cattle pastured in 2 ecologically dissimilar areas of Texas, drug treatment in late summer, especially of young cattle, may considerably reduce *Fasciola hepatica* in snail vectors, while control of *Fascioloides magna* is not considered practicable at present time
- Fascioloides magna*
Foreyt, W. J., 1979, *Exper. Parasitol.*, v. 47 (2), 292-296
Fascioloides magna, susceptibility of selected nonruminant mammalian hosts
Cavia cobaya
Mus musculus
Oryctolagus cuniculus
Sus scrofa
(all exper.)
- Fascioloides magna*
Foreyt, W. J.; and Drawe, D. L., 1978, *Am. J. Vet. Research*, v. 39 (12), 1901-1903
gastrointestinal nematodes and *Fascioloides magna*, white-tailed deer, albendazole highly effective against nematodes, 38% effective against *F. magna*: Victoria, Texas
- Fascioloides magna*
Foreyt, W. J.; and Todd, A. C., 1974, *Am. J. Vet. Research*, v. 35 (3), 375-377
Fascioloides magna, cattle, efficacies of rafoxanide and oxcyclozanide: Texas Gulf Coast Region
- Fascioloides magna*
Foreyt, W. J.; and Todd, A. C., [1979], *J. Parasitol.*, v. 64 (6), 1132-1134
Lymnaea bulimoides (exper.)
L. caperata (exper.)
L. humilis (exper.)
L. palustris (exper.)
L. stagnalis (exper.)
L. umbrosa (exper.)
Odocoileus virginianus (liver): Sandhill Wildlife Area, Wood County, Wisconsin
- Fascioloides magna*, *illus.*
Kolar, Z., 1978, *Veterinarstvi*, v. 28 (6), 276-277
Fascioloides magna, red deer, treatment with BHS
- Fascioloides magna*
Ronald, N. C.; Craig, T. M.; and Bell, R. R., 1979, *Am. J. Vet. Research*, v. 40 (9), 1299-1300
Fasciola hepatica, *Fascioloides magna*, cattle, albendazole, controlled evaluation: Texas
- Fascioloides magna*
Willomitzer, J.; Chroustova, E.; and Kolar, Z., 1976, *Veterinarstvi*, v. 26 (9), 417-419
Fascioloides magna, deer, control with BHS for deer and Frescon as molluscicide for snail control
- Fasciolopsis buski*
Areekul, S.; et al., 1979, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 10 (1), 67-72
Fasciolopsis buski, schoolchildren, serum vitamin B12, serum and red cell folate, serum vitamin B12 and serum folate binding proteins, vitamin B12 absorption
- Fasciolopsis buski*
Barrett-Connor, E., 1972, *South. Med. J.*, v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Fasciolopsis buski*
Gaur, S. N. S.; et al., 1979, *Indian J. Animal Sc.*, v. 49 (2), 159-161
Sus scrofa (feces): Zoological Park, Kanpur, Uttar Pradesh
- Fasciolopsis buski*
Nizami, W. A.; Siddiqi, A. H.; and Waseemul Islam, M., 1977, *Ztschr. Parasitenk.*, v. 52 (3), 275-280
digenetic trematodes, comparative quantitative studies of acetylcholinesterase in seven species, higher quantities in species inhabiting gastrointestinal tract than in those parasitizing liver or swimbladder, apparently a biochemical adaptation to counteract peristalsis
- Faustula gangetica* Srivastava, 1935, *illus.*
Gupta, V.; and Ahmad, J., [1978], *Riv. Parasitol.*, Roma, v. 38 (2-3), 1977, 181-191
description
Hilsa sinensis (intestine): Bay of Bengal, at Puri, Orissa, India
- Fellodistomum agnotum* Nicoll, 1909
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
as syn. of *Steringophorus agnotus* (Nicoll, 1909) Dollfus, 1952
- Fellodistomum fellis* (Olsson, 1868) Nicoll, 1909
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
synonymy
Anarhichas denticulatus (gall-bladder): Grand Bank, eastern seaboard of Canada
A. lupus (gall-bladder): Funk Island Bank, eastern seaboard of Canada
A. minor (gall-bladder): Funk Island Bank, eastern seaboard of Canada

- Fellodistomum furcigerum* (Olsson) Yamaguti, 1953
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Steringophorus furciger* (Olsson, 1868) Odhner, 1905
- Fellodistomum incisum* (Rudolphi) of Stafford (1904) in part
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Steringophorus agnotus* (Nicoll, 1909) Dollfus, 1952
- Fellodistomum thapari* Srivastava & Ghosh, 1968
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Fellodistomum fellis* (Olsson, 1868) Nicoll, 1909
- Festucaria pileata* Rudolphi, 1802
Odening, K., 1979, Ann. Parasitol., v. 54 (2), 171-183
as syn. of *Ichthyocotylurus pileatus* (Rudolphi, 1802)
- Fibricola cratera*
Cook, T. W., 1978, J. Parasitol., v. 64 (5), 938-939
Fibricola cratera, migration in metamorphosing *Rana pipiens* from peritoneal cavity to hind leg musculature, progress and route
- Fibricola intermedius* (Pearson, 1959)
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
Hydromys chrysogaster (intestine): River Torrens, Adelaide, South Australia
- Fibricola ramachandrani* (Betterton, 1976) comb. nov., illus.
Palmieri, J. R.; Krishnasamy, M.; and Sullivan, J. T., 1979, J. Helminth., v. 53 (2), 161-167
Fibricola ramachandrani comb. nov., intraspecific host-induced morphological variation
Syn.: *Neodiplostomum* (*Conodiplostomum*) *ramachandrani* Betterton, 1976
Echinorex gymnurus
Rattus whiteheadi
R. muelleri
Callosciurus notatus
all from Bukit Legong Forest Reserve, Kuala Lumpur, Selangor, West Malaysia
- Fischoederius elongatus*
Ambu, S., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (3), 443-444
amphistomes, intensity of infection in slaughtered cattle and buffaloes: Shah Alam abattoir, Selangor, Malaysia
- Fischoederius elongatus*
Eduardo, S. L., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 96-103
carabao: slaughtered at National Abattoir, Marulas, Valenzuela, Bulacan, Philippines
- Flexophora ophidii*
Llewellyn, J.; and Tully, C. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1063-1074
Diclidophorinae, 12 spp., morphological variations, comparison of possible evolutionary paths in parasites and in their fish hosts, key to species
Ophidium barbatum: Sete, France
- Fundulotrema* gen. nov.
Kritsky, D. C.; and Thatcher, V. E., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 53-60

all from North Sea to shelf water of Namibia
- Gastrocotyle trachurii* Van Beneden and Hesse, 1863, *illus.*
Lambert, A., 1978, *Ann. Parasitol.*, v. 53 (6), 551-559
8 species of Monogenea of fish, oncomiracidia, ciliated cells, chetotaxy
- Gastrocotyle trachuri*
Lebedev, B. I.; and Parukhin, A. M., 1970, *Parazitologiya, Leningrad*, v. 4 (5), 458-465
Trachurus trachurus (gills): southwestern coast of India near Quilon
- Gastrocotyle trachuri* Beneden e Hesse, 1863
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, *Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria*, 67-79
Trachurus mediterraneus (gills): Mediterranean Sea
- Gastrocotyle trachuri*, *illus.*
Shaw, M. K., 1979, *Ztschr. Parasitenk.*, v. 58 (3), 243-258
Gastrocotyle trachuri, ultrastructure of clamp wall, possible role in attachment
+*Trachurus trachurus* (gills): off Plymouth
- Gastrocotyle trachuri*, *illus.*
Shaw, M. K., 1979, *Ztschr. Parasitenk.*, v. 59 (1), 43-51
monogeneans, ultrastructure of clamp sclerites
- Gastrocotyle trachuri*, *illus.*
Shaw, M. K., 1979, *Ztschr. Parasitenk.*, v. 59 (3), 277-294
Gastrocotyle trachuri, development of clamp attachment organs, electron microscopy
- Gastrocotyle trachuri*
Treasurer, J. W., 1976, *Glasgow Naturalist*, v. 19 (4), 325-333
Trachurus trachurus (gills): Scottish waters

- Gastrocotyle trachuri van Beneden et Hesse, 1863, *illus.*
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
description
Trachurops crumenophthalmus (gills): Hawaii
- Gastrocotylidae gen. sp. I
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
monogeneans in Exocoetus, patterns of extensivity and intensivity of invasion, both increase with host age
Exocoetus volitans
E. monocirrhous
all from Indian and Pacific Oceans
- Gastrocotylidae gen. sp. III
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
monogeneans in Exocoetus, patterns of extensivity and intensivity of invasion, both increase with host age
Exocoetus volitans
E. monocirrhous
all from Indian and Pacific Oceans
- Gastrodiscoides hominis
Ginetsinskaia, T. A.; et al., 1971, Parazitologia, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Gastrodiscoides hominis
Nizami, W. A.; Siddiqi, A. H.; and Waseemul Islam, M., 1977, Ztschr. Parasitenk., v. 52 (3), 275-280
digenetic trematodes, comparative quantitative studies of acetylcholinesterase in seven species, higher quantities in species inhabiting gastrointestinal tract than in those parasitizing liver or swimbladder, apparently a biochemical adaptation to counteract peristalsis
- Gastrodiscoides hominis (Lewis u. McConal, 1876)
Prosl, H.; and Tamer, A., 1979, Zentralbl. Vet-Med., Reihe B, v. 26 (9), 696-709
Macaca mulatta (Blinddarm, Dickdarm)
- Gastrodiscoides hominis
Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca fascicularis
M. mulatta
(large intestine of all): all wild caught in Asia, maintained at National Center for Primate Biology
- Gastrothylax crumenifer
Eduardo, S. L., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 96-103
carabao: slaughtered at National Abattoir, Marulas, Valenzuela, Bulacan, Philippines
- Gastrothylax crumenifer (Creplin, 1847)
Eduardo, S. L., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 117-122
Carmyerius synthes and Gastrothylax crumenifer from slaughtered animals, egg-shell formation, histochemical observations
- Gastrothylax crumenifer (Creplin, 1847)
Klimenko, V. V.; and Velichko, I. V., 1972, Parazitologia, Leningrad, v. 6 (3), 291-296
Calicophoron calicophorum, Liorchis scotiae, Gastrothylax crumenifer, disc electrophoresis on polyacrylamide gel, characteristic differences in protein spectrum, possible use in taxonomy
- Gastrothylax crumenifer
Nizami, W. A.; and Siddiqi, A. H., 1978, Ann. Trop. Med. and Parasitol., v. 72 (6), 589-590
4 digenetic trematodes, effects of metabolic inhibitors and stimulators on oxygen uptake
- Gastrothylax crumenifer
Nizami, W. A.; Siddiqi, A. H.; and Waseemul Islam, M., 1977, Ztschr. Parasitenk., v. 52 (3), 275-280
digenetic trematodes, comparative quantitative studies of acetylcholinesterase in seven species, higher quantities in species inhabiting gastrointestinal tract than in those parasitizing liver or swimbladder, apparently a biochemical adaptation to counteract peristalsis
- Gastrothylax crumenifer
Yusufi, A. N. K.; and Siddiqi, A. H., 1978, Ztschr. Parasitenk., v. 56 (1), 47-53
Gastrothylax crumenifer, Srivastavaia indica, Isoparorchis hypselobagri, carbohydrate metabolism and enzyme studies suggest possible existence of pentosephosphate pathway and capacity for gluconeogenesis
Bubalus bubalis (rumen)
- Gauhatiana lebedevi n. sp., *illus.*
Gupta, N. K.; and Miglani, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 219-248
fish, marine teleost (intestine): Port Blair (Andaman and Nicobar Islands), India
- Gempylitrema n. g. (type genus of subf.)
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
Diclidophoridae; Gempylitrematinae n. subf. *tod:* G. longipedunculatum n. sp.
- Gempylitrema gempylli (Dillon et Hargis, 1965) n. comb.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
Syn.: Tagia gempylli D. et H., 1965 [footnote p. 127: "Should be spelled gempylli."]
- Gempylitrema longipedunculatum n. g., n. sp. (*tod*), *illus.*
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
Promethichthys prometheus (gills): Hawaii
- Gempylitrematinae n. subf.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., *illus.*
Diclidophoridae
type genus: Gempylitrema n. g.
- Genarches muelleri (Levinsen) Looss, 1902
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of Progonus muelleri (Levinsen, 1881) Looss, 1899

- Genarchopsis goppo* (Ozaki), illus.
Bose, K. C.; and Sinha, A. K., 1979, Current Sc., Bangalore, v. 48 (16), 747-748 [Letter]
Genarchopsis goppo in *Chana gachua*, histopathology of stomach wall
- Genarchopsis goppo* Ozaki, 1925, illus.
Madhavi, R., 1978, J. Helminth., v. 52 (3), 251-259
Genarchopsis goppo, life history
"The cercaria is of cystophorous type and is identical to *Cercariae indicae* Sewell XXXV."
Channa punctata (nat. and exper.) (stomach): Waltair, India
Amnicola travancorica (nat. and exper.): Waltair, India
Stenocypris malcolmsoni (nat. and exper.) (haemocoel): Waltair, India
Eucypris capensis (haemocoel): Waltair, India
Aplocheilus panchax (stomach): Waltair, India
- Genarchopsis muelleri* (Levinsen) Yamaguti, 1953
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Progonus muelleri* (Levinsen, 1881) Looss, 1899
- Genitocotyle acirrus* Park, 1937, illus.
Caballero y C., E.; and Caballero R., G., [1977], Rev. Biol. Trop., v. 24 (2), 1976, 229-234
redescription
Genyonemus lineatus (estomago, intestino): Bologna Creek cerca de Playa del Rey y escolleras de Ocean Park, California
- Genolinea laticauda* Manter, 1925
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
Glyptocephalus cynoglossus (stomach): Hamilton Inlet Bank, eastern seaboard of Canada
Lycodes vahli (stomach): Funk Island Bank, eastern seaboard of Canada
Macrourus berglax (stomach): Funk Island Bank, eastern seaboard of Canada
- Genolinea laticauda* Manter, 1925
Nahas, F. M.; and Krupin, R., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 261-266
Liparis callyodon (stomach): California
- Ghaziatrema* gen. nov.
Nasir, P.; and Gomez Velasquez, Y., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 267-271
Hemiuridae, *Ghaziatrematinae* subf. nov.
mt: *G. porzanae* sp. nov.

Nasir, P.; and Gomez Velasquez, Y., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 267-271
Astyanax bimaculatus (stomach): Laguna de los Patos, near Universidad de Oriente, Cumana, Venezuela
- Ghaziatrematinae* subf. nov.
Nasir, P.; and Gomez Velasquez, Y., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 267-271
Hemiuridae
includes: *Ghaziatrema* gen. nov.
- Gigantobilharzia* Odhner, 1910
Khalifa, R., 1974, Acta Parasitol. Polon., v. 22 (22-34), 265-284
key to species, includes: *G. adami* Fain, 1960; *G. nettapi* Fain, 1960; *G. vittensis* Reimer, 1963; *G. huronensis* Najim, 1950; *G. plectropteri* Fain, 1960; *G. acotylea* Odhner, 1910; *G. sturniae* (Tanabe, 1948); *G. huttoni* Leigh, 1955; *G. elongata* (Brackett, 1940) Grodhaus, 1965; *G. ardeolae* Fain, 1955; *G. lawayi* Brackett, 1942; *G. mazuriana* sp. n.
Gigantobilharziinae
diagnosis
- Gigantobilharzia* sp., probably n. sp.
Fahmy, M. A. M.; et al., 1976, Acta Parasitol. Polon., v. 24 (1-10), 11-18
Gigantobilharzia sp., probably n. sp., recovered from chickens (exper.) infected with cercariae from *Melania tuberculata*, morphology, description of modified perfusion apparatus designed to collect trematodes from veins of chickens: branches of River Nile, Assiut Governorate, Egypt
- Gigantobilharzia* sp., illus.
Greve, J. H.; Sakla, A. A.; and McGehee, E. H., 1978, J. Am. Vet. Med. Ass., v. 172 (10), 1212-1214
Gigantobilharzia sp. in *Nandayus nenday* (feces), histopathology
- Gigantobilharzia* [sp.]
Rohde, K., 1977, Ztschr. Parasitenk., v. 52 (1), 39-51
Larus novaehollandiae: Heron Island, Great Barrier Reef, Australia
- Gigantobilharzia* sp., illus.
Rohde, K., 1978, Search, v. 9 (1-2), 40-42
Gigantobilharzia sp., description, potential agent of dermatitis
Larus novaehollandiae (mesenteric veins of rectum): Heron Island (southern end of Great Barrier Reef, 80 km from mainland), Australia
- Gigantobilharzia aegypti* sp. nov., illus.
Omran, L. A. M.; El-Naffar, M. K.; and Mandour, A. M., 1976, J. Egypt. Vet. Med. Ass., v. 36 (1), 75-87
Passer domesticus (mesenteric veins, submucosa, liver): Assiut Province, Egypt
Melania tuberculata: Egypt
chicken (exper.)
- Gigantobilharzia gyrauli* Brackett, 1942
Khalifa, R., 1974, Acta Parasitol. Polon., v. 22 (22-34), 265-284
as syn. of *Gigantobilharziella gyrauli* (Brackett, 1942) comb. n.
- Gigantobilharzia huronensis*
Hosaka, Y.; and Berry, E. G., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (5), 318-331
schistosome miracidial immobilization caused by tissue extracts prepared from various species or strains of snails, characteristics of immobilizing activity in snail tissues

- Gigantobilharzia mazuriana* sp. n., illus.
Khalifa, R., 1974, Acta Parasitol. Polon.,
v. 22 (22-34), 265-284
key
Larus ridibundus (pulmonary, intestinal, and
renal blood vessels): Swiecayty and
Stregiel Lakes, Poland
Sterna hirundo (pulmonary blood vessels):
Swiecayty Lake, Poland
Anas platyrhynchos dom. (intestinal and pul-
monary blood vessels) (exper.)
Anisus vortex: Stregiel and Swiecayty Lakes,
Poland
- Gigantobilharzia monocotylea* Szidat, 1930
Khalifa, R., 1974, Acta Parasitol. Polon.,
v. 22 (22-34), 265-284
as syn. of *Gigantobilharziella monocotylea*
(Szidat, 1930) comb. n.
- Gigantobilharzia tantali* Fain, 1955
Khalifa, R., 1974, Acta Parasitol. Polon.,
v. 22 (22-34), 265-284
as syn. of *Gigantobilharziella tantali*
(Fain, 1955) comb. n.
- Gigantobilharziella* g. n.
Khalifa, R., 1974, Acta Parasitol. Polon.,
v. 22 (22-34), 265-284
Schistosomatidae, Bilharziellinae
tod: *G. gyrauli* (Brackett, 1942) comb. n.
- Gigantobilharziella gyrauli* (Brackett, 1942)
comb. n. (tod)
Khalifa, R., 1974, Acta Parasitol. Polon.,
v. 22 (22-34), 265-284
Syn.: *Gigantobilharzia gyrauli* Brackett,
1942
- Gigantobilharziella monocotylea* (Szidat, 1930)
comb. n.
Khalifa, R., 1974, Acta Parasitol. Polon.,
v. 22 (22-34), 265-284
Syn.: *Gigantobilharzia monocotylea* Szidat,
1930
- Gigantobilharziella tantali* (Fain, 1955) comb.
n.
Khalifa, R., 1974, Acta Parasitol. Polon.,
v. 22 (22-34), 265-284
Syn.: *Gigantobilharzia tantali* Fain, 1955
- Gigantobilharziinae*
Omran, L. A. M.; El-Naffar, M. K.; and Mandour,
A. M., 1976, J. Egypt. Vet. Med. Ass., v. 36
(1), 75-87
description
- Gigantocotyle bathycotyle* (Fischöeder, 1901)
Nasmark, 1937, illus.
Jain, S. P., 1978, Zool. Anz., Jena, v. 200
(3-4), 185-218
Gigantocotyle bathycotyle, detailed life
history, morphology of developmental stages,
validity established
Syn.: *Cercaria gyraulsi* Peter and Srivas-
tava, 1955
Gyraulus convexiusculus (free in body sur-
rounding digestive tract, attached to outer
wall of intestine, mantle tissue, foot,
head, liver) (nat. and exper.)
goats (faeces, bile ducts) (exper.)
- G[igantocotyle] explanatum, illus.
Jha, S. N.; et al., 1977, Kerala J. Vet. Sc.,
v. 8 (1), 119-125
F[asciola] gigantica, G[igantocotyle] ex-
planatum, and *Echinococcus granulosus* in
bovines, incidence, gross and microscopic
pathology
bovines (lumen of bile ducts): Bihar, India
- Gigantocotyle explanatum*
Nizami, W. A.; and Siddiqi, A. H., 1978, Ann.
Trop. Med. and Parasitol., v. 72 (6), 589-590
4 digenetic trematodes, effects of metabolic
inhibitors and stimulators on oxygen uptake
- Gigantocotyle explanatum*
Nizami, W. A.; Siddiqi, A. H.; and Waseemul
Islam, M., 1977, Ztschr. Parasitenk., v. 52
(3), 275-280
digenetic trematodes, comparative quanti-
tative studies of acetylcholinesterase in
seven species, higher quantities in species
inhabiting gastrointestinal tract than in
those parasitizing liver or swimbladder,
apparently a biochemical adaptation to
counteract peristalsis
- Gigantocotyle explanatum*, illus.
Sadana, J. R.; et al., 1977, Haryana Vet.,
v. 16 (2), 84-87
Gigantocotyle explanatum, bullock (bile
duct), cholelithiasis associated with para-
sitic infection: Haryana
- Gigantocotyle explanatum* (Creplin, 1847)
Shanker, R.; and Singh, K. S., 1978, Indian
J. Animal Health, v. 17 (2), 129-132
Gigantocotyle explanatum in domestic rumi-
nants and *Gyraulus convexiusculus*, frequency
of occurrence, seasonal variations
buffaloes (ductus choledochus, ductus hepa-
tocysticus, gall bladder, rumen)
sheep (ductus choledochus communis, ductus
hepatocysticus)
goats (ductus choledochus communis, ductus
hepatocysticus)
Gyraulus convexiusculus
all from northern India
- Glossidium* sp.
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107
(1), 207-212
Ictalurus nebulosus: Florida
- Glossimetra orientalis* Mehra, 1937, illus.
Sharma, P. N., [1978], Riv. Parassitol., Roma,
v. 38 (2-3), 1977, 233-245
intestinal trematodes from various verte-
brates, hydrolytic enzymes, distribution in
parasite gut, functional significance
- Glossimetra orientalis*, illus.
Sharma, P. N., 1978, Current Sc., Bangalore,
v. 47 (22), 877-879 [Letter]
Glossimetra orientalis, Ceylonocotyle scolio-
coelium, prostate glands, histochemical
localization of certain enzymes and non-
enzyme substances
- Glossimetra orientalis* Mehra, 1937, illus.
Sharma, P. N., 1979, Indian J. Exper. Biol., v.
17 (5), 479-483
10 digenetic trematodes, histochemical local-
ization of glycogen, lipids, proteins, and
phosphatases in parenchyma and other tissues
Kachuga dhongoka
- Glossimetra orientalis* Mehra 1937, illus.
Sood, P. P., 1977, Ztschr. Parasitenk., v. 53
(3), 267-272
Glossimetra orientalis, histochemical study
of butyryl cholinesterase in various tissues,
functional significance in various locations
discussed

- Glossimetra orientalis*, illus.
Sood, P. P.; and Gupta, A. N., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 311-323
Glossimetra orientalis, histochemical localization of non-specific esterase, implications for lipid metabolism
- Glypthelmins intermedia* (Caballero y C., Bravo H. and Cerecero, 1944) Yamaguti, 1958
Sullivan, J. J., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 162-170
as syn. of *Choledocystus hepaticus* (Lutz, 1928) n. comb.

Parukhin, A. M.; and Liadov, V. N., 1979, Zool. Zhurnal, v. 58 (5), 637-642
Muraenolepis marmoratus (esophagus, stomach): Kergelen, Subantarctic zone of Indian Ocean

- Gonocerca phycidis* Manter, 1925
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
Syn.: *Gonocerca trematomi* Byrd, 1963
Hippoglossus hippoglossus (stomach): Banquereau, eastern seaboard of Canada
Macrourus berglax (stomach): Funk Island Bank, eastern seaboard of Canada
- Gonocerca trematomi* Byrd, 1963
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Gonocerca phycidis* Manter, 1925
- Gonocercella* sp. larvae
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Chorinemus lysan
Atropus atropus
all from South China Sea
- Gorgodera amplivava*
Ashton, A. D.; and Rabalais, F. C., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 141-142
Rana catesbeiana: northwestern Ohio
- Gorgodera cygnoides* (Zeder, 1800)
Frandsen, F., 1974, Acta Parasitol. Polon., v. 22 (1-11), 49-66
Rana esculenta (urinary bladder): Denmark
- Gorgodera cygnoides*
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Gorgodera cygnoides* (Zeder, 1800) Sinitzin, 1905, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana esculenta (urinary bladder): Czechoslovakia
- Gorgodera pagenstecheri* Sinitzin, 1905
Frandsen, F., 1974, Acta Parasitol. Polon., v. 22 (1-11), 49-66
Rana esculenta (urinary bladder): Denmark
- Gorgodera pagenstecheri* Sinitzin, illus.
Krasnodembskii, E. G., 1973, Parazitologiya, Leningrad, v. 7 (5), 418-422
5 trematode species, maritae, glandular cells, morphology, localization, location in helminth body where their secretions are excreted
- Gorgodera pagenstecheri* Sinitzin, 1905, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana esculenta: Czechoslovakia
- Gorgodera pagenstecheri* Sinitzin, 1905
Skriabin, V. A., 1979, Vestnik Zool., Akad. Nauk Ukrain. SSR, Inst. Zool. (2), 74-75
Rana ridibunda (urinary bladder): Crimea
- Gorgodera pagenstecheri*
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Sphaerium lacustre
Pisidium casertanum
all from Crimea
- Gorgodera varsoviensis* Sinitzin, 1905, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana esculenta: Czechoslovakia
- Gorgoderimma* (*Gorgoderimma* [i.e.? *Gorgorimma*]) *megacysta* n. sp.
Mane-Garzon, F.; and Gonzalez, L. E., 1978, Rev. Biol. Uruguay, v. 6 (1), 45-50
[lapsus p. 45 for *Gorgoderina* (*Gorgoderimma*) ([i.e.? *Gorgorimma*]) *megacysta* n. sp.]
- Gorgoderina alobata* Lees et Mitchell, 1965
Frandsen, F., 1974, Acta Parasitol. Polon., v. 22 (1-11), 49-66
Bombina bombina (urinary bladder): Denmark
- Gorgoderina alobata* Lees et Mitchell, 1966, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Bombina bombina
B. variegata
all from Czechoslovakia
- Gorgoderina* (*Gorgoderina*) *darwini* n. sp., illus.
Mane-Garzon, F.; and Gonzalez, L. E., 1978, Rev. Biol. Uruguay, v. 6 (1), 39-43
Melanophryniscus stelzneri (vejiga urinaria): Laguna de Rocha, Departamento de Rocha, Uruguay
- Gorgoderina* (*Gorgoderimma* [i.e.? *Gorgorimma*]) *megacysta* n. sp., illus.
Mane-Garzon, F.; and Gonzalez, L. E., 1978, Rev. Biol. Uruguay, v. 6 (1), 45-50
[lapsus p. 45 as *Gorgoderimma* (*Gorgoderimma*) ([i.e.? *Gorgorimma*]) *megacysta* n. sp.]
Leptodactylus ocellatus (vejiga urinaria): Laguna del Diario, Departamento de Maldonado, Uruguay
- Gorgoderina* (*Gorgorimma*) *parvicava* Travassos, 1922, illus.
Gonzalez Da Silveira, L. E., 1978, Rev. Biol. Uruguay, v. 6 (2), 111-114
Gorgoderina parvicava, chromosomes, n = 9, all acrocentric except pairs 4 and 7 which are metacentric
Leptodactylus ocellatus (vejiga urinaria): Barra del Rio Santa Lucia, Montevideo
- Gorgoderina* (*Gorgoderimma* [i.e.? *Gorgorimma*]) *parvicava* Travassos, 1922, illus.
Mane-Garzon, F.; and Gonzalez, L. E., 1978, Rev. Biol. Uruguay, v. 6 (1), 45-50
description
Leptodactylus ocellatus (vejiga urinaria): Banado Tropa Vieja, Departamento de Canelones, Uruguay
- Gorgoderina* (*Gorgorimma*) *parvicava* Travassos, 1922, illus.
Vicente, J. J.; and dos Santos, E., 1976, Atas Soc. Biol. Rio de Janeiro, v. 18, 27-42
synonymy, redescription
Leptodactylus ocellatus (bexiga urinaria): Volta Redonda, Estado do Rio de Janeiro, Brasil

- Gorgoderina permagna Lutz, 1926
Vicente, J. J.; and dos Santos, E., 1976,
Atas Soc. Biol. Rio de Janeiro, v. 18, 27-42
as syn. of Gorgoderina (Gorgorimma) parvi-
cava Travassos, 1922
- Gorgoderina vitelliloba (Olsson, 1876) Looss,
1902
Frandsen, F., 1974, Acta Parasitol. Polon.,
v. 22 (1-11), 49-66
Rana esculenta
R. arvalis
(urinary bladder of all): all from Denmark
- Gorgoderina vitelliloba, illus.
Irwin, S. W. B.; and Maguire, J. G., 1979, In-
ternat. J. Parasitol., v. 9 (1), 47-53
Gorgoderina vitelliloba, ultrastructure of
vitelline follicles
- Gorgoderina vitelliloba, illus.
Mitchell, J. B.; and Mason, A. R., 1978, Inter-
nat. J. Parasitol., v. 8 (3), 193-196
Gorgoderina vitelliloba, escape of cercarial
body from its anterior tail chamber
- Gorgoderina vitelliloba (Olsson, 1876) Sinitzin,
1905, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta
Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host
affinities
Rana arvalis
R. temporaria
R. esculenta
all from Czechoslovakia
- Gotocotyle [sic] bivaginalis (Ramalingam, 1961)
comb. nov.
Young, P. C., [1972], An. Inst. Biol., Univ.
Nac. Mexico, v. 41 (1), s. Zool., 1970, 163-175
Scomberomorus commersoni: Green Island,
Queensland
- Gotocotyle secunda (Tripathi, 1956) Yamaguti,
1963
Young, P. C., [1972], An. Inst. Biol., Univ.
Nac. Mexico, v. 41 (1), s. Zool., 1970, 163-175
Scomberomorus commersoni: Green Island and
Heron Island, Queensland
- Gotocotyle. See Gotocotylya.
- Gotocotyliidae gen. sp.
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58
(7), 958-968
monogeneans in Exocoetus, patterns of exten-
sivity and intensity of invasion, both in-
crease with host age
Exocoetus volitans
E. monocirrhous
all from Indian and Pacific Oceans
- Gyiliauchen ozaki Srivastava, 1938, illus.
Gupta, N. K.; and Miglani, A., 1976, Rev.
Iber. Parasitol., v. 36 (3-4), 219-248
description
Siganus vermiculatis
Acanthurus sp.
(intestine of all): all from Port Blair
(Andaman and Nicobar Islands), India
- Gymnophalloides macroporus (Jameson a. Nicoll,
1901)
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv.
Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria,
114-133
Gouldia minima: Novorossiisk bays
- Gymnophalloides macroporus (James)
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv.
Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria,
134-139
trematodes of molluscs, comparison of bio-
cenoses: Crimean coast
- Gymnophalloides macroporus (Lister et al., 1913)
Gaevskaia, A. V., 1973, Parazitologiya, Lenin-
grad, v. 7 (1), 61-66
as syn. of Parvatrema timondavidi Bartoli,
1963
- Gymnophallus sp. n° 1
Deblock, S., 1978, Ann. Parasitol., v. 53 (6),
577-593
Hydrobia ventrosa
H. acuta
all from cote de France (Mediterranee)
- Gymnophallus bursicola Odhner, 1900
Sulgostowska, T.; and Grytner-Ziecina, B.,
1974, Acta Parasitol. Polon., v. 22 (35-44),
401-413
Clangula hyemalis (cloaca, duodenum, jeju-
num): Baltic Coast, Gdansk Province, Poland
- Gymnophallus choledochus Odhner, 1900
Odening, K., 1978, Ang. Parasitol., v. 19 (1),
58-62
as syn. of Gymnophallus deliciosus (Olsson,
1893)
- Gymnophallus choledochus (Odhner)
Sannia, A.; and James, B. L., 1978, Ztschr.
Parasitenk., v. 56 (1), 1-11
Cerastoderma edule: Thames estuary
- Gymnophallus deliciosus (Olsson, 1893)
Odening, K., 1978, Ang. Parasitol., v. 19 (1),
58-62
Syn.: Gymnophallus choledochus Odhner, 1900
- Gymnophallus glandosa (Lebour, 1908)
Deblock, S., 1978, Ann. Parasitol., v. 53 (6),
577-593
Hydrobia ulvae: cote de France (Manche;
Atlantique)
- Gymnophallus macroporus Jameson & Nicoll, 1913
Odening, K., 1978, Ang. Parasitol., v. 19 (1),
58-62
as syn. of Lacunovermis macomae (Lebour,
1908)
- Gyrdicotylinae Vercammen-Grandjean, 1960

Prost, M., 1974, Acta Parasitol. Polon., v. 22 (12-21), 139-147
Phoxinus phoxinus (fins, skin, gills, oral cavity): mountain stream of Wolkowyjka, Bieszczady Mts., Poland
- Gyrodactylus arcuatus* Bychowsky, 1832
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Pungitius pungitius: Kursiu Marios Lagoon
- Gyrodactylus bairdi* Wood and Mizelle, 1957
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, J. Fish. Research Bd. Canada, v. 33 (11), 2489-2499
Cottus cognatus (gills): Aishihik Lake, Yukon Territory
- Gyrodactylus birmani*
Makhovenko, E. T., 1972, Parazitologija, Leningrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka
- Gyrodactylus bubyri* Osmanov, 1965, illus.
Ergens, R., 1971, Parazitologija, Leningrad, v. 5 (6), 524-531
description
Pomatoschistus caucasicus (fins, skin): Aral'skoye Sea
- Gyrodactylus bychowsky* Sproston, 1946
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Gasterosteus aculeatus: Kursiu Marios Lagoon
- Gyrodactylus carassii* Malmberg, 1957
Nedeva-Menkova, I., 1977, Khelminologija, Sofiia, v. 4, 34-39
Syn.: *G. decorus* Malmberg, 1957
Alburnus alburnus (fin): Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Gyrodactylus carpio* Kritsky et Mizelle, 1968
Ergens, R., 1974, Parazitologija, Leningrad, v. 8 (2), 103-108
as syn. of *Gyrodactylus medius* Kathariner, 1894
- Gyrodactylus chadzhikenti* Osmanov, 1964
Ashurova, M., 1973, Parazitologija, Leningrad, v. 7 (2), 164-168
Schizopygopsis stoliczkai: Sarez Lake, central Pamir
- Gyrodactylus chadzikenti* Osmanov, 1964
Ergens, R., 1971, Parazitologija, Leningrad, v. 5 (6), 524-531
as syn. of *Gyrodactylus montanus* Bychowsky, 1957
- Gyrodactylus cotti* Roman, 1956
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
Cottus szanaga (gills): River Onon near Binder, Mongolia
- Gyrodactylus cyprini*, illus.
Ergens, R., 1971, Parazitologija, Leningrad, v. 5 (6), 524-531
G. cyprini Diarova, 1964 and *G. cyprini* Osmanov, 1964 are synonyms, but it is uncertain which author has priority
Cyprinus carpio (skin, gills): Uzbekistan
- Gyrodactylus decorus* Malmberg, 1957
Nedeva-Menkova, I., 1977, Khelminologija, Sofiia, v. 4, 34-39
as syn. of *G. carassii* Malmberg, 1957
- Gyrodactylus elegans* Nordmann, 1832
Paskeviciute, A., 1978, Lietuvos TSR Moks. Akad. Darbai, s. C (84), (4), 73-80
Abramis brama: Kursiu Marios Lagoon
- Gyrodactylus elegans* Nordmann, 1832
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogeneoidea of certain Cyprinidae, seasonal dynamics
Abramis brama
A. ballerus
Blicca bjoernna
(gills of all): all from Lake Dabie near Szczecin, Poland
- Gyrodactylus eucaliae* Ikezaki and Hoffman, 1957, illus.
Kritsky, D. C., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 37-49
Gyrodactylus eucaliae, 3 distinct types of cephalic glands based on morphology and stain affinities of their secretions, structure of cephalic lobe and head organ
- Gyrodactylus exocoeti* sp. n., illus.
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
monogeneans in *Exocoetus*, patterns of extensivity and intensity of invasion, both increase with host age
[lapsus p. 958 as *G. exocoeti*]
Exocoetus volitans: Indian Ocean
E. monocirrhus: Indian and Pacific Oceans (gills of all)
- Gyrodactylus exocoeti* [lapsus p. 958 for *G. exocoeti* sp. n.]
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
- Gyrodactylus fossilis* Lupi et Roman, 1956
Kakacheva-Avramova, D., 1976, Khelminologija, Sofiia, v. 1, 12-18
Misgurnus fossilis (gills): Bulgarian section of Danube River
- Gyrodactylus glehnii* sp. n., illus.
Ergens, R.; and Iukhimenko, S. S., 1973, Parazitologija, Leningrad, v. 7 (2), 186-188
Percottus glehni (gill filaments): Amur river near the town of Leninsk
- Gyrodactylus gobii* Schulman, 1953, illus.
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
measurements
Gobio gobio cynocephalus (fin): River Onon near Binder, Mongolia

- Gyrodactylus gobii* Shulman, 1953, illus.
Ergens, R., 1973, Parazitologiya, Leningrad, v. 7 (6), 497-501
redescription
Gobio gobio (fins, nasal cavity): lake Markakul; lake Itkul
G. albipinnatus (fins): Vengriia
G. gobio cynocephalus (fins): Onon river (Mongolia)
G. gobio lepidolaemus (fins): lake Khalkakul
Hemibarbus maculatus (fins): lake Khanka, Astrakhan
- Gyrodactylus gobioninum* Gussev, 1955, illus.
Ergens, R., 1973, Parazitologiya, Leningrad, v. 7 (6), 497-501
redescription
Pseudogobio rivularis (fins): lake Khanka, Astrakhan
- Gyrodactylus gracilihamatus* Malmberg, 1964, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Alburnoides bipunctatus (fins): River Orachovstica near Virpazar, Montenegro
- Gyrodactylus gracilihamatus* Malmberg, 1964
Nedeva-Menkova, I., 1977, Khelmintologiya, Sofiia, v. 4, 34-39
Alburnus alburnus
Rutilus rutilus
Leuciscus cephalus
(fin of all): all from Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Gyrodactylus gracilis*
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)

- Gyrodactylus hrabei* Ergens, 1957, illus.
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
Cottus szanaga (fin): River Onon near Binder, Mongolia
- Gyrodactylus japonicus* Kikuchi, 1929, illus.
Ogawa, K.; and Egusa, S., 1978, Bull. Japan. Soc. Scient. Fish., v. 44 (6), 613-618
description
Plecoglossus altivelis (fin): captured at Lake Biwa, cultured at Nagano Pref. and Tokushima Pref., Japan
- Gyrodactylus kherulensis* Ergens, 1974, illus.
Ogawa, K.; and Egusa, S., 1978, Bull. Japan. Soc. Scient. Fish., v. 44 (6), 613-618
description
Cyprinus carpio (fin, gill filament): cultured at farms in Niigata Pref. and Nagano Pref., Japan
- Gyrodactylus laevis* Malmberg, 1956, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Phoxinus phoxinus
Chondrostoma kneri
all from Lake Veliko Crno, Montenegro
- Gyrodactylus laevis* Malmberg, 1956, illus.
Ergens, R., 1971, Parazitologiya, Leningrad, v. 5 (6), 524-531
Syn.: *G. pusanovi* Osmanov, 1965
Alburnoides taeniatus: delta of Amudar'ya River
- Gyrodactylus laevis*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Phoxinus phoxinus: Kol'skii peninsula, USSR
- Gyrodactylus laevis* Malmberg, 1956, illus.
Prost, M., 1974, Acta Parasitol. Polon., v. 22 (12-21), 139-147
Phoxinus phoxinus (gills): mountain stream of Wolkowyjka, Bieszczady Mts., Poland
- Gyrodactylus laevis* Malmberg, 1956
Wierzbicka, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 149-163
Monogenoidea of certain Cyprinidae, seasonal dynamics
Abramis ballerus
Blicca bjoerana
(gills of all): all from Lake Dabie near Szczecin, Poland
- Gyrodactylus lenoki* Gussev, 1953, illus.
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
measurements
Brachymystax lenok (fins, gills): River Tul near Songino, River Kherlen near Bayandelger, Lake Tirkhin tsagan, Mongolia
- Gyrodactylus limnaeus* [sic] Malmberg, 1964
Prost, M., 1975, Acta Parasitol. Polon., v. 23 (1-11), 85-92
"there is no reason to divide *G. phoxini* into two species and to recognize *G. limnaeus* [sic] Malmberg, 1964 as a valid species."
- Gyrodactylus llewellyni* Ergens & Dulmaa, 1967
Ergens, R.; and Dulmaa, A., 1970, Folia Parasitol., v. 17 (1), 1-11
Oreoleuciscus potanini (fins): Lake Khar, Mongolia
- Gyrodactylus longiradix* Malmberg, 1956
Kakacheva-Avramova, D., 1976, Khelmintologiya, Sofiia, v. 1, 12-18
Acerina cernua (gills): Bulgarian section of Danube River
- Gyrodactylus lotae* Gussev, 1953
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
Lota lota (gills, fin): River Onon near Binder, Mongolia
- Gyrodactylus lotae* Gussev, 1953
Kazakov, B. E., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 26-31
Lota lota (gills): Murmansk oblast

- Gyrodactylus lotae*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Lota lota: Kol'skii peninsula, USSR
- Gyrodactylus lucii* Kulakowskaja, 1951
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
Esox lucius (fin): Lake Ugiy nur and Tirkhin tsagan, River Selenga near Muren, Mongolia
- Gyrodactylus lucii*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Esox lucius: Kol'skii peninsula, USSR
- Gyrodactylus luciopercae* Gussev, 1962
Kakacheva-Avramova, D., 1976, Khelminologia, Sofiia, v. 1, 12-18
Stizostedion luciopercae (gills): Bulgarian section of Danube River
- Gyrodactylus macronychus* Malmberg, 1956, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Phoxinus phoxinus (fins, skin, nasal cavities): Lake Veliko Crno, Montenegro
- Gyrodactylus macronychus* Malmberg, 1956
Kazakov, B. E., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 26-31
Phoxinus phoxinus (surface of fin): Murmansk oblast
- Gyrodactylus macronychus*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Phoxinus phoxinus: Kol'skii peninsula, USSR
- Gyrodactylus macronychus* Malmberg, 1956, illus.
Prost, M., 1974, Acta Parasitol. Polon., v. 22 (12-21), 139-147
Phoxinus phoxinus (skin, fins): mountain stream of Wolkowyjka, Bieszczady Mts., Poland
- Gyrodactylus magnificus* Malmberg, 1956
Kazakov, B. E., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 26-31
Rutilus rutilus (surface of fin): Murmansk oblast
- Gyrodactylus magnificus*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Phoxinus phoxinus
Rutilus rutilus
all from Kol'skii peninsula, USSR
- Gyrodactylus magnificus* Malmberg, 1956, illus.
Prost, M., 1975, Acta Parasitol. Polon., v. 23 (1-11), 85-92
measurements
Phoxinus percnurus (gills and fins): Pivonia river at Sosnowica (Lublin province), Poland
- Gyrodactylus magnus* Konovalov, 1967, illus.
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
Thymallus arcticus (fin): River Tul near U-Bulan, Mongolia
- Gyrodactylus malmbergensis* sp. n., illus.
Prost, M., 1974, Acta Parasitol. Polon., v. 22 (12-21), 139-147
Phoxinus phoxinus (fins, oral and nasal cavities): mountain stream of Wolkowyjka, Bieszczady Mts., Poland
- Gyrodactylus markakulensis* Gvosdev, 1950, illus.
Ergens, R., 1971, Folia Parasitol., v. 18 (3), 241-254
Gobio albipinnatus tenuicarpus (fin): River Khalkhingol, Mongolia
- Gyrodactylus markewitshi* Kulakowskaja, 1952
Nedeva-Menkova, I., 1977, Khelminologia, Sofiia, v. 4, 34-39
Barbus meridionalis petenyi (fin): Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Gyrodactylus medius* Kathariner, 1894, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Cyprinus carpio (gills): Lake Skadar near Vranina, Montenegro
- Gyrodactylus medius* Kathariner, 1894
Ergens, R., 1974, Parazitologia, Leningrad, v. 8 (2), 103-108
Gyrodactylus medius from Cyprinus carpio, redescription, morphological and metrical variation, occurrence and distribution
Syn.: G. carpio Kritsky et Mizelle, 1968
- Gyrodactylus medius*
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
+[fish]: Neman river basin
- Gyrodactylus minimus* Malmberg, 1956, illus.
Prost, M., 1974, Acta Parasitol. Polon., v. 22 (12-21), 139-147
Phoxinus phoxinus (oral cavity, gills): mountain stream of Wolkowyjka, Bieszczady Mts., Poland
- Gyrodactylus mongolicus* sp. n., illus.
Ergens, R.; and Dulmaa, A., 1970, Folia Parasitol., v. 17 (1), 1-11
Oreoleuciscus humilis (fins)
Oreoleuciscus pewzowi
Oreoleuciscus potanini (gills)
all from Mongolia
- Gyrodactylus montanus* Bychowsky, 1957, illus.
Ergens, R., 1971, Parazitologia, Leningrad, v. 5 (6), 524-531
description
Syn.: G. chadzikenti Osmanov, 1964
Schizothorax intermedius (fins): Tadzhikistan; Uzbekistan
Diptychus dybowskyi (skin): Uzbekistan
- Gyrodactylus mugili* sp. n., illus.
Zhukov, E. V., 1970, Parazitologia, Leningrad, v. 4 (4), 321-326
Mugil so-iuy (gills): Posyet settlement, Posyet Bay, Sea of Japan
- Gyrodactylus mutabilis* Bychowsky, 1957, illus.
Ergens, R., 1971, Parazitologia, Leningrad, v. 5 (6), 524-531
description
Varicorhinus capoeta heratensis natio steindachneri (gills, fins): Tadzhikistan

- Gyrodactylus nipponensis* n. sp., illus.
Ogawa, K.; and Egusa, S., 1978, Bull. Japan. Soc. Scient. Fish., v. 44 (6), 613-618
Anguilla japonica (gill filament): cultured at farms in Shizuoka Pref. and Tokushima Pref., Japan
- Gyrodactylus nordmanni* sp. n., illus.
Ergens, R.; and Dulmaa, A., 1970, Folia Parasitol., v. 17 (1), 1-11
Oreoleuciscus pewzowi (gills, fins): Lake Sangin dalay, Mongolia
O. potanini (gills): Lake Khar, Mongolia
- Gyrodactylus oreoleucisci* sp. n.
Ergens, R.; and Dulmaa, A., 1970, Folia Parasitol., v. 17 (1), 1-11
- Gyrodactylus oreoleucisci* sp. n. forma typica, illus.
Ergens, R.; and Dulmaa, A., 1970, Folia Parasitol., v. 17 (1), 1-11
Oreoleuciscus humilis (fins, gills): Lake Telmen, River Teysin, and Lake Sangin dalay, Mongolia
O. potanini (fins): Lake Khar, Mongolia
O. pewzowi (fins): Lake Sangin dalay, Mongolia
- Gyrodactylus oreoleucisci* sp. n. forma A, illus.
Ergens, R.; and Dulmaa, A., 1970, Folia Parasitol., v. 17 (1), 1-11
Oreoleuciscus humilis
Oreoleuciscus pewzowi
all from Mongolia
- Gyrodactylus oreoleucisci* sp. n. forma B, illus.
Ergens, R.; and Dulmaa, A., 1970, Folia Parasitol., v. 17 (1), 1-11
Oreoleuciscus humilis: Lake Telmen, Mongolia
O. pewzowi: Lake Sangin dalay, Mongolia
O. potanini: Mongolia
- Gyrodactylus pannonicus* Molnar, 1968, illus.
Ergens, R., 1970, Poljopriv. i Shumarstvo, v. 16 (1-2), 1-44
description
Phoxinus phoxinus (fins, skin, nasal cavities, gills): Lake Veliko Crno, Montenegro
- Gyrodactylus pannonicus* Molnar, 1968, illus.
Prost, M., 1974, Acta Parasitol. Polon., v. 22 (12-21), 139-147

Uchida, A.; and Itagaki, H., 1976, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 25 (5), 360-365
synonymy
- Haematoloechus abbreviatus* (Bychowsky, 1932)
Prokopic et Krivanec, 1973, *illus.*
Prokopic, J.; and Krivanec, K., 1975, *Acta Scient. Nat. Brno*, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Bombina bombina
B. variegata
all from Czechoslovakia
- Haematoloechus asper* Looss, 1899
Frandsen, F., 1974, *Acta Parasitol. Polon.*, v. 22 (1-11), 49-66
Rana esculenta
Bombina bombina
(lung of all): all from Denmark
- Haematoloechus asper* Looss, 1899, *illus.*
Prokopic, J.; and Krivanec, K., 1975, *Acta Scient. Nat. Brno*, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana arvalis
R. esculenta
Bombina variegata
all from Czechoslovakia
- Haematoloechus breviplelex* Stafford, 1902, *illus.*
Babero, B. B.; and Golling, K., 1974, *Rev. Biol. Trop.*, v. 21 (2), 1973, 207-220
Rana catesbiana: Ash Meadows, Nye County, Nevada
- Haematoloechus buttensis* Ingles, 1936, *illus.*
Babero, B. B.; and Golling, K., 1974, *Rev. Biol. Trop.*, v. 21 (2), 1973, 207-220
Rana catesbiana: Ash Meadows, Nye County, Nevada
- Haematoloechus coloradensis* Cort, 1915, *illus.*
Dronen, N. O., jr., 1978, *Am. Midland Naturalist*, v. 99 (2), 330-349
Haematoloechus coloradensis, population dynamics in various hosts, incidence and intensity of infection according to host age, seasonal periodicity, life cycle efficiency
Physa virgata (nat. and exper.)
Anax
Tramea
Libellula
Enallagma spp.
Rana berlandieri
all from ponds in Sierra Co., New Mexico
- Haematoloechus lobatus*, *illus.*
Fujino, T.; and Ishii, Y., 1979, *Internat. J. Parasitol.*, v. 9 (5), 435-448
6 spp. of digenetic trematodes, gut epithelia, comparative ultrastructural topography, scanning and transmission electron microscopy
- Haematoloechus lobatus* (Seno, 1907) Walton, 1948, *illus.*
Uchida, A.; and Itagaki, H., 1976, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 25 (5), 360-365
redescription
Rana catesbiana (lung): Chiba prefecture and Takamatsu city in Kagawa prefecture, Japan
- Haematoloechus longiplexus*
Ashton, A. D.; and Rabalais, F. C., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 141-142
Rana catesbeiana: northwestern Ohio
- Haematoloechus neivai* Caballero & Sokoloff, 1934
Vicente, J. J.; and dos Santos, E., 1976, *Atas Soc. Biol. Rio de Janeiro*, v. 18, 27-42
as syn. of *Neohaematoloechus neivai* (Travassos & Artigas, 1927) Odening 1960
- Haematoloechus parviplelex* (Irwin, 1939), *illus.*
Babero, B. B.; and Golling, K., 1974, *Rev. Biol. Trop.*, v. 21 (2), 1973, 207-220
Rana catesbiana (lung): Ash Meadows, Nye County, Nevada
- Haematoloechus schulzei* (Wundsch, 1911) Caballero et Sokoloff, 1934, *illus.*
Prokopic, J.; and Krivanec, K., 1975, *Acta Scient. Nat. Brno*, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana esculenta (lungs): Czechoslovakia
- Haematoloechus similis* Looss, 1899
Frandsen, F., 1974, *Acta Parasitol. Polon.*, v. 22 (1-11), 49-66
Rana esculenta (lung): Denmark
- Haematoloechus similis* Looss, 1899, *illus.*
Prokopic, J.; and Krivanec, K., 1975, *Acta Scient. Nat. Brno*, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana arvalis
R. esculenta
R. ridibunda
all from Czechoslovakia
- Haematoloechus variegatus* (Rudolphi, 1819)
Looss, 1899
Frandsen, F., 1974, *Acta Parasitol. Polon.*, v. 22 (1-11), 49-66
Rana esculenta
R. temporaria
(lung of all): all from Denmark
- Haematoloechus variegatus*
Ginetsinskaia, T. A.; et al., 1971, *Parazitologia*, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Haematoloechus variegatus* (Rudolphi, 1819)
Looss, 1899, *illus.*
Prokopic, J.; and Krivanec, K., 1975, *Acta Scient. Nat. Brno*, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana esculenta: Czechoslovakia
- Haematoloechus vojtkovae* Prokopic et Krivanec, 1973
Prokopic, J.; and Krivanec, K., 1975, *Acta Scient. Nat. Brno*, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Bombina bombina: Czechoslovakia

Pande, V., 1979, Indian J. Animal Sc., v. 49 (4), 303-307
species inquirendae
- Haplospilanchnus bivitellus sp. n., *illus.*
Zhukov, E. V., 1971, Parazitologiya, Leningrad, v. 5 (2), 155-161
Mugil cephalus (intestine): Posyet Bay, basin of Sea of Japan
M. so-iuy (intestine): Liao Ho river, basin of Yellow Sea
- Haplospilanchnus pachysomus (Eysenhardt, 1829)
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ventrosa: cote de France (Mediterranean)
- Hargitrema bagrae [in abstract as bagre] (Hargis, 1955) Tripathi 1959
Paperna, I., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 99-116
Syn.: Hamatopeduncularia bagrae, Hargis, 1955
Bagre marinus: Dauphin Island, Alabama, and Mississippi coast of Gulf of Mexico
- Harmotrema sp. Baylis, 1940
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
as syn. of Dracovermis brayi new species
- Harmotrema eugaria Tubangui & Masilungan, 1936
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
Cerberus rhynchops: Philippines
- Harmotrema infecundum Nicoll, 1914
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
Grayia smithi: Africa
- Harmotrema laticaudae Yamaguti, 1933
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
Disura (sic) major
Aipysurus laevis
black and white-ringed sea snake
all from Queensland, Australia
- Harmotrema nicollii Mehra, 1936
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
as syn. of Dracovermis nicolli (Mehra) new combination
[footnote reads: "The Editor does not consider that the emendation of nicolli [sic, for nicollii] to nicolli is a 'justified emendation' according to the International Code of Zoological Nomenclature"]
- Harmotrema rudolphii Tubangui & Masilungan, 1936
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
as syn. of Dracovermis rudolphi (Tubangui & Masilungan) new combination
- Hasstilesia Hall, 1916
Gvozdev, E. V., 1978, Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol. (3), 1-3
Hasstilesia, morphology, life cycles, brief review
- Hasstilesia tricolor
Jacobson, H. A.; Kirkpatrick, R. L.; and McGinnes, B. S., 1978, Wildlife Monogr. (60), 53 pp.
disease and physiologic characteristics of cottontail rabbits in 2 study areas in relation to population density, includes data on seasonal and sex differences
Sylvilagus floridanus: Virginia

- Helicometra* Odhner, 1902
Hafeezullah, M., 1971, Acta Parasitol. Polon., v. 19 (9-18), 133-139
Helicometra, genus review, variations in testes number
Syns.: *Stenopera* Manter, 1933; *Helicometrina* Linton, 1910
- Helicometra* sp.
Gaevskaia, A. V.; and Umnova, B. A., 1977, Biol. Moria, Vladivostok (4), 40-48
Sebastes marinus (intestine): Grand Newfoundland Bank, Northwest Atlantic
- Helicometra fasciata* (Rud. 1819) Odhner, 1902, illus.
Lopez-Roman, R.; and Guevara Pozo, D., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 223-231
description
Coris julis
Serranus cabrilla
S. seriba
all from Mar de Alboran
- Helicometra fasciata* (Rud., 1819) Odhner, 1902
Maillard, C.; and Lambert, M., 1978, Ann. Parasitol., v. 53 (4), 367-371
Conger conger: Golfe du Lion en Mediterranee occidentale
- Helicometra insolita* Polyansky, 1955, illus.
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
description
Syn.: *Neohelicometra insolita* (Polyansky) Sekerak and Arai, 1974
Lumpenus lampretaeformis (intestine): Grand Bank and Hamilton Inlet Bank, eastern seaboard of Canada
- Helicometra pleurogrammi* (Baeva, 1968) nov. comb.
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
Syn.: *H. pugetensis* Schell, 1973
- Helicometra plovornini* Issaitschikov, 1928, illus.
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
Anarhichas lupus (intestine): Green Bank, eastern seaboard of Canada
Lycodes reticulatus (intestine): Grand Bank, eastern seaboard of Canada
L. vahli (intestine): Grand Bank, eastern seaboard of Canada
Triglops murrayi (intestine): Grand Bank and Banquereau, eastern seaboard of Canada
- Helicometra pugetensis* Schell, 1973
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *H. pleurogrammi* (Baeva, 1968) nov. comb.
- Helicometra sebastis* (Sekerak and Arai, 1974) nov. comb.
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
- Helicometrina* Linton, 1910
Hafeezullah, M., 1971, Acta Parasitol. Polon., v. 19 (9-18), 133-139
as syn. of *Helicometra* Odhner, 1902
- Helicometrina* [sp.]
Hafeezullah, M., 1971, Acta Parasitol. Polon., v. 19 (9-18), 133-139
Epinephelus undulosus
Johnius axillaris
J. sina
Lutianus johnii
Lutianus rivulatus
Platycephalus indicus
P. scaber
Pomadasys furcatus
Psettodes erumei
Sillago sihama
Therapon jarbua
T. puta
all from India
- Helicometrina nimia* Linton, 1910, illus.
Hafeezullah, M., 1971, Acta Parasitol. Polon., v. 19 (9-18), 133-139
Syn.: *Helicometrina septorchis* Srivastava, 1936
Epinephelus maculatus
Johnius aneus
J. glaucus
Lutianus quinquelinearis
all from India
- Helicometrina orientalis* Srivastava, 1936
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
Apogonichthys ellioti
Therapon jarbua
Pomadasys hasta
Johnius aneus
(intestine of all)
- Helicometrina septorchis* Srivastava, 1936
Hafeezullah, M., 1971, Acta Parasitol. Polon., v. 19 (9-18), 133-139
as syn. of *Helicometrina nimia* Linton, 1910
- Helixaxine winteri* Caballero y Bravo, 1965
Caballero y C., E.; and Bravo-Hollis, M., [1968], An. Inst. Biol., Univ. Nac. Mexico, v. 38 (1), s. Zool., 1967, 27-34
Caranx hippos (branquias): Campeche, Camp. Golfo de Mexico, Mexico
- Hemipera ovocaudata*, illus.
Nama, H. S., 1978, Current Sc., Bangalore, v. 47 (14), 518-519 [Letter]
description
Channa punctatus (stomach): Kudi (Jodhpur), Rajasthan
- Hemistomum attenuatum* Linstow, 1906
Gupta, N. K.; and Mishra, P. N., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 3-33
as syn. of *Neodiplostomum* (*Neodiplostomum*) *attenuatum attenuatum* (Linstow, 1906) La Rue, 1926
- Hemistomum cochlear* Dubois, 1928
Gupta, N. K.; and Mishra, P. N., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 3-33
as syn. of *Neodiplostomum* (*Neodiplostomum*) *attenuatum attenuatum* (Linstow, 1906) La Rue, 1926

- Hemistomum cochleare* Krause, 1914
Gupta, N. K.; and Mishra, P. N., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 3-33
as syn. of *Neodiplostomum* (*Neodiplostomum*) *canaliculatum* (Nicoll, 1914) Dubois, 1937
- Hemistomum pseudattenuatum* Dubois, 1928
Gupta, N. K.; and Mishra, P. N., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 3-33
as syn. of *Neodiplostomum* (*Neodiplostomum*) *attenuatum attenuatum* (Linstow, 1906) La Rue, 1926
- Hemistomum spathula* (Creplin, 1829) Diesing, 1850
Gupta, N. K.; and Mishra, P. N., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 3-33
as syn. of *Neodiplostomum* (*Neodiplostomum*) *attenuatum attenuatum* (Linstow, 1906) La Rue, 1926
- Hemistomum spathula* Krause, 1914
Gupta, N. K.; and Mishra, P. N., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 3-33
as syn. of *Neodiplostomum* (*Neodiplostomum*) *spathoides* Dubois, 1937
- Hemistoma spathula* Stiles and Hasall, 1894
Gupta, N. K.; and Mishra, P. N., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 3-33
as syn. of *Neodiplostomum* (*Neodiplostomum*) *canaliculatum* (Nicoll, 1914) Dubois, 1937
- Hemiurata* gen. sp. larvae
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Megalaspis cordyla
Caranx speciosus
Seriola nigrofasciata
Alectis indica
Carangidae gen. sp. 1
all from South China Sea
- Hemiuridae*
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
key
- Hemiuridae*, *cercaire a panache* sp. n° 2
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ventrosa: cote de France (Mediterranee)
- Hemiuroidea* gen. sp.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Hemiurus* sp.
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Alosa pseudoharengus (stomach): Raritan Bay, New Jersey
- Hemiurus* (*Hemiurus*) *appendiculatus* (Rud., 1802) Looss, 1899
Nikolaeva, V. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 52-66
Alosa fallax nilotica (stomach, intestine): Adriatic Sea
- Hemiurus communis* Odhner, 1905, illus.
Balozet, L.; and Sicart, M., 1960, Bull. Soc. Hist. Nat. Toulouse, v. 95 (1-2), 105-110
description
Anguilla anguilla (estomac coecal): region de Toulouse et de Thau, pres de Sete
- Hemiurus communis*, illus.
MacKenzie, K.; and Gibson, D. I., 1970, Symposia Brit. Soc. Parasitol., v. 8, 1-42
distribution in host gut
Pleuronectes platessa
Platichthys flesus
(stomach of all): all from Scotland
- Hemiurus communis* Odhner
Shotter, R. A., 1976, J. Fish Biol., v. 8 (2), 101-117
Merlangius merlangus (stomach): Manx waters near Isle of Man and/or Morecambe Bay, N.W. coast of England
- Hemiurus communis*
Williams, H. H.; McVicar, A. H.; and Ralph, R., 1970, Symposia Brit. Soc. Parasitol., v. 8, 43-77
Gadus morhua (stomach): Scottish waters
- Hemiurus crenatus* (Rudolphi) Luehe, 1901
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Brachyphallus crenatus* (Rudolphi, 1802) Odhner, 1905
- Hemiurus levinseni* Odhner, 1905
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
synonymy
Boreogadus saida (stomach): Hamilton Inlet Bank and Grand Bank, eastern seaboard of Canada
Gadus morhua (stomach): Funk Island Bank and Banquereau, eastern seaboard of Canada
Hemitripteris americanus (stomach): Sable Island Bank, eastern seaboard of Canada
Hippoglossus hippoglossus (stomach): Hamilton Inlet Bank, eastern seaboard of Canada
Myoxocephalus octodecemspinosus (stomach): Sable Island Bank, eastern seaboard of Canada
Reinhardtius hippoglossoides (stomach): Hamilton Inlet Bank, eastern seaboard of Canada
- Hemiurus* (*Metaheurus*) *levinseni* (Odhner) Skrjabin and Guschanskaja, 1954
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Hemiurus levinseni* Odhner, 1905
- Hemiurus levinseni* (Odhner, 1905)
Gaevskaia, A. V.; and Umnova, B. A., 1977, Biol. Moria, Vladivostok (4), 40-48
Merluccius bilinearis: Georges Bank
Melanogrammus aeglefinus: Georges Bank
Gadus morhua: Georges Bank; near Nova Scotia
Clupea harengus: Georges Bank
Alosa pseudoharengus: Georges Bank
Urophycis tenuis: Georges Bank
Limanda ferruginea: Georges Bank
Sebastes marinus: Grand Newfoundland Bank
all from Northwest Atlantic
- Hemiurus levinseni* Odhner, 1905, illus.
Grabda, J., 1977, Acta Ichthyol. et Piscat., v. 7 (2), 15-34
degree of parasite infestation of *Theragra chalcogramma*, commercial value: imported from USSR

- Hemiurus levinseni* Odhner, 1905
Kulachkova, V. G., 1972, *Parazitologiya*, Leningrad, v. 6 (3), 297-304
helminths of *Sagitta elegans*, annual and seasonal dynamics, occurrence compared with other geographic areas
Sagitta elegans (body cavity): Chupinsk bay, Kandalakshsk gulf, White Sea
- Hemiurus levinseni*
Makhovenko, E. T., 1972, *Parazitologiya*, Leningrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka
- Hemiurus levinseni* Odhner, 1905
Meyers, T. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 120-128
Merluccius bilinearis (stomach): Raritan Bay, New Jersey
- Hemiurus levinseni* Odhner, 1905
Scott, J. S., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 879-891
trematode parasites of *Argentina silus*, incidence and intensity in different host length groups, as indicators of change in host feeding habits, not suitable as biological tags to distinguish host populations; *Lecithophyllum botryophorum*, parasite length/frequency distribution in different host length groups, seasonal variation, parasite life span and growth: western Atlantic
- Hemiurus luehei* Odhner, 1905
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
synonymy
Clupea harengus
Salmo salar
(stomach of all): all from Gdansk Bay (Baltic Sea)
- Hemiurus ocreatus* (Rudolphi, 1802) Looss, 1899
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *Hemiurus luehei* Odhner, 1905
- Hemiurus raabei* Slusarski, 1958
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
Clupea harengus: Gdansk Bay (Baltic Sea)
- Hemiurus varicus* (Mueller) Looss, 1899
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
as syn. of *Derogenes varicus* (Mueller, 1780) Looss, 1901
- Heronimus chelydrae* MacCallum 1902
Rosen, R.; and Marquardt, W. C., [1979], *J. Parasitol.*, v. 64 (6), 1978, 1148-1149
Pseudemys scripta elegans (lungs): Lake Conway, Faulkner County, Arkansas
- Herpetodiplostomulum*
Szidat, L., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 753-786
[this name used under the heading "Genus *Herpetodiplostomum* Dubois, 1936", apparently being proposed here for larval forms]
- Herpetodiplostomulum gymnoti* n. sp., illus.
Szidat, L., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 753-786
[this species described under the heading "Genus *Herpetodiplostomum* Dubois, 1936", comb. not made]
Gymnotus carapo (encysted in skin, particularly of head): Laguna Salta La Vieja, Chaco Province, Argentina
- Herpetodiplostomum* Dubois, 1936
Dubois, G., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 51-59
Polycotylineae
Syn.: *Cheloniodiplostomum* Sudarikov, 1960
includes: *Herpetodiplostomum brevis* (MacCallum, 1921) Zerecero, 1947; *H. caimancola* (Dollfus, 1935) Dubois, 1936; *H. testudinis* Dubois, 1936; *H. delillei* Zerecero, 1947
- Herpetodiplostomum brevis* (MacCallum, 1921) Zerecero, 1947
Dubois, G., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 51-59
Syn.: *Herpetodiplostomum cinosterni* (MacCallum, 1921)
- Herpetodiplostomum cinosterni* (MacCallum, 1921) Dubois, G., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 51-59
as syn. of *Herpetodiplostomum brevis* (MacCallum, 1921) Zerecero, 1947
- Heteraxine heterocerca* (Goto, 1894) Yamaguti, 1938, illus.
Ogawa, K.; and Egusa, S., 1977, *Kiseichugaku Zasshi* (Japan. *J. Parasitol.*), v. 26 (6), 388-396
redescription
Syn.: *Axine seriola* Ishii, 1936
Seriola quinqueradiata (gills): Shizuoka Prefecture, Japan
- Heteraxinidae*
Kritsky, D. C.; Noble, E. R.; and Moser, M., 1978, *J. Parasitol.*, v. 64 (1), 45-48
separation from *Axinidae* justified
includes: *Heteraxininae*; *Monaxininae*; *Lintaxininae*; *Gonoplasinae*
- Heteraxininae* Unnithan, 1957
Gupta, N. K.; and Chanana, A., 1976, *Rev. Iber. Parasitol.*, v. 36 (3-4), 277-296
Axinidae, key
- Heteraxinoides argiropsi* sp. nov., illus.
Mamaev, Iu. L., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 79-84
Argirops spinifer (gills): Arabian Sea
- Heteraxinoides atlanticus* sp. n., illus.
Gaevskaia, A. V.; and Kovaleva, A. A., 1979, *Zool. Zhurnal*, v. 58 (8), 1110-1116
differences in invasion by monogeneans were shown with respect to host species and region
Trachurus trachurus trachurus
T. picturatus
T. trecae
T. trachurus capensis
(gills of all): all from Atlantic Ocean
- Heteraxinoides caprodontis* n. sp., illus.
Yamaguti, S., 1968, *Monogenetic trematodes of Hawaiian fishes*, 287 pp., illus.
Caprodon schlegelii (gills): Hawaii

- Heteraxinoides hannibali* Euzet et Ktari, 1970
Mamaev, Iu. L., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 79-84
as syn. of *Intracotyle hannibali* (Euzet et Ktari, 1970) n. comb.
- Heterocotyle aetobatis* Hargis, 1955
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
as syn. of *Alloheterocotyla aetobatis* (Hargis, 1955) n. comb.
- Heterocotyle floridana* of Pearse, 1949
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
as syn. of *Alloheterocotyla aetobatis* (Hargis, 1955) n. comb.
- Heterodiplostomum* Dubois, 1936
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
Ophiodiplostomatinae, Ophiodiplostomatini nov. tr.
includes: *Heterodiplostomum lanceolatum* Dubois, 1936
- Heterodiplostomum helicopsis* n. sp., illus.
Mane-Garzon, F.; and Alonso, A., 1976, Rev. Biol. Uruguay, v. 4 (2), 85-91
Helicops carinicaudus (intestino delgado):
Juan Lacaze, Departamento de Colonia, Uruguay
- Heteromicrocotyla australiensis* sp. nov., illus.
Rohde, K., 1977, Ztschr. Parasitenk., v. 53 (2), 171-182
Heteromicrocotyla australiensis sp. nov., *Heteromicrocotyloides mirabilis* gen. and sp. nov., *Caligus fortis*, habitat partitioning (each parasite on separate section of gills in clearly defined niches, each morphologically adapted to its microhabitat)
Carangoides emburyi (tip of gill filaments): near Heron Island, Great Barrier Reef, Australia
- Heteromicrocotylidae*
Rohde, K., 1977, Ztschr. Parasitenk., v. 53 (2), 171-182
Microcotyloidea
new diagnosis
- Heteromicrocotyloides* gen. nov.
Rohde, K., 1977, Ztschr. Parasitenk., v. 53 (2), 171-182
Heteromicrocotylidae
mt: *H. mirabilis* sp. nov.
- Heteromicrocotyloides mirabilis* sp. nov. (mt), illus.
Rohde, K., 1977, Ztschr. Parasitenk., v. 53 (2), 171-182
Heteromicrocotyla australiensis sp. nov., *Heteromicrocotyloides mirabilis* gen. and sp. nov., *Caligus fortis*, habitat partitioning (each parasite on separate section of gills in clearly defined niches, each morphologically adapted to its microhabitat)
Carangoides emburyi (middle of gill filaments): near Heron Island, Great Barrier Reef, Australia
- Heterophyes heterophyes*
Barrett-Connor, E., 1972, South. Med. J., v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Heterophyes heterophyes*
Paperna, I.; Sabnai, I.; and Castel, M., 1978, Ann. Parasitol., v. 53 (2), 123-130
microsporidian infection (tentatively Pleistophora) reported in *Liza ramada* in fibroblasts of metacercarial capsule of *Heterophyes heterophyes*, infection of metacercarial cyst resulted in hypertrophy of cyst wall and degeneration and eventual death of encapsulated metacercaria: Bardawil Lagoon, Mediterranean coast of Sinai Peninsula
- Heterophyes pleomorphis* sp. n., illus.
Bwangamoi, O.; and Ojok, L., 1977, Bull. Animal Health and Prod. Africa, v. 25 (4), 427-430
dogs (intestine): Kampala, Uganda
cats
- Heterophyidae* [sp.]
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, J. Fish. Research Bd. Canada, v. 33 (11), 2489-2499
Cottus cognatus (gills): Aishihik Lake, Yukon Territory
- Heterophyidae* [sp.]
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (striated muscle of lower jaw): Ryan Lake, Algonquin Park, Ontario
- Heterophyidae* sp.
Cordes, D. O.; and O'Hara, P. J., 1979, N. Zealand Vet. J., v. 27 (7), 147-150
Delphinus delphis (adipose tissue of lesser omentum): marine zoological park
- Heterophyidae* [sp.], illus.
Styczynska-Jurewicz, E., 1971, Acta Parasitol. Polon., v. 19 (19-28), 257-268
cercariae of 3 marine species vs. a freshwater species, life span and behavior in relation to changes in salinity
Hydrobia ulvae: Atlantic tidal region in Brittany, region of Le Tour du Parc, France
- Hexabothrium* sp.
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Mustelus canis (gill filaments): Raritan Bay, New Jersey
- Hexabothrium dasyatis* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
Dasyatis sp. (*D. hawaiiensis*?) (gills): Hawaii
- Hexagrammia zhukovi* Baeva, 1965
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
Syn.: *Anisorchis zhukovi* Yamaguti, 1971
- Hexangitrema* Price, 1937
Toman, G., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 335-341
emendation
- Hexangitrema caballeri* sp. nov., illus.
Toman, G., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 335-341
Apolemichthys trimaculatus
Pomacanthodes imperator
(intestine of all): all from Mare Anglaise, Mahe, Seychelles, Indian Ocean

- Hexangium affinum Tubangui et Masilungan, 1944
Toman, G., 1977, Publicaciones Espec. (4),
Inst. Biol., Univ. Nac. Autonom. Mexico,
335-341
as syn. of Hexangium sigani Goto et Ozaki,
1929
- Hexangium loossi (Nagaty, 1954) Yamaguti, 1958,
illus.
Gupta, N. K.; and Miglani, A., 1976, Rev.
Iber. Parasitol., v. 36 (3-4), 219-248
description
Syn.: Arthurloossia loossi Nagaty, 1954
Siganus vermiculatis: Port Blair (Andaman
and Nicobar Islands), India
- Hexangium loossi (Nagaty, 1954) Yamaguti, 1958
Toman, G., 1977, Publicaciones Espec. (4),
Inst. Biol., Univ. Nac. Autonom. Mexico,
335-341
as syn. of Hexangium sigani Goto et Ozaki,
1929
- Hexangium secundum Annereaux, 1947
Toman, G., 1977, Publicaciones Espec. (4),
Inst. Biol., Univ. Nac. Autonom. Mexico,
335-341
as syn. of Hexangium sigani Goto et Ozaki,
1929
- Hexangium sigani Goto et Ozaki, 1929, illus.
Gupta, N. K.; and Miglani, A., 1976, Rev.
Iber. Parasitol., v. 36 (3-4), 219-248
description
Acanthurus sp.: Port Blair (Andaman and
Nicobar Islands), India
- Hexangium sigani Goto et Ozaki, 1929
Toman, G., 1977, Publicaciones Espec. (4),
Inst. Biol., Univ. Nac. Autonom. Mexico,
335-341
synonymy, measurements
Siganus sp., probably S. oramin (intestine):
fishmarket, Victoria, Mahe
- Hexostoma keokeo n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of
Hawaiian fishes, 287 pp., illus.
Auxis thazard (gills): Hawaii
- Hexostoma sibi n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of
Hawaiian fishes, 287 pp., illus.
Neothunnus macropterus
Parathunnus sibi
Thunnus alalonga
(gills of all): all from Hawaii
- Hexostoma thunninae (Parona et Perugia, 1889)
Price, 1961, illus.
Gupta, N. K.; and Chanana, A., 1976, Rev. Iber.
Parasitol., v. 36 (3-4), 277-296
synonymy, description
Cybium guttatum
C. commersoni
(gills of all): all from Calicut, India
- Himasthla sp., illus.
Pavlov, A. V.; Sudarikov, V. E.; and Nguyen
Thi Le, 1971, Trudy Gel'mint. Lab., Akad.
Nauk SSSR, v. 21, 60-68
Larus genei (intestine): Vietnam
- Himasthla continua
Deblock, S., 1978, Ann. Parasitol., v. 53 (6),
577-593
Hydrobia ulvae: cote de France (Manche)
H. ventrosa: cote de France (Mediterranee)
H. acuta: cote de France (Mediterranee)
- Himasthla interrupta
Deblock, S., 1978, Ann. Parasitol., v. 53 (6),
577-593
Hydrobia ulvae: cote de France (Manche;
Atlantique)
- ?Himasthla leptosoma
Deblock, S., 1978, Ann. Parasitol., v. 53 (6),
577-593
Hydrobia ulvae: cote de France (Manche)
- Himasthla leptosoma, illus.
Moore, M. N.; and Halton, D. W., 1977, Ztschr.
Parasitenk., v. 53 (1), 115-122
Himasthla leptosoma, Cryptocotyle lingua,
Cercaria linearis in Littorina littorea,
lysosomal hydrolases in digestive cells of
infected and uninfected snails
- Himasthla leptosoma
Williams, I. C.; and Ellis, C., 1976, Glasgow
Naturalist, v. 19 (4), 307-315
Littorina littorea
Littorina littoralis
Littorina saxatilis
all from Mainland, Shetland
- ?Himasthla militaris
Deblock, S., 1978, Ann. Parasitol., v. 53 (6),
577-593
Hydrobia ulvae: cote de France (Manche)
H. ventrosa: cote de France (Mediterranee) ?
- Himasthla militaris (Rudolphi, 1802)
Vaes, M., 1979, Ann. Parasitol., v. 54 (3),
303-312
multiple infection of Hydrobia stagnorum
with larval trematodes, interactions between
parasite species: north of Belgium
- Himasthla quissetensis, illus.
Herman, S. M.; and Bacha, W. J., jr., 1978, J.
Parasitol., v. 64 (5), 827-830
Himasthla quissetensis, successful infection
of domestic chicks per cloaca using cercariae,
growth, development, and site location (pref-
erence for ileum where worms grew and
developed at rate comparable to those raised
in gull, worms from bursa of Fabricius showed
relatively little growth and exhibited gonad-
al atrophy in some cases)
- Himasthla rhigedana Dietz 1909, illus.
Dronen, N. O., jr.; and Badley, J. E., 1979,
J. Parasitol., v. 65 (4), 645-649
redescription
Numeius americanus (intestine): Galveston,
Texas
- Himasthlinae gen. sp.
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57
(5), 658-663
Planorbis planorbis: Crimea
- Himasthlinae gen. sp., illus.
Sten'ko, R. P., 1979, Biol. Nauki, Min. Vyssh.
i Sredn. Spets. Obraz. SSR (181) (1), 28-33
Planorbis planorbis (mantle tissue): Crimea

synonymy
- Hyptiasmus laevigatus* Kossack, 1911
Odening, K., 1978, Ang. Parasitol., v. 19 (1), 56-62
as syn. of *Hyptiasmus arcuatus* (Stossich, 1902, ex Brandes, 1892)
- Hyptiasmus tumidus* Kossack, 1911
Odening, K., 1978, Ang. Parasitol., v. 19 (1), 58-62
as syn. of *Hyptiasmus arcuatus* (Stossich, 1902, ex Brandes, 1892)
- Hysteroconia bychowskyi* sp. n., illus.
Korotaeva, V. D., 1972, Parazitologiya, Leningrad, v. 6 (5), 439-440
Paristiopterus gallipavo (intestine, pyloric caeca): Indian Ocean, Great Australian Bight
- Hysteromorpha*
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
key to some genera based on cercarial sensory apparatus
- Hysteromorpha* sp.
Ramalingam, S.; and Samuel, W. M., 1978, Canad. J. Zool., v. 56 (11), 2454-2456
Bubo virginianus (intestine): Alberta, Canada
- Hysteromorpha platalea* Dubinin & Dubinina, 1940, illus.
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
synonymy, description
Threskiornis molucca: Queensland
- Hysteromorpha triloba* (Rudolphi, 1819)
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
synonymy, brief description
Phalacrocorax melanoleucos: Tailem Bend, South Australia
- Hysteromorpha triloba*
Ginetsinskaya, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Hysteromorpha triloba*, illus.
Klochkova, E. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 56-61
Hysteromorpha triloba cercaria, sensory apparatus, distribution of sensillae, taxonomic significance

measurements
Channa punctatus (swim bladder, liver, spleen, ovary, body musculature, intestinal muscles, mesentery): water bodies around Jaipur
- Isoparorchis hypselobagri* (Billet, 1898), illus.
Mahajan, C. L.; et al., 1979, *J. Fish Dis.*, v. 2 (6), 519-528
Isoparorchis hypselobagri-infected *Channa punctatus*, morphological, behavioural, biochemical, and haematological changes, possible human health hazard: reservoir (Khookas bundh) about 20 km north of Jaipur
- Isoparorchis hypselobagri*
Nizami, W. A.; and Siddiqi, A. H., 1977, *Ztschr. Parasitenk.*, v. 53 (1), 105-108
Isoparorchis hypselobagri, accumulation of oxygen debt after various periods of anoxic incubation, respiratory overshoot dependent upon the length of anoxic incubation
- Isoparorchis hypselobagri*
Nizami, W. A.; and Siddiqi, A. H., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (6), 589-590
4 digenetic trematodes, effects of metabolic inhibitors and stimulators on oxygen uptake
- Isoparorchis hypselobagri*
Nizami, W. A.; Siddiqi, A. H.; and Waseemul Islam, M., 1977, *Ztschr. Parasitenk.*, v. 52 (3), 275-280
digenetic trematodes, comparative quantitative studies of acetylcholinesterase in seven species, higher quantities in species inhabiting gastrointestinal tract than in those parasitizing liver or swimbladder, apparently a biochemical adaptation to counteract peristalsis
- Isoparorchis hypselobagri* Billet, 1898
Rao, L. N.; Kameswari, M.; and Rao, G. R. H., 1979, *Current Sc., Bangalore*, v. 48 (7), 320 [Letter]
Rana tigrina (liver): India
- Isoparorchis hypselobagri* (Billet, 1898)
Siddiqi, A. H.; and Nizami, W. A., 1978, *Acta Parasitol. Polon.*, v. 25 (21-35), 223-227
Isoparorchis hypselobagri, prevalence and intensity in Wallago attu (swim bladder), no significant seasonal variation, speculations concerning life cycle: India

- Isoparorchis hypselobagri* (Billet, 1898), illus. Srivastava, C. B., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 325-333
Isoparorchis hypselobagri, hosts and geographic distribution
Mystus aor
M. seenghala
Cirrhinus reba
Clupisoma garua
Eutropiichthys vacha: Surha Tal, Ballia District
 all from India
- Isoparorchis hypselobagri* (Billet, 1898) Srivastava, C. B.; and Mukherjee, G. D., 1976, *J. Zool. Soc. India*, v. 26 (1-2), 1974, 131-137
Isoparorchis hypselobagri in *Mystus aor* and *M. seenghala*, intensity of infestation, seasonal variation, host size (age) and sex: river Jamuna, Allahabad, India
- Isoparorchis hypselobagri* Srivastava, M.; and Gupta, S. P., 1977, *Ztschr. Parasitenk.*, v. 52 (1), 61-68
Isoparorchis hypselobagri adults, in vitro survival in various salt solutions and with addition of various sugars; carbohydrates absorbed through cuticle, pH 9 optimum
- Isoparorchis hypselobagri* Srivastava, M.; and Gupta, S. P., 1978, *Ztschr. Parasitenk.*, v. 55 (1), 55-58
Isoparorchis hypselobagri, polyphenol oxidase activity, probable role in egg-shell formation; scleroprotein/melanin pigment in egg
Wallagonia attu (air bladder)
- Isoparorchis hypselobagri* Yusufi, A. N. K.; and Siddiqi, A. H., 1978, *Ztschr. Parasitenk.*, v. 56 (1), 47-53
Gastrothylax crumenifer, *Srivastavaia indica*, *Isoparorchis hypselobagri*, carbohydrate metabolism and enzyme studies suggest possible existence of pentosephosphate pathway and capacity for gluconeogenesis
Wallago attu (swim bladder)
- Isoparorchischoidea* Srivastava, C. B., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 325-333
 elevation of *Isoparorchis* to superfamily rank unwarranted
- Ithyoclinostomulum* Szidat, L., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 753-786
 [this name used under the heading "Genus *Ithyoclinostomum* Witenberg, 1926", apparently being proposed here for larval forms]
- Ithyoclinostomulum dimorphum* (Diesing, 1850), illus. Szidat, L., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 753-786
 [this species described under the heading "Genus *Ithyoclinostomum* Witenberg, 1926"; fig. labelled *Ithyoclinostomum dimorphum* (Braun, 1901)]
Hoplias malabaricus (encysted on gill arches): Tucuman, Argentina
- Jamuartrema* n. gen.
 Lal, A. K., 1978, *Indian J. Zoot.*, v. 15 (2), 1974, 65-66
Lecithodendriidae, *Pleurogenetinae*
 tod: *J. indica* n. sp.
- Jamuartrema indica* n. sp. (tod), illus. Lal, A. K., 1978, *Indian J. Zoot.*, v. 15 (2), 1974, 65-66
Channa punctatus (intestine): Patna (Bihar)
- Kahawiaia truttae*
 Rohde, K., 1978, *Biol. Zentralbl.*, v. 97 (4), 405-418
 gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Arripis trutta
- Kannaphallus virilis* Unnithan, 1957
 Young, P. C., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. *Zool.*, 1970, 163-175

denes area, Norway
Taeniopygia guttata (exper.)
- Leucochloridium* sp. Bakke
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56
(1), 94-102
as syn. of *Leucochloridium variaie* McIntosh,
1932
- Leucochloridium* sp. Roman, 1936
Pojmanska, T., 1975, *Acta Parasitol. Polon.*,
v. 23 (1-11), 23-36
as syn. of *Neoleucochloridium holostomum*
(Rudolphi, 1819)
- Leucochloridium* sp., *illus.*
Soboleva, T. N.; and Osipovskaia, L. L., 1979,
Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol. (1),
26-34
Succinea sarsi: Kazakhstan
- Leucochloridium cyanocittae* McIntosh 1932
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56
(1), 94-102
valid species
- Leucochloridium cyanocittae* McIntosh, 1932
Lewis, P. D., jr., 1978, *Proc. Montana Acad.*
Sci., v. 37, 1977, 70-81
Leucochloridium variaie, *L. cyanocittae*,
Neoleucochloridium problematicum, adaptations
for transmission from molluscan to avian
hosts: avoidance of desiccation, transit
through avian host, transfer to avian host
by mimicry
- Leucochloridium cyanocittae* McIntosh, 1932, *illus.*
Rietschel, G., 1979, *Ztschr. Parasitenk.*, v. 58
(3), 265-274
description, synonymy
Succinea putris: Hessen
- Leucochloridium fabricii* n. sp., *illus.*
Dwivedi, M. P., [1978], *Riv. Parassitol.*,
Roma, v. 38 (2-3), 1977, 307-311
Myophonous caeruleus temminckii (bursa fabri-
cii): Chhindwara, M. P. India
- Leucochloridium fuscocstriatum* Robinson, 1947
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56
(1), 94-102
as syn. of *Leucochloridium variaie* McIntosh,
1932
- Leucochloridium fuscum* Rietschel, 1970
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56
(1), 94-102
as syn. of *Leucochloridium variaie* McIntosh,
1932
- Leucochloridium holostomum*
Ginetsinskaia, T. A.; et al., 1971, *Parazito-*
logiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and
fat distribution in yolk glands and complex
eggs, accumulation of reserve substances in
yolk glands appears to vary with type of
egg development (in external environment vs.
in uterus of parent), digenetic trematodes
accumulate only glycogen and not fat
- Leucochloridium insigne* (*sensu* Witenberg 1926)
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56
(1), 94-102
as syn. of *Leucochloridium variaie* McIntosh,
1932
- Leucochloridium kazachstanica*, *illus.*
Soboleva, T. N.; and Osipovskaia, L. L., 1979,
Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol. (1),
26-34
Syn.: *Cercaria kazachstanica* IV Butenko,
1967
Succinea sarsi: Kazakhstan
- Leucochloridium macrostomum*, *illus.*
Graeber, K.; and Storch, V., 1979, *Zool. Anz.*,
Jena, v. 202 (5-6), 331-347
cestodes, trematodes, integument, scanning
and transmission electron microscopy, morpho-
metry
- Leucochloridium macrostoma* (Rud., 1803)
Petrova, K., 1976, *Khelmintologiya*, Sofia,
v. 1, 78-87
Turdus merula
Dryocopus martius
Dryobates major
(cloaca of all): all from Stara Planina
mountain, Bulgaria
- Leucochloridium musculare* Wu, 1938
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56
(1), 94-102
species inquirenda
- Leucochloridium papillocirratum* Groschaft et
Sitko, 1970
Pojmanska, T., 1975, *Acta Parasitol. Polon.*,
v. 23 (1-11), 23-36
as syn. of *Neoleucochloridium holostomum*
(Rudolphi, 1819)
- Leucochloridium paradoxum*, *illus.*
Soboleva, T. N.; and Osipovskaia, L. L., 1979,
Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol. (1),
26-34
Succinea altaica evoluta: Kazakhstan
- Leucochloridium parcum* Travassos, 1922, *illus.*
Odening, K., [1972], *An. Inst. Biol., Univ.*
Nac. Mexico, v. 41 (1), s. Zool., 1970, 109-119
description
Ramphocelus brasilius (*Ductus choledochus*):
died Tierpark Berlin (DDR), imported from
Brazil
- Leucochloridium perturbatum* Pojmanska, 1969
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56
(1), 94-102
as syn. of *Leucochloridium variaie* McIntosh,
1932

- Leucochloridium perturbatum* Pojmanska, 1969
Odening, K., 1978, *Ang. Parasitol.*, v. 19 (1), 58-62
Syn.: *Leucochloridium fuscum* Rietschel, 1970
- Leucochloridium phragmitophila* Bykhovskaya-Pavlovskaya and Dubinina, 1951
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56 (1), 94-102
as syn. of *Leucochloridium variaie* McIntosh, 1932
- Leucochloridium phragmitophila* Byhovskaja-Pavlovskaja et Dubinina, 1951 in parte
Pojmanska, T., 1978, *Acta Parasitol. Polon.*, v. 25 (11-20), 129-134
as syn. of *L. vogtianum* Baudon, 1881
- Leucochloridium pricei* (McIntosh 1932)
Davidson, W. R.; et al., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 156-161
Bonasa umbellus: Maine
- Leucochloridium problematicum*, Magath, 1920, illus.
Soboleva, T. N.; and Osipovskaia, L. L., 1979, *Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol.* (1), 26-34
Succinea sarsi
S. altaica evoluta
all from Kazakhstan
- Leucochloridium pulchrum* sp. n., illus.
Fernandes, B. M. M., 1970, *Atas Soc. Biol. Rio de Janeiro*, v. 14 (1-2), 7-8
Jacana spinosa jacana (cloaca): Sooretama, Estado do Espirito Santo, and Salobra, Estado de Mato Grosso, Brasil
- Leucochloridium sime* Yamaguti, 1935
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56 (1), 94-102
species inquirenda
- Leucochloridium subtilis* Pojmanska, 1969
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56 (1), 94-102
as syn. of *Leucochloridium variaie* McIntosh, 1932
- Leucochloridium variaie* McIntosh, 1932, illus.
Bakke, T. A., 1978, *Canad. J. Zool.*, v. 56 (1), 94-102
Leucochloridium variaie, synonymy, intra-specific variation of adults
Larus canus (nat. and exper.): Norway
Taeniopygia guttata (exper.)
Succinea pfeifferi: Norway
- Leucochloridium variaie*
Burky, A. J.; and Hornbach, D. J., 1979, *J. Parasitol.*, v. 65 (3), 371-374
Leucochloridium variaie, carbon and nitrogen content of parasite and of infected and uninfected *Succinea ovalis*
- Leucochloridium variaie* McIntosh, 1932
Lewis, P. D., jr., 1978, *Proc. Montana Acad. Sc.*, v. 37, 1977, 70-81
Leucochloridium variaie, *L. cyanocittae*, *Neoleucochloridium problematicum*, adaptations for transmission from molluscan to avian hosts: avoidance of desiccation, transit through avian host, transfer to avian host by mimicry
- Leucochloridium vogtianum* Baudon, 1881, illus.
Pojmanska, T., 1978, *Acta Parasitol. Polon.*, v. 25 (11-20), 129-134
life cycle
Syn.: *L. phragmitophila* Byhovskaja-Pavlovskaja et Dubinina, 1951 in parte
Acrocephalus scirpaceus (nat. and exper.)
A. arundinaceus
A. schoenobaenus
Succinea putris (nat. and exper.)
S. pfeifferi (nat. and exper.)
all from Poland
- Leucochloridium vogtianum* Baudon, 1881, illus.
Soboleva, T. N.; and Osipovskaia, L. L., 1979, *Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol.* (1), 26-34
Succinea sarsi: Kazakhstan
- Leuresthiocola* Price, 1961
Thapar, G. S.; Krishna; and Gupta, S. P., [1979], *An. Inst. Biol., Univ. Nac. Mexico*, v. 48 (1), s. Zool., 1977, 1-11
key to species, includes: *Leuresthiocola olsoni* Price, 1961; *L. dollfusi* sp. nov.
- Leuresthiocola dollfusi* sp. nov., illus.
Thapar, G. S.; Krishna; and Gupta, S. P., [1979], *An. Inst. Biol., Univ. Nac. Mexico*, v. 48 (1), s. Zool., 1977, 1-11
key
Cybium guttatum (gill filaments): Puri, Orissa
- Leurodera decora* Linton, 1910
Fischthal, J. H., 1978, *Zool. Scripta*, v. 7 (1), 13-18
digenetic trematodes of marine fishes, allometric growth, diagnostic usefulness in taxonomic studies
Haemulon flavolineatum: Long Cay, off coast of Belize
- Leurodera inaequalis* sp. n., illus.
Travassos, L.; de Freitas, J. F. T.; and Buehrnheim, P. F., 1966, *Atas Soc. Biol. Rio de Janeiro*, v. 10 (3), 71-73
Diaperus olisthostomus (intestino): Escola de Pesca Caboclo Bernardo, Santa Cruz, Oceano Atlantico, Estado do Espirito Santo, Brasil
- Leurosoma rudolfbarthi* sp. n., illus.
Kohn, A.; and Fernandes, B. M. M., 1976, *Atas Soc. Biol. Rio de Janeiro*, v. 18, 87-89
Chironius fuscus (ureter): Angra dos Reis, Estado do Rio de Janeiro, Brasil
- Levinseniella* Stiles and Hassall, 1901
Deblock, S., 1978, *Ann. Parasitol.*, v. 53 (1), 47-52
Syn.: *Austromicrophallus* Szidat, 1964
- ?*Levinseniella* sp. n° 17
Deblock, S., 1978, *Ann. Parasitol.*, v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche; Atlantique)
- Levinseniella acanthophalla* Oschmarin, 1963
Pearson, J. C.; and Deblock, S., 1979, *Ann. Parasitol.*, v. 54 (1), 31-37
as syn. of *Levinseniella* (*Levinseniella*) *bucephalae* (Yamaguti, 1935) Yamaguti, 1939

- Levinseniella (Monarrhenos) anenteron (Szidat, 1964) nov. comb., illus.
Deblock, S., 1978, Ann. Parasitol., v. 53 (1), 47-52
Larus marinus dominicanus (tube digestif): Argentine
- Levinseniella (Levinseniella) bucephalae (Yamaguti, 1935) Yamaguti, 1939
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
synonymy
- ?Levinseniella bucephalae sensu Ryjikofov et Timofeeva, 1962
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
as syn. of Levinseniella (Levinseniella) miyazakii (Yamaguti, 1975) Deblock, 1978
- Levinseniella bucephalae tringae Oschmarin, 1963
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
as syn. of Levinseniella (Levinseniella) bucephalae (Yamaguti, 1935) Yamaguti, 1939
- Levinseniella camtahatica [lapsus p. 6 for L. camtshatica nov. sp.]
Morozov, F. N., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 5-12
- Levinseniella camtshatica nov. sp., illus.
Morozov, F. N., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 5-12
[lapsus p. 6 as L. camtahatica]
Bucephala sp. (intestine): Kamchatka coastland, SSSR
- Levinseniella (Levinseniella) cipangi Deblock et Pearson, 1970, illus.
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
synonymy
- Levinseniella conicostoma Bridgman et coll., 1972
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
as syn. of L. (Monarrhenos) monodactyla Deblock et Pearson, 1970
- Levinseniella (Levinseniella) howensis Johnston, 1917, illus.
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
redescription
Charadrius dominicus (gros intestin): Lord Howe Island, Australie
- Levinseniella (Levinseniella) miyazakii (Yamaguti, 1975) Deblock, 1978
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
synonymy
- Levinseniella (Monarrhenos) monodactyla Deblock et Pearson, 1970
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
Syn.: L. conicostoma Bridgman et coll., 1972
- Levinseniella propinqua Jaegerskioeld, 1907
Grytner-Ziecina, B.; and Sulgostowska, T., 1978, Acta Parasitol. Polon., v. 25 (11-20), 121-128
trematodes of 3 spp. of Anatinae, distribution in host intestine
Oidemia fusca (caeca)
Somateria mollissima (rectum, caeca)
all from Baltic Coast
- Levinseniella propinqua Jaegerskioeld, 1907
Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (ileum, caeca, rectum, cloaca, duodenum, jejunum): Baltic Coast, Gdansk Province, Poland
- Ligophorus vanbenedeni (Parona and Perugia, 1890)
Lambert, A., 1978, Ann. Parasitol., v. 53 (6), 551-559
8 species of Monogenea of fish, oncomiracidia, ciliated cells, chetotaxy
- Liliatrema sobolevi Gubanov, 1953, illus.
Ohbayashi, M.; and Araki, J., 1974, Japan. J. Vet. Research, v. 22 (1-2), 47-48
description
Hexagrammos otakii (muscle tissue): Shukuzu, Otaru, Hokkaido, coast of Japan Sea
- Limatuloides Dubois, 1964
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of Parabascus Looss, 1907
- Limatum Travassos, 1921
Mane-Garzon, F.; and Gonzalez, L. E., 1976, Rev. Biol. Uruguay, v. 4 (2), 79-84
diagnosis emended
- Limatum brevicocum n. sp., illus.
Mane-Garzon, F.; and Gonzalez, L. E., 1976, Rev. Biol. Uruguay, v. 4 (2), 79-84
Myotis levis levis (estomago): Laguana del Sauce, Maldonado, Uruguay
- Linstowiella
Mishchenko, V. F., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 102-112
validity of genus restored
- Linstowiella viviparae, illus.
Mishchenko, V. F., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 102-112
Linstowiella viviparae, life cycle and development, description of egg, miracidium, sporocyst, cercaria, metacercaria, and marita
Viviparus viviparus (nat. and exper.): head of Volga delta, Astrakhan state reserve
Aythya fuligula (exper.)
Anas platyrhynchos dom. (exper.)
Larus argentatus (exper.)
- Lintaxininae Price, 1962
Gupta, N. K.; and Chanana, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 277-296
Axinidae, key
- Lintonium hetrorchis (Bilquees, 1972) Madhavi, 1975, illus.
Stunkard, H. W., 1978, Biol. Bull., v. 155 (2), 383-394
- Lintonium isorchis (Bilquees, 1972) Madhavi, 1975, illus.
Stunkard, H. W., 1978, Biol. Bull., v. 155 (2), 383-394
- Lintonium puriensis n. sp., illus.
Gupta, V.; and Ahmad, J., [1978], Riv. Parasitol., Roma, v. 38 (2-3), 1977, 215-217
Tetrodon lunaris (intestine): Bay of Bengal, at Puri, Orissa, India

- Lintonium srivastavai* sp. nov., illus.
Lamothe-Argumedo, R., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (1), s. Zool., 1969, 21-42
Sphaeroides annulatus (intestino): Salina Cruz, Oaxaca, Mexico
- Lintonium vibex* (Linton, 1900), illus.
Gomes, D. C., 1969, Atas Soc. Biol. Rio de Janeiro, v. 12 (4), 187-189
description, syn.: *Distomum vibex* Linton, 1900
Spheroides formosus (intestino): Ilha da Marambaia, Estado do Rio de Janeiro, Brasil
- Lintonium vibex* (Linton, 1905) Stunkard et Nigrelli, 1930
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Chorinemus lysan: South China Sea
- Lintonium vibex* (Linton, 1900) Stunkard & Nigrelli, 1930, illus.
Stunkard, H. W., 1978, Biol. Bull., v. 155 (2), 383-394
Lintonium vibex, life cycle, taxonomic relations, literature review, results support the postulate that *Cercaria laevicardium* is larval stage of *L. vibex*
Spheroides maculatus (nat. and exper.)
Mnemiopsis leidyi
Laevicardium mortoni
all from Woods Hole area
- Liolope Cohn*, 1902
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
Liolopidae
emended diagnosis
- Liolope copulans* Cohn, 1902
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
Megalobatrachus japonicus: Mt. Kasaoka, Okayama Prefecture, Japan
- Liolope dollfusi* Skrjabin, 1962
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
incertae sedis
- Liolopidae* Dollfus, 1934
Brooks, D. R.; and Overstreet, R. M., 1978, Internat. J. Parasitol., v. 8 (4), 267-273
cladistic relationships of genera and host phylogeny, zoogeography of genera
- Liorchis scotiae*
Bobkova, A. F.; et al., 1977, Vet.-Nauka--Proizvod., Trudy, Minsk, v. 15, 86-90
Liorchis scotiae, Paramphistomum ichikawai, preparation and testing of antigen for skin test diagnosis of bovine paramphistomiasis
- Liorchis scotiae* (Willmott, 1950)
Klimenko, V. V.; and Velichko, I. V., 1972, Parazitologiya, Leningrad, v. 6 (3), 291-296
Calicophoron calicophorum, *Liorchis scotiae*, *Gastrothylax crumenifer*, disc electrophoresis on polyacrylamide gel, characteristic differences in protein spectrum, possible use in taxonomy
- Liorchis scotiae*
Orlovskii, V. I.; and Zharikov, I. S., 1974, Vet. Nauka--Proizvod., Trudy, Minsk, v. 12, 120-121
fascioliasis and paramphistomiasis, bovine, distribution in Vitebsk oblast
- Liorchis scotiae*
Zharikov, I. S.; and Orlovskii, V. I., 1973, Vet. Nauka--Proizvod., Trudy, Minsk, v. 11, 116-118
[*Bos taurus*]
Cervus elaphus
all from southern zone of Belorussia
- Lissemysia*
Simpson, D. T.; and McGraw, J. L., jr., 1979, Southwest. Nat., v. 24 (4), 557-561
key

Eduardo, S. L., 1975, *Philippine J. Animal Indust.*, v. 30 (1-4), 1973-1975, 30-38
Syn.: *L. palawanense* Fischthal and Kuntz, 1973

- Macravestibulum* sp.
Esch, G. W.; Gibbons, J. W.; and Bourque, J. E., 1979, *J. Parasitol.*, v. 65 (4), 624-632
enteric helminths in *Chrysemys s. scripta* from various habitats, prevalence, densities, host variables (plastron length, small intestine length, weight), monthly changes: Savannah River Plant, near Aiken, South Carolina
- M[acravestibulum] obtusicaudatum*
Esch, G. W.; Gibbons, J. W.; and Bourque, J. E., 1979, *J. Parasitol.*, v. 65 (4), 633-638
enteric helminths in *Chrysemys s. scripta* from variety of habitats, species diversity and mean number of parasite species per host, relationship of various life history strategies of helminth parasites and predictability (or stability) of local environmental conditions: Savannah River Plant, near Aiken, South Carolina
- Macrodera* sp.
Sten'ko, R. P., 1978, *Zool. Zhurnal*, v. 57 (5), 658-663
Planorbis planorbis: Crimea
- Macrodera longicollis*
Ginetsinskaia, T. A.; et al., 1971, *Parazitologiya*, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Macroderoides* Pearse 1924
Taylor, P. W., 1978, *J. Parasitol.*, v. 64 (3), 393-394
char. emend.
Macroderoididae, Macroderoidinae
- Macroderoides flavus*
Deutsch, W. G., 1977, *Proc. Pennsylvania Acad. Sc.*, v. 51 (2), 122-124
Esox niger (stomach, intestine): Susquehanna River, Pennsylvania
- Macroderoides spiniferus* Pearse, 1924
Davis, J. R.; and Huffman, D. G., 1978, *Texas J. Sc.*, v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (muscle): near San Marcos, Texas
- Macroderoides trilobatus* sp. n., illus.
Taylor, P. W., 1978, *J. Parasitol.*, v. 64 (3), 393-394
Amia calva (mid-intestine): Ochlocknee River, Colquit County, Georgia
- Macrogyrodactylus* Malmberg, 1956
Kritsky, D. C.; and Thatcher, V. E., 1977, *Publicaciones Espec. (4)*, *Inst. Biol., Univ. Nac. Autonom. Mexico*, 53-60
Gyrodactylidae
key
Syn.: *Neogyrodactylus Prudhoe*, 1957
- Macroorchis spinulosus* Ando, 1919
Ito, J.; and Mochizuki, H., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (4), 241-249
Potamon dehaani: Shizuoka Prefecture, Japan
- Magnacetabulum selari* sp. nov., illus.
Parukhin, A. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 97-104
Selar mate
S. crumenophthalmus
Megalaspis cordyla
(stomach [and/or] intestine of all): all from Gulf of Tonkin, Democratic Republic of Vietnam
- Magnacetabulum selari* Paruchin (in press) [nomen nudum]
Parukhin, A. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Carangidae: South China Sea
- Mahrosa Nagaty y Abdel Aal, 1961

- Malabarotrema* gen. n.
Zhukov, E. V., 1972, *Parazitologiya*, Leningrad, v. 6 (4), 346-350
Waretrematidae, Waretrematinae
tod: *M. indica* gen. et sp. n.
- Malabarotrema indica* gen. et sp. n. (tod), illus.
Zhukov, E. V., 1972, *Parazitologiya*, Leningrad, v. 6 (4), 346-350
Etroplus suratensis (intestine): Cochin region, Arabian Sea
- Malagashitrema cameroonense* sp. n., illus.
Fischthal, J. H., 1976, *Rev. Zool. Africaine*, v. 90 (3), 640-648
Chamaeleo cristatus (small intestine, anterior part): Olounou, Cameroon
C. africanus (small intestine, middle part): Sir, Cameroon
- Manteria Caballero*, 1950
Nasir, P.; and Gomez, Y., 1977, *Riv. Parassitolog.*, Roma, v. 38 (1), 53-73
Syn.: *Dihemistephanus Manter*, 1940 nec Looss, 1901
- Manteria costalimai* Freitas & Kohn, 1964, illus.
de Freitas, J. F. T.; and Kohn, A., 1970, *Atas Soc. Biol. Rio de Janeiro*, v. 13 (3-4), 109-110
modification by maceration
Scombroides sp.: Baia da Guanabara
- Manteria (Manteria) costalimae* Freitas and Kohn, 1964, illus.
Nasir, P.; and Gomez, Y., 1977, *Riv. Parassitolog.*, Roma, v. 38 (1), 53-73
measurements
Oligoplites sp. (intestine): Anzoategui State, Venezuela
- Margotrema* gen. nov.
Lamothe-Argumedo, R., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 87-92
Allocreadiidae, Walliniinae
tod: *M. bravoae* sp. nov.
- Margotrema bravoae* gen. nov. sp. nov. (tod), illus.
Lamothe-Argumedo, R., [1972], *An. Inst. Biol., Univ. Nac. Mexico*, v. 41 (1), s. Zool., 1970, 87-92
Lermichthys multiradiatus (intestino (recto)): La Lagunilla, Estado de Mexico

- Maritrema* sp., *illus.*
Sten'ko, R. P., 1979, Biol. Nauki, Min. Vyssh. i Sredn. Spets. Obraz. SSR (181) (1), 28-33
Gammarus balcanicus (body muscles): Crimea
- Maritrema* sp., *illus.*
Styczynska-Jurewicz, E., 1971, Acta Parasitol. Polon., v. 19 (19-28), 257-268
cercariae of 3 marine species vs. a freshwater species, life span and behavior in relation to changes in salinity
Hydrobia ulvae: Atlantic tidal region in Brittany, region of Le Tour du Parc, France
- Maritrema arenaria* Hadley and Castle 1940
Dronen, N. O., jr.; and Badley, J. E., 1979, J. Parasitol., v. 65 (4), 645-649
Numenius americanus (intestine): Galveston, Texas
- Maritrema bravoae* sp. nov., *illus.*
Caballero y C., E.; and Ibanez H., N., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 29-37
Anthus chii peruvianus (intestino delgado): Zona arqueologica de Chan Chan, Departamento de la Libertad, Provincia de Trujillo, Republica del Peru, America del Sur
- Maritrema gratiosum* Nicoll
Ching, H. L., 1978, Canad. J. Zool., v. 56 (8), 1877-1879
Balanus glandula (intestinal wall)
Bucephala islandica (intestine)
all from Vancouver, British Columbia, Canada
- Maritrema megametrios* Deblock and Rausch
Ching, H. L., 1978, Canad. J. Zool., v. 56 (8), 1877-1879
Orchestia traskiana (hemocoel)
Gnorimosphaeroma oregonense (hemocoel)
Larus philadelphia
all from Vancouver, British Columbia, Canada
- Maritrema misenensis* (A. Palombi, 1940)
Bartoli, P.; and Prevot, G., 1978, Ann. Parasitol., v. 53 (2), 181-193
Maritrema misenensis, ecological conditions required for life cycle, different intermediate hosts utilized in lagoon vs. marine habitat, method of infestation of second intermediate host, variation in parasitism of second intermediate host in relation to season and age and sex of host
Cerithium mediterraneum
Orchestia mediterranea
Cerithium rupestre
Orchestia montagui
Charadrius alexandrinus
all from region de Brusac, Provence, France
- Maritrema oocysta* (Lebour, 1907)
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche)
- Maritrema paracadae* Ching
Ching, H. L., 1978, Canad. J. Zool., v. 56 (8), 1877-1879
Bucephala islandica (intestine): Vancouver, British Columbia, Canada
- Maritrema pyrenaica* Deblock et Combes, 1965, *illus.*
Jourdane, J., 1979, Ann. Parasitol., v. 54 (4), 449-456
Maritrema pyrenaica, life cycle, description of developmental stages
Galemys pyrenaica
Neomys fodiens
Bythinella reyniesii (glandes digestive et genitale, cavite branchiale)
Gammarus pulex (cavite generale entre les diverticules intestinaux) (nat. and exper.)
all from Pyrenees
- Maritrema pyrenaica* (Deblock et Combes, 1965), *illus.*
Richard, J.; and Jourdane, J., 1978, Ann. Parasitol., v. 53 (6), 607-615
Microphallus gracilis, *Maritrema pyrenaica*, cercariae, comparison of chetotaxy, Microphallus and *Maritrema* can be separated on this basis
Bythinella reyniesii: Fenouillet, Pyrenees-Orientales
- Maritrema subdolum* Jaegerskiold
Berger, V. Ia.; and Kondratenkov, A. P., 1974, Parazitologiya, Leningrad, v. 8 (6), 563-564
larval trematode-infected Hydrobia ulvae, lowered resistance to desiccation and fresh water
- Maritrema subdolum* Jaegerskiold, 1909
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche; Atlantique)
H. ventrosa: cote de France (Mediterranee)
H. acuta: cote de France (Mediterranee)
- Maritrema subdolum* Jaegerskiold, 1909
Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (ileum, caeca, rectum, cloaca): Baltic Coast, Gdansk Province, Poland
- Maritrema subdolum* (Jaegerskiold, 1908)
Vaes, M., 1979, Ann. Parasitol., v. 54 (3), 303-312
multiple infection of Hydrobia stagnorum with larval trematodes, interactions between parasite species: north of Belgium
- Maritrema syntomocyclus* Deblock et Ky, 1966
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ventrosa
H. acuta
all from cote de France (Mediterranee)
- Maritrema syntomocyclus* Deblock and Tran Van Ky, 1966
Vaes, M., 1979, Ann. Parasitol., v. 54 (3), 303-312
multiple infection of Hydrobia stagnorum with larval trematodes, interactions between parasite species: north of Belgium
- Massoprostatini Dubois, 1951
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
Proterodiplostomatinae
includes: Massoprostatum

- Massoprostatum Caballero, 1947
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
Proterodiplostomatinae, Massoprostatini
includes: Massoprostatum longum Caballero, 1947
- Maycterobonacinus [p. 67, lapsus for Mycterobonacinus n. g.]
Nasir, P.; and Gomez, Y., 1977, Riv. Parasitol., Roma, v. 38 (1), 53-73
- Mazocraeoides georgei (Price, 1936)
Gaevskaia, A. V.; and Umnova, B. A., 1977, Biol. Moria, Vladivostok (4), 40-48
Alosa pseudoharengus (gills): Georges Bank, Northwest Atlantic
- Mazocraeoides georgei Price, 1936
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Alosa pseudoharengus (gill filaments): Raritan Bay, New Jersey
- Mazocraes sp., illus.
Lambert, A., 1978, Ann. Parasitol., v. 53 (6), 551-559
8 species of Monogenea of fish, oncomiracidia, ciliated cells, chetotaxy
Sardinella maderensis (branchies): Tunis
- Mediavagina latridis
Rohde, K., 1978, Biol. Zentralbl., v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Latridopsis ciliaris
- Mediogonimus jourdanei n. sp., illus.
Mas-Coma, S.; and Rocamora, J. M., 1978, Bull. Soc. Neuchatel. Sc. Nat., 3. s., v. 101, 59-64
Clethrionomys glareolus (foie): Son del Pino et Puerto de la Bonaigua (Vall d'Aneu, Prov. Lerida, Espagne)
- Megalodiscus rankini Bravo-Hollis, 1941, illus.
Brooks, D. R.; and Fusco, A. C., 1978, J. Mississippi Acad. Sc., v. 23, 95-99
synonymy
Notophthalmus viridescens: Athens, Georgia
- Megalodiscus temperatus
Ashton, A. D.; and Rabalais, F. C., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 141-142
Rana catesbeiana: northwestern Ohio
- Megalodiscus temperatus
Nollen, P. M.; and Pyne, J. L., 1979, J. Parasitol., v. 65 (1), 35-37
Megalodiscus temperatus adults in Rana pipiens, timing stages of spermatogenesis, inseminative behavior, techniques used include labelling of spermatogonial cells with ³H-adenosine, method for transplanting worms to frogs, and autoradiography
- Megalodiscus temperatus, illus.
Prechel, D. P.; and Nollen, P. M., 1979, J. Parasitol., v. 65 (3), 446-450
Megalodiscus temperatus, effects of miracidial aging and dilution of snail-conditioned water on responses of miracidia
- Megalophalloides gen. n.
Ching, H. L.; and Ibanez Herrera, N., 1976, Canad. J. Zool., v. 54 (9), 1438-1442
Microphallidae, Microphallinae, mt: M. apanhorayi sp. n.
- Megalophalloides apanhorayi gen. et sp. n. (mt), illus.
Ching, H. L.; and Ibanez Herrera, N., 1976, Canad. J. Zool., v. 54 (9), 1438-1442
Pseudothelphusa chilensis (digestive gland): streams of Cajamarca Highlands, Peru mouse (intestines) (exper.)
- Megalophallus miyazakii Yamaguti, 1975, to Levinseniella [comb. not made]
Deblock, S., 1978, Ann. Parasitol., v. 53 (1), 47-52
"est . . . un Levinseniella (Levinseniella) . . ."
- Megalophallus miyazakii Yamag.
Pearson, J. C.; and Deblock, S., 1979, Ann. Parasitol., v. 54 (1), 31-37
as syn. of Levinseniella (Levinseniella) miyazakii (Yamaguti, 1975) Deblock, 1978
- Mehrailla Srivastava 1939
Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
Cryptogonimidae, Cryptogoniminae
- Mehraorchis ranarum Srivastava, 1934
Kameswari, M.; Ramulu, G. R.; and Rao, L. N., 1979, Indian J. Exper. Biol., v. 17 (9), 976-979
helminth-infected Rana tigerina, macromolecular changes in liver
- Mehraorchis ranarum
Karyakarte, P. P.; Chawda, D. B.; and Simant, S. C., 1976, Marathwada Univ. J. Sc. (Nat. Sc.), v. 15 (8), 89-92
Mehraorchis ranarum from Rana cyanophlyctis, carbohydrate metabolism, glycogen content, before and after starvation, lactic acid analysis
- Mehraorchis ranarum (Mehra & Negi), illus.
Karyakarte, P. P.; Simant, S. C.; and Chawda, D. B., 1976, Marathwada Univ. J. Sc. (Nat. Sc.), v. 15 (8), 121-123
Mehraorchis ranarum, neurosecretory cells, location and morphology
- Mehraorchis ranarum Srivastava, 1934
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
- Mehraorchis ranarum, illus.
Rao, L. N., 1976, J. Zool. Soc. India, v. 26 (1-2), 1974, 63-67
Tremiorchis ranarum, Ganeo tigrinum, Mehraorchis ranarum, presence of only one type of epithelial cells in caeca performing both functions of secretion and absorption
- Mehraorchis ranarum, illus.
Singh, S. P.; and Sinha, D. P., 1978, Indian J. Animal Research, v. 12 (1), 49-50
Halipegus mehransis (stomach), Mehraorchis ranarum (liver) in Rana cyanophlyctis, histopathological changes

- Mehraorchis ranarum*
Singh, S. P.; and Sinha, D. P., 1979, Indian J. Animal Research, v. 13 (1), 27-30
trematodes of frogs, histochemical mechanism of egg shell formation
- Mehraorchis ranarum*
Sinha, D. P.; Sircar, M.; and Singh, S. P., 1978, Indian J. Animal Research, v. 12 (2), 97-101
trematodes, cestodes, glycogen distribution, histochemistry; metabolism discussed
- Mehraorchis tigrinarum* Gupta, 1954, illus.
Agrawal, V., 1967, Rev. Biol. Trop., v. 15 (1), 1-11
description
Bufo sp. (intestine): Lucknow
- Meiogymnophallus macroporus* (Jameson et Nicoll, 1913)
Grytner-Ziecina, B.; and Sulgostowska, T., 1978, Acta Parasitol. Polon., v. 25 (11-20), 121-128
trematodes of 3 spp. of Anatinae, distribution in host intestine
Oidemia fusca (duodenum, jejunum, ileum, rectum)
O. nigra (jejunum, ileum)
Somateria mollissima (duodenum, ileum)
all from Baltic Coast
- Meiogymnophallus macroporus* (Jameson et Nicoll, 1913) Ching, 1965
Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (jejunum, ileum, caeca): Baltic Coast, Gdansk Province, Poland
- Meiogymnophallus minutus* (Cobbold, 1859)
Grytner-Ziecina, B.; and Sulgostowska, T., 1978, Acta Parasitol. Polon., v. 25 (11-20), 121-128
trematodes of 3 spp. of Anatinae, distribution in host intestine
Somateria mollissima (duodenum, jejunum, ileum): Baltic Coast
- Mesocoelium**
Bayssade-Dufour, C.; and Bourgat, R., 1975, Bull. Mus. National Hist. Nat., Paris, 3. s. (313), Zool. (220), 853-859
Mesocoelium monodi cercaria and metacercaria, chaetotaxy shows close relationship to *Dicrocoeliidae*
- Mesocoelium elongata* Goto et Ozaki, 1929, illus.
Uchida, A.; and Itagaki, H., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (3), 170-174
Mesocoelium elongata, Glypthelmins rugo-caudata, abnormalities
Triturus pyrrhogaster: Tomioka, Kumamoto Prefecture, Japan
- Mesocoelium geoemydae* Ozaki, 1936, illus.
Uchida, A.; Uchida, K.; and Itagaki, H., 1977, Snake, v. 9 (1), 5-7
Trimeresurus okinavensis (duodenum): Anami-Island, Japan
- Mesocoelium monodi*, illus.
Bayssade-Dufour, C.; and Bourgat, R., 1975, Bull. Mus. National Hist. Nat., Paris, 3. s. (313), Zool. (220), 853-859
Mesocoelium monodi, chaetotaxy of cercaria and metacercaria
Lamellaxis gracilis
Dicroglossus occipitalis
all from environs de Lome, Togo
- Mesocoelium monodi* Dollfus, 1929
Fischthal, J. H., 1976, Rev. Zool. Africaine, v. 90 (3), 640-648
Chamaeleo d. dilepis: Zaire
C. africanus: Cameroon
C. gracilis: Togo
C. senegalensis: Togo
Rhampholeon s. spectrum: Cameroon
Mabuya maculilabris: Togo
M. perrotetii: Togo
Varanus niloticus: Zaire
V. exanthematicus: Togo
(small intestine of all)
- Mesocoelium pesteri* Saoud, 1964
Fischthal, J. H., 1976, Rev. Zool. Africaine, v. 90 (3), 640-648
Chamaeleo cristatus (small intestine): Olounou, Cameroon
- Mesodiplostomum* Dubois, 1936
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
Proterodiplostomatinae, Proterodiplostomatini includes: *Mesodiplostomum gladiolum* Dubois, 1936
- Mesorchis pseudoechinatus* Olsson, 1876, illus.
Krasnolobova, T. A., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 119-121
Mesorchis pseudoechinatus, life cycle
Pungitius pungitius (gills)
Gasterosteus aculeatus (gills)
Alburnus alburnus (gills)
Larus ridibundus (exper.) (intestine)
Sterna hirundo (exper.) (intestine)
all from Latvian SSR
- Mesostephanoides* Dubois, 1951
Dubois, G., 1979, Ann. Parasitol., v. 54 (1), 39-42
Prohemistomidae, Szidatinae
key
- Mesostephanus haliasturis* Tubangui & Masilungan, 1941
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
"incorrect original spelling *haliasturus*"
description, syn.: *Mesostephanus minor* Dubois & Pearson, 1965
Pelecanus conspicillatus: Taillem Bend, South Australia
- Mesostephanus minor* Dubois & Pearson, 1965
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
as syn. of *Mesostephanus haliasturis* Tubangui & Masilungan, 1941
- Mesothatrium* (Skarbilovich)
Khotenovskii, I. A., 1974, Parazitologiya, Leningrad, v. 8 (5), 394-401
key to species
- Mesothatrium japonicum* (Yamaguti, 1939)
Khotenovskii, I. A., 1974, Parazitologiya, Leningrad, v. 8 (5), 394-401
key
Syn.: *Lecithodendrium japonicum* Yamaguti, 1939
- Mesothatrium lageniforme* (Ogata, 1947)
Khotenovskii, I. A., 1974, Parazitologiya, Leningrad, v. 8 (5), 394-401
key
Syn.: *Acanthatrium lageniforme*

- Metacercaria* sp. Okabe, 1942
Ito, J.; and Mochizuki, H., 1975, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 24 (4), 241-249
Potamon dehaani: Shizuoka Prefecture, Japan
- Metacercaria* g. sp.
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR* (36) 64-68 [Pelecus cultratus]
[Abramis brama]
(body cavity of all): all from Kamsk reservoir
- Metacercaria discursata* Sinitz
Dolgikh, A. V., 1966, *Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria*, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Metacercaria mutabilis* Markowski, 1936
Odening, K., 1978, *Ang. Parasitol.*, v. 19 (1), 58-62
as syn. of *Lacunovermis macomae* (Lebour, 1908)
- Metacercaria myocerca* Villot, 1879
Dolgikh, A. V., 1966, *Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria*, 114-133
Angulus exiguus: Novorossiisk bays
- Metacercaria shikokuensis* Ito et al., 1956
Ito, J.; and Mochizuki, H., 1975, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 24 (4), 241-249
Potamon dehaani: Shizuoka Prefecture, Japan
- Metacercariae* (encysted), probably *Diplostomulum desmognathi*
Dunbar, J. R.; and Moore, J. D., 1979, *J. Tennessee Acad. Sc.*, v. 54 (3), 106-109
helminths of plethodontid salamanders, host specificity correlated with host habitat
Desmognathus quadramaculatus
D. fuscus
all from Horse Cove area, Washington County, Tennessee
- Metacercariae*
Frandsen, F., 1974, *Acta Parasitol. Polon.*, v. 22 (1-11), 49-66
Rana esculenta
R. arvalis
R. dalmatina
Triturus cristatus
T. vulgaris
all from Denmark
- Metacetaeabulum karachiense* sp. n., illus.
Bilqees, F. M., 1974, *Acta Parasitol. Polon.*, v. 22 (22-34), 295-303
Chelonia mydas (intestine): Karachi coast, Pakistan
- Metadena* Linton, 1910
Lamothe-Argumedo, R., [1973], *Rev. Soc. Mexicana Hist. Nat.*, v. 31, 1970, 183-191
Cryptogonimidae, Metadeninae
synonymy
- Metadena caballeri* sp. nov., illus.
Nahhas, F. M.; and Krupin, R., 1977, *Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico*, 261-266
Liparis callyodon (intestine): California
- Metadeninae Yamaguti, 1958
Lamothe-Argumedo, R., [1973], *Rev. Soc. Mexicana Hist. Nat.*, v. 31, 1970, 183-191
Cryptogonimidae
includes: *Gonacanthella*; *Metadena*; *Paracryptogonimoides*
- Metagonimiasis
Seo, B. S., 1974, *Taehan Uihak Hyophoe Chi* (J. Korean Med. Ass.), v. 17 (7), 450-455
human trematode infections, incidence, trends: Korea
- Metagonimus* sp.
Saito, S.; et al., 1975, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: Hiroshima Prefecture, Japan
- Metagonimus takahashii* Suzuki, 1930, illus.
Fujino, T.; Ishii, Y.; and Saito, S., 1976, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 25 (3), 175-185
Metagonimus yokogawai, *M. takahashii*, cercariae, morphology, electron microscopy (scanning)
- Metagonimus takahashii*
Hamajima, F.; et al., 1979, *Internat. J. Parasitol.*, v. 9 (3), 241-249
Clonorchis sinensis, *Metagonimus takahashii*, *Paragonimus miyazakii*, in vitro effects of bithionol and menichlopholan on motility, metabolism, and fine structure
- Metagonimus takahashii*
Saito, S.; et al., 1975, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan
- Metagonimus takahashii*, illus.
Tongu, Y.; et al., 1975, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 24 (5), 312-317
Metagonimus takahashii, *M. yokogawai*, fine structure of penetration gland cells
- Metagonimus yokogawai*
Barrett-Connor, E., 1972, *South. Med. J.*, v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Metagonimus yokogawai*
Chu, J. K., 1972, *Taehan Uihak Hyophoe Chi* (J. Korean Med. Ass.), v. 15 (8), 685-690
human parasites, differential diagnosis
- Metagonimus yokogawai*, illus.
Fujino, T.; Ishii, Y.; and Saito, S., 1976, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 25 (3), 175-185
Metagonimus yokogawai, *M. takahashii*, cercariae, morphology, electron microscopy (scanning)
- Metagonimus yokogawai*, illus.
Goldsmith, R. S., 1978, *South. Med. J.*, v. 71 (12), 1513-1515
Metagonimus yokogawai, American woman traveling in the Orient, case report, chronic diarrhea treated unsuccessfully with hexylresorcinol, cure with tetrachloroethylene: California

- Metagonimus yokogawai Katsurada, 1912
Kakacheva-Avramova, D., 1976, Khelmintologia, Sofiia, v. 1, 12-18
Leuciscus cephalus (fin, scales): Bulgarian section of Danube River
- Metagonimus yokogawai (Katsurada, 1912)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young) [Nycticorax nycticorax] (intestine): Black Sea preserve, Kherson oblast
- Metagonimus yokogawai
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: rivers of Hiroshima Prefecture, Japan

Shatrov, A. S., 1974, Parazitologia, Leningrad, v. 8 (3), 196-199
Metagonimus yokogawai, life cycle and development, biology of larval stages: upper Priamur'e
Semisulcospira cancellata (exper.)
Carassius auratus gibelio (exper.) [Felis catus] (exper.)
- Metagonimus yokogawai, illus.
Tongu, Y.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (5), 312-317
Metagonimus takahashii, M. yokogawai, fine structure of penetration gland cells
- Metagonimus yokogawai
Yokogawa, M.; et al., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (1), 35-40
Metagonimus yokogawai, hamsters, anthelmintic efficacy of various fractions of kamala, crude rottlerin most effective
- Metagyrodactylus Yamaguti, 1963
Kritsky, D. C.; and Thatcher, V. E., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 53-60
Gyrodactylidae
key
- Metahaematoloechus exoterorchis (Rees, 1964), illus.
Bourgat, R.; and Kulo, S. D., 1978, Ann. Parasitol., v. 53 (2), 195-200
Metahaematoloechus exoterorchis, life cycle
Dicroglossus occipitalis (poumons) (nat. and exper.): Togo
Segmentorbis kanisaensis (gland digestive): Togo
Bulinus forskalii (exper.)
Gyraulius chudeaui (exper.)
"especies indeterminées d'Odonates Isopteres" (exper.)
Conraua derooi (poumons) (exper.)
- Metahemius levinseni (Odhner) of Brinkman (1975)
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of Hemius levinseni Odhner, 1905
- Metamatorchis nycticoraxis Leonov, 1956
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young) [Nycticorax nycticorax] (liver): Black Sea preserve, Kherson oblast
- Metamicrocotyla inoblita sp. n., illus.
Buehrnheim, U., 1970, Atas Soc. Biol. Rio de Janeiro, v. 13 (3-4), 101-103
Mugil platanus (branquias): Escola de Pesca Caboclo Bernardo, Santa Cruz (Oceano Atlantico), Estado do Espirito Santo, Brasil
- Metamicrocotyla macracantha (Alexander, 1954) Koratha, 1955
Young, P. C., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 163-175
Mugil cephalus: Moreton Bay, Queensland
- Metamicrocotyla mugilis n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
Mugil cephalus (gills): Hawaii
- Metapolystoma brygoonis (Euzet et Combes, 1964) Lambert, A.; and Bourgat, R., 1978, Ann. Parasitol., v. 53 (5), 547-549
Metapolystoma brygoonis, oncomiracidium, ciliated cells, chetotaxy
- Metapolystoma cachani, illus.
Murith, D., 1979, Ztschr. Parasitenk., v. 59 (2), 187-194
Dicroglossus occipitalis (branchies): Cote-d'Ivoire
- Metopisthogyne sphyraenae Yamaguti, 1966, illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
description
Sphyraena helleri (gill): Hawaii
- Metorchis sp.
Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Bucephala clangula (liver): Canada
- Metorchis albidus
Linnik, V. Ia., 1974, Vet. Nauka--Proizvod., Trudy, Minsk, v. 12, 136-138
6 species of trematodes found in fish of Berezina river
- Metorchis albidus
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
[Felis catus] (bile ducts) (exper.)
[Rutilus rutilus]: Neman river basin
[Blicca bjoerkna]: " " "
- Metorchis intermedius Heinemann, 1937, illus.
Bykhovskaia, I. E. (Pavlovskaia); and Kulakova, A. P., 1971, Parazitologia, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Metorchis xanthosomus
Ginetsinskaia, T. A.; et al., 1971, Parazitologia, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Microbilharzia lari (McLeod, 1937) McLeod, 1940
Rohde, K., 1977, Ztschr. Parasitenk., v. 52 (1), 39-51
as syn. of Austrobilharzia terrigalensis Johnston, 1917

- Microbothrium apiculatum*
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Squalus acanthias (skin): Scottish waters
- Microcotyle*
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key to species from Hawaiian fishes
- Microcotyle* sp.
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Cynoscion regalis (gill filaments): Raritan Bay, New Jersey
- Microcotyle acanthogobii* Yamaguti, 1940
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
as syn. of *Prostatomicrocotyla acanthogobii* (Yamaguti, 1940) n. comb.
- Microcotyle bothi* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Bothus mancus (gill): Hawaii
- Microcotyle donavini*, illus.
Shaw, M. K., 1979, Ztschr. Parasitenk., v. 59 (1), 43-51
monogeneans, ultrastructure of clamp sclerites
- Microcotyle emmelichthyops* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Emmelichthyops sp. (gills): Hawaii
- Microcotyle labracis* Van Beneden et Hesse, 1863, illus.
Oliver, G., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 91-98
Microcotyle labracis, host specificity, localization on gills, euryhalinity, eggs
Dicentrarchus labrax (branchies): cotes du Roussillon et de Gascogne
D. punctatus (branchies): Golfe de Gascogne
- Microcotyle mormyri*, illus.
Lambert, A., 1977, Compt. Rend. Acad. Sc., Paris, v. 285, s. D, Sc. Nat., (14), 1243-1246
larval chaetotaxy and ciliated cells in a *Monopisthocotylea* (*Diplectanum aequans*) and a *Polyopisthocotylea* (*Microcotyle mormyri*) compared, results show evidence of two larval types and confirm affinities of *Polystomatidae* with *Polyopisthocotylea* but not proximity of *Polystomatidae* with *Tetraonchidae*
- Microcotyle polymixiae* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
key
Polymixia japonica (gills): Hawaii
- Microcotyle pomatomi* Goto, 1899, illus.
Kohn, A.; and Buehrnheim, U., 1971, Atas Soc. Biol. Rio de Janeiro, v. 14 (5-6), 131-133
description
Pomatomus saltatrix (branquias): Baia de Guanabara
- Microcotyle pomatomi* Goto, 1899
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Pomatomus saltatrix (gill filaments): Raritan Bay, New Jersey
- Microcotyle pomatomi* Goto, 1899
Young, P. C., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 163-175
Pomatomus saltatrix: Rockingham, W. Australia
- Microcotyle poronoti* MacCallum, 1915
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Peprilus triacanthus (gill filaments): Raritan Bay, New Jersey
- Microcotyle spari* Yamaguti, 1937
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
as syn. of *Prostatomicrocotyla spari* (Yamaguti, 1937) n. comb.
- Microcotylidae* gen. sp.
Rohde, K., 1978, Biol. Zentralbl., v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Seriola grandis
Aldrichetta forsteri
- Microphallid*
Walter, J. C., 1979, Internat. J. Parasitol., v. 9 (2), 137-140
Austrotilhariza terrigalensis in *Velacumantus australis* is always associated with germinal sacs of other trematodes and retards the development of these other species
- Microphallidae*, *Cercaria* ?*Microphallide* sp. n° 15
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche; Atlantique)
H. ventrosa: cote de France (Mediterranee)
- Microphallidae*, *Cercaria* ?*Microphallide* sp. n° 16
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Atlantique)
- Microphallidae* gen. sp.
Dolgikh, A. V., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 134-139
trematodes of molluscs, comparison of biocenoses: Crimean coast
- Microphallides*
Deblock, S., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 151-160
"microphallides", life cycles, review
- Microphalloides ovariolobatus* sp. nov., illus.
Ke, X., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 157-162
Charadrius alexandrinus dealbatus
Tringa nebularia
(intestine of all): Zhangiang, Guangdong and Bei-hai, Guangxi, China
- Microphalloides peponis* sp. nov., illus.
Ke, X., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 157-162
Charadrius alexandrinus dealbatus (intestine): Bei-hai, Guangxi, China

- Microphallus* sp. (oblonga Ching, 1960?)
Mahoney, S. P.; and Threlfall, W., 1978,
Canad. J. Zool., v. 56 (3), 436-439
Bucephala clangula (posterior small intestine): Canada
- Microphallus* sp. (?=*M. claviformis* (Brandes 1888)), illus.
Styczynska-Jurewicz, E., 1971, Acta Parasitol.
Polon., v. 19 (19-28), 257-268
cercariae of 3 marine species vs. a freshwater species, life span and behavior in relation to changes in salinity
Hydrobia ulvae: Atlantic tidal region in Brittany, region of Le Tour du Parc, France
- Microphallus abortivus* Deblock, 1974
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Atlantique)
H. ventrosa: cote de France (Mediterranee)
H. acuta: cote de France (Mediterranee)
- Microphallus breviatus* Deblock et Maill., 1975
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ventrosa
H. acuta
all from cote de France (Mediterranee)
- Microphallus claviformis* (Brandes, 1888)
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche; Atlantique)
- Microphallus claviformis* (Brandes, 1888)
Vaes, M., 1979, Ann. Parasitol., v. 54 (3), 303-312
multiple infection of Hydrobia stagnorum with larval trematodes, interactions between parasite species: north of Belgium
- Microphallus crocidurae* sp. nov., illus.
Baer, J. G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 11-17
Crocidura flavescens spurrelli: Adiopodoume, Cote d'Ivoire
- Microphallus gracilis* (Baer, 1943), illus.
Richard, J.; and Jourdane, J., 1978, Ann. Parasitol., v. 53 (6), 607-615
Microphallus gracilis, Maritrema pyrenaica, cercariae, comparison of chetotaxy, *Microphallus* and Maritrema can be separated on this basis
Bythinella reyniesii: Fenouillet, Pyrenees-Orientales
- Microphallus papillorobustus* (Rankin, 1940)
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ventrosa
H. acuta
all from cote de France (Mediterranee)
- Microphallus pimum* sensu Lebour, 1907
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche; Atlantique)
H. ventrosa: cote de France (Mediterranee)
H. acuta: cote de France (Mediterranee)
- Microphallus primas* (Jagerskiold, 1908)
Bain, G. A.; and Threlfall, W., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 219-221
Lophodytes cucullatus (posterior small intestine): Ontario
- Microphallus pygmaeus* (Levinsen)
Ching, H. L., 1978, Canad. J. Zool., v. 56 (8), 1877-1879
Bucephala islandica (intestine): Vancouver, British Columbia, Canada
- Microphallus pygmaeus* (Levinsen, 1881) Baer, 1943
Pascoe, D., 1970, Acta Parasitol. Polon., v. 18 (27-41), 359-368
Microphallus spp.-infected vs. uninfected Littorina saxatilis tenebrosa var. similis, protein fractions in haemocoelic fluid as revealed by electrophoretic examination, possible association with immunity
- Microphallus pygmaeus* (Levinsen, 1881), illus.
Popiel, I.; and James, B. L., 1978, Parasitology, v. 76 (3), 349-358
Microphallus pygmaeus, changes in ultrastructure of daughter sporocyst and contained metacercariae during culture in artificial seawater and modified Medium 199, comparison with variations in oxygen consumption, almost simultaneous onset of body wall degeneration in both media suggests that the nutrient medium is not suitable for maintenance of healthy daughter sporocysts
- Microphallus pygmaeus* (Levinsen, 1881)
Threlfall, W.; and Goudie, R. I., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 229-232
Microphallus pygmaeus and Cercaria parvicaudata in Littorina saxatilis, intensity and extensity of infection by sex and size of host, and month; host reproductive capacity; experimental infection in mice
Littorina saxatilis: Gull Island, Witless Bay and Newman's Sound, Newfoundland mice (exper.)
- Microphallus pygmaeus*
Williams, I. C.; and Ellis, C., 1976, Glasgow Naturalist, v. 19 (4), 307-315
Littorina littoralis
Littorina saxatilis
all from Mainland, Shetland
- Microphallus quechuasensis* sp. nov., illus.
Caballero y C., E.; and Ibanez H., N., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 29-37
Charadrius vociferus peruvianus (intestino delgado): Las Delicias, Trujillo, Peru, America del Sur
- Microphallus scolectroma* Deblock et Ky, 1966
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche)
- Microphallus similis*, illus.
Davies, C., 1979, Internat. J. Parasitol., v. 9 (6), 553-564
Microphallus similis metacercariae and adults, forebody glands and surface features, scanning and transmission electron microscopy, cytochemistry, ultracytochemistry

- Microphallus similis*, *illus.*
Davies, C.; and Smyth, J. D., 1979, *Internat. J. Parasitol.*, v. 9 (3), 261-267
Microphallus similis, development in the mouse and under a range of in vitro cultivation systems
- Microphallus similis* (Jagerskiold, 1900) Baer, 1943
Pascoe, D., 1970, *Acta Parasitol. Polon.*, v. 18 (27-41), 359-368
Microphallus spp.-infected vs. uninfected *Littorina saxatilis tenebrosa* var. *similis*, protein fractions in haemocoelic fluid as revealed by electrophoretic examination, possible association with immunity
- Microphallus similis* (Jaeg., 1900)
Popiel, I.; and James, B. L., 1978, *Parasitology*, v. 76 (3), 359-367
Microphallus similis, daughter sporocyst, ultrastructure of tegument
- Microphallus similis*
Williams, I. C.; and Ellis, C., 1976, *Glasgow Naturalist*, v. 19 (4), 307-315
Littorina littorea
Littorina littoralis
Littorina saxatilis
all from Mainland, Shetland
- Microphallus somateriae* (Kulatschkova)
Berger, V. Ia.; and Kondratenkov, A. P., 1974, *Parazitologija*, Leningrad, v. 8 (6), 563-564
larval trematode-infected *Hydrobia ulvae*, lowered resistance to desiccation and fresh water
- Microphallus somateriae* (Kulatchkova, 1958)
Vaes, M., 1979, *Ann. Parasitol.*, v. 54 (3), 303-312
multiple infection of *Hydrobia stagnorum* with larval trematodes, interactions between parasite species: north of Belgium
- Microphallus tauricus* sp. n., *illus.*
Sten'ko, R. P., 1973, *Parazitologija*, Leningrad, v. 7 (6), 513-517
Anas platyrhynchos dom. (small intestine) (exper.)
Gammarus balcanicus (cephalothoracic muscles, abdomen): Burul'chi river, Krymsk oblast, USSR
- Microphallus tauricus* Stenko, 1973
Sten'ko, R. P., 1979, *Biol. Nauki, Min. Vyssh. i Sredn. Spets. Obraz. SSR* (181) (1), 28-33
Gammarus balcanicus (cephalothorax muscles, rarely abdomen): Crimea
- Microscaphidiidae* Travassos, 1922
Sey, O., 1977, *Acta Zool. Acad. Scient. Hungar.*, v. 23 (3-4), 387-394
Microscaphidiidae, phylogenetic relationships discussed
"it is best to treat *microscaphids* as distinct from amphistomes, as a separate group until information on their life-history patterns is available."
- Microscaphidiidae* Travassos, 1922
Toman, G., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 335-341
as syn. of *Angiodictyidae* Looss, 1902
- Microscaphidiinae* Looss, 1900
Groschaft, J., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 169-176
Microscaphidiidae
Syn.: *Angiodictyinae* Yamaguti, 1958
key to genera; emended diagnosis
- Microscaphidium* Looss, 1900
Groschaft, J., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 169-176
Microscaphidiinae, key
- Microscaphidium aberrans* Looss, 1902
Sey, O., 1977, *Acta Zool. Acad. Scient. Hungar.*, v. 23 (3-4), 387-394
Chelone mydas: Egyptian coast
- Microscaphidium caballeroi* sp. nov., *illus.*
Groschaft, J., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 169-176
Chelonia mydas (intestine): Gulf of Guana-hacabibes, Cuba
- Microscaphidium caballeroi* Groschaft, 1977, *illus.*
Groschaft, J.; Coy Otero, A.; and Tenora, F., 1977, *Acta Univ. Agric., Fac. Agronom., Brno*, v. 25 (4), 155-167
Chelonia m. mydas (intestine): Gulf of Guanahacabibes, Cuba
- Microscaphidium reticulare* (Beneden, 1899)
Sey, O., 1977, *Acta Zool. Acad. Scient. Hungar.*, v. 23 (3-4), 387-394
Chelone mydas: Egyptian coast
- Moliniella anceps* (Molin, 1859), *illus.*
Zdarska, Z., 1971, *Folia Parasitol.*, v. 18 (1), 15-25
Moliniella anceps, larval stages, histology and histochemistry of cystogenic gland cells and cyst wall, participation of gland cells of cercaria in origin of layers of cyst wall of metacercaria
Limnaea palustris (hepatopancreas, kidney) (nat. and exper.)
- Monascus elongatus* n. sp., *illus.*
Karyakarte, P. P.; and Yadav, B. B., 1976, *Marathwada Univ. J. Sc. (Nat. Sc.)*, v. 15 (8), 169-175
Stromateus niger (stomach): Ratnagiri, West Coast, India
- Monascus* (= *Haplocladus*) *filiformis* (Rudolphi, 1819) Looss, 1907, *illus.*
Køie, M., 1979, *Ophelia*, v. 18 (1), 113-132
synonymy, "likely that *M. netoi* is a synonym of *M. filiformis*"
Monascus filiformis, life cycle, cercariae redescribed, morphology of developmental stages, scanning electron microscopy
Nucula nitidosa: off Frederikshavn, western Kattegat
Trachurus trachurus: western Kattegat
Crystallogobius linearis (nat. and exper.): Danish waters
Limanda limanda (nat. and exper.): off Frederikshavn, western Kattegat
Glyptocephalus cynoglossus: western Kattegat
Arnoglossus laterna: Danish waters
Buglossidium luteum: Danish waters
Pomatoschistus minutus (nat. and exper.): Danish waters
Pleuronectes platessa (exper.)
Platichthys flesus (exper.)

- Monascus filiformis* (Rudolphi, 1819) Looss, 1907, illus.
 Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
 description and measurements
Trachurus lathami (abdominal cavity): Sucre State, Venezuela
- Monascus minor* (Odhner, 1911)
 Kjøie, M., 1979, Ophelia, v. 18 (1), 113-132
 as syn. of *M. filiformis* (Rudolphi, 1819)
 Looss, 1907
- Monascus netoi*
 Kjøie, M., 1979, Ophelia, v. 18 (1), 113-132
 "likely that *M. netoi* is a synonym of *M. filiformis*"
- Monascus typicus* Odhner, 1911, illus.
 Karyakarte, P. P.; and Yadav, B. B., 1976, Marathwada Univ. J. Sc. (Nat. Sc.), v. 15 (8), 169-175

Pseudosciaena diacanthus (gill filaments): Puri, Orissa
- Monaxine pseudosciaenae* [lapsus p. 4 for *M. pseudosciaenae* sp. nov.]
 Thapar, G. S.; Krishna; and Gupta, S. P., [1979], An. Inst. Biol., Univ. Nac. Mexico, v. 48 (1), s. Zool., 1977, 1-11
- Monaxininae Unnithan, 1957
 Gupta, N. K.; and Chanana, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 277-296
 Axinidae, key
- Monaxininae gen. sp.
 Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
 monogeneans in *Exocoetus*, patterns of extensivity and intensivity of invasion, both increase with host age
Exocoetus volitans: Pacific Ocean
- Monilifer sp.
 Frank, C., 1976, Acta Vet. Brno, v. 45 (4), 263-270
Gavia immer (small intestine): south-eastern "Seewinkel", Burgenland
- Monilifer spinulosus* (Rudolphi, 1809)
 Odening, K., 1978, Ang. Parasitol., v. 19 (1), 58-62
 Syn.: *Echinostomum spinosum* Odhner, 1910
- Monogenea
 Benazzi, M.; and Benazzi Lentati, G., 1976, Animal Cytogenet., v. 1, 182 pp.
 plathyhelminthes, gametogenesis, chromosome pattern, cycles, and evolution, reproductive mechanisms, cytotaxonomy
- Monogenea
 Gusev, A. V.; and Kulemina, I. V., 1971, Parazitologiya, Leningrad, v. 5 (4), 320-329
 monogeneans of fish (primarily *Dactylogyrus*), variation in size of body and attachment organs, of localization on host, and of developmental cycle with respect to host age and size, taxonomic implications
- Monogenea
 Lebedev, B. I., 1979, Zhurnal Obshch. Biol., v. 40 (2), 271-281
 Monogenea, congeneric concurrent parasitism of fish gills, spatial distribution related to coevolution of competitive species, simultaneous hermaphroditism aids reproduction in restricted environment, review
- Monogenea
 Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
 Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Monogenea
 Price, C. E.; and Henderson, A., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (2), s. Zool., 1969, 195-203
 Monogenea of Mexican freshwater fishes, introduction to series of studies, recommendations for system of anatomical terms useful for morphological descriptions of Monogenea, host specificity

Monogenea

- Rohde, K., 1977, Zool. Anz., Jena, v. 199 (3-4), 164-172
distribution of monogenean and copepod ectoparasites on gills of tropical marine fish and fish from cold-temperate seas, evidence that restricted microhabitat leads to intraspecific contact and, thus, facilitates mating
- Monogenea
Rohde, K., 1978, Marine Biol., v. 47 (2), 125-134
marine Monogenea and Digenea, latitudinal differences in host specificity, digenetic host specificity increases from cold to warm seas but no such gradient exists in Monogenea, differences explained in terms of reproductive strategies
- Monogenoidea [sp.]
Gichenok, L. A., 1979, Zool. Zhurnal, v. 58 (7), 958-968
monogeneans in Exocoetus, patterns of extensivity and intensivity of invasion, both increase with host age
Exocoetus volitans
E. monocirrhous
- Monomacracanthus g. n.
Mamaev, Iu. L., 1976, Biol. Moria, Vladivostok (3), 30-33
Microcotylidae
tod: M. cadodai sp. n.
- Monomacracanthus cadodai sp. n. (tod), illus.
Mamaev, Iu. L., 1976, Biol. Moria, Vladivostok (3), 30-33
Pseudosciaena crocea
Sciaena dussumieri
all from North-Vietnam bay
- Monopisthocotylea
Lambert, A., 1977, Compt. Rend. Acad. Sc., Paris, v. 285, s. D, Sc. Nat., (14), 1243-1246
larval chaetotaxy and ciliated cells in a Monopisthocotylea (Diplectanum aequans) and a Polyopisthocotylea (Microcotyle mormyri) compared, results show evidence of two larval types and confirm affinities of Polystomatidae with Polyopisthocotylea but not proximity of Polystomatidae with Tetraonchidae
- Monorchis japonicus sp. n., illus.
Zhukov, E. V., 1970, Parazitologiya, Leningrad, v. 4 (4), 321-326
Hyporhamphus sajori (intestine): Zarubino and Posyet settlements, Posyet Bay, Sea of Japan
- Monorchis minutus sp. nov., illus.
Madhavi, R., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 233-246
Pomadasy maculatus (intestine): Waltair coast, Bay of Bengal
- Monostoma elaphi Zeder, 1800
Odening, K.; Bockhardt, I.; and Graefner, G., 1979, Zool. Jahrb., Jena, Abt. Syst., v. 106 (2), 214-241
as syn. of Paramphistomum cervi (Zeder, 1790)
- Monostomum lanceolatum Wedl, 1858
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
as syn. of Haematotrephus lanceolatum (Wedl, 1858) Stossich, 1902

Monostome

- Allison, F. R., 1979, N. Zealand J. Zool., v. 6 (1), 13-20
Cominella glandiformis: Heathcote-Avon estuary, Christchurch, New Zealand
- Monostomum. See Monostoma.
- Montchadskyella gen. n.
Bykhovskii, B. E.; Korotaeva, V. D.; and Nagibina, L. F., 1970, Parazitologiya, Leningrad, v. 4 (5), 451-457
Montchadskyellidae fam. n.
tod: M. intestinale gen. et sp. n.
- Montchadskyella intestinale gen. et sp. n. (tod), illus.
Bykhovskii, B. E.; Korotaeva, V. D.; and Nagibina, L. F., 1970, Parazitologiya, Leningrad, v. 4 (5), 451-457
Paristiopterus gallipavo
Zanclistius elevatus
(forepart of intestine [and/or] stomach of all): all from Indian Ocean in region of Great Australian Bight
- Montchadskyellidae fam. n.
Bykhovskii, B. E.; Korotaeva, V. D.; and Nagibina, L. F., 1970, Parazitologiya, Leningrad, v. 4 (5), 451-457
Dactylogyridea, Monopisthocotylinea
type genus: Montchadskyella gen. n.
- Multicalyx cristata (Faust & Tang, 1936)
Travassos, L.; et al., 1963, Atas Soc. Biol. Rio de Janeiro, v. 7 (4), 6-7
Rhinobates porcellens: Cabo Frio, Estado do Rio de Janeiro
- Multigonotylinae Premvati, 1967
Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
Cryptogonimidae
includes: Multigonotylus
- Multigonotylus Premvati, 1967
Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
Cryptogonimidae, Multigonotylinae
- Multitestis Manter, 1931
Kurochkin, Iu. V.; and Korotaeva, V. D., 1972, Parazitologiya, Leningrad, v. 6 (1), 75-78
key to species, includes: M. pyriformis Manter, 1963; M. magnacetabulum Mamaev, 1970; M. rotundus Sparks, 1954; M. inconstans (Linton, 1905) Manter, 1931; M. nasusi Bravo-Hollis et Brenes, 1959; M. nemadactyli sp. n.; M. chaetodoni Manter, 1947; M. blennii Manter, 1931

description
Syn.: Caballerocotyla klawei Stunkard, 1962
Neothunnus macropterus
Parathunnus sibi
(nasal cavity of all): all from Hawaii
- Nasitrema sp.
Dailey, M. D.; and Walker, W. A., 1978, J. Parasitol., v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Delphinus delphis (muscle abscess, air sinus, brain tissue)
Lagenorhynchus obliquidens (air sinus, brain)
Lissodelphis borealis (air sinus, brain)
Phocoenoides dalli (air sinus, brain tissue)
Stenella coeruleoalba (air sinus, brain tissue)
all from southern California
- Nasitrema dalli Yamaguti, 1950
Dailey, M. D.; and Walker, W. A., 1978, J. Parasitol., v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Phocoenoides dalli (air sinus): southern California
- Nasitrema delphini Neiland, Rice and Holden, 1970
Dailey, M. D.; and Walker, W. A., 1978, J. Parasitol., v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Delphinus delphis (air sinus): southern California
- Nasitrema globicephalae
Dailey, M. D.; and Walker, W. A., 1978, J. Parasitol., v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Delphinus delphis (air sinus)
Lagenorhynchus obliquidens (air sinus)
Lissodelphis borealis (air sinus)
Globicephala macrorhynchus (umbilical artery)
all from southern California
- Nasitrema stenosoma Neiland, Rice and Holden, 1970
Dailey, M. D.; and Walker, W. A., 1978, J. Parasitol., v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Delphinus delphis (air sinus): southern California
- Nasoancyrocephalus n. g.
Machida, M., 1979, Bull. National Sc. Mus., Tokyo, s. A, Zool., v. 5 (2), 83-87
Dactylogyridae, Ancyrocephalinae
tod: N. diorchis n. sp.

N. brevirostris
N. annulatus
(gills of all): all from Hawaii
- Neascus sp. metacercariae
Amin, O. M., 1977, Tr. Wisconsin Acad. Sc., Arts and Lett., v. 65, 225-230
fish parasites, differential distribution in two streams
[host not known]: southeastern Wisconsin
- Neascus sp.
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, J. Fish. Research Bd. Canada, v. 33 (11), 2489-2499
Cottus cognatus (peritoneum, musculature): Aishihik Lake and Stevens Lake, Yukon Territory
- Neascus [sp.] I, illus.
Hendrickson, G. L., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 64-68
Semotilus atromaculatus (retina, choroid, sclera)
Hybognathus hankinsoni (retina, sclera)
Pimephales promelas (choroid, sclera)
all from Big Laramie River, southeastern Wyoming
- Neascus [sp.] II
Hendrickson, G. L., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 64-68
Hybognathus hankinsoni (retina, sclera, choroid)
Pimephales promelas (sclera)
Semotilus atromaculatus (choroid)
all from Big Laramie River, southeastern Wyoming

- Neascus spp. Hughes, 1929
Tedla, S.; and Fernando, C. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 833-843
Perca flavescens (muscle): Bay of Quinte, Lake Ontario
- Neascus brevicaudatus
Chernyshenko, A. S., 1966, Respublik. Mezhdv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)
- Neascus neofunduli n. sp., illus.
Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
[this species described under the heading "Genus Posthodiplostomum Dubois, 1936", comb. not made]
Neofundulus paraguayensis (encysted in mesenteries, visceral cavity): Formosa Province, Argentina
- Neascus ptychocheilus (Faust, 1917), illus.
Hendrickson, G. L., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 64-68
Semotilus atromaculatus (retina, choroid, sclera, mesenteries of body cavity)
Hybognathus hankinsoni (choroid)
Pimephales promelas (cranial cavity)
chicks (exper.)
mouse (exper.)
all from Big Laramie River, southeastern Wyoming
- Neelydiplostomum R. Gupta, 1958
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
Polycotylineae
- Neelydiplostomum gavialis (Narain, 1930) Gupta, 1958
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
Syn.: Pseudocrocodicicola bychowskyi Srivastava et Chauhan, 1969
- Neidhartia Nagaty, 1937
Kohn, A., 1971, Atas Soc. Biol. Rio de Janeiro, v. 14 (3-4), 65-66
Proisorhynchidae, Proisorhynchinae
- Nematobothrioides australiensis sp. n., illus.
Nikolaeva, V. M.; and Korotaeva, V. D., 1970, Parazitologiya, Leningrad, v. 4 (4), 330-333
Nematobothrioides australiensis sp. n., parasite development associated with host spawning
Scomber australasicus (gonads): Indian Ocean, Great Australian Bight
- Nematobothrium sp. larvae
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, Respublik. Mezhdv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 67-79
Trachurus mediterraneus ponticus: Mediterranean basin
- Nenimandijea sinense sp. nov., illus.
Li, M.; and Gu, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 163-169
Rana nigromaculata: Peking, China
Bufo bufo gargarizans: Peking, China
Rana amurensis: Heilongjiang Province, China
- Neocanthoparyphium echinatoides Odening, 1962 (= Cercaria echinatoides Filippi, 1854)
Stadnichenko, A. P., 1970, Parazitologiya, Leningrad, v. 4 (5), 484-488
Viviparus contectus males infected with Neocanthoparyphium echinatoides metacercariae and females infected with Cercaria adiposa, changes in blood proteins, agar gel electrophoresis
- Neocanthoparyphium echinatoides Odening, illus.
Stadnichenko, A. P., 1972, Parazitologiya, Leningrad, v. 6 (2), 154-160
10 trematode spp. in Viviparus viviparus, pathogenic effect studied by histological and histochemical methods, host sex differences with respect to parasite occurrence, intensity, and localization: Ukraine [and/or] lower Volga
- Neoxininae Yamaguti, 1963
Gupta, N. K.; and Chanana, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 277-296
Axinidae, key
- Neobenedenia longiprostata sp. n., illus.
Bravo-Hollis, M., 1971, Rev. Biol. Trop., v. 18 (1-2), 1970, 155-171
Serranidae, undetermined sp. (?Epinephalus analogus) (branquias): Isla Rasa, Golfo de California, Mexico
- Neobenedenia pacifica sp. n., illus.
Bravo-Hollis, M., 1971, Rev. Biol. Trop., v. 18 (1-2), 1970, 155-171
Mugil cephalus (branquias): La Paz, Baja California, Mexico
- Neobucephalopsis Dayal, 1948
Kohn, A., 1971, Atas Soc. Biol. Rio de Janeiro, v. 14 (3-4), 65-66
as syn. of Bucephalopsis Diesing, 1855
- Neobucephalopsis Dayal, 1948
Singh, S. P.; and Sinha, D. P., [1977], An. Inst. Biol., Univ. Nac. Mexico, v. 46 (1), s. Zool., 1975, 35-38
key to species, includes: Neobucephalopsis gauhatiensis Gupta, 1953; N. eutropiichthis Gupta, 1953; N. pseudotropei Gupta, 1953; N. bagarius Dayal, 1948; N. patnensis n. sp.
- Neobucephalopsis clupisomius sp. nov., illus.
Bashirullah, A. K. M.; and Hafizuddin, A. K. M., 1976, Riv. Parassitol., Roma, v. 37 (1), 35-39
Clupisoma murius (intestine): Dacca, Bangladesh
- Neobucephalopsis patnensis n. sp., illus.
Singh, S. P.; and Sinha, D. P., [1977], An. Inst. Biol., Univ. Nac. Mexico, v. 46 (1), s. Zool., 1975, 35-38
key
Clupiosoma garua (small intestine): Patna, India
- Neocaballerotrema gen. nov.
Simha, S. S., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 307-310
mt: N. caballeri sp. nov.

Lymnaea peregra: Mainland, Shetland
- Notocotylus triserialis*
Sten'ko, R. P., 1978, *Vestnik Zool.*, Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Notocotylus triserialis*
Sten'ko, R. P., 1978, *Zool. Zhurnal*, v. 57 (5), 658-663
Radix auricularia: Crimea
- Notocotylus triserialis dafilae* Harwood, 1939
Filimonova, L. V., 1973, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 23, 179-186
Anas platyrhynchos
A. penelope
A. acuta
A. clypeata
all from Iakutiia
- Notocotylus triserialis triserialis* Diesing, 1839
Filimonova, L. V., 1973, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 23, 179-186
Cygnus cygnus
Anser albifrons
A. fabalis
Anas platyrhynchos
A. falcata
A. penelope
A. acuta
A. crecca
A. querquedula
A. formosa
A. clypeata
Anas sp.
Clangula hyemalis
Bucephala clangula
Aythya fuligula
A. marila
Melanitta fusca
Mergus albellus
all from Iakutiia
- Notocotylus urbanensis* (Cort)
Foster, L. A.; and Hall, J. E., 1978, *J. Parasitol.*, v. 64 (2), 376-377
location of gelatinase in several different types of trematode cercariae
Physa gyrina: Tygart River, West Virginia
- Notocotylus urbanensis*
MacKinnon, B. M.; and Burt, M. D. B., 1978, *Canad. J. Zool.*, v. 56 (2), 350-354
platyhelminth parasites of *Ondatra zibethica*, incidence and intensity, influence of host habitat: New Brunswick
- Notocotylus urbanensis*
Sankurathri, C. S.; and Holmes, J. C., 1976, *Canad. J. Zool.*, v. 54 (10), 1742-1753
parasites and commensals (*Oligochaeta* and larval *Digenea*) of *Physa gyrina* in control area vs. area affected by thermal effluents, prevalence, seasonal changes, interactions (including ingestion of cercariae by oligochete), ecological model: Lake Wabamun, Alberta
- Nudacotyle novicia*
MacKinnon, B. M.; and Burt, M. D. B., 1978, *Canad. J. Zool.*, v. 56 (2), 350-354
platyhelminth parasites of *Ondatra zibethica*, incidence and intensity, influence of host habitat: New Brunswick

- Ochetosoma aniarum* (Leidy, 1891)
Dronen, N. O.; and Guidry, E. V., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 223-225
Ochetosoma ellipticum, *O. aniarum*, measurements and ratios in live and fixed specimens, ratios for each morphological feature remained constant, may be useful as comparative tool in fluke taxonomy
- Ochetosoma aniarum* (Leidy, 1891), illus.
Powell, E. C., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 136-141
Ochetosoma aniarum, metacercariae, early ultrastructural development of excretory bladder
- Ochetosoma aniarum* (Leidy 1891), illus.
Powell, E. C., 1979, J. Parasitol., v. 65 (2), 328-331
Ochetosoma aniarum adults, excretory bladder epithelium, fine structure
- Ochetosoma ellipticum* (Pratt, 1903)
Dronen, N. O.; and Guidry, E. V., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 223-225
Ochetosoma ellipticum, *O. aniarum*, measurements and ratios in live and fixed specimens, ratios for each morphological feature remained constant, may be useful as comparative tool in fluke taxonomy
- Ochetosomatidae* sp.
Holt, P. E.; Brown, A.; and Brown, B., 1978, Vet. Rec., v. 102 (18), 404-405
Strongyloides [sp.] in *Lampropeltis getulus holbrooki*, clinical symptoms, unsuccessful treatment with thiabendazole, mixed infection with flagellates and *Ochetosomatidae* sp., case report
Lampropeltis getulus holbrooki (oropharynx)
- Octangium sagitta* (Looss, 1899)
Sey, O., 1977, Acta Zool. Acad. Scient. Hungar., v. 23 (3-4), 387-394
Chelone mydas: Egyptian coast
- Octolabea Euzet et Trilles*, 1960
Mamaev, Iu. L.; and Parukhin, A. M., 1972, Parazitologiia, Leningrad, v. 6 (3), 259-268
Plectanocotylidae, Octolabeinae
- Octolabeinae* (Yamaguti, 1963) grad. nov.
Mamaev, Iu. L.; and Parukhin, A. M., 1972, Parazitologiia, Leningrad, v. 6 (3), 259-268
Plectanocotylidae
includes: *Octolabea Euzet et Trilles*, 1960
- Octomacrum* Mueller
Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Octomacrum lanceatum*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Catostomus commersoni (gills): Susquehanna River, Pennsylvania
- Octomacrum spinum* Dansby & Shoemaker, 1973
Joy, J. E.; Tarter, D. C.; and Franklin, H., 1978, Tr. Am. Micr. Soc., v. 97 (1), 100-104
Octomacrum spinum and *Unicauda* sp. in *Campostoma anomalum* (gills), prevalence and parasite load, sex of parasite, seasonal occurrence: Fourpole Creek, Cabell Co., West Virginia
- Octoplectanocotyla Yamaguti*, 1937
Mamaev, Iu. L.; and Parukhin, A. M., 1972, Parazitologiia, Leningrad, v. 6 (1), 65-74
Plectanocotylinae
- Octoplectanocotyla Yamaguti*, 1937
Mamaev, Iu. L.; and Parukhin, A. M., 1972, Parazitologiia, Leningrad, v. 6 (3), 259-268
Plectanocotylidae, Plectanocotylinae
- Octoplectanocotylinae* Price, 1961
Mamaev, Iu. L.; and Parukhin, A. M., 1972, Parazitologiia, Leningrad, v. 6 (1), 65-74
subfamily rejected
- Octostoma scombri* Kuhn, 1829
Gaevskaia, A. V.; and Umnova, B. A., 1977, Biol. Moria, Vladivostok (4), 40-48
Scomber scombrus (gills): Georges Bank, Northwest Atlantic
- Odeningotrema apidion* Dunn, 1964
Betterton, C., 1979, Internat. J. Parasitol., v. 9 (4), 313-320
intestinal helminths of small mammals, patterns of parasitism with respect to host ecology
Tupaia glis: Peninsular Malaysia
- Odhneria odhneri* Travassos, 1921, illus.
Stunkard, H. W., 1979, Biol. Bull., v. 156 (2), 234-245
Odhneria odhneri, morphology, life history, taxonomic relations
Larus argentatus (exper.)(intestine)
Littorina saxatilis (liver)
Palaemonetes vulgaris (abdominal muscle) (nat. and exper.)
all from Quissett harbor near Woods Hole, Massachusetts
- Odhneriotrema incommodum* (Leidy 1856), illus.
Leigh, W. H., 1978, J. Parasitol., v. 64 (5), 831-834
Odhneriotrema incommodum, life history observations: metacercarial stage in *Lepisosteus platyrhincus* shows marked affinity for female hosts; molluscan host unknown; migration after excystment in Alligator mississippiensis, host reaction (caused by secretions from parasite glands) forces relocation every few days, nature of host-parasite junction
Lepisosteus platyrhincus (ovaries, testes, mesenteries): south Florida
Alligator mississippiensis (pharyngeal and buccal cavities) (exper.)
- Oligapta Unnithan*, 1957
Crane, J. W.; Kritsky, D. C.; and Kayton, R. J., 1979, Proc. Biol. Soc. Wash., v. 92 (4), 719-723
emended diagnosis
- Oligapta kruidenieri* new species, illus.
Crane, J. W.; Kritsky, D. C.; and Kayton, R. J., 1979, Proc. Biol. Soc. Wash., v. 92 (4), 719-723
Thyrinops pachylepis (gills): estuary, north shore of Peninsula de San Juan del Gozo, El Salvador
- Oligonchoinea* Bychowsky 1937
Lebedev, B. I., 1979, Zool. Anz., Jena, v. 202 (1-2), 99-104
number of families, genera, and species of monogeneans of subclass Oligonchoinea presently registered from marine fishes

- Oligoncobenedenia nasonis* Yamaguti, 1965, *illus.*
Yamaguti, S., 1968, *Monogenetic trematodes of Hawaiian fishes*, 287 pp., *illus.*
description
Naso hexacanthus (gills): Hawaii
- Ommatobrephus lobatum madagascariense* n. subsp., *illus.*
Richard, J., 1966, *Bull. Mus. National Hist. Nat.*, 2. s., v. 38 (5), 690-699
[lapsus pp. 694, 697 as *O. lobatum madagascariensis* n. subsp.]
Madagascarophis colubrina (rectum): Nord-Ouest de Madagascar (Ampijoroa)
- Ommatobrephus lobatum madagascariensis* n. subsp. [pp. 694, 697, lapsus for *O. lobatum madagascariense* n. subsp.]
Richard, J., 1966, *Bull. Mus. National Hist. Nat.*, 2. s., v. 38 (5), 690-699
- Ommatobrephus pulmonicola* n. sp., *illus.*
Richard, J., 1966, *Bull. Mus. National Hist. Nat.*, 2. s., v. 38 (5), 690-699
Madagascarophis colubrina (poumon): Nord-Ouest de Madagascar (Ampijoroa)
- Omphalometra flexuosa* var. *peyrei* var. nov., *illus.*
Timon-David, J., 1960, *Bull. Soc. Hist. Nat. Toulouse*, v. 95 (1-2), 11-17
Galemys pyrenaicus (intestin): bassin du Salat
- Onchocleidus principalis* (Mizelle, 1936)
Lambert, A., 1978, *Ann. Parasitol.*, v. 53 (6), 551-559
8 species of Monogenea of fish, oncomiracidia, ciliated cells, chetotaxy
- Opechona bacillaris* (Molin, 1859) Looss, 1907, *illus.*
Køie, M., 1975, *Ophelia*, v. 13 (1-2), 1974-1975, 63-86
Opechona bacillaris, morphology, life history
Nassarius pygmaeus: northern Øresund
Pleurobrachia pileus (nat. and exper.) (near stomach, mesogloea): northern Øresund; western Kattegat
Sagitta sp. (nat. and exper.) (body coelom): western Kattegat
Sagitta elegans (exper.)
Eutonina indicans (nat. and exper.): northern Øresund
Tima bairdii: northern Øresund
Agianta digitale: northern Øresund

Melicertum octocostatum: western Kattegat
Cyclopterus lumpus (intestine): northern Øresund
Scomber scombrus (intestine): northern Øresund
Podocoryne carnea (exper.)
- Opechona bacillaris* Molin, 1859
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 67-79
Trachurus mediterraneus ponticus: Mediterranean basin
- Opechona bacillaris* (Molin, 1859) Looss, 1907, *illus.*
Reimer, L. W.; et al., 1971, *Parazitologija*, Leningrad, v. 5 (6), 542-550
Phialidium hemisphaericum
Aglantha digitalis
Leuckartiara octona
Tomopteris helgolandica
Sagitta elegans
Obelia sp.
Dimophyes arctica
Tomopteris
Aglantha
Dimophyes
all from North Sea
- Opechona buckleyi* n. sp., *illus.*
Gupta, V.; and Ahmad, J., [1978], *Riv. Parasitol.*, Roma, v. 38 (2-3), 1977, 181-191
Stromateus cinereus (intestine): Bay of Bengal, at Puri, Orissa, India
- Opechona retractilis* Lebour
Shotter, R. A., 1976, *J. Fish Biol.*, v. 8 (2), 101-117
Merlangius merlangus (stomach, caeca, intestine): Manx waters near Isle of Man and/or Morecambe Bay, N.W. coast of England
- Opecoelidae gen. sp., *illus.*
Dolgikh, A. V., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
Spisula subtruncata (liver, foot): Novorossiisk bays
- Opecoelidae [sp.], *illus.*
Reimer, L. W.; et al., 1971, *Parazitologija*, Leningrad, v. 5 (6), 542-550
Thysanopoda: North Sea
- Opecoeloides* Odhner 1928
Stunkard, H. W., 1978, *J. Parasitol.*, v. 64 (1), 177-178
Opecoeloides, discussion of taxonomy and nomenclature of genus
- Opecoeloides furcatus* (Bremser, 1819) Odhner, 1928, *illus.*
Lopez-Roman, R.; and Guevara Pozo, D., 1977, *Publicaciones Espec. (4)*, Inst. Biol., Univ. Nac. Autonom. Mexico, 223-231
description
Mullus surmuletus
M. barbatus
all from Motril, Mar de Alboran
- Opecoeloides vittellosus* (Linton, 1900)
Gaevskaia, A. V.; and Umnova, B. A., 1977, *Biol. Moria*, Vladivostok (4), 40-48
Stenotomus chrysops (intestine): Georges Bank, Northwest Atlantic
- Opecoeloides vitellosus* (Linton 1900) von Wicklen 1946
Stunkard, H. W., 1978, *J. Parasitol.*, v. 64 (1), 177-178
Spheroides maculatus: Long Island Sound
- Opecoelus* sp. larvae
Parukhin, A. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Megalaspis cordyla: South China Sea

- Opecoelus caballeroi* sp. nov., illus.
Caballero R., G., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 135-140
Clinocottus analis australis (intestino): Catalina Island, U.S.A.
- Opecoelus pacificus* sp. n., illus.
Caballero y C., E.; and Caballero R., G., [1977], Rev. Biol. Trop., v. 24 (2), 1976, 191-198
Clinocottus analis australis (intestino): Catalina Island, California
- Opegaster cameroni* n. sp., illus.
Caballero y C., E.; and Caballero R., G., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 957-963
Clinocottus analis australis (intestin): Laguna Beach, Los Angeles, Californie, USA
Girella nigricans (intestin): Palos Verdes, Californie, USA
- Opegaster gonorhynchi* sp. n., illus.
Gavriliuk-Tkachuk, L. P., 1979, Biol. Moria, Vladivostok (3), 83-86
Gonorhynchus gonorhynchus (intestine): Cape Agulhas (Indian Ocean)
- Ophiodiplostomatidi* Dubois, 1936
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
Proterodiplostomatidae
includes: *Ophiodiplostomatinae*; *Proalarioidinae*
- Ophiodiplostomatinae* Dubois, 1936
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59

- Opisthioglyphe* sp., illus.
Iliushina, T. L., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 55-64
description of metacercaria
Sympetrum vulgatum
S. flaveolum
all from Karasuk lake system

- Opisthioglyphe ranae (Froelich, 1791) Looss, 1899
Frandsen, F., 1974, Acta Parasitol. Polon., v. 22 (1-11), 49-66
Rana esculenta
R. ridibunda
(intestine of all): all from Denmark
- Opisthioglyphe ranae
Ginetsinskaia, T. A.; et al., 1971, Parazitologia, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Opisthioglyphe ranae (Froelich, 1791) Looss, 1899, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana arvalis
R. esculenta
R. ridibunda
R. temporaria
Bombina bombina
B. variegata
Bufo viridis
all from Czechoslovakia
- Opisthioglyphe ranae (Froelich, 1791)
Skriabin, V. A., 1979, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (2), 74-75
Rana ridibunda (small intestine): Crimea
- Opisthioglyphe ranae
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Opisthioglyphe ranae
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Radix auricularia
Sphaerium lacustre
Physa
all from Crimea
- Opisthioglyphe ranae (Froehlich, 1791)
Sten'ko, R. P., 1979, Biol. Nauki, Min. Vyssh. i Sredn. Spets. Obraz. SSR (181) (1), 28-33
Radix auricularia
Physa acuta
Lymnaea stagnalis
Anisus spirorbis
Gyraulus gredleri
Galba truncatula
Planorbis planorbis
Musculium lacustre
all from Crimea
- Opisthioglyphe rastellus (Olsson, 1876) Looss, 1907
Frandsen, F., 1974, Acta Parasitol. Polon., v. 22 (1-11), 49-66
Rana esculenta
R. temporaria
R. arvalis
Bufo bufo
B. viridis
(intestine of all): all from Denmark
- Opisthioglyphe rastellus Olsson, illus.
Krasnodembskii, E. G., 1973, Parazitologia, Leningrad, v. 7 (5), 418-422
5 trematode species, maritae, glandular cells, morphology, localization, location in helminth body where their secretions are excreted
- Opisthodiscus americanus Holl, 1928
Brooks, D. R.; and Fusco, A. C., 1978, J. Mississippi Acad. Sc., v. 23, 95-99

Nasir, P.; and Gomez, Y., 1977, Riv. Parassitol., Roma, v. 38 (1), 53-73
as syn. of *Pseudopisthognoporus vitellosus* (Pritchard, 1963) Yamaguti, 1970
- Opistholecithum* gen. nov.
Baer, J. G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 11-17
Dicrocoeliidae, Dicrocoeliinae
tod: *O. margaritae* sp. nov.
- Opistholecithum margaritae* gen. nov., sp. nov. (tod), illus.
Baer, J. G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 11-17
Crocidura poensis pamela
C. flavescens spurrelli
(vesicule biliaire of all): all from Cote d'Ivoire
- Opisthometra planicollis* (Rudolphi, 1819)
Travassos, L.; et al., 1963, Atas Soc. Biol. Rio de Janeiro, v. 7 (4), 6-7
synonymy
Sula leucogaster: Cabo Frio, Estado do Rio de Janeiro
- Opisthomonorcheides decapteri Paruchin* (in press) [? nomen nudum]
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Decapterus sp. 4
Selar mate
all from South China Sea
- Opisthomonorcheides indicus* n. sp., illus.
Ahmad, J., 1977, Netherlands J. Zool., v. 27 (3), 305-309
Apogonichthys ellioti (intestine): Bay of Bengal, off the Puri coast, Orissa, India
- Opisthomonorcheides karwarensis* n. sp., illus.
Karyakarte, P. P.; and Yadav, B. B., 1976, Marathwada Univ. J. Sc. (Nat. Sc.), v. 15 (8), 165-168
Stromateus niger (intestine): Karwar, West Coast, India
- Opisthomonorchis carangis Yamaguti*, 1952
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Carangidae gen. sp. 2
Caranx malabaricus
all from South China Sea
- Opisthorchiasis**
Asvanich, C. K., 1977, Siriraj Hosp. Gaz., v. 29 (12), 1804-1807
opisthorchiasis, human, clinical review, therapy
- Opisthorchiasis**
Belozarov, E. S.; et al., 1978, Zhurnal Mikrobiol., Epidemiol. i Immunobiol. (2), 78-80
opisthorchiasis, patients, indices of cellular and humoral immunity in chronic cases
- Opisthorchiasis**
Beznos, T. V.; Linnik, V. Ia.; and Bekish, O. Ia. L., 1977, Vet. Nauka--Proizvod., Trudy, Minsk, v. 15, 95-98
opisthorchiasis antigen-sensitized rats, changes in histamine levels indicate disruption of histamine metabolism
- Opisthorchiasis**
Doroshenko, K. G.; and Rogozenko, G. F., 1976, Terap. Arkh., v. 48 (12), 48-52
opisthorchiasis associated with brucellosis, humans, diagnosis, clinical aspects, importance of early treatment of parasitic infection, case reports
- Opisthorchiasis**
Glazkov, G. A.; Klimshin, A. A.; and Krivenko, V. V., 1979, Gig. i Sanitariia (8), 53-55
opisthorchiasis, method for inspecting fish for metacercariae and determining their viability
- Opisthorchiasis**
Iablokov, D. D.; Mosin, G. P.; and Volkov, V. T., 1979, Terap. Arkh., v. 51 (4), 43-45
opisthorchiasis associated with asthma, humans, clinical management, therapy
- Opisthorchiasis**
Karnaukhov, V. K., 1977, Sovet. Med. (7), 84-88
high blood eosinophilia in presence of human helminthiasis and other infections, greatest diagnostic difficulties encountered with ascariasis, strongyloidiasis, fascioliasis and opisthorchiasis
- Opisthorchiasis**
Karnaukhov, V. K., 1979, Sovet. Med. (5), 86-90
helminthiasis, humans, typical errors in diagnosing and treating acute and chronic infections, especially hormone administration prior to diagnosis, case reports, management
- Opisthorchiasis**
Kim, N. Kh., 1976, Terap. Arkh., v. 48 (6), 130-132
opisthorchiasis, patients treated with chloxyol, changes in aldolase, transaminases, and blood coagulants during therapy
- Opisthorchiasis**
Komiakov, V. S.; and Iatskiv, V. I., 1976, Terap. Arkh., v. 48 (5), 130-132
opisthorchiasis, lamblia, and chronic throat infection associated with infectious-allergic form of myocarditis, 26-year-old man, case report
- Opisthorchiasis**
Nalobin, A. V.; and Mel'nikov, V. I., 1977, Sovet. Med. (12), 103-105
opisthorchiasis, humans, differential diagnosis
- Opisthorchiasis**
Strelis, A. K.; Zhivotiagin, V. N.; and Limberg, V. R., 1979, Problemy Tuberkul. (11), 68-70
opisthorchiasis complicated by tuberculosis, humans, case reports, clinical management and therapy
- Opisthorchidae [sp.]**
Linnik, V. Ia., 1974, Vet. Nauka--Proizvod., Trudy, Minsk, v. 12, 136-138
6 species of trematodes found in fish of Berezina river

- Opisthorchis
Krivenko, V. V., 1979, Gig. i Sanitariia (4), 80-81
Opisthorchis eggs, survival in water and soil, influence of oxygen, chloride and hydrogen ions: Tiumensk region, Tiumensk oblast
- Opisthorchis
Rogozenko, G. F.; and Doroshenko, K. G., 1979, Sovet. Med. (5), 68-73
Opisthorchis as concomitant infection provoked exacerbations and relapses of human chronic brucellosis with more pronounced and longer lasting clinical symptoms
- Opisthorchis, illus.
Sriraman, P. K.; et al., 1978, Indian Vet. J., v. 55 (11), 853-856
parasitic enteritis, cirrhosis, larval migrants, ducks, histopathology: Kolleru lake area, Andhra Pradesh
- Opisthorchis caninus
Mandal, P. C., 1978, Arch. Vet., Inst. Cercet. Vet. si Bioprep. Pasteur, v. 13, 49-55
parasites and other pathologic involvements in liver of pigs, abattoir survey: India
- Opisthorchis canis [i.e., caninus], illus.
Rai, H. S.; Pandey, B. B.; and Rai, P., 1979, Indian Vet. J., v. 56 (2), 89-90
Opisthorchis canis [i.e., caninus], dog (exper.), pathological changes in liver
- Opisthorchis elongatus n. sp., illus.
Agrawal, N., 1977, Indian J. Zoot., v. 16 (3), 175, 183-185
Vivipara bengalensis (mantle wall): Kathauta Tal
- Opisthorchis felineus
Barrett-Connor, E., 1972, South. Med. J., v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Opisthorchis felineus
Beer, S. A., 1977, Zool. Zhurnal, v. 56 (10), 1561-1563
Opisthorchis felineus cercariae, movement in water
- O[pisthorchis] felineus
Beer, S. A.; et al., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (1), 74-81
O[pisthorchis] felineus, abiotic factors influence distribution of snail vector, Bithynia inflata: Tomsk region
- Opisthorchis felineus
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Opisthorchis felineus Rivolta
Iziumova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[Abramis brama]: Upper Kama
[Rutilus rutilus]: Upper Kama; Chusovaia river
- Opisthorchis felineus
Kreuzer, W.; Obermeier, O. P.; and Kotter, L., 1976, Tieraerztl. Prax., v. 4 (1), 115-126
parasites and other diseases of fishes consumed by humans, clinical review
- Opisthorchis felineus
Linnik, V. Ia., 1974, Vet. Nauka--Proizvod., Trudy, Minsk, v. 12, 136-138
6 species of trematodes found in fish of Berezina river
- Opisthorchis felineus
Nikitina, L. P.; and Kononova, V. M., 1978, Gidrobiol. Zhurnal, v. 14 (4), 77-78
Opisthorchis felineus in cyprinid fishes and Bithynia leachi, potential focus for human infection: Ural river basin
- Opisthorchis felineus
Zigan'shin, R. V.; et al., 1977, Sovet. Med. (5), 93-96
opisthorchosis, humans, diagnosis, surgical management, importance of patient history in differentiating from other surgical emergencies, case reports
- Opisthorchis guayaquilensis Rodriguez, Gomez et Montalvan, 1949
Artigas, P. de T.; and Perez, M. D., 1962, Mem. Inst. Butantan, v. 30, 1960-1962, 157-166
as syn. of Amphimerus pseudofelineus (Ward, 1901)
- Opisthorchis longissimus (Linstow, 1883)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Ardea cinerea]
[Ardea purpurea]
[Egretta garzetta]
[Nycticorax nycticorax]
(liver of all): all from Black Sea preserve, Kherson oblast
- Opisthorchis noverca Braun, 1902, illus.
Sahai, B. N.; and Srivastava, H. D., 1978, Indian J. Animal Sc., v. 48 (2), 113-122
Opisthorchis noverca, morphology, life history
Cirrhinus reba (muscles below fins, scales) (nat. and exper.)
Labeo bata (muscles below fins, scales) (nat. and exper.)
dogs (bile-ducts, gall-bladders, livers) (nat. and exper.)
pigs (pancreatic ducts)
Melanoides lineatus
all from India
- Opisthorchis obsequens Nicoll, 1914, illus.
Eduardo, S. L., 1975, Philippine J. Animal Indust., v. 30 (1-4), 1973-1975, 30-38
description
Anas boschas domestica (liver): Rizal Province, Philippines
- Opisthorchis pedicellata
Gupta, S. P.; and Gupta, R. C., 1977, Ztschr. Parasitenk., v. 54 (1), 83-87
Opisthorchis pedicellata from Rita rita, identification of free amino acids in tissues
- Opisthorchis pricei Foster, 1939
Artigas, P. de T.; and Perez, M. D., 1962, Mem. Inst. Butantan, v. 30, 1960-1962, 157-166
as syn. of Amphimerus pseudofelineus (Ward, 1901)

- Opisthorchis schikhobalovi* Sultanov, 1962
Eduardo, S. L., 1975, *Philippine J. Animal Indust.*, v. 30 (1-4), 1973-1975, 30-38
"the status of *Opisthorchis schikhobalovi* Sultanov, 1962 is doubted"
- Opisthorchis tonkae*
MacKinnon, B. M.; and Burt, M. D. B., 1978, *Canad. J. Zool.*, v. 56 (2), 350-354
platyhelminth parasites of *Ondatra zibethica*, incidence and intensity, influence of host habitat: New Brunswick
- Opisthorchis viverrini*
Barrett-Connor, E., 1972, *South. Med. J.*, v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Opisthorchis viverrini, illus.*
Bhamarapavati, N.; Thamavit [sic], W.; and Vajrasthira, S., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (4), 787-794
Opisthorchis viverrini-infected Syrian golden hamsters, liver histopathology, immunopathologic mechanisms may be important in pathogenesis; hamster is suitable model host
- Opisthorchis viverrini*
Bhamarapavati, N.; and Thamavit, W., 1978, *Lancet*, London (8057), v. 1, 206-207 [Letter]
Opisthorchis viverrini-infected Syrian golden hamsters, study of possible combined effects of presence of liver flukes and nitrosating agents in food stuffs in the genesis of intrahepatic bileduct neoplasms in certain human populations
- Opisthorchis viverrini*
Koompirochana, C.; et al., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (1), 60-64
Opisthorchis viverrini, humans, clinico-pathologic findings, 154 autopsy cases, unusually high incidence of cholangiocarcinoma: Thailand
- Opisthorchis viverrini*
Reeder, M. M., 1975, *Seminars Roentgenol.*, v. 10 (3), 229-243
parasitic infections of human liver and bile ducts, radiologic diagnosis, general review
- Opisthorchis viverrini, illus.*
Sonakul, D.; et al., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (2), 215-219
Opisthorchis viverrini, human, association with primary hepatic carcinoma, autopsy survey: Thailand
- Opisthorchis viverrini, illus.*
Stitnimankarn, T.; et al., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (4), 558-567
Opisthorchis viverrini, humans, ultrastructure of associated cholangiocarcinoma: Thailand
- Opisthorchis viverrini, illus.*
Thamavit, W.; et al., 1978, *Cancer Research*, v. 38 (12), 4634-4639
Opisthorchis viverrini-infected Syrian golden hamsters (exper.), effects of dimethylnitrosamine on induction of cholangiocarcinoma and cholangiofibrosis
- Opisthotrema Fischer*, 1883
Sharma, P. N.; and Gupta, A. N., 1971, *Folia Parasitol.*, v. 18 (3), 285-288
Opisthotrematidae, key
- Opisthotrema cochleotrema* (Travassos and Vogelsang 1931)
Budiarso, Iwan T.; et al., 1979, *J. Parasitol.*, v. 65 (4), 568
Dugong dugon
- Opisthotrema dujonis* (Leuckart 1874) Price, 1932
Budiarso, Iwan T.; et al., 1979, *J. Parasitol.*, v. 65 (4), 568
Dugong dugon (mucosal layer of eustachian tube): off coast of Pothondo, South Sulawesi
- Opisthotrema nasalis* Purnomo, Palmieri and Budiarso 1979 [?nom. nud.]
Budiarso, Iwan T.; et al., 1979, *J. Parasitol.*, v. 65 (4), 568
as cause of nasal lesions
Dugong dugon (mucosal layer of nasal septa): off coast of Pothondo, South Sulawesi
- Opisthotrematidae*
Sharma, P. N.; and Gupta, A. N., 1971, *Folia Parasitol.*, v. 18 (3), 285-288
emend. diag.
key to genera, includes: *Paracochleotrema*; *Pulmonicola*; *Lankatrema*; *Cochleotrema*; *Opisthotrema*
- Orchidasma amphiorchis* (Braun, 1899)
Sey, O., 1977, *Acta Zool. Acad. Scient. Hungar.*, v. 23 (3-4), 387-394
Caretta caretta: Egyptian coast
- Orientobilharzia dattai* (Dutt and Sriv., 1952)
Dutt and Sriv., 1955
Baugh, S. C., 1978, *Rev. Iber. Parasitol.*, v. 38 (1-2), 435-472
schistosomiasis, human, animals, 100-year historical review: India
synonymy
- Orientobilharzia dattai*
Muraleedharan, K.; et al., 1976, *Indian Vet. J.*, v. 53 (10), 819-820
Lymnaea luteola: Karnataka
L. acuminata: "
guinea pig (exper.) (portal veins)
- Orientobilharzia dattai, illus.*
Singh, B. P.; and Ahluwalia, S. S., 1976, *Haryana Agric. Univ. J. Research*, v. 6 (3-4), 244-245
Orientobilharzia dattai in white mice and goats (both exper.), histopathological changes in the liver
- Orientobilharzia harinasutai* Kruatrachue, Bhaibulaya and Harinasuta, 1965
Baugh, S. C., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 121-125
as syn. of *Thailandobilharzia harinasutai* (Kruatrachue, Bhaibulaya and Harinasuta, 1965) nomen novum [i.e., n. comb.]
- Orientobilharzia turkestanicum* (Skrjabin, 1913)
Dutt and Sriv., 1955
Baugh, S. C., 1978, *Rev. Iber. Parasitol.*, v. 38 (1-2), 435-472
schistosomiasis, human, animals, 100-year historical review: India
synonymy

- Orientobilharzia turkestanicum* (Skrjabin, 1913)
Dutt and Srivastava, 1955
Kumar, V., 1973, *Ann. Soc. Belge Med. Trop.*, v. 53 (1), 17-23
Orientobilharzia turkestanicum, susceptibility of various aquatic snails to infection, determination of pre-patent period in natural vector, and observation of age-resistance of snails to infection
Lymnaea auricularia (nat. and exper.): Kashmir (suburb of Srinagar)
L. a. rufescens (exper.)
- Orientobilharzia turkestanicum*
Sahba, G. H.; and Malek, E. A., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (5), 912-913
Orientobilharzia turkestanicum, cause of cercarial dermatitis among rice farmers cattle (feces)
Lymnaea gedrosiana (nat. and exper.)
all from Caspian Sea area of Iran
- Orientobilharzia turkestanica* var. *tuberculata*, *illus.*
Lien, C. A.; et al., 1975, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 21 (2), 183-189
Orientobilharzia turkestanica var. *tuberculata*, aetiological agent of rice-field dermatitis, life history
cattle
Radix ovata (nat. and/or exper.)
R. lagotis (nat. and/or exper.)
Galba laticallosiformis (nat. and/or exper.)
rabbit (exper.)
human (exper.)
all from Chengnan People's Commune, Hailung Hsien, Kirin Province
- Orientocreadium pseudobagri* Yamaguti, 1934
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
synonymy
Silurus glanis (intestine): Gdansk Bay (Baltic Sea)
- Orientocreadium siluri* (Bychowsky et Dubinina, 1954)
Kakacheva-Avramova, D., 1976, *Khelminthologia, Sofia*, v. 1, 12-18
Silurus glanis (intestine): Bulgarian section of Danube River
- Orientocreadium skrjabini* Koval, 1952
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *O. pseudobagri* Yamaguti, 1934
- Orientodiscus lobatus* Srivastava, 1938, *illus.*
Sharma, P. N., [1978], *Riv. Parassitol.*, Roma, v. 38 (2-3), 1977, 233-245
intestinal trematodes from various vertebrates, hydrolytic enzymes, distribution in parasite gut, functional significance
- Orientodiscus lobatus* Srivastava, 1938
Sharma, P. N., 1979, *Indian J. Exper. Biol.*, v. 17 (5), 479-483
10 digenetic trematodes, histochemical localization of glycogen, lipids, proteins, and phosphatases in parenchyma and other tissues
Morenia ocellata
- Ornithobilharzia* sp. Chapin, 1924
Rohde, K., 1977, *Ztschr. Parasitenk.*, v. 52 (1), 39-51
as syn. of *Austrotilharzia terrigalensis* Johnston, 1917
- Ornithobilharzia lari* McLeod, 1937
Rohde, K., 1977, *Ztschr. Parasitenk.*, v. 52 (1), 39-51
as syn. of *Austrotilharzia terrigalensis* Johnston, 1917
- Ornithobilharzia turkestanicum* Price, 1929
Baugh, S. C., 1978, *Rev. Iber. Parasitol.*, v. 38 (1-2), 435-472
as syn. of *Orientobilharzia turkestanicum* (Skrjabin, 1913) Dutt and Sriv., 1955
- Ornithobilharzia turkestanicum*
Eslami, A.; et al., 1976, *J. Vet. Fac. Univ. Tehran*, v. 32 (1-4), 21-27
Fasciola hepatica, *Dicrocoelium dendriticum*, *Ornithobilharzia turkestanicum*, *Linguatula serrata*, incidence in liver of ruminants; important cause of economic losses: Tehran abattoir
- Ornithodiplostomum*
Shigin, A. A., 1974, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 24, 220-232
key to some genera based on cercarial sensory apparatus
- Ornithodiplostomum ptychocheilus* (Faust, 1913)
Amin, O. M., 1977, *Tr. Wisconsin Acad. Sc., Arts and Lett.*, v. 65, 225-230
fish parasites, differential distribution in two streams
Semotilus atromaculatus: southeastern Wisconsin
- Ornithodiplostomum ptychocheilus* (Faust, 1917)
Davis, J. R.; and Huffman, D. G., 1978, *Texas J. Sc.*, v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (eyes, ovaries, coelom): near San Marcos, Texas
- Ornithodiplostomum ptychocheilus*, *illus.*
Hendrickson, G. L., 1979, *Exper. Parasitol.*, v. 48 (2), 245-258
Ornithodiplostomum ptychocheilus cercariae, migration to brain of *Pimephales promelas*
- Ornithodiplostomum ptychocheilus*
Sankurathri, C. S.; and Holmes, J. C., 1976, *Canad. J. Zool.*, v. 54 (10), 1742-1753
parasites and commensals (*Oligochaeta* and larval *Digenea*) of *Physa gyrina* in control area vs. area affected by thermal effluents, prevalence, seasonal changes, interactions (including ingestion of cercariae by oligochete), ecological model: Lake Wabamun, Alberta
- Ornithodiplostomum ptychocheilus* (Faust, 1917)
Dubois, 1936
Sogandares-Bernal, F.; Hietala, H. J.; and Gunst, R. F., 1979, *J. Parasitol.*, v. 65 (4), 616-623
Ornithodiplostomum ptychocheilus infection not found to affect stamina of *Richardsonius balteatus*, evolutionary implications; multivariate contingency table analysis of data
- Ornithodiplostomum scardinii* (Schulman, 1952), *illus.*
Shigin, A. A., 1974, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 24, 220-232
Strigeata, description and taxonomic significance of cercarial sensory apparatus, distribution of sensillae
Physa fontinalis: Volga delta

- Orophocotyle planei* (Stossich, 1899) Looss, 1902
Korotaeva, V. D., 1976, Biol. Moria, Vladivostok (4), 60-62
Mola mola (stomach, intestine): Arafura Sea

Uchida, A.; and Itagaki, H., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (5), 360-365
as syn. of *Haematoloechus* Looss, 1899
- Otodistomum* sp., illus.
Williams, H. H.; McVicar, A. H.; and Ralph, R., 1970, Symposia Brit. Soc. Parasitol., v. 8, 43-77
fish helminths, body shape and orientation in host gut, habitat specificity and migrations within gut
Raja radiata (pyloric (and cardiac?) stomach): Scottish waters
- Otodistomum cestoides* (Beneden, 1870)
Threlfall, W., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 805-811
Raja radiata: Newfoundland
- Otodistomum veliporum* (Creplin, 1837) Stafford, 1904, illus.
Caballero y C., E.; and Caballero R., G., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 957-963
redescription
Squatina californica (estomac): Long Beach Harbor County, Californie et le Segundo, Californie, USA
- Otodistomum veliporum* (Creplin, 1837)
Threlfall, W., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 805-811
Squalus acanthias: Newfoundland
- Ototrema* gen. n.
Font, W. F., 1978, J. Parasitol., v. 64 (3), 391-392
Lecithodendriidae
mt: *O. schildti* sp. n.
- Ototrema schildti* gen. n., sp. n. (mt), illus.
Font, W. F., 1978, J. Parasitol., v. 64 (3), 391-392
Myotis lucifugus (intestine): Eau Claire, Eau Claire County, Wisconsin
- Ozakia tropica* (Manter, 1940) Manter, 1947, illus.
Gupta, N. K.; and Miglani, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 219-248
description, syn.: *Coitocaecum tropicum* Manter, 1940
fish, marine teleost (intestine): Port Blair (Andaman and Nicobar Islands), India

- Pachytrema calculus* Looss, 1907
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 88-92
measurements
Stercorarius parasiticus: northern areas of Central Siberia
- Pagumogonimus skrjabini* (Chin, 1959)
Hubei Medical College. Department of Parasitology, and Department of Medicine, Infectious Disease Division, 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 179-186
human, patient (subcutaneous nodule)
Potamon
cats (lungs) (nat. and exper.)
all from Xingshan, Hubei Province, China
- Paleocryptogonimus* Szidat, 1954
Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
Cryptogonimidae, Cryptogoniminae
- Palaeorchis* Szidat, 1943
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
key to species
- Palaeorchis diplorchis* (Yamaguti, 1936)
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
key
- Palaeorchis incognitus* Szidat
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[*Leuciscus idus*] (urinary bladder): Kamsk reservoir
- Palaeorchis incognitus* Szidat, 1943, illus.
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
measurements, key
Leuciscus idus
Rutilus rutilus
(intestine of all): all from Gdansk Bay (Baltic Sea)
- Palaeorchis incognitus*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
A. ballerus
Blicca bjoernca
all from Dabie lake, Poland
- Palaeorchis skrjabini* Kowal, 1950
Rokicki, J., 1970, Acta Parasitol. Polon., v. 18 (1-12), 71-79
Vimba vimba (intestine): River Vistula, Poland

Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of *P. unicus* Szidat, 1943
- Palaeorchis unicus* Szidat, 1943
Rokicki, J., 1970, Acta Parasitol. Polon., v. 18 (1-12), 71-79
Vimba vimba (intestine): River Vistula, Poland
- Palaeorchis unicus* Szidat, 1943, illus.
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
description, key
Syn.: *P. skrjabini* Koval, 1950
Blicca bjoernca
Vimba vimba
Rutilus rutilus
Scardinius erythrophthalmus
(intestine of all): all from Gdansk Bay (Baltic Sea)
- Palaeorchis unicus*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis ballerus
Blicca bjoernca
all from Dabie lake, Poland
- Pancreatrema* Oshmarin
Angel, L. M.; and Pearson, J. C., 1977, Tr. Roy. Soc. South Australia, v. 101 (5-6), 115-132
generic diagnosis
Dicrocoeliidae
- Pancreatrema*
Groschaff, J., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 81-85
Eurytrematini, key
- Pancreatrema meliphagae* n. sp., illus.
Angel, L. M.; and Pearson, J. C., 1977, Tr. Roy. Soc. South Australia, v. 101 (5-6), 115-132
Meliphaga ornata (probably from bile duct): Blanchetown, S. Aust.
- Panopistus pricei* Sinitzin, 1931
Vaucher, C.; and Durette-Desset, M. C., 1978, Rev. Suisse Zool., v. 85 (2), 361-378
measurements
Blarina brevicauda: Ontario, Canada
- Papillatrium* Richard
Khotenovskii, I. A., 1974, Parazitologiya, Leningrad, v. 8 (5), 394-401
insufficient basis for establishing genus
- Papillatrium inversum*, to *Lecithodendrium* [comb. not made]
Khotenovskii, I. A., 1974, Parazitologiya, Leningrad, v. 8 (5), 394-401
- Parabascus*
Khotenovskii, I. A., 1972, Parazitologiya, Leningrad, v. 6 (1), 79-82
Pleurogenidae, Lecithodendriidae, Plagiorchiidae, parasites of bats, morphology, localization in host intestine, and mode of feeding briefly discussed as examples of adaptive evolution of the parasites
- Parabascus* Looss, 1907
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
synonymy
- Parabascus duboisi* (Hurkova, 1961) Odening, 1964
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
synonymy

- Parabascus lepidotus* Looss, 1907, illus.
Theron, A., 1975, Vie et Milieu, s. C, Biol Terr., v. 25 (1), 181-185
Parabascus lepidotus, a common parasite of Chiroptera, found in *Apodemus sylvaticus* in France, "doit etre considere comme un parasite transfuge"
- Parabascus oppositus* Zdzitowiecki, 1969
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Alassogonoporus amphoraeformis* (Moedlinger, 1930)
- Parabascus semisquamosus* (Braun, 1900), illus.
Mehl, R.; Groschaft, J.; and Tenora, F., 1977, *Rhizocrinus* (10), 1-4
Parabascus semisquamosus, description, brief review of biology, host specificity and distribution
Pipistrellus pipistrellus: Drobak, Southern Norway
- Paracochleotrema* gen. n.
Sharma, P. N.; and Gupta, A. N., 1971, *Folia Parasitol.*, v. 18 (3), 285-288
Opisthotrematidae, key
tod: *P. indicum* sp. n.

coledoco): Rio de Janeiro (Manguinhos),
Estado da Guanabara, Brasil
- [Parafasciolopsis] parafastsiolopsisov
Karasev, N. F.; and Litvinov, V. F., 1978,
Veterinariia, Moskva (8), 70-71
[Parafasciolopsis], elk, prevalence, path-
ology, decreased meat production, economic
losses: Berezinsk reserve
- Parafasciolopsis fasciolaemorpha
Jarvis, T., 1977, Eesti Pollumaj. Akad. Teadusl.
Toode Kogum. (104), 137-143
helminths of roedeer, [Capreolus capreolus],
role in infecting farm animals: Estonian
SSR
- Paragonimiasis
Arzube R., M. E.; and Voelker, J., 1978, Tropen-
med. u. Parasitol., v. 29 (3), 275-277
paragonimiasis, humans, incidence survey
(1972-1976) by age and sex: Ecuador
- Paragonimiasis
Kang, S. Y., 1972, Taehan Uihak Hyophoe Chi
(J. Korean Med. Ass.), v. 15 (6), 470-474
pulmonary parasitic diseases, human
- Paragonimiasis
Lee, C. G.; et al., 1976, Soakwa (J. Korean
Pediat. Ass.), v. 19 (2), 61-65 (137-141)
paragonimiasis, 11-year-old boy, associated
eosinophilia, had eaten undercooked fresh-
water crabs
- Paragonimiasis
Seo, B. S., 1974, Taehan Uihak Hyophoe Chi
(J. Korean Med. Ass.), v. 17 (7), 450-455
human trematode infections, incidence,
trends: Korea
- Paragonimiasis
Tropenmed. u. Parasitol., 1976, v. 27 (special
no. 1), 77 pp.
onchocerciasis, trypanosomiasis, paragoni-
miasis, humans, papers presented at the 8th
Congress of the German Society of Tropical
Medicine
- Paragonimus
Demetriou, A.; Phillips, B. M.; and Hendrickse,
R. G., 1978, Arch. Dis. Childhood, v. 53 (11),
912-913
Paragonimus diagnosed in child presenting
with soft tissue swellings on basis of
clinical, radiological, serological, and
epidemiological evidence despite failure
to demonstrate ova in sputum, treatment with
bitin-S followed by complete cure: Britain
(had previously lived in eastern Nigeria)
- Paragonimus spp.
Chung, H. L.; et al., 1975, Tung Wu Hsueh Pao
(Acta Zool. Sinica), v. 21 (2), 155-168
Paragonimus, table giving differential
features of a species: China
- Paragonimus sp., probably P. westermani, illus.
Dutt, S. C.; and Gupta, P. P., 1978, Ann. Trop.
Med. and Parasitol., v. 72 (4), 391-393
Arcticus binturong (lung): Zoological Park,
Chhatbir, Chandigarh
- Paragonimus [sp.], probably P. westermani
Hubei Medical College. Department of Para-
sitology, and Department of Medicine, Infec-
tious Disease Division, 1978, Tung Wu Hsueh
Pao (Acta Zool. Sinica), v. 24 (2), 179-186
Potamon: Xingshan, Hubei Province, China
cats (lungs) (exper.)
- Paragonimus sp., illus.
Proctor, E. M.; and Gregory, M. A., 1974, South
African Med. J., v. 48 (46), 1947-1948
Paragonimus sp., unable to detect any morpho-
logical differences in ultrastructural study
of ova from human and cat feces: Durban,
South Africa
- Paragonimus sp.
Voelker, J.; and Arzube R., M., 1979, Tropen-
med. u. Parasitol., v. 30 (2), 249-263
Mensch (Sputum): Prov. Manabi, Ecuador
- Paragonimus africanus
Oelerich, S., 1977, Tropenmed. u. Parasitol.,
v. 28 (4), 539-544
Paragonimus uterobilateralis, P. africanus,
Macaca mulatta (exper.), serological changes
(indirect hemagglutination, complement fixa-
tion, double gel diffusion), cross-reactions
occurred but species could be differentiated
by disc-electrophoresis; supplemented by para-
sitologic and radiologic observations of
other authors
- Paragonimus ecuadoriensis n. sp., illus.
Voelker, J.; and Arzube R., M., 1979, Tropen-
med. u. Parasitol., v. 30 (2), 249-263
Felis silvestris f. catus (Lunge, Faezes)
(exper.)
Nasua nasua (Lunge)
Hypolobocerca aequatorialis (Carapax, Hepato-
pancreas, Muskulatur, Kiemen)
all from Membrillal bei Jipijapa, Prov. Mana-
bi (Cordillera de la Costa), Ecuador

- Paragonimus iloktsuenensis*, *illus.*
Fujino, T.; and Ishii, Y., 1978, *Internat. J. Parasitol.*, v. 8 (2), 139-148
5 *Paragonimus* spp., comparative ultrastructural topography of gut epithelia
- Paragonimus iloktsuenensis*, *illus.*
Seo, B. S.; and Kwak, J. W., 1972, *Soul Uidae Chapchi* (Seoul J. Med.), v. 13 (4), 221-233
Paragonimus iloktsuenensis, metacercariae, morphology, measurements, growth and development in mice
mouse (exper.) (abdominal cavity, thoracic cavity)
Sesarma dehaani (liver)
S. intermedia (liver)
Helice tridens tridens (liver)
all from Hadan and Hadong at Nakdong and Sumjin River deltas, South Kyong-Sang Do Province, Korea
- Paragonimus iloktsuenensis*
Terasaki, K., 1977, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 26 (4), 222-229
Paragonimus spp., chromosome studies
Helice tridens: Japan
- Paragonimus kellicotti*
Barrett-Connor, E., 1972, *South. Med. J.*, v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Paragonimus kellicotti*, *illus.*
Dubey, J. P.; et al., 1978, *J. Am. Vet. Med. Ass.*, v. 173 (6), 734-742
Paragonimus kellicotti, cats (exper.), clinical signs, clinicopathologic data, radiologic findings, fecal diagnosis, necropsy findings
- Paragonimus kellicotti*, *illus.*
Dubey, J. P.; et al., 1978, *Am. J. Vet. Research*, v. 39 (6), 1027-1031
Paragonimus kellicotti, specific-pathogen-free cats, albendazole, excellent results (reduced ova production, changed worm morphology, reduced pulmonic lesions)
- Paragonimus kellicotti*, *illus.*
Dubey, J. P.; et al., 1979, *Vet. Parasitol.*, v. 5 (4), 325-337
Paragonimus kellicotti, dogs (peritoneal cavity, pleural cavity, lungs) (exper.), migration and development, fecal diagnosis (sedimentation vs. McMaster technique), clinicopathological and hematologic data, radiologic findings, gross and microscopic pathology
- Paragonimus kellicotti*, *illus.*
Dubey, J. P.; Miller, T. B.; and Sharma, S. P., 1979, *J. Am. Vet. Med. Ass.*, v. 174 (8), 835-837
Paragonimus kellicotti, dogs (exper.), fenbendazole effective
- Paragonimus kellicotti*, *illus.*
Gress, F. M.; and Lumsden, R. D., 1976, *Rice Univ. Studies*, v. 62 (4), 111-143
Paragonimus kellicotti, tegumental surface membrane, fine structure, topochemistry (rich in acidic carbohydrate), possible relationship to ability of flukes to survive in immunocompetent host
- Paragonimus kellicotti*, *illus.*
Hoover, E. A.; and Dubey, J. P., 1978, *Am. J. Vet. Research*, v. 39 (11), 1827-1832
Paragonimus kellicotti, cats (exper.), pathogenesis of pulmonary lesions
- Paragonimus kellicotti*, *illus.*
Loverde, P. T., 1979, *Tr. Am. Micr. Soc.*, v. 98 (2), 280-285
Paragonimus kellicotti, P. ohirai, chromosome number and morphology
- Paragonimus kellicotti*, *illus.*
Stromberg, P. C.; and Dubey, J. P., [1979], *J. Parasitol.*, v. 64 (6), 1978, 998-1002
Paragonimus kellicotti, life cycle in cats (exper.): migration, development, growth, maturation, distribution in lungs, egg production
- Paragonimus kellicotti* Ward, 1908, *illus.*
Stromberg, P. C.; Toussant, M. J.; and Dubey, J. P., 1978, *Parasitology*, v. 77 (1), 13-18
Paragonimus kellicotti, population biology of metacercariae in crayfish (*Orconectes rusticus*, *Orconectes* sp.): prevalence and intensity in relation to host size (age) and sex, frequency distribution (negative binomial) and abundance in two different localities (in municipal park vs. in undisturbed woodlot), seasonal variation, no apparent detrimental effect of infection on host, seasonal timing of life cycle events is postulated: tributary of Alum Creek near Westerville, Franklin County, Ohio
- Paragonimus kellicotti*
Todd, K. S., jr.; Howland, T. P.; and Macy, D. W., 1978, *Canine Pract.*, Santa Barbara, v. 5 (6), 11-12, 14
Paragonimus kellicotti, dog, albendazole may be effective, case report
- Paragonimus mexicanus*, *illus.*
Lamothe-Argumedo, R.; Caballero-Deloya, J.; and Lazaro-Chavez M., E., [1979], *An. Inst. Biol., Univ. Nac. Mexico*, v. 48 (1), s. Zool., 1977, 295-298
Paragonimus mexicanus, *Pseudothelphusa dilatata* established as intermediate host, possible public health implications, crab consumed raw by local inhabitants and their pigs
Pseudothelphusa dilatata (entre diverticulos del hepatopancreas): region de Comala, Colima, Mexico
gatos (exper.)
- Paragonimus miyazakii*, *illus.*
Ashizawa, H.; et al., 1977, *Bull. Fac. Agric. Univ. Miyazaki*, v. 24 (2), 255-264
Paragonimus miyazakii in *Meles meles anakuma* (lungs), gross observations, histopathological findings: Miyazaki Prefecture
- Paragonimus miyazakii*, *illus.*
Fujino, T.; and Ishii, Y., 1978, *Internat. J. Parasitol.*, v. 8 (2), 139-148
5 *Paragonimus* spp., comparative ultrastructural topography of gut epithelia
- Paragonimus miyazakii* Kamo, Nishida, Hatsushika et Tomimura, 1961, *illus.*
Habe, S.; Ashizawa, H.; and Saito, T., 1977, *Kiseichugaku Zasshi* (Japan. J. Parasitol.), v. 26 (2), 63-66
Meles meles anakuma: Nara and Miyazaki Prefecture, Japan
Canis familiaris: Shikoku Island, Japan

- Paragonimus miyazakii
Hamajima, F.; et al., 1979, Internat. J. Parasitol., v. 9 (3), 241-249
Clonorchis sinensis, Metagonimus takahashii, Paragonimus miyazakii, in vitro effects of bithionol and menichlopholan on motility, metabolism, and fine structure
- Paragonimus miyazakii
Hatsushika, R.; Maejima, J.; and Kamo, H., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 129-136
Paragonimus spp., experimental mixed infections, development and interspecific relationships in final host (dog, cat, or rat)
- Paragonimus miyazakii Kamo et al., 1961, illus.
Ito, J.; and Mochizuki, H., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 241-249
incidence, intensity
Potamon dehaani (pericardial cavity, attached to heart): Shizuoka Prefecture, Japan
- Paragonimus miyazakii
Sakaguchi, Y.; and Tada, I., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (1), 5-7
Paragonimus ohirai, P. miyazakii, comparative karyotype study
Potamon dehaani: suburbs of Nagasaki and Iwakuni
- Paragonimus miyazakii Kamo et al., 1961, illus.
Sano, M.; et al., 1978, Internat. J. Zoonoses, v. 5 (2), 75-79
measurements
boar, wild (lungs)
marten (lungs)
Potamon dehaani
all from Shizuoka Prefecture, central Japan
- Paragonimus miyazakii
Terasaki, K., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (4), 222-229
Paragonimus spp., chromosome studies: Japan
- Paragonimus miyazakii
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Paragonimus ohirai, illus.
Araki, K., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 203-219
Paragonimus ohirai, rats (exper.), effect of bithionol and hetol against various developmental stages, parasitological, pathological, and immunological evaluation
- Paragonimus ohirai Miyazaki, 1939, illus.
Ashizawa, H.; et al., 1977, Bull. Fac. Agric. Univ. Miyazaki, v. 24 (2), 265-275
Paragonimus ohirai in Sus scrofa leucomystax (lungs), histopathological findings, comparison of wild boar lesions with those found in domestic pigs indicates both are adapted as final hosts: Japan
pigs: Kagoshima, Miyazaki and Kumamoto Prefectures
Sus scrofa leucomystax: near Shimo-Korigawa, Kitagawa-cho, Higashi-Uki-gun, Miyazaki Prefecture (lungs of all)
- Paragonimus ohirai, illus.
Fujino, T.; and Ishii, Y., 1978, Internat. J. Parasitol., v. 8 (2), 139-148
5 Paragonimus spp., comparative ultrastructural topography of gut epithelia
- Paragonimus ohirai, illus.
Fujino, T.; Ishii, Y.; and Mori, T., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (4), 240-255
Paragonimus ohirai, Eurytrema pancreaticum, spermatozoa and spermatogenesis, scanning and transmission electron microscopy
- Paragonimus ohirai Miyazaki, 1939
Habe, S.; Ashizawa, H.; and Saito, T., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (2), 63-66
Sus scrofa: slaughter houses, southern Kyushu, Japan
- Paragonimus ohirai
Hatsushika, R.; Maejima, J.; and Kamo, H., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 129-136
Paragonimus spp., experimental mixed infections, development and interspecific relationships in final host (dog, cat, or rat)
- Paragonimus ohirai
Kobayashi, M.; et al., 1978, Internat. J. Parasitol., v. 8 (6), 471-477
Paragonimus ohirai, Clonorchis sinensis, adults, detection of carbamoyl phosphate synthetase, its catalytic and regulatory properties, some other enzyme activities of pyrimidine nucleotide biosynthesis, actual operation of de novo pyrimidine biosynthetic pathway
- Paragonimus ohirai, illus.
Loverde, P. T., 1979, Tr. Am. Micr. Soc., v. 98 (2), 280-285
Paragonimus kelicotti, P. ohirai, chromosome number and morphology
- Paragonimus ohirai
Sakaguchi, Y.; and Tada, I., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (1), 5-7
Paragonimus ohirai, P. miyazakii, comparative karyotype study
Sesarma dehaani: Kinoshiki, Hyogo Prefecture
- Paragonimus ohirai, illus.
Terasaki, K., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (4), 222-229
Paragonimus spp., chromosome studies: Japan
- Paragonimus ohirai, illus.
Terasaki, K.; and Nakamura, T., 1978, Bull. Azabu Vet. Coll., v. 3 (2), 273-278
flukes, simple technique for chromosome preparations
- Paragonimus ohirai
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis

- Paragonimus peruvianus* Miyazaki, Ibanez, and Miranda, 1969
Ching, H. L.; and Ibanez Herrera, N., 1976, *Canad. J. Zool.*, v. 54 (9), 1438-1442
Pseudothelphusa chilensis (digestive gland): streams of Cajamarca Highlands, Peru
- Paragonimus peruvianus, illus.*
Ibanez H., N.; Fernandez V., E.; and Miranda C., H., 1977, *Publicaciones Espec.* (4), *Inst. Biol., Univ. Nac. Autonom. Mexico*, 177-185
Paragonimus peruvianus, variable position of ovary, description of certain adjoining genitals
- Paragonimus peruvianus, illus.*
Tantalean V., M.; et al., 1974, *Rev. Inst. Med. Trop. S. Paulo*, v. 16 (6), 332-336
Paragonimus peruvianus, rats, cats, route of larval migration
- Paragonimus peruvianus, illus.*
Terasaki, K.; and Nakamura, T., 1978, *Bull. Azabu Vet. Coll.*, v. 3 (2), 273-278
flukes, simple technique for chromosome preparations
- Paragonimus sadoensis, illus.*
Fujino, T.; and Ishii, Y., 1978, *Internat. J. Parasitol.*, v. 8 (2), 139-148
5 *Paragonimus* spp., comparative ultrastructural topography of gut epithelia
- Paragonimus sadoensis*
Terasaki, K., 1977, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 26 (4), 222-229
Paragonimus spp., chromosome studies
Potamon dehaani: Japan
- Paragonimus sadoensis*
Tsuji, M., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Paragonimus szechuanensis*
Tai, A. Y.; and Sung, Y. C., 1975, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 21 (2), 169-182
Sinopotamon kwanhsienense sp. nov.: China
- Paragonimus uterobilateralis*
Oelerich, S., 1977, *Tropenmed. u. Parasitol.*, v. 28 (4), 539-544
Paragonimus uterobilateralis, *P. africanus*, *Macaca mulatta* (exper.), serological changes (indirect hemagglutination, complement fixation, double gel diffusion), cross-reactions occurred but species could be differentiated by disc-electrophoresis; supplemented by parasitologic and radiologic observations of other authors
- Paragonimus uterobilateralis, illus.*
Volkmer, K. J., 1975, *Ann. Soc. Belge Med. Trop.*, v. 55 (5), 535-543
Paragonimus uterobilateralis, humans, clinical aspects, symptoms, diagnosis by X-ray, sputum examination, or indirect hemagglutination: East-Nigeria
- Paragonimus westermani*
Ahn, J.-H.; and Seo, B. S., 1972, *Soul Uidae Chapchi (Seoul J. Med.)*, v. 13 (4), 235-242
Paragonimus westermani, *Eurytrema pancreaticum*, paper chromatographic analysis of carbohydrate metabolism, determination of amino acid fractions and other metabolites
- Paragonimus westermani*
Amanarriz Urrutta, M., 1977, *Rev. Ecuador. Hig. y Med. Trop.*, v. 30 (3), 315-317
Paragonimiasis, child, acute respiratory infection, case report, bithionol sulfoxide: Huiridima, along Napo River, Ecuador
- Paragonimus westermani*
Barrett-Connor, E., 1972, *South. Med. J.*, v. 65 (1), 86-90
fluke infections, human, geographic distribution, clinical aspects, need for differential diagnostic considerations in travellers, immigrants, and military personnel
- Paragonimus westermani*
Cabrera, B. D., 1977, *Internat. J. Zoonoses*, v. 4 (2), 49-55
Paragonimus westermani in wild *Rattus norvegicus* (lungs), incidence; metacercariae developed to maturity in laboratory rats (exper.), confirms rat as natural host: Jaro, Leyte, Philippines
- Paragonimus westermani*
Chang, K. C.; Sun, Y. L.; and Chiu, J. K., 1973, *Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.)*, v. 72 (5), 297-303
Paragonimus westermani, aborigines of remote mountain area, positive diagnostic skin tests but eggs not detected in stool examinations: Chien-Shih District, Hsinchu County, northern Taiwan
- Paragonimus westermani*
Chou, C. H.; and Kao, C. T., 1972, *Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.)*, v. 71 (8), 525-529
Paragonimus westermani, survey of school children revealed only 1 case in previously very high endemic area: San-Wan District of Miaoli County, Taiwan
- Paragonimus westermani*
Chu, J. K., 1972, *Taehan Uihak Hyophoe Chi (J. Korean Med. Ass.)*, v. 15 (8), 685-690
human parasites, differential diagnosis
- Paragonimus westermani*
Cross, J. H., 1973, *Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.)*, v. 72 (7), 407-412
parasitic diseases of human respiratory system, immunodiagnostic methods, review
- Paragonimus westermani*
Dupuy, J. P.; et al., 1979, *J. Radiol.*, v. 60 (8-9), 533-536
Paragonimus westermani, 21-year-old Thai woman, pulmonary infection causing hemoptysis, case report: France
- Paragonimus westermani*
Friedmann, G.; and Thun, F., 1978, *Roentgen-Blaetter*, v. 31 (4), 242-249
radiologic differential diagnosis of intracranial calcifications including those resulting from parasitism

- Paragonimus westermani*, *illus.*
Fujino, T.; and Ishii, Y., 1978, *Internat. J. Parasitol.*, v. 8 (2), 139-148
5 *Paragonimus* spp., comparative ultrastructural topography of gut epithelia
- Paragonimus westermani*
Fukada, T.; et al., 1978, *Shinkei Naika (Neurol. Med.)*, v. 8 (5), 489-491
Paragonimus westermani, human cerebral, meningitic form, brief clinical note, EEG findings
- Paragonimus westermani*
Hatsushika, R.; Maejima, J.; and Kamo, H., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (3), 129-136
Paragonimus spp., experimental mixed infections, development and interspecific relationships in final host (dog, cat, or rat)
- Paragonimus westermani* (Kerbert 1878)
Miyazaki, I.; Terasaki, K.; and Iwata, K., 1978, *J. Parasitol.*, v. 64 (3), 559-560
Paragonimus westermani, natural infection of muscles of *Sus scrofa leucomystax*, may be important source of human infection: Miyazaki Pref., Kyushu Island
- Paragonimus westermani*, *illus.*
Murphy, J. C.; Fox, J. G.; and Shalev, M., 1979, *J. Am. Vet. Med. Ass.*, v. 175 (9), 981-984
Macaca fascicularis (lungs): imported to Boston, Massachusetts
- Paragonimus westermanii*
Soulsby, E. J. L., 1976, *Immunol. Parasit. Infect.*, 152-161
helminth infections, serodiagnosis, review
- Paragonimus westermani*
Tai, A. Y.; and Sung, Y. C., 1975, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 21 (2), 169-182
Parapotamon spinescens hsingyiense subsp. nov.
Sinopotamon kwanhsienense sp. nov.
S. chekiangense sp. nov.
Isolapotamon sinense sp. nov.
all from China
- Paragonimus westermani*, *illus.*
Terasaki, K., 1977, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 26 (4), 222-229
Paragonimus spp., chromosome studies: Japan
- Paragonimus westermani*
Tsuji, M., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Paragonimus westermani*
Volkmer, K. J.; and Braband, H., 1975, *ROEFO*, v. 122 (3), 265-267
Paragonimus westermani, humans, radiologic pulmonary changes, differentiation from tuberculosis
- Paragonimus westermani*
Zhong, H.; Xu, Z.; and Gao, P., 1979, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 25 (1), 33-42
Semisulcospira libertina
Cambaroides dauricus
C. similis
humans
all from K'uantien county, Liaoning Province, China
- Paragonimus westermani ichunensis* n. subsp., *illus.*
Zhong, H.; Xu, Z.; and Gao, P., 1979, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 25 (1), 33-42
cats (stools, lungs)
dogs (stools, lungs)
Cambaroides dauricus
C. schrenckii
Semisulcospira amurensis
all from Heilungkian Province, China
- Paragyrodactylus Gvozdev & Martechov*, 1953
Kritsky, D. C.; and Thatcher, V. E., 1977, *Publicaciones Espec. (4)*, *Inst. Biol., Univ. Nac. Autonom. Mexico*, 53-60
Gyrodactylidae
key
- Paragyrodactylus* n. g.
Szidat, L., 1973, *Ang. Parasitol.*, v. 14 (1), 1-10
Gyrodactylidae
mt: *P. superbus* n. g., n. sp.
- Paragyrodactylus superbus* n. g., n. sp. (mt), *illus.*
Szidat, L., 1973, *Ang. Parasitol.*, v. 14 (1), 1-10
Paragyrodactylus superbus n. g., n. sp., unusual organ function, evolutionary implications; presence of *Cercomonas* sp. as symbiont in intestine
Corydoras paleatus: Aquarium des Naturhistorischen Museums, 'Bernardino Rivadavia', Buenos Aires, Argentinien
- Parahaliotrema Mizelle et Price*, 1964
Yamaguti, S., 1968, *Monogenetic trematodes of Hawaiian fishes*, 287 pp., *illus.*
as syn. of *Haliotrema Johnston et Tiegs*, 1922
- Parahemiurus merus* (Linton, 1910)
Boyce, N. P. J., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 813-820
acquisition of parasites by *Oncorhynchus gorbuscha* during migration from Bella Coola River to Fitz Hugh Sound, British Columbia
Oncorhynchus gorbuscha (stomach)
- Parahemiurus merus* (Linton, 1910)
Parukhin, A. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, *Akad. Nauk Ukrain. SSR*, s. Biol. Moria, 80-96
Atropus atropus
Decapterus sp. 3
Chorinemus lysan
all from South China Sea
- Parahemiurus sardiniae* Yamaguti, 1934
Nikolaeva, V. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, *Akad. Nauk Ukrain. SSR*, s. Biol. Moria, 52-66
Sardina pilchardus sardina (intestine): Tyrrhenian Sea

- Paralecithodendrium kasakhstanica* Tschun-Sjun et Genis, 1962-1963
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Castroia nyctali* Gvozdev, 1953
- Paralepidophyllum Yamaguti*, 1934
Arai, H. P., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 799-803
as syn. of *Lepidophyllum Odhner*, 1902
- Paralepidophyllum pyriforme*
Arai, H. P., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 799-803
as syn. of *Lepidophyllum pyriforme* (Yamaguti, 1934) n. comb.
- Paralepoderma brumpti* (Buttner, 1950), illus.
Grabda-Kazubska, B., 1975, Acta Parasitol. Polon., v. 23 (41-51), 463-484
Paralepoderma cloacicola, *P. brumpti*, *P. progeneticum*, morphology of developmental stages compared, validity of species discussed
Planorbis planorbis: Wegorzewo Fishing Establishment hatchery
Rana temporaria (exper.)
Natrix natrix (exper.)
- Paralepoderma brumpti*
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Planorbis planorbis: Crimea
- Paralepoderma cloacicola* (Luehe, 1909), illus.
Grabda-Kazubska, B., 1975, Acta Parasitol. Polon., v. 23 (41-51), 463-484
Paralepoderma cloacicola, *P. brumpti*, *P. progeneticum*, morphology of developmental stages compared, validity of species discussed
Planorbis planorbis (exper.)
Rana temporaria (exper.)
Natrix natrix (exper.)
- Paralepoderma cloacicola* (Luehe, 1909) Dollfus, 1957, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana temporaria: Czechoslovakia
- Paralepoderma progeneticum* Buttner, 1951, illus.
Grabda-Kazubska, B., 1975, Acta Parasitol. Polon., v. 23 (41-51), 463-484
Paralepoderma cloacicola, *P. brumpti*, *P. progeneticum*, morphology of developmental stages compared, validity of species discussed
Planorbis planorbis: Mazurian Lakeland
- Paramicrocotyle* n. g.
Caballero y C., E.; and Bravo-Hollis, M., 1972, Rev. Biol. Trop., v. 20 (2), 151-165
Microcotylidae, tod: *P. atriobursata* n. sp.

Lipnitskii, S. S.; and Iakubovskii, M. V., 1975, *Vet. Nauka--Proizvod.*, Trudy, Minsk, v. 13, 143-147
helminths, protozoa, cattle, influence of micro-elements in host diet on infectivity
- [Paramphistomatidae] paramphistomatid
Nikolaenko, G. V.; Zharikov, I. S.; and Luchko, V. P., 1977, *Vet. Nauka--Proizvod.*, Trudy, Minsk, v. 15, 90-93
[Paramphistomatidae], antigen, preparation, analysis of components by disc electrophoresis with and without previous ultrasonic treatment; experimental immunization of rabbits
- [Paramphistomatidae sp.] paramphistomatid
Orlovskii, V. I.; and Zharikov, I. S., 1970, *Nauch. Trudy, Nauchno-Issled. Vet. Inst.*, v. 8, 70-73
Planorbis planorbis
Anisus vortex
A. contortus
all from Pukhovichsk region
- Paramphistomes
Ambu, S., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (3), 443-444
amphistomes, intensity of infection in slaughtered cattle and buffaloes: Shah Alam abattoir, Selangor, Malaysia
- Paramphistome sp.
Kamara, J. A., 1975, *Bull. Animal Health and Prod. Africa*, v. 23 (3), 265-268
Syncerus caffer: Sierra Leone
- Paramphistomes
Selim, M. K.; et al., 1970, *Vet. Med. J.*, Giza, v. 17 (18), 173-193
cattle
sheep
all imported to United Arab Republic
- Paramphistomes
Sharma, S. C.; and Asthana, V. S., 1978, *Indian Vet. Med. J.*, v. 2 (2), 83-84
paramphistomes, buffaloes, cows, and bullocks, clinical aspects, distodin and quixalin: Andala, Aligarh District, Uttar Pradesh
- Paramphistomiasis
Gupta, R. P.; and Malik, P. D., 1979, *Indian Vet. J.*, v. 56 (10), 834-838
helminths, sheep, trodax, activity under field and controlled conditions

- Paramphistomiasis
Iakubovskii, M. V.; and Zharikov, I. S., 1974, Vet. Nauka--Proizvod., Trudy, Minsk, v. 12, 113-119
paramphistomiasis, cattle, economic effectiveness of treatment and control measures, mathematical formula for evaluation: Brestsk oblast, Belorussian SSR
- Paramphistomiasis
Orlovskii, V. I.; and Zharikov, I. S., 1974, Vet. Nauka--Proizvod., Trudy, Minsk, v. 12, 120-121
fascioliasis and paramphistomiasis, bovine, distribution in Vitebsk oblast
- Paramphistomiasis
Zharikov, I. S.; et al., 1975, Vet. Nauka--Proizvod., Trudy, Minsk, v. 13, 104-105
paramphistomiasis, calves, increased activity of malate and succinate dehydrogenase in blood; changes apparently more from excretory, secretory and metabolic products than from mechanical influence of parasite
- Paramphistomiasis
Zharikov, I. S.; Orlovskii, V. I.; and Kaminiskii, I. I., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 74-77
paramphistomiasis, bovine, hexachlorparaxylol and fenasal, ineffective in chronic disease
- Paramphistomidae [sp.]
Venkata Rama Krishna, G.; and Simha, S. S., 1977, Comp. Physiol. and Ecol., v. 2 (4), 242-244
larval trematodes, depletion of carbohydrate reserves in *Lymnaea luteola* f. *typica*: Kakatiya Univ., Warangal, A. P., India
- [Paramphistomum] paramphistomami
Bashirov, R. G., 1975, Vet. Nauka--Proizvod., Trudy, Minsk, v. 13, 129-134
nematodes, trematodes, cattle, age and seasonal dynamics on specialized farms: Belorussia
- Paramphistomum sp.
Bratanov, V.; Penchev, P.; and Dinev, P., 1977, Vet. Med. Nauki, v. 14 (2), 45-49
helminths in sewage, decontamination by electrocoagulation and electroflotation after preliminary treatment with calcium hydroxide: livestock farms, Bulgaria
- Paramphistomum spp.
Corba, J.; et al., 1979, Brit. Vet. J., v. 135 (4), 318-323
helminths of sheep and cattle, efficacy of fenbendazole
- Paramphistomum spp., *illus.*
Corba, J.; Pacenovsky, J.; and Krupicer, I., 1976, Vet. Med. Rev. (2), 181-189
Fasciola hepatica, sheep; *Paramphistomum* spp., cattle, brotianide
- Paramphistomum sp.
Heinichen, I. G., 1973, J. South African Vet. Ass., v. 44 (3), 265-269
Aepyceros melampus (rumen, reticulum): Nyala Game Ranch, northwest of Empangeni, Zululand
- Paramphistomum sp.
Zajicek, D.; et al., 1977, Vet. Med., Praha, v. 50, v. 22 (2), 99-108
Paramphistomum sp., lambs (exper.), pathogenic effect on blood values, amino-transferases, alkaline phosphatase, minerals in blood serum
- Paramphistomum *calicophorum* Fiscoeder
Gupta, N. K.; and Gupta, N., 1977, Riv. Parasitol., Roma, v. 38 (1), 37-51
as syn. of *Calicophoron calicophorum* (Fiscoeder, 1901) Nasmark, 1937
- Paramphistomum *cervi*, *illus.*
Altaif, K. I.; et al., 1978, Ann. Trop. Med. and Parasitol., v. 72 (2), 151-155
Paramphistomum cervi, experimental studies with local aquatic snails to establish possible intermediate hosts, only *Bulinus truncatus* was susceptible to infection: Iraq
- Paramphistomum *cervi*
Fromunda, V.; and Popescu, S., 1977, Rev. Crest. Animalelor, v. 27 (7), 41-46
Fasciola hepatica, *Dicrocoelium lanceatum*, *Paramphistomum cervi*, ruminants, intermediate hosts, pasture habitat, seasonal distribution, preventive and control measures, review
- Paramphistomum *cervi*, *illus.*
Graubmann, H. D.; Graefner, G.; and Odening, K., 1978, Monatsh. Vet.-Med., v. 33 (23), 892-898
Paramphistomum cervi, red and roe deer, prevalence, intensity, pathology, morphology of worm
Rotwild
Rehwild
(zwischen den Zotten im Bereich der Pansenpeifer of both)
- Paramphistomum *cervi*
Gupta, P. P.; Singh, B.; and Dutt, S. C., 1978, Indian Vet. J., v. 55 (6), 491-492
Paramphistomum cervi, gross pathology, need for further study in India to determine prevalence and pathogenicity
buffalo (intestine)
- Paramphistomum *cervi* (Zeder, 1790), *illus.*
Kamburov, P.; Vasilev, I.; and Sumnaliev, P., 1976, KheImintologija, Sofija, v. 1, 19-22
Planorbis planorbis: Bulgaria
[*Ovis aries*] (exper.)
- Paramphistomum *cervi*
Kraneburg, W., 1978, Berl. u. Munchen. Tierarztl. Wchnschr., v. 91 (3), 46-48
Paramphistomum cervi, cattle, incidence in 3 different marshy areas in North Germany, presence of mature cercariae in *Planorbis planorbis* and *Anisus vortex* in spring suggests that parasite overwinters in the snails
- Paramphistomum *cervi*, *illus.*
Kraneburg, W.; and Boch, J., 1978, Berl. u. Munchen. Tierarztl. Wchnschr., v. 91 (4), 71-75
Paramphistomum cervi, development in cattle, sheep, and roedeer (all exper.)

- Paramphistomum cervi* Zeder, 1970, illus.
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
- Paramphistomum cervi*, illus.
Mandawat, S.; and Sharma, P. N., 1978, Indian J. Exper. Biol., v. 16 (9), 968-972
Paramphistomum cervi, acetyl and butyryl cholinesterase, histochemical distribution
- Paramphistomum cervi* (Schränk/Zeder, 1790)
Odening, K., 1978, Ang. Parasitol., v. 19 (1), 58-62
synonymy
- Paramphistomum cervi* Schränk/Zeder, 1790, illus.
Odening, K.; Bockhardt, I.; and Graefner, G., 1978, Monatsh. Vet.-Med., v. 33 (5), 179-181
synonymy
Cervus elaphus maral (exper.)
Rind: DDR
Reh: DDR
Rothirsch: DDR
Anisus vortex (exper.)
Armiger crista (exper.)
Bathyomphalus contortus (exper.)
Planorbis planorbis (exper.)
Segmentina nitida (exper.)
Schafe (exper.)
- Paramphistomum cervi* (Zeder, 1790), illus.
Odening, K.; Bockhardt, I.; and Graefner, G., 1979, Zool. Jahrb., Jena, Abt. Syst., v. 106 (2), 214-241
synonymy, key
Paramphistomum spp., morphology and development of larval stages, variation and species differentiation, intermediate host specificity
Anisus leucostomus
A. vortex
Armiger crista
Bathyomphalus contortus
Gyraulus albus
Planorbis planorbis
Segmentina nitida
(all exper.)
- Paramphistomum cervi* (Zeder, 1790), illus.
Sey, O.; and Arru, E., [1978], Riv. Parasitol., Roma, v. 38 (2-3), 1977, 295-301
Paramphistomum cervi previously reported from Sardinia was probably *P. microbothrium*
- Paramphistomum cervi*, illus.
Sharma, P. N.; and Hora, C., 1979, Indian J. Exper. Biol., v. 17 (11), 1271-1273
Paramphistomum cervi, histochemical demonstration of monoamine oxidase in tissues
- Paramphistomum cervi*
Zdzitowiecki, K.; et al., 1977, Bull. Acad. Polon. Sc., Cl. II, s. Sc. Biol., v. 25 (8), 537-539
". . . there is no evidence of morphological nature sound enough to regard *P. cervi*, *P. leydeni* and *P. scotiae* as three independent species."
cattle: slaughterhouses of Lublin and Warsaw
Cervus elaphus
Alces alces
Dama dama
Capreolus capreolus
sheep
all from Poland
- Paramphistoma* (*Cotylophorum*) *cotylophorum* (Fischöeder): Fukui, 1929
Gupta, N. K.; and Gupta, N., 1977, Riv. Parasitol., Roma, v. 38 (1), 37-51
as syn. of *Cotylophoron indicum* (Stiles and Goldberger, 1910) Nasmark, 1937
- Paramphistomum cotylophorum* Fischöeder: Ben Dawes, 1936
Gupta, N. K.; and Gupta, N., 1977, Riv. Parasitol., Roma, v. 38 (1), 37-51
as syn. of *Cotylophoron indicum* (Stiles and Goldberger, 1910) Nasmark, 1937

Nollen, P. M.; and Murray, H. D., 1978, J.
Parasitol., v. 64 (1), 178-180
Philophthalmus gralli identified on basis
of growth characteristics, snail host, adult
size and location, and certain morphologic
features, treatment method developed
Tarebia granifera: Brackenridge Park, San
Antonio, Texas
chickens (attached to outside of nictitating
membrane in lower portion of eye) (exper.)
- Philophthalmus gralli*
Nollen, P. M.; Samizadeh-Yazd, A.; and Snyder,
D. E., 1979, J. Parasitol., v. 65 (5), 772-776
Philophthalmus spp., longevity and hatcha-
bility of miracidia, effects of salinity,
pH, and temperature
- Philophthalmus lachrymosus* Braun, 1902
Travassos, L.; et al., 1963, Atas Soc. Biol.
Rio de Janeiro, v. 7 (4), 6-7
Larus dominicanus: Cabo Frio, Estado do Rio
de Janeiro
- Philophthalmus megalurus*
Nollen, P. M.; Samizadeh-Yazd, A.; and Snyder,
D. E., 1979, J. Parasitol., v. 65 (5), 772-776
Philophthalmus spp., longevity and hatcha-
bility of miracidia, effects of salinity,
pH, and temperature
- Philophthalmus nocturnus* Looss, 1907
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr.
Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types
described, structure apparently independent
of family, habitat, or food habits
chicken (eyes)
- Philophthalmus rhionica* n. sp., illus.
Tikhomirov, I. A., 1976, Vestnik Leningrad.
Univ. (15), Biol. (3), 33-47
Philophthalmus rhionica n. sp., life cycle
Melanopsis praemorsa (nat. and exper.)
(heart, digestive gland): Rioni river
valley, western Gruziiia
Gallus gallus domesticus (exper.) (conjunc-
tival sac)
[Leporidae] kroliki [author gives Latin
name as *Rattus norvegicus*] (exper.) (con-
junctival sac)
- Philophthalmus rhionica* [nomen nudum]
Semenov, O. Iu., 1976, Vestnik Leningrad.
Univ. (15), Biol. (3), 26-32
Philophthalmus rhionica, miracidium chemo-
reception system functions to differentiate
specific host *Melanopsis praemorsa* from other
snail species, not for searching, "inductor"
substance(s) localized in snail mucus
initiates recognition by miracidium

- Philophthalmus rizalensis*, illus.
Manuel, M. F.; and Sison, M. O., [1977],
Philippine J. Vet. Med., v. 15 (1-2), 1976,
64-74
incidence, intensity
Anas boschas (eye): Philippines
- Phocitrema fusiforme* Goto et Ozaki, 1930
Deliamure, S. L.; and Popov, V. N., 1974,
Parazitologiya, Leningrad, v. 8 (2), 89-92
helminths of *Pusa hispida ochotensis*, sea-
sonal variation: Okhotsk Sea
- Pholeter gastrophilus* (Kossack, 1910)
Beverley-Burton, M., 1978, J. Fish. Research
Bd. Canada, v. 35 (10), 1356-1359
Lagenorhynchus acutus (stomachs, duodenum):
Lingley Cove, Edmunds, Maine
- Phyllodistomum* sp.
Davis, J. R.; and Huffman, D. G., 1978, Texas
J. Sc., v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologi-
cally different habitats, variation with
habitat, season, and host size
Gambusia affinis (urinary bladder): near
San Marcos, Texas
- Phyllodistomum* sp.
Kazakov, B. E., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 64-70
Leuciscus idus: Kol'skii peninsula, USSR
- Phyllodistomum* sp.
Kazakov, B. E., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 64-70
Salvelinus alpinus: Kol'skii peninsula,
USSR
- Phyllodistomum angulatum* Linstow
Iziumova, N. A.; Mashtakov, A. V.; and Kash-
kovskii, V. V., 1977, Inform. Biul. Inst.
Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[*Lucioperca lucioperca*] (urinary bladder):
Kamsk reservoir
- Phyllodistomum* (*Catoptroides*) *carangis* Manter,
1947
Parukhin, A. M., 1966, Respublik. Mezhdedomstv.
Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria,
80-96
Chorinemus lysan (intestine): South China
Sea
- Phyllodistomum conostomum* (Olsson, 1876), illus.
Bakke, T. A.; and Lien, L., 1978, Internat. J.
Parasitol., v. 8 (2), 155-161
Phyllodistomum conostomum, tegumental surface
microtopography, scanning electron microscopy
Salmo trutta (kidney ducts): southern Norway
- Phyllodistomum conostomum*
Kennedy, C. R., 1978, J. Fish Biol., v. 13
(4), 457-466
parasite fauna of *Salvelinus alpinus*, com-
parison of species composition, number, di-
versity, and equitability in lakes on Nor-
wegian mainland and its offshore Arctic
islands, results do not agree well with pre-
dictions of island biogeographical theory
Salvelinus alpinus: Skogsfjordvann lake,
Ringvassoy, Troms, Norway
- Phyllodistomum conostomum*
Kononov, S. M.; Shevliakov, A. G.; and
Krasin, V. K., 1970, Parazitologiya, Lenin-
grad, v. 4 (6), 547-556
parasite fauna of various groups of young
Oncorhynchus nerka, comparative analysis
reveals 3 ecological groups: Lake Aza-
bach'e, Kamchatka river basin
- Phyllodistomum conostomum*
Makhovenko, E. T., 1972, Parazitologiya, Len-
ingrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different eco-
logical niches, possible use of differences
in parasite fauna between groups as biologi-
cal tags: Lake Azabach'e, Kamchatka
- Phyllodistomum conostomum* (Olsson, 1876), illus.
Skriabina, E. S., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 148-155
description
Coregonus peled
Stenodus l[eucichthys] nelma
Coregonus sardinella
Thymallus arcticus pallasii
Coregonus lavaretus (kidney)
C. nasus
all from middle course of Kolyma river
- Phyllodistomum elongatum* Nybelin, 1926
Moravec, F., 1978, Scripta Fac. Scient. Nat.
Univ. Purkynianae Brun., Biol., v. 8 (2), 77-
80
Tinca tinca
Cyprinus carpio
Scardinius erythrophthalmus
all from Macha Lake fishpond system, Czecho-
slovakia (N. Bohemia)
- Phyllodistomum elongatum*
Otvodova, G. D., 1975, Izvest. Gosudarstv.
Nauchno-Issled. Inst. Ozer. i Rech. Ryb.
Koziaistva, Leningrad, v. 93, 112-116
[*Abramis brama*] (urinary bladder): Pskov-
Chudskoe lake
- Phyllodistomum elongatum* Nybelin, 1926
Skriabina, E. S., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 148-155
Leuciscus l. baicalensis (kidney): middle
course of Kolyma river
- Phyllodistomum elongatum*
Wierzbicka, J., 1977, Acta Parasitol. Polon.,
v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish
with some data on seasonal dynamics of in-
festation
Abramis ballerus: Dabie lake, Poland
- Phyllodistomum folium* (Olfers, 1916)
Moravec, F., 1978, Scripta Fac. Scient. Nat.
Univ. Purkynianae Brun., Biol., v. 8 (2), 77-
80
Esox lucius: Macha Lake fishpond system,
Czechoslovakia (N. Bohemia)
- Phyllodistomum folium*
Wierzbicka, J., 1977, Acta Parasitol. Polon.,
v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish
with some data on seasonal dynamics of in-
festation
Abramis brama
Abramis ballerus
Blicca bjoercna
all from Dabie lake, Poland

- Phyllodistomum megalorchis*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 64-70
Salmo trutta m. lacustris
S. t. m. fario
Thymallus thymallus
all from Kol'skii peninsula, USSR
- Phyllodistomum (Phyllodistomum) mirandai* sp.
nov., illus.
Lamothe-Argumedo, R., [1971], An. Inst. Biol.,
Univ. Nac. Mexico, v. 40 (1), s. Zool., 1969,
21-42
Sphaeroides annulatus (vejiga urinaria):
Salina Cruz, Oaxaca, Mexico
- Phyllodistomum parvicava* [of] Kaw, 1950
Vicente, J. J.; and dos Santos, E., 1976,
Atas Soc. Biol. Rio de Janeiro, v. 18, 27-42
as syn. of Gorgoderina (Gorgorimma) parvi-
cava Travassos, 1922
- Phyllodistomum (Microlecithus) psettodi* sp. nov.,
illus.
Parukhin, A. M., 1966, Respublik. Mezhvedomstv.
Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria,
97-104
Psettodes erumei (urinary bladder): Gulf of
Tonkin, Democratic Republic of Vietnam
- Phyllodistomum simile*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 64-70
Thymallus thymallus: Kol'skii peninsula,
USSR
- Phyllodistomum staffordi*
Aliff, J. V.; Smith, D.; and Lucas, H., 1977,
Tr. Am. Micr. Soc., v. 96 (1), 145-148
Ictalurus melas
I. punctatus
all from middle Georgia
- Phyllodistomum thunni* n. sp., illus.
Baudin Laurencin, F.; and Richard, J., 1974,
Bull. Mus. National Hist. Nat., Paris, 3. s.
(166), Zool. (111), 1973, 1041-1043
Thunnus albacares (vessie urinaire, ure-
teres): golfe de Guinee
- Pisciamphistoma* sp.
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107
(1), 207-212
Lepomis macrochirus: Florida
- Pisciamphistoma stunkardi*
Aliff, J. V.; Smith, D.; and Lucas, H., 1977,
Tr. Am. Micr. Soc., v. 96 (1), 145-148
Esox americanus vermiculatus
Lepomis auritus
L. macrochirus
all from middle Georgia
- Placodiscus*
Ogawa, K.; and Egusa, S., 1978, Bull. Japan.
Soc. Scient. Fish. (Nippon Suisan Gakkaishi),
v. 44 (12), 1329-1332
validity needs further examination
- Plagioporus hypentelii* Hendrix 1973, illus.
Hendrix, S. S., 1978, J. Parasitol., v. 64 (4),
606-612
Plagioporus hypentelii, life history and sea-
sonal biology, effect of snail sex and age
on daughter sporocyst burden, photoperiodic-
ity of cercarial emergence
Hypentelium nigricans (intestine)
Leptoxis carinata (nat. and exper.) (rectum)
Sialis infumata (nat. and exper.)
Culex pipiens (exper.)
Xiphophorus helleri (exper.)
all from Monocacy River drainage, Pennsylva-
nia
- Plagioporus idoneus* (Nicoll, 1909) Price, 1934
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
synonymy
Anarhichas lupus (intestine): Flemish Cap,
eastern seaboard of Canada
A. minor (intestine): Funk Island Bank,
eastern seaboard of Canada
- Plagioporus (Plagioporus) multilobatus* sp. n.,
illus.
Travassos, L.; de Freitas, J. F. T.; and
Buehrnheim, P. F., 1966, Atas Soc. Biol. Rio
de Janeiro, v. 10 (2), 35-38
Haemulon sp. (estomago, intestino): Escola
de Pesca Caboclo Bernardo, Santa Cruz (Oceano
Atlantico), Estado do Espirito Santo, Brasil
- Plagioporus nicolli* (Issaitschikov) Price, 1934
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of Caudotestis nicolli Issaitschikov,
1928
- Plagioporus (Caudotestis) nicolli* (Issaitschikov)
Yamaguti, 1953
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of Caudotestis nicolli Issaitschikov,
1928
- Plagioporus (Plagioporus) nicolli* (Issaitschikov)
Skrjabin and Koval, 1958
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4),
399-431
as syn. of Caudotestis nicolli Issaitschikov,
1928
- Plagioporus novellus* n. sp., illus.
Maillard, C.; and Lambert, M., 1978, Ann.
Parasitol., v. 53 (4), 367-371
Conger conger (intestin moyen): Sete, Golfe
du Lion en Mediterranee occidentale
- Plagioporus shawi* (McIntosh, 1939) n. comb.,
illus.
Margolis, L., [1972], An. Inst. Biol., Univ.
Nac. Mexico, v. 41 (1), s. Zool., 1970, 99-108
Syn.: Podocotyle shawi McIntosh, 1939
Oncorhynchus nerka (intestine): Columbia
and Quinault rivers, Pacific coast of U.S.A.
- Plagioporus shawi*
Olson, R. E., 1978, Calif. Fish and Game,
v. 64 (2), 117-120
Oncorhynchus kisutch (intestine): Pacific
Ocean off Newport, Oregon
- Plagioporus sinitsini* Mueller, 1934
Davis, J. R.; and Huffman, D. G., 1978, Texas
J. Sc., v. 30 (1), 43-53
helminths of Gambusia affinis from ecologi-
cally different habitats, variation with
habitat, season, and host size
Gambusia affinis (gall bladder): near San
Marcos, Texas

- Plagioporus (Caudotestis) tyrrhenicus sp. n.,
illus.
Paggi, L.; and Orecchia, P., 1976, Parassitologia, v. 18 (1-3), 21-32
Blennius pavo (intestino): litorale fra Santa Marinella e Civitavecchia, Prov. Roma
- Plagioporus varius, illus.
MacKenzie, K.; and Gibson, D. I., 1970, Symposia Brit. Soc. Parasitol., v. 8, 1-42
distribution in host gut
Pleuronectes platessa
Platichthys flesus
(intestine of all): all from Scotland
- Plagiorchidae [sp.], illus.
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
[Felis catus] (exper.)
[Blicca bjoerkna]: Neman river basin
- Plagiorchidae [sp.]
Venkata Rama Krishna, G.; and Simha, S. S., 1977, Comp. Physiol. and Ecol., v. 2 (4), 242-244
larval trematodes, depletion of carbohydrate reserves in Lymnaea luteola f. typica: Kakatiya Univ., Warangal, A. P., India
- Plagiorchida
Grabda-Kazubska, B., 1976, Acta Parasitol. Polon., v. 24 (11-19), 125-141
plagiorchid trematodes, life cycles, modifications of normal 3-host life cycle (progenesis and elimination of metacercariae), evolutionary significance of these tendencies, possible origin of certain amphibian parasites
- Plagiorchidae
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
key
key to Rajasthan genera
- Plagiorchidae, cercaire virgule sp. n° 18
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ventrosa: cote de France (Mediterranean)
- Plagiorchidae [sp.]
Voronin, V. N., 1974, Parazitologiya, Leningrad, v. 8 (4), 359-364
hyperparasitized by Nosema exiphidiocercariae sp. n.
Lymnaea palustris: lake Dolgoe, Leningradsk oblast
- Plagiorchioidea
Bayssade-Dufour, C.; and Bourgat, R., 1975, Bull. Mus. National Hist. Nat., Paris, 3. s. (313), Zool. (220), 853-859
Plagiorchioidea and Brachylaemoidea, comparison of cercaria indicates that the similarities in chaetotaxy are result of a close relationship and not convergence
- Plagiorchis
Khotenovskii, I. A., 1972, Parazitologiya, Leningrad, v. 6 (1), 79-82
Pleurogenidae, Lecithodendriidae, Plagiorchidae, parasites of bats, morphology, localization in host intestine, and mode of feeding briefly discussed as examples of adaptive evolution of the parasites
- Plagiorchis sp.
Kamiya, M.; and Kanda, T., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (4), 271-275
Rattus rattus: Ishigaki Is., southwestern Japan
- Plagiorchis sp.
Kamiya, H.; and Machida, M., 1977, Bull. National Sc. Mus., s. A, Zool., v. 3 (3), 125-129
Rattus rattus: Ishigaki-jima Island, Okinawa Prefecture, Japan
- Plagiorchis sp., illus.
Krasnolobova, T. A., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 92-118
Philomachus pugnax
Tringa totanus
Limosa limosa
Nyroca ferina
Anas platyrhynchos
Mus musculus
Nyctereutes procyonoides
(all exper.)
- Plagiorchis sp.
Leong, T. S.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 122-126
parasites of Rattus r. diardii, influence of human habitats on rat parasite fauna
Rattus rattus diardii (small intestine): Kuala Lumpur and nearby villages
- Plagiorchis sp.
Ramalingam, S.; and Samuel, W. M., 1978, Canad. J. Zool., v. 56 (11), 2454-2456
Bubo virginianus (intestine): Alberta, Canada
- Plagiorchis sp.
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 88-92
Stercorarius longicaudatus: northern areas of Central Siberia
- Plagiorchis sp., illus.
Styczynska-Jurewicz, E., 1971, Acta Parasitol. Polon., v. 19 (19-28), 257-268
cercariae of 3 marine species vs. a freshwater species, life span and behavior in relation to changes in salinity
Lymnaea auricularia: artificial reservoir in Forest of Paimpont near Rennes, France
- Plagiorchis sp., illus.
Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (rectum, duodenum): Baltic Coast, Gdansk Province, Poland
- Plagiorchis amplexaustoria Mituch, 1964
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of Plagiorchis vespertilionis (Muel-ler, 1780) Braun, 1900
- Plagiorchis elegans Rud., 1802
Iliushina, T. L., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 55-64
Chironomus plumosus
Psectrocladius psilopterus
Phryganea grandis
all from Karasuk lake system

- Plagiorchis elegans* Rudolphi, 1802, illus.
 Krasnolobova, T. A., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 92-118
Plagiorchis elegans, development in final hosts, morphological variation, effect of host species, parasite age, and season
 Syn.: *Plagiorchis laricola* Skrjabin, 1924
Corethra sp. (exper.)
Larus minutus (exper.)
Chlidonias nigra (exper.)
Coloeus monedula (exper.)
Sylvia borin (exper.)
Parus major
Fringilla coelebs
Locustella fluviatilis
Dendrocopos major
Corvus cornix
Falco subbuteo

Eutropiichthys vacha (intestine): Gomati River, Lucknow, India
- Polyorchitrematinae* Price, 1940
Lamothe-Argumedo, R., [1973], *Rev. Soc. Mexicana Hist. Nat.*, v. 31, 1970, 183-191
Cryptogonimidae
includes: *Polyorchitrema*; *Iheringtrema*

- Polystoma**
Lambert, A.; Combes, C.; and Ktari, M. H., 1978, Ztschr. Parasitenk., v. 56 (2), 175-181
Polystomoides, relationships to other genera in Polystomatidae based on morphology of oncomiracidia
- Polystoma Zeder**
Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Polystoma baeri**, illus.
Murith, D., 1979, Ztschr. Parasitenk., v. 59 (2), 187-194
Dicroglossus occipitalis (branchies) (nat. and exper.): Cote-d'Ivoire
- Polystoma dorsalis**, illus.
Murith, D., 1979, Ztschr. Parasitenk., v. 59 (2), 187-194
Dicroglossus occipitalis (branchies): Cote-d'Ivoire
- Polystoma ebriensis** Maeder, 1973, illus.
Dupouy, J., 1978, Rev. Zool. Africaine, v. 92 (3), 775-785
description of adult
Ptychadena aequiplicata (vessie): Cameroun
- Polystoma ebriensis**, illus.
Murith, D., 1979, Ztschr. Parasitenk., v. 59 (2), 187-194
Dicroglossus occipitalis (branchies): Cote-d'Ivoire
Ptychadena aequiplicata (exper.)
- Polystoma grassei** Euzet, Combes et Knoepffler, 1966
Dupouy, J.; and Combes, C., 1977, Ann. Sc. Nat., Zool. et Biol. Animale, 12. s., v. 19 (4), 397-400
Polystoma grassei, internal direct cycle of reproduction in urinary bladder of host, Leptopelis ocellatus: Kala, a proximite de Yaounde, Cameroun
- Polystoma integerrimum**, illus.
Fournier, A., 1979, Ztschr. Parasitenk., v. 59 (2), 169-185
Polystoma integerrimum, P. pelobatis, tegument, ultrastructure during various stages of development
- Polystoma integerrimum**, illus.
Fournier, A.; and Combes, C., 1978, Zoomorphol., v. 91 (2), 147-155
Polystoma integerrimum, structure and function of eyespots of free-swimming larva studied by electron microscopy, light concentration occurs by reflection rather than by refraction and all Polystomatidae appear to present this reflecting system (same structure also found in P. pelobatis, Eupolystoma alluaudi, and Polystomoides ocellatum)
- Polystoma integerrimum** (Froelich, 1791) Rudolphi, 1807
Frandsen, F., 1974, Acta Parasitol. Polon., v. 22 (1-11), 49-66
Rana esculenta
R. temporaria
R. arvalis
(urinary bladder of all): all from Denmark
- Polystomum integerrimum**
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Polystoma integerrimum** (Froehlich), illus.
Lambert, A., 1977, Compt. Rend. Acad. Sc., Paris, v. 285, s. D, Sc. Nat., (14), 1243-1246
larval chaetotaxy and ciliated cells
- Polystoma integerrimum**
Macdonald, S.; and Combes, C., 1978, Chronobiologia, v. 4 (3), 277-285
Polystoma integerrimum from Rana temporaria, hatching rhythm of oncomiracidia under different experimental conditions of light and darkness and temperature
- Polystoma integerrimum** (Froelich, 1791) Rudolphi, 1808, illus.
Prokopic, J.; and Krivanec, K., 1975, Acta Scient. Nat. Brno, n. s., v. 9 (3), 48 pp.
helminths of amphibians, incidence, host affinities
Rana arvalis
R. temporaria
(urinary bladder of all): all from Czechoslovakia
- Polystoma integerrimum** (Froelich, 1791)
Skriabin, V. A., 1979, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (2), 74-75
Bufo viridis (urinary bladder): Crimea
- Polystoma mangeloti**, illus.
Murith, D., 1979, Ztschr. Parasitenk., v. 59 (2), 187-194
Dicroglossus occipitalis (branchies): Cote-d'Ivoire
- Polystoma naevius** Caballero y Cerecero, 1941, illus.
Lamothe-Argumedo, R., [1978], An. Inst. Biol., Univ. Nac. Mexico, v. 47 (2), s. Zool., 1976, 1-7
redescription
Smilisca baudinii (vejiga urinaria): Estacion de Biologia Tropical Los Tuxtlas, Sontecomapan, Veracruz
- Polystoma pelobatis** Euzet & Combs, 1965
Combes, C.; and Knoepffler, L. P., 1977, Vie et Milieu, s. C, Biol. Terr., v. 27 (2), 215-219
Pelobates cultripes (vessie urinaire): Corbieres, Pyrenees-Orientales
- Polystoma pelobatis**, illus.
Fournier, A., 1979, Ztschr. Parasitenk., v. 59 (2), 169-185
Polystoma integerrimum, P. pelobatis, tegument, ultrastructure during various stages of development

- Polystoma pelobatis* (Euzet and Combes, 1965)
Fournier, A.; and Combes, C., 1978, *Zoomorphol.*, v. 91 (2), 147-155
Polystoma integerrimum, structure and function of eyespots of free-swimming larva studied by electron microscopy, light concentration occurs by reflection rather than by refraction and all *Polystomatidae* appear to present this reflecting system (same structure also found in *P. pelobatis*, *Eupolystoma alluaudi*, and *Polystomoides ocellatum*)
- Polystomatidae*
Fournier, A.; and Combes, C., 1978, *Zoomorphol.*, v. 91 (2), 147-155
Polystoma integerrimum, structure and function of eyespots of free-swimming larva studied by electron microscopy, light concentration occurs by reflection rather than by refraction and all *Polystomatidae* appear to present this reflecting system (same structure also found in *P. pelobatis*, *Eupolystoma alluaudi*, and *Polystomoides ocellatum*)

description
Mullus barbatus
M. surmuletus
all from Motril, Mar de Alboran

- Posthodiplostomulum cuticola
Chernyshenko, A. S., 1966, Respublik. Mezhdomestv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)
- Posthodiplostomum
Palmieri, J. R., [1978], Great Basin Nat., v. 37 (4), 1977, 481-488
Posthodiplostomum minimum, host induced morphological variations (testes number, size, and shape; ovary measurements and position; vitelline gland distribution; egg size); due to lack of host specificity as well as overlap of egg and body sizes of species of Posthodiplostomum, it is apparent that several reported species are not valid
- Posthodiplostomum
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
key to some genera based on cercarial sensory apparatus
- Posthodiplostomum australe Dubois, 1937
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
description
Phalacrocorax sulcirostris: Tailem Bend, South Australia
P. melanoleucos: Tailem Bend, South Australia
Pelecanus conspicillatus: Tailem Bend, South Australia
Hydroprogne caspia: Tailem Bend, South Australia
Egretta alba: Tailem bend, South Australia
Ardea novaehollandiae: Tailem Bend, and Swan Reach, South Australia
Nycticorax caledonicus: Mary River, Northern Territory
- Posthodiplostomum brevicaudatum (Nordmann, 1832), illus.
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
Strigeata, description and taxonomic significance of cercarial sensory apparatus, distribution of sensillae
Planorbis planorbis: Volga delta
- Posthodiplostomum brevicaudatum
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Planorbis planorbis: Crimea
- Posthodiplostomum brevicaudatum
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrain. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Planorbis planorbis: Crimean reservoirs
- Posthodiplostomum brevicaudatum (Nordmann, 1832) Wisniewski, 1958
Wierzbicki, K., 1970, Acta Parasitol. Polon., v. 18 (1-12), 45-55
Perca fluviatilis (retina and chorioid of eyes): Lake Dargin, Mazurian Lakeland, Poland
- P[osthodiplostomum] cuticola
Afanas'ev, V. I., 1978, Veterinariia, Moskva (8), 71-72
Lernaea cyprinacea, Argulus foliaceus, P[osthodiplostomum] cuticola, pathology in fish
- Posthodiplostomum cuticola, illus.
Koerting, W., 1977, Fisch u. Umwelt (4), 37-48
fish parasites, histopathological changes
- Posthodiplostomum cuticola (Nordmann, 1832)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Ardea cinerea]
[Ardea purpurea]
[Egretta alba]
[Egretta garzetta]
[Nycticorax nycticorax]
(intestine of all): all from Black Sea preserve, Kherson oblast
- Posthodiplostomum cuticola
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
[Blicca bjoerkna]
[Rutilus rutilus]
[Leuciscus idus]
[Aspius aspius]
[Scardinius erythrophthalmus]
all from Neman river basin
- Posthodiplostomum cuticola
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Abramis ballerus
Blicca bjoercna
all from Dabie lake, Poland
- Posthodiplostomum minimum (MacCallum, 1912)
Amin, O. M., 1977, Tr. Wisconsin Acad. Sc., Arts and Lett., v. 65, 225-230
fish parasites, differential distribution in two streams
Semotilus atromaculatus: southeastern Wisconsin
- Posthodiplostomum minimum
Bulow, F. J.; and Anderson, R. D., 1979, Progr. Fish. Cult., v. 41 (2), 73
parasites of fish liver, tissue press counting technique
- Posthodiplostomum minimum (MacCallum, 1921) Dubois, 1936
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of Lepomis gibbosus, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (liver, kidney): Ryan Lake, Algonquin Park, Ontario
- Posthodiplostomum minimum (MacCallum, 1921) Davis, J. R.; and Huffman, D. G., 1978, Texas J. Sc., v. 30 (1), 43-53
helminths of Gambusia affinis from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (musculature): near San Marcos, Texas

- Posthodiplostomum minimum, illus.
Latimer, D. C.; and Meade, T. G., 1979, Texas J. Sc., v. 31 (1), 53-58
Posthodiplostomum minimum, Schistosoma mansoni, cercarial responses to uninfected and P. minimum-infected sera of Lepomis sp. at different dilutions, pericercarial envelope formation
- Posthodiplostomum minimum (MacCallum, 1921), illus.
Palmieri, J. R., 1976, Great Basin Nat., v. 36 (3), 334-346
Posthodiplostomum minimum, synonymy, development in variety of vertebrate hosts
Lepomis gibbosus (nat. and exper.)
L. macrochirus macrochirus
Micropterus dolomieu dolomieu (exper.)
Physa gyrina (nat. and exper.)
Lymnaea reflexa (nat. and exper.)
Larus delawarensis
Sterna forsteri
Ardea herodias
Gallus domesticus (exper.)
Meleagris gallopavo (exper.)
Passer domesticus (exper.)
Parus atricapillus (exper.)

Zenaidura macroura (exper.)
Anas platyrhynchos (exper.)
Ambystoma tigrinum (nat. and exper.)
Bufo americanus (exper.)
Rana pipiens (nat. and exper.)
Eurycea bislineata (exper.)
Chrysemys picta (nat. and exper.)
Thamnophis radix (nat. and exper.)
T. sirtalis
Iguana iguana (exper.)
Larus argentatus (exper.)
Columba livia (exper.)
Peromyscus leucopus (exper.)
Tamias striatus (exper.)
Ondatra zibethicus (exper.)
Oryctolagus cuniculus (exper.)
Blarina brevicauda (exper.)
Didelphis marsupialis (exper.)
Mustela erminea (exper.)
Mus musculus (exper.)
Meriones unguiculatus (exper.)
Felis catus (exper.)
Canis familiaris (exper.)
all from Miller's Bay, Iowa
- Posthodiplostomum minimum (MacCallum, 1921), illus.
Palmieri, J. R., 1977, Great Basin Nat., v. 37 (2), 129-137
Posthodiplostomum minimum, centrarchid strain in various ecologically abnormal experimental hosts, host-induced variations of body measurements and tegument
Physa gyrina
sunfish
Bufo americanus
Ambystoma tigrinum
Chrysemys picta
Didelphis marsupialis
Felis catus
Larus argentatus
Meriones unguiculatus
- Posthodiplostomum minimum (MacCallum, 1921), illus.-- Continued.
Palmieri, J. R., 1977, Great Basin Nat., v. 37 (2), 129-137
Gallus domesticus
Rana pipiens
Thamnophis radix
Columba livia
Zenaidura macroura
Ardea herodias
Canis familiaris
Iguana iguana
(all exper.)
- Posthodiplostomum minimum, illus.
Palmieri, J. R., 1977, Great Basin Nat., v. 37 (3), 375-382
Posthodiplostomum minimum, host-induced variations in size, shape, and complexity of oral sucker, acetabulum, and holdfast organ
- Posthodiplostomum minimum, illus.
Palmieri, J. R., [1978], Great Basin Nat., v. 37 (4), 1977, 481-488
Posthodiplostomum minimum, host induced morphological variations (testes number, size, and shape; ovary measurements and position; vitelline gland distribution; egg size); due to lack of host specificity as well as overlap of egg and body sizes of species of Posthodiplostomum, it is apparent that several reported species are not valid

- Prosthodendrium chilostomum*
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Prosthodendrium chilostomum* (Mehlis, 1831) Dollfus, 1931
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
synonymy
- Prosthodendrium cryptolecithum* Zdzitowiecki, 1969
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Prosthodendrium longiforme* (Bhalerao, 1926)
- Prosthodendrium dinanantum* (Bhale Rao 1926; Dolfus 1931), illus.
Ramulu, G. R.; and Rao, L. N., 1979, Proc. Indian Acad. Sc., Sect. B, Animal Sc., v. 88 (2, pt. 1), 145-151
Prosthodendrium dinanantum, *P. pyramidum*, nerve arrangement, distribution and characterization of esterases
Rhinopoma kieneri
- Prosthodendrium erhardovae* Rysavy, 1954
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Prosthodendrium longiforme* (Bhalerao, 1926)
- Prosthodendrium* (*Paralecithodendrium*) *latum* sp. n., illus.
Fischthal, J. H., 1976, Rev. Zool. Africaine, v. 90 (3), 640-648
Chamaeleo africanus (small intestine, anterior part): Waza and Yagoua, Cameroon
- Prosthodendrium longiforme* (Bhalerao, 1926), illus.
Groschaft, J.; and Tenora, F., 1971, Folia Parasitol., v. 18 (2), 127-138
description
Eptesicus serotinus (small intestine)
Taphozous nudiventris
Megaderma lyra (small intestine)
all from Afghanistan
- Prosthodendrium longiforme* (Bhalerao, 1926)
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
synonymy
- Prosthodendrium loossi* (Pande, 1935), illus.
Groschaft, J.; and Tenora, F., 1971, Folia Parasitol., v. 18 (2), 127-138
description
Eptesicus nasutus (small intestine)
Pipistrellus coromandra (small intestine)
all from Afghanistan
- Prosthodendrium minor* sp. n., illus.
Groschaft, J.; and Tenora, F., 1971, Folia Parasitol., v. 18 (2), 127-138
Myotis longipes (small intestine): Jalal-Abad, Afghanistan
- Prosthodendrium mirabilis* Zdzitowiecki, 1969
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Acanthatrium tatrense* Zdzitowiecki, 1967
- Prosthodendrium ovimagosum* (Bhalerao, 1926)
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
synonymy
Taphozous k. kachhensis (intestine): Jaisalmer Dist., Rajasthan, India
- Prosthodendrium parvouterus* (Bhalerao, 1926), illus.
Groschaft, J.; and Tenora, F., 1971, Folia Parasitol., v. 18 (2), 127-138
synonymy, description
Taphozous nudiventris (intestine)
Megaderma lyra (small intestine)
Scotophilus heathi (small intestine)
all from Afghanistan
- Prosthodendrium parvouterus sensu* Hurkova (1959)
Groschaft, J.; and Tenora, F., 1971, Folia Parasitol., v. 18 (2), 127-138
"In our opinion, *P. parvouterus sensu* Hurkova (1959) is identical with *P. pushpai* Bhalerao, 1936, . . ."
- Prosthodendrium parvouterus* [sensu] Macaberidze and Khotenovskiy (1967)
Groschaft, J.; and Tenora, F., 1971, Folia Parasitol., v. 18 (2), 127-138
"The trematodes defined by Macaberidze and Khotenovskiy (1967) as *P. parvouterus* seem to be identical with the findings by Rohde (1963) named *Prosthodendrium* (*Prosthodendrium*) *swansonii* Macy, 1936 (?). We assume that both mentioned identifications are erroneous and that the specimens are identical with the described *P. brachyurna* sp. n."

- Prosthodendrium pushpai Bhalerao (1936)
Groschaff, J.; and Tenora, F., 1971, Folia Parasitol., v. 18 (2), 127-138
"In our opinion, *P. parvouterus sensu Hurkova* (1959) is identical with *P. pushpai* Bhalerao, 1936, . . ."
- Prosthodendrium pyramidum (Looss 1896; Macy 1936), illus.
Ramulu, G. R.; and Rao, L. N., 1979, Proc. Indian Acad. Sc., Sect. B, Animal Sc., v. 88 (2, pt. 1), 145-151
Prosthodendrium dinanantum, *P. pyramidum*, nerve arrangement, distribution and characterization of esterases
Rhinopoma kieneri
- Prosthodendrium (Prosthodendrium) swansoni Macy, 1936(?) [sensu] Rohde (1963)
Groschaff, J.; and Tenora, F., 1971, Folia Parasitol., v. 18 (2), 127-138
"The trematodes defined by Macaberi and Khotenovskiy (1967) as *P. parvouterus* seem to be identical with the findings by Rhode (1963) named Prosthodendrium (Prosthodendrium) swansoni Macy, 1936 (?). We assume that both mentioned identifications are erroneous and that the specimens are identical with the described *P. brachyurna* sp. n."
- Prosthodendrium wastesticulorum Mituch, 1964
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Prosthodendrium longiforme* (Bhalerao, 1926)
- Prosthogonimus Luehe, 1899
Krasnolobova, T. A.; Iliushina, T. L.; and Rybakova, Z. I., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 73-75
Prosthogonimus, extent of development of reproductive system varies with final host and cannot be used as criterion for splitting genus into subgenera
- Prosthogonimus sp.
Davidson, W. R.; et al., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 156-161
Bonasa umbellus: Michigan
- Prosthogonimus sp., illus.
Iliushina, T. L., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 55-64
description of metacercaria
Acilius sp.: Karasuk lake system
- Prosthogonimus sp. (*Cercaria vesiculosa*), illus.
Manohar, L.; and Venkateswara Rao, P., 1978, Acta Zool. et Path. Antverpiensia (70), 157-166
Cercaria vesiculosa of *Prosthogonimus* sp. in *Lymnaea luteola* (foot, mantle, digestive gland), distribution in host, abundance determined by planimetry, relationship between size of host and extent of infection, definite ratio between mass of parasite and mass of host digestive gland in a given age group
- Prosthogonimus sp.
Venkateswara Rao, P.; et al., 1977, Riv. Parasitol., Roma, v. 38 (1), 13-21
Prosthogonimus sp. cercariae, cercaricidal effect of certain common fertilizers, ammonium sulphate may be cercaricide of choice
- Prosthogonimus cuneatus* (Rudolphi, 1809)
Bain, G. A.; and Threlfall, W., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 219-221
Lophodytes cucullatus (large intestine, Bursa of Fabricius, cloaca): Ontario
- Prosthogonimus cuneatus* (Rudolphi, 1809)
Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Anas rubripes (large intestine, air sacs)
Bucephala clangula (bursa)
all from Canada
- Prosthogonimus ketupi* Jaiswal, 1957
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
Nephron percnopterus ginginiunus (bursa fabricii)
- Prosthogonimus* (*Prosthogenotrema*) *limani* Gnedina, 1941
Krasnolobova, T. A.; Iliushina, T. L.; and Rybakova, Z. I., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 73-75
as syn. of *Prosthogonimus* (*Prosthogonimus*) *ovatus*
- Prosthogonimus macrorchis*, illus.
Sarvey, M. R.; and Bhilegaonkar, N. G., 1979, Indian Vet. J., v. 56 (1), 65-66
deshi hen (egg): Nagpur
- Prosthogonimus ovatus*
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Prosthogonimus ovatus*
Humphrey, J. D., 1979, Austral. Vet. J., v. 55 (4), 205-207 [Letter]
domestic fowl (alimentary tract): Papua New Guinea
- Prosthogonimus ovatus* Rud., 1803
Iliushina, T. L., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 55-64
Sympetrum flaveolum
S. vulgatum
Aeschna juncea
Limnophylus rhombicus
Phryganea grandis
all from Karasuk lake system
- Prosthogonimus* (*Prosthogonimus*) *ovatus*, illus.
Krasnolobova, T. A.; Iliushina, T. L.; and Rybakova, Z. I., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 73-75
Prosthogonimus ovatus, synonymy, extent of development of reproductive system varies with definitive host
Gallus gallus dom. (bursa of Fabricius) (exper.)
Anas platyrhynchos dom. (bursa of Fabricius) (exper.)
Sympetrum flaveolum: Karasuksk region, Novosibirsk oblast
Aeschna juncea: Karasuksk region, Novosibirsk oblast

- Prosthogonimus ovatus* (Rud., 1803)
Petrova, K., 1976, *Khelminologiia*, Sofia, v. 1, 78-87
 Corvus corone cornix
 Pica pica
 (bursa of Fabricius of all): all from Stara Planina mountain, Bulgaria
- Prosthogonimus ovatus* (Rudolphi, 1803)
Stoimenov, K.; K'osev, B.; and Bonev, B., 1976, *Khelminologiia*, Sofia, v. 2, 104-109

Anas boschas (small intestine): Philippines
- Psilochasmus longicirratu* Skrjabin, 1913
Sharma, P. N., [1978], Riv. Parassitol., Roma, v. 38 (2-3), 1977, 233-245
intestinal trematodes from various vertebrates, hydrolytic enzymes, distribution in parasite gut, functional significance
- Psilochasmus oxyurus* (Creplin, 1825) Luehe, 1909 emend. Gupta, 1957
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
synonymy
Anas crecca (intestine): Jaisalmer Dist., Rajasthan, India
- Psilochasmus oxyurus* (Creplin, 1825) Luehe, 1909 Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (ileum): Baltic Coast, Gdansk Province, Poland
- Psilorchis Thapar et Lal*, 1935
Sharma, P. N., 1977, Riv. Parassitol., Roma, v. 38 (1), 7-11
key to species, includes: *P. ajagainis*; *P. indicus*; *P. thapari*; *P. seekhpari*; *P. udaipurensis* n. sp.
- Psilorchis udaipurensis* n. sp.
Sharma, P. N., 1977, Riv. Parassitol., Roma, v. 38 (1), 7-11
[lapsus p. 10 as *P. udaipurensis*] key
Casarea ferruginea (intestine): Bhatewar (Udaipur), India
- Psilorchis udaipurensis* [p. 10, lapsus for *P. udaipurensis* n. sp.]
Sharma, P. N., 1977, Riv. Parassitol., Roma, v. 38 (1), 7-11
- Psilostomatidae
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
key
- Psilostomum* sp.
Bain, G. A.; and Threlfall, W., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 219-221
Lophodytes cucullatus (small intestine): Ontario
- Psilostomum* sp.
Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Anas rubripes (large intestine): Canada
- Psilostomum* sp.
Noseworthy, S. M.; and Threlfall, W., 1978, J. Parasitol., v. 64 (2), 365-367
Aythya collaris (large intestine): Canada
- Psilostomum brevicolle* (Creplin, 1829)
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Atlantique)
- Psilostomum brevicolle* (Creplin, 1825)
Grytner-Ziecina, B.; and Sulgostowska, T., 1978, Acta Parasitol. Polon., v. 25 (11-20), 121-128
trematodes of 3 spp. of Anatinæ, distribution in host intestine
Oidemia fusca (duodenum, jejunum, ileum)
Somateria mollissima (ileum)
all from Baltic Coast
- Psilostomum chilkai* Chatterji, 1956
Madhavi, R., 1978, J. Helminth., v. 52 (1), 51-59
as syn. of *Allocreadium fasciatusi* Kakaji, 1969
- Psilotornus* Byrd et Prestwood, 1969
Machalska, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 171-178
diagnosis emended

- Psilotornus confertus* sp. n., illus.
Machalska, J., 1974, Acta Parasitol. Polon., v. 22 (12-21), 171-178
Turdus philomelos
T. iliacus
(cloaca of all): all from Vistula Lagoon, Hel Peninsula, Poland
- Psilotrema spiculigerum* (Muehling, 1898) (*Cercaria tuberculata* Fil. 1857), illus.
Bykhovskaia, I. E. (Pavlovskaia); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Psilotrema spiculigerum* (Muehling, 1898) Odhner, 1913, illus.
Sumnaliev, P.; Kanev, I.; and Vasilev, I., 1977, Khelmitologiya, Sofiya, v. 4, 59-66
Psilotrema spiculigerum, life cycle
[*Gallus gallus*] (exper.)
[pigeons] (exper.)
[*Coturnix japonica*] (exper.)
[*Cavia porcellus*] (exper.)
Bithynia tentaculata: Bulgaria
- Ptychogonimus fontanus*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Stizostedion vitreum (stomach): Susquehanna River, Pennsylvania
- Ptychogonimus megastomus* (Rud., 1819) Luhe, 1900, illus.
Nikolaeva, V. M., 1966, Respublik. Mezhdomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 52-66
Squalus acanthias (stomach): Adriatic Sea

as syn. of *Steringotrema ovacutum* (Lebour, 1908) Yamaguti, 1953
- Rhopalias* sp.
Komma, M. D.; et al., 1972, Rev. Patol. Trop., v. 1 (3), 399-403
Didelphis a. azarae: zona urbana de cidade de Neropolis
- Rhopalias* n. sp., illus.
Komma, M. D.; et al., 1972, Rev. Patol. Trop., v. 1 (3), 399-403
Didelphis a. azarae: zona urbana de cidade de Neropolis

- Rhopalias coronatus* Rudolphi 1819
Kingston, N.; and Tay, J., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 39 (1), s. Zool., 1968, 167
Didelphis marsupialis (intestino): Quintana Roo, Yucatan, Mexico
- Rhopalias coronatus* (Rudolphi, 1819) (Stiles e Hassal, 1898), illus.
Komma, M. D.; et al., 1972, Rev. Patol. Trop., v. 1 (3), 399-403
Didelphis a. azarae (ceco): zona urbana de cidade de Neropolis
- Rhopalias goyanna* n. sp., illus.
Komma, M. D.; and Alves, E. L., 1974, Rev. Patol. Trop., v. 3 (4), 341-345
Didelphis azarae azarae (intestino delgado): Neropolis, Estado de Goias, Brasil
- Rhopalias macracanthus* Chandler 1932
Kingston, N.; and Tay, J., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 39 (1), s. Zool., 1968, 167
Didelphis marsupialis (intestino): Quintana Roo, Yucatan, Mexico
- Rhynchocreadium singhia* Pershad, illus.
Singh, S. P.; and Sinha, D. P., 1977, Indian J. Animal Research, v. 11 (2), 100-104
redescription, taxonomic status discussed
Rhyncobdella aculeata (intestine): Dinapore (Patna)
- Rhytidodes gelatinosus* (Rud., 1819) Looss, 1901, illus.
Bilgees, F. M., 1974, Acta Parasitol. Polon., v. 22 (22-34), 295-303
description
Chelonia mydas (intestine): Karachi coast, Pakistan
- Rhytidodes gelatinosus* (Rud., 1819)
Sey, O., 1977, Acta Zool. Acad. Scient. Hungar., v. 23 (3-4), 387-394
Rhytidodes gelatinosus, morphology
Caretta caretta: Egyptian coast
- Rhytidodoides intestinalis* Price, 1939, illus.
Mehrotra, V.; and Gupta, N. K., 1978, Acta Parasitol. Polon., v. 25 (21-35), 207-210
- Rhytidodoides intestinalis* Price, 1939 of Caballero 1954
Mehrotra, V.; and Gupta, N. K., 1978, Acta Parasitol. Polon., v. 25 (21-35), 207-210
as syn. of *Rhytidodoides pricei* sp. n.
- Rhytidodoides pricei* sp. n., illus.
Mehrotra, V.; and Gupta, N. K., 1978, Acta Parasitol. Polon., v. 25 (21-35), 207-210
Syn.: *R. intestinalis* Price, 1939 of Caballero 1954
Chelone mydas (intestine, duodenum): Island Chepillo, Panama; Gulf of Mannar (Pamban, Tamil Nadu), India
- Ribeiroia marini*
Combes, C.; and Theron, A., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 141-150
trematodes, periodicity of cercarial emission, types of rhythms and factors synchronizing them, adaptive value in completion of life cycle, potential use in prevention of human and animal infection
- Ribeiroia marini guadeloupensis* n. ssp., illus.
Nassi, H., 1978, Acta Trop., v. 35 (1), 41-56
Ribeiroia marini guadeloupensis n. ssp., life cycle, sterilization of *Biomphalaria glabrata* (vector of schistosomiasis), method for producing large quantities of trematode eggs with view to eventual control of snail populations
Biomphalaria glabrata (nat. and exper.)
(voisinage de la cavite pulmonaire, oovestis, glande digestive, organes arteriels)
Tilapia mossambica (nat. and exper.) (canaux du systeme lateral du corps et de la tete, autour de la bouche, des yeux et des opercules ainsi qu'a la base des nageoires)
Poecilia reticulata (nat. and exper.)
Bufo marinus (exper.)
Rattus rattus
R. norvegicus
laboratory rats (exper.) (paroi de la moitie posterieure de l'estomac, region pylorique du duodenum)
all from Guadeloupe
- Ribeiroia marini guadeloupensis* Nassi, 1978
Nassi, H.; Pointier, J. P.; and Golvan, Y. J., 1979, Ann. Parasitol., v. 54 (2), 185-192
Biomphalaria glabrata, biological control using *Ribeiroia marini guadeloupensis* (an autochthonous trematode which sterilizes this snail vector of *Schistosoma mansoni*), field trial: Guadeloupe
- Ribeiroia ondatrae* (Price, 1931) Price, 1942, illus.
Rietschel, G.; and Werding, B., 1978, Ztschr. Parasitenk., v. 57 (1), 57-82
description
Sula leucogaster: Santa Maria, Northern Columbia
- Riojatrema* gen. nov.
Lamothe A., R., [1964], Rev. Soc. Mexicana Hist. Nat., v. 24, 1963, 73-88. [Correction for 1963 b, as published in Supplement 17]

Gu, C.; and Shen, J., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 170-178
Lateolabrax japonicus: along coast of China Sea
- Salmonchus
Ergens, R., 1971, Folia Parasitol., v. 18 (2), 191-192
Tetraonchus Diesing, 1858 accepted as only genus in family Tetraonchidae, systematic independence of the subgenera Tetraonchus (Tetraonchus) and T. (Salmonchus) not accepted
- Salmonchus gvosdevi Spassky et Roytman, 1960
Ergens, R., 1971, Folia Parasitol., v. 18 (2), 139-148
as syn. of Tetraonchus gvosdevi (Spassky et Roytman, 1960)
- Salmonchus lenoki [sensu] Spassky and Roytman (1960)
Ergens, R., 1971, Folia Parasitol., v. 18 (2), 139-148
"The worms identified incorrectly as Salmonchus lenoki by Spassky and Roytman (1960) are, in fact, T. rogersi n. sp.
- Salmonchus skrjabini Spassky et Roytman, 1958
Ergens, R., 1971, Folia Parasitol., v. 18 (2), 139-148
as syn. of Tetraonchus skrjabini (Spassky et Roytman, 1958)

- Sanguinicola* sp.
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Leuciscus idus: Kol'skii peninsula, USSR
- Sanguinicola* sp.
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Esox lucius: Kol'skii peninsula, USSR
- Sanguinicola* sp., illus.
Koerting, W., 1977, Fisch u. Umwelt (4), 37-48
fish parasites, histopathological changes
- Sanguinicola* sp.
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Sanguinicola* sp.
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Radix auricularia
Lithoglyphus naticoides
all from Crimea
- Sanguinicola armata*
Iskov, M. P., 1979, Gidrobiol. Zhurnal, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Sanguinicola armata*
Ollenschlaeger, B., 1975, Tieraerztl. Prax., v. 3 (1), 99-107
blood and other parasites of commercial fish, pathology, transmission, therapy, clinical review
- Sanguinicola inermis*
Didenko, P. P.; et al., 1979, Veterinariia, Moskva (5), 49-50
Sanguinicola inermis, carp, coriban in feed
- Sanguinicola inermis* Plehn, illus.
Hlond, S.; Kozlowski, F.; and Szaryk, A., 1977, Roczniki Nauk Rolnic., s. H, Rybactwo, v. 98 (2), 65-76
Sanguinicola inermis, carp fry, cause of gill necrosis and death, importance of hygienic maintenance of ponds and histopathological examination of gill tissue to determine necessity of prophylactic measures
- Sanguinicola inermis*
Iskov, M. P., 1979, Gidrobiol. Zhurnal, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Sanguinicola inermis* Plehn, 1905
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Cyprinus carpio: Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Sanguinicola inermis*
Ollenschlaeger, B., 1975, Tieraerztl. Prax., v. 3 (1), 99-107
blood and other parasites of commercial fish, pathology, transmission, therapy, clinical review
- Sanguinicola intermedia*
Iskov, M. P., 1979, Gidrobiol. Zhurnal, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Sanguinicola intermedia*
Ollenschlaeger, B., 1975, Tieraerztl. Prax., v. 3 (1), 99-107
blood and other parasites of commercial fish, pathology, transmission, therapy, clinical review
- Sanguinicola volgensis*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Abramis ballerus
Blicca bjoerana
all from Dabie lake, Poland
- Saturnius* n.gen.
Manter, H. W., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 787-792
Hemiuridae, Lecithasterinae
tod: *S. segmentatus* n.sp.
- Saturnius* Manter, 1969, emended
Overstreet, R. M., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 273-284
Hemiuridae, Bunocotylineae
diagnosis
- Saturnius maurepasi* sp. nov., illus.
Overstreet, R. M., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 273-284
Mugil cephalus (under lining of pyloric stomach, rarely in lumen): Mississippi Sound and adjacent water
- Saturnius mugilis* (Yamaguti, 1970) comb. n., illus.
Overstreet, R. M., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 273-284
Syn.: *Bunocotyle mugilis* Yamaguti, 1970
Mugil cephalus (stomach): Hawaii
- Saturnius papernai* sp. nov., illus.
Overstreet, R. M., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 273-284
Mugil cephalus (under lining of pyloric stomach, rarely in lumen): Bardawil Lagoon, northwestern Sinai

Lebedev, B. I., 1976, Biol. Moria, Vladivostok (4), 71-73
Gastrocotylinae, Gastrocotylidae
tod: S. indica sp. n.
- Sawqirahcotyle indica sp. n. (tod), illus.
Lebedev, B. I., 1976, Biol. Moria, Vladivostok (4), 71-73
Trachurus trachurus capensis (gills):
Sauqira Bay, Arabian Sea
- Schiginella n. gen.
Karmanova, E. M., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 53-56
Echinostomatidae, Echinochasmae
tod: S. colymbi (Schigin, 1956) [n. comb.]
- Schiginella colymbi (Schigin, 1956) [n. comb.] (tod)
Karmanova, E. M., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 53-56
Syns.: Episthmium colymbi Schigin, 1956;
Echinochasmus (Episthmium) colymbi (Schigin, 1956) Skrjabin et Baschkirova, 1956; E. (Episthmium) schigini (Schigin, 1956) Bychowskaja-Pawlowskaja, 1962
- Schiginella mathevossianae (Sachtachtinskaja, 1953) n. comb.
Odening, K., 1978, Ang. Parasitol., v. 19 (1), 58-62
Syns.: Episthmium colymbi Sigin in Skrjabin, 1956; E. schigini Bychowskaja-Pavlovskaja, 1962
- Schistosoma
Bartsch, H.; et al., 1978, Mutation Research, v. 58 (2-3), 133-142
praziquantel, absence of mutagenic activity in bacteria, yeasts, insects, and mammalian cells, short-term assays, anti-schistosomal effectiveness of this drug is not related to mutagenic activity
- Schistosoma
Brown, D. S., 1978, Pulmonates, v. 2A, 287-333
pulmonate molluscs as intermediate hosts for digenetic trematodes, review with emphasis on Fasciola and Schistosoma
- Schistosoma "Mekong schistosome"
Byram, J. E.; Imohiosen, E. A. E.; and von Lichtenberg, F., 1978, Am. J. Trop. Med. and Hyg., v. 27 (2, pt. 1), 267-270
Schistosoma spp., mice, hamsters, tissue eosinophil proliferation and maturation
- Schistosoma
Castle, W. M.; Clarke, V. de V.; and Hendrikz, E., 1974, South African Med. J., v. 48 (48), 2035-2038
subclinical bilharziasis, schoolchildren, scholastic achievement, does not affect intelligence but causes susceptibility to mental fatigue thus affecting test scores and speed of productivity: Marandellas district, South Africa
- Schistosoma
Crossland, N. O., 1977, Advances Drug Research, v. 12, 53-88
Fasciola, Schistosoma, mammals, life cycles, relation between parasite numbers and effects of disease, use of incidence and prevalence data to estimate efficiency of control programmes, host and parasite population dynamics, mathematical models, integration of control methods
- Schistosoma
Ducklow, H. W.; et al., 1979, Applied and Environment. Microbiol., v. 38 (4), 667-672
bacterial flora of field and laboratory populations of schistosome vector Biomphalaria glabrata, relevance for biocontrol: Puerto Rico; St. Lucia; Guadeloupe
- Schistosoma
El-Zoghby, S. M.; et al., 1978, Acta Vitaminol. et Enzymol., v. 32 (1-4), 7-11
schistosomal polyposis of large intestine, humans, increased β -glucuronidase activity not carcinogenic nor indicative of presence of malignancy
- Schistosoma
Friedmann, G.; and Thun, F., 1978, Roentgen-Blaetter, v. 31 (4), 242-249
radiologic differential diagnosis of intracranial calcifications including those resulting from parasitism
- Schistosoma
Fripp, P. J., 1978, J. South African Vet. Ass., v. 49 (3), 233-234
schistosomes, rodents as laboratory hosts, review
- Schistosoma
Godfrey, D. G., 1978, Nature, London (5664), v. 273, 600-604
identification of economically important parasites (use of anatomical, biochemical, and behavioral tests), brief review
- Schistosoma, Mekong, illus.
Kruatrachue, M.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 85-96
Mekong Schistosoma eggs and adult males and females, scanning and transmission electron-microscopy
- Schistosom[a] "Mekong schistosome", illus.
von Lichtenberg, F., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (2), 186-204
schistosomiasis, human, mechanisms of immunity and immunopathology, review
- Schistosoma
Mandal, P. C., 1978, Arch. Vet., Inst. Cercet. Vet. si Bioprep. Pasteur, v. 13, 49-55
parasites and other pathologic involvements in liver of pigs, abattoir survey: India
- Schistosoma
Murray, M. J.; et al., 1978, Brit. Med. J. (6145), v. 2, 1113-1115
parasitic (malaria, Schistosoma) and non-parasitic infections, Somali nomads, adverse effect of iron repletion on course of certain infections

- Schistosoma, illus.
Sadun, E. H., 1976, Immunol. Parasit. Infect., 120-129, pls. following p. 132
schistosomiasis, serodiagnosis, review
- Schistosoma, possibly *S. haematobium*, illus.
Saxe, N.; and Gordon, W., 1975, South African Med. J., v. 49 (2), 57-58
schistosomiasis, female, case report, infection of spinal cord and skin, speculations on mode of infection spread: South Africa
- Schistosoma
Smithers, S. R., 1976, Immunol. Parasit. Infect., 296-332
schistosomiasis, fascioliasis, Clonorchis sinensis, Apatemon gracilis, immunity, review
- Schistosoma
Vaidya, D. P.; and Nagabhushanam, R., 1978, Hydrobiologia, v. 61 (3), 267-271
Schistosoma, effect of temperature on survival and development of *Indoplanorbis exustus* snail vectors
- Schistosoma
Warren, K. S., 1976, Immunol. Parasit. Infect., 448-468
immunopathology due to cell-mediated (Type IV) reactions, review
- Schistosoma
Wilson, R. J. M., 1978, Colloque Immun. Parasit. Dis. (Thiverval-Grignon, Sept. 5-9, 1977), 87-101
circulating antigens of parasites, source, nature, fate, and possible effects on immune response, colloquium presentation
- Schistosoma spp.
Rollinson, D., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (5), 601-602 [Letter]
identification and classification of *Bulinus* spp. using enzyme variants is as yet unproved
- Schistosoma bomfordi
Baugh, S. C., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 435-472
schistosomiasis, human, animals, 100-year historical review: India
- Schistosoma bovis
Bickle, Q. D.; et al., 1979, Parasitology, v. 78 (2), 185-193
Schistosoma mattheei, sheep, duration of resistance following homologous vaccination with irradiated schistosomula; heterologous vaccination with *S. mattheei* against challenge with *S. bovis* and with *S. mansoni* against *S. mattheei* failed to induce protection
- Schistosoma bovis
Bushara, H. O.; et al., 1978, Parasitology, v. 77 (3), 303-311
Schistosoma bovis, calves, immunization using irradiated cercariae or schistosomula
- Schistosoma bovis
Frandsen, F., 1979, J. Helminth., v. 53 (4), 349-355
Schistosoma bovis from Morocco, compatibility with various species and strains of *Bulinus truncatus* (exper.)
Bulinus globosus (exper.)
- Schistosoma bovis*
Frandsen, F., 1979, Ztschr. Parasitenk., v. 58 (3), 275-296
Schistosoma spp., relationships with intermediate host snails, need for standardization of materials and methods for studying, assessment of degree of host-parasite compatibility, evaluation of schistosome taxonomy, review
- Schistosoma bovis*
Gameel, A. A., 1974, Acta Vet. Beograd, v. 24 (6), 277-285
Schistosoma bovis, sheep, pathological changes in relation to clinical findings: Sudan
- Schistosoma bovis*, illus.
Ghandour, A. M.; and Babiker, A., 1978, Ann. Trop. Med. and Parasitol., v. 72 (3), 227-230
Schistosoma bovis, in vivo development in Nile rat (*Arvicanthus niloticus*), six stages of development distinguished
- Schistosoma bovis*, illus.
Kuntz, R. E.; et al., 1979, J. Helminth., v. 53 (2), 131-132
Schistosoma bovis, integument surfaces, scanning electron microscopy
- Schistosoma bovis*
Kuntz, R. E.; et al., 1979, Internat. J. Parasitol., v. 9 (3), 213-220
6 schistosome species, susceptibility of *Saimiri sciureus* (exper.)
- Schistosoma bovis*
Ongom, V. L.; Ococi-Jungalo, A. H.; and Wamboka, J. W., 1977, East African Med. J., v. 54 (12), 678-679
mixed *Schistosoma mansoni* and *S. bovis* infection in Sudanese immigrant (stool), case report, significance in relation to current concepts on heterologous immunity discussed, infection possibly acquired from drinking river water frequented by wild animals: Uganda
- Schistosoma bovis*
Ramajo-Martin, V., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 537-549
Schistosoma bovis from Salamanca, Spain, receptivity of different populations of *Planorbarius metidjensis*, *Bulinus truncatus*, and *Biomphalaria glabrata*
- Schistosoma bovis*
Ross, G. C.; Southgate, V. R.; and Knowles, R. J., 1978, Ztschr. Parasitenk., v. 57 (1), 49-56
Schistosoma bovis strains, *S. mattheei*, *S. margrebowiei*, *S. leiperi*, isoenzymes compared by isoelectric focusing, technique for further studies of inter- and intraspecific relationships
Planorbarius metidjensis: Spain
Bulinus africanus: Kenya
B. forskali: Kenya
B. truncatus: Morocco; Kenya; Sardinia; Iran
- Schistosoma bovis*
Rotmans, J. P., 1978, Exper. Parasitol., v. 46 (1), 49-58
Schistosoma mansoni, antigenic characterization of malate dehydrogenase isoenzymes by immunoelectrophoresis, malate dehydrogenase antigens in *S. mansoni*, *S. haematobium*, and *S. bovis* are immunologically indistinguishable, attempted use of these antigens in defined antigen substrate spheres system, not sensitive enough for immunodiagnosis

- Schistosoma bovis*
 Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
 cattle
 camels
 all imported to United Arab Republic
- Schistosoma bovis*
 Taylor, M. G.; et al., 1979, J. Helminth., v. 53 (1), 1-5
Schistosoma bovis, sheep, immunization using irradiated schistosomular vaccine
- Schistosoma bovis*
 Wright, C. A.; Rollinson, D.; and Goll, P. H., 1979, Parasitology, v. 79 (1), 95-105
Bulinus senegalensis and associated parasites, isoelectric focusing studies on enzymes, differences in prevalence and variety of infections in 7 host populations: south bank of Gambia River
- Schistosoma haematobium*
 Abaza, H. H.; et al., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (6), 602-604
Schistosoma mansoni, *S. haematobium*, human, associated complication of polyposis of colon, therapy with oxamniquine was effective and safe: Egypt
- Schistosoma haematobium*
 Abdel-Salam, E.; and Ehsan, A., 1978, Am. J. Trop. Med. and Hyg., v. 27 (4), 774-778
Schistosoma haematobium, children, cystoscopic picture correlated to intensity of infection and morbidity: Guiza governorate, Middle East
- Schistosoma haematobium*
 Abdel-Wahab, M. F.; et al., 1979, Lancet, London (8136), v. 2, 242-244
 changing pattern of schistosomiasis, 1935-1979, predominance of *Schistosoma mansoni* over *S. haematobium*, *Biomphalaria* greatly outnumbers *Bulinus*, public health implications: Difra, Egypt
- S[*chistosoma*] *haematobium*
 Adam, C.; et al., 1978, Protides Biol. Fluids, v. 26, 219-223
 schistosomiasis, filariasis, human, C3d and immune complex levels
- Schistosoma haematobium*, *illus.*
 Adeyemi-Doro, F. A. B.; Osoba, A. O.; and Junaid, T. A., 1979, Brit. J. Vener. Dis., v. 55 (6), 446-449
Schistosoma haematobium, perigenital cutaneous pruritic papular rash, 10-year-old boy, case report, need for biopsy of itchy cutaneous lesions in patients living in endemic areas: Nigeria
- S[*chistosoma*] *haematobium*
 Al-Mallah, A. K.; Abdel Aziz, F. T.; and Hassanein, R. R., 1977, Zentralbl. Vet.-Med., Reihe A, v. 24 (1), 76-80
Schistosoma haematobium, human males, normal rats and Dutch rabbits, ambilhar, activity of serum choline esterase and transaminases as measure of side effects of drug on liver
- S[*chistosoma*] *haematobium*
 Amin, A. H.; and Fenwick, A., 1978, Trop. Doctor, v. 8 (1), 8-12
 schistosomiasis vector snail control, recommendations for use on small scale or by poor developing countries
- Schistosoma haematobium*
 Anderson, R. M.; and May, R. M., 1979, Parasitology, v. 79 (1), 63-94
Schistosoma spp. infections within snail populations, prevalence, spatial and temporal heterogeneity, duration of larval development and its dependence on temperature, mortality rates of infected and uninfected hosts; comparison of observed patterns with model predictions; new age-prevalence model, predictions compared with observed patterns; implications for overall transmission dynamics
- Schistosoma haematobium*
 Arap Siogok, T. K.; et al., 1978, J. Infect. Dis., v. 138 (6), 856-858
Schistosoma haematobium, children, mass treatment with single oral dose of metrifonate, effect on egg output: Coast Province, Kenya
- Schistosoma haematobium*
 Arnold, K., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (2), 177-185
 human parasitic diseases, trends in development of chemotherapy, review
- Schistosoma haematobium*
 Atangana, S.; et al., 1979, Med. Trop., v. 39 (5), 537-543
 onchocerciasis, malaria, humans, epidemiological and vector survey; no evidence of schistosomiasis but potential vectors are present; little evidence of *Toxoplasma gondii*: lac de retenue de Bamendjin, Cameroun
- Schistosoma haematobium*
 Axton, J. H. M.; and Garnett, P. A., 1976, South African Med. J., v. 50 (27), 1051-1053
Schistosoma spp., children, clinical trials with oral oxamniquine, effective only in treating *S. mansoni*
- Schistosoma haematobium*
 Baard, A. P.; et al., 1979, South African Med. J., v. 55 (16), 617-618 [Letter]
 schistosomiasis, hospitalized patients, open dose-finding study and preliminary clinical trials using Ro 11-3128
- Schistosoma haematobium*
 Banna, H. B.; and Plummer, J. M., 1978, Comp. Biochem. and Physiol., v. 61C (1), 33-36
Bulinus truncatus (intermediate host of *Schistosoma haematobium*), effect of N-tritylmorpholine on molluscan heart
- Schistosoma haematobium*
 Bassily, S.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (6), 1284-1286
Schistosoma mansoni, patients with advanced complicated disease (some with concomitant *S. haematobium* infection), treatment with oxamniquine, encouraging results
- Schistosoma haematobium*
 Baugh, S. C., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 435-472
 schistosomiasis, human, animals, 100-year historical review: India

- Schistosoma haematobium*
Beaufils, H.; et al., 1978, Trop. and Geogr. Med., v. 30 (2), 183-191
Schistosoma haematobium, prevalence and type of glomerular lesions in human infections using light microscopy, ultrastructure and immunofluorescence techniques: Mali, Senegal, and Ivory Coast
- Schistosoma haematobium*
Becquet, R., 1975, Ann. Soc. Belge Med. Trop., v. 55 (5), 435-442
intestinal bilharziasis, human, diagnosis, fecal examination, rectal biopsy
- Schistosoma haematobium*
Berkman, M.; et al., 1974, Semaine Hop. Paris, v. 50 (2), 143-149
Schistosoma haematobium, humans, chronic cor pulmonale resulting from schistosomal infection, case reports, medical management
- S[*chistosoma*] *haematobium*
Bertrand, E.; et al., 1971, Semaine Hop. Paris, v. 47 (48), 2729-2735
S[*chistosoma*] *mansoni*, *S. haematobium*, humans, diagnostic aspects of rectal pathology as observed via sigmoidoscopy
- Schistosoma haematobium*, *illus.*
Bhagwandeem, S. B., 1976, South African Med. J., v. 50 (41), 1616-1620
Schistosoma haematobium, human urinary infections, etiological role in bladder cancer critically examined: Zambia
- Schistosoma haematobium*
Biswas, A. K., 1978, Water Supply & Management, v. 2 (4), 283-297
discussion on environmental implications of water development for developing countries: possibility of decreased human parasitism by improving potable water and by reducing human contacts with vectors of water-borne or water-based infections, also possibility of spread of parasitism through development of irrigation canals
- Schistosoma haematobium*
Bozdech, V.; and Moronfoye, I. S., 1974, Ang. Parasitol., v. 15 (3), 141-150
Schistosoma haematobium, humans, incidence, host age and sex, hematuria: Kaduna, northern Nigeria
- Schistosoma haematobium*
Buchanan, N.; et al., 1978, South African Med. J., v. 53 (7), 257-258
Schistosoma haematobium, 11-year-old girl, case report, fatal hepatic necrosis associated with hycanthone therapy: South Africa
- Schistosoma haematobium*
Buck, A. A.; et al., 1978, Tropenmed. u. Parasitol., v. 29 (2), 137-144
human poly-parasitism, types of combinations, relative frequency, and associations of multiple infections, age and sex patterns: Chad; Peru; Zaire
- Schistosoma haematobium*
Buck, A. A.; Anderson, R. I.; and MacRae, A. A., 1978, Tropenmed. u. Parasitol., v. 29 (3), 253-268
polyparasitism, humans, epidemiology, assessment of combined effects of multiple infections on an individual's state of health, comparative analysis of field data obtained from several tropical villages
- Schistosoma haematobium*
Burch, J. B.; et al., 1979, Tropenmed. u. Parasitol., v. 30 (2), 174-178
vector potential of bulinine snails found in Lake Nasser established by count of chromosome numbers, potential susceptibility of these snails must be taken into account in plans to resettle human populations around the lake: Egypt
- Schistosoma haematobium*
Capron, A.; et al., 1974, Tijdschr. Gastroenterol., v. 17 (1), 17-23
hepato-biliary parasitic infections, humans, use of immunologic diagnostic techniques for post-therapeutic evaluations
- Schistosoma haematobium*
Carlier, Y.; Bout, D.; and Capron, A., 1978, Ann. Immunol., v. 129C (6), 811-818
Schistosoma mansoni, circulating M antigen, occurrence in human and experimental infections, specificity (cross-reactions with *S. japonicum* and *S. haematobium*), physicochemical properties
- Schistosoma haematobium*
Cazin, A., 1976, Rev. Infirm. Afrique Noire (45), 5-15
human schistosomiasis, African forms, clinical review
- Schistosoma haematobium*
Cheever, A. W.; et al., 1978, Am J. Trop. Med. and Hyg., v. 27 (1, pt. 1), 55-75
Schistosoma mansoni, *S. haematobium*, humans, quantitative study of 400 consecutive autopsies, extrahepatic pathologic findings correlated with presence or absence of schistosome infection and with intensity of infection: Egypt
- Schistosoma haematobium*
Chu, K. Y., 1978, Bull. World Health Organ., v. 56 (2), 313-322
Schistosoma haematobium, snail control trials by modification of habitat and application of niclosamide: Volta Lake village, Ghana
- Schistosoma haematobium*
Chu, K. Y.; Kpo, H. K.; and Klumpp, R. K., 1978, Bull. World Health Organ., v. 56 (4), 601-608
Schistosoma haematobium, mixing of 'rohlfsi' and 'globosus' strains among human and intermediate hosts: Anyaboni, Ghana
Bulinus (truncatus) rohlfsi (exper.)
B. globosus (exper.)
- Schistosoma haematobium*
Clarke, V. de V.; et al., 1976, South African Med. J., v. 50 (46), 1867-1871
Schistosoma haematobium, *S. mansoni*, human, dose-finding trials for oral oxamniquine, effective only in treating *S. mansoni*: Rhodesia
- Schistosoma haematobium*
Clarke, V. de V.; Blair, D. M.; and Weber, M., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 73-77
Schistosoma mansoni or *S. haematobium* or mixed infections, children, oxamniquine, clinical trials: Rhodesia

- Schistosoma haematobium*
Cocheton, J. J.; and Poulet, J., 1972, *Semaine Hop. Paris*, v. 48 (24), 1709-1717
Schistosoma haematobium, humans, genito-urinary infections, radiologic diagnostic methods, case reports: African immigrant workers in France
- Schistosoma haematobium*, illus.
Coetzee, L. L.; and Jaffe, A. A., 1971, *South African Med. J.*, v. 45 (16), 447-451
Schistosoma haematobium, diffuse pelvic infection in 20-year-old Bantu girl, coincidental Mullerian duct dysgenesis, clinical case report: Baragwanath Hosp., Johannesburg
- Schistosoma haematobium*
Cohen, J. E., 1974, *Social Sc. and Med.*, v. 8 (7), 383-398
Schistosoma mansoni, *S. haematobium*, humans, potential economic benefits of eliminating mortality associated with infection, estimation procedures and theories: Zanzibar
- Schistosoma haematobium*
Courtois, C. M.; and Gebert, F., 1979, *Trop. and Geog. Med.*, v. 31 (3), 381-387
Schistosoma haematobium, recent observations on distribution and infection rates of *Bulinus cercinus* and on human infections in Mauritius
- Schistosoma haematobium*
Dalton, P. R.; and Pole, D., 1978, *Bull. World Health Organ.*, v. 56 (3), 417-426
Schistosoma haematobium, water contact patterns of people according to age, sex, and type of activity, multiple regression analysis: Fatem, Lake Volta, Ghana
- Schistosoma haematobium*
Delia, S.; Nuti, M.; and Soro, S., 1977, *Quad. Sclavo Diag. Clin. e Lab.*, v. 13 (2), 238-243
Schistosoma haematobium, *Ancylostoma duodenale*, higher frequency of hepatitis B antigen in persons with parasitic infections than in controls, possible role of skin penetrating parasites in the epidemiology of hepatitis B
- Schistosoma haematobium*
De Simone, C.; et al., 1978, *Quad. Sclavo Diag. Clin. e Lab.*, v. 14 (4), 443-450
Schistosoma haematobium, infected humans had significantly higher rosette inhibition test values than did normal persons, inhibition probably due to immune complexes
- Schistosoma haematobium*
De Sole, G.; Lemma, A.; and Mazengia, B., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (5), 928-930
Schistosoma haematobium, human, prevalence survey: lower Wabi Shebelle Valley, south-eastern Ethiopia
- Schistosoma haematobium*
Doury, P.; et al., 1977, *Semaine Hop. Paris*, v. 53 (22-23), 1359-1363
parasitic rheumatism, humans, diagnosis, management, possible immuno-allergic mechanism
- Schistosoma haematobium*
Duflo, B.; and Danis, M., 1975, *Rev. Prat.*, Paris, v. 25 (16), 1210-1213
human schistosomiasis, clinical review
- Schistosoma haematobium*
Dukes, I. A. F.; Morris, J. S.; and Chemaly, A. F., 1974, *South African Med. J.*, v. 48 (63), 2614 [Letter]
bilharzia, 29-year-old man, presentation as localized dull pain of longstanding duration, differential diagnosis: Natalspruit Hospital, Alrode, Transvaal
- Schistosoma haematobium*
El-Abdin, A. Z.; and Roushdy, M. Z., 1977, *Egypt. J. Bilharz.*, v. 4 (2), 165-178
Schistosoma haematobium, optimum conditions for life cycle maintenance in *Bulinus* snails and laboratory mammals; hamsters more susceptible to infection than gerbils or mice
- Schistosoma haematobium*
Elbadawi, A.; Khuri, F. J.; and Cockett, A. T., 1979, *Urology*, v. 13 (3), 309-314
Schistosoma haematobium, man, polypoid granulomatous and sclerosing endophlebitis of spermatic cord, pathology, clinical aspects, clinicopathologic classifications of schistosomal funiculitis, case report
- Schistosoma haematobium*
El-Kalouby, A.; et al., 1977, *Egypt. J. Bilharz.*, v. 4 (2), 179-185
S. haematobium, *S. mansoni* and mixed infections, humans, immediate skin test reactions to *Schistosoma* antigen
- Schistosoma haematobium*
El-Raziky, E. H.; et al., 1977, *Egypt. J. Bilharz.*, v. 4 (2), 195-201
Schistosoma mansoni, *S. haematobium*, humans, delayed skin test reactions to *S. mansoni* antigen were increased with host age and severity of infections and were more frequent in males, correlations with immediate skin test reactions
- Schistosoma haematobium*
El-Sawy, M.; et al., 1979, *NATO Advanced Study Inst. Ser., s. A, Life Sc.*, v. 24, 277-279
schistosomiasis in patients with and without neurological symptoms, circumoval precipitin test, indirect haemagglutination test, and immunoglobulins in serum and cerebrospinal fluid
- Schistosoma haematobium*
Enders, B.; et al., 1974, *Rev. Inst. Med. Trop. S. Paulo*, v. 16 (6), 305-316
Schistosoma mansoni antigens purified, evaluated for skin test use by trials in *S. mansoni* areas of Ethiopia, Rhodesia, and Brazil and in *S. haematobium* areas of Sierra Leone; comparisons with WHO standard antigen and stool examinations
- Schistosoma haematobium*, illus.
Erasmus, D. A.; and Davies, T. W., 1979, *Exper. Parasitol.*, v. 47 (1), 91-106
Schistosoma mansoni, *S. haematobium*, calcareous corpuscles in vitelline cells, morphological observations, X-ray microanalysis, effect of drug treatment
- S[*chistosoma*] *haematobium*
Farag, H. F.; et al., 1978, *Tropenmed. u. Parasitol.*, v. 29 (4), 413-416
bilharziasis, human, diagnosis using enzyme-linked immunosorbent assay and homologous antigen, S[*chistosoma*] *haematobium* cases generally were less reactive than *S. mansoni* or mixed infections

- S[chistosoma] haematobium
Farag, H. F.; and Barakat, R. M. R., 1978, Trop. med. u. Parasitol., v. 29 (1), 12-14
S[chistosoma] mansoni, S[chistosoma] haematobium, human, enzyme linked immunosorbent assay, evaluation of use in diagnosis
- Schistosoma haematobium
Fashuyi, S. A.; and Williams, M. O., 1977, Ztschr. Parasitenk., v. 54 (1), 55-60
trematode-infected snails, role of oligochaete Chaetogaster limnaei in dynamics of trematode transmission (possibly protects snails against miracidia, plays no part in reducing number of cercariae), seasonal distribution in relation to cercarial shedding
Bulinus globosus: Bo, Sierra Leone
- Schistosoma haematobium, illus.
Fleischer, N. K. F., 1979, Med. Welt., v. 30 (44), 1625-1630
parasitic tropical diseases, humans, central nervous system involvement, clinical review
- Schistosoma haematobium, illus.
Ford, J. W.; and Blankespoor, H. D., 1979, Internat. J. Parasitol., v. 9 (2), 141-145
Schistosoma, 3 human spp., eggs, scanning electron microscopy
- Schistosoma haematobium
Poster, R., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 1-9
Schistosoma mansoni, S. haematobium, S. japonicum, oxamniquine, efficacy and toxicity in various exper. animals, clinical trials in humans
- Schistosoma haematobium
Frandsen, F., 1979, Ztschr. Parasitenk., v. 58 (3), 275-296
Schistosoma spp., relationships with intermediate host snails, need for standardization of materials and methods for studying, assessment of degree of host-parasite compatibility, evaluation of schistosome taxonomy, review
- Schistosoma haematobium
Frandsen, F., 1979, J. Helminth., v. 53 (3), 205-212
Schistosoma haematobium, strains from Sudan, Zaire, and Zambia, compatibility with various species and strains of Bulinus
Bulinus truncatus
B. africanus
B. cernicus
B. wrighti
B. globosus
(all exper.)
- Schistosoma haematobium
Frandsen, F., 1979, J. Helminth., v. 53 (1), 15-29
Schistosoma haematobium from Egypt, susceptibility of Bulinus spp., prepatent period, cercarial production and duration of infection, effect of different doses of miracidia
Bulinus truncatus
B. globosus
B. cernicus
B. wrighti
(all exper.)
- Schistosoma haematobium
Frandsen, F.; and Madsen, H., 1979, Acta Trop., v. 36 (1), 67-84
schistosomiasis, possible use of Helisoma duryi in biological control as competitor of intermediate host snails, review
- Schistosoma haematobium
Fripp, P. J.; Armstrong, F. A.; and Jaskulla, E., 1972, South African Med. J., v. 46 (47), 1819-1822
Schistosoma haematobium, S. mansoni, cercarial activity, hypochlorite solutions vs. halazone solution, formulations to make small amounts of water potable
- S[chistosoma] haematobium
Gateff, C.; et al., 1971, Ann. Soc. Belges Med. Trop. Parasitol., v. 51 (3), 309-324
S[chistosoma] haematobium, influence of infection on economic capacity of young adult population of workers on sugar cane estate, effect of niridazole treatment: Cameroons
- Schistosoma haematobium, illus.
Ghandour, A. M., 1978, Ann. Trop. Med. and Parasitol., v. 72 (3), 219-225
Schistosoma haematobium, in vivo development in hamster, six stages of development distinguished on basis of morphological and histochemical characteristics
- Schistosoma haematobium, illus.
Gloor, E.; Merz, W. R.; and Tolck, P., 1979, Schweiz. Med. Wchnschr., v. 109 (2), 55-59
ovarian and tubal bilharziasis in Swiss woman who had travelled to Egypt and other African nations, case report
- Schistosoma haematobium, illus.
Gold, C. H., 1978, South African Med. J., v. 53 (17), 681-682
Schistosoma haematobium, woman, case report, associate hepatic and renal amyloidosis: Baragwanath Hospital
- S[chistosoma] haematobium
Goldsmid, J. M.; and Rogers, S., 1977, South African Med. J., v. 51 (2), 29-33
schistosomiasis, humans, criteria used for diagnosis in endemic bilharzial areas (egg recovery, rectal biopsy, eosinophilia, hepatomegaly, serologic and skin test), rational proposal for treatment
- Schistosoma haematobium
Greenham, R., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (1), 72-75
Schistosoma haematobium, possible relationships between infection and severe anemia, hemoglobin levels of adolescent boys particularly low in the presence of schistosomiasis: Kenya
- Schistosoma haematobium
Gremillion, D. H.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 924-927
schistosomiasis, human, morbidity study based on quantitative egg excretion: Saudi Arabian military trainees at Lackland AFB, Texas

- Schistosoma haematobium*
Halawani, A. A.; Farag, H. F.; and Awadalla, H. N., 1977, *Tropenmed. u. Parasitol.*, v. 28 (4), 478-480
Schistosoma haematobium-infected mice challenged with *S. mansoni*, changes in egg-distribution sites, cross-mating, complete absence of cross-immunity
- S[*schistosoma*] *haematobium*
Hassan, F.; et al., 1979, *J. Trop. Med. and Hyg.*, v. 82 (1), 3-7
schistosomiasis, humans, enzyme linked immunosorbent assay (ELISA), immunodiagnosis, compared with indirect fluorescent antibody and indirect hemagglutination tests
- Schistosoma haematobium*
Hatchuel, W., 1977, *South African Med. J.*, v. 52 (22), 870 [Letter]
Schistosoma mansoni, *S. haematobium*, suggested as correct terminology to replace bilharziasis since clinicians must distinguish between species in order to properly treat each disease
- Schistosoma haematobium*
Hayunga, E. G.; et al., 1979, *J. Parasitol.*, v. 65 (4), 497-506
Schistosoma mansoni, antigenicity of radio-labeled surface proteins from adult worms, immunoprecipitation with infected serum, cross-reaction with anti-Schistosoma haematobium and anti-Schistosoma japonicum serum
- Schistosoma haematobium*
Hoffman, D. B., jr.; et al., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (2), 249-259
schistosomiasis, humans, evaluation of current control measures, recommendations for future strategies, report of workshop held in Bellagio, Italy
- Schistosoma haematobium*
van der Horst, R., 1979, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 73 (2), 243-244
Schistosoma haematobium, 16-year-old African female, pericardial involvement with cardiac constriction requiring pericardiectomy, case report
- Schistosoma haematobium*
Hosaka, Y.; and Berry, E. G., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (5), 318-331
schistosome miracidial immobilization caused by tissue extracts prepared from various species or strains of snails, characteristics of immobilizing activity in snail tissues
- Schistosoma haematobium*
Houba, V., 1979, *Kidney Internat.*, v. 16 (1), 30-43
schistosomiasis, experimental renal disease, extensive review
- Schistosoma haematobium*
Huemmer, N.; and Braun, H., 1978, *Roentgen-Berichte*, v. 7 (2), 191-196
Schistosoma haematobium of human urinary tract, diagnostic procedures, typical changes seen on X-ray and cystoscopy, case report
- S[*schistosoma*] *haematobium*
Ismail, M.; et al., 1979, *Parasite Immunol.*, v. 1 (3), 251-258
schistosomiasis in humans and in *Papio anubis*, detection and quantification of antibodies, comparison of thin layer immunoassay vs. enzyme-linked immunosorbent assay
- Schistosoma haematobium*
James, C.; and Prah, S. K., 1978, *J. Helminth.*, v. 52 (3), 221-226
Schistosoma mansoni, *S. haematobium*, penetration efficiency and selective capacity of miracidia based on infection rates produced in *Bulinus pfeifferi* and *B. globosus* respectively, scanning capacity also compared in increasing volumes of water, over increasing horizontal distances, and in running water of different flow rates, effect of miracidial density, epidemiological implications
- Schistosoma haematobium*, *illus.*
James, C.; Webbe, G.; and Nelson, G. S., 1977, *Ztschr. Parasitenk.*, v. 52 (2), 179-194
Schistosoma haematobium and *S. mansoni* in baboons, *S. japonicum* in vervet monkeys, praziquantel in various dosages, good results
- Schistosoma haematobium*
Jobin, W. R., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (1), 142-154
schistosomiasis control, 6 pilot projects, review with emphasis on cost of mollusciciding programs
- Schistosoma haematobium*
Justesen-van Sloterdijck, D. W., 1977, *Acta Leidensia*, v. 45, 61-66
Schistosoma haematobium, quantity and quality of eggs assessed by differential counting of hatched (empty shells) and unhatched eggs in a sediment of human urine
- Schistosoma haematobium*
Kale, O. O.; and Lucas, A. O., 1978, *Rev. Inst. Med. Trop. S. Paulo*, v. 20 (1), 55-63
Schistosoma haematobium, humans, clinical trials, oral and parenteral oxamniquine, assessment of tolerance and toxicity: Western Nigeria
- Schistosoma haematobium*
Kamel, I. A.; et al., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (5), 931-938
Schistosoma mansoni, *S. haematobium*, human, hepatic lesions with emphasis on Symmers' fibrosis, 400 autopsies: Egypt
- Schistosoma haematobium*
Kassis, A. I.; Warren, K. S.; and Mahmoud, A. A. F., 1978, *Cellular Immunol.*, v. 38 (2), 310-318
Schistosoma haematobium, mice, granuloma formation around eggs is largely cell-mediated immunologic reaction, is dependent on dose and route of sensitization, is relatively specific among the 3 schistosome species, and can be transferred with cells but not with serum from previously egg-sensitized mice; furthermore, egg-sensitized animals demonstrate immediate and delayed skin reactivity on challenge with egg antigens
- [*Schistosoma*] *haematobium*
Khafagy, E. Z.; et al., 1976, *Egypt. J. Bilharz.*, v. 3 (2), 199-212
human schistosomiasis, significance of alterations in urinary leucine aminopeptidase in various stages of infection in the presence and absence of hepatic involvement and in bladder cancer of schistosomal origin, correlation of findings with the presence of proteins in urine, possible application to diagnosis

- [Schistosoma] haematobium
Khafagy, E. Z.; El-Raziky, E. H.; and Galal, A. F., 1976, Egypt. J. Bilharz., v. 3 (2), 213-219
human schistosomiasis, estimation of arylsul-
fatase A and B in infected subjects and nor-
mal controls, progressive increase in enzyme
in both mansoni and haematobium infections,
possible relationships between both types of
parasitic infections and the etiology of
schistosomal bladder cancer
- S[chistosoma] haematobium
Kloos, H.; et al., 1977, Trop. and Geogr. Med.,
v. 29 (4), 399-406
S[chistosoma] haematobium, parasitological and
malacological survey, Afar tribe infection
highest among seminomadic Afars living around
swamp and lake areas, female members most
affected because of water contact patterns:
flood plains of Awash River, Ethiopia
- Schistosoma haematobium, illus.
Koller, A. B., 1975, South African Med. J.,
v. 49 (30), 1228-1232
bilharzial and amoebic granulomatous lesions
of the cervix uteri, incidence in South African
Blacks, clinical presentation, macro-
scopic and microscopic features: Baragwanath
Hospital
- Schistosoma haematobium, illus.
Kuntz, R. E.; et al., 1978, Cancer Research,
v. 38 (11, pt. 1), 3836-3839
Schistosoma haematobium, capuchin monkeys
(Cebus apella), papillary lesions of uri-
nary bladder, attempts to autologously and
heterologously transfer bladder lesions
- Schistosoma haematobium
Kuntz, R. E.; Huang, T. C.; and Moore, J. A.,
1979, Trop. and Geogr. Med., v. 31 (4), 477-483
Schistosoma haematobium-infected squirrel
monkey as laboratory host, pathology, tissue
egg deposits, general disease conditions
- Schistosoma haematobium, illus.
Kuntz, R. E.; Moore, J. A.; and Huang, T. C.,
1979, J. Med. Primatol., v. 8 (3), 167-178
Schistosoma haematobium, nonhuman primates
(exper.), distribution of tissue egg depos-
its and macroscopic lesions
Nycticebus coucang
Galago crassicaudatus
Saimiri sciureus
Ateles sp.
Macaca nemestrina
M. fascicularis
M. mulatta
M. speciosa
M. cyclopis
Papio cynocephalus
P. hamadryas
Theropithecus gelada
Cercopithecus aethiops
Erythrocebus patas
Hylobates lar
(all exper.)
- Schistosoma haematobium
van der Kuyp, E., 1977, Surinaams Med. Bull.,
v. 1 (1), 12-14
schistosomiasis, humans, current status as
endemic occupational disease in Surinam
- Schistosoma haematobium
Laba, L., 1974, Ann. Acad. Med. Stetinensis,
suppl. 10, 33-38
schistosomiasis, case reports of infection in
African students living in Poland, unsuccess-
ful therapy with nilodin in one case with
cure after use of ambilhar
- Schistosoma haematobium
Laughlin, L. W.; et al., 1978, Am. J. Trop.
Med. and Hyg., v. 27 (5), 916-918
Schistosoma haematobium, human, prevalence
of bacteriuria: Egypt
- Schistosoma haematobium
Lehman, J. S., jr.; et al., 1971, Radiology, v.
98 (2), 379-380
human mixed Schistosoma haematobium and S.
mansoni infection, colonic calcification and
polyposis diagnosed by radiologic examina-
tion, case report: Egypt
- S[chistosoma] haematobium
McMahon, J. E., 1978, Trop. and Geogr. Med., v.
30 (2), 161-174
schistosomiasis, human, factors affecting
chemotherapy, review
- S[chistosoma] haematobium
Madwar, M. A.; et al., 1978, Clin. and Exper.
Immunol., v. 34 (3), 354-358
S[chistosoma] mansoni, S. haematobium, humans,
concentrations of complement components and
immunoglobulins in sera, implications for
immunopathological effects of schistosomiasis
and for heterogeneity of antigen clearance
- Schistosoma haematobium
Mahon, R. J.; and Shiff, C. J., 1978, J. Para-
sitol., v. 64 (2), 372-373
Schistosoma haematobium, S. mattheei, differ-
entiation of cercariae emerging from Bulinus
snails by separation of phosphoglucomutase
bands by starch gel electrophoresis
- Schistosoma haematobium
Mansour, S. E., 1979, NATO Advanced Study Inst.
Ser., s. A, Life Sc., v. 24, 643-644
schistosomiasis, human, muscular changes
- S[chistosoma] haematobium
Maritz, J. C., 1970, South African Med. J.,
v. 44 (5), 126-128
bilharziasis, school children, hycanthone
clinical trials: Dennilton, Transvaal
- Schistosoma haematobium
Masaba, S., 1978, East African Med. J., v. 55
(11), 497-500
Schistosoma mansoni, S. haematobium, school
children, prevalence, survey of potential
snail intermediate hosts: Bunyala and Samia,
western Kenya
- Schistosoma haematobium
Mason, P. R., 1979, South African J. Sc.,
v. 75 (9), 420-421 [Letter]
ammonia excretion by bulinid snails
- S[chistosoma] haematobium
Matovu, D. B., 1978, Trop. and Geogr. Med., v.
30 (2), 193-197
schistosomiasis, human, present and future
disease situation around proposed man-made
lake, vector survey, brief discussion of con-
trol measures: Mtera, Tanzania

- Schistosoma haematobium*
May, V.; et al., 1973, Rev. Rhumatisme et Mal. Osteo-Art., v. 40 (10), 602-605
Schistosoma haematobium, human, clinical manifestations of rheumatoid arthritis, 2 clinical case reviews: France (natives of Mali)
- Schistosoma haematobium*
Michael, A. I.; Awadalla, H. N.; and Farag, H. F., 1979, Tropenmed. u. Parasitol., v. 30 (1), 62-64
Schistosoma haematobium-infected mice challenged with *S. mansoni*, study of granuloma development suggests presence of cross immunization
- Schistosoma haematobium*
Miller, F. D.; et al., 1979, Lancet, London (8145), v. 2, 749 [Letter]
Schistosoma mansoni, *S. haematobium*, human, prevalence patterns in Egypt
- Schistosoma haematobium*
Mosimann, J. E.; et al., 1978, Biometrics, v. 34 (3), 341-356
Schistosoma mansoni, *S. haematobium*, human (egg-counts from Egyptian autopsy data), proportional distribution of eggs in various body organs in relation to infection intensity
- Schistosoma haematobium*
Nash, T. E., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 939-943
Schistosoma spp., human, specific IgM and IgG antibody response to polysaccharide antigen present in schistosome gut, indirect immunofluorescent technique, easily performed reliable diagnostic test with high sensitivity and specificity
- Schistosoma haematobium*
Nash, T. E.; Ottesen, E. A.; and Cheever, A. W., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 944-950
Schistosoma mansoni, *S. haematobium*, 4 clinically different groups of patients, total IgG and IgM levels, specific IgM and IgG antibody to polysaccharide antigen present in schistosome gut, modulation of antibody response appears primarily dependent on infection duration, total Ig levels depend on infection duration and intensity
- Schistosoma haematobium*
Niemandt, S.; and Murahwa, S., 1975, South African Med. J., v. 49 (45), 1860 [Letter]
Schistosoma haematobium, schoolchildren, trials with metrifonate, annual treatment may reduce prevalence in endemic areas: Rhodesia
- S[*chistosoma*] *haematobium*
Noonan, M. Z.; et al., 1978, Egypt. J. Bilharz., v. 4 (1), 1977, 79-87
S[*chistosoma*] *haematobium*, course of liver disease in bilharzial patients infected with acute viral hepatitis as compared to non-bilharzial controls
- Schistosoma haematobium*
Nutti, M.; et al., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (3), 352-353 [Letter]
Schistosoma haematobium-infected humans, current studies on possible relationships between surface hepatitis B antigen and urinary schistosomiasis in Somalia
- S[*chistosoma*] *haematobium*
Nutti, M.; Abdullahi Elmi, S.; and Alario, C., 1979, Boll. Ist. Sieroterap. Milanese, v. 58 (3), 220-223
S[*chistosoma*] *haematobium*, human, incidence of hepatitis B surface antigen
- Schistosoma haematobium*
Obeng, L. E., 1978, Water Supply & Management, v. 2 (4), 343-350
Starvation or bilharzia?--a rural development dilemma
- S[*chistosoma*] *haematobium*
Okelo, G. B. A.; Mukiibi, J. M.; and Kyobe, J., 1979, East African Med. J., v. 56 (6), 266-269
intestinal parasites, humans, mean eosinophil count higher in infected patients vs. controls, no correlation between eosinophil levels and different intestinal helminths: Nairobi, Kenya
- Schistosoma haematobium*
Omer, A. H. S.; and Teesdale, C. H., 1978, Ann. Trop. Med. and Parasitol., v. 72 (2), 145-150
Schistosoma mansoni, *S. haematobium*, humans, single or mixed infections including some patients passing *S. mansoni* eggs in urine, efficacy of metrifonate, results suggest that site of infection rather than species of parasite renders parasite more susceptible to metrifonate and may further clarify mode of action of metrifonate: Khartoum, Sudan
- Schistosoma haematobium*
Oomen, J. M. V., 1979, Trop. and Geog. Med., v. 31 (3), 395-403
body build and nutritional status of three ethnic groups inhabiting same locality, effects of infections including malaria, *Schistosoma haematobium* and hookworm: Northern Nigeria
- S[*chistosoma*] *haematobium*
Oomen, J. M. V.; Meuwissen, J. H. E. T.; and Gemert, W., 1979, Trop. and Geogr. Med., v. 31 (4), 587-606
males of 3 ethnic groups and 3 age groups inhabiting same locality, haematological status (including anemia), spleen and liver enlargement, immunoglobulin status, malaria parasite rates, other parasite infections, possible associations between these and other factors (including nutrition, sickle cell trait, altered immune response to malaria): Northern Nigeria
- Schistosoma haematobium*
Ouma, J. H.; and Waitthaka, F., 1978, East African Med. J., v. 55 (2), 54-60
prevalence survey for intestinal parasites in Kitui District schoolchildren with special emphasis on study of *Schistosoma mansoni* and *S. haematobium*: Kenya
- Schistosoma haematobium*
Oyasu, R.; and Hopp, M. L., 1974, Surg., Gynec. and Obst., v. 138 (1), 97-108
etiology of bladder cancer, humans, includes possible relationship of *Schistosoma haematobium*

- Schistosoma haematobium*
Oyediran, A. B. O. O., 1979, *Kidney Internat.*, v. 16 (1), 15-22
Schistosoma haematobium, renal impairment and damage, emphasis on radiological, biochemical, and renographic studies of renal function in affected persons
- S[*chistosoma*] *haematobium*
Pamba, H. O.; and Roberts, J. M. D., 1979, *East African Med. J.*, v. 56 (6), 255-262
S[*chistosoma*] *mansoni*, human, prevalence 1967 to 1973 by occupation and tribe, animal exposure and snail examination revealed no evidence for current transmission, possible reasons; 1 case of S[*chistosoma*] *haematobium* found: Lake Naivasha, Great Rift Valley, Kenya
- Schistosoma haematobium*
Patzschke, K.; et al., 1979, *European J. Drug Metab. and Pharmacokinet.*, v. 4 (3), 149-156
praziquantel, serum concentrations and renal excretion in humans after oral administration, results of 3 determination methods
- Schistosoma haematobium*
Phillips, S. M.; and Colley, D. G., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (5), 914-915
schistosomiasis, immunology, brief synopsis of fourth annual informal workshop
- Schistosoma haematobium*, *illus.*
Pieron, R.; et al., 1973, *Semaine Hop. Paris*, v. 49 (50), 3383-3391
Schistosoma haematobium, human, peritoneal and pulmonary involvement, differential diagnosis by surgical biopsy, clinical review: France (native of Mauritania)
- Schistosoma haematobium*
Pitchford, R. J., 1970, *South African Med. J.*, v. 44 (16), 475-477
bilharziasis, humans, gradual reduction in infection rates after environmental control measures and mass therapy introduced in the Eastern Transvaal
- Schistosoma haematobium*
Pitchford, R. J.; and Lewis, M., 1978, *South African Med. J.*, v. 53 (17), 677-680
schistosome infections, human, clinical trials using oxamniquine; effective only with *Schistosoma mansoni*: lowveld of Eastern Transvaal
- Schistosoma haematobium*
Prah, S. K.; and James, C., 1978, *J. Helminth.*, v. 52 (2), 115-120
Schistosoma mansoni miracidia are positively phototactic, sensitive to small changes in light intensities, and indifferent to gravity; *S. haematobium* miracidia are negatively phototactic, unable to distinguish low light intensities from darkness, and positively geotactic; both species could successfully find and infect snails to depth of 2 meters of water
- Schistosoma haematobium*
Pugh, R. N. H., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (5), 495-497
Schistosoma haematobium, human, concurrent single-dose therapy with metrifonate and niridazole: Malumfashi District, Nigeria
- Schistosoma haematobium*
Pugh, R. N. H., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (1), 89-90
Schistosoma haematobium, boys, periodicity of egg output in urine, highest output between 12 and 15 hours: Tunau Primary School, Malumfashi, northern Nigeria
- Schistosoma haematobium*
Pugh, R. N. H., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (2), 189-190
Schistosoma haematobium, males aged 5-20, prime environmental contaminants responsible for more than 77% of infection transmission, need for control measures: Malumfashi area, northern Nigeria
- Schistosoma haematobium*
Pugh, R. N. H., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (2), 191-192
Schistosoma haematobium-infected boys treated 12 months earlier with metrifonate, follow-up intravenous programs support significance of annual chemotherapy programmes in reducing morbidity in boys and in reducing environmental contamination: Malumfashi area, northern Nigeria
- Schistosoma haematobium*
Pugh, R. N. H.; and Gilles, H. M., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (5), 471-482
Schistosoma haematobium, human, survey, age group and sex-specific prevalence and intensity, decline in transmission since 1971, possible impact of new dams: Malumfashi District, Kaduna State, Nigeria
- Schistosoma haematobium*
Pugh, R. N. H.; and Gilles, H. M., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (4), 349-354
Schistosoma haematobium, subjects living in Malumfashi endemic diseases research area, no association found between bacteriuria and parasite infections, probably reflects low intensity of parasite infection: northern Nigeria
- Schistosoma haematobium*
Pugh, R. N. H.; Gilles, H. M.; and Sanderson, J. E., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (3), 293-294
Schistosoma haematobium-infected humans, study indicates that urinary infection does not lead to hypertension: Malumfashi area, northern Nigeria
- Schistosoma haematobium*
Pugh, R. N. H.; Jakubowski, A. W.; and Gilles, H. M., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (1), 37-44
Schistosoma haematobium, boys and adult males in Malumfashi schistosomal study area, changes in radiological appearance of urological lesions during a 4-year period, relationship to changing intensity of infections: Nigeria
- Schistosoma haematobium*, *illus.*
Ramos, S. F., 1973, *South African Med. J.*, v. 47 (44), 2103-2108
late cutaneous bilharziasis, human, definition, macroscopic and microscopic aspects, diagnosis, pathology, frequent localization in genital and perigenital areas: Mozambique

- Schistosoma haematobium, *illus.*
Ramos, S. F., 1973, *Rev. Cien. Med., Univ. Lourenco Marques, s. A.*, v. 6 (2), 187-197
Schistosoma haematobium, survey of cadavers for evidence of latent symptomless infection, cutaneous localization of eggs varied with sex and age of hosts
- S[chistosoma] haematobium
Reeder, M. M., 1975, *Seminars Roentgenol.*, v. 10 (3), 229-243
parasitic infections of human liver and bile ducts, radiologic diagnosis, general review
- Schistosoma haematobium
Rotmans, J. P., 1978, *Exper. Parasitol.*, v. 46 (1), 49-58
Schistosoma mansoni, antigenic characterization of malate dehydrogenase isoenzymes by immunoelectrophoresis, malate dehydrogenase antigens in *S. mansoni*, *S. haematobium*, and *S. bovis* are immunologically indistinguishable, attempted use of these antigens in defined antigen substrate spheres system, not sensitive enough for immunodiagnosis
- Schistosoma haematobium
Rousset, J. J.; Pasticier, A.; and Menager, C., 1975, *Ann. Soc. Belge Med. Trop.*, v. 55 (5), 395-401
urinary bilharziasis, human, diagnosis by rectal mucosal biopsy
- Schistosoma haematobium
Rubidge, C. J.; et al., 1970, *South African Med. J.*, v. 44 (43), 1246
bilharziasis, human urinary tract infections, 3 clinical trials testing hycanthone: Durban, South Africa
- S[chistosoma] haematobium
Rugemalila, J. B., 1979, *Trop. and Geogr. Med.*, v. 31 (3), 375-380
Schistosoma haematobium, infection prevalence in 2 populations living in separate endemic areas compared, host age, symptoms, urological lesions, importance as public health problem: Tanzania
- Schistosoma haematobium
Sadeler, B. Ch.; Monteiro, B.; and Hounkonnou, V., 1978, *Rev. Med. Liege*, v. 33 (9), 336-339
Schistosoma haematobium, human genito-urinary, clinical aspects, therapy: Republique Populaire du Benin
- Schistosoma haematobium
Sadigursky, M.; and Andrade, Z. A., 1978, *Rev. Inst. Med. Trop. S. Paulo*, v. 20 (1), 67-69
Schistosoma mansoni, *S. haematobium*, humans, no evidence of association with renal amyloidosis
- Schistosoma haematobium
Salih, S. Y.; Abu Sabaa, H.; and Mustafa, D., 1978, *J. Trop. Med. and Hyg.*, v. 81 (7), 126-130
Schistosoma mansoni, *S. haematobium*, humans, clinical trials testing efficacy of single dose therapy with hycanthone, some gastrointestinal side effects, cure rates of about 90% with significant reduction in egg excretion in those who were not cured: Sudan
- Schistosoma haematobium
Salih, S. Y.; Bartlett, A.; and Voller, A., 1978, *Tropenmed. u. Parasitol.*, v. 29 (4), 409-412
Schistosoma mansoni, humans, enzyme-linked immunosorbent assay confirmed as highly sensitive test in detecting antibodies against adult worms (*S. haematobium*-infected serum cross-reacted but with significantly lower values); useful for field studies and evaluation of treatment efficacy
- Schistosoma haematobium
Salih, S. Y.; Marshall, T. F. de C.; and Radalowicz, A., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (5), 439-449
Schistosoma mansoni, morbidity in 593 Sudanese patients over 4-year period, laboratory findings compared in 3 egg-count groups and 4 clinical forms of infection; patients with *S. haematobium* and mixed infections included for comparisons: Khartoum Civil Hospital
- Schistosoma haematobium
Salih, S. Y.; Voller, A.; and Woodruff, A. W., 1978, *Tropenmed. u. Parasitol.*, v. 29 (3), 269-274 [Erratum v. 30 (1), 1979, 130]
Schistosoma mansoni patients showing different clinical forms of infection and *S. haematobium* patients before treatment and 6 weeks after treatment with hycanthone, comparison of immunoglobulin levels
- Schistosoma haematobium
Saliternik, Z., 1979, *Trop. and Geogr. Med.*, v. 31 (2), 175-184
Schistosoma mansoni, *S. haematobium*, human, control and eradication, historical review: Israel
- S[chistosoma] haematobium
Sandbach, F. R., 1975, *Social Sc. and Med.*, v. 9 (10), 517-527
S[chistosoma] spp., human, control measures, critical assessment of present policy and suggestions for new emphasis on environmental sanitation, safe water supplies and health education
- Schistosoma haematobium
Schneider, J.; and Fripp, P. J., 1977, *South African Med. J.*, v. 51 (16), 536-540
bilharziasis, humans, diagnosis, classical and atypical manifestations
- Schistosoma haematobium
Schutte, C. H. J.; van Deventer, J. M.; and Eriksson, I. M., 1977, *South African Med. J.*, v. 51 (9), 268-272
Schistosoma haematobium and other intestinal parasites of black children in an endemic schistosomiasis area, incidence survey by age and sex: Natal, South Africa
- Schistosoma haematobium
Sehr, A., 1973, *Rozhl. Chir.*, v. 52 (6), 404-407
Schistosoma haematobium, humans, basic radiologic manifestations, diagnostic review
- Schistosoma haematobium
Senft, A. W.; et al., 1979, *Parasite Immunol.*, v. 1 (1), 79-89
Schistosoma mansoni, *Schistosoma haematobium*, species-specificity of immediate hypersensitivity to schistosomal proteolytic enzyme (mouse mast cell degranulation and monkey skin tests)

- Schistosoma haematobium*
Shaker, Z. A.; et al., 1976, Egypt. J. Bilharz., v. 3 (2), 221-232
Schistosoma mansoni, *S. haematobium*, humans, demonstration of circulating bilharzial antigens using indirect haemagglutination and complement fixation techniques, correlation between % of positive cases and host age, duration of infection, clinical presentation, schistosome species, intradermal test results, and effect of chemotherapy
- Schistosoma haematobium*
Shiff, C. J.; et al., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (4), 375-380
Schistosoma haematobium, seasonal patterns in transmission, epidemiology in school children, control by winter application of molluscicides: Rhodesia
- Schistosoma haematobium*
Sodeman, W. A., jr., 1979, Am. J. Trop. Med. and Hyg., v. 28 (3), 531-538
Schistosoma mansoni, *S. haematobium*, longitudinal study of seasonal changes in vector snail populations and infections, prevalence of human infection: Bong County, Liberia
- Schistosoma haematobium*
Southgate, V. R., 1978, Ztschr. Parasitenk., v. 56 (2), 183-193
Schistosoma intercalatum, morphology of cercarial glands; aggregates of cercariae formed by adhesive post-acetabular gland secretions, physical factors triggering aggregation behavior and impairing invasion of final host; hybridization with *S. haematobium* and fate of hybrids among natural populations; hypotheses on cercarial aggregation behavior and natural hybridization as factors limiting distribution of *S. intercalatum*
- Schistosoma haematobium*
Stek, M., jr., 1979, Lancet, London (8141), v. 2, 521 [Letter]
Schistosoma mansoni, *S. haematobium*, changing patterns of prevalence, review: Egypt
- Schistosoma haematobium*
Szczygiel, B., 1973, Przegl. Lek., v. 30 (9), 759-762
Schistosoma haematobium, human genital organs, diagnosis and assessment of infections and calcifications using radiology
- Schistosoma haematobium*
Tayo, M. A.; and Jewsbury, J. M., 1978, Ann. Trop. Med. and Parasitol., v. 72 (5), 483-487
changes in snail population following construction of small dam, potential importance in transmission of *Schistosoma haematobium* and *S. mansoni*: Malumfashi Endemic Diseases Research Project, Nigeria
- Schistosoma haematobium*
Thomas, V.; Ogunba, E. O.; and Fabiyi, A., 1979, Ann. Trop. Med. and Parasitol., v. 73 (5), 451-456
Schistosoma mansoni, *S. haematobium*, humans, evaluation of seroimmunologic techniques (indirect fluorescent antibody, complement fixation and counter-current immunoelectrophoresis) for diagnosis; cross reactions were consistently present so that it was not possible to differentiate between the parasites: Nigeria
- Schistosoma haematobium*
Trangle, K. L.; et al., 1979, Parasite Immunol., v. 1 (2), 133-140
Schistosoma mansoni, *S. haematobium*, school children, prevalence and severity of infection in relation to blood group type and ability to secrete blood group antigens: Swaziland
- Schistosoma haematobium*
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- S[*chistosoma*] *haematobium*
Umerah, B. C., 1977, Radiology, v. 124 (3), 645-647
S[*chistosoma*] *haematobium*, humans, upper urinary tract changes after schistosomal infection are more often due to disturbances of ureteral peristalsis than to ureteral stricture
- Schistosoma haematobium*, illus.
Van Ros, G., 1973, Rev. Franc. Gastro-Enterol. (89), 35-50
human intestinal helminths, differential diagnosis
- Schistosoma haematobium*
Veress, B.; et al., 1978, Ann. Trop. Med. and Parasitol., v. 72 (4), 357-361
nephrotic syndrome with special reference to schistosomal nephropathy, preliminary morphological study
- Schistosoma haematobium*
Verroust, P. J.; et al., 1979, Kidney Internat., v. 16 (1), 9-14
schistosomiasis, filariasis, hydatidosis, human, circulating immune complexes, C3d levels, complement activation by parasite antigens
- Schistosoma haematobium*
Warren, K. S., 1974, Ciba Found. Symp., n.s. (25), 243-261
schistosomiasis, modulation of immunopathology, review
- Schistosoma haematobium*
Warren, K. S., 1978, Nature, London (5664), v. 273, 609-612
schistosomiasis, pathology, pathobiology, and pathogenesis, review
- Schistosoma haematobium*
Warren, K. S.; et al., 1978, J. Infect. Dis., v. 138 (6), 849-855
Schistosoma haematobium, schoolchildren, minimal number of daily egg counts in urine necessary to establish intensity of infection for epidemiological and chemotherapeutic purposes: Coast Province, Kenya
- Schistosoma haematobium*
Warren, K. S.; et al., 1979, Am. J. Trop. Med. and Hyg., v. 28 (5), 864-870
Schistosoma haematobium, school children, relationship between egg output and morbidity: Coast Province of Kenya

- Schistosoma haematobium*
Waslien, C. I.; Farid, Z.; and Darby, W. J., 1973, *South. Med. J.*, v. 66 (1), 47-50
schistosomiasis and/or hookworm, humans, study of blood and nutrition losses shows that drain on iron, protein, zinc and vitamin A stores plus other pathology is more significant as cause of malnutrition than abnormality of absorption functions: Egypt
- Schistosoma haematobium*
Waterhouse, K., 1971, *Seminars Roentgenol.*, v. 6 (3), 338-343
tropical parasitic diseases of the human urinary tract, radiologic diagnostic methods, clinical review
- Schistosoma haematobium*
Webbe, G.; et al., 1979, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 73 (1), 42-54
Schistosoma haematobium-immunized *Papio anubis*, strong immunity to homologous challenge, marked degree of acquired immunity to *S. mansoni* challenge
- Schistosoma haematobium*
Webbe, G.; and James, C., 1977, *Ztschr. Parasitenk.*, v. 52 (2), 169-177
Schistosoma spp. in hamsters, praziquantel effective against 5 species
- Schistosoma haematobium*
Wenlock, R. W., 1977, *Trop. and Geogr. Med.*, v. 29 (4), 415-421
Schistosoma haematobium, hookworm, humans, prevalence survey of rural population: 7 provinces of Zambia
- Schistosoma haematobium*
Wenlock, R. W., 1979, *J. Trop. Med. and Hyg.*, v. 82 (5), 90-98
malaria, hookworm, *Schistosoma haematobium*, humans in rural environment, epidemiology in relation to malnutrition and host age, importance as public health problems: Zambia
- Schistosoma haematobium*
Werblinska, B.; and Fleming, A. F., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (2), 149-159
treatment of human iron deficiency with daily intramuscular ferastal, includes anemia from hookworm and *Schistosoma haematobium*: Nigeria
- Schistosoma haematobium*
Wilkins, H. A.; et al., 1979, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 73 (1), 74-80
Schistosoma haematobium, human, intensity and prevalence of proteinuria and hematuria determined using urinalysis reagent strips, close relationship to intensity of infection suggests these parameters may have value as indications for chemotherapy, good prognosis in subjects with heavy proteinuria suggests that this urinary protein is likely to originate from lesions in lower renal tract rather than kidney: The Gambia; Egypt
- Schistosoma haematobium*
Wilkins, H. A.; and Scott, A., 1978, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 72 (4), 397-404
Schistosoma haematobium, children, 4-year study of egg counts, variations with age and with season, significant degree of stability of individual counts relative to those of group as whole, immunity as possible regulating factor: The Gambia
- Schistosoma haematobium*
Woolhouse, N. M., 1979, *Biochem. Pharmacol.*, v. 28 (16), 2413-2418
antischistosomal drugs, biochemical and pharmacological effects in relation to mode of action
- Schistosoma haematobium*, *illus.*
Wright, C. A.; Rollinson, D.; and Goll, P. H., 1979, *Parasitology*, v. 79 (1), 95-105
Bulinus senegalensis and associated parasites, isoelectric focusing studies on enzymes, differences in prevalence and variety of infections in 7 host populations: south bank of Gambia River
- Schistosoma haematobium*
Young, S. W.; et al., 1974, *Radiology*, v. 111 (1), 81-84
Schistosoma haematobium, human urinary tract lesions as detailed by urography, study of 153 patients
- Schistosoma haematobium*
Young, S. W.; et al., 1978, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 72 (6), 627-630
Schistosoma haematobium, patients with obstructive uropathy and associated bacteriuria, evaluation with serial urograms, renograms, and renal function tests before and after medical treatment, renogram can be more sensitive test for evaluating efficacy of treatment
- Schistosoma haematobium*
Young, S. W.; et al., 1979, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 73 (3), 249-253
Schistosoma haematobium, patients with obstructive uropathy secondary to parasitic infections, effects on hydrogen ion excretion and urine osmolality studied
- Schistosoma incognitum*
Agrawal, M. C.; Sahasrabudhe, V. K.; and Gehlot, K., 1979, *Indian Vet. J.*, v. 56 (8), 682-685
mice, immunization against *Schistosoma incognitum* by administration of cercariae of *S. indicum*
- Schistosoma incognitum* Chandler, 1926
Baugh, S. C., 1978, *Rev. Iber. Parasitol.*, v. 38 (1-2), 435-472
schistosomiasis, human, animals, 100-year historical review: India
synonymy
- Schistosoma incognitum* Chandler, 1926, *illus.*
Carney, W. P.; et al., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 150-155
Schistosoma incognitum, description, distribution, zoonotic potential and possible hybridization with *S. japonicum*
Rattus exulans: Lindu Valley, Napu Valley, Besoa Valley, and Kalamanta-Mamu, Central Sulawesi, Indonesia
Cervus timorensis: Lindu Valley, Central Sulawesi, Indonesia
Rattus hoffmanni: Besoa Valley, Kantewu Valley, and Kalamanta-Mamu, Central Sulawesi, Indonesia
Rattus nitidus: Kantewu Valley, Central Sulawesi, Indonesia
- Schistosoma incognitum*, *illus.*
Singh, K. P.; and Rajya, B. S., 1978, *Indian J. Animal Sc.*, v. 48 (10), 764-768
Schistosoma incognitum, pigs, gross and histopathology in lungs and associated lymph nodes

- Schistosoma incognitum*
Stafford, E. E.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 149-150
Schistosoma japonicum, *Schistosoma incognitum*, heterologous mating observed in experimentally infected rodents, implications of hybridization in increasing range of intermediate and definitive hosts
- Schistosoma incognitum*
Stafford, E. E.; Tanudjaja, S.; and Purnomo, 1977, Southeast Asian J. Trop. Med. and Pub. Health, v. 8 (3), 410
Schistosoma incognitum, comparatively non-host specific, human host potential in endemic areas
Mus musculus (exper.) (faeces)
Rattus norvegicus (exper.) (liver)
Radix auricularia rubiginosa
Rattus argentiventer
R. exulans
R. diardii
Bandicota indica setifera
all from Jakarta, Indonesia
- Schistosoma incognitum*
Tewari, H. C.; and Ramachandran, P. K., 1979, J. Helminth., v. 53 (2), 117-120
Schistosoma incognitum, histopathology following exposure to normal vs. irradiated cercariae
- Schistosoma incognitum*
Tewari, H. C.; and Singh, (Kr.) S., 1979, Indian J. Animal Sc., v. 49 (5), 380-383
Schistosoma incognitum, mice, egg production mainly responsible for severity of disease and for anemia
- Schistosoma incognitum*
Tewari, H. C.; and Singh, (Kr.) S., 1979, Indian J. Animal Sc., v. 49 (8), 643-645
Schistosoma incognitum miracidia, effects of normal and immune sera and of complement
- Schistosoma indicum*
Agrawal, M. C.; Sahasrabudhe, V. K.; and Gehlot, K., 1979, Indian Vet. J., v. 56 (8), 682-685
mice, immunization against *Schistosoma incognitum* by administration of cercariae of *S. indicum*
- Schistosoma indicum* Montgomery, 1906
Baugh, S. C., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 435-472
schistosomiasis, human, animals, 100-year historical review: India
- Schistosoma intercalatum* Fisher, 1934
Baugh, S. C., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 435-472
schistosomiasis, human, animals, 100-year historical review: India
- Schistosoma intercalatum*
Becquet, R., 1975, Ann. Soc. Belge Med. Trop., v. 55 (5), 435-442
intestinal bilharziasis, human, diagnosis, fecal examination, rectal biopsy
- Schistosoma intercalatum*
Bennike, T.; Frandsen, F.; and Mandahl-Barth, G., 1976, Ann. Soc. Belge Med. Trop., v. 56 (6), 419-437
schistosomiasis, humans, extensive malacologic, biologic, clinical, and epidemiological survey, concluded that *S. mansoni* has been established as autochthonous disease in Kinshasa, Zaire
- Schistosoma intercalatum*
Bjorneboe, A.; and Frandsen, F., 1979, J. Helminth., v. 53 (3), 195-203
Schistosoma intercalatum, comparison of characteristics of 2 strains (Cameroon vs. Zaire) in mice (worm return, male/female worm ratio, growth rate, number of testes in adult male worms, quantitative distribution of eggs in host tissue, size and shape of eggs, changes in weight of host spleen and liver)
- Schistosoma intercalatum*
Cazin, A., 1976, Rev. Infirm. Afrique Noire (45), 5-15
human schistosomiasis, African forms, clinical review
- Schistosoma intercalatum*, *illus.*
Dingemans, K. P.; and Elias, E. A., 1978, Ann. Trop. Med. and Parasitol., v. 72 (3), 231-242
Schistosoma intercalatum in Syrian hamsters, ultrastructural study of pathologic lesions (mainly mature egg granulomas) in liver; *Schistosoma* pigment compared with malaria pigment induced by infecting hamster with *Plasmodium berghei*
- Schistosoma intercalatum*
Duflo, B.; and Danis, M., 1975, Rev. Prat., Paris, v. 25 (16), 1210-1213
human schistosomiasis, clinical review
- Schistosoma intercalatum* Fisher, 1934, *illus.*
Frandsen, F., 1978, J. Helminth., v. 52 (1), 11-22
Schistosoma intercalatum, results of hybridization between different strains from Cameroon and Zaire
- Schistosoma intercalatum*
Frandsen, F., 1979, Ztschr. Parasitenk., v. 58 (2), 161-167
Schistosoma intercalatum from Cameroun and from Zaire, compatibility with *Bulinus* spp. (indicated by total cercarial production/100 exposed snails)
Bulinus forskalii
B. cernicus
B. wrighti
B. globosus
B. africanus
(all exper.)
- Schistosoma intercalatum*
Frandsen, F., 1979, Ztschr. Parasitenk., v. 58 (3), 275-296
Schistosoma spp., relationships with intermediate host snails, need for standardization of materials and methods for studying, assessment of degree of host-parasite compatibility, evaluation of schistosome taxonomy, review

- Schistosoma intercalatum*
Frandsen, F.; et al., [1979], *J. Parasitol.*, v. 64 (6), 1978, 1136
Schistosoma intercalatum, successful exper. infection of sheep suggests that indigenous sheep and possibly other ruminants may act as reservoir hosts in natural transmission foci
- Schistosoma intercalatum*
Hira, P. R., 1975, *Ann. Soc. Belge Med. Trop.*, v. 55 (6), 633-642
Schistosoma mattheei, humans, 3 case reports, differentiation from *S. intercalatum* on basis of ova morphology, clinical presentation, and epidemiology; *Bulinus africanus* is probable vector: Zambia
- Schistosoma intercalatum* (Fisher, 1934)
Kuntz, R. E.; et al., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (3), 632-634
Schistosoma intercalatum, successful experimental infection of *Pan troglodytes* and *Hylobates* lar, possible use as laboratory hosts
- Schistosoma intercalatum* Fisher, 1934
Kuntz, R. E.; et al., 1978, *Internat. J. Parasitol.*, v. 8 (1), 65-68
Schistosoma intercalatum in *Erythrocebus patas* (exper.), high compatibility for parasitism, high egg production, most eggs deposited in large intestine but elicit slight pathology, no pathologic involvement of urinary bladder
- Schistosoma intercalatum*
Kuntz, R. E.; et al., 1979, *Internat. J. Parasitol.*, v. 9 (3), 213-220
6 schistosome species, susceptibility of *Saimiri sciureus* (exper.)
- Schistosoma intercalatum*
Ørnberg Christensen, N., 1977, *Ztschr. Parasitenk.*, v. 54 (3), 275-288
Schistosoma mansoni, *S. intercalatum*, cercariae, technique for in vivo labelling with radiosenium, possible applications in cercarial ecology studies
- Schistosoma intercalatum*
Owczarek, L., 1979, *Bull. Inst. Maritime and Trop. Med. Gdynia*, v. 30 (3), 205-216
intestinal schistosomiasis, humans, positive reactions to tuberculin and other skin tests, diagnostic potential: Zaire
- Schistosoma intercalatum* Fisher, 1934, illus.
Southgate, V. R., 1978, *Ztschr. Parasitenk.*, v. 56 (2), 183-193
Schistosoma intercalatum, morphology of cercarial glands; aggregates of cercariae formed by adhesive post-acetabular gland secretions, physical factors triggering aggregation behavior and impairing invasion of final host; hybridization with *S. haematobium* and fate of hybrids among natural populations; hypotheses on cercarial aggregation behavior and natural hybridization as factors limiting distribution of *S. intercalatum*
- Schistosoma intercalatum*, illus.
Van Ros, G., 1973, *Rev. Franc. Gastro-Enterol.* (89), 35-50
human intestinal helminths, differential diagnosis
- Schistosoma intercalatum*
Webbe, G.; and James, C., 1977, *Ztschr. Parasitenk.*, v. 52 (2), 169-177
Schistosoma spp. in hamsters, praziquantel effective against 5 species
- Schistosoma intercalatum*
Wright, C. A.; Southgate, V. R.; and Ross, G. C., 1979, *Internat. J. Parasitol.*, v. 9 (6), 523-528
Schistosoma intercalatum, Lower Guinea vs. Zaire strains, enzyme analysis by isoelectric focusing
- S[*chistosoma*] japonicum
Amin, A. H.; and Fenwick, A., 1978, *Trop. Doctor*, v. 8 (1), 8-12
schistosomiasis vector snail control, recommendations for use on small scale or by poor developing countries
- Schistosoma japonicum*
Anderson, R. M.; and May, R. M., 1979, *Parasitology*, v. 79 (1), 63-94
Schistosoma spp. infections within snail populations, prevalence, spatial and temporal heterogeneity, duration of larval development and its dependence on temperature, mortality rates of infected and uninfected hosts; comparison of observed patterns with model predictions; new age-prevalence model, predictions compared with observed patterns; implications for overall transmission dynamics
- Schistosoma japonicum*
Arnold, K., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (2), 177-185
human parasitic diseases, trends in development of chemotherapy, review
- Schistosoma japonicum*, Mekong strain
Bierdrager, J., 1975, *Therap. Gegenw.*, v. 114 (3), 470, 472-474
Schistosoma japonicum, Mekong strain, *Lithoglyphopsis aperta* snails as possible vectors in Laos
- Schistosoma japonicum*
Biswas, A. K., 1978, *Water Supply & Management*, v. 2 (4), 283-297
discussion on environmental implications of water development for developing countries: possibility of decreased human parasitism by improving potable water and by reducing human contacts with vectors of water-borne or water-based infections, also possibility of spread of parasitism through development of irrigation canals
- Schistosoma japonicum*
Blas, B. L.; et al., 1979, *Japan. J. Exper. Med.*, v. 49 (2), 107-115
Schistosoma japonicum, school children, annual incidence and prevalence measured from records of routine examinations at various schools, host age: Dagami Area, Leyte, Philippines
- Schistosoma japonicum*, illus.
Byram, J. E.; et al., 1979, *Am. J. Path.* (441), v. 94 (2), 201-222
Schistosoma mansoni, *S. japonicum*, mice, potentiation of schistosome granuloma formation by lentinan (a T-cell adjuvant)

- Schistosoma japonicum*
Byram, J. E.; Imohiosen, E. A. E.; and von Lichtenberg, F., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (2, pt. 1), 267-270
Schistosoma spp., mice, hamsters, tissue eosinophil proliferation and maturation
- Schistosoma japonicum*, *illus.*
Byram, J. E.; and Senft, A. W., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (3), 539-547
Schistosoma mansoni, *S. japonicum*, eggshell, amino acid analysis and incorporation of labelled amino acids
- Schistosoma japonica*
Cabrera, B. D.; et al., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (1), 86-92
Schistosoma japonica, human, prevalence survey: Irosin and 8 neighboring towns, Sorsogon Province, Republic of Philippines
- Schistosoma japonicum*
Carlier, Y.; Bout, D.; and Capron, A., 1978, *Ann. Immunol.*, v. 129C (6), 811-818
Schistosoma mansoni, circulating M antigen, occurrence in human and experimental infections, specificity (cross-reactions with *S. japonicum* and *S. haematobium*), physicochemical properties
- Schistosoma japonicum*
Carney, W. P.; et al., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 150-155
Schistosoma incognitum, description, distribution, zoonotic potential and possible hybridization with *S. japonicum*
Rattus exulans: Lindu Valley and Napu Valley, Central Sulawesi, Indonesia
- Schistosoma japonicum*
Carney, W. P.; Van Peenen, P. F. D.; and Sudomo, M., [1979], *J. Parasitol.*, v. 64 (6), 1978, 1138-1139
Schistosoma japonicum infections found in *Rattus exulans* (mesenteric veins, liver), first report of mammalian reservoir in this newly discovered Oriental schistosomiasis area: Napu Valley, Central Sulawesi, Indonesia
- Schistosoma japonicum*
Chiu, J. K.; and Su, K. E., 1974, *Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.)*, v. 73 (2), 81-88
Schistosoma japonicum, evaluation of immunodiffusion tests using adult worm extracts as antigens and sera of exper. animals, results differed with animal species and also with individuals of same species
- Schistosoma japonicum*
Duflo, B.; and Danis, M., 1975, *Rev. Prat.*, Paris, v. 25 (16), 1210-1213
human schistosomiasis, clinical review
- Schistosoma japonicum*, *illus.*
Ford, J. W.; and Blankespoor, H. D., 1979, *Internat. J. Parasitol.*, v. 9 (2), 141-145
Schistosoma, 3 human spp., eggs, scanning electron microscopy
- Schistosoma japonicum*
Foster, R., 1973, *Rev. Inst. Med. Trop. S. Paulo*, v. 15 suppl. 1 (6), 1-9
Schistosoma mansoni, *S. haematobium*, *S. japonicum*, oxamniquine, efficacy and toxicity in various exper. animals, clinical trials in humans
- Schistosoma japonicum*, *illus.*
Fujino, T.; and Ishii, Y., 1979, *Internat. J. Parasitol.*, v. 9 (5), 435-448
6 spp. of digenetic trematodes, gut epithelia, comparative ultrastructural topography, scanning and transmission electron microscopy
- Schistosoma japonicum*-like, *illus.*
Hadidjaja, P.; Widodo, S. O. S.; and Kurniawan, A. N., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (1), 114-115
Schistosoma japonicum-like eggs, 41-year-old male (gastric and mesenteric lymph node tissue), case report: Central Kalimantan, Indonesia
- Schistosoma japonicum*
Hayunga, E. G.; et al., 1979, *J. Parasitol.*, v. 65 (4), 497-506
Schistosoma mansoni, antigenicity of radio-labeled surface proteins from adult worms, immunoprecipitation with infected serum, cross-reaction with anti-*Schistosoma haematobium* and anti-*Schistosoma japonicum* serum
- Schistosoma japonicum*
Hillyer, G. V., 1979, *Exper. Parasitol.*, v. 48 (2), 287-295
Fasciola hepatica, complexity of adult worm antigens, cross-reactivity with sera to *Schistosoma mansoni* and *Schistosoma japonicum*, presence of one common antigen between the two genera, protection of mice immunized with *Fasciola hepatica* antigens to challenge exposure with *Schistosoma mansoni* cercariae
- Schistosoma japonicum*
Hirata, M., 1976, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 25 (5), 396-401
Schistosoma japonicum-infected mice, appearance of circulating antigen
- Schistosoma japonicum*
Hirata, M.; and Akusawa, M., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (4), 250-254
Schistosoma japonicum-infected rabbits, circulating antigen, detection and characterization
- Schistosoma japonicum*, *illus.*
Ho, Y. H.; and Yang, H. C., 1974, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 20 (3), 243-262
Schistosoma japonicum, egg formation and chemical nature of egg shell, histological and histochemical study, morphological changes in egg formation following treatment of infected mice with thiourea compounds
- Schistosoma japonicum*
Hoffman, D. B., jr.; et al., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (2), 249-259
schistosomiasis, humans, evaluation of current control measures, recommendations for future strategies, report of workshop held in Bellagio, Italy
- Schistosoma japonicum*
Hosaka, Y.; and Berry, E. G., 1975, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 24 (5), 318-331
schistosome miracidial immobilization caused by tissue extracts prepared from various species or strains of snails, characteristics of immobilizing activity in snail tissues

- Schistosoma japonicum*
Houba, V., 1979, *Kidney Internat.*, v. 16 (1), 30-43
schistosomiasis, experimental renal disease, extensive review
- Schistosoma japonicum*, illus.
Hsu, S. E., 1974, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 20 (3), 231-242
Schistosoma japonicum, in vitro culture, role of red blood cells in culture medium, egg production and development
- Schistosoma japonicum*
Hsü, S. Y. L.; et al., 1979, *Internat. Arch. Allergy and Applied Immunol.*, v. 59 (4), 383-393
Schistosoma japonicum, IgE, mast cells, and eosinophils in skin of *Macaca mulatta* immunized with X-irradiated cercariae
- [*Schistosoma*] *japonicum*
Hubero, E. S., 1971, *Santo Tomas J. Med.*, v. 26 (2), 100-105
human schistosomiasis *japonicum*, clinical review, circumoval precipitin test for diagnosis, therapy with extracorporeal hemofiltration
- Schistosoma japonicum*
Hwu, H. R.; Banzon, T. C.; and Cross, J. H., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (2, pt. 1), 276-280
Schistosoma japonicum, humans, diagnosis, counterimmunoelectrophoresis compared with circumoval precipitin test: Philippines
- Schistosoma japonicum*, illus.
Iwamura, K., 1977, *Therapiewoche*, v. 27 (38), 6618-6638
helminth infections of liver, humans, diagnosis, pathology, extensive clinical review
- Schistosoma japonicum*
Iwanaga, Y., 1976, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 25 (2), 59-68
Schistosoma japonicum in laboratory colonies of *Oncomelania hupensis* nosophora, infection rates and survival
- Schistosoma japonicum*
Iwanaga, Y., 1976, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 25 (2), 69-79
Schistosoma japonicum (Yamanashi strain) in laboratory colonies of *Oncomelania* spp. of different geographic strains, infection rate
- Schistosoma japonicum*, illus.
James, C.; Webbe, G.; and Nelson, G. S., 1977, *Ztschr. Parasitenk.*, v. 52 (2), 179-194
Schistosoma haematobium and *S. mansoni* in baboons, *S. japonicum* in vervet monkeys, praziquantel in various dosages, good results
- Schistosoma japonicum*-like, illus.
Kan, S. K. P.; Kay, R. W. W.; and Thomas, I., 1979, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 10 (1), 97-99
Schistosoma japonicum-like ova, humans, incidental histological findings in liver and rectal biopsies, Filipino and Chinese immigrants to Sabah, Malaysia
- Schistosoma japonicum*
Kassis, A. I.; Warren, K. S.; and Mahmoud, A. A. F., 1978, *Cellular Immunol.*, v. 38 (2), 310-318
Schistosoma haematobium, mice, granuloma formation around eggs is largely cell-mediated immunologic reaction, is dependent on dose and route of sensitization, is relatively specific among the 3 schistosome species, and can be transferred with cells but not with serum from previously egg-sensitized mice; furthermore, egg-sensitized animals demonstrate immediate and delayed skin reactivity on challenge with egg antigens
- Schistosoma japonicum*
Kenmoku, M.; et al., 1976, *Kiseichugaku Zasshi (Japan. J. Parasitol.)*, v. 25 (5), 356-359
Schistosoma japonicum in *Oncomelania nosophora*, significant difference in rate of single-sex vs. bisexual infections: district of Usui-numa, Yamanashi prefecture
- Schistosoma japonicum*
Kitani, K.; Miura, R.; and Iuchi, M., 1979, *Tohoku J. Exper. Med.*, v. 127 (2), 151-156
Schistosoma japonicum, humans with chronic infections, skin tests with *S. mansoni* and *S. japonicum* antigens both gave high degree of positive results indicating definite cross-reactivity
- Schistosoma japonicum*
Kolzow, R. G.; and Nollen, P. M., [1979], *J. Parasitol.*, v. 64 (6), 1978, 994-997
Schistosoma japonicum, development and movement of reproductive cells, effects of stressful conditions (in vitro culture; intraperitoneal maintenance in hamsters; unisexual transplants into hepatic portal system of hamsters)
- Schistosoma japonicum*
Ku, C. Y.; et al., 1975, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 21 (2), 133-140
Schistosoma japonicum vector, *Oncomelania hupensis*, laboratory breeding
- Schistosoma japonicum*
Kuntz, R. E., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (1, pt. 1), 208-209
Macaca fascicularis (liver, mesenteric veins, intestinal walls): near Ranau, North Borneo (Malaysia)
- Schistosoma japonicum*
Kutsumi, H.; Minal, M.; and Kajihara, N., 1979, *Hokkaido Igaku Zasshi (Hokkaido J. Med. Sc.)*, v. 54 (4), 347-353
Schistosoma japonicum, efficiency of merthiolate-iodine-formaldehyde-concentration technique for fecal examination, recovery of schistosome eggs used to assess current epidemiologic status in Kofu area, Japan
- Schistosoma japonicum*
Lewert, R. M.; Yogore, M. G., jr.; and Blas, B. L., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (1), 92-98
Schistosoma japonicum, humans, assay of lymphocyte blast transformation by whole blood culture technique under field laboratory conditions, measurement of response to phytohemagglutinin and to worm and egg antigens in relation to host age, sex, and level of egg excretion

- Schistosoma japonicum*
Lewert, R. M.; Yogore, M. G., jr.; and Blas, B. L., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (6), 1010-1025
Schistosoma japonicum, human, prevalence and intensity, morbidity (hepato- and/or splenomegaly, height and weight, symptomatology), host age and sex: Barrio San Antonio, Basey, Samar, The Philippines
- S[*chistosoma*] *japonicum*, *illus.*
von Lichtenberg, F., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (2), 186-204
schistosomiasis, human, mechanisms of immunity and immunopathology, review

Oshima, S.; et al., 1978, *Japan. J. Exper. Med.*, v. 48 (6), 503-509
Schistosoma japonicum in *Rattus mindanensis*, localization in lungs, liver, and intestinal wall, massive pulmonary infestation with high incidence of emboli, histopathology: Leyte, Philippines
- Schistosoma japonicum*
Patzschke, K.; et al., 1979, *European J. Drug Metab. and Pharmacokinet.*, v. 4 (3), 149-156
praziquantel, serum concentrations and renal excretion in humans after oral administration, results of 3 determination methods
- Schistosoma japonicum*
Pax, R.; Bennett, J. L.; and Fetterer, R., 1978, *Arch. Pharmacol.*, v. 304 (3), 309-315
Schistosoma mansoni, *S. japonicum*, praziquantel and Ro 11-3128 produce rapid rise in tension of musculature, uptake studies of inorganic cations suggest that interference with inorganic ion transport mechanisms causes contraction of schistosome musculature
- Schistosoma japonicum*
Pellegrino, J.; and Katz, N., 1972, *Rev. Inst. Med. Trop. S. Paulo*, v. 14 (1), 59-66
Schistosoma mansoni, *S. japonicum*, laboratory animals, U. K. 3883 tested, highly effective against *S. mansoni*, devoid of activity against *S. japonicum* in mice
- Schistosoma japonicum*
Phillips, S. M.; and Colley, D. G., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (5), 914-915
schistosomiasis, immunology, brief synopsis of fourth annual informal workshop
- S[*chistosoma*] *japonicum*
Reeder, M. M., 1975, *Seminars Roentgenol.*, v. 10 (3), 229-243
parasitic infections of human liver and bile ducts, radiologic diagnosis, general review
- Schistosoma japonicum*, *illus.*
Sakamoto, K.; and Ishii, Y., 1978, *J. Parasitol.*, v. 64 (1), 59-68
Schistosoma japonicum, miracidial and cercarial surfaces, scanning electron microscopy, patterns of argentophilic papillae of cercariae, scanning electron and light microscopy
- S[*chistosoma*] *japonicum*
Sandbach, F. R., 1975, *Social Sc. and Med.*, v. 9 (10), 517-527
S[*chistosoma*] spp., human, control measures, critical assessment of present policy and suggestions for new emphasis on environmental sanitation, safe water supplies and health education
- S[*chistosoma*] *japonicum*
Sandbach, F. R., 1977, *Social Sc. and Med.*, v. 11 (1), 27-33
S[*chistosoma*] *japonicum*, anti-schistosomiasis campaign traced from 1949 Revolution up to Cultural Revolution in China
- Schistosoma japonicum*, *illus.*
Sano, M.; and Ishii, A., 1979, *Experientia*, v. 35 (4), 472-473
Schistosoma japonicum, schistosomal pigment, purification and histochemical characteristics, comparison with malarial (*Plasmodium berghei*) pigment

- Schistosoma japonicum*
Smith, T. M.; and Brown, J. N., 1978, Comp. Biochem. and Physiol., v. 59B (1), 51-53
Schistosoma mansoni, *S. japonicum*, absence of tyrosine aminotransferase (TAT) in adult flukes, effect of 10 week infections on TAT activity in livers of female mice
- Schistosoma japonicum*
Stafford, E. E.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 149-150
Schistosoma japonicum, *Schistosoma incognitum*, heterologous mating observed in experimentally infected rodents, implications of hybridization in increasing range of intermediate and definitive hosts
- Schistosoma japonicum*
Tanaka, H.; et al., 1978, Japan. J. Exper. Med., v. 48 (3), 193-202
Schistosoma japonicum, horizontal and vertical distribution of *Oncomelania quadrasi*, intermediate snail host: areas near Palo, Leyte, Philippines
- Schistosoma japonicum*
Tanaka, H.; Matsuda, H.; and Nosenas, J. S., 1979, Japan. J. Exper. Med., v. 49 (4), 289-292
Schistosoma japonicum, human, detection of antibodies by micro-technique of enzyme-linked immunosorbent assay: Leyte, Philippines
- Schistosoma japonicum*, Mekong strain
Thirachantra, S.; et al., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (1), 112-113
sex distribution of alpha and gamma races of *Lithoglyphopsis aperta* in natural habitats of Mekong River, application to laboratory rearing of vectors
- Schistosoma japonicum*
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Schistosoma japonicum*
Voge, M.; Bruckner, D.; and Bruce, J. L., 1978, J. Parasitol., v. 64 (4), 577-584
Schistosoma mekongi sp. n., comparison with 4 geographic strains of *S. japonicum*, relative usefulness of various criteria in differentiation of Asian schistosomes
- Schistosoma japonicum*, illus.
Voge, M.; Price, Z.; and Jansma, W. B., 1978, J. Parasitol., v. 64 (2), 368-372
Schistosoma japonicum adults, surface structure, no obvious differences among several geographic strains
- Schistosoma japonicum*
Warren, K. S., 1974, Ciba Found. Symp., n.s. (25), 243-261
schistosomiasis, modulation of immunopathology, review
- Schistosoma japonicum*
Warren, K. S., 1978, Nature, London (5664), v. 273, 609-612
schistosomiasis, pathology, pathobiology, and pathogenesis, review
- Schistosoma japonicum*
Warren, K. S.; Grove, D. I.; and Pelley, R. P., 1978, Am. J. Trop. Med. and Hyg., v. 27 (2, pt. 1), 271-275
Schistosoma japonicum egg granuloma, cellular composition, size, immunologic concomitants, differences from *S. mansoni*
- Schistosoma japonicum*
Webbe, G.; and James, C., 1977, Ztschr. Parasitenk., v. 52 (2), 169-177
Schistosoma spp. in hamsters, praziquantel effective against 5 species
- Schistosoma japonicum*
Woolhouse, N. M., 1979, Biochem. Pharmacol., v. 28 (16), 2413-2418
antischistosomal drugs, biochemical and pharmacological effects in relation to mode of action
- Schistosoma japonicum*, illus.
Yen, T. C.; Chiu, L. Z.; and Hsueh, H. C., 1974, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 20 (3), 263-272
Schistosoma japonicum, development and changes of eggs in tissues of mice and rabbits, fluorescence-staining method for determining dead and living eggs in host tissues
- Schistosoma japonica*, illus.
Yogore, M. G.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 23-31
schistosomiasis japonica, human, plasma circumoval precipitin test proposed as basic diagnostic tool for epidemiologic studies: Philippines
- Schistosoma japonicum*, illus.
Yogore, M. G., jr.; Lewert, R. M.; and Blas, B. L., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (3), 344-355
Schistosoma japonicum, humans, diagnosis, comparative evaluation of quantitative stool examination vs. circumoval precipitin test using serum or eluate from blood dried on filter paper: Barrio San Antonio, Basey, Samar, Philippines
- Schistosoma japonicum*
Yu, W.; et al., 1974, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 20 (3), 211-219
Schistosoma japonicum, eradication of *Oncomelania* snail vectors, intense ecological management practices, weed control, surveillance: China
- Schistosoma leiperi*
Ross, G. C.; Southgate, V. R.; and Knowles, R. J., 1978, Ztschr. Parasitenk., v. 57 (1), 49-56
Schistosoma bovis strains, *S. mattheei*, *S. margrebowiei*, *S. leiperi*, isoenzymes compared by isoelectric focusing, technique for further studies of inter- and intraspecific relationships
Bulinus africanus: Botswana
- Schistosoma leiperi*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, J. Nat. Hist., v. 13 (4), 499-506
Schistosoma margrebowiei, life cycle, possible interactions with *S. leiperi*, host age
Kobus leche kafuensis (liver): Lochinvar National Park, Zambia

- Schistosoma mansoni*
Abaza, H. H.; et al., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (6), 602-604
Schistosoma mansoni, *S. haematobium*, human, associated complication of polyposis of colon, therapy with oxamniquine was effective and safe: Egypt
- Schistosoma mansoni*
Abdel Samad, M. M.; et al., 1977, Tropenmed. u. Parasitol., v. 28 (4), 554-559
Schistosoma mansoni, mice, liver monoamine oxidase activity during course of infection and after chemotherapy, may be useful index for progression or regression of liver fibrosis
- Schistosoma mansoni*
Abdel-Wahab, M. F.; et al., 1979, Lancet, London (8136), v. 2, 242-244
changing pattern of schistosomiasis, 1935-1979, predominance of *Schistosoma mansoni* over *S. haematobium*, *Biomphalaria* greatly outnumbers *Bulinus*, public health implications: Difra, Egypt
- S[*chistosoma*] *mansoni*
Abdulla, W. A.; et al., 1977, Egypt. J. Bilharz., v. 4 (1), 19-26
S[*chistosoma*] *mansoni*, anti-schistosomal activity of the plant *Ammi majus* and bergapten (furocoumarin present in *A. majus*), compared with tarter emetic, screening in mice
- S[*chistosoma*] *mansoni*
Abdulla, W. A.; et al., 1977, Egypt. J. Bilharz., v. 4 (2), 109-115
S[*chistosoma*] *mansoni*, prophylactic activity, antischistosomal drugs, albino mice, most effective within 2 weeks post exposure
- S[*chistosoma*] *mansoni*
Adam, C.; et al., 1978, Protides Biol. Fluids, v. 26, 219-223
schistosomiasis, filariasis, human, C3d and immune complex levels
- Schistosoma mansoni*
Adam, S. E. I.; and Magzoub, M., 1976, Vet. Path., v. 13 (3), 211-215
Schistosoma mansoni, Sudan strain, Sudanese Desert sheep (exper.), clinical findings, pathology, possible role in epidemiology
- Schistosoma mansoni*
Akoun, G.; et al., 1976, Rev. Franc. Malad. Respir., v. 4 (2), 143-148
Schistosoma mansoni, woman, granulomatous lung lesion, originally diagnosed as tuberculosis, schistosomal origin discovered at autopsy
- Schistosoma mansoni*
Akpom, C. A., 1978, Trop. and Geogr. Med., v. 30 (2), 219-225
Schistosoma mansoni, mice, oogram as sensitive method of assessing effect of host malnutrition on parasite
- Schistosoma mansoni*
Albaret, J. L., 1978, Compt. Rend. Acad. Sc., Paris, v. 286, s. D, Sc. Nat. (19), 1359-1362
Schistosoma mansoni, variation in number of ciliated papillae on miracidia of different strains, variations are related to intermediate and definitive hosts
- Schistosoma mansoni*
Albaret, J. L.; and Leger, N., 1978, Ann. Parasitol., v. 53 (6), 617-622
Schistosoma mansoni, miracidial chetotoxic index, changes during adaptation of human strain to white mice, use in determining human vs. murine character of natural infections in Guadeloupe, possibility of murine strains infecting humans
- Schistosoma mansoni*
de Almeida, F. M. R.; et al., 1979, AMB, Rev. Ass. Med. Brasil., v. 25 (3), 101-104; Errata, v. 25 (7), at bottom of Indice
Schistosoma mansoni, humans, therapeutic evaluation of oxamniquine, no serious adverse effects: Sao Paulo
- S[*chistosoma*] *mansoni*
Amin, A. H.; and Fenwick, A., 1978, Trop. Doctor, v. 8 (1), 8-12
schistosomiasis vector snail control, recommendations for use on small scale or by poor developing countries
- Schistosoma mansoni*
Anderson, R. M.; and May, R. M., 1979, Parasitology, v. 79 (1), 63-94
Schistosoma spp. infections within snail populations, prevalence, spatial and temporal heterogeneity, duration of larval development and its dependence on temperature, mortality rates of infected and uninfected hosts; comparison of observed patterns with model predictions; new age-prevalence model, predictions compared with observed patterns; implications for overall transmission dynamics
- S[*chistosoma*] *mansoni*
Andrade, Z. A.; et al., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (3), 160-170
schistosomiasis, human, hycanthone, acute hepatic toxicity
- Schistosoma mansoni*, illus.
Andrade, Z. A.; Andrade, S. G.; and Susin, M., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (3), 171-177
Schistosoma mansoni, boy, massive infection, pathology, case report: State of Bahia, Brazil
- Schistosoma mansoni*
Andrade, Z. A.; and Melo, I. S., 1974, Rev. Patol. Trop., v. 3 (2), 143-151
Schistosoma mansoni, finding on 19 autopsies of peri-intestinal fibrosis involving segments of the colon or rectum and sometimes extending to retro-peritoneal tissue, presentation as hard intestinal mass, apparent pathologic picture of human advanced schistosomiasis complicated by portal hypertension
- Schistosoma mansoni*
Andrade, Z. A.; and Rocha, H., 1979, Kidney Internat., v. 16 (1), 23-29
Schistosoma mansoni, glomerulopathy, clinical manifestations, pathology, immunopathology, therapy, humans
- Schistosoma mansoni*
Andrade, Z. A.; and Sadigursky, M., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (3), 316-318
Schistosoma mansoni, immunofluorescence studies of schistosome structures which share determinants with circulating schistosome antigens (CSA), Ig class of antibodies in patients' serum that attach to sites where CSA determinants are found

- S[*Schistosoma*] *mansoni*
 Andrade, Z. A.; Sadigursky, M.; and Gomes, L. S., 1978, *AMB, Rev. Ass. Med. Brasil.*, v. 24 (11), 366-368
 S[*Schistosoma*] *mansoni*, humans, chronic active hepatitis is a factor provoking hepatic decompensation in hepatosplenic schistosomiasis
- Schistosoma mansoni*
 Andrews, P., 1978, *Ztschr. Parasitenk.*, v. 56 (1), 99-106
Schistosoma mansoni, praziquantel, effects on miracidia and their hatching; effects on cercarial swimming, penetration and subsequent development in final host
- Schistosoma mansoni*
 Antunes, C. M. F.; et al., 1971, *Rev. Inst. Med. Trop. S. Paulo*, v. 13 (6), 383-386
Schistosoma mansoni, influence of gamma radiation on egg hatching, penetration power and development of miracidia in *Biomphalaria glabrata*, attempted immunization of snails with irradiated miracidia was unsuccessful
- [*Schistosoma*] *mansoni*
 Antunes, L. J.; et al., 1974, *Rev. Soc. Brasil. Med. Trop.*, v. 8 (1), 9-13
 human intestinal schistosomiasis *mansoni* before and after treatment with aminonitrothiazole, immunoglobulin levels, immediate and delayed cutaneous hypersensitivity
- Schistosoma mansoni*
 Anwar, A. R. E.; Smithers, S. R.; and Bay, A. B., 1979, *J. Immunol.*, v. 122 (2), 628-637
Schistosoma mansoni, killing of schistosomula coated with antibody and/or complement by human leukocytes in vitro, requirement for complement in preferential killing by eosinophils
- Schistosoma mansoni*
 Aoki, T.; and Oya, H., 1979, *Comp. Biochem. and Physiol.*, v. 63B (4), 511-515
Schistosoma mansoni, demonstration of glutamine-dependent carbamoyl-phosphate synthetase, aspartate carbamoyltransferase, and dihydroorotase, results suggest the synthetase plays key role in control of pyrimidine biosynthesis de novo
- Schistosoma mansoni*
 Arnold, K., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (2), 177-185
 human parasitic diseases, trends in development of chemotherapy, review
- Schistosoma mansoni*
 Asch, H. L., 1976, *Rice Univ. Studies*, v. 62 (4), 35-42
Schistosoma mansoni, free amino acid pools of adult male and female worms and worm pairs and of host (mouse) hepatic portal plasma
- Schistosoma mansoni*
 Asch, H. L.; and Dresden, M. H., 1979, *J. Parasitol.*, v. 65 (4), 543-549
Schistosoma mansoni, egg extracts, acidic thiol proteinase activity
- Schistosoma mansoni*
 Atangana, S.; et al., 1979, *Med. Trop.*, v. 39 (5), 537-543
 onchocerciasis, malaria, humans, epidemiological and vector survey; no evidence of schistosomiasis but potential vectors are present; little evidence of *Toxoplasma gondii*: lac de retenue de Bamendjin, Cameroun
- Schistosoma mansoni*
 Atkinson, K. H.; and Atkinson, B. G., 1980, *Nature, London* (5746), v. 283, 478-479
Schistosoma mansoni, biochemical basis of continuous copulation: male worm retains little of protein it produces in greatest abundance and this protein is electrophoretically identical to most abundant protein found in, but not synthesized by, the female
- Schistosoma mansoni*
 Attallah, A. M.; et al., 1979, *J. Immunol.*, v. 122 (4), 1413-1420
Schistosoma mansoni, mice, changes in composition and functional capacity of T and B cell subpopulations during acute infection, both suppressor cells and immune complexes contribute to these changes
- Schistosoma mansoni*
 Awwad, M.; and Bell, D. R., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (4), 389-390
Schistosoma mansoni, experiments to determine what attractants cause worms to migrate from liver to mesenteric veins around colon of host, results support hypothesis that feces contain an attractant
- Schistosoma mansoni*
 Axton, J. H. M.; and Garnett, P. A., 1976, *South African Med. J.*, v. 50 (27), 1051-1053
Schistosoma spp., children, clinical trials with oral oxamniquine, effective only in treating *S. mansoni*
- Schistosoma mansoni*
 Baard, A. P.; et al., 1979, *South African Med. J.*, v. 55 (16), 617-618 [Letter]
 schistosomiasis, hospitalized patients, open dose-finding study and preliminary clinical trials using Ro 11-3128
- Schistosoma mansoni*
 Barbosa, F. S., 1969, *Rev. Inst. Med. Trop. S. Paulo*, v. 11 (6), 442-443
Schistosoma mansoni and other intestinal helminths, sedimentation method for counting eggs in feces, economical, simple and suitable for use in small laboratories
- S[*Schistosoma*] *mansoni*
 Barbosa, F. S.; and Coimbra, C. E. A., jr., 1979, *Rev. Saude Pub., S. Paulo*, v. 13 (2), 108-112
 S[*Schistosoma*] *mansoni*, 7 autochthonous cases in children (5 from 1 family), naturally infected snails nearby: Planaltina, Federal District, Brasil
- Schistosoma mansoni*
 Barbosa, F. S.; and Figueiredo, T., 1969, *Rev. Inst. Med. Trop. S. Paulo*, v. 11 (4), 285-289
Schistosoma mansoni, geographic distribution of snail vectors: northeastern Brazil
- Schistosoma mansoni*
 Barbosa, F. S.; and Figueiredo, T., 1970, *Rev. Inst. Med. Trop. S. Paulo*, v. 12 (3), 198-206
Schistosoma mansoni strains from northern Brazil, strains of *Biomphalaria glabrata* experimentally infected proved susceptible to schistosome infections, experimentally infected *B. straminea* strains were consistently poor vectors

- Schistosoma mansoni*, *illus.*
Barbosa, M. A.; et al., 1978, Rev. Inst. Med. Trop. S. Paulo, v. 20 (3), 121-132
Schistosoma mansoni, mice, parasite migration studied by mathematical equations, moment of maximum parasite recovery, asynchronic development, quantitative aspects
- Schistosoma mansoni*
Barrabes, A.; Duong, T. H.; and Combescot, C., 1979, Compt. Rend. Soc. Biol., Paris, v. 173 (1), 153-156
Schistosoma mansoni, castrated female golden hamsters, effect of testosterone, estradiol, and progesterone on infection
- Schistosoma mansoni*
Barreto, M. L.; et al., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (2), 181-187
Schistosoma mansoni, human, stability of faecal egg excretion over time in spite of considerable variation between results of consecutive examinations: rural endemic area, north-east Brazil
- Schistosoma mansoni*
Barsoum, R. S.; et al., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (2), 215-216 [Letter]
Schistosoma mansoni, human hepatosplenic schistosomiasis with histological evidence of accompanying renal amyloidosis in absence of any other known predisposing diseases, treatment with niridazole resulted in clinical improvement but no regression of renal lesions
- Schistosoma mansoni*
Bartlett, M. S.; et al., 1978, J. Clin. Microbiol., v. 7 (6), 524-528
modified zinc sulfate flotation technique evaluated in comparison with formalin-ether concentration method for recovery of protozoan cysts and helminth eggs and larvae from feces preserved in formalin less than and longer than 1 month, results suggest that (except for schistosomes) F-ZnSO₄ compares favorably to FE method for detecting infections of clinical significance
- Schistosoma mansoni*
Baruzzi, R. G.; et al., 1971, Ann. Soc. Belges Med. Trop. Parasitol., v. 51 (2), 205-213
high incidence of splenomegaly in Indians of Alto Xingu region, serological investigation for various parasitic diseases indicated only malaria as a possible cause: Brazil
- Schistosoma mansoni*
Bassily, S.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (6), 1284-1286
Schistosoma mansoni, patients with advanced complicated disease (some with concomitant *S. haematobium* infection), treatment with oxamniquine, encouraging results
- Schistosoma mansoni*
Bassily, S.; et al., 1979, Ann. Trop. Med. and Parasitol., v. 73 (3), 295-296
Schistosoma mansoni-infected male farmers, niridazole administered at reduced daily dose over a 12-day period, clinical trials
- Schistosoma mansoni*
Bassily, S.; et al., 1979, J. Trop. Med. and Hyg., v. 82 (11-12), 248-251
schistosomiasis, human decompensated hepatosplenic, association with chronic hepatitis B antigenaemia
- Schistosoma mansoni*
Battinger, R. P.; and Bueding, E., 1977, J. Pharmacol. and Exper. Therap., v. 200 (1), 1-9
mutagenic activities in vitro and in vivo of 5 antischistosomal compounds, comparative anti-*Schistosoma mansoni* activities of hycanthone, IA-4, and IA-4 N-oxide, observations provide evidence that mutagenic activities can be dissociated from desired chemotherapeutic effects by suitable structural modifications
- Schistosoma mansoni*, *illus.*
Bayssade-Dufour, C., 1977, Compt. Rend. Acad. Sc., Paris, v. 285, s. D, Sc. Nat., (16), 1511-1513
Schistosoma mansoni, cercarial chaetotaxy, comparison of 14 strains from 4 hosts (man, *Erythrocebus patas*, white mice, and wild rats), variation allows differentiation of strains of human vs. murine origin during epidemiological investigations
- Schistosoma mansoni*
Becker, W., 1977, Ztschr. Parasitenk., v. 52 (1), 69-79
Schistosoma mansoni miracidia in egg, water uptake and metabolic changes, hatching mechanism
- Schistosoma mansoni*
Becker, W.; and Lamprecht, I., 1977, Ztschr. Parasitenk., v. 53 (3), 297-305
Schistosoma mansoni-infected *Biomphalaria glabrata*; microcalorimetric investigations; rate of oxygen consumptions explains heat flows for aerobic catabolism of carbohydrates, fats, or proteins
- Schistosoma mansoni*
Becker, W.; and Lueth, W., 1977, Ztschr. Parasitenk., v. 53 (1), 109-113
Schistosoma mansoni-infected *Biomphalaria glabrata*, ketone body metabolism as compared with that of starved snails
- Schistosoma mansoni*
Becker, W.; and Schmale, H., 1978, Comp. Biochem. and Physiol., v. 59B (1), 75-79
Biomphalaria glabrata, ammonia and urea excretion under different physiological conditions including infection with *Schistosoma mansoni*
- Schistosoma mansoni*
Becquet, R., 1975, Ann. Soc. Belge Med. Trop., v. 55 (5), 435-442
intestinal bilharziasis, human, diagnosis, fecal examination, rectal biopsy
- S[*chistosoma*] *mansoni*, *illus.*
Behmer, O. A., 1973, Rev. Hosp. Clin., S. Paulo, v. 28 (4), 212-221
S[*chistosoma*] *mansoni*, human, determination of elastase in blood platelets and the role of elastase in granuloma formation in lungs
- Schistosoma mansoni*
Benazet, F.; et al., 1970, Scand. J. Infect. Dis., v. 2 (2), 139-143
intestinal and hepatic parasites, nitroheterocyclic antiparasitics, laboratory studies of chemotherapeutic activity and toxicity in exper. animals

- Schistosoma mansoni*, *illus.*
Benex, J., 1977, *Tech. Immunofluoresc. et React. Immuno-enzymat.*, 495-502
schistosomes, immunofluorescence as technique for studying antigenic relationships between parasite and host, review
- Schistosoma mansoni*
Benex, J.; and Bayssade-Dufour, C., 1978, *Ann. Parasitol.*, v. 53 (1), 120
Schistosoma mansoni, cercariae of human vs. murine origin, differences in ability to transform into schistosomula after experimentally passing through rodent vs. human skin, suggests adaptation to mollusc-rodent or mollusc-human cycle
- Schistosoma mansoni*
Bennett, J. L.; and Gianutsos, G., 1978, *Biochem. Pharmacol.*, v. 27 (5), 817-820
Schistosoma mansoni in mice, disulfiram reduces norepinephrine levels in both male and female parasites and induces abnormal egg production, varying effects on other schistosome physiological and biochemical parameters, disulfiram also reduces pathological consequences of infection and affects parasite development
- Schistosoma mansoni*, *illus.*
Bennett, J. L.; Seed, J. L.; and Boff, M., 1978, *J. Parasitol.*, v. 64 (5), 941-944
Schistosoma mansoni, development of rapid, simple, and sensitive fluorescence histochemical method for detecting phenol oxidase activity in female worms, results further demonstrate critical role of phenol oxidase in egg production
- Schistosoma mansoni*
Bennike, T.; Frandsen, F.; and Mandahl-Barth, G., 1976, *Ann. Soc. Belge Med. Trop.*, v. 56 (6), 419-437
schistosomiasis, humans, extensive malacologic, biologic, clinical, and epidemiological survey, concluded that *S. mansoni* has been established as autochthonous disease in Kinshasa, Zaire
- Schistosoma mansoni*
Bennike, T.; Frandsen, F.; and Mandahl-Barth, G., 1976, *Scand. J. Infect. Dis.*, v. 8 (3), 223 [Letter]
Schistosoma mansoni, increasing incidence in local inhabitants, studies suggest that schistosomiasis has now been implanted as an autochthonous disease in Kinshasa region of Zaire
- S[*chistosoma*] *mansoni*
Bertrand, E.; et al., 1971, *Semaine Hop. Paris*, v. 47 (48), 2729-2735
S[*chistosoma*] *mansoni*, *S. haematobium*, humans, diagnostic aspects of rectal pathology as observed via sigmoidoscopy
- Schistosoma mansoni*
Bicalho, S. A., 1978, *AMB, Rev. Ass. Med. Brasil.*, v. 23 (1), 31-35
Schistosoma mansoni, humans, intestinal and extra-intestinal granulomatous tumors, differential diagnostic problems, clinical aspects: Brazil
- Schistosoma mansoni*
Bickle, Q. D., 1979, *Parasitology*, v. 79 (2), 209-222
Schistosoma mansoni, mice, immunization with gamma-irradiated schistosomula, effect of radiation dose, route of injection, and several other parameters
- Schistosoma mansoni*
Bickle, Q. D.; et al., 1979, *Parasitology*, v. 78 (2), 185-193
Schistosoma mattheei, sheep, duration of resistance following homologous vaccination with irradiated schistosomula; heterologous vaccination with *Schistosoma mattheei* against challenge with *S. bovis* and with *S. mansoni* against *S. mattheei* failed to induce protection
- Schistosoma mansoni*
Bickle, Q.; et al., 1979, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 73 (1), 37-41
Schistosoma mansoni, mice, failure of primary infections with cercariae of 1 sex to induce same degree of resistance to reinfection as bisexual primary infections
- Schistosoma mansoni*
Bickle, Q. D.; Dobinson, T.; and James, E. R., 1979, *Parasitology*, v. 79 (2), 223-230
Schistosoma mansoni, effect of gamma-irradiation at different dose rates on migration and survival of schistosomula in mice, comparison of 2 different techniques for recovery of parasites from the lungs
- Schistosoma mansoni*
Bickle, Q. D.; and James, E. R., 1978, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 72 (6), 677-678
Schistosoma mansoni, resistance induced in mice immunized with cryopreserved unirradiated or irradiated schistosomula
- Schistosoma mansoni*
Billecocq, A.; Benex, J.; and Faure, M., 1979, *Compt. Rend. Acad. Sc., Paris*, v. 288, s. D, Sc. Nat. (5), 575-578
Schistosoma mansoni, acquisition of phospholipid antigens on surface of schistosomula
- [*Schistosoma*] *mansoni*
Bina, J. C.; and Prata, A., 1974, *Rev. Soc. Brasil. Med. Trop.*, v. 8 (4), 217-222
schistosomiasis *mansoni*, attempted control using mass therapy with hycanthone, small village population in endemic area: Canabrava, Bahia, Brasil
- S[*chistosoma*] *mansoni*
Bina, J. C.; and Prata, A., 1975, *Rev. Soc. Brasil. Med. Trop.*, v. 9 (4), 175-178
S[*chistosoma*] *mansoni*, children, clinical trials testing efficacy of oxamniquine syrup in varying dosages; efficacy of dosage rose with age of child treated
- Schistosoma mansoni*
Biswas, A. K., 1978, *Water Supply & Management*, v. 2 (4), 283-297
discussion on environmental implications of water development for developing countries: possibility of decreased human parasitism by improving potable water and by reducing human contacts with vectors of water-borne or water-based infections, also possibility of spread of parasitism through development of irrigation canals
- Schistosoma mansoni*, *illus.*
Bittencourt, A. L.; et al., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (1), 84-86
Schistosoma mansoni, humans, extragenital cutaneous lesions caused by eggs, 2 case reports

- Schistosoma mansoni, illus.
Bittencourt, A. L.; Oliveira, V. S.; and Andrade, C. C. Q., 1972, Rev. Inst. Med. Trop. S. Paulo, v. 14 (2), 106-108
Schistosoma mansoni, pregnant rabbits, no evidence of transmission to offspring; schistosomules infrequently may reach placenta
- Schistosoma mansoni
Blecka, L. J., 1978, J. Parasitol., v. 64 (2), 362-363
patients infected with intestinal parasites, attempt to quantitate immunoglobulin levels in fecal extracts with radial immunodiffusion, mean IgA levels higher than in controls, other immunoglobulin classes rarely detectable
- Schistosoma mansoni
Blum, K.; and Cioli, D., 1978, European J. Immunol., v. 8 (1), 52-56
Schistosoma mansoni in Biozzi high (Ab/H) and low (Ab/L) responder mice, Ab/H mice produce higher levels of humoral antibodies but are more susceptible to infection, higher level of specific antibodies in Ab/H mice is not accompanied by higher capacity to develop immune resistance to second infection, findings suggest that humoral antibodies per se may not play critical role in schistosome immunity and call attention to possible importance of macrophages in determining results observed
- Schistosoma mansoni
Boctor, F. N.; Nash, T. E.; and Cheever, A. W., 1979, J. Immunol., v. 122 (1), 39-43
Schistosoma mansoni, isolation of polysaccharide antigen from eggs that differs from antigens previously described, antibodies against this antigen were found in serum of mice with acute and chronic infection
- Schistosoma mansoni, illus.
Bogitsh, B. J., 1978, Exper. Parasitol., v. 45 (2), 247-254
Schistosoma mansoni, uptake and fate of exogenous hemoproteins (horseradish peroxidase and hemoglobin) by schistosomules maintained in vitro
- Schistosoma mansoni, illus.
Bogitsh, B. J.; and Carter, O. S., 1979, Tr. Am. Micr. Soc., v. 98 (3), 454-460
Schistosoma mansoni schistosomules grown in vivo and in vitro, transmission and scanning electron microscopic and cytochemical studies, tegumental changes following penetration, onset of phosphatase activity
- S[Schistosoma] mansoni
Bogossian, M.; et al., 1977, AMB, Rev. Ass. Med. Brasil., v. 23 (7), 239-241
S[Schistosoma] mansoni, female, case report, pulmonary infection with miliary distribution, diagnostic problems, confirmed by surgical biopsy: Sao Paulo
- Schistosoma mansoni, illus.
Borda, C. E.; and Pellegrino, J., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (2), 71-75
Schistosoma mansoni, improved thick-smear technique for fecal diagnostic examination, simple and reliable test for schistosomiasis and other helminth infections
- Schistosoma mansoni, illus.
Borda, C. E.; and Pellegrino, J., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (6), 377-382
Schistosoma mansoni in Didelphis azarae azarae (exper.), easily infected but only a few non-viable eggs are passed with feces, probably unimportant in epidemiology
- Schistosoma mansoni
Borda, C. E.; and Pellegrino, J., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (3), 157-164
Schistosoma mansoni, 2 Brazilian strains, susceptibility of Biomphalaria tenagophila and B. glabrata snails from Argentina and Brazil
- Schistosoma mansoni
Borda, C. E.; Pellegrino, J.; and Meschessi, H. D., 1972, Rev. Inst. Med. Trop. S. Paulo, v. 14 (2), 91-96
Schistosoma mansoni, Cebus apella macrocephalus (exper.), fluctuations in numbers of eggs in feces, suitable experimental host
- [Schistosoma] mansoni
Borges, D. R.; Neves, M. M.; and Vilela, M. P., 1978, AMB, Rev. Ass. Med. Brasil., v. 24 (10), 336
[Schistosoma] mansoni, human hepatosplenic form, incidence of peptic ulcer does not differ from that of general population
- Schistosoma mansoni
Borojevic, R.; Santoro, F.; and Grimaud, J. A., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (2), 109-112
Schistosoma mansoni, hepato- and splenomegaly more pronounced in mice born to infected vs. non-infected mothers and exposed as sucklings to cercariae, apparent effect of congenitally-induced modification of host immunological response (tolerance-like state)
- Schistosoma mansoni
Boros, D. L., 1978, Progr. Allergy, v. 24, 183-267
granulomatous inflammations, extensive review including information on the schistosome egg granuloma
- Schistosoma mansoni
Bousfield, D., 1979, Nature, London (5714), v. 279, 573-574
Schistosoma mansoni, human, rapid increase in size of endemic area, migrant workers as major factor, control programs, review: Brazil
- Schistosoma mansoni
Bout, D.; et al., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (1), 35-38
Schistosoma mansoni, characterization of immunoglobulins and antigens involved in immune complexes
- Schistosoma mansoni
Bout, D.; et al., 1978, Colloque Immun. Parasit. Dis. (Thiverval-Grignon, Sept. 5-9, 1977), 71-85
Schistosoma mansoni, antigens, characterization and purification, colloquium presentation

- Schistosoma mansoni*, *illus.*
Bout, D.; et al., 1978, *Immunochemistry*, v. 15 (9), 633-638
Schistosoma mansoni, malate dehydrogenase (MDH), purification, immunochemical and biological characterization, mice immunized with purified MDH exhibited significant decrease of worm burden
- S[*chistosoma*] *mansoni*
Bouvry, M.; et al., 1974, *Rev. Med. Cote Ivoire* (24), v. 10, 2. trimestre, 9-12
S[*chistosoma*] *mansoni*, human, evaluation of laparoscopy for diagnosis of hepatic schistosomiasis, recommended as adjunct to standard methods
- Schistosoma mansoni*
Boyer, M. H.; and Kalfayan, L. J., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (3), 542-547
Schistosoma mansoni, mice, presence of transferred adult worms in mesenteric veins is associated with decreased recovery of worms from later cercarial challenge
- [*Schistosoma mansoni*] Manson's schistosomiasis de Brito, T.; et al., 1970, *Rev. Inst. Med. Trop. S. Paulo*, v. 12 (4), 225-235
Manson's schistosomiasis, human hepatosplenic, advanced kidney disease
- Schistosoma mansoni*
Bruijning, C. F. A.; and de Vries, H., 1978, *Acta Leidensia*, v. 46, 31-51
Schistosoma mansoni, transmission of IgG, IgM, and IgA antibodies from mother to fetal and newborn mice
- S[*chistosoma*] *mansoni*
Buaiz, V.; et al., 1976, *AMB, Rev. Ass. Med. Brasil.*, v. 22 (5), 171-174
S[*chistosoma*] *mansoni*, 3,100 patients treated with hycanthone, tolerance, cure rate, toxicity, indications for use, and proposed dosage schedule: Brazil
- Schistosoma mansoni*
Buck, A. A.; et al., 1978, *Tropenmed. u. Parasitol.*, v. 29 (2), 137-144
human poly-parasitism, types of combinations, relative frequency, and associations of multiple infections, age and sex patterns: Chad; Peru; Zaire
- Schistosoma mansoni*
Buck, A. A.; Anderson, R. I.; and MacRae, A. A., 1978, *Tropenmed. u. Parasitol.*, v. 29 (3), 253-268
polyparasitism, humans, epidemiology, assessment of combined effects of multiple infections on an individual's state of health, comparative analysis of field data obtained from several tropical villages
- Schistosoma mansoni*
Bunnag, T.; de Freitas, J. R.; and Scott, H. G., 1977, *Trop. and Geogr. Med.*, v. 29 (4), 411-414
Schistosoma mansoni, miracidiphagic activity of *Lebistes reticulatus*, laboratory experiments
- Schistosoma mansoni*
Bunnag, T.; de Freitas, J. R.; and Scott, H. G., 1978, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 9 (1), 41-47
Schistosoma mansoni, sewage stabilization ponds efficient barrier against transmission, laboratory and field experiments, egg hatchability, miracidia infectivity, and survival of *Biomphalaria glabrata*
- Schistosoma mansoni*
Butler, J. M., jr.; Knight, W. B.; and Ferguson, F. F., 1971, *Caribbean J. Sc.*, v. 11 (1-2), 51-53
Schistosoma mansoni, technique for preparing high concentrations of eggs, miracidia, cercariae, and adults on permanent microscopic slides
- Schistosoma mansoni*
Butterworth, A. E.; et al., 1979, *J. Exper. Med.*, v. 150 (6), 1456-1471
Schistosoma mansoni, mechanism of irreversible eosinophil adherence to schistosomula
- Schistosoma mansoni*
Butterworth, A. E.; et al., 1979, *J. Immunol.*, v. 122 (1), 221-229
Schistosoma mansoni, eosinophil major basic protein (MBP) can bind to and damage schistosomula, antibody-dependent eosinophil-mediated damage to schistosomula is associated with release of MBP both onto surface of organism and into culture supernatant
- Schistosoma mansoni*
Butterworth, A. E.; et al., 1979, *J. Immunol.*, v. 122 (4), 1314-1321
Schistosoma mansoni, cytolytic T lymphocytes recognize alloantigens on schistosomula but fail to induce damage
- Schistosoma mansoni*, *illus.*
Byram, J. E.; et al., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (2), 274-285
Schistosoma mansoni, T-cell deprived mice vs. normal mice, histopathology, prevention of liver cell damage surrounding egg foci by passive transfer of serum from chronically infected but not from uninfected mice
- Schistosoma mansoni*, *illus.*
Byram, J. E.; et al., 1979, *Am. J. Path.* (441), v. 94 (2), 201-222
Schistosoma mansoni, *S. japonicum*, mice, potentiation of schistosome granuloma formation by lentinan (a T-cell adjuvant)
- Schistosoma mansoni*
Byram, J. E.; Imohiosen, E. A. E.; and von Lichtenberg, F., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (2, pt. 1), 267-270
Schistosoma spp., mice, hamsters, tissue eosinophil proliferation and maturation
- Schistosoma mansoni*, *illus.*
Byram, J. E.; and Senft, A. W., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (3), 539-547
Schistosoma mansoni, *S. japonicum*, eggshell, amino acid analysis and incorporation of labelled amino acids

- Schistosoma mansoni*
Campbell, W. C.; Bartels, E.; and Cuckler, A. C., 1978, *J. Parasitol.*, v. 64 (1), 69-77
Schistosoma mansoni, mice, simple and rapid assay suitable for routine screening of compounds for antischistosome activity, reduction in severity of hepatic lesions used as chief criterion of efficacy
- Schistosoma mansoni*, illus.
Campos, R.; et al., 1971, *Rev. Soc. Brasil. Med. Trop.*, v. 5 (6), 315-317
Schistosoma mansoni, viable eggs discovered in sperm of man with intestinal schistosomiasis, epidemiologic implications: Brazil
- Schistosoma mansoni*
de Campos Guerra, C. C.; et al., 1972, *Rev. Brasil. Pesqui. Med. e Biol.*, v. 5 (1-2), 35-41
Schistosoma mansoni, human, chronic disseminated intravascular coagulation in hepatosplenic infections, improvement after anticoagulant therapy and permanent normalization after splenectomy
- Schistosoma mansoni*
Camus, D.; et al., 1977, *Rev. Inst. Med. Trop. S. Paulo*, v. 19 (2), 77-79
Schistosoma mansoni, differences in susceptibility to infection related to human blood types
- S[*chistosoma*] *mansoni*
Camus, D.; et al., 1978, *Pharmacol. Immunoreg.*, 253-265
S[*chistosoma*] *mansoni*, mice, rats, role of immunomodulating substances from parasites in regulation of immune response
- Schistosoma mansoni*
Camus, D.; et al., 1979, *European J. Immunol.*, v. 9 (4), 341-344
Schistosoma mansoni, rats, nonspecific suppressor cell activity and specific cellular unresponsiveness
- Schistosoma mansoni*
Capdevielle, P., 1979, *Med. Trop.*, v. 39 (6), 643-649
digestive endoscopy in tropical environments, special aspects and problems, includes diagnosis of amoebiasis, oxyuriasis, and *Schistosoma mansoni* involving the gastric mucous membrane: Tananarive, Madagascar
- Schistosoma mansoni*
Capdevielle, P.; et al., 1979, *Med. Trop.*, v. 39 (4), 445-452
shigelloses, humans, more severe infection if associated with *Schistosoma mansoni* or *Entamoeba histolytica*: Madagascar
- Schistosoma mansoni*
Capron, A.; et al., 1974, *Tijdschr. Gastroenterol.*, v. 17 (1), 17-23
hepato-biliary parasitic infections, humans, use of immunologic diagnostic techniques for post-therapeutic evaluations
- S[*chistosoma*] *mansoni*
Capron, A.; Dessaint, J. P.; and Capron, M., 1978, *Colloque Immun. Parasit. Dis.* (Thiverval-Grignon, Sept. 5-9, 1977), 217-230
effector mechanisms in immunity to schistosomes, comparison of 2 antibody-dependent cell-mediated cytotoxicity models (IgG-eosinophil model vs. IgE-macrophage model), colloquium presentation
- Schistosoma mansoni*
Capron, M.; et al., 1978, *European J. Immunol.*, v. 8 (2), 127-133
Schistosoma mansoni, rats, eosinophil-dependent cytotoxicity, involvement of IgG_{2a} antibody and role of mast cells, these and previous observations suggest possible participation of anaphylactic antibodies in immunity to schistosomes in the rat
- Schistosoma mansoni*
Capron, M.; et al., 1978, *J. Immunol.*, v. 121 (6), 2518-2525
Schistosoma mansoni schistosomula, eosinophil-dependent cytotoxicity mechanism requires signal provided by soluble mast cell mediators in addition to antibody
- Schistosoma mansoni*, illus.
Capron, M.; Torpier, G.; and Capron, A., 1979, *J. Immunol.*, v. 123 (5), 2220-2230
Schistosoma mansoni, in vitro killing of schistosomula by eosinophils from infected rats, cytophilic antibodies or immune complexes responsible for either activation or blockade of eosinophil populations
- Schistosoma mansoni*
Carey, A. B., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (4), 750-755
discriminant analysis: a method of identifying foci of vector-borne diseases, procedure applied to *Dermacentor andersoni* as vector of Colorado tick fever virus
- Schistosoma mansoni*
Carlier, Y.; Bout, D.; and Capron, A., 1978, *Ann. Immunol.*, v. 129C (6), 811-818
Schistosoma mansoni, circulating M antigen, occurrence in human and experimental infections, specificity (cross-reactions with *S. japonicum* and *S. haematobium*), physicochemical properties
- Schistosoma mansoni*, illus.
Carlisle, S.; and Weisberg, L. S., 1978, *Exper. Parasitol.*, v. 44 (1), 124-135
Schistosoma mansoni-infected mice injected via tail vein with peroxidase and Thorotrast, subsequent appearance of these tracers in worms, results suggest that tegumental and cecal surfaces may exhibit functional specialization in male vs. female worms
- Schistosoma mansoni*
Carlos, M. A.; and Coelho, P. M. Z., [1979], *J. Parasitol.*, v. 64 (6), 1137-1138
Schistosoma mansoni infections in *Biomphalaria glabrata* under crowded conditions, reduction in number of infected snails and significant decrease of cercarial production
- Schistosoma mansoni*
Carruthers, R. H.; and Sinha, P., 1978, *Ann. Roy. Coll. Surg. England*, v. 60 (1), 49-52
Schistosoma mansoni, human, cause of portal fibrosis and portal hypertension, review of pathology, surgical management
- Schistosoma mansoni*
Carter, C. E.; and Colley, D. G., 1978, *J. Parasitol.*, v. 64 (3), 385-390
Schistosoma mansoni, soluble egg antigen preparation, electrophoretic analysis reveals complex pattern of proteins and glycoproteins, immunoelectrophoretic analysis reveals at least 5 distinct precipitin arcs when developed with serum from mice infected for 16 weeks

- Schistosoma mansoni*
Carter, C. E.; and Colley, D. G., 1979, *J. Immunol.*, v. 122 (6), 2204-2209
Schistosoma mansoni soluble egg antigen, partial purification and characterization with Con A-Sepharose chromatography
- S[*chistosoma*] *mansoni*
de Carvalho, A. B.; Almeida, M. T.; and Magalhaes Filho, A., 1972, *Rev. Soc. Brasil. Med. Trop.*, v. 6 (4), 185-190
S[*chistosoma*] *mansoni*, study of possible influence of antigen source (mouse, human) on diagnostic skin test reactions; skin reactions smaller when human antigen used, persons with allergic conditions had larger reactions
- Schistosoma mansoni*
Carvalho, O. dos S.; Milward de Andrade, R.; and Cortes, M. I. N., 1975, *Rev. Soc. Brasil. Med. Trop.*, v. 9 (1), 27-35
Schistosoma mansoni, extensive survey for possible role of rodent reservoir hosts in the epidemiology of human schistosomiasis; rodents thought to become parasitized when using brooks and lake tributaries containing cercariae shed by planorbids living in these waters
Holochilus brasiliensis
Nectomys squamipes squamipes
Zygodontomys lasiurus
all from Lago da Pampulha, Belo Horizonte, Brasil
- Schistosoma mansoni*
Cassone, J.; et al., 1978, *Ann. Parasitol.*, v. 53 (4), 387-391
Schistosoma mansoni, human strain from West Africa, modification in cercarial chetotaxy after several mouse passages; differences in cercarial chetotaxy in Guadeloupe in relation to whether transmission is predominantly murine or predominantly human
- Schistosoma mansoni*, illus.
de Castro, H. N.; Nohmi, N.; and Marques, M. do R., 1973, *Rev. Ass. Med. Minas Gerais*, v. 24 (4), 223-232
Schistosoma mansoni, young woman, toxic hepatitis after hycanthone therapy for hepatic-intestinal schistosomiasis, combined cumulative effects of hycanthone and oral contraceptive thought to be causative factors: Belo Horizonte, Brazil
- Schistosoma mansoni*
Castro, L. de P.; et al., 1971, *Rev. Inst. Med. Trop. S. Paulo*, v. 13 (2), 103-109
Schistosoma mansoni, human, jejunum, pathology, peroral biopsy
- Schistosoma mansoni*
Catto, B. A.; and Ottesen, E. A., 1979, *Comp. Biochem. and Physiol.*, v. 63C (2), 235-242
Schistosoma mansoni schistosomules, serotonin uptake
- Schistosoma mansoni*
Cazin, A., 1976, *Rev. Infirm. Afrique Noire* (45), 5-15
human schistosomiasis, African forms, clinical review
- Schistosoma mansoni*
Cechinel, Y. M. N.; and Owen, J. S., 1978, *Rev. Brasil. Biol.*, v. 38 (2), 339-343
Schistosoma mansoni, patients with hepato-intestinal, compensated hepatosplenic, and decompensated hepatosplenic forms, plasma free cholesterol and cholesterol ester concentrations
- Schistosoma mansoni*
Cesari, I. M.; and Marchiani, C. A., 1978, *Exper. Parasitol.*, v. 45 (2), 175-182
Schistosoma mansoni, haemagglutinating activity of membrane-associated 'agglutinin' is mainly due to acidic phospholipids, possible molecular role of these structural membrane components in evasion of host immunological recognition and/or response
- Schistosoma mansoni*
Cha, Y. N., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (6), 1181-1187
Schistosoma mansoni-infected mice, activities of some hepatic drug-metabolizing enzymes can be increased by treatment with inducers
- Schistosoma mansoni*
Cha, Y. N.; and Bueding, E., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (6), 1188-1191
Schistosoma mansoni, mice, recovery of hepatic drug-metabolizing capacity following curative dose of 4-isothiocyano-4'-nitrodiphenylamine
- Schistosoma mansoni*
Chavasse, C. J.; Brown, M. C.; and Bell, D. R., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (3), 293-295
Schistosoma mansoni, short term effects of oxamniquine on activity of paired worms in vitro
- Schistosoma mansoni*
Chavasse, C. J.; Brown, M. C.; and Bell, D. R., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (3), 241-249
Schistosoma mansoni, activity of pairs of adults as modified by various oxamniquine concentrations monitored in continuous flow culture system by means of ultrasound
- Schistosoma mansoni*
Chavasse, C. J.; Brown, M. C.; and Bell, D. R., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (4), 363-367
Schistosoma mansoni, ultrasound compares favorably with other activity monitoring methods used to assess drug effects on worms; response to 5-hydroxytryptamine as indicator of neuromuscular status
- Schistosoma mansoni*
Chavasse, C. J.; Brown, M. C.; and Bell, D. R., 1979, *Ztschr. Parasitenk.*, v. 58 (2), 169-174
Schistosoma mansoni, activity response in vitro to praziquantel
- Schistosoma mansoni*, illus.
Chaves, E.; et al., 1972, *Rev. Inst. Med. Trop. S. Paulo*, v. 14 (3), 222-229
Schistosoma mansoni, human, infection of lung complicating case of pulmonary cryptococcosis

- Schistosoma mansoni*
Cheever, A. W.; et al., 1978, *Am J. Trop. Med. and Hyg.*, v. 27 (1, pt. 1), 55-75
Schistosoma mansoni, *S. haematobium*, humans, quantitative study of 400 consecutive autopsies, extrahepatic pathologic findings correlated with presence or absence of schistosome infection and with intensity of infection: Egypt
- Schistosoma mansoni*
Cheng, T. C.; Guida, V. G.; and Gerhart, P. L., 1978, *J. Invert. Path.*, v. 32 (3), 297-302
snail defense mechanisms, *Biomphalaria glabrata* challenged with bacteria, significant elevations in levels of total serum proteins, levels of lysozyme activity not altered possibly due to age of snails
- Schistosoma mansoni*
Chensue, S. W.; and Boros, D. L., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (2), 291-299
Schistosoma mansoni, mice, population dynamics of T and B lymphocytes in lymphoid organs, peripheral blood, and hepatic granulomas, appearance of B cells within granulomas may indicate that they play role in modulating granulomatous hypersensitivity
- Schistosoma mansoni*
Chensue, S. W.; and Boros, D. L., 1979, *J. Immunol.*, v. 123 (3), 1409-1414
Schistosoma mansoni, characterization of T lymphocytes involved in adoptive suppression of granuloma formation in infected mice
- Schistosoma mansoni*, *illus.*
Chiari, L.; Araujo, S. M.; and Guerrero, J., [1978], *Riv. Parasitol.*, Roma, v. 38 (2-3), 1977, 329-332
helminths in animal tissue, technique for collecting or counting using compression between plastic, useful in anthelmintic evaluation, mebendazole tested
- Schistosoma mansoni*
Chieffi, P. P., 1975, *Rev. Inst. Med. Trop. S. Paulo*, v. 17 (2), 92-96
Schistosoma mansoni, 3 strains, susceptibility of various strains of *Biomphalaria tenagophila*
- Schistosoma mansoni*
Chieffi, P. P., 1975, *Rev. Soc. Brasil. Med. Trop.*, v. 9 (4), 209-212
Schistosoma mansoni, strains of *Biomphalaria tenagophila* from Londrina showed complete resistance to parasite infection under all experimental conditions
- S[*chistosoma*] *mansoni*
Chigres, B.; et al., 1976, *Rev. Brasil. Med.*, v. 33 (1), 17-22
schistosomiasis mansoni, comparisons of electrocardiograms of infected humans vs. normal controls revealed high incidence of myocardial fibrosis with conduction disorders in the presence of infections
- Schistosoma mansoni*
Chquilloff, M. A. de G.; Scherrer, J. F.; and de Freitas, J. R., 1978, *Rev. Inst. Med. Trop. S. Paulo*, v. 20 (1), 22-30
Biomphalaria glabrata, reticulate varieties, comparison of pigmented and albino strains, variations in resistance to infection with *Schistosoma mansoni* miracidia
- Schistosoma mansoni*
Christensen, N. Ø., 1979, *J. Helminth.*, v. 53 (1), 7-14
Schistosoma mansoni, various aquatic organisms can interfere with cercarial host-finding
- Schistosoma mansoni*
Christie, J. D.; et al., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (3), 616-622
slow-release copper molluscicide tested against *Biomphalaria glabrata*, laboratory and field trials: St. Lucia
- Schistosoma mansoni*
Christie, J. D.; and Prentice, M. A., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (2), 197-198
Schistosoma mansoni, study confirms that it is not possible to correlate number of daughter sporocysts with number of miracidia which penetrate vector snails
- Schistosoma mansoni*
Cioli, D.; Blum, K.; and Ruppel, A., 1978, *Exper. Parasitol.*, v. 45 (1), 74-80
Schistosoma mansoni, onset of rejection in laboratory rats is dependent on parasite age and independent of length of contact with host, possible immune and nonimmune mechanisms
- Schistosoma mansoni*
Civil, R. H.; and Mahmoud, A. A. F., 1978, *J. Immunol.*, v. 120 (3), 1070-1072
Bacillus Calmette-Guerin (BCG) induces non-specific resistance to *Schistosoma mansoni* in only certain strains of inbred mice, BCG-induced protection does not correlate with increases in spleen weight and is not associated with genes of the major histocompatibility complex of the mouse
- Schistosoma mansoni*
Civil, R. H.; Warren, K. S.; and Mahmoud, A. A. F., 1978, *J. Infect. Dis.*, v. 137 (5), 550-555
Schistosoma mansoni, mice, non-specific resistance induced by bacille Calmette-Guerin, variables associated with source and strain of BCG, dose, route, and timing of mycobacterial administration, and duration of protection
- Schistosoma mansoni*
Claas, F. H. J.; and Deelder, A. M., 1979, *J. Immunogenet.*, v. 6 (3), 167-175
Schistosoma mansoni, mice of 2 congenic inbred strains, immune response (worm burden, mortality, antibody titre, spleen index, eosinophilia, delayed type hypersensitivity, in vitro response to 3 *S. mansoni* antigen preparations), results indicate H-2 region influences course of acute infection but not susceptibility to infection
- Schistosoma mansoni*
Clarke, V. de V.; et al., 1976, *South African Med. J.*, v. 50 (46), 1867-1871
Schistosoma haematobium, *S. mansoni*, human, dose-finding trials for oral oxamniquine, effective only in treating *S. mansoni*: Rhodesia

- Schistosoma mansoni*
Clarke, V. de V.; Blair, D. M.; and Weber, M., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 73-77
Schistosoma mansoni or *S. haematobium* or mixed infections, children, oxamniquine, clinical trials: Rhodesia
- Schistosoma mansoni*
Clegg, J. A., 1974, Ciba Found. Symp., n.s. (25), 161-183
Schistosoma mansoni, evidence for existence of host-like antigens on surface of schistosomes, chemical nature and function of these host antigens, review
- [*Schistosoma*] *mansoni*
Coelho, L. C. B. B.; and Gillett, M. P. T., 1979, Biochem. Soc. Tr., v. 7 (5), 988-990
[*Schistosoma*] *mansoni*, human, hepatosplenic, effect of splenectomy on plasma phosphatidylcholine-cholesterol acyltransferase activity and on blood lipids
- Schistosoma mansoni*, *illus.*
Coelho, L. H. M. R.; Carvalho, G.; and Carvalho, J. M., 1979, Acta Cytol., v. 23 (1), 45-48
Schistosoma mansoni, women, carcinoma in situ, invasive squamous cell carcinoma, and benign cervical lesion of uterine cervix, case reports: Salvador and neighboring cities, state of Bahia
- Schistosoma mansoni*
Coelho, P. M. Z.; et al., 1975, Rev. Inst. Med. Trop. S. Paulo, v. 17 (3), 129-134
Schistosoma mansoni-infected *Biomphalaria glabrata*, ⁵⁹Fe uptake under normal and crowded conditions
- Schistosoma mansoni*
Coelho, P. M. Z.; et al., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (6), 440-442
Schistosoma mansoni-infected hamsters, increase in worm burden produces decrease in female worm size
- Schistosoma mansoni*
Coelho, P. M. Z.; et al., 1979, Am. J. Trop. Med. and Hyg., v. 28 (1), 163-164
Schistosoma mansoni, small mammal reservoir hosts trapped in endemic area
Nectomys squamipes
Akodon arviculoides arviculoides
Zigodontomys pixuma
Calomys expulsus
Oryzomys matogrossae
Oxymycterus hispidus
Proechimys albispinus
Rattus rattus frugivorus
Zigodontomys lasiurus
Oryzomys laticeps
Cercomys cunicularis
Procyon cancrivorus nigripes
Didelphis marsupialis aurita
all from Caratinga area, Minas Gerais, Brazil
- Schistosoma mansoni*
Coelho, P. M. Z.; et al., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (1), 113-114
Schistosoma mansoni, transplantation of adult worms from mice to portal system of Cebus monkeys immunized against mouse red blood cells resulted in reduced recovery of male worms compared to control group
- Schistosoma mansoni*
Cohen, J. E., 1974, Social Sc. and Med., v. 8 (7), 383-398
Schistosoma mansoni, *S. haematobium*, humans, potential economic benefits of eliminating mortality associated with infection, estimation procedures and theories: Zanzibar
- Schistosoma mansoni*
Colaert, J.; et al., 1977, Ann. Soc. Belge Med. Trop., v. 57 (3), 157-162
Schistosoma mansoni, humans, epidemiology of small autochthonous infection, *Biomphalaria camerunensis* confirmed as vector: Kinshasa (Republique du Zaire)
- Schistosoma mansoni*
Coles, G. C., 1979, J. Helminth., v. 53 (1), 31-33
Schistosoma mansoni, praziquantel, effect on different life cycle stages, possible mechanism of action
- Schistosoma mansoni*
Coles, G. C.; and Chappell, L. H., 1979, Exper. Parasitol., v. 47 (1), 49-53
Schistosoma mansoni, effects of potassium antimony tartrate on immature vs. adult worms in vitro and in vivo, if antimony acts by inhibition of phosphofructokinase it is not clear why young worms are more resistant to chemotherapy than adults
- Schistosoma mansoni*
Colley, D. G., 1976, J. Exper. Med., v. 143 (3), 696-700
Schistosoma mansoni, passive transfers of lymphoid cells from chronically infected mice to syngeneic mice in early stages of infection suppressed granuloma formation, passive transfers of serum had no such effect
- Schistosoma mansoni*
Colley, D. G.; et al., 1979, J. Immunol., v. 122 (4), 1447-1453
Schistosoma mansoni, in vitro nonspecific suppression of phytohemagglutinin responsiveness induced by exposure to certain schistosomal preparations
- Schistosoma mansoni*
Colley, D. G.; Lewis, F. A.; and Goodgame, R. W., 1978, J. Immunol., v. 120 (4), 1225-1232
Schistosoma mansoni, human, induction of suppressor cell activity by schistosome antigen preparations and concanavalin A, immunoregulatory responses observed could be important in establishment of stable chronic infection state by modulating extent of egg-induced granuloma formation and preventing rejection of adult worms
- Schistosoma mansoni*
Colley, D. G.; Lewis, F. A.; and Todd, C. W., 1979, Cellular Immunol., v. 46 (1), 192-200
Schistosoma mansoni, mice, adoptive suppression of granuloma formation by T lymphocytes and by lymphoid cells sensitive to cyclophosphamide

- Schistosoma mansoni*
Combes, C.; and Theron, A., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 141-150
trematodes, periodicity of cercarial emission, types of rhythms and factors synchronizing them, adaptive value in completion of life cycle, potential use in prevention of human and animal infection
- Schistosoma mansoni*, *illus.*
Conkle, D. M.; Adkins, R. B., jr.; and McSwain, H. B., 1976, South. Med. J., v. 69 (6), 747-748
Schistosoma mansoni, man, case report, techniques of extracorporeal filtration followed by splenectomy and portal vein decompression: Ethiopian student at Vanderbilt University, Nashville, Tennessee
- Schistosoma mansoni*
Cordeiro, M. N.; and Gazzinelli, G., 1979, Exper. Parasitol., v. 48 (3), 337-344
Schistosoma mansoni, protein and glycoprotein composition of tegument with respect to age, sex, and host origin, resolution and molecular weight estimates by polyacrylamide gel electrophoresis
- Schistosoma mansoni*
Cornford, E. M.; and Oldendorf, W. H., 1979, J. Parasitol., v. 65 (3), 357-363
Schistosoma mansoni, new method for measuring transintestinal uptake in individual male and female worms, application to uptake of glucose and selected amino acids
- Schistosoma mansoni*
Correa, L. R.; and Paraense, W. L., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (6), 387-390
Schistosoma mansoni in *Biomphalaria amazonica* (exper.), could become vector in its geographic range (lower Negro river, State of Amazonas which is presently non-endemic for schistosomiasis)
- Schistosoma mansoni*
Coulis, P. A.; Lewert, R. M.; and Fitch, F. W., 1978, J. Immunol., v. 120 (1), 58-60; Erratum (3), 1073-1076
Schistosoma mansoni, depression and restoration of cell-mediated cytotoxicity of spleen cells from infected mice, present studies suggest role of macrophage rather than T-cell as suppressor cell in this model
- S[*chistosoma*] *mansoni*
Coura, J. R.; et al., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 41-46
S[*chistosoma*] *mansoni*, human, oxamniquine, efficient, low toxicity
- S[*chistosoma*] *mansoni*
Coura, J. R.; et al., 1974, Rev. Soc. Brasil. Med. Trop., v. 8 (4), 193-198
schistosomiasis *mansoni*, statistics of survey of infected persons who had lived permanently outside of endemic areas from 1-30 years without possibility of reinfection, length of infections, pathology, therapy: Brazil
- S[*chistosoma*] *mansoni*
Coura, J. R.; and Conceicao, M. J., 1974, Rev. Soc. Brasil. Med. Trop., v. 8 (3), 153-158
S[*chistosoma*] *mansoni*, humans, comparative study of Lutz sedimentation technique, Kato thick-smear and Simoes Barbosa egg-counting technique for diagnosis; Kato method found to be simple, inexpensive and of the highest sensitivity of the 3 tests
- Schistosoma mansoni*
Coutinho, A., 1969, Rev. Inst. Med. Trop. S. Paulo, v. 11 (5), 363-376
Schistosoma mansoni, human, current aspects of chemical and surgical therapy, review
- S[*chistosoma*] *mansoni*
Coutinho, A., 1979, AMB, Rev. Ass. Med. Brasil., v. 25 (5), 185-188
S[*chistosoma*] *mansoni*, humans, factors related to development of clinical forms: clinical-epidemiological classification, clinical manifestations, related enterobacterial infections, decompensating pathologic findings
- S[*chistosoma*] *mansoni*
Coutinho, A. D.; and Barreto, V. S., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (1), 57-70
S[*chistosoma*] *mansoni*, human, hycanthone, frequent side effects, possesses therapeutic value if carefully monitored
- [*Schistosoma*] *mansoni*
Coutinho, A.; Domingues, A. L. C.; and Bonfim, J. R. A., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 15-34
[*Schistosoma*] *mansoni*, human, oxamniquine, possible toxic side effects, clinical and parasitological action
- S[*chistosoma*] *mansoni*
Coutinho, E.; et al., 1972, Rev. Soc. Brasil. Med. Trop., v. 6 (4), 211-236
S[*chistosoma*] *mansoni*, nutritional study including clinical and anthropometric measurements of infected persons living in endemic area, preliminary results inconclusive: northeast Brazil
- S[*chistosoma*] *mansoni*
da Cunha, A. S.; et al., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (2), 131-136
S[*chistosoma*] *mansoni*, human, hycanthone, therapeutic evaluation
- S[*chistosoma*] *mansoni*
da Cunha, A. S.; et al., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (3), 213-222
S[*chistosoma*] *mansoni*, humans, hycanthone toxicity
- Schistosoma mansoni*
Curiel, M.; Chaves, J.; and Torrealba, J. W., 1972, Rev. Inst. Med. Trop. S. Paulo, v. 14 (6), 384-387
Schistosoma mansoni, human, immunoglobulins IgG, IgA, and IgM in sera
- Schistosoma mansoni*, *illus.*
Daiber E., A., 1974, Rev. Med. Chile, v. 102 (9), 697-699
Schistosoma mansoni, human, case report: Chile, had traveled to Brazil
- Schistosoma mansoni*
Danno, K.; Fukuyama, K.; and Epstein, W. L., 1979, Lab. Invest., v. 40 (3), 358-363
Schistosoma mansoni, infection induces T-cell-independent autoantibody (antinuclear antibody) in athymic mice and T-cell-dependent antischistosome antibodies in thymus-intact mice, both types of antibodies deposit in kidneys as immunocomplexes

- Schistosoma mansoni*
Dantas, A. M. P.; and Ferreira, L. F., 1973, Rev. Soc. Brasil. Med. Trop., v. 7 (3), 209-212
human intestinal parasites (especially *Schistosoma mansoni*), comparison of several fecal techniques used for diagnosis, concluded that Hoffman-Pons-Janer is most sensitive
- S[*chistosoma*] *mansoni*, illus.
Dar, J.; and Zimmerman, R. R., 1977, Surg. Neurol., v. 8 (6), 416-418
schistosomiasis of human spinal cord, clinical review; case report of schistosomiasis *mansoni* infection in 14-month-old child who manifested symptoms of granulomatous transverse myelitis: Kenya
- Schistosoma mansoni*
Dean, D. A.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 951-956
Schistosoma mansoni, mice receiving unisexual primary infection did not develop detectable resistance to reinfection, mice receiving bisexual primary infection developed high degree of resistance
- Schistosoma mansoni*
Dean, D. A.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 957-965
Schistosoma mansoni, mice, resistance to secondary infection, evidence for correlation between egg deposition and worm elimination
- Schistosoma mansoni*
Deelder, A. M.; Claas, F. H. J.; and De Vries, R. R. P., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (3), 321-322 [Letter]
Schistosoma mansoni, mice with strain differences in H-2 gene complex, no differences in worm burden but considerable differences in mortality and in antibody titer
- Schistosoma mansoni*
Deelder, A. M.; and Eveleigh, P. C., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (2), 178-180
Schistosoma mansoni-infected hamsters, indirect haemagglutination reaction detected circulating anodic antigen in sera and in immune complexes isolated from these sera, but never in sera from human infections
- Schistosoma mansoni*
Deelder, A. M.; Reinders, P. N.; and Rotmans, J. P., 1977, Acta Leidensia, v. 45, 91-103
Schistosoma mansoni, purification of acidic protease, possible use as antigen in serological tests and in development of assay for detection of enzyme as circulating antigen
- Schistosoma mansoni*
Deelder, A. M.; Van Dalen, D. P.; and Van Egmond, J. G., 1978, Exper. Parasitol., v. 44 (2), 216-224
Schistosoma mansoni, microfluorometric determination (using DASS system) of circulating anodic antigen and antigen-antibody complexes in infected hamster serum
- Schistosoma mansoni*, illus.
Dei-Cas, E.; et al., 1979, Biol. Cell., v. 35 (3), 321-324
Schistosoma mansoni, ultrastructural localization of tritiated 5-hydroxytryptamine incorporated by adult worms in vitro
- Schistosoma mansoni*
Densen, P.; et al., 1978, Infect. and Immun., v. 22 (1), 282-285
Schistosoma mansoni, demonstration of eosinophil degranulation on surface of opsonized schistosomules by phase-contrast cinemicrography
- Schistosoma mansoni*
Dessaint, J. P.; et al., 1979, Cellular Immunol., v. 46 (1), 12-23
binding characteristics of IgE on surface of rat macrophages, characterization of IgE on surface of macrophages from *Schistosoma mansoni*-infected rats
- Schistosoma mansoni*
Dessaint, J. P.; et al., 1979, Cellular Immunol., v. 46 (1), 24-34
immunologic release of lysosomal enzyme from macrophages by IgE and anti-IgE in the rat, new mechanism of macrophage activation, implications for mechanism of antibody-dependent macrophage cytotoxicity in rat schistosomiasis
- Schistosoma mansoni*
Devay, O., 1975, Rev. Soc. Brasil. Med. Trop., v. 9 (4), 203-208
human intestinal parasites, comparison of Stoll and Kato methods of fecal egg counts for diagnosis; Stoll technique more sensitive for diagnosing hookworm but results were equal for other parasites
- Schistosoma mansoni*
Dias, L. C. de S.; et al., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (1), 37-44
Schistosoma mansoni, human, immunofluorescence and hemagglutination techniques used in serologic surveys, results compared with fecal egg counts, possible application of serologic tests to epidemiological surveys
- Schistosoma mansoni*
Dias, L. C. de S.; et al., 1978, Rev. Saude Pub., S. Paulo, v. 12 (1), 110
Schistosoma mansoni, isolation of strain resistant to hycanthone and to oxamniquine
- Schistosoma mansoni*
Dias, L. C. S.; Avila-Pires, F. D.; and Pinto, A. C. M., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (5), 496-500
Schistosoma mansoni, natural infections of small mammals; daily variation in egg output; distribution, number, and sex of worms recovered during perfusion of portal system; *Holochilus brasiliensis leucogaster* most likely as reservoir host
Cavia aperea
Holochilus brasiliensis leucogaster
Nectomys squamipes squamipes
Oryzomys nigripes eliiurus
Zygodontomys brachyurus
all from valley of Paraiba do Sul river, Sao Paulo State, Brazil
- Schistosoma mansoni*
Dias, R. P.; and Alvarenga, R. J., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (2), 60-65
Schistosoma mansoni, mice, study of Symmers' fibrosis

- Schistosoma mansoni*
Digeon, M.; et al., 1979, Clin. and Exper. Immunol., v. 35 (3), 329-337
Schistosoma mansoni, mice, IgG and IgM but not IgA anti-schistosome antibodies, circulating immune complexes containing schistosomal antigen, glomerular mesangial deposits of IgA, IgM, and C3
- Schistosoma mansoni*
Disko, R., 1978, Ztschr. Parasitenk., v. 55 (3), 235-239
Schistosoma mansoni-infected snails, 'eclosion clock' apparatus for study of cercarial emergence patterns, counting techniques
- Schistosoma mansoni*
Doenhoff, M.; et al., 1978, Immunology, v. 35 (5), 771-778
Schistosoma mansoni, T-cell deprived mice have substantially fewer parasite eggs in their feces and marginally fewer eggs in their tissues than similarly infected immunologically-intact control animals, administration of serum from normal mice with chronic infections partially restored egg excretion rate and also resulted in increased number of eggs being deposited in liver and intestine
- Schistosoma mansoni*
Doenhoff, M.; et al., 1978, J. Helminth., v. 52 (3), 173-186
Schistosoma mansoni, mice, demonstration of resistance to reinfection using model system that involves perfusion of animals within 3 weeks of challenge at which time challenge-derived organisms are morphologically distinguishable from those of the primary infection which induced the resistance, comparison with more widely used assays
- Schistosoma mansoni*
Doenhoff, M.; et al., 1979, Am. J. Trop. Med. and Hyg., v. 28 (2), 260-273
Schistosoma mansoni in T-cell deprived vs. normal mice, parasitology (worm burdens, tissue and fecal egg counts), host response (hematology, serum transaminase levels), ameliorating effect of administering homologous chronic infection serum or heterologous rabbit anti-S. mansoni egg antiserum, roles played by cell-mediated vs. humoral immune responses in reaction against schistosome egg products
- Schistosoma mansoni*
Doenhoff, M. J.; and Bain, J., 1978, Clin. and Exper. Immunol., v. 33 (2), 232-238
Schistosoma mansoni-infected mice deprived of their T-cells, relative lack of efficacy of potassium antimony tartrate, demonstration of drug-antiserum synergy
- Schistosoma mansoni*
Doenhoff, M.; and Long, E., 1979, Parasitology, v. 78 (2), 171-183
Schistosoma mansoni, mice, mechanisms of resistance investigated by T-cell deprivation, variety of other immunosuppressive treatments, and several other in vivo methods
- Schistosoma mansoni*
Dofing, J. L., 1976, Rev. Franc. Gastro-Enterol. (115), 33-34
human splenic schistosomiasis with resulting congestive splenomegaly and portal hypertension, case report
- [*Schistosoma*] *mansoni*
Domingues, A. L. C.; and Coutinho, A., 1975, Rev. Inst. Med. Trop. S. Paulo, v. 17 (3), 164-180
[*Schistosoma*] *mansoni*, humans, oral oxamni-quine, extensive clinical trials: Brazil
- Schistosoma mansoni*, illus.
Dorsey, C. H.; and Stirewalt, M. A., 1977, Ztschr. Parasitenk., v. 54 (2), 165-173
Schistosoma mansoni cercariae, large concentrations of calcium in preacetabular glands localized in electron-lucent areas of type-A granules
- Schistosoma mansoni*
Dresden, M. H.; and Deelder, A. M., 1979, Exper. Parasitol., v. 48 (2), 190-197
Schistosoma mansoni, thiol proteinase properties of adult worm 'hemoglobinase'
- Schistosoma mansoni*
Duflo, B.; and Danis, M., 1975, Rev. Prat., Paris, v. 25 (16), 1210-1213
human schistosomiasis, clinical review
- Schistosoma mansoni*
Dukes, I. A. F.; Morris, J. S.; and Chemaly, A. F., 1974, South African Med. J., v. 48 (63), 2614 [Letter]
bilharzia, 29-year-old man, presentation as localized dull pain of longstanding duration, differential diagnosis: Natalspruit Hospital, Alrode, Transvaal
- Schistosoma mansoni*
Dunn, M. A.; et al., 1978, Gastroenterology, v. 75 (6), 1010-1015
Schistosoma mansoni, conversion of arginine (but not glutamic acid) to proline in normal and fibrotic mouse liver slices and in living mice with schistosomiasis, arginine-derived proline was utilized for liver collagen synthesis, possible pathophysiological significance
- Schistosoma mansoni*
Dunn, M. A.; et al., 1979, Gastroenterology, v. 76 (5, pt. 1), May, 978-982
Schistosoma mansoni, human, collagen synthesis rates in fibrotic liver specimens, liver free-proline content and utilization of proline precursors
- Schistosoma mansoni*
Dunn, M. A.; Maragoudakis, M. E.; and Hait, P. K., 1978, Biochim. et Biophys. Acta, v. 538 (2), 328-333
Schistosoma mansoni, mice, 47-fold increase in activity of liver procollagen prolyl hydroxylase, effect of inhibitor, possibility that this enzyme may be rate-controlling in collagen deposition and that its inhibition may be therapeutically useful in liver fibrosis
- Schistosoma mansoni*, illus.
Ebrahimzadeh, A., 1977, Ztschr. Parasitenk., v. 54 (3), 257-267
Schistosoma mansoni miracidium, light and electron microscopy of tegument and associated structures (cilia, microvilli-like appendices, thin-long appendices, sensory papillae on terebratorium)

- Schistosoma mansoni*
Edington, G. M., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (3), 351-352 [Letter]
Schistosoma mansoni, humans, comments on primary liver cell carcinoma associated with schistosomiasis
- Schistosoma mansoni*, *illus.*
Edungbola, L. D.; and Schiller, E. L., 1979, J. Parasitol., v. 65 (2), 253-261
Schistosoma mansoni, mice, rats, hamsters, comparative histopathology of hepatic and pulmonary granulomata experimentally induced with eggs
- Schistosoma mansoni*, *illus.*
Elbadawi, A.; Davis, R. S.; and Cockett, A. T., 1978, Urology, v. 12 (1), 87-90
Schistosoma mansoni, elderly Puerto Rican man, intratesticular ovum depositis with periorchitis, case report
- S[*chistosoma*] *mansoni*
El-Hawey, A. M.; Hablas, R.; and El-Maghraby, M. A., 1978, Egypt. J. Bilharz., v. 4 (1), 1977, 97-105
S[*chistosoma*] *mansoni*, humans, pathology, presence of bacteria, possible role in pathogenesis of parasitic infection
- Schistosoma mansoni*
El-Kalouby, A.; et al., 1977, Egypt. J. Bilharz., v. 4 (2), 179-185
S. haematobium, *S. mansoni* and mixed infections, humans, immediate skin test reactions to *Schistosoma* antigen
- Schistosoma mansoni*
El-Kholy, Z. A.; et al., 1979, Biochem. Pharmacol., v. 28 (21), 3171-3172
Schistosoma mansoni-infected and normal mice, effect of astiban on β -glucuronidase activity in liver, spleen, kidney, and bladder homogenates
- Schistosoma mansoni*
Ellner, J. J.; and Mahmoud, A. A. F., 1979, J. Immunol., v. 123 (2), 949-951
Schistosoma mansoni, killing of schistosomula by normal human monocytes independent of specific antibody, complement, and macrophage activation
- Schistosoma mansoni*
El-Raziky, E. H.; et al., 1977, Egypt. J. Bilharz., v. 4 (2), 195-201
Schistosoma mansoni, *S. haematobium*, humans, delayed skin test reactions to *S. mansoni* antigen were increased with host age and severity of infections and were more frequent in males, correlations with immediate skin test reactions
- Schistosoma mansoni*
El-Sawy, M.; et al., 1979, NATO Advanced Study Inst. Ser., s. A, Life Sc., v. 24, 277-279
schistosomiasis in patients with and without neurological symptoms, circumoval precipitin test, indirect haemagglutination test, and immunoglobulins in serum and cerebrospinal fluid
- Schistosoma mansoni*
Elwing, H.; and Nygren, H., 1979, J. Immunol. Methods, v. 31 (1-2), 101-107
diffusion-in-gel-enzyme-linked-immunosorbent assay as simple method for quantitation of class-specific antibodies, applicability to several serological systems of diagnostic relevance including patients with schistosomiasis and amoebiasis
- Schistosoma mansoni*
Emara, S. H.; and El-Ghaeb, F. M., 1978, Indian J. Exper. Biol., v. 16 (3), 378-381
Schistosoma mansoni, total proteins and free amino acids in hemolymph of *Biomphalaria alexandrina* and *Helisoma duryi* pre- and post-exposure to miracidia
- Schistosoma mansoni*
Enders, B.; et al., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (6), 305-316
Schistosoma mansoni antigens purified, evaluated for skin test use by trials in *S. mansoni* areas of Ethiopia, Rhodesia, and Brazil and in *S. haematobium* areas of Sierra Leone; comparisons with WHO standard antigen and stool examinations
- Schistosoma mansoni*, *illus.*
Epstein, W. L.; et al., 1979, J. Path., v. 127 (4), 207-215
Schistosoma mansoni, normal and athymic mice, granulomatous inflammation, ultrastructural study
- Schistosoma mansoni*, *illus.*
Erasmus, D. A.; and Davies, T. W., 1979, Exper. Parasitol., v. 47 (1), 91-106
Schistosoma mansoni, *S. haematobium*, calcareous corpuscles in vitelline cells, morphological observations, X-ray microanalysis, effect of drug treatment
- Schistosoma mansoni*
Ernst, S. C., 1976, Rice Univ. Studies, v. 62 (4), 81-95
Schistosoma mansoni, alkaline phosphatase activity, biochemical and cytochemical studies, tegumental localization suggests that invaginations of tegument represent surface compartments that would facilitate digestive absorptive activity of this membrane, localization of nonspecific alkaline phosphatase activity in tegument but not in esophagus or cecum may reflect regional differences in function
- Schistosoma mansoni*
Eveland, L. K.; Ludwikowska, A.; and Madden, K. G., 1979, Exper. Parasitol., v. 48 (3), 375-383
Schistosoma mansoni, long-term cultivation of in vitro derived schistosomula
- Schistosoma mansoni*
Eveland, L. K.; and Morse, S. I., 1978, Exper. Parasitol., v. 45 (1), 19-25
Schistosoma mansoni, in vitro derived schistosomula attenuated by x-irradiation, infectivity and immunizing potential, mice
- S[*chistosoma*] *mansoni*
Eyakuse, V. M., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 67-72
S[*chistosoma*] *mansoni*, human, oxamniquine, single dose of 30mg/kg (larger dose than previously recommended) intramuscularly, clinical trial

- Schistosoma mansoni
Eyakuze, V. M.; Rutasitara, W. K.; and Ndalaha, J. B., 1979, East African Med. J., v. 56 (1), 22-25
Schistosoma mansoni, schoolchildren and adults, oral oxamniquine, large field trial, drug feasible for routine treatment of people living in endemic areas: Nansio, Ukerewe, Tanzania
- S[chistosoma] mansoni
Farag, H. F.; et al., 1978, Tropenmed. u. Parasitol., v. 29 (4), 413-416
bilharziasis, human, diagnosis using enzyme-linked immunosorbent assay and homologous antigen, S[chistosoma] haematobium cases generally were less reactive than S. mansoni or mixed infections
- S[chistosoma] mansoni
Farag, H. F.; and Barakat, R. M. R., 1978, Tropenmed. u. Parasitol., v. 29 (1), 12-14
S[chistosoma] mansoni, S[chistosoma] haematobium, human, enzyme linked immunosorbent assay, evaluation of use in diagnosis
- Schistosoma mansoni
Farid, Z.; et al., 1979, Ann. Trop. Med. and Parasitol., v. 73 (5), 501-502
Schistosoma mansoni, humans, advanced intestinal infections, oxamniquine therapy
- Schistosoma mansoni
Fauve, R. M., 1978, Pharmacol. Immunoreg., 319-334
mice, induction of inflammatory reactions with non-biodegradable, non-diffusible, and non-antigenic substances at site distant from site of pathogen proliferation or persistence, increased resistance to various pathogens including Schistosoma mansoni, fraction extracted from granuloma is responsible at least in part for this increased resistance
- Schistosoma mansoni, illus.
Ferluga, J.; Doenhoff, M. J.; and Allison, A. C., 1979, Parasite Immunol., v. 1 (4), 289-294
Schistosoma mansoni, mice in granulomatous stage of infection, increased hepatotoxicity of bacterial lipopolysaccharide
- Schistosoma mansoni
Ferraz, M. P. T.; et al., 1973, Rev. Paul. Med., v. 81 (5), 275-278
Schistosoma mansoni, symptomatic psychosis in 2 persons who had received hycanthone treatment for schistosomiasis, case reports: Brazil
- Schistosoma mansoni
Ferreira, A. W.; et al., 1979, J. Helminth., v. 53 (3), 189-194
Schistosoma mansoni, immuno-enzymatic assay for detection of antigens in serum of mice harboring bisexual or unisexual light worm infections
- Schistosoma mansoni
Ferreira, A. W.; Camargo, M. E.; and Nakahara, O. S., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (6), 341-345
Schistosoma mansoni, immuno-peroxidase-antiglobulin diagnostic test compared with standard immunofluorescence and hemagglutination tests
- Sch[istosoma] mansoni
Ferreira, J. M.; Bassoi, O. N.; and Shiroma, M., 1975, Rev. Inst. Med. Trop. S. Paulo, v. 17 (6), 368-379
Sch[istosoma] mansoni-infected humans also infected with typhoid fever, atypical aspects of bacterial infection, niridazole at times also cured typhoid, schistosomes may act as multiplication foci of bacteria within host
- Sch[istosoma] mansoni
Ferreira, J. M.; Bassoi, O. N.; and Shiroma, M., 1976, Rev. Hosp. Clin., S. Paulo, v. 31 (3), 144-150
Sch[istosoma] mansoni, human infections, associated prolonged infection with salmonellosis, suggests that schistosomes may operate as reservoirs for the multiplication of the Salmonellae, mixed infections cured by use of the antischistosomal drug (niridazole) alone
- Schistosoma mansoni
Fetterer, R. H.; et al., 1978, Exper. Parasitol., v. 46 (1), 59-71
Schistosoma mansoni, physical and chemical factors affecting mechanical properties of adult male musculature in vitro (incubation media, buffers, temperature, osmolality, pH, ions), improvements in system for recording motor activity; results indicate that S. mansoni musculature is similar to smooth muscle found in mammals
- Schistosoma mansoni
Fiorillo, A. M.; da Costa, J. C.; and Passos, J., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (6), 371-376
Schistosoma mansoni, human chronic infections, identification of hemagglutinating antibodies using indirect hemagglutination test with tannic acid-treated red blood cells sensitized with worm extract, antibodies identified as type 7S, probably IgG
- Schistosoma mansoni
Fonseca, O. J. de M.; Lacaz, C. da S.; and Machado, P. de A., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (6), 409-416
immuno-allergic survey, humans, antigens employed included schistosomin and leishmanin: Estado de Amazonas
- Schistosoma mansoni, illus.
Ford, J. W.; and Blankespoor, H. D., 1979, Internat. J. Parasitol., v. 9 (2), 141-145
Schistosoma, 3 human spp., eggs, scanning electron microscopy
- Schistosoma mansoni
Foster, R., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 1-9
Schistosoma mansoni, S. haematobium, S. japonicum, oxamniquine, efficacy and toxicity in various exper. animals, clinical trials in humans
- S[chistosoma] mansoni
Franco, H. M.; Rombert, P. C.; and Martins, M. A., 1972, Rev. Patol. Trop., v. 1 (4), 431-438
S[chistosoma] mansoni, indirect fluorescent antibody test using fragments of fresh adult parasites, diagnostic evaluation

- Schistosoma mansoni*
Frandsen, F., 1979, J. Helminth., v. 53 (4), 321-348
Schistosoma mansoni, 7 geographical strains, compatibility with various species and strains of *Biomphalaria*
Biomphalaria pfeifferi
B. salinarum
B. choanomphala
B. alexandrina
B. camerunensis camerunensis
B. camerunensis wansonii
B. sudanica
B. glabrata
(all exper.)
- Schistosoma mansoni*
Frandsen, F., 1979, Ztschr. Parasitenk., v. 58 (3), 275-296
Schistosoma spp., relationships with intermediate host snails, need for standardization of materials and methods for studying, assessment of degree of host-parasite compatibility, evaluation of schistosome taxonomy, review
- Schistosoma mansoni*
Frandsen, F.; and Madsen, H., 1979, Acta Trop., v. 36 (1), 67-84
schistosomiasis, possible use of *Helisoma duryi* in biological control as competitor of intermediate host snails, review
- Schistosoma mansoni*
Fripp, P. J.; Armstrong, F. A.; and Jaskulla, E., 1972, South African Med. J., v. 46 (47), 1819-1822
Schistosoma haematobium, *S. mansoni*, cercaricidal activity, hypochlorite solutions vs. halazone solution, formulations to make small amounts of water potable
- Schistosoma mansoni*
Fripp, P. J.; and McSheehy, M. A., 1969, South African J. Med. Sc., v. 34 (2), 35-37
Schistosoma mansoni, adults, separation of several α -naphthyl acetate esterase isoenzymes by thin layer polyacrylamide gel electrophoresis, enzyme patterns differ between sexes
- Schistosoma mansoni*
Frischkorn, C. G. B.; Frischkorn, H. E.; and Carrazzoni, E., 1978, Naturwissenschaften, v. 65 (9), 480-483
Schistosoma mansoni, cercaricidal activity of various plants from northeast Brazil
- Schistosoma mansoni*
Fuller, G. K.; Lemma, A.; and Haile, T., 1979, Am. J. Trop. Med. and Hyg., v. 28 (3), 526-530
Schistosoma mansoni, epidemiologic survey of resident population, snail vectors, and wild animals after reports of infection in tourists and campers to Omo National Park, importance of infection to future developmental plans
humans, Park residents (stool)
Papio anubis (mesenteric and portal veins, stool)
Cercopithecus aethiops (mesenteric and portal veins, stool)
Biomphalaria pfeifferi
all from Omo National Park, southwest Ethiopia
- Schistosoma mansoni*
Fuller, G. K.; Lemma, A.; and Haile, T., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (1), 121-122 [Letter]
man (tourists, park employees, indigenous Suris)
Biomphalaria pfeifferi
Papio anubis
Cercopithecus aethiops
all from Omo National Park, southwest Ethiopia
- Schistosoma mansoni*
Gerken, S. E.; et al., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (4), 212-217
Schistosoma mansoni, scanning electron microscopy of coarse precipitates formed around cercariae by normal non-inactivated guinea pig serum, phenomenon is directly linked to activity of complement
- Schistosoma mansoni*
Gerken, S. E.; Araujo, M. de P. T.; and de Freitas, J. R., 1975, Rev. Inst. Med. Trop. S. Paulo, v. 17 (6), 338-343
Schistosoma mansoni, *Biomphalaria straminea* (exper.), potential vectors of human infection, susceptibility low: States of Minas Gerais and Sao Paulo
- Schistosoma mansoni*
Ghandour, A. M.; and Ibrahim, A. M., 1978, J. Helminth., v. 52 (4), 339-342
Schistosoma mansoni, proportion of cercariae from 'glucose-fed' *Biomphalaria pfeifferi* dying in mouse skin was much lower than that from normal control snails, suggests that death of cercariae during penetration of host skin is probably due to exhaustion of their energy reserves
- Schistosoma mansoni*
Ghandour, A. M.; and Magid, M. A., 1978, J. Helminth., v. 52 (4), 303-304
Schistosoma mansoni, mice, immunization with ultra-violet irradiated cercariae
- Schistosoma mansoni*
Ghazal, A.; Ismail, M.; and Sharabi, F. M., 1978, Egypt. J. Pharm. Sc., v. 17 (1), 1976, 43-52
Schistosoma mansoni-infected mice, tissue histamine content before and after treatment with several antischistosomal drugs
- Schistosoma mansoni*, illus.
Gilbert, B.; Pellegrino, J.; and dos Santos Filho, D., 1971, Rev. Brasil. Pesqui. Med. e Biol., v. 4 (4-5), 315-316
Schistosoma mansoni, laboratory studies using *Enterolobium hexane* extract as a stimulant for the first stages of cercarial penetration, cercariae burrowed into thin layer of extract without separation of head from tail during penetration
- Schistosoma mansoni*
Gillett, M. P. T.; and Carvalho, V. C., 1978, Exper. Parasitol., v. 44 (2), 173-180
Schistosoma mansoni, mice, humans, alterations of plasma and erythrocyte lipids associated with hepatosplenic schistosomiasis, differences between the two host species, possible applications

- Schistosoma mansoni*
Gillett, M. P. T.; Owen, J. S.; and Carvalho, V. C. O., 1978, N. England J. Med., v. 298 (20), 1147-1148 [Letter]
Schistosoma mansoni, abnormalities of serum lipids indicative of subtle hepatic dysfunction as a feature of human infection
- Schistosoma mansoni*
Girgis, N. I.; Mansour, N. S.; and Khalil, S. B., 1979, East African Med. J., v. 56 (9), 428-430
Schistosoma mansoni, hamsters, prophylactic-protective activity of oral oxamniquine
- Schistosoma mansoni*
Glauert, A. M.; et al., 1978, J. Cell Sc., v. 34, 173-192
Schistosoma mansoni, mechanism of antibody-dependent eosinophil-mediated damage to schistosomula in vitro, phase-contrast and electron microscopic study
- [*Schistosoma*] *mansoni*
Godoy, P.; et al., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (2), 114-120
[*Schistosoma*] *mansoni*, human, hycanthone, hepatic failure and death, case report, pathologic findings
- Schistosoma mansoni*
Goennert, R.; and Andrews, P., 1977, Ztschr. Parasitenk., v. 52 (2), 129-150
Schistosoma mansoni in mice, *Mastomys*, and hamster, praziquantel, various routes of administration compared, all effective; fractional doses double efficacy of single dose; more effective against invading and mature stages than against juveniles
- Schistosoma mansoni*
Goldberg, M.; Flescher, E.; and Lengy, J., 1979, Exper. Parasitol., v. 47 (3), 333-341
Schistosoma mansoni, ornithine- δ -transaminase, partial purification and properties
- Schistosoma mansoni*
Goldsmid, J. M., 1974, Ann. Soc. Belge Med. Trop., v. 54 (2), 87-101
intestinal helminths, *Papio ursinus*, prevalence, potentially important source of infection for humans living in same general environment: Rhodesia
- S[*chistosoma*] *mansoni*
Goldsmid, J. M.; and Rogers, S., 1977, South African Med. J., v. 51 (2), 29-33
Schistosoma, humans, criteria used for diagnosis in endemic bilharzial areas (egg recovery, rectal biopsy, eosinophilia, hepatomegaly, serologic and skin test), rational proposal for treatment
- Schistosoma mansoni*
Goodgame, R. W.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (6), 1174-1180
Schistosoma mansoni, patients with hepatosplenic vs. intestinal disease, humoral immune responses, no evidence of alterations which might contribute to pathogenesis of hepatosplenic disease
- Schistosoma mansoni*
Goodgame, R. W.; and Bartholomew, R. K., 1978, Am. J. Trop. Med. and Hyg., v. 27 (4), 779-781
Schistosoma mansoni, human, alpha-1-antitrypsin deficiency does not play significant role in pathogenesis of hepatosplenic disease
- Schistosoma mansoni*, illus.
Graeber, K.; and Storch, V., 1979, Zool. Anz., Jena, v. 202 (5-6), 331-347
cestodes, trematodes, integument, scanning and transmission electron microscopy, morphology
- Schistosoma mansoni*, illus.
Greenblatt, H. C.; Eveland, L. K.; and Morse, S. I., 1979, Exper. Parasitol., v. 48 (1), 100-108
Schistosoma mansoni, cercarial tail loss in vitro results from antibody-independent activation of serum complement system via alternative pathway
- Schistosoma mansoni*
Gremillion, D. H.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 924-927

McLaren, D. J.; et al., 1978, *Parasitology*, v. 76 (3), 327-348
Schistosoma mansoni in vitro and in vivo (mice), developing tegumental outer membrane, freeze fracture study, changes in number and distribution of intramembraneous particles (IMP) during parasite maturation, reflection in alterations of ultrastructure and antigenicity of parasite surface
- Schistosoma mansoni*
McLaren, D. J.; Mackenzie, C. D.; and Ramalho-Pinto, F. J., 1977, *Clin. and Exper. Immunol.*, v. 30 (1), 105-118
Schistosoma mansoni, *Trichinella spiralis*, *Nippostrongylus brasiliensis*, in vitro interaction between rat eosinophils and parasitic helminths, ultrastructural observations, lack of morphological damage to parasite surface
- Schistosoma mansoni*
McLaren, D. J.; and Ramalho-Pinto, F. J., 1979, *J. Immunol.*, v. 123 (4), 1431-1438
Schistosoma mansoni, eosinophil-mediated killing of schistosomula in vitro, synergistic effect of antibody and complement
- Schistosoma mansoni*, *illus.*
McLaren, D. J.; Ramalho-Pinto, F. J.; and Smithers, S. R., 1978, *Parasitology*, v. 77 (3), 313-324
Schistosoma mansoni, ultrastructural evidence for complement and antibody-dependent damage to schistosomula by rat eosinophils in vitro
- Schistosoma mansoni*
McLaren, M.; et al., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (3), 243-253
Schistosoma mansoni, enzyme linked immunosorbent assay (ELISA) test evaluated for diagnosis using a wide range of subjects representative of various field situations
- S[*chistosoma*] *mansoni*
McMahon, J. E., 1978, *Trop. and Geogr. Med.*, v. 30 (2), 161-174
schistosomiasis, human, factors affecting chemotherapy, review
- Schistosoma mansoni*
Maddison, S. E., 1975, *South. Med. J.*, v. 68 (12), 1545-1551
Schistosoma mansoni-infected rhesus monkey, experimental animal model for dialyzable transfer factor
- Schistosoma mansoni*, *illus.*
Maddison, S. E.; et al., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (5), 966-975
Schistosoma mansoni, intact and B cell deficient mice with and without pretreatment with BCG, course of infection and immune responses
- Schistosoma mansoni*
Maddison, S. E.; et al., 1979, *Infect. and Immun.*, v. 25 (1), 237-248
Schistosoma mansoni, rhesus monkeys, immunization, requirement for activation of both cell-mediated and humoral mechanisms
- Schistosoma mansoni*
Maddison, S. E.; et al., 1979, *Infect. and Immun.*, v. 25 (1), 249-254
Schistosoma mansoni, cellular and humoral immune responses in *Macaca mulatta* with multiple chronic and early primary infections
- Schistosoma mansoni*
Maddison, S. E.; et al., [1979], *J. Parasitol.*, v. 64 (6), 1978, 986-993
Schistosoma mansoni, mice, studies on putative adult worm-derived vaccines and adjuvants
- Schistosoma mansoni*
Maddison, S. E.; Chandler, F. W.; and Kagan, I. G., 1978, *J. Reticuloendothel. Soc.*, v. 24 (6), 615-628
Schistosoma mansoni, mice, rhesus monkeys, effect of pretreatment with BCG on subsequent infection
- Schistosoma mansoni*
Maddison, S. E.; and Kagan, I. G., 1979, *J. Parasitol.*, v. 65 (4), 515-519
Schistosoma mansoni, mice, passive transfer of immune serum or of a combination of sensitized cells and immune serum intravenously or intraperitoneally, results of percutaneous and subcutaneous exposure to cercarial challenge
- Schistosoma mansoni*
Madsen, H., 1979, *Hydrobiologia*, v. 66 (2), 181-192
Schistosoma mansoni, interspecific competition between *Helisoma duryi* and intermediate hosts *Biomphalaria alexandrina* or *B. camerunensis*
- Schistosoma mansoni*
Madsen, H., 1979, *Hydrobiologia*, v. 67 (3), 207-214
biological control of *Biomphalaria camerunensis* vector snails by introduction of competitor snail *Helisoma duryi*, role of conditioning and mechanical interference with egg masses and juveniles in this competitive relationship
- S[*chistosoma*] *mansoni*
Madwar, M. A.; et al., 1978, *Clin. and Exper. Immunol.*, v. 34 (3), 354-358
S[*chistosoma*] *mansoni*, *S. haematobium*, humans, concentrations of complement components and immunoglobulins in sera, implications for immunopathological effects of schistosomiasis and for heterogeneity of antigen clearance
- [*Schistosoma mansoni*] Manson's schistosomiasis
Magalhaes, A. E. de A.; Mies, S.; and Macedo, A. L. V., 1977, *Rev. Hosp. Clin.*, S. Paulo, v. 32 (1), 53-62
human schistosomiasis, hepatosplenic form, cineradiographic analysis of splenoportal circulation, suggests that lieno-hepatic sinusoid time and lieno-hepatic hilus time are significantly increased in presence of infection
- S[*chistosoma*] *mansoni*
Magalhaes, L. A.; et al., 1973, *Rev. Saude Pub.*, S. Paulo, v. 7 (1), 21-28
S[*chistosoma*] *mansoni*, epidemiological study of area around the Americana reservoir after several autochthonous human cases of schistosomiasis were reported from this area: Sao Paulo, Brazil
- Schistosoma mansoni*
Magzoub, M., 1971, *Sudan Med. J.*, v. 9 (3), 178-182
Schistosoma mansoni, untreated worms and worms treated with ambilhar or astiban, electron microscopy of cuticle, subcuticular region, and gut; possibility that egg formation is interrupted by either treatment

- Schistosoma mansoni*
Magzoub, M., 1972, Sudan Med. J., v. 10 (3), 145-148
Schistosoma mansoni adult worms removed from mice treated with chloroquine showed reduced exogenous glucose uptake, increased lactic acid production and reduced motility
- Schistosoma mansoni*
Magzoub, M.; and Adam, S. E. I., 1978, J. Pharmacol. and Exper. Therap., v. 206 (2), 382-387
Schistosoma mansoni-infected *Arvicanthus niloticus*, evaluation of oral therapy with single and multiple doses of hycanthon and oxamni-quine alone or in combination
- Schistosoma mansoni*
Mahmoud, A. A. F., 1979, Am. J. Trop. Med. and Hyg., v. 28 (2), 286-290
Schistosoma mansoni, effect of mutation diabetes (marked immunosuppression) on host-parasite relationship in mice, decreased granulomatous response
- Schistosoma mansoni*
Mahmoud, A. A. F.; et al., 1979, J. Immunol., v. 122 (5), 1655-1657
Schistosoma mansoni, in vitro killing of schistosomula by BCG- or *Corynebacterium parvum*-activated macrophages
- Schistosoma mansoni*
Mahmoud, A. A. F.; and Woodruff, A. W., 1978, Clin. Sc. and Molecular Med., v. 54 (4), 397-401
Schistosoma mansoni, mice, splenomegaly, anemia, dependent not only on parasite factors but also on host immunologic response to infection
- Schistosoma mansoni*
Mahran, S. G.; et al., 1976, Egypt. J. Bilharz., v. 3 (2), 239-245
Schistosoma mansoni, in vivo and in vitro trials comparing efficacy of bilharzid with that of tartar emetic
- Schistosoma mansoni*
Mandel, M. A.; et al., 1974, Surg. Forum, v. 25, 300-302
cholera toxin as suppressor of in vivo cell-mediated immunity, including suppression of granuloma formation around *Schistosoma mansoni* eggs; possible value as adjunct to current therapy
- Schistosoma mansoni*
Mangold, B. L.; and Knopf, P. M., 1978, J. Parasitol., v. 64 (5), 813-821
Schistosoma mansoni, recovery of schistosomula from lungs of normal and resistant rats was dependent upon assay conditions employed (incubation medium, incubation time, perfusion procedure), optimal assay conditions established
- Schistosoma mansoni*
Mansour, S. E., 1979, NATO Advanced Study Inst. Ser., s. A, Life Sc., v. 24, 643-644
schistosomiasis, human, muscular changes
- Schistosoma mansoni*
Marinho, R. P.; et al., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (1), 54-59
Schistosoma mansoni, man treated with hycanthon, development of acute yellow atrophy of liver, fatal illness, case report: Minas Gerais, Brazil
- S[*chistosoma*] *mansoni*
Marinho, R. P.; et al., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (6), 354-361

Schistosoma mansoni-infected mice, physiological and morphological changes in parasite egg formation after mice were treated with one of 7 known antischistosomal drugs
- Schistosoma mansoni*
Mosimann, J. E.; et al., 1978, Biometrics, v. 34 (3), 341-356
Schistosoma mansoni, S. haematobium, human (egg-counts from Egyptian autopsy data), proportional distribution of eggs in various body organs in relation to infection intensity
- Schistosoma mansoni*
Mota-Santos, T. A.; et al., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (4), 246-250
Schistosoma mansoni, mice with heavy infections showed immunodepression that was not observed in mice with light infections
- Schistosoma mansoni*
Mott, K. E., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (5), 552-553 [Letter]
Schistosoma mansoni, S. japonicum, human, possible relationship with liver carcinoma
- Schistosoma mansoni*
Mougeot, G.; et al., 1978, Ann. Parasitol., v. 53 (3), 277-283
Schistosoma mansoni in Rattus rattus and R. norvegicus, survey by immunofluorescence, variation in rate of infection and in antibody titers in 3 different biotopes, possible explanations: Guadeloupe
- Schistosoma mansoni*
Mougeot, G.; Golvan, Y. J.; and Delattre, P., 1978, Compt. Rend. Acad. Sc., Paris, v. 286, s. D, Sc. Nat., (1), 141-143
Schistosoma mansoni, detection in rats using technique of micro-sampling of blood (after which animals can be marked and released) followed by immunofluorescence test, epidemiological usefulness: Guadeloupe
- Schistosoma mansoni*
Mougeot, G.; Golvan, Y. J.; and Depernet, D., 1977, Bull. Soc. Sc. Vet. et Med. Comp. Lyon, v. 79 (3), 151-156
Schistosoma mansoni and Angiostrongylus cantonensis in Biomphalaria glabrata (exper.), interaction, effect on cercarial emission as related to timing of infections
- Schistosoma mansoni*
Murrell, K. D.; et al., 1978, Exper. Parasitol., v. 46 (2), 247-255
Schistosoma mansoni, analysis of tegumental surface membrane carbohydrates using lectins
- Schistosoma mansoni*
Murrell, K. D.; et al., 1979, Exper. Parasitol., v. 48 (3), 415-420
Schistosoma mansoni, immunization of Macaca fascicularis by injection of irradiated schistosomula
- Schistosoma mansoni*
Murrell, K. D.; et al., 1979, J. Parasitol., v. 65 (5), 829-831
Schistosoma mansoni, influence of mouse strain on induction of resistance with irradiated cercariae, no obvious or simple relationship to mouse H-2 haplotype
- Schistosoma mansoni*
Murrell, K. D.; Stirewalt, M. A.; and Lewis, F. A., 1979, Exper. Parasitol., v. 48 (2), 265-271
Schistosoma mansoni, mice, vaccination with cryopreserved irradiated schistosomules
- Schistosoma mansoni*
Nash, T. E., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 939-943
Schistosoma spp., human, specific IgM and IgG antibody response to polysaccharide antigen present in schistosome gut, indirect immunofluorescent technique, easily performed reliable diagnostic test with high sensitivity and specificity
- Schistosoma mansoni*
Nash, T. E., 1979, Exper. Parasitol., v. 48 (1), 92-99
Schistosoma mansoni, pattern of release of secretory products
- Schistosoma mansoni*
Nash, T. E.; Ottesen, E. A.; and Cheever, A. W., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 944-950
Schistosoma mansoni, S. haematobium, 4 clinically different groups of patients, total IgG and IgM levels, specific IgM and IgG antibody to polysaccharide antigen present in schistosome gut, modulation of antibody response appears primarily dependent on infection duration, total Ig levels depend on infection duration and intensity
- Schistosoma mansoni*
Nassi, H.; Pointier, J. P.; and Golvan, Y. J., 1979, Ann. Parasitol., v. 54 (2), 185-192
Biomphalaria glabrata, biological control using Ribeiroia marini guadeloupensis (an autochthonous trematode which sterilizes this snail vector of Schistosoma mansoni), field trial: Guadeloupe
- Schistosoma mansoni*
Neame, K. D.; et al., 1978, Ann. Trop. Med. and Parasitol., v. 72 (6), 587-588
Schistosoma mansoni, hycanthone inhibits nucleic acid synthesis in vitro but it seems unlikely that this is mechanism by which drug kills worms in vivo
- Schistosoma mansoni*
Nelson, D. L.; and Pellegrino, J., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (4), 264-267
Schistosoma mansoni, mice, experimental chemotherapy with substituted aminoethanethiols

- Schistosoma mansoni*
Nelson, D. L.; and Pellegrino, J., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (5), 365-370
Schistosoma mansoni, mice, aminoethanethio-sulfuric acids derivatives, chemotherapeutic trials
- Schistosoma mansoni*
Nelson, D. L.; and Pellegrino, J., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (6), 443-449
Schistosoma mansoni, mice, chemical structure-activity relationship study of 85 active derivatives of aminoethanephosphorothioate, disulfide and isothiouraea
- S[*chistosoma*] *mansoni*
Neves, J.; Marinho, R. P.; and Raso, P., 1972, Rev. Brasil. Pesqui. Med. e Biol., v. 5 (3-4), 91-100
S[*chistosoma*] *mansoni*, young woman presenting with hepatic and gastrointestinal symptoms, differential diagnostic problems, successfully treated with hycanthone, clinical case report: Belo Horizonte, Brasil
- [*Schistosoma*] *mansoni*
Neves, J.; and Tonelli, E., 1970, Rev. Inst. Med. Trop. S. Paulo, v. 12 (1), 88-92
human schistosomiasis *mansoni*, case report, generalized pain and acute poliradiculoneuritis resembling virus infection: Belo Horizonte, Minas Gerais, Brazil
- Schistosoma mansoni*
Noleto, P. A.; et al., 1974, Rev. Soc. Brasil. Med. Trop., v. 8 (6), 335-340
Schistosoma mansoni, clinical trials using hycanthone to treat 1,000 persons from local endemic areas of Brazil
- S[*chistosoma*] *mansoni*, illus.
Norfray, J. F.; et al., 1978, Surg. Neurol., v. 9 (1), 68-71
schistosomiasis of spinal cord, humans, clinical aspects, radiologic diagnosis, therapy, case report of *Schistosoma mansoni* infection in 25-year-old male
- Schistosoma mansoni*
Nunesmaia, H. G.; et al., 1975, Rev. Inst. Med. Trop. S. Paulo, v. 17 (3), 160-163
Schistosoma mansoni, hepatic form, survey of racial admixture and ahaptoglobinemia, Negroes have higher resistance to development of severe infection than do other racial groups: Brazil
- Schistosoma mansoni*
Obeng, L. E., 1978, Water Supply & Management, v. 2 (4), 343-350
Starvation or bilharzia?--a rural development dilemma
- Schistosoma mansoni*
Ørnbjerg Christensen, N., 1977, Ztschr. Parasitenk., v. 54 (3), 275-288
Schistosoma mansoni, *S. intercalatum*, cercariae, technique for in vivo labelling with radioselenium, possible applications in cercarial ecology studies
- Schistosoma mansoni*
Ørnbjerg Christensen, N.; et al., 1978, Exper. Parasitol., v. 46 (1), 113-120
Schistosoma mansoni, *Fasciola hepatica*, cross-resistance in mice
- Schistosoma mansoni*
Ørnbjerg Christensen, N.; Frandsen, F.; and Nansen, P., 1979, Ztschr. Parasitenk., v. 59 (3), 267-275
Schistosoma mansoni cercariae, mice, host-penetrative capacity under selected environmental exposure conditions and in relation to some parasite- and final-host-related factors
- S[*chistosoma*] *mansoni*
Okelo, G. B. A.; Mukiibi, J. M.; and Kyobe, J., 1979, East African Med. J., v. 56 (6), 266-269
intestinal parasites, humans, mean eosinophil count higher in infected patients vs. controls, no correlation between eosinophil levels and different intestinal helminths: Nairobi, Kenya
- Schistosoma mansoni*, illus.
Okot-Kotber, B. M., 1978, Ann. Trop. Med. and Parasitol., v. 72 (3), 255-262
Schistosoma mansoni, indirect fluorescent antibody test used to follow development of stage-characteristic immunofluorescent patterns in mice exposed to cercariae; 3 patterns described
- [*Schistosoma mansoni*] Manson's schistosomiasis
Okumura, M.; et al., 1975, Rev. Hosp. Clin., S. Paulo, v. 30 (6), 503-512
human schistosomiasis *mansoni* with complicating portal hypertension, surgical treatment by splenorenal shunt
- Schistosoma mansoni*
de Oliveira, C. A.; et al., 1969, Rev. Inst. Med. Trop. S. Paulo, v. 11 (2), 130-139
Schistosoma mansoni, humans, intramuscular administration of hycanthone, clinical trials
- Schistosoma mansoni*
de Oliveira, C. A.; et al., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (3), 202-212
Schistosoma mansoni, human, acute cases, hycanthone
- Schistosoma mansoni*
de Oliveira, D. N. G.; Costa, J. C.; and de Carvalho, A. B., 1974, Rev. Brasil. Pesqui. Med. e Biol., v. 7 (5-6), 525-528
Schistosoma mansoni-infected mice, measurement of concentrations of cholesterol and cholesterol esters from infected host livers and comparison with normal controls
- Schistosoma mansoni*
Oliveira, M. A.; et al., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (5), 298-300
Schistosoma mansoni, mice treated with oxamniquine vs. untreated mice, effects of drug on parasite migration and development in host
- Schistosoma mansoni*
Omanga, M.; et al., 1973, Ann. Soc. Belge Med. Trop., v. 53 (2), 77-87
study of acute diarrhea in children, E[ntamoeba] *histolytica* and *Schistosoma mansoni* among etiologic agents: Kinshasa
- Schistosoma mansoni*
Omer, A. H. S., 1978, Ann. Trop. Med. and Parasitol., v. 72 (2), 127-132
Schistosoma mansoni, case report of man with portal hypertension resulting from schistosomiasis, mixed infection with salmonellosis, congenital anomaly of situs invertus, unique combination: Sudan

- Schistosoma mansoni*
Omer, A. H. S., 1978, Brit. Med. J. (6131), v. 2, 163-165
Schistosoma mansoni, humans, clinical trials testing efficacy and acceptability of oral oxamniquine to establish optimal regimen for use in the Sudan
- Schistosoma mansoni*
Omer, A. H. S.; and Teesdale, C. H., 1978, Ann. Trop. Med. and Parasitol., v. 72 (2), 145-150
Schistosoma mansoni, *S. haematobium*, humans, single or mixed infections including some patients passing *S. mansoni* eggs in urine, efficacy of metrifonate, results suggest that site of infection rather than species of parasite renders parasite more susceptible to metrifonate and may further clarify mode of action of metrifonate: Khartoum, Sudan
- Schistosoma mansoni*
Ongom, V. L.; Ococi-Jungalo, A. H.; and Wamboka, J. W., 1977, East African Med. J., v. 54 (12), 678-679
mixed *Schistosoma mansoni* and *S. bovis* infection in Sudanese immigrant (stool), case report, significance in relation to current concepts on heterologous immunity discussed, infection possibly acquired from drinking river water frequented by wild animals: Uganda
- S[*chistosoma*] *mansoni*
Oomen, J. M. V.; Meuwissen, J. H. E. T.; and Gemert, W., 1979, Trop. and Geogr. Med., v. 31 (4), 587-606
males of 3 ethnic groups and 3 age groups inhabiting same locality, haematological status (including anemia), spleen and liver enlargement, immunoglobulin status, malaria parasite rates, other parasite infections, possible associations between these and other factors (including nutrition, sickle cell trait, altered immune response to malaria): Northern Nigeria
- Schistosoma mansoni*
Ottesen, E. A., 1979, J. Immunol., v. 123 (4), 1639-1644
Schistosoma mansoni, human, adherent suppressor cells that inhibit lymphocyte proliferative responses to parasite antigens
- Schistosoma mansoni*
Ottesen, E. A.; et al., 1978, Clin. and Exper. Immunol., v. 33 (1), 38-47
Schistosoma mansoni, patients with acute, subacute, and chronic disease before and after niridazole treatment, lymphocyte responsiveness to schistosome antigens, possible implications of diminished cellular immune reactivity in chronic disease state
- Schistosoma mansoni*
Ottesen, E. A.; and Weller, P. F., 1979, J. Infect. Dis., v. 139 (3), 343-347
Schistosoma mansoni, *Wuchereria bancrofti*, human, enhanced eosinophilia after chemotherapy, degree of post-treatment eosinophilia for filariasis patients was significantly correlated with worm burdens before treatment
- Schistosoma mansoni*
Ouma, J. H.; and Waithaka, F., 1978, East African Med. J., v. 55 (2), 54-60
prevalence survey for intestinal parasites in Kitui District schoolchildren with special emphasis on study of *Schistosoma mansoni* and *S. haematobium*: Kenya
- Schistosoma mansoni*
Owczarek, L., 1979, Bull. Inst. Maritime and Trop. Med. Gdynia, v. 30 (3), 205-216
intestinal schistosomiasis, humans, positive reactions to tuberculin and other skin tests, diagnostic potential: Zaïre
- Schistosoma mansoni*
Owen, J. S.; et al., 1978, Rev. Brasil. Biol., v. 38 (4), 913-918
Schistosoma mansoni, mice, plasma and erythrocyte lipid concentrations, plasma lecithin:cholesterol acyltransferase activity
- S[*chistosoma*] *mansoni*
Pamba, H. O.; and Roberts, J. M. D., 1979, East African Med. J., v. 56 (6), 255-262
S[*chistosoma*] *mansoni*, human, prevalence 1967 to 1973 by occupation and tribe, animal exposure and snail examination revealed no evidence for current transmission, possible reasons; 1 case of S[*chistosoma*] *haematobium* found: Lake Naivasha, Great Rift Valley, Kenya
- Schistosoma mansoni*
Paraense, W. L.; and Correa, L. R., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (3), 127-130
Schistosoma mansoni, susceptibility of experimentally infected *Biomphalaria peregrina* from Brazil and Ecuador
- Schistosoma mansoni*
Paraense, W. L.; and Correa, L. R., 1978, J. Parasitol., v. 64 (5), 822-826
Schistosoma mansoni, differential susceptibility of *Biomphalaria tenagophila* (exper.) from 20 localities to infection with single strain of schistosome, results seem to indicate that process of adaptation between *S. mansoni* and *B. tenagophila* is evolving, possible expansion of schistosomiasis to wide South American area where *B. tenagophila* occurs
- Schistosoma mansoni*
Paris, J.; et al., 1976, Semaine Hop. Paris, v. 52 (34), 1870-1872
Schistosoma mansoni, man, case report, hepato-intestinal schistosomal infection with splenic involvement, complicated by cold tubercular abscess of the spleen: France (native of Martinique)
- Schistosoma mansoni*
Parra, O. M.; Lopes, Z. A.; and Saad, W. A., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (2), 113-119
Schistosoma mansoni, human chronic cholecystitis from parasite infection, pathology, case report: Bahia, Brazil
- Schistosoma mansoni*
Patzschke, K.; et al., 1979, European J. Drug Metab. and Pharmacokinet., v. 4 (3), 149-156
praziquantel, serum concentrations and renal excretion in humans after oral administration, results of 3 determination methods

- Schistosoma mansoni*
Pax, R.; Bennett, J. L.; and Fetterer, R., 1978, Arch. Pharmacol., v. 304 (3), 309-315
Schistosoma mansoni, *S. japonicum*, praziquantel and Ro 11-3128 produce rapid rise in tension of musculature, uptake studies of inorganic cations suggest that interference with inorganic ion transport mechanisms causes contraction of schistosome musculature
- Schistosoma mansoni*
Pax, R.; Fetterer, R.; and Bennett, J. L., 1979, Comp. Biochem. and Physiol., v. 64C (1), 123-127
Schistosoma mansoni, effects of fluoxetine and imipramine on adult males in vitro, interactions with 5-hydroxytryptamine-induced contractile activity, interaction with antischistosomal compounds praziquantel and R011-3128
- Schistosoma mansoni*
Payares, G.; and Ercoli, N., 1978, Exper. Parasitol., v. 45 (1), 1-7
Schistosoma mansoni, drug-immobilized cercariae have reduced virulence but are not dead, cercariae become avirulent only when flame cell is affected, no protection against reinfection in mice injected with immobilized cercariae of reduced virulence
- Schistosoma mansoni*
Pedro, R. de J.; et al., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 63-66
Schistosoma mansoni, human, oxamniquine
- Schistosoma mansoni*
Pedro, R. de J.; et al., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (2), 130-137
Schistosoma mansoni, humans, oxamniquine, clinical trials, undesirable effects monitored
- Schistosoma mansoni*
Pedro, R. de J.; et al., 1979, Rev. Brasil. Pesqui. Med. e Biol., v. 12 (2-3), 207-211
Schistosoma mansoni, observations on oxamniquine therapy: treatment of children, drug resistance of human strain as well as its resistance to hycanthone, hepatic histopathology during therapy, neurotoxic effects, treatment of mixed salmonellosis infection
- Schistosoma mansoni*
Pedro, R. de J.; Barros, R. de A.; and Amato Neto, V., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (1), 50-53
Schistosoma mansoni, blood and parasite eggs discovered in man's sperm, case report: Brasil
- Schistosoma mansoni*
Pellegrino, J., 1971, Rev. Brasil. Pesqui. Med. e Biol., v. 4 (3), 235-236
Schistosoma mansoni, technique for preservation of eggs in intestinal tissue in order to evaluate egg counts at later time, application to mass drug screening programs
- Schistosoma mansoni*
Pellegrino, J.; et al., 1977, Ztschr. Parasitenk., v. 52 (2), 151-168
Schistosoma mansoni in mice, hamsters, and Cebus monkeys, praziquantel effective, results compared in relation to routes of administration, dosages, degree of hepatic shift
- Schistosoma mansoni*
Pellegrino, J.; and Coelho, P. M. Z., 1978, J. Parasitol., v. 64 (1), 181-182
Schistosoma mansoni, mice with single worm-pair infections, oogram scanning, schematic distribution of first-stage eggs along host intestine, results confirm that female lays about 300 eggs per day, wide distribution reflects remarkable wandering capacity of schistosome pairs, findings support value of oogram method for drug screening purposes
- Schistosoma mansoni*
Pellegrino, J.; Coelho, P. M. Z.; and Sampaio, I. B. M., 1978, Am. J. Trop. Med. and Hyg., v. 27 (2, pt. 1), 363-364
Schistosoma mansoni, men vs. boys, intradermal test with histamine, no statistical difference in skin response, contrast with earlier results using specific schistosomal antigens (response significantly greater in men than in boys)
- Schistosoma mansoni*
Pellegrino, J.; Gilbert, B.; and Valadares, T. E., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (6), 456-458
Schistosoma mansoni, mice, topically applied oxamniquine, antischistosomal and chemoprophylactic activity
- Schistosoma mansoni*
Pellegrino, J.; and Katz, N., 1972, Rev. Inst. Med. Trop. S. Paulo, v. 14 (1), 59-66
Schistosoma mansoni, *S. japonicum*, laboratory animals, U. K. 3883 tested, highly effective against *S. mansoni*, devoid of activity against *S. japonicum* in mice
- Schistosoma mansoni*
Pellegrino, J.; and Katz, N., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (5), 301-304
Schistosoma mansoni, mice, hamsters, blind screening trials, quinine and its isomers (quinine, quinine valerate, quinine gluconate, quinine ethyl carbonate, quinine phosphate, quinidine, quinidine sulfate, D-cinchonine, cinchonine hydrochloride and cinchonidine sulfate)
- Schistosoma mansoni*
Pellegrino, J.; and Katz, N., 1975, Rev. Inst. Med. Trop. S. Paulo, v. 17 (3), 199-205
Schistosoma mansoni, laboratory animals and humans, diaminodiphenylsulfone interfered with parasite egg laying
- Schistosoma mansoni*
Pellegrino, J.; Katz, N.; and Dias, E. P., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 10-14
Schistosoma mansoni, oxamniquine, mice, hamsters and Cebus monkeys
- Schistosoma mansoni*
Pellegrino, J.; and Machado, A., 1972, Rev. Brasil. Pesqui. Med. e Biol., v. 5 (1-2), 43-45
Schistosoma mansoni, mice and hamsters treated with thiosinamine, evidence of suppression of parasite egg laying process
- Schistosoma mansoni*, illus.
Pellegrino, J.; and de Mello, R. T., 1975, Rev. Inst. Med. Trop. S. Paulo, v. 17 (1), 1-4
Schistosoma mansoni, humans, diagnosis using the circumoval precipitin test with indirect immunofluorescence, good sensitivity and specificity

- Schistosoma mansoni*
Pellegrino, J.; Mello, R. T.; and Pereira, L. H., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (3), 149-151
Schistosoma mansoni, mice, 8 pyrazinoquinolines
- Schistosoma mansoni*
Pellegrino, J.; Pereira, L. H.; and Mello, R. T., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (2), 97-101
Schistosoma mansoni, mice, preliminary laboratory trials of oxamniquine, antischistosomal activity more pronounced on early developing forms (up to 7 days) than on maturing worms
- Schistosoma mansoni*
Pellegrino, J.; Pereira, L. H.; and Mello, R. T., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (1), 43-46
Schistosoma mansoni, mice, chemoprophylactic activity of 17 known schistosomicidal agents compared
- Schistosoma mansoni*
Pellegrino, J.; and Valle, C., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (4), 179-181
Schistosoma mansoni, mice infected by tail emersion, relationship between vertical distribution of cercariae and worm burden after exposure, infection is influenced by tendency of cercariae to concentrate near water surface (negative geotropism)
- Schistosoma mansoni*
Pelley, R. P.; and Hillyer, G. V., 1978, Am. J. Trop. Med. and Hyg., v. 27 (6), 1192-1194
Schistosoma mansoni, *Fasciola hepatica*, demonstration of common antigen
- Schistosoma mansoni*
Pelley, R. P.; and Warren, K. S., 1978, J. Invest. Dermat., v. 71 (1), 49-55
schistosomiasis, review of current evidence that both induction and amelioration of hepatosplenic disease are immunologically mediated
- S[*chistosoma*] *mansoni*
Pereira, D. B., jr., 1972, Rev. Soc. Brasil. Med. Trop., v. 6 (5), 257-259
S[*chistosoma*] *mansoni*, first autochthonous human cases reported, *Biomphalaria glabrata* and *B. tenagophila* also found infected: Vitoria, Espirito Santo
- Schistosoma mansoni*
Pereira, F. E. L.; et al., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (2), 238
Schistosoma mansoni, humans with Symmer's fibrosis, significantly higher frequency of blood group A than blood group O: Brazil
- Schistosoma mansoni*
Pereira, L. H.; et al., 1972, Rev. Inst. Med. Trop. S. Paulo, v. 14 (5), 306-309
Schistosoma mansoni larvae, migration in albino mice
- Schistosoma mansoni*
Pereira, L. H.; et al., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (3), 123-126
Schistosoma mansoni, mice, simple and rapid method for mass screening of prophylactic agents using peritoneal schistosomula
- Schistosoma mansoni*
Perera, D. R.; et al., 1972, South. Med. J., v. 65 (3), 333-336
schistosomiasis *mansoni*, outbreak in family that had earlier spent 3 years in East Africa, clinical aspects, therapy, 2-year-follow-up: Georgia
- Schistosoma mansoni*, *illus.*
Perez, H.; Perez, M.; and Payares, G., 1973, Rev. Brasil. Biol., v. 33 (4), 547-552
Schistosoma mansoni-infected mice, activation of spleen lymphocytes when cells cultured in presence of soluble fractions of adult worms, effects observed in mice with infections of 40 days or longer but not in mice treated with antimonials
- Schistosoma mansoni*
Perez, M. D.; et al., 1975, Rev. Farm. e Bioquim. Univ. Sao Paulo, v. 13 (2), 401-415
parasitological survey with emphasis on incidence of *Schistosoma mansoni* and its possible vectors: district of Cajati, State of Sao Paulo, Brazil
- Schistosoma mansoni*
Perpetuo, F. O. L., 1974, Rev. AMMG, v. 25 (1), 29-31
Schistosoma mansoni, acute neurological illness in youth with presenting symptoms of viral encephalitis or Reye's syndrome, diagnosis confirmed by liver biopsy, case report: Contagem, Brazil
- S[*chistosoma*] *mansoni*
Perpetuo, F. O. L.; and Rodrigues, P. A., 1973, Rev. Ass. Med. Minas Gerais, v. 24 (3), 173-178
human schistosomiasis *mansoni* involving spinal cord, case reports, diagnosis, pathology, therapy: Brazil
- [*Schistosoma*] *mansoni*
Perrot, P. A.; Berthoud, S.; and Widgren, S., 1979, Schweiz. Med. Wchnschr., v. 109 (24), 920-927
schistosomiasis *mansoni*, woman (liver, intestine), persistent colitis with marked eosinophilia of unknown etiology following successful treatment with niridazole, differential diagnosis discussed: from French Antilles, living in Europe
- Schistosoma mansoni*
Petrovic, M.; and Deedler, A. M., 1979, Period. Biol., v. 81 (2), 513-515
Fasciola hepatica, immunodiagnosis, application of Defined Antigen Substrate Spheres system to immunofluorescence and immunohisto-peroxidase reactions, cross-reactivity with *Schistosoma mansoni*
- Schistosoma mansoni*
Phillips, S. M.; et al., 1975, Cellular Immunol., v. 19 (1), 99-116
Schistosoma mansoni, rats, kinetics of infection strongly influenced by age of host and magnitude of cercarial exposure, immune response, serum and cell transfer studies, results suggest form of immunologic enhancement with antibody modulation of cellular immunity
- Schistosoma mansoni*
Phillips, S. M.; et al., 1978, Cellular Immunol., v. 38 (2), 225-238
Schistosoma mansoni, rats, development of optimal protective immunity following natural infections and artificial immunizations

- Schistosoma mansoni
Phillips, S. M.; et al., 1978, Cellular Immunol., v. 38 (2), 239-254
Schistosoma mansoni, rats, prerequisite mechanisms whereby natural infection or artificial immunization lead to development of optimal protective immunity, in vivo and in vitro criteria of cellular and humoral immune reactivity evaluated
- Schistosoma mansoni
Phillips, S. M.; and Colley, D. G., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 1058-1060
Schistosoma mansoni, brief synopsis of third annual informal Elvio H. Sadun Memorial Workshop on the Immunology of Schistosomiasis
- Schistosoma mansoni
Phillips, S. M.; and Colley, D. G., 1978, Progr. Allergy, v. 24, 49-182
schistosomiasis with emphasis on Schistosoma mansoni, immunologic aspects of host responses, extensive review: cellular and humoral immune response; immunopathology; eosinophils
- Schistosoma mansoni
Phillips, S. M.; and Colley, D. G., 1979, Am. J. Trop. Med. and Hyg., v. 28 (5), 914-915
schistosomiasis, immunology, brief synopsis of fourth annual informal workshop
- Schistosoma mansoni
Philocreon, G. R., 1975, Rev. Goiana Med., v. 21 (1-2), 61-63
Schistosoma mansoni, woman, ovarian localization, presenting as sterility, case report: Anapolis, Brazil
- S[chistosoma] mansoni, illus.
Pieron, R.; et al., 1976, Semaine Hop. Paris, v. 52 (10), 627-632
hepatic schistosomiasis, man, associated sarcoidosis with extensive lymph node involvement, aspects of diagnosis and clinical management: France (West-Indian native)
- Schistosoma mansoni
Pinon, J. M.; Sulahian, A.; and Dropsy, G., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (5), 492-495
Schistosoma mansoni, human, use of enzyme-linked-immuno-electro-diffusion-assay (ELIEDA) to study humoral antibodies
- Schistosoma mansoni
Pitchford, R. J., 1970, South African Med. J., v. 44 (16), 475-477
bilharziasis, humans, gradual reduction in infection rates after environmental control measures and mass therapy introduced in the Eastern Transvaal
- Schistosoma mansoni
Pitchford, R. J.; and Lewis, M., 1978, South African Med. J., v. 53 (17), 677-680
schistosome infections, human, clinical trials using oxamniquine; effective only with Schistosoma mansoni: lowveld of Eastern Transvaal
- Schistosoma mansoni
Pointier, J. P.; and Theron, A., 1979, Ann. Parasitol., v. 54 (1), 43-56
Schistosoma mansoni, distribution and population dynamics of Biomphalaria glabrata, prevalence of infection, rhythm of presence and density of cercariae: freshwater mangrove, Guadeloupe, French Antilles
- Schistosoma mansoni
Polderman, A. M., 1979, Trop. and Geogr. Med., v. 31 (4), 465-475
Schistosoma mansoni, humans, transmission dynamics of endemic infection based on survey of inhabitants of small village in Ethiopia
- Schistosoma mansoni
Polderman, A. M.; and Deelder, A. M., 1977, Acta Leidensia, v. 45, 21-29
Schistosoma mansoni, humans, fecal examination compared with serological techniques (ELISA, defined antigen substrate spheres, indirect fluorescent antibody, indirect haemagglutination), results show that serological tests lack in specificity and sensitivity: Ethiopia
- Schistosoma mansoni
Pousada, J. M. D. C.; et al., 1978, Rev. Inst. Med. Trop. S. Paulo, v. 20 (2), 87-98
Schistosoma mansoni-infected mice, effects on growth, development and gonadal function
- Schistosoma mansoni
Prah, S. K.; and James, C., 1978, J. Helminth., v. 52 (2), 115-120
Schistosoma mansoni miracidia are positively phototactic, sensitive to small changes in light intensities, and indifferent to gravity; S. haematobium miracidia are negatively phototactic, unable to distinguish low light intensities from darkness, and positively geotactic; both species could successfully find and infect snails to depth of 2 meters of water
- Schistosoma mansoni
Prata, A.; et al., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 suppl. 1 (6), 47-57
Schistosoma mansoni, human acute or chronic infections, oxamniquine as single intramuscular dose, extensive clinical trial, main disadvantage is severe pain at site of injection
- Schistosoma mansoni, illus.
Price, Z.; Voegle, M.; and Beydler, S., 1978, Scan. Electron Micr., v. 2, 399-404
Schistosoma mansoni, mice, changes in tegumental surfaces during development
- Schistosoma mansoni
Pricoli, T. I.; et al., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (4), 202-211
Schistosoma mansoni, human hepato-intestinal and hepato-splenic forms, comparative study of liver lysosomes, no significant differences between forms of infection or between normal and infected livers
- S[chistosoma] mansoni, illus.
Pucci, H.; et al., 1978, AMB, Rev. Ass. Med. Brasil., v. 24 (10), 341-344
S[chistosoma] mansoni, humans, fat absorption, increased presence of eggs and granulomatous lesions in deep layers of small intestine, suggest possible selective malabsorption of certain nutrients
- S[chistosoma] mansoni, illus.
de Queiroz, A. C., 1974, Rev. Patol. Trop., v. 3 (3), 255-261
S[chistosoma] mansoni, human case reports, parasites in central nervous system discovered at autopsies, few or no neurological symptoms presented by patients prior to deaths: Brazil

- Schistosoma mansoni*
Ramalho-Pinto, F. J.; De Rossi, R.; and Smithers, S. R., 1979, *Parasite Immunol.*, v. 1 (4), 295-308
Schistosoma mansoni, mice, anti-schistosomula antibodies and IgG subclasses involved in complement- and eosinophil-mediated killing of schistosomula in vitro
- Schistosoma mansoni*, *illus.*
Ramalho-Pinto, F. J.; McLaren, D. J.; and Smithers, S. R., 1978, *J. Exper. Med.*, v. 147 (1), 147-156
Schistosoma mansoni, complement-mediated killing of schistosomula by rat eosinophils in vitro
- Schistosoma mansoni*
Ramalho-Pinto, F. J.; Smithers, S. R.; and Playfair, J. H. L., 1979, *J. Immunol.*, v. 123 (2), 507-514
Schistosoma mansoni, suppression of helper T cell response to TNP-schistosomula in rats and mice
- Schistosoma mansoni*
Ramasamy, R., 1979, *Internat. J. Parasitol.*, v. 9 (6), 491-493
Schistosoma mansoni, schistosomula and cercariae, surface proteins
- S[*chistosoma*] *mansoni*
Reeder, M. M., 1975, *Seminars Roentgenol.*, v. 10 (3), 229-243
parasitic infections of human liver and bile ducts, radiologic diagnosis, general review
- Schistosoma mansoni*
Rees, P. H.; et al., 1973, *Rev. Inst. Med. Trop. S. Paulo*, v. 15 suppl. 1 (6), 78-82
Schistosoma mansoni, school children, oxamniquine, clinical trials: Kenya
- Schistosoma mansoni*
Reiner, N. E.; et al., 1979, *J. Infect. Dis.*, v. 140 (2), 162-168
Schistosoma mansoni, patients with advanced chronic hepatosplenic disease, concurrent responses of peripheral blood and splenic mononuclear cells to antigenic and mitogenic stimulation
- Schistosoma mansoni*
Reis, A. P.; Katz, N.; and Pellegrino, J., 1970, *Rev. Inst. Med. Trop. S. Paulo*, v. 12 (4), 245-248
Schistosoma mansoni, human, double diffusion tests compared in chronic infections, early stage infections, and in normal controls
- Schistosoma mansoni*
Reynolds, G. T., 1968, *Rev. Scient. Instrum.*, v. 39 (3), 298-302
Schistosoma mansoni, scintillomicroscope for radioactive tracer detection compared with conventional autoradiographic techniques, application of scintillomicroscope to ^{14}C detection in parasites
- Schistosoma mansoni*
Rizk, G. R.; et al., 1978, *Egypt. J. Bilharz.*, v. 4 (1), 1977, 53-62
Schistosoma mansoni, immunoelectrophoretic cross-reactions between antigens of different life cycle stages
- Schistosoma mansoni*
Rizk, G. R.; et al., 1978, *Egypt. J. Bilharz.*, v. 4 (1), 1977, 63-68
Schistosoma mansoni infected and non-infected *Biomphalaria glabrata* and *B. alexandrina*, immunoelectrophoretic cross-reactions between hepatopancreas antigens
- Schistosoma mansoni*
Roberts, T. M.; et al., 1978, *J. Parasitol.*, v. 64 (2), 277-282
Schistosoma mansoni, quantitative assay for testing behavioral responses of miracidia to chemicals, used to screen chemicals for miraxone-like activity and to test for inhibitors of miracidial responses to stimulants
- Schistosoma mansoni*
Roberts, T. M.; Ward, S.; and Chernin, E., 1979, *J. Parasitol.*, v. 65 (1), 41-49
Schistosoma mansoni, quantitation of behavioral responses of miracidia in concentration gradients of snail-conditioned water
- Schistosoma mansoni*
Rocha, H.; et al., 1971, *Rev. Inst. Med. Trop. S. Paulo*, v. 13 (6), 399-404
Schistosoma mansoni, growth of *Salmonella typhi* in parasitized mice
- S[*chistosoma*] *mansoni*
Rocha, H.; McCrory, M.; and de Oliveira, M. M. G., 1971, *Rev. Inst. Med. Trop. S. Paulo*, v. 13 (5), 328-332
S[*chistosoma*] *mansoni*-infected and uninfected mice injected with S[*almonella*] typhimurium, phagocytic function of reticulo-endothelial cells compared
- Schistosoma mansoni*, *illus.*
Rodrigues, D. C.; and Ferreira, C. S., 1969, *Rev. Inst. Med. Trop. S. Paulo*, v. 11 (5), 306-308
Nectomys squamipes (intestino): Parque Sao Lucas, Municipio de Sao Paulo, Brasil
- Schistosoma mansoni*
Rodrigues, L. D.; et al., 1977, *Rev. Inst. Med. Trop. S. Paulo*, v. 19 (1), 57-67
Strongyloides stercoralis and other human intestinal parasites, clinical trials with cambendazole
- S[*chistosoma*] *mansoni*
Rodrigues, L. E. A.; and Soares, M. C. de M., 1972, *Rev. Brasil. Pesqui. Med. e Biol.*, v. 5 (3-4), 111-116
characterization of permeability of lysosomal membranes isolated from normal livers in order to establish standards for experimental studies of liver infected with schistosomiasis *mansoni*
- S[*chistosoma*] *mansoni*
Rodrigues, L. E. A.; and Soares, M. C. de M., 1974, *Rev. Brasil. Pesqui. Med. e Biol.*, v. 7 (2), 175-181
S[*chistosoma*] *mansoni*, mice, studies on the lability of lysosomal membrane in infected livers and comparison with normal controls
- Schistosoma mansoni*, *illus.*
Romboli, B.; and Guarda, F., 1977, *Ann. Fac. Med. Vet. Torino*, v. 24, 306-317
Schistosoma mansoni, chimpanzee, spontaneous infection, histopathology of liver, hepatitis

- Schistosoma mansoni*
Romero-Morrell, J.; and Marta G., C. B., 1978, Rev. Inst. Med. Trop. S. Paulo, v. 20 (6), 318-322
Schistosoma mansoni, susceptibility of Venezuelan *Biomphalaria glabrata* strain to infection with strains of *S. mansoni* from various endemic zones
- Schistosoma mansoni*
Rotmans, J. P., 1978, Exper. Parasitol., v. 46 (1), 31-48
Schistosoma mansoni, malate dehydrogenases, purification and characterization, discussion of possible role in metabolism
- Schistosoma mansoni*
Rotmans, J. P., 1978, Exper. Parasitol., v. 46 (1), 49-58
Schistosoma mansoni, antigenic characterization of malate dehydrogenase isoenzymes by immunoelectrophoresis, malate dehydrogenase antigens in *S. mansoni*, *S. haematobium*, and *S. bovis* are immunologically indistinguishable, attempted use of these antigens in defined antigen substrate spheres system, not sensitive enough for immunodiagnosis
- Schistosoma mansoni*
de Rouse, A. R.; and Romero M., J., 1974, Rev. Inst. Med. Trop. S. Paulo, v. 16 (6), 362-367
Schistosoma mansoni-infected mice, ultrastructure of kidney lesions, characterized as immune complex disease
- Schistosoma mansoni*
Rousseaux-Prevost, R.; et al., 1978, Immunology, v. 35 (1), 33-39
Schistosoma mansoni in 2 strains of rat, time course of occurrence of specific IgE antibodies, correlation with protective immunity
- Schistosoma mansoni*
Rousset, J. J.; Pasticier, A.; and Menager, C., 1975, Ann. Soc. Belge Med. Trop., v. 55 (5), 395-401
urinary bilharziasis, human, diagnosis by rectal mucosal biopsy
- Schistosoma mansoni*
Ruitenbergh, E. J.; et al., 1977, Biomedicine, v. 26 (5), 311-314
human parasitic infections, enzyme-linked immunosorbent assay in diagnosis, brief review
- S[*chistosoma*] *mansoni*
Ruiz, R. A., 1975, Rev. Brasil. Malariol., v. 26-27, 1974-1975, 105-108
S[*chistosoma*] *mansoni*, successful experimental infection of *Biomphalaria straminea* in the area of Altamira; emphasis on need for prophylactic control measures: Transmazonic Region
- Schistosoma mansoni*
Ruiz-Tiben, E.; et al., 1979, Am. J. Trop. Med. and Hyg., v. 28 (2), 230-236
Schistosoma mansoni, human, 6 serologic tests evaluated by comparing their results with those of sensitive stool examination method, relationship between intensity of infection and sensitivity and specificity of serologic tests: Parcelas de Boqueron, Puerto Rico
- Schistosoma mansoni*, *illus.*
Rumjanek, F. D.; Broomfield, K. E.; and Smithers, S. R., 1979, Exper. Parasitol., v. 47 (1), 24-35
Schistosoma mansoni, glycosyl transferase activity, possible correlation with carbohydrate composition of tegument
- Schistosoma mansoni*
Rumjanek, F. D.; and Smithers, S. R., 1978, Parasitology, v. 77 (1), 75-86
Schistosoma mansoni, mannosyl transferase activity in homogenates of adult worms, results suggest that adult schistosomes are equipped with enzymatic systems participating in the biosynthesis of glycoproteins and of other classes of glycosylated compounds
- Schistosoma mansoni*
Saad, A. A.; et al., 1977, Acta Vitaminol. et Enzymol., v. 31 (6), 179-182
Schistosoma mansoni-infected mice, β -glucuronidase activity in liver and spleen homogenates, possible causes for changes in enzyme activity
- Schistosoma mansoni*
Saad, A. A.; et al., 1977, Acta Vitaminol. et Enzymol., v. 31 (6), 183-186
Schistosoma mansoni-infected and uninfected mice, β -glucuronidase activity in whole urinary bladder tissue homogenates before and after treatment with hycanthone methane-sulphonate
- Schistosoma mansoni*
Saad, A. A.; et al., 1978, Biochem. Pharmacol., v. 27 (4), 473-474
Schistosoma mansoni-infected and normal mice treated with hycanthone, progressive and prolonged increase in β -glucuronidase activity in liver and spleen homogenates, concluded that hycanthone is hepatotoxic drug and is possibly carcinogenic in mice
- Schistosoma mansoni*
Sadigursky, C. A.; de Araujo, I. M.; and Rodrigues, L. E. A., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (2), 103-108
Schistosoma mansoni, evaluation of lactic dehydrogenase activity and hepatic isoenzymes is not statistically reliable for diagnosis or follow-up of patients with hepatic lesions
- Schistosoma mansoni*
Sadigursky, M.; and Andrade, Z. A., 1978, Rev. Inst. Med. Trop. S. Paulo, v. 20 (1), 67-69
Schistosoma mansoni, *S. haematobium*, humans, no evidence of association with renal amyloidosis
- Schistosoma mansoni*
Salam, E. A.; Ishaac, S.; and Mahmoud, A. A. F., 1979, J. Immunol., v. 123 (4), 1829-1831
Schistosoma mansoni, human, histocompatibility-linked susceptibility for hepatosplenomegaly: Egypt
- Schistosoma mansoni*
Salgado, J. A.; et al., 1972, Rev. Inst. Med. Trop. S. Paulo, v. 14 (1), 73-82
Schistosoma mansoni, human, case report of patient with hepatosplenic and pulmonary forms, discussion of pathology with emphasis on immunological factor and vascular adaptive capacity

- S[*chistosoma*] *mansoni*
Salgado, J. A.; et al., 1972, Rev. Soc. Brasil. Med. Trop., v. 6 (3), 129-133
S[*chistosoma*] *mansoni*, electrocardiographic study of 434 persons before, during, and after therapy with hycanthone, only slight changes recorded, drug therefore recommended for persons with cardiovascular diseases
- Schistosoma mansoni*
Salih, S. Y.; Abu Sabaa, H.; and Mustafa, D., 1978, J. Trop. Med. and Hyg., v. 81 (7), 126-130
Schistosoma mansoni, *S. haematobium*, humans, clinical trials testing efficacy of single dose therapy with hycanthone, some gastrointestinal side effects, cure rates of about 90% with significant reduction in egg excretion in those who were not cured: Sudan
- Schistosoma mansoni*
Salih, S. Y.; Bartlett, A.; and Voller, A., 1978, Tropenmed. u. Parasitol., v. 29 (4), 409-412
Schistosoma mansoni, humans, enzyme-linked immunosorbent assay confirmed as highly sensitive test in detecting antibodies against adult worms (*S. haematobium*-infected serum cross-reacted but with significantly lower values); useful for field studies and evaluation of treatment efficacy
- Schistosoma mansoni*
Salih, S. Y.; Marshall, T. F. de C.; and Radalowicz, A., 1979, Ann. Trop. Med. and Parasitol., v. 73 (5), 439-449
Schistosoma mansoni, morbidity in 593 Sudanese patients over 4-year period, laboratory findings compared in 3 egg-count groups and 4 clinical forms of infection; patients with *S. haematobium* and mixed infections included for comparisons: Khartoum Civil Hospital
- Schistosoma mansoni*
Salih, S. Y.; Voller, A.; and Woodruff, A. W., 1978, Tropenmed. u. Parasitol., v. 29 (3), 269-274 [Erratum v. 30 (1), 1979, 130]
Schistosoma mansoni patients showing different clinical forms of infection and *S. haematobium* patients before treatment and 6 weeks after treatment with hycanthone, comparison of immunoglobulin levels
- Schistosoma mansoni*
Saliternik, Z., 1979, Trop. and Geogr. Med., v. 31 (2), 175-184
Schistosoma mansoni, *S. haematobium*, human, control and eradication, historical review: Israel
- S[*chistosoma*] *mansoni*
Sandbach, F. R., 1975, Social Sc. and Med., v. 9 (10), 517-527
S[*chistosoma*] spp., human, control measures, critical assessment of present policy and suggestions for new emphasis on environmental sanitation, safe water supplies and health education
- Schistosoma mansoni*
de Santana, J. V.; Magalhaes, L. A.; and Rangel, H. de A., 1978, Rev. Saude Pub., S. Paulo, v. 12 (1), 67-77
populations of *Biomphalaria tenagophila* and *B. glabrata* which are highly susceptible to *Schistosoma mansoni* strains from the Valley of Paraiba do Sul River and Belo Horizonte areas have been obtained after four generations by using a schedule of individual selections; this rapid genetic gain in susceptibility shows that molluscan susceptibility is highly inheritable and apparently conditioned by a few genes
- S[*chistosoma*] *mansoni*
Santiago, J. M.; et al., 1973, Rev. Ass. Med. Minas Gerais, v. 24 (3), 141-172
human schistosomiasis *mansoni*, extensive study of pulmonary form of infection and its resulting pathologic changes
- Schistosoma mansoni*
Santoro, F.; et al., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (3), 152-156
Schistosoma mansoni, humans, mice, sera tested for immune complexes using precipitation by polyethylene glycol and complement fixation test
- Schistosoma mansoni*
Santoro, F.; et al., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (1), 39-42
Schistosoma mansoni, characterization of complement fractions, inversely proportional correlation between C₃ and immune-complex levels in serum of infected patients
- Schistosoma mansoni*
Santoro, F.; et al., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (3), 156-160
Schistosoma mansoni, sera from infected patients, characterization and quantitation of immunoglobulins present in immune complexes
- Schistosoma mansoni*
Santoro, F.; et al., 1978, Clin. and Exper. Immunol., v. 32 (3), 435-442
Schistosoma mansoni-infected rats, detection of circulating schistosome antigens (CSA) and circulating immune complexes (CIC), possible role played by CIC in protective mechanisms to challenge infection
- Schistosoma mansoni*, *illus.*
Santoro, F.; et al., 1979, J. Immunol., v. 123 (4), 1551-1557
Schistosoma mansoni, activation of complement by schistosomula: killing of parasites by alternative pathway and requirement of IgG for classical pathway activation
- Schistosoma mansoni*
Santoro, F.; Bout, D.; and Capron, A., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (5), 293-297
Schistosoma mansoni, humans, immune complexes higher in sub-clinical and hepato-intestinal forms than in hepatosplenic forms, detection by precipitation, radioimmunoassay and complement fixation compared

- Schistosoma mansoni*
Santoro, F.; Liebart, M. C.; and Capron, A., 1978, *Protides Biol. Fluids*, v. 26, 215-218
Schistosoma mansoni, human, circulating antigens, antibodies, and immune complexes in milk from infected mothers
- Schistosoma mansoni*
Santoro, F.; Ouaisi, M. A.; and Capron, A., 1979, *IRCS J. Med. Sc.*, v. 7 (11), 576
Schistosoma mansoni immature forms, surface receptors for complement (C1q and C3b) which disappear with development
- Schistosoma mansoni*
Santoro, F.; Vandemeulebroucke, B.; and Capron, A., 1978, *J. Immunol. Methods*, v. 24 (3-4), 229-237
Schistosoma mansoni-infected humans, mice, and rats, use of radioimmunoprecipitation-PEG assay to quantify total circulating schistosome antigens and circulating antigen '4', recommended for clinical studies
- Schistosoma mansoni*
Santoro, F.; Vandemeulebroucke, B.; and Capron, A., 1979, *Exper. Parasitol.*, v. 47 (3), 392-402
Schistosoma mansoni-infected mice, circulating antigens and immune complexes
- Schistosoma mansoni*
Scapin, M.; and Tendler, M., 1975, *Rev. Soc. Brasil. Med. Trop.*, v. 9 (1), 11-14
Schistosoma mansoni, rapid method for precipitation of antigenic fraction from adult worms using immunoelectrophoresis
- S[*chistosoma*] *mansoni*
Scapin, M.; and Tendler, M., 1975, *Rev. Soc. Brasil. Med. Trop.*, v. 9 (2), 91-93
S[*chistosoma*] *mansoni*, extraction of 3 antigenic fractions from adult worms using KCl; fractions used for immunodiagnostic study by electrophoresis
- Schistosoma mansoni*
Scherrer, J. F.; Chquiloff, M. A. de G.; and de Freitas, J. R., 1976, *Rev. Inst. Med. Trop. S. Paulo*, v. 18 (5), 315-321
reproductive pattern of 4 genetic varieties of *Biomphalaria glabrata* compared in order to assess fecundity
- Schistosoma mansoni*
Schneider, J.; and Fripp, P. J., 1977, *South African Med. J.*, v. 51 (16), 536-540
bilharziasis, humans, diagnosis, classical and atypical manifestations
- Schistosoma mansoni*, *illus.*
Seed, J. L.; Boff, M.; and Bennett, J. L., 1978, *J. Parasitol.*, v. 64 (2), 283-289
Schistosoma mansoni, phenol oxidase, biochemical method for detection (enzyme activity induced by in vitro incubation of female schistosomes), enzyme properties and effects of various drugs upon its activity, appears to be associated with egg production and may serve as target for development of drugs, also as a useful marker for biochemical and immunological studies
- Schistosoma mansoni*, *illus.*
Seed, J. L.; Pratt, M. C.; and Bennett, J. L., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (3), 508-514
Schistosoma mansoni, mice, chronic administration of disulfiram in diet blocks formation of egg shell in female schistosomes, reduces host mortality, and decreases granuloma formation; these results however are rapidly reversible
- Schistosoma mansoni*
Senft, A. W.; et al., 1979, *Parasite Immunol.*, v. 1 (1), 79-89
Schistosoma mansoni, *Schistosoma haematobium*, species-specificity of immediate hypersensitivity to schistosomal proteolytic enzyme (mouse mast cell degranulation and monkey skin tests)
- Schistosoma mansoni*
Senft, A. W.; and Crabtree, G. W., 1977, *Biochem. Pharmacol.*, v. 26 (20), 1847-1856
Schistosoma mansoni, inhibition of adenine and guanine nucleotide synthesis by purine analogs in intact worms in vitro, implications in development of new anti-schistosomal drugs
- Schistosoma mansoni*, *illus.*
Senft, A. W.; Gibler, W. B.; and Knopf, P. M., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (2, pt. 1), 258-266
Schistosoma mansoni, tegument development in permissive (mouse, hamster) vs. non-permissive (rat) hosts, scanning electron microscopy
- Schistosoma mansoni*
Shafei, A. Z., 1979, *J. Trop. Med. and Hyg.*, v. 82 (1), 18-20
Schistosoma mansoni, humans, oral oxamniquine
- Schistosoma mansoni*
Shaker, Z. A.; et al., 1976, *Egypt. J. Bilharz.*, v. 3 (2), 221-232
Schistosoma mansoni, *S. haematobium*, humans, demonstration of circulating bilharzial antigens using indirect haemagglutination and complement fixation techniques, correlation between % of positive cases and host age, duration of infection, clinical presentation, schistosome species, intradermal test results, and effect of chemotherapy
- S[*chistosoma*] *mansoni*
Shehata, H.; et al., 1977, *Egypt. J. Bilharz.*, v. 4 (2), 117-128
S[*chistosoma*] *mansoni*, mice with anemia and leucocytosis, bilharzid safer therapy than tartar emetic
- Schistosoma mansoni*, *illus.*
Sher, A., 1977, *Progr. Immunol.* III, 688-695
Schistosoma mansoni, mice, effector mechanisms in host response, review
- Schistosoma mansoni*
Sher, A.; Hall, B. F.; and Vadas, M. A., 1978, *J. Exper. Med.*, v. 148 (1), 46-57
Schistosoma mansoni schistosomula recovered from mice or cultured in presence of murine lymphoid cells express murine alloantigens among which are gene products of the murine major histocompatibility complex, biological significance unclear, possible role in evasion of immune response

- Schistosoma mansoni*
Shetty, R. V.; and Blanton, C. D., jr., 1978, *J. Med. Chem.*, v. 21 (9), 995-998
2-substituted primaquine analogues synthesized and evaluated in laboratory animals against *Plasmodium berghei*, *P. cynomolgi*, *Trypanosoma rhodesiense*, *Leishmania donovani* and *Schistosoma mansoni*; significant activity was observed against *P. berghei* and *L. donovani*
- Schistosoma mansoni*
Shoeb, S. M.; et al., 1976, *Egypt. J. Bilharz.*, v. 3 (2), 169-182
Schistosoma mansoni-infected mice, attempted immunization using metabolic and somatic antigens prepared from eggs, cercariae and adult worms, assessment of results based on presence of immunoglobulins and histopathologic findings; adult worm antigens gave best results with reduced worm load, delayed ovulation and reduced ova in liver tissues and in stools
- Schistosoma mansoni*
Shoeb, S. M.; et al., 1977, *Egypt. J. Bilharz.*, v. 4 (2), 141-148
bilharziasis, humans, diagnosis using fractionated *Fasciola gigantica* antigens for intradermal test vs. homologous *Schistosoma mansoni* antigen
- Schistosoma mansoni*, illus.
Short, R. B.; Menzel, M. Y.; and Pathak, S., 1979, *J. Parasitol.*, v. 65 (3), 471-473
Schistosoma mansoni, somatic chromosomes

- S[*chistosoma*] *mansoni*
da Silva, L. C.; et al., 1975, *Rev. Inst. Med. Trop. S. Paulo*, v. 17 (5), 307-311
S[*chistosoma*] *mansoni*, human, oral oxamniquine, large-scale clinical trials
- [*Schistosoma*] *mansoni*
da Silva, L. C.; et al., 1975, *Rev. Inst. Med. Trop. S. Paulo*, v. 17 (6), 344-349
human schistosomiasis *mansoni*, immunofluorescence, passive hemagglutination, and immunodiffusion tests used to detect early antibody increases after hycanthone therapy
- S[*chistosoma*] *mansoni*
da Silva, L. C.; et al., 1976, *Rev. Inst. Med. Trop. S. Paulo*, v. 18 (3), 206-210
S[*chistosoma*] *mansoni*, humans parasitologically cured, repeat therapy with niridazole or hycanthone, evaluated by passive hemagglutination, indirect immunofluorescence and immunodiffusion tests
- Schistosoma mansoni*
Smith, D. H.; Warren, K. S.; and Mahmoud, A. A. F., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (2), 220-229
Schistosoma mansoni, human, morbidity in relation to prevalence and intensity, host age and sex, importance of environmental factors such as ecology of transmission and presence of malaria: Nduru, Kisumu, Kenya
- Schistosoma mansoni*, illus.
Smith, H. V.; and Kusel, J. R., 1979, *Clin. and Exper. Immunol.*, v. 36 (3), 430-435
Schistosoma mansoni, acquisition of antigens in intracellular substance of mouse skin by schistosomula
- Schistosoma mansoni*
Smith, M. A.; and Clegg, J. A., 1979, *Parasitology*, v. 78 (3), 311-321
Schistosoma mansoni, mice, wide variations in level of immunity to challenge infection are related to variation between different pools of cercariae rather than to variability in immune response of host
- Schistosoma mansoni*
Smith, T. M.; and Brown, J. N., 1978, *Comp. Biochem. and Physiol.*, v. 59B (1), 51-53
Schistosoma mansoni, *S. japonicum*, absence of tyrosine aminotransferase (TAT) in adult flukes, effect of 10 week infections on TAT activity in livers of female mice

- Schistosoma mansoni*
Smithers, S. R.; and Ramalho-Pinto, F. J., 1978, Colloque Immun. Parasit. Dis. (Thiverval-Grignon, Sept. 5-9, 1977), 39-49
Schistosoma mansoni, concomitant immunity, response of host to schistosomular surface antigens, colloquium presentation
- Schistosoma mansoni*, *illus.*
Sobrinho, O. A. P.; Iglesias, J. D. F.; and Goncalves, J. E. P., 1973, Rev. Ass. Med. Minas Gerais, v. 24 (4), 233-236
Schistosoma mansoni, miracidia, shells, and viable eggs in seminal fluid of man with mildly symptomatic intestinal infection: Belo Horizonte, Brazil
- Schistosoma mansoni*
Sodeman, W. A., jr., 1979, Am. J. Trop. Med. and Hyg., v. 28 (3), 531-538
Schistosoma mansoni, *S. haematobium*, longitudinal study of seasonal changes in vector snail populations and infections, prevalence of human infection: Bong County, Liberia
- Schistosoma mansoni*
Soliman, R.; and Hammouda, N. A., 1979, J. Pharm. Sc., v. 68 (11), 1377-1381
Schistosoma mansoni, *Toxocara canis*, mice (exper.), synthesis and activity of new mercaptotriazoles
- Schistosoma mansoni*
Soto Travieso, R.; et al., 1977, Rev. Cubana Med. Trop., v. 29 (3), 115-120
human intestinal parasites, diagnosis, modified Baermann's technique compared with standard diagnostic methods
- Schistosoma mansoni*
de Souza, C. P., 1975, Rev. Saude Pub., S. Paulo, v. 9 (2), 259-262
biological behavior study of *Biomphalaria glabrata* (vector of human schistosomiasis) that was found to have anomalous shell
- Schistosoma mansoni*
de Souza, J. R.; and Vilela, E. F., 1977, Rev. Ceres (136), v. 24, 636-638
schistosomiasis not likely to become serious problem as ecological conditions do not favor development of large populations of *Biomphalaria glabrata* in artificial impoundments, except during first months after water is dammed: Vicosa, Minas Gerais, Brazil
- Schistosoma mansoni*
Speiser, F.; and Weiss, N., 1979, Experientia, v. 35 (11), 1512-1514
112 sera from Europeans with parasitologically proven helminthiasis tested in enzyme-linked immunosorbent assay against 7 non-purified helminth antigens, extensive cross-reactions
- Schistosoma mansoni*, *illus.*
Spence, I. M.; and Silk, M. H., 1970, South African J. Med. Sc., v. 35 (3-4), 93-112
Schistosoma mansoni, digestive system, ultrastructure
- Schistosoma mansoni*, *illus.*
Spence, I. M.; and Silk, M. H., 1971, South African J. Med. Sc., v. 36 (3), 41-50
Schistosoma mansoni, female reproductive system, electron microscopy
- Schistosoma mansoni*, *illus.*
Spence, I. M.; and Silk, M. H., 1971, South African J. Med. Sc., v. 36 (3), 69-76
Schistosoma mansoni, Mehlis gland, ultrastructural anatomy
- Schistosoma mansoni*
Stanislawski, E.; and Becker, W., 1979, Comp. Biochem. and Physiol., v. 63A (4), 527-533
Biomphalaria glabrata, influences of semi-synthetic diets, starvation, and *Schistosoma mansoni* infection on metabolism (using criteria of egg-laying activity and hemolymph components)
- Schistosoma mansoni*
Stanislawski, E.; Becker, W.; and Mueller, G., 1979, Comp. Biochem. and Physiol., v. 63B (4), 477-482
Biomphalaria glabrata, alterations of free amino acid content in hemolymph in starvation and after infection with *Schistosoma mansoni*
- Schistosoma mansoni*
Stein, P. C.; and Basch, P. F., 1979, J. Invert. Path., v. 33 (1), 10-18
Biomphalaria glabrata, purification of hemagglutinin from hemolymph, albumin glands, and egg masses, binding to *Schistosoma mansoni* larval stages in vitro and in vivo
- Schistosoma mansoni*
Stek, M., jr., 1979, Lancet, London (8141), v. 2, 521 [Letter]
Schistosoma mansoni, *S. haematobium*, changing patterns of prevalence, review: Egypt
- Schistosoma mansoni*
Stibbs, H. H.; et al., 1979, J. Invert. Path., v. 33 (2), 159-170
Hartmannella-Acanthamoeba group amoeba isolated from *Biomphalaria glabrata* (*Schistosoma mansoni* susceptible and resistant strains) (pericardium, mantle), in vitro killing of *S. mansoni* sporocysts by amoebae; whether amoebae contribute to snail resistance is unknown
- Schistosoma mansoni*
Stirewalt, M., 1978, Am. J. Trop. Med. and Hyg., v. 27 (3), 548-553
Schistosoma mansoni cercariae, preacetabular gland enzyme(s), quantitative collection and proteolytic activity
- Schistosoma mansoni*
Stirewalt, M. A.; Lewis, F. A.; and Murrell, K. D., 1979, Exper. Parasitol., v. 48 (2), 272-281
Schistosoma mansoni, cryopreservation of schistosomules
- Schistosoma mansoni*, *illus.*
Strausbaugh, L. J.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 919-923
Schistosoma mansoni with associated chronic salmonellosis, case reports of 2 patients with nephrotic syndrome who responded poorly to therapy, renal biopsies demonstrated amyloidosis: Egypt
- Schistosoma mansoni*
Sturrock, R. F.; et al., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (3), 251-261
Schistosoma mansoni in *Papio anubis*, development of resistance to homologous challenge, correlation of in vitro tests (anti-schistosomula antibody and peripheral leucocyte cytotoxic activity) with in vivo immune status

- Schistosoma mansoni*
Sturrock, R. F.; Karamsadkar, S. J.; and Ouma, J., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (4), 369-375
Schistosoma mansoni, field populations of *Biomphalaria pfeifferi*, measurements of pre-patent and patent infections using 3 methods, some implications for mathematical models of schistosome transmission: Kenya
- Schistosoma mansoni*
Sucupira, M. S.; and Pupo, A. de A., 1976, *AMB, Rev. Ass. Med. Brasil.*, v. 22 (5), 154-161
Schistosoma mansoni, teenagers with delayed puberty and short stature, study showed no relationship between growth disorders and parasitic infections
- Schistosoma mansoni*
Suter-Kopp, V.; Giacometti, P. L.; and Bernhard, A., 1971, *Schweiz. Med. Wchnschr.*, v. 101 (44), 1578-1581
Schistosomiasis, filariasis, humans returning from tropical areas, tested by the indirect immunofluorescence test for possible parasitism
- Schistosoma mansoni*
Tachon, P.; and Borojevic, R., 1978, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 72 (6), 605-609
Schistosoma mansoni, prenatal sensitization to schistosomal antigen in children born to infected mothers
- [*Schistosoma*] *mansoni*
Takaoka, L.; et al., 1976, *Rev. Inst. Med. Trop. S. Paulo*, v. 18 (5), 378-386
Schistosomiasis mansoni, humans with chronic infection, electrocardiographic alterations after hycanthone therapy
- Schistosoma mansoni*
Tavares, C. A. P.; et al., 1978, *Exper. Parasitol.*, v. 46 (2), pp. 145-151
Schistosoma mansoni, complement-mediated cytotoxic activity in vitro and effect of de complementation on acquired immunity in mice, results strongly suggest that complement system is one of effector mechanisms in concomitant immunity in schistosomiasis
- Schistosoma mansoni*
Tavares, C. A. P.; et al., 1978, *Parasitology*, v. 77 (2), 225-233
Schistosoma mansoni, evidence for role of serum factors in protecting artificially transformed schistosomula against antibody-mediated killing in vitro
- Schistosoma mansoni*
Tayo, M. A.; and Jewsbury, J. M., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (5), 483-487
changes in snail population following construction of small dam, potential importance in transmission of *Schistosoma haematobium* and *S. mansoni*: Malumfashi Endemic Diseases Research Project, Nigeria
- Schistosoma mansoni*
Theron, A.; Pointier, J. P.; and Combes, C., 1978, *Ann. Parasitol.*, v. 53 (2), 223-234
Schistosoma mansoni, transmission site, density of vectors (*Biomphalaria glabrata*), density of infected vectors, cercarial density, distribution of schistosomiasis in rats and humans, division of site into sectors as a function of (1) potential for transmission, (2) vector contamination, and (3) risk of contamination of final hosts, relative responsibility of man and rats in infestation of vectors: Guadeloupe
- Schistosoma mansoni*
Thomas, J. D., 1977, *Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico*, 531-542
sociobiology of *Biomphalaria glabrata* (behavior, growth, survival, and natality rates)
- Schistosoma mansoni*
Thomas, J. D.; and Assefa, B., 1979, *Comp. Biochem. and Physiol.*, v. 63C (1), 99-108
Biomphalaria glabrata juveniles, behavioral responses to amino acids, possible practical application in control of snail hosts of schistosomiasis
- Schistosoma mansoni*
Thomas, V.; Ogunba, E. O.; and Fabiyi, A., 1979, *Ann. Trop. Med. and Parasitol.*, v. 73 (5), 451-456
Schistosoma mansoni, *S. haematobium*, humans, evaluation of seroimmunologic techniques (indirect fluorescent antibody, complement fixation and counter-current immunoelectrophoresis) for diagnosis; cross reactions were consistently present so that it was not possible to differentiate between the parasites: Nigeria
- Schistosoma mansoni*, *illus.*
Thompson, H. T.; Pettigrew, R.; and Johnson, E. A., 1979, *Thorax*, v. 34 (3), 401-403
Schistosoma mansoni, solitary pulmonary bilharzioma, case report: London, formerly from Africa
- Schistosoma mansoni*
Tiboldi, T., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (4), 670-676
Schistosoma mansoni-infected mice, histopathological changes in ovaries in acute and chronic infections, pituitary hypofunction may contribute to pathological transformation of ovarian tissue
- Schistosoma mansoni*
Tiboldi, T., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (6), 1026-1030
Schistosoma mansoni-infected mice, histopathological changes in ovaries can be reversed by adequate antischistosomal therapy
- Schistosoma mansoni*
Tiboldi, T., 1979, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 73 (1), 81-84
Schistosoma mansoni, albino mice, intestinal parameters in assessing severity of disease, findings argue for small intestine as valuable organ for pathophysiological studies of acute infection

- Schistosoma mansoni*
Tiboldi, T.; et al., 1979, Am. J. Trop. Med. and Hyg., v. 28 (5), 871-872
Schistosoma mansoni, mice, observations on ovarian functions during acute infections showed that estrus was present in some infected animals in spite of histopathological changes and decreased levels of progesterone in blood
- Schistosoma mansoni*
Tiboldi, T.; et al., 1979, Am. J. Trop. Med. and Hyg., v. 28 (5), 873-875
Schistosoma mansoni, mice, morphology and function of adrenals in acute infection
- Schistosoma mansoni*
Todd, C. W.; Goodgame, R. W.; and Colley, D. G., 1979, J. Immunol., v. 122 (4), 1440-1446
Schistosoma mansoni, suppression of schistosome antigen-specific lymphocyte blastogenesis by adherent/phagocytic cells
- S[*schistosoma*] *mansoni*
Tonelli, E., 1972, Rev. Soc. Brasil. Med. Trop., v. 6 (5), 299-309
S[*schistosoma*] *mansoni*, clinical description of acute phase in humans, diagnosis, therapy, review
- Schistosoma mansoni*
Torpier, G.; Capron, A.; and Ouaisi, M. A., 1979, Nature, London (5703), v. 278, 447-449
Schistosoma mansoni, receptor for IgG(Fc) and human β_2 -microglobulin on schistosomula
- Schistosoma mansoni*, *illus.*
Torpier, G.; Ouaisi, M. A.; and Capron, A., 1979, J. Ultrastructure Research, v. 67 (3), 276-287
Schistosoma mansoni, immune-induced membrane alterations, freeze-fracture study, complement-dependent damage in presence of antisera to host antigenic determinants
- Schistosoma mansoni*
Trangle, K. L.; et al., 1979, Parasite Immunol., v. 1 (2), 133-140
Schistosoma mansoni, S. haematobium, school children, prevalence and severity of infection in relation to blood group type and ability to secrete blood group antigens: Swaziland
- Schistosoma mansoni*
Tribouley, J.; Tribouley-Duret, J.; and Appriou, M., 1978, Compt. Rend. Soc. Biol., Paris, v. 172 (5), 902-904
Schistosoma mansoni, nude mice injected with BCG decreased recovery of pulmonary schistosomes compared to non-injected controls
- Schistosoma mansoni*
Tribouley, J.; Tribouley-Duret, J.; and Appriou, M., 1979, Path. Biol., v. 27 (8), 491-492
Schistosoma mansoni, mice, nonspecific resistance after injection or reinjection of BCG
- Schistosoma mansoni*
Tsuda, S.; Fukuyama, K.; and Epstein, W. L., 1979, J. Immunol., v. 122 (6), 2554-2557
Schistosoma mansoni-infected mice, low molecular weight eosinophil chemotactic factor in granulomatous liver
- Schistosoma mansoni*
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Schistosoma mansoni*
Uhazy, L. S.; Tanaka, R. D.; and MacInnis, A. J., 1978, Science (4359), v. 201, 924-926
Schistosoma mansoni, identification of chemicals that attract or trap its snail vector, *Biomphalaria glabrata*, results indicate that it should be possible to formulate slow- or no-release molluscicides coupled with controlled-release attractants, may attract and kill larval schistosomes as well as snail vectors
- Schistosoma mansoni*
Vadas, M. A.; et al., 1979, J. Immunol., v. 122 (4), 1228-1236
Schistosoma mansoni, new method for purification of human eosinophils and neutrophils, comparison of ability of these cells to damage schistosomula
- Schistosoma mansoni*
Vadas, M. A.; et al., 1979, Proc. National Acad. Sc., v. 76 (4), 1982-1985
Schistosoma mansoni, major histocompatibility complex products restrict adherence of cytolytic T lymphocytes to minor histocompatibility antigens or to trinitrophenyl determinants on schistosomula
- Schistosoma mansoni*
Valle, C. M.; Pellegrino, J.; and Alvarenga, N., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (4), 195-201
Schistosoma mansoni cercariae, circadian rhythmic emergence from *Biomphalaria glabrata*, influences of light and temperature
- Schistosoma mansoni*, *illus.*
Van Marck, E., 1975, Ann. Soc. Belge Med. Trop., v. 55 (4), 373-377
Schistosoma mansoni-infected mice, presence of circulating polysaccharide schistosomal antigen in Kupffer cells demonstrated by immunofluorescence
- Schistosoma mansoni*
Vedy, J.; et al., 1979, Med. Trop., v. 39 (6), 603-609
Schistosoma mansoni, man, retinitis, case report, differential diagnosis, clinical review
- Schistosoma mansoni*
Vengesa, P. B.; and Leese, H. J., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (1), 55-60
Schistosoma mansoni-infected *Mus musculus*, body weight, food intake, small intestinal weight, impaired transport of glucose, 3-O-methylglucose, sorbitol, and fluid, surface appearance of intestinal mucosa
- Schistosoma mansoni*
Veress, B.; et al., 1978, Ann. Trop. Med. and Parasitol., v. 72 (4), 357-361
nephrotic syndrome with special reference to schistosomal nephropathy, preliminary morphological study

- Schistosoma mansoni*
Verroust, P. J.; et al., 1979, *Kidney Internat.*, v. 16 (1), 9-14
schistosomiasis, filariasis, hydatidosis, human, circulating immune complexes, C3d levels, complement activation by parasite antigens
- Schistosoma mansoni*
Verwaerde, C.; et al., 1979, *Compt. Rend. Acad. Sc.*, Paris, v. 289, s. D, Sc. Nat. (10), 725-727
monoclonal antibodies against *Schistosoma mansoni*, production, biological activities
- Schistosoma mansoni*
Vilela, M. P.; et al., 1972, *Ann. Soc. Belge Med. Trop.*, v. 52 (6), 551 [Letter]
Schistosoma mansoni, 13-year-old child, hepatic and psychotic manifestations after hycanthone therapy: Brazil
- Schistosoma mansoni*
Visser, P. S.; and Pitchford, R. J., 1972, *South African Med. J.*, v. 46 (37), 1344-1346
helminth eggs, simple, rapid, cheap and accurate method for recovery from human and animal feces, special reference to *Schistosoma mansoni*, possible application also to egg counts in research laboratories or for soil helminths
- Schistosoma mansoni*
Viyanant, V.; Thirachantra, S.; and Sornmani, S., 1977, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 8 (3), 415-416
Schistosoma mansoni, simple restraining case for exposing mice to schistosome cercariae
- Schistosoma mansoni*, illus.
Voge, M.; Price, Z.; and Bruckner, D. A., 1978, *J. Parasitol.*, v. 64 (4), 585-592
Schistosoma mansoni, development of tegumental surface in mammalian host, scanning electron microscopy
- Schistosoma mansoni*
Von Kruger, W. M. A.; et al., 1978, *Comp. Biochem. and Physiol.*, v. 60B (1), 41-46
Schistosoma mansoni, oxygen consumption and lactate production by cercariae and larvae in several stages of development, lactate dehydrogenase activity from cercaria, cercarial bodies and tails, and schistosomules compared
- Schistosoma mansoni*
Warren, K. S., 1974, *Ciba Found. Symp.*, n.s. (25), 243-261
schistosomiasis, modulation of immunopathology, review
- Schistosoma mansoni*
Warren, K. S., 1978, *Colloque Immun. Parasit. Dis.* (Thiverval-Grignon, Sept. 5-9, 1977), 25-38
Schistosoma mansoni, *Trichinella spiralis*, biology of natural infections within mammalian host, antigens produced by different parasite stages, host immunological responses to these antigens in vivo and in vitro, consequences to host in terms of both immunity and immunopathology, colloquium presentation
- Schistosoma mansoni*
Warren, K. S., 1978, *Nature*, London (5664), v. 273, 609-612
schistosomiasis, pathology, pathobiology, and pathogenesis, review
- Schistosoma mansoni*
Warren, K. S.; et al., 1978, *Lancet*, London (8060), v. 1, 352-354
Schistosoma mansoni, humans, dose-response to hycanthone established for 3 dosage levels using less drug than that recommended on drug packaging, possible use of these decreased levels for mass therapy especially in endemic areas as a means of avoiding severe toxic reactions
- Schistosoma mansoni*
Warren, K. S.; and Mahmoud, A. A. F., 1976, *Tr. Ass. Am. Physicians*, v. 89, 195-204
schistosomiasis, humans, new approach in control measures, targeted mass treatment directed toward relatively small numbers of heavily infected individuals, successful field project carried out in village of Lower Nduu, Kenya
- Schistosoma mansoni*
Waslien, C. I.; Farid, Z.; and Darby, W. J., 1973, *South. Med. J.*, v. 66 (1), 47-50
schistosomiasis and/or hookworm, humans, study of blood and nutrition losses shows that drain on iron, protein, zinc and vitamin A stores plus other pathology is more significant as cause of malnutrition than abnormality of absorption functions: Egypt
- Schistosoma mansoni*
Watts, S. D. M., 1978, *Comp. Biochem. and Physiol.*, v. 60C (2), 109-114
Schistosoma mansoni, 153C51-treated parasites, unlikely that interference with glucose uptake observed in vitro in male parasites could be primary cause of schistosome death or even of physiological distress in vivo
- Schistosoma mansoni*
Watts, S. D. M.; and Atkins, A. M., 1979, *Biochem. Pharmacol.*, v. 28 (17), 2579-2584
effects of schistosomicide 1,7-bis(p-aminophenoxy)heptane (153C51) on lysosomes and membrane stability
- Schistosoma mansoni*, illus.
Watts, S. D. M.; Orpin, A.; and MacCormick, C., 1979, *Parasitology*, v. 78 (3), 287-294
Schistosoma mansoni, tegument pathology following chemotherapy with 153C51, lysosomal involvement (accumulation of inclusions with characteristics of residual lysosomes, changes in localization of acid phosphatase), immunological factors probably not involved
- Schistosoma mansoni*
Webbe, G.; et al., 1979, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 73 (1), 42-54
Schistosoma haematobium-immunized *Papio anubis*, strong immunity to homologous challenge, marked degree of acquired immunity to *S. mansoni* challenge
- Schistosoma mansoni*
Webbe, G.; and James, C., 1977, *Ztschr. Parasitenk.*, v. 52 (2), 169-177
Schistosoma spp. in hamsters, praziquantel effective against 5 species

- Schistosoma mansoni*
Weiss, N., 1978, *Exper. Parasitol.*, v. 46 (2), 283-299
Dipetalonema viteae in 2 strains of hamster, lymphocyte blastogenesis (during different stages of primary infection, after injection of dead larvae, after implantation of adult worms, in mixed infection with *Schistosoma mansoni*), attempt to relate results with parasitological findings and with humoral immune response, analysis of cellular unresponsiveness to filarial antigens in chronically infected LAKZ hamsters
- Schistosoma mansoni*, *illus.*
Wheater, P. R.; and Wilson, R. A., 1979, *Parasitology*, v. 79 (1), 49-62
Schistosoma mansoni, route and timing of migration in mice, quantitative histological techniques; histopathology of host response during migration
- Schistosoma mansoni*
Widman, A.; et al., 1973, *Rev. Hosp. Clin., S. Paulo*, v. 28 (4), 177-187
Schistosoma mansoni, humans with portal hypertension resulting from hepatosplenic involvement, comparison of diagnostic X-ray films done arterially with those done during spleno-renal anastomosis
- Schistosoma mansoni*
Wilson, R. A.; et al., 1978, *Parasitology*, v. 77 (1), 57-73
Schistosoma mansoni in mice, activity patterns and changes in body shape of schistosomula recovered from various locations during migration from skin to hepatic portal system, comparisons with schistosomula transformed and cultured in vitro
- Schistosoma mansoni*, *illus.*
Wilson, R. A.; and Barnes, P. E., 1979, *Parasitology*, v. 78 (3), 295-310
Schistosoma mansoni, protein and polysaccharide/glycoprotein synthesis by epithelial surfaces, autoradiography at light and electron microscope level
- Schistosoma mansoni*
Wilson, R. J. M., 1974, *Ciba Found. Symp.*, n.s. (25), 185-203
soluble parasite antigens, possible modes of interference with immune response, review
- [*Schistosoma*] *mansoni*, *illus.*
Witham, R. R.; and Mosser, R. S., 1979, *Gastroenterology*, v. 77 (6), 1316-1318
schistosomiasis mansoni in Arabian man as cause of duodenitis, successful treatment with niridazole, case report: United States (emigrated from Yemen)
- Schistosoma mansoni*
Wong, M. M.; and Conrad, H. D., 1978, *Lab. Animal Sc.*, v. 28 (4), 412-416
Macaca radiata (blood vessels): wild caught in Asia, maintained at National Center for Primate Biology
- Schistosoma mansoni*
Woolhouse, N. M., 1979, *Biochem. Pharmacol.*, v. 28 (16), 2413-2418
antischistosomal drugs, biochemical and pharmacological effects in relation to mode of action
- [*Schistosoma*] *mansoni*, *illus.*
Wu, W. Q.; and Fritzlen, T., 1976, *Surg. Neurol.*, v. 5 (6), 333-335
cerebral schistosomiasis mansoni, 30-year-old Saudi Arabian student, parasite-associated major epileptic seizure resulted in subluxation of cervical spine, surgical therapy: Missouri (had frequently visited Egypt)
- Schistosoma mansoni*
Wyler, D. J.; Wahl, S. M.; and Wahl, L. M., 1978, *Science* (4366), v. 202, 438-440
Schistosoma mansoni, egg granulomas (obtained from livers of infected mice) secrete fibroblast stimulating factor in vitro, this suggests that hepatic granulomas may play role in development of hepatic fibrosis in schistosomiasis
- Schistosoma mansoni*, *illus.*
Yoshino, T. P.; and Cheng, T. C., 1978, *J. Parasitol.*, v. 64 (4), 752-754
Schistosoma mansoni, newly hatched miracidia possess surface membrane-associated determinants that are antigenically similar to macromolecular component(s) of *Biomphalaria glabrata* hemolymph
- Schistosoma mansoni*
Young, K. H.; et al., 1979, *J. Clin. Microbiol.*, v. 10 (6), 852-853
parasites, ethyl acetate as satisfactory substitute solvent in formalin-ether sedimentation technique for fecal specimens
- Schistosoma mansoni*, *illus.*
Yousif, F.; and Laemmler, G., 1977, *Ztschr. Parasitenk.*, v. 54 (3), 269-274
Angiostrongylus cantonensis infection of *Biomphalaria glabrata* had no inhibitory or retarding effect on subsequent *Schistosoma mansoni* infection
- Schistosoma mansoni*
Zicker, F.; Katz, N.; and Wolf, J., 1977, *Rev. Inst. Med. Trop. S. Paulo*, v. 19 (3), 202-207
Schistosoma mansoni, human, diagnosis, standardization of new semi-quantitative egg hatching technique for use in fecal examination
- S[*chistosoma*] *mansoni*
Zierdt, W. S., 1978, *Am. J. Clin. Path.*, v. 70 (1), 89-93
human intestinal parasites, description of simple method for recovery of eggs, larva and cysts from feces by concentration device, comparison with other methods of parasite recovery
- Schistosoma margrebowiei*
Graber, M., 1978, *J. Helminth.*, v. 52 (1), 72-74
Kobus defassa
Adenota cob
all from Chad
- Schistosoma margrebowiei*
Ross, G. C.; Southgate, V. R.; and Knowles, R. J., 1978, *Ztschr. Parasitenk.*, v. 57 (1), 49-56
Schistosoma bovis strains, *S. mattheei*, *S. margrebowiei*, *S. leiperi*, isoenzymes compared by isoelectric focusing, technique for further studies of inter- and intraspecific relationships
Bulinus tropicus: Botswana

- Schistosoma margrebowiei* Le Roux, 1933, *illus.*
Southgate, V. R.; and Knowles, R. J., 1977,
Ztschr. Parasitenk., v. 54 (3), 233-250
Schistosoma margrebowiei, morphology of egg,
miracidium, and cercaria, compatibility with
Bulinus spp., development in *Mesocricetus*
auratus, pathogenicity
Bulinus truncatus/tropicus complex
B. bavayi
B. beccarii
B. wrighti
Mesocricetus auratus
(all exper.)
- Schistosoma margrebowiei*, *illus.*
Wright, C. A.; Southgate, V. R.; and Howard,
G. W., 1979, *J. Nat. Hist.*, v. 13 (4), 499-506
Schistosoma margrebowiei, life cycle, pos-
sible interactions with *S. leiperi*, host
age
Kobus leche kafuensis (liver)
Bulinus forskali (digestive gland)
B. scalaris
hamster (exper.)
all from Lochinvar National Park, Zambia
- Schistosoma mattheei*
Bickle, Q. D.; et al., 1979, *Parasitology*, v.
78 (2), 185-193
Schistosoma mattheei, sheep, duration of
resistance following homologous vaccination
with irradiated schistosomula; heterologous
vaccination with *Schistosoma mattheei*
against challenge with *S. bovis* and with *S.*
mansoni against *S. mattheei* failed to in-
duce protection
- S[*Schistosoma*] *mattheei*
Goldsmid, J. M.; and Rogers, S., 1977, *South*
African Med. J., v. 51 (2), 29-33
schistosomiasis, humans, criteria used for
diagnosis in endemic bilharzial areas (egg
recovery, rectal biopsy, eosinophilia,
hepatomegaly, serologic and skin test),
rational proposal for treatment
- Schistosoma mattheei* Veglia and Le Roux, 1929
Hira, P. R., 1975, *Ann. Soc. Belge Med. Trop.*,
v. 55 (6), 633-642
Schistosoma mattheei, humans, 3 case reports,
differentiation from *S. intercalatum* on basis
of ova morphology, clinical presentation, and
epidemiology; *Bulinus africanus* is probable
vector: Zambia
- Schistosoma mattheei*, *illus.*
Koller, A. B., 1975, *South African Med. J.*,
v. 49 (30), 1228-1232
bilharzial and amoebic granulomatous lesions
of the cervix uteri, incidence in South Afri-
can Blacks, clinical presentation, macro-
scopic and microscopic features: Baragwanath
Hospital
- Schistosoma mattheei* Veglia and Le Roux 1929
Kuntz, R. E.; et al., 1978, *Proc. Helminth.*
Soc. Washington, v. 45 (1), 56-59
Schistosoma mattheei, *Papio cynocephalus* as
satisfactory experimental host
- Schistosoma mattheei*
Kuntz, R. E.; et al., 1979, *Internat. J.*
Parasitol., v. 9 (3), 213-220
6 schistosome species, susceptibility of
Saimiri sciureus (exper.)
- Schistosoma mattheei* (Veglia and Le Roux, 1929),
illus.

ammonia excretion by bulinid snails
- Schistosoma mattheei*
Pitchford, R. J.; and Lewis, M., 1978, *South*
African Med. J., v. 53 (17), 677-680
schistosome infections, human, clinical
trials using oxamniquine; effective only
with *Schistosoma mansoni*: lowveld of Eastern
Transvaal
- Schistosoma mattheei*
Ross, G. C.; Southgate, V. R.; and Knowles, R.
J., 1978, *Ztschr. Parasitenk.*, v. 57 (1), 49-
56
Schistosoma bovis strains, *S. mattheei*, *S.*
margrebowiei, *S. leiperi*, isoenzymes compared
by isoelectric focusing, technique for fur-
ther studies of inter- and intraspecific
relationships
Bulinus africanus: South Africa
- Schistosoma mattheei* Veglia & Le Roux, 1929,
illus.
Tulloch, G. S.; et al., 1977, *Tr. Am. Micr.*
Soc., v. 96 (1), 41-47
Schistosoma mattheei, surface structures of
integument suggest basic adaptations for
clasp of male and female schistosomes
and for parasite attachment to host, scan-
ning electron microscopy; taxonomic implica-
tions
- Schistosoma mattheei*
Webbe, G.; and James, C., 1977, *Ztschr. Para-*
sitenk., v. 52 (2), 169-177
Schistosoma spp. in hamsters, praziquantel
effective against 5 species
- Schistosoma mekongi* sp. n., *illus.*
Voge, M.; Bruckner, D.; and Bruce, J. L., 1978,
J. Parasitol., v. 64 (4), 577-584
Schistosoma mekongi sp. n., comparison with
4 geographic strains of *S. japonicum*, rela-
tive usefulness of various criteria in dif-
ferentiation of Asian schistosomes
Canis familiaris (superior mesenteric and
portal veins) (nat. and exper.): Khong
Island, Laos; Mekong River, Cambodia
Homo sapiens (superior mesenteric and portal
veins): Mekong River, Cambodia
Mus musculus (superior mesenteric and portal
veins) (exper.)
Mesocricetus auratus (superior mesenteric
and portal veins) (exper.)
Lithoglyphopsis aperta

- Schistosoma mekongi*
 Temcharoen, P.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (4), 552-555
 survey of intestinal parasites of Laotian refugees to detect presence of schistosomiasis, public health implications: Ubon Province, Thailand
- Schistosoma mekongi* Voge, Bruckner, and Bruce 1978

schistosomiasis, man, case report, schistosomal infiltration of renal cortex
- Schistosomiasis
El-Hawary, M. F. S.; et al., 1976, *Egypt. J. Physiol. Sc.*, v. 2 (1-2), 1975, 69-78
bilharziasis, serum and urinary amino acid patterns in Egyptian children at different stages of the disease and before and after bilharcid therapy
- Schistosomiasis
El Kheir, Y. M.; and El Tohami, M. S., 1979, *J. Trop. Med. and Hyg.*, v. 82 (11-12), 237-241
molluscicidal activity of certain Sudanese plants evaluated, preliminary screening of 78 plants used in folk-medicine
- Schistosomiasis
El Kheir, Y. M.; and El Tohami, M. S., 1979, *J. Trop. Med. and Hyg.*, v. 82 (11-12), 242-247
molluscicidal activity of certain Sudanese plants evaluated, screening of *Gnidia kraussiana* Meisn leaf, stem and root
- Schistosomiasis
Elsebai, I., 1978, *Urol. Research*, v. 6 (4), 233-236
bilharziasis, human bladder infection, associated bladder cancer, current clinical management, pathology, treatment, and prognosis
- Schistosomiasis
El-Sewedy, S. M.; et al., 1978, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 72 (5), 525-528
bilharziasis, human, α -esterase activity in serum and urine, latter recommended as screening test for bilharzial bladder cancer
- Schistosomiasis
Fahmy, M. H.; et al., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (4), 353-356
hepatosplenic schistosomiasis, human, thyroid function tests, liver function tests, serum protein levels
- Schistosomiasis
de Faria, C. V., 1978, *Rev. Hosp. Clin.*, S. Paulo, v. 33 (2), 110-113
human schistosomiasis, nephrotic pathology, clinical review
- Schistosomiasis
Fineza, B.; and Fajardo, V., 1971, *Santo Tomas J. Med.*, v. 26 (2), 106-109
human cerebral schistosomiasis, general clinical review: Philippines
- Schistosomiasis
Frost, O., 1975, *South African Med. J.*, v. 49 (30), 1201-1203
bilharzia, humans, incidence of Fallopian tube infections, possible role as etiologic factor in ectopic pregnancy and salpingitis, tubal infection does not present typical clinical picture for diagnosis
- Schistosomiasis
Gad-el-Mawla, N. M.; et al., 1978, *Cancer Treatment Rep.*, v. 62 (7), 993-996
bilharzial bladder cancer, humans, chemotherapeutic management, phase II trial with hexamethylmelamine and VM-26: Egypt
- Schistosomiasis
Gad-el-Mawla, N.; et al., 1978, *Cancer Treatment Rep.*, v. 62 (7), 1075-1076
bilharzial bladder cancer, humans, phase II trial of methotrexate: Egypt; Zambia
- Schistosomiasis
Gad-el-Mawla, N.; et al., 1978, *Cancer Treatment Rep.*, v. 62 (7), 1109-1110 [Letter]
bilharzial bladder cancer, humans, phase II trial of bleomycin: Egypt
- Schistosomiasis
Gama-Rodrigues, J. J.; et al., 1974, *Rev. Hosp. Clin.*, S. Paulo, v. 29 (1), 23-33
human schistosomiasis, esophageal motility disorders in patients with esophageal varices resulting from schistosomal portal hypertension

- Schistosomiasis
Ghanem, M. H.; et al., 1978, *Ann. Trop. Med. and Parasitol.*, v. 72 (2), 133-138
human hepatic schistosomiasis, study of elimination rate of lipid and of changes in level of plasma free fatty acids in schistosomal patients and comparison with rates in normal controls
- Schistosomiasis
Ghoneim, M. A.; et al., 1979, *Brit. J. Urol.*, v. 51 (6), 541-544
schistosomiasis, human bladder, 138 cases surveyed after 5 years, tumor grade most important prognostic factor, most treatment failure due to local recurrence which developed early after treatment; preoperative radiation suggested for possible improvement of survival rate: Egypt
- Schistosomiasis
al-Ghorab, M. M.; et al., 1978, *Urology*, v. 11 (3), 303-305
schistosomiasis, human, bilharzial contracted bladder, radiological findings, calcifications
- Schistosomiasis
Goddard, M. J., 1978, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 72 (2), 123-131 [For Erratum see v. 73 (2), 1979, 245]
schistosomiasis, Macdonald's model, attempt to reconstruct specifics
- Schistosomiasis
Goddard, M. J., 1979, *J. Hyg., Cambridge*, v. 83 (1), 77-93
schistosomiasis, statistical technique for estimating duration of latency and survival time of infected snails
- Schistosomiasis
Goel, H. C.; and Parshar, B. D., 1979, *J. Invert. Path.*, v. 33 (3), 378-380
Indoplanorbis exustus, effect of temperature on development
- Schistosomiasis
Goel, H. C.; and Prasad, R., 1978, *Indian J. Exper. Biol.*, v. 16 (5), 620-622
Indoplanorbis exustus (vector of animal schistosomiasis), susceptibility of eggs to certain molluscicides, suggested that snail control might be accomplished more economically and with less damage to ecosystem if low concentrations of molluscicides were directed primarily against eggs rather than high concentrations against adult snails
- Schistosomiasis
Goldenberg, S., 1973, *Rev. Paul. Med.*, v. 81 (3), 183-192
human hepatosplenic schistosomiasis with resulting portal hypertension and gastric varices, differential diagnosis, clinical management
- Schistosomiasis
Goldenberg, S.; et al., 1973, *Rev. Paul. Med.*, v. 81 (5), 287-300
human hepatosplenic schistosomiasis, radiographic diagnosis of gastric varices resulting from portal hypertension, interpretation of contrast films of the stomach
- Schistosomiasis
Goldenberg, S.; et al., 1973, *Rev. Paul. Med.*, v. 81 (6), 349-356
human hepatosplenic schistosomiasis mansoni, radiographic diagnosis of gastric varices resulting from portal hypertension, interpretation of splenoportography and gastroscopy, exploratory surgery
- Schistosomiasis
Goldenberg, S.; et al., 1973, *Rev. Paul. Med.*, v. 82 (1), 33-46
human hepatosplenic schistosomiasis mansoni, radiographic diagnosis of gastric varices resulting from portal hypertension
- Schistosomiasis
Goncalves, C. S.; et al., 1977, *AMB, Rev. Ass. Med. Brasil.*, v. 23 (9), 305-308
schistosomiasis, humans, hepatitis and other hepatic pathology after hycanthon therapy
- Schistosomiasis
Graber, M.; Euzeby, J.; and Gevrey, J., 1977, *Bull. Soc. Sc. Vet. et Med. Comp. Lyon*, v. 79 (2), 91-95
schistosomiasis vectors, *Biomphalaria glabrata*, predatory capability of American crayfish, *Cambarus affinis*
- Schistosomiasis
Graber, M.; Euzeby, J.; and Gevrey, J., 1977, *Bull. Soc. Sc. Vet. et Med. Comp. Lyon*, v. 79 (2), 97-99
schistosomiasis vectors, *Biomphalaria glabrata*, predation by American crayfish, *Cambarus affinis*, exerted principally during period from April to October
- Schistosomiasis
Guerra, M. de O.; et al., 1974, *Rev. Ginec. e Obst.*, Sao Paulo, v. 131 (9-10), 241-245
administration of schistosomal drug hycanthon to lactating rats, offspring had decreased liver weight and evidence of liver damage, possible excretion of drug or its metabolites into mother's milk or alteration of milk metabolism by drug
- Schistosomiasis
Habib, Y. A.; et al., 1979, *J. Trop. Med. and Hyg.*, v. 82 (7), 142-144
schistosomiasis, males without ascites, estimation of hepatic intracellular electrolytes content, concluded that increase in intracellular sodium content is an early finding before ascites develops
- Schistosomiasis
Hassab, M. A., 1970, *Surg., Gynec. and Obst.*, v. 131 (4), 648-654
schistosomal hepatic fibrosis, humans, gastroesophageal decongestion and splenectomy in cases with and without portal and splenic venous thrombosis
- Schistosomiasis
Hidayat, M. A.; and Wahid, H. A., 1971, *Surg., Gynec. and Obst.*, v. 132 (6), 997-1004
bilharzic hepatic fibrosis, human, significance of associated vascular changes
- Schistosomiasis
James, M. F. M.; and Jewsbury, J. M., 1978, *Brit. Med. J.* (6110), v. 1, 442 [Letter]
human urinary schistosomiasis, depression of blood cholinesterase activity during therapy with metrifonate, cautions regarding use of suxamethonium during course of schistosomal therapy

- Schistosomiasis
Jung, R. C., 1976, *South. Med. J.*, v. 69 (6), 799-804
intestinal parasites, humans, current therapeutics, review
- Schistosomiasis
Kagan, I. G., 1976, *Egypt. J. Bilharz.*, v. 3 (2), 121-128
human schistosomiasis, review of current methods presently used for diagnosis with emphasis on detection of light asymptomatic infections
- Schistosomiasis
Kamel, I.; and Milad, M., 1977, *Egypt. J. Bilharz.*, v. 4 (2), 157-164
schistosomal seminal vesiculitis, humans, quantitative and qualitative pathology
- Schistosomiasis
Kang, S. Y., 1972, *Taehan Uihak Hyophoe Chi (J. Korean Med. Ass.)*, v. 15 (6), 470-474
pulmonary parasitic diseases, human
- Schistosomiasis
Kaschula, V. R.; Van Dellen, A. F.; and de Vos, V., 1978, *J. South African Vet. Ass.*, v. 49 (3), 223-227
antibody levels against several parasitic infections in *Cercopithecus aethiops pygerythrus*: South Africa
- Schistosomiasis
Kekomaki, R.; and Penttinen, K., 1979, *J. Clin. and Lab. Immunol.*, v. 1 (4), 305-309
platelets and ¹²⁵I-labelled staphylococcal protein A in detection of immune complexes in serum, serum samples from patients with various diseases including onchocerciasis and schistosomiasis
- Schistosomiasis
Khafagy, E. Z.; et al., 1976, *Egypt. J. Bilharz.*, v. 3 (2), 183-197
human schistosomiasis, evaluation of leucine aminopeptidase activity and creatinine concentrations in persons with active bilharzial infections and comparison of findings with those in normal controls
- Schistosomiasis
Korolkovas, A.; and Barata, M. A. L., 1972, *Rev. Farm. e Bioquim. Univ. Sao Paulo*, v. 10 (1), 113-124
preparation and testing of 6 long-acting schistosomicidal resins
- Schistosomiasis
Korolkovas, A.; Itaya, M.; and Coelho, Z. M. P., 1977, *Rev. Farm. e Bioquim. Univ. Sao Paulo*, v. 15 (1-2), 27-34
schistosomiasis, synthesis of 4 oxamniquine derivatives, oxamniquine embonate shows curative and prophylactic activity
- Schistosomiasis
Korolkovas, A.; Yang, G. N.; and Manfrinato, E., 1977, *Rev. Farm. e Bioquim. Univ. Sao Paulo*, v. 15 (1-2), 19-25
schistosomal activity and synthesis of 4-[p-6-(4-methoxy-pyrimidylsulfamyl)phenylazo]-1-N-(N', N'-diethylaminoethyl)naphthylamine
- Schistosomiasis
Le Bras, M.; et al., 1974, *Semaine Hop. Paris*, v. 50 (27), 1877-1886
hepatic schistosomiasis, humans, diagnostic methods
- Schistosomiasis
Lee, Y. S., 1979, *Trop. and Geog. Med.*, v. 31 (1), 69-74
pattern of liver diseases in humans, includes information on clonorchiasis, schistosomiasis, ascariasis, and amoebic abscesses: Singapore
- Schistosomiasis
Leveque, C.; Pointier, J. P.; and Toffart, J. L., 1978, *Ann. Parasitol.*, v. 53 (4), 393-402
Biomphalaria glabrata (schistosomiasis vector), influence of some environmental factors on fecundity under laboratory conditions
- Schistosomiasis
Li, Y. H.; et al., 1974, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 20 (3), 273-280
schistosomiasis, recent advances in fecal examination technique, rectal biopsy, intradermal test, and serological reactions, review
- Schistosomiasis
de Lima, J. J. P.; Viana, R. L.; and Garcia, D. S., 1974, *South African Med. J.*, v. 48 (30), 1312-1314
hepatic bilharzial fibrosis, evaluation of hepatic blood flow before and after splenectomy or splenorenal shunt
- Schistosomiasis
Loban, K. M., 1979, *Sovet. Med.* (5), 51-54
human parasitic diseases imported into Russia by travelers to Africa, Asia, and Latin America, symptoms, clinical management
- Schistosomiasis
Miyashita, M.; et al., 1977, *Eisei Dobutsu (Japan. J. San. Zool.)*, v. 28 (3), 291-300
schistosomiasis, control of snail vectors by tropical fish
- Schistosomiasis
Molyneux, M. E.; and Galatius-Jensen, F., 1978, *South African Med. J.*, v. 54 (21), 871-872
schistosomal myelopathy, man, presentation with quadriplegia, large mass demonstrated in spinal cord, total clinical recovery after niridazole: Malawi
- Schistosomiasis
Nassi, H., 1978, *Acta Trop.*, v. 35 (1), 41-56
Ribeiroia marini guadeloupensis n. ssp., life cycle, sterilization of *Biomphalaria glabrata* (vector of schistosomiasis), method for producing large quantities of trematode eggs with view to eventual control of snail populations: Guadeloupe
- Schistosomiasis
Negron-Aponte, H.; and Jobin, W. R., 1979, *Am. J. Trop. Med. and Hyg.*, v. 28 (3), 515-525
schistosomiasis, update on control program initiated in 1953 in Puerto Rico
- Schistosomiasis
Nel, C. J. C.; Honiball, P. J.; and van Wyk, F. A. K., 1974, *South African J. Surg.*, v. 12 (4), 233-239
schistosomiasis, human, complicated by portal hypertension, differential diagnosis, methods of surgical treatment
- Schistosomiasis
Neumayr, A.; and Peschl, L., 1977, *Therapie-woche*, v. 27 (38), 6588-6603
etiology of portal hypertension, humans, mentions schistosomiasis

- Schistosomiasis
Norfray, J. F.; et al., 1978, Surg. Neurol., v. 9 (1), 68-71
schistosomiasis of spinal cord, humans, clinical aspects, radiologic diagnosis, therapy, case report of Schistosoma mansoni infection in 25-year-old male
- Schistosomiasis
Ong, T. M., 1978, Mutation Research, v. 55 (1), 43-70
hycanthone and other antischistosomal drugs, general properties, teratogenicity, carcinogenicity, mutagenicity, and other genetically related activities, review
- Schistosomiasis
Paraf, A.; Ricome, H.; and Rousset, J. J., 1977, Rev. Prat., Paris, v. 27 (53), 3663-3674
human hepatic schistosomiasis, general review
- Schistosomiasis
Pasticier, A.; et al., 1975, Ann. Soc. Belge Med. Trop., v. 55 (5), 389-393
urinary bilharziasis, African workers living in Paris, 350 cases, diagnosis
- Schistosomiasis
Pelley, R. P.; and Warren, K. S., 1978, J. Invest. Dermat., v. 71 (1), 49-55
schistosomiasis, review of current evidence that both induction and amelioration of hepatosplenic disease are immunologically mediated
- Schistosomiasis
Phillips, J. F.; et al., 1975, Radiology, v. 114 (1), 31-37
human schistosomiasis, radiology, evaluation of patients preoperatively and assessment of pathologic changes in advanced stages of infection
- Schistosomiasis
Phillips, S. M.; and Colley, D. G., 1978, Progr. Allergy, v. 24, 49-182
schistosomiasis with emphasis on Schistosoma mansoni, immunologic aspects of host responses, extensive review: cellular and humoral immune response; immunopathology; eosinophils
- Schistosomiasis
Pieterse, H. F., 1973, South African Med. J., v. 47 (45), 2148 [Letter]
vesical bilharziasis, children, presenting symptoms and provisional diagnosis of sarcoma botryoides, case reports: South West Africa
- Schistosomiasis
Pieterse, H. F., 1973, South African Med. J., v. 47 (50), 2415-2419
bilharziasis, human, chronic infections involving urinary tract, diagnosis, surgical repair of obstructions: South West Africa
- Schistosomiasis
Playfair, J. H. L., 1978, Current Topics Microbiol. and Immunol., v. 80, 37-64
effective and ineffective immune responses to parasites, evidence from experimental models, review with emphasis on malaria and trypanosomiasis
- Schistosomiasis
Porto, W. F., 1979, Rev. Brasil. Pesqui. Med. e Biol., v. 12 (2-3), 193-195
schistosomiasis, patients with bleeding esophageal varices, procedure for embolization of left gastric vein
- Schistosomiasis
Pretorius, S. J.; Oberholzer, G.; and van Eeden, J. A., 1976, South African Med. J., v. 50 (25), 968-972
Tugela-Vaal River water scheme as possible source for introduction of bilharziasis into non-endemic area, snail survey for potential vectors: Orange Free State, South Africa
- Schistosomiasis
Puetter, J., 1979, European J. Drug Metab. and Pharmacokinet., v. 4 (3), 143-148
fluorometric method for determining praziquantel in blood-plasma and urine
- Schistosomiasis
Pugh, R. N. H., 1978, Ann. Trop. Med. and Parasitol., v. 72 (4), 387-388
human schistosomiasis, description of urine filtration method for egg quantification
- Schistosomiasis
Purchio, A.; and Campos, R., 1970, Rev. Inst. Med. Trop. S. Paulo, v. 12 (4), 236-238
schistosomiasis snail vectors, molluscicidal activity of aflatoxin B-1 in Aspergillus parasiticus extract
- Schistosomiasis
Ramadan, M. I. A.; et al., 1977, J. Trop. Med. and Hyg., v. 80 (12), 243-247
patients with schistosomiasis found to have subnormal levels of metal ions, recommendation that preoperative and postoperative monitoring of metal ions (particularly zinc and magnesium) should be considered in infected patients undergoing major surgery under ether anesthesia
- Schistosomiasis
Sadek, A. M.; et al., 1978, Ann. Trop. Med. and Parasitol., v. 72 (2), 139-143
human schistosomal hepatic fibrosis with presinusoidal obstruction, study of chemical constituents (proteins, immunoglobulins, lipids, enzymes, electrolytes) of thoracic duct lymph and of serum, comparison with controls
- Schistosomiasis
Salgado, J. A.; and Veloso, C., 1971, Rev. Soc. Brasil. Med. Trop., v. 5 (5), 271-289
hepatic schistosomiasis, survey of hospitalized patients for correlation between hepatic pathology and hypertension showed significantly higher blood pressures in patients without hepatic disease
- Schistosomiasis
Santos Tome, R.; and Lomba Viana, R., 1974, Rev. Cien. Med., Univ. Lourenco Marques, s. A, v. 7 (2), 297-301
schistosomal hepatic fibrosis with associated esophageal varices, human, comparative diagnosis using esophageal X-ray, esophagoscopy and splenoportography, combined use of all methods gave best results
- Schistosomiasis
Sapire, D. W.; and Silverman, N. H., 1970, South African Med. J., v. 44 (33), 948-950
urinary schistosomiasis, 10-year-old boy, sodium antimony gluconate treatment caused acute poisoning with myocardial involvement, suggestions for management

Schistosomiasis

Sharaf, A. A.; El-Sherbini, A.; and Abdulla, W. A., 1976, Egypt. J. Bilharz., v. 3 (2), 247-254

inhibition of citrate oxidation in rat liver by the antischistosomal drug bilharzid, inhibition decreased by time, addition of citrate protected the enzyme against inhibitory action of the drug if administered before the bilharzid

Schistosomiasis

Sharaf, A. A.; El-Sherbini, A.; and Abdulla, W. A., 1978, Egypt. J. Bilharz., v. 4 (1), 1977, 9-18

schistosomicides, comparative study on effects of bilharzid, tartar emetic and piperazine hexahydrate on activity of oxidoreductase enzymes of rat liver preparations

Schistosomiasis

Sharaf, A. A.; El-Sherbini, A.; and Abdulla, W. A., 1978, Egypt. J. Bilharz., v. 4 (1), 1977, 27-34

antischistosomal drug bilharzid, inhibition of malate and pyruvate oxidation in rat liver

Schistosomiasis

Sharaf, A. A.; El-Sherbini, A.; and Abdulla, W. A., 1978, Egypt. J. Bilharz., v. 4 (1), 1977, 35-45

antischistosomal drug bilharzid, inhibitory action on succinate oxidation in normal rat liver

Schistosomiasis

Sherif, M., 1978, Urol. Research, v. 6 (4), 237-239

bilharziasis, human bladder infection with associated bladder cancer, comprehensive protocol for management using radiotherapy as adjuvant to surgery and screening large numbers of chemotherapeutic agents

Schistosomiasis

Shiff, C. J., 1970, South African Med. J., v. 44 (7), 167-168

bilharzia control, for rapid reduction of prevalence of parasites, molluscicides are best combined with improved hygiene and sanitation, and suppressive chemotherapy: Africa

Schistosomiasis

Shiroma, M.; et al., 1976, Rev. Hosp. Clin., S. Paulo, v. 31 (3), 151-160

human schistosomiasis, comparison between splenorenal anastomosis and splenectomy as treatment for portal hypertension of schistosomal origin, mortality and incidence of gastroesophageal hemorrhage

Schistosomiasis

Shoeb, H. A.; and El-Emam, M. A., 1976, Egypt. J. Bilharz., v. 3 (2), 157-167

screening of active chemical constituents of *Ambrosia maritima* for possible molluscicidal activity against snail vectors of human schistosomiasis

Schistosomiasis

Shoeb, S. M.; et al., 1977, Egypt. J. Bilharz., v. 4 (2), 141-148

bilharziasis, humans, diagnosis using fractionated *Fasciola gigantica* antigens for intradermal test vs. homologous *Schistosoma mansoni* antigen

Schistosomiasis

Simitzis-Le Flohic, A. M.; et al., 1977, Semaine Hop. Paris, v. 53 (22-23), 1369-1370

schistosomiasis with minor parasitism of distomiasis, ascariasis, trichocephaliasis, woman with presenting symptoms of adrenal insufficiency, cortisone therapy resulted in aggravated symptoms and asthenia, parasitism diagnosed, piperazine therapy resulted in toxic neurologic reactions, illness resolved after niridazole therapy: France (had resided in Central African Republic)

Schistosomiasis

de Sousa, M. P.; and Rouguayrol, M. Z., 1974, Rev. Brasil. Pesqui. Med. e Biol., v. 7 (4), 389-393

numerous plants native to northeastern Brazil tested for molluscicidal activity against snail vectors of human schistosomiasis

Schistosomiasis

Speiser, F.; and Weiss, N., 1979, Experientia, v. 35 (11), 1512-1514

112 sera from Europeans with parasitologically proven helminthiasis tested in enzyme-linked immunosorbent assay against 7 non-purified helminth antigens, extensive cross-reactions

Schistosomiasis

Sukkar, M. Y.; Ahmed, N. D.; and Omer, A. H. S., 1979, Ann. Trop. Med. and Parasitol., v. 73 (1), 45-49

schistosomiasis, human bilharzial liver fibrosis, abnormal pattern of growth hormone release and low fasting blood glucose levels interpreted in terms of circulatory changes associated with infection

Schistosomiasis

Taylor, M. G.; et al., 1978, Colloque Immun. Parasit. Dis. (Thiverval-Grignon, Sept. 5-9, 1977), 291-305

schistosomiasis, possibility of irradiated vaccines, colloquium presentation

Schistosomiasis

Viana, R. L.; and Martins, J., 1972, South African Med. J., v. 46 (5), 96-98

human hepatosplenic bilharzial fibrosis, hepatic arteriography, portal hypertension, post-surgical evaluations

Schistosomiasis

Voller, A., 1978, New Trends and Develop. Vaccines, 299-309

schistosomiasis, trypanosomiasis, malaria, potential and progress towards vaccines, review

Schistosomiasis

Vullo, V.; et al., 1979, Boll. Ist. Sieroterap. Milanese, v. 58 (2), 141-147

hydatidosis, amebiasis, urinary schistosomiasis, human, diagnosis, immunoperoxidase and immunofluorescence techniques compared

Schistosomiasis

Walker, A. R. P., 1977, South African Med. J., v. 51 (16), 541-544

schistosomiasis, children, health handicap in underprivileged peoples, comparative study of those with and without infection in both black and white races in Southern Africa

- Schistosomiasis**
 Wall, D.; and Gelfand, M., 1972, South African Med. J., v. 46 (40), 1479-1481
 hepatic cirrhosis including that caused by bilharziasis, clinical and histological aspects seen in Rhodesian Africans
- Schistosomiasis**
 Warren, K. S.; and Mahmoud, A. A. F., 1976, Tr. Ass. Am. Physicians, v. 89, 195-204
 schistosomiasis, humans, new approach in control measures, targeted mass treatment directed toward relatively small numbers of heavily infected individuals, successful field project carried out in village of Lower Nduu, Kenya
- Schistosomiasis**
 Wassermann, M.; et al., 1974, Rev. Soc. Brasil. Med. Trop., v. 8 (5), 271-273
 hepato-splenic schistosomiasis, statistically significant increased DDT (and its metabolites) storage in adipose tissue of infected persons when compared with normal controls, probable result of decreased metabolism and reduced excretion of its metabolites or of increased exposure since most infected persons lived near irrigation zones where the insecticide was used for intensive cultivation: Bahia, Brazil
- Schistosomiasis**
 Watts, S. D. M.; and Atkins, A. M., 1979, Biochem. Pharmacol., v. 28 (17), 2579-2584
 effects of schistosomicide 1,7-bis(p-aminophenoxy)heptane (153C51) on lysosomes and membrane stability
- Schistosomiasis**
 Woolhouse, N. M., 1979, Biochem. Pharmacol., v. 28 (16), 2413-2418
 antischistosomal drugs, biochemical and pharmacological effects in relation to mode of action
- Schistosomiasis**
 World Health Organization. Scientific Working Group on Schistosomiasis, 1978, Bull. World Health Organ., v. 56 (3), 361-369
 schistosomiasis, epidemiology and control, present situation and priorities for further research
- Schistosomiasis**
 Zeitoun, M. M.; et al., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (6), 631-636
 schistosomiasis, children in various clinical stages of hepatic fibrosis before and after treatment, serum and urinary RNase activity, possible use in evaluating early metabolic disturbances and assessing severity of cases, comparison with serum GOT, GPT, and AP
- Schizamphistomum scleroporium** (Creplin, 1844)

 Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
 description
 Parathunnus sibi
 Neothunnus macropterus
 (gills of all): all from Hawaii
- Singhiatrema longifurca** Simha, 1958
 Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
 Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
 Natrix piscator (rectum)
- Singhiatrema longifurca** Simha 1958
 Rao, K. H., 1979, Current Sc., Bangalore, v. 48 (15), 699-700 [Letter]
 Singhiatrema longifurca miracidium, description
- Siphodera** Linton, 1910
 Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
 Cryptogonimidae, Siphoderinae
- Siphoderinae** Manter, 1934
 Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
 Cryptogonimidae
 includes: Siphodera
- Siphoderoides** Manter, 1940
 Lamothe-Argumedo, R., [1973], Rev. Soc. Mexicana Hist. Nat., v. 31, 1970, 183-191
 Cryptogonimidae, Cryptogoniminae

- Skrjabinoeces similis
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Planorbis planorbis: Crimean reservoirs
- Skrjabinoeces similis
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Planorbis planorbis
Anisus spirorbis
all from Crimea
- Skrjabinoplagiorchis obensis sp. nov., illus.
Fedorov, K. P., 1976, Novye i Maloizvest. Vidy Fauny Sibiri (10), 178-182
[Ondatra zibethica] (bile ducts of liver): lake in floodplain of the rivers Ob and Parabel (Aleksandrovska and Parabel'sk regions, Tomsk oblast); lake in lower course of river Karasuk (Karasuksk region, Novosibirsk oblast)
- Skrjabinosomum Evranova
Angel, L. M.; and Pearson, J. C., 1977, Tr. Roy. Soc. South Australia, v. 101 (5-6), 115-132
generic diagnosis
Dicrocoeliidae, Dicrocoeliinae
- Skrjabinosomum sp.
Angel, L. M.; and Pearson, J. C., 1977, Tr. Roy. Soc. South Australia, v. 101 (5-6), 115-132
Microeca leucophaea (liver): Port Augusta, S. Aust.
- Skrjabinosomum mawsoni n. sp., illus.
Angel, L. M.; and Pearson, J. C., 1977, Tr. Roy. Soc. South Australia, v. 101 (5-6), 115-132
Manorina flavigula: Port Augusta
Turnix castanota: Cowell
(liver of all): all from S. Aust.
- Skrjabinosomum pomatostomi n. sp., illus.
Angel, L. M.; and Pearson, J. C., 1977, Tr. Roy. Soc. South Australia, v. 101 (5-6), 115-132
Pomatostomus superciliosus (liver): The Bunkers, Flinders Ranges, S. Aust.
- Skrjabinotrema ovis Orloff, Erschoff et Badanin, 1934, illus.
Gvozdev, E. V.; and Soboleva, T. N., 1972, Parazitologiya, Leningrad, v. 6 (5), 435-438
Skrjabinotrema ovis, life cycle, only 1 molluscan intermediate host necessary
Pupilla muscorum: Kegensk region
Vallonia costata: Kegensk region
[Ovis aries] (small intestine) (exper.)
[Leporidae] (small intestine) (exper.)
- Skrjabinus
Groschaff, J., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 81-85
Eurytrematini, key
- Skrjabinus sp.
Betterton, C., 1979, Internat. J. Parasitol., v. 9 (4), 313-320
intestinal helminths of small mammals, patterns of parasitism with respect to host ecology
Tupaia glis: Peninsular Malaysia
- Skrjabinus dichoceri Nguyen Thi Le n. sp. [?nom. nud.]
Sudarikov, V. E.; and Nguyen Thi Le, 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 188-196
Buceros bicornis: northern Vietnam
- Skrjabinus muris
Sinniah, B., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 115-121
distribution and prevalence
Rattus annandalei
R. tiomanicus
all from Peninsular Malaysia
- Spaniometra Kossack, 1911
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
Cyclocoelidae, key
- Sphaeridiotrema globulus Rud. (Cercaria helvetica XVII Dubois, 1929), illus.
Bykhovskaia, I. E. (Pavlovskaia); and Kulakova, A. P., 1971, Parazitologiya, Leningrad, v. 5 (3), 222-232
Bithynia tentaculata: Kurish Gulf
- Sphaeridiotrema globulus (Rudolphi, 1819) Odhner, 1913
Sulgostowska, T.; and Grytner-Ziecina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (ileum, duodenum, jejunum): Baltic Coast, Gdansk Province, Poland
- Sphaerostoma bramae, illus.
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Sphaerostoma bramae (Mueller)
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[Pelecus cultratus] (urinary bladder): Kamsk reservoir
- Sphaerostoma bramae (Mueller)
Iziumova, N. A.; Mashtakov, A. V.; and Timoshchikina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[Abramis brama]: Chusovaia river; Kamsk reservoir
- Sphaerostoma bramae Mueller
Mashtakov, A. V.; et al., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 68-71
[Abramis brama]
[Rutilus rutilus]
(intestine of all): all from Votkinsk reservoir
- Sphaerostomum bramae sensu Kozicka 1953
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of Sphaerostomum globiporum (Rud., 1802) Szidat, 1944 nec Looss 1899, partim

- Sphaerostomum bramae*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Abramis ballerus
Blicca bjoercna
all from Dabie lake, Poland
- Sphaerostomum globiporum* (Rud., 1802) Szidat, 1944 nec Looss, 1899 p.p.
Rokiński, J., 1970, Acta Parasitol. Polon., v. 18 (1-12), 71-79
Vimba vimba (intestine): River Vistula, Poland
- Sphaerostomum globiporum* (Rud., 1802) Szidat, 1944 nec Looss 1899, partim
Rokiński, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
synonymy
Coregonus lavaretus
Leuciscus idus
(intestine of all): all from Gdansk Bay (Baltic Sea)
- Sphaerostomum globiporum*
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Blicca bjoercna
all from Dabie lake, Poland
- Sphaerostomum maius* Janiszewska, 1949
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
Vimba vimba
Blicca bjoercna
(intestine of all): all from Gdansk Bay (Baltic Sea)
- Sphincterostomum Oshmarin*, Mammaev, and Parukhin, 1961
Nasir, P.; and Gomez, Y., 1977, Riv. Parasitol., Roma, v. 38 (1), 53-73
as syn. of *Diploproctodaeum* La Rue, 1926
- Sphincterodiplostomulum*
Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
[this name used under the heading "Genus *Sphincterodiplostomum* Dubois, 1936", apparently being proposed here for larval forms]
- Sphincterodiplostomulum musculosum* Dubois, 1936, illus.
Szidat, L., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 753-786
[this species described under the heading "Genus *Sphincterodiplostomum* Dubois, 1936"]
Hoplias malabaricus (unencysted in orbit of eye): Laguna Salta La Vieja, Chaco Province, Argentina
- Spinometra thapari* n. sp., illus.
Agrawal, N., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (6), 424-426
Kachuga kachuga (intestine): Lucknow, India
- Spinuris mexicana* sp. nov., illus.
Bravo-Hollis, M., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (2), s. Zool., 1969, 161-178
Rhinobatos glaucostigma (branquias): Mazatlan, Sinaloa
- Spirorchis* sp., illus.
Appy, R. G.; and Dadswell, M. J., 1978, Canad. J. Zool., v. 56 (6), 1382-1391
Acipenser brevirostrum (mesenteric blood vessels): Saint John River estuary, N.B., Canada
- Spirorchis scripta* Stunkard, 1923
Turner, H. M.; and Corkum, K. C., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 225-226
Ferrissia fragilis: southeastern Louisiana
Chrysemys scripta (exper.) (hearts, arteries, veins)
- Squalonchocotyle rajae* sp. n., illus.
Brinkmann, A., jr., 1971, Parazitologija, Leningrad, v. 5 (6), 532-538
Raja smirnovi
R. rosispinis
Breviraja isotrachys
(gills of all): all from Okhotsk Sea, west of Sakhalin Island
- Srivastavaia indica*
Nizami, W. A.; and Siddiqi, A. H., 1978, Ann. Trop. Med. and Parasitol., v. 72 (6), 589-590
4 digenetic trematodes, effects of metabolic inhibitors and stimulators on oxygen uptake
- Srivastavaia indica*
Nizami, W. A.; Siddiqi, A. H.; and Waseemul Islam, M., 1977, Ztschr. Parasitenk., v. 52 (3), 275-280
digenetic trematodes, comparative quantitative studies of acetylcholinesterase in seven species, higher quantities in species inhabiting gastrointestinal tract than in those parasitizing liver or swimbladder, apparently a biochemical adaptation to counteract peristalsis
- Srivastavaia indica*
Yusufi, A. N. K.; and Siddiqi, A. H., 1978, Ztschr. Parasitenk., v. 56 (1), 47-53
Gastrothylax crumenifer, *Srivastavaia indica*, *Isoparorchis hypselobagri*, carbohydrate metabolism and enzyme studies suggest possible existence of pentosephosphate pathway and capacity for gluconeogenesis
Bubalus bubalis (rumen)
- Staphyllorchis* Travassos, 1920
Lamothe-Argumedo, R., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (2), s. Zool., 1969, 179-194
Anaporrhutinae, key
- Steganoderma formosum* Stafford, 1904
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
synonymy
Hippoglossus hippoglossus (intestine, stomach): St. Pierre Bank and Banquereau, eastern seaboard of Canada
Myoxocephalus octodecemspinosus (intestine): Sable Island Bank, eastern seaboard of Canada
M. scorpius (intestine): Green Bank, eastern seaboard of Canada

- Steganoderma formosum* (Stafford, 1904)
Threlfall, W., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 805-811
Squalus acanthias: Newfoundland
- Steganoderma messjatzevi* (Issaitchikov) Yamaguti, 1934
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Steganoderma formosum* Stafford, 1904
- Steganoderma pycnorganum* Rees, 1953
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Deretrema pycnorganum* (Rees, 1953) Yamaguti, 1958
- Steganoderma spinosa* Polyansky, 1955
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Deretrema pycnorganum* (Rees, 1953) Yamaguti, 1958
- Steganodermatoides* gen. n.
Parukhin, A. M.; and Liadov, V. N., 1979, Zool. Zhurnal, v. 58 (5), 637-642
Steganodermatidae
tod: *Steganodermatoides kergeleni* sp. n.
- Steganodermatoides kergeleni* sp. n. (tod), illus.
Parukhin, A. M.; and Liadov, V. N., 1979, Zool. Zhurnal, v. 58 (5), 637-642
Melanostigma microphtalmus (intestine, stomach): region of Kergelen islands, Subantarctic zone of Indian Ocean
- Stellantchasmus falcatus* Onji & Nishio, 1916, illus.
Singh, A. P.; Noda, K.; and Andrade, N., 1977, J. Arizona Acad. Sc., v. 12 (3), 111-120
Stellantchasmus falcatus, cercariae, fine structure of tegument and secretory cells
- Stellantchasmus falcatus*, illus.
Singh, A. P.; Noda, K.; and Lim, D., 1977, J. Arizona Acad. Sc., v. 12 (1), 23-28
Stellantchasmus falcatus, cercariae, fine structure of secretory vesicle
- Stellantchasmus falcatus*, illus.
Tantachamrun, T.; and Kliks, M., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (2), 228-231
Stellantchasmus falcatus, human (terminal ileum), 3 case reports: Thailand
- Stenakron* sp. innom., illus.
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
description
Triglops murrayi (intestine): Grand Bank, eastern seaboard of Canada
- Stenakron ovacutus* (Lebour) Strelkov, 1960
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Steringotrema ovacutum* (Lebour, 1908) Yamaguti, 1953
- Stenakron problematicum* (Issaitschikov) Mamaev, Parukhin and Baeva, 1963
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Stenakron vetustum* Stafford, 1904
- Stenakron quadrilobatum* (Bazikalova) Yamaguti, 1971
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
as syn. of *Stenakron vetustum* Stafford, 1904
- Stenakron vetustum* Stafford, 1904
Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
synonymy
Careproctus reinhardti (intestine): Hamilton Inlet Bank and Grand Bank, eastern seaboard of Canada
Hemitripterus americanus (intestine): Sable Island Bank, eastern seaboard of Canada
Hippoglossoides platessoides (intestine): Sable Island Bank, eastern seaboard of Canada
H. hippoglossus (intestine): Hamilton Inlet Bank, eastern seaboard of Canada
Limanda ferruginea (intestine): Sable Island Bank and Grand Bank, eastern seaboard of Canada
Lumpenus lampraeformis (intestine): Hamilton Inlet Bank, eastern seaboard of Canada
Lycodes vahli (intestine): Grand Bank and Funk Island Bank, eastern seaboard of Canada
Reinhardtius hippoglossoides (intestine): Hamilton Inlet Bank, eastern seaboard of Canada
- Stenopera* Manter, 1933
Hafeezullah, M., 1971, Acta Parasitol. Polon., v. 19 (9-18), 133-139
as syn. of *Helicometra* Odhner, 1902
- Stenopera equilata* Manter, 1933
Fischthal, J. H., 1978, Zool. Scripta, v. 7 (1), 13-18
digenetic trematodes of marine fishes, allometric growth, diagnostic usefulness in taxonomic studies
Holocentrus ascensionis: Drowned Cays, off coast of Belize
- Stephanochasmus baccatus* Nicoll, 1907, illus.
Somerville, C., 1978, J. Fish Dis., v. 1 (3), 219-232
Stephanochasmus baccatus in *Buccinum undatum* (digestive gland), occurrence of 2 types of lesions, histopathology: Loch Ewe area, West Coast of Scotland
- Stephanopharynx compactus*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, J. Helminth., v. 53 (3), 251-252
Kobus leche (reticulum, omasum): Lochinvar National Park, Zambia
- Stephanopharynx compactus*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, J. Nat. Hist., v. 13 (4), 499-506
Kobus leche kafuensis (reticulum, omasum): Lochinvar National Park, Zambia
- Stephanoprora* sp.
Combes, C.; and Theron, A., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 141-150
trematodes, periodicity of cercarial emission, types of rhythms and factors synchronizing them, adaptive value in completion of life cycle, potential use in prevention of human and animal infection
- Stephanoprora mergi* Cannon, 1938
Bain, G. A.; and Threlfall, W., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 219-221
Lophodytes cucullatus (posterior small intestine, large intestine): Ontario
- Stephanoprora mergi* Cannon, 1938
Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Anas rubripes (small intestine): Canada

- Stephanostomoides dorabi Mamaev et Oshmarin, 1966, *illus.*
Gupta, V.; and Ahmad, J., [1978], *Riv. Parasitol.*, Roma, v. 38 (2-3), 1977, 181-191
description
Chirocentrus dorab (intestine): Bay of Bengal, at Puri, Orissa, India
- Stephanostomum sp.
Gu. C.; and Shen, J., 1978, *Tung Wu Hsueh Pao (Acta Zool. Sinica)*, v. 24 (2), 170-178
Lateolabrax japonicus: along coast of China Sea
- Stephanostomum sp.
Meyers, T. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 120-128
Paralichthys dentatus (gill filaments, heart ventricle): Raritan Bay, New Jersey
- Stephanostomum sp. larvae
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 67-79
Trachurus mediterraneus (gill cavity): Adriatic Sea; Mediterranean Sea
T. mediterraneus ponticus: Mediterranean basin
- ?Stephanostomum sp.
Williams, H. H.; McVicar, A. H.; and Ralph, R., 1970, *Symposia Brit. Soc. Parasitol.*, v. 8, 43-77
Gadus morhua (pyloric caeca, fore-gut): Scottish waters
- Stephanostomum baccatum (Nicoll, 1907) Manter, 1947
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
synonymy
Hemitripterus americanus (intestine): Sable Island Bank, eastern seaboard of Canada
Myoxocephalus octodecemspinosus (intestine): Sable Island Bank, eastern seaboard of Canada
- Stephanostomum baccatum, *illus.*
MacKenzie, K.; and Gibson, D. I., 1970, *Symposia Brit. Soc. Parasitol.*, v. 8, 1-42
Stephanostomum baccatum, incidence and intensity, distribution in tissues, life history studies
Pleuronectes platessa (somatic tissues and viscera)
Trigla gurnardus (intestine) (nat. and exper.)
T. lucerna (intestine) (nat. and exper.)
Cottus scorpius (intestine) (nat. and exper.)
Limanda limanda
all from Scotland
- Stephanostomum bicoronatum
Naidenova, N. N., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 46-51
larval form, intensity of infestation
Gobius melanostomus
G. niger
G. cobitis
all from Black Sea [and/or] Azov Sea
- Stephanostomum caducum (Looss 1901) Manter 1934, *illus.*
Køie, M., 1978, *Ophelia*, v. 17 (1), 121-133
Stephanostomum caducum, morphology and life history
Natica alderi: north-east Øresund; north of Laesø
Gobiusculus flavescens (exper.)
Pomatoschistus minutus (nat. and exper.) (mouth): Øresund; Gullmar Fjord, western Sweden
P. pictus (nat. and exper.) (mouth): Gullmar Fjord, western Sweden
Gadus morhua (nat. and exper.) (pyloric caeca, intestine): Øresund; Gullmar Fjord, western Sweden
- Stephanostomum dentatum Linton, 1900
Meyers, T. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 120-128
Paralichthys dentatus (intestine): Raritan Bay, New Jersey
- Stephanostomum ditrematis (Yamaguti, 1939) Manter, 1947
Parukhin, A. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Seriola nigrofasciata
S. dumerili
Chorinemus lysan
all from South China Sea
- Stephanostomum hispidum (Yamaguti, 1934) Manter, 1940
Parukhin, A. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Seriola nigrofasciata: South China Sea
- Stephanostomum imparispine (Linton, 1905) Manter, 1940
Parukhin, A. M., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Seriola nigrofasciata: South China Sea
- Stephanostomum lopezneyrai Perez Vigueras, 1955, *illus.*
Gupta, N. K.; and Miglani, A., 1976, *Rev. Iber. Parasitol.*, v. 36 (3-4), 219-248
description
fish, marine teleost (intestine): Port Blair (Andaman and Nicobar Islands), India
- Stephanostomum pristis Looss
Shotter, R. A., 1976, *J. Fish Biol.*, v. 8 (2), 101-117
Merlangius merlangus (stomach, caeca, intestine): Manx waters near Isle of Man and/or Morecambe Bay, N.W. coast of England
- Stephanostomum pristis
Williams, H. H.; McVicar, A. H.; and Ralph, R., 1970, *Symposia Brit. Soc. Parasitol.*, v. 8, 43-77
Gadus morhua (pyloric caeca): Scottish waters
- Steringophorus agnotus (Nicoll, 1909) Dollfus, 1952
Bray, R. A., 1979, *J. Nat. Hist.*, v. 13 (4), 399-431
synonymy
Anarhichas lupus (intestine): St. Pierre Bank, eastern seaboard of Canada

- Stringophorus furciger* (Olsson, 1868) Odhner, 1905
 Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
 synonymy
Anarhichas minor (intestine): Funk Island Bank, eastern seaboard of Canada
Glyptocephalus cynoglossus (intestine): Funk Island Bank, Hamilton Inlet Bank, St. Pierre Bank, and Banquereau, eastern seaboard of Canada
Hippoglossoides platessoides (intestine): Grand Bank and Green Bank, eastern seaboard of Canada
Limanda ferruginea (intestine): Sable Island Bank, eastern seaboard of Canada
Myoxocephalus octodecemspinosus (intestine): Sable Island Bank, eastern seaboard of Canada
Urophycis tenuis (intestine): St. Pierre Bank, eastern seaboard of Canada
- Stringophorus furciger* (Olsson, 1868) Odhner, 1905, illus.
 Kjøie, M., 1979, Ophelia, v. 18 (1), 113-132
Stringophorus furciger, life cycle, cercariae redescribed, morphology of developmental stages, scanning electron microscopy
Nuclana minuta: Oresund and off Godhavn, western Greenland
Limanda limanda (nat. and exper.): Oresund, western Greenland
Platichthys flesus (exper.)
Pleuronectes platessa (nat. and exper.): Oresund, western Greenland
Buccinum undatum (exper.)
Neptunea antiqua (exper.)
Hippoglossoides platessoides: Oresund and Disco Bay, western Greenland
Myoxocephalus scorpius: Disco Bay, western Greenland
- Stringophorus ovacutus* Lebour, 1908
 Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
 as syn. of *Stringotrema ovacutum* (Lebour, 1908) Yamaguti, 1953
- Stringotrema ovacutum* (Lebour, 1908) Yamaguti, 1953
 Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
 synonymy
Anarhichas lupus (intestine): Funk Island Bank, eastern seaboard of Canada
Hippoglossoides platessoides (intestine): Funk Island Bank, Hamilton Inlet Bank, Green Bank, St. Pierre Bank, Banquereau, and Grand Bank, eastern seaboard of Canada
Lycodes vahli (intestine): Funk Island Bank, eastern seaboard of Canada
- Stringotrema* (*Rhodotrema*) *quadrilobatum* (Bazikalova) Yamaguti, 1953
 Bray, R. A., 1979, J. Nat. Hist., v. 13 (4), 399-431
 as syn. of *Stenakron vetustum* Stafford, 1904
- Sterrhurus carpentariae* nov. sp., illus.
 Bush, A. O.; and Holmes, J. C., 1979, Internat. J. Parasitol., v. 9 (3), 189-192
Lapemis hardwickii (stomach): eastern Gulf of Carpentaria, Australia
- Stichorchis myopotami* Pacheco & Artigas, 1932 nom. nud.
 Pereira, R. C. S., 1968, Atas Soc. Biol. Rio de Janeiro, v. 12 (3), 161-163
 as syn. of *Chiostichorchis waltheri* (Sprehn, 1932) Travassos, 1934
- Stichorchis myopotami* Artigas & Pacheco, 1933
 Pereira, R. C. S., 1968, Atas Soc. Biol. Rio de Janeiro, v. 12 (3), 161-163
 as syn. of *Chiostichorchis waltheri* (Sprehn, 1932) Travassos, 1934
- Stichorchis subtriquetrus* (Rudolphi), illus.
 Bakke, T. A., 1978, Fauna, Oslo, v. 31 (2), 128-130
 Castor fiber: Selasvatnet, Amlie, Norway
- Stichorchis subtriquetrus* (Rudolphi, 1814)
 Iushkov, V. Iu., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 232-248
 Castor fiber (caecum, large intestine): Komi ASSR
- Stichorchis subtriquetrus*
 Odening, K.; Bockhardt, I.; and Graefner, G., 1979, Zool. Jahrb., Jena, Abt. Syst., v. 106 (2), 214-241
 key
- Stichorchis subtriquetrus*
 Ogburn-Cahoon, H.; and Nettles, V. F., 1978, J. Parasitol., v. 64 (5), 812
 Castor canadensis (gastrointestinal tract): Louisa County, Virginia
- Stichorchis waltheri* Sprehn, 1932
 Pereira, R. C. S., 1968, Atas Soc. Biol. Rio de Janeiro, v. 12 (3), 161-163
 as syn. of *Chiostichorchis waltheri* (Sprehn, 1932) Travassos, 1934
- Stictodora lari*
 Walter, J. C., 1979, Internat. J. Parasitol., v. 9 (2), 137-140
Austrobilhariza terrigalensis in *Velacumantus australis* is always associated with germinal sacs of other trematodes and retards the development of these other species
- Stictodora ubelakeri* Dailey, 1969
 Pearson, J. C., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 289-294
 as syn. of *Galactosomum ubelakeri* n. comb.
- Stomachicola Yamaguti*, 1934
 Gupta, V.; and Ahmad, J., 1978, Acta Parasitol. Polon., v. 25 (21-35), 211-215
 key to species, includes: *S. secundus* Srivastava, 1939; *S. rauschi* sp. n.; *S. mastacembeli* Verma, 1973; *S. singhi* sp. n.; *S. rubea* Linton, 1910; *S. muraenesocis* Yamaguti, 1934
- Stomachicola rauschi* sp. n., illus.
 Gupta, V.; and Ahmad, J., 1978, Acta Parasitol. Polon., v. 25 (21-35), 211-215
 key
Chirocentrus dorab (stomach): Bay of Bengal, at Puri, Orissa, India
- Stomachicola singhi* sp. n., illus.
 Gupta, V.; and Ahmad, J., 1978, Acta Parasitol. Polon., v. 25 (21-35), 211-215
 key
Acanthurus triostegus (stomach): Bay of Bengal, at Puri, Orissa, India

- Stomylotrema vicarium* Braun, 1901, illus.
Ostrowski de Nunez, M., 1978, Ang. Parasitol., v. 19 (4), 208-213
Stomylotrema vicarium, life cycle, excretory system described
Megadytes glauca (Leibeshohle): Lujan-Flusses, Ortschaft Zelaya, Provinz Buenos Aires, Argentinien
Hühnerküken (exper.)
Belonopteris cayennensis (exper.) (Kloake)
- Strigea* Abildgaard, 1790
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
key to species, includes: *Strigea rhodesiensis* Bisseru, 1956; *S. vaginata* (Brandes, 1888) Szidat, 1928; *S. gracilicollis* Dubois et Fain 1956; *S. caryophyllia* (Diesing, 1850) Mathias, 1925; *S. vandenbroekae* Dubois, 1966; *S. nugax* Szidat, 1928; *S. infundibuliformis* Dubois, 1934; *S. pseudibis* Odening, 1962; *S. vermai* n. sp.; *S. strigis* (Schrank, 1788) Abildgaard, 1790; *S. bulbosa* (Brandes, 1888) Szidat, 1928; *S. caluri* Dubois, 1962; *S. gruis* Dubois et Rausch, 1964; *S. intermedia* Szidat, 1932; *S. sphaerula*; *S. s. sphaerula* (Rudolphi, 1803) Mathias, 1925; *S. sphaerula macroscicya* Dubois et Rausch, 1950; *S. sphaerocephala* (Westrumb, 1923 nec Brandes, 1888) Dubois, 1937; *S. neotidis* Bissern, 1956; *S. flosculus* Nicoll, 1914; *S. plegadis* Dubinin, 1938; *S. baylisi* Dubois, 1937; *S. nicolli* Dubois, 1937; *S. macroconophora* Dubois et Rausch, 1950; *S. cuncumae* Bisseru, 1956; *S. macropharynx* Dubois et Rausch, 1965; *S. orientalis* Vidyarthi, 1937; *S. kashipurensis* n. sp.; *S. sarcogyponis* (Vidyarthi, 1937) Dubois 1966; *S. thapari* n. sp.; *S. neophronis* Vidyarthi, 1937; *S. lilensis* Bisseru, 1956; *S. glandulosa* Dubois, 1937; *S. falconis*; *S. f. falconis* Viborg, 1795-Szidat, 1928; *S. falconis mcgregori* Tubangui, 1932; *S. falconis brasiliana* Szidat, 1929; *S. elliptica* (Brandes, 1888) Szidat, 1928; *S. elegans* Chandler et Rausch, 1947; *S. promiscua* Nicoll, 1914; *S. anhingae* Ukoli, 1968)
- Strigea* sp.
Davidson, W. R.; et al., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 156-161
Bonasa umbellus: Michigan
- Strigea aquavis* Guberlet, 1922
Odening, K., 1979, Ann. Parasitol., v. 54 (2), 171-183
as syn. of *Ichthyocotylurus erraticus* (Rudolphi, 1809)
- Strigea baylisi* Dubois, 1937
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
Threskiornis molucca
Platalea flavipes
(intestine of all): all from Tailem Bend, South Australia
- Strigea elegans* Chandler and Rausch, 1947
Ramalingam, S.; and Samuel, W. M., 1978, Canad. J. Zool., v. 56 (11), 2454-2456
Bubo virginianus (intestine): Alberta, Canada
- Strigea falconis* Szidat in Gogate, 1940
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
as syn. of *Strigea nephronis* Vidyarthi, 1937
- Strigea flosculus* Nicoll, 1914, illus.
Dubois, G., 1978, Bull. Soc. Neuchatel. Sc. Nat., 3. s., v. 101, 65-68
redescription
Podargus strigoides (intestin grele): Australie (Queensland)
- Strigea glandulosa* Dubois, 1937
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
synonymy, description
Circus approximans: Tailem Bend
Haliastur sphenurus: Tailem Bend
Falco subniger: Meningie
(intestine of all): all from South Australia
- Strigea glandulosa* Dubois, 1937, illus.
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
synonymy, key, description
Aquila rapax (small intestine): Taradevi, Simla hills, Himachal Pradesh, India
- Strigea kashipurensis* n. sp., illus.
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
key
Neophron percnopterus ginginianus (small intestine): Kashipur, U. P., India
- Strigea nephronis* Vidyarthi, 1937, illus.
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
synonymy, key, description
Milvus migrans (small intestine): Simla hills, Himachal Pradesh, India
- Strigea nicolli* (Dubois, 1937)
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
synonymy, brief description
Gymnorhina tibicen (duodenum, intestine): Canberra, A.C.T.
- Strigea orientalis* Vidyarthi, 1937, illus.
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
key, description
Aquila rapax (small intestine): Simla hills, Himachal Pradesh, India
- Strigea promiscua* Nicoll, 1914
Dubois, G.; and Angel, L. M., 1972, Tr. Roy. Soc. South Australia, v. 96 (4), 197-215
description
Ninox novaeseelandiae: Yalkuri, South Australia
N. strenua: Eidsvold, Queensland
(intestine of all)
- Strigea sarcogyponis* (Vidyarthi, 1937) Dubois, 1966, illus.
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
synonymy, key, description
Accipiter badius (small intestine): Chandigarh, India
- Strigea sphaerula* (Rudolphi) Mathias, 1925
Gupta, N. K.; and Mishra, P. N., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 1-34
as syn. of *Strigea sphaerula sphaerula* (Rudolphi, 1803) Mathias, 1925

- Strigea sphaerula sphaerula* (Rudolphi, 1803) Mathias, 1925, *illus.*
Gupta, N. K.; and Mishra, P. N., 1976, *Rev. Iber. Parasitol.*, v. 36 (1-2), 1-34
synonymy, key, description
Milvus migrans (small intestine): Kulu Valley, Himachal Pradesh, India
- Strigea thapari* n. sp., *illus.*
Gupta, N. K.; and Mishra, P. N., 1976, *Rev. Iber. Parasitol.*, v. 36 (1-2), 1-34
key
Accipiter badius (small intestine): Panjab University Campus, Chandigarh, India
- Strigea vermai* n. sp., *illus.*
Gupta, N. K.; and Mishra, P. N., 1976, *Rev. Iber. Parasitol.*, v. 36 (1-2), 1-34
key
Elanus coeruleus vociferus (small intestine): Chandigarh, India
- Strigeata*
Shigin, A. A., 1974, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 24, 220-232
Strigeata, description and taxonomic significance of cercarial sensory apparatus, distribution of sensillae
key to genera based on cercarial sensory apparatus
- Strigeid*
Wright, C. A.; Rollinson, D.; and Goll, P. H., 1979, *Parasitology*, v. 79 (1), 95-105
Bulinus senegalensis and associated parasites, isoelectric focusing studies on enzymes, differences in prevalence and variety of infections in 7 host populations: south bank of Gambia River
- Strigeid*
Wright, C. A.; Southgate, V. R.; and Howard, G. W., 1979, *J. Nat. Hist.*, v. 13 (4), 499-506
Bulinus forskali: Lochinvar National Park, Zambia
- Strigeidae* gen. sp. (metacercaria)
Konovalov, S. M.; Shevliakov, A. G.; and Krasin, V. K., 1970, *Parazitologiya, Leningrad*, v. 4 (6), 547-556
parasite fauna of various groups of young *Oncorhynchus nerka*, comparative analysis reveals 3 ecological groups: Lake Azabach'e, Kamchatka river basin
- Strigeidae* [sp.]
Venkata Rama Krishna, G.; and Simha, S. S., 1977, *Comp. Physiol. and Ecol.*, v. 2 (4), 242-244
larval trematodes, depletion of carbohydrate reserves in *Lymnaea luteola* f. *typica*: Kakatiya Univ., Warangal, A. P., India
- Strigeidida* (La Rue, 1926)
Niewiadomska, K., 1970, *Acta Parasitol. Polon.*, v. 18 (13-26), 277-289
Strigeidida, analysis of criteria for generic differentiation at the stage of cercaria, metacercaria, and adult
- Stromitrema khairabadensis* n. sp., *illus.*
Ahmad, J., 1979, *Geobios*, v. 6 (3), 122-123
Himantopus himantopus (gall bladder): Khairabad, U.P.
- Styphlotrema solitaria* (Looss, 1899) Odhner, 1911, *illus.*
Groschaff, J.; Coy Otero, A.; and Tenora, F., 1977, *Acta Univ. Agric., Fac. Agronom., Brno*, v. 25 (4), 155-167
synonymy, description
Eretmochelys i. imbricata (oesophagus, stomach, intestine): Gulf of Guanahacabibes, Cuba
- Swingleus Rogers, 1969
Kritsky, D. C.; and Thatcher, V. E., 1977, *Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico*, 53-60
Gyrodactylidae
key
- Synaptobothrium* sp.
Meyers, T. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 120-128
Paralichthys dentatus
Pomatomus saltatrix
(stomach of all): all from Raritan Bay, New Jersey
- Synaptobothrium caudiporum* (Rud., 1819) Linstow, 1904
Nikolaeva, V. M., 1966, *Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR*, s. Biol. Moria, 52-66
Arnoglossus laterna
A. ruppeli
Rhomboidichthys podas
Eucitharus linguatula
Trygon pastinaca
all from Mediterranean Sea [and/or] Adriatic Sea
- Synaptobothrium caudiporum* (Rud., 1819) Linstow, 1904
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, *Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR*, s. Biol. Moria, 67-79
Trachurus mediterraneus ponticus: Mediterranean basin
- Syncoelicotyle* gen. n. (type genus of subfam.)
Mamaev, Iu. L.; and Zubchenko, A. V., 1978, *Zool. Zhurnal*, v. 57 (8), 1131-1139
Microcotylidae, *Syncoelicotylinae* subfam. n. tod: *S. polyorchis* sp. n.
- Syncoelicotyle polyorchis* sp. n. (tod), *illus.*
Mamaev, Iu. L.; and Zubchenko, A. V., 1978, *Zool. Zhurnal*, v. 57 (8), 1131-1139
Notacanthus nasus (gills): northern section of Atlantic Ocean, region of underwater ridge of Reykjanes
- Syncoelicotylinae* subfam. n.
Mamaev, Iu. L.; and Zubchenko, A. V., 1978, *Zool. Zhurnal*, v. 57 (8), 1131-1139
Microcotylidae
type genus of subfam.: *Syncoelicotyle* gen. n.
- Syncoelium* Looss, 1899
Lebedev, B. I., 1968, *Gel'mint. Zhivot. Tikhogo Okeana (Skriabin)*, 65-71 [For author reference see Supplement 22, Part 1]
Syncoelinae

- Syncoelium filiferum*
Rohde, K., 1978, Biol. Zentralbl., v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Katsuwonus pelamis
Arripis trutta
Serirolella brama
- Syncoelium katuwo*
Olson, R. E., 1978, Calif. Fish and Game, v. 64 (2), 117-120
Oncorhynchus kisutch (gills): Pacific Ocean off Newport, Oregon
- Syncoelium thyrstitae* (Crowcroft, 1948) Yamaguti, 1953, illus.
Kagei, N.; Kihata, M.; and Asano, K., 1977, Bull. Inst. Pub. Health, Tokyo, v. 26 (1), 1-13
description
Thyrstites atum (gill): shore of Island of Banks, New Zealand
- Szidatia* Dubois, 1938
Dubois, G., 1979, Ann. Parasitol., v. 54 (1), 39-42
Prohemistomidae, Szidatinae
key
- Szidatinae* Dubois, 1938
Dubois, G., 1979, Ann. Parasitol., v. 54 (1), 39-42
Prohemistomidae
diagnosis emended; key to genera; includes: *Szidatia*; *Serpentostephanus*; *Mesostephanoides*; *Gogatea*
Syn.: *Gogatinae* Mehra, 1947
- Tagia Sproston*, 1946
Nagibina, L. F.; and Obodnikova, V. A., 1971, Parazitologia, Leningrad, v. 5 (2), 172-178
Tagia gempylli, description of clamps, results indicate *Tagia* is valid genus but should be referred to *Diclidophoridae* and subfamily *Tagiinae* is invalid

Telorchis sp., new record of intramiracidial redia
Kachuga kachuga (intestine)
- Telorchis* sp.
Esch, G. W.; Gibbons, J. W.; and Bourque, J. E., 1979, J. Parasitol., v. 65 (4), 624-632
enteric helminths in *Chrysemys s. scripta* from various habitats, prevalence, densities, host variables (plastron length, small intestine length, weight), monthly changes: Savannah River Plant, near Aiken, South Carolina
- Telorchis* sp. A
Esch, G. W.; Gibbons, J. W.; and Bourque, J. E., 1979, J. Parasitol., v. 65 (4), 633-638
enteric helminths in *Chrysemys s. scripta* from variety of habitats, species diversity and mean number of parasite species per host, relationship of various life history strategies of helminth parasites and predictability (or stability) of local environmental conditions: Savannah River Plant, near Aiken, South Carolina
- Telorchis* sp. B
Esch, G. W.; Gibbons, J. W.; and Bourque, J. E., 1979, J. Parasitol., v. 65 (4), 633-638
enteric helminths in *Chrysemys s. scripta* from variety of habitats, species diversity and mean number of parasite species per host, relationship of various life history strategies of helminth parasites and predictability (or stability) of local environmental conditions: Savannah River Plant, near Aiken, South Carolina
- Telorchis* sp.
Fleming, W. J.; Dixon, C. F.; and Lovett, J. W., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 131-135
Lutra canadensis (small intestine): Alabama
- Telorchis* sp.
Kagei, N.; and Kifune, T., 1978, Snake, v. 9 (2), 87-90
Geoclemys reevesii (intestine): Takamatsu-City, Kagawa Prefecture, Japan
- Telorchis attenuatus*
McIlraith, S. M., 1979, J. Parasitol., v. 65 (2), 326-327
Telorchis attenuatus, technique for periodic collection of emerging cercariae from snail hosts
- Telorchis corti* Stunkard 1915
Rosen, R.; and Marquardt, W. C., [1979], J. Parasitol., v. 64 (6), 1978, 1148-1149
Pseudemys scripta elegans (small intestine): Lake Conway, Faulkner County, Arkansas
- Telorchis dhongokii* Mehra et Bokhari, 1932
Sharma, P. N., [1978], Riv. Parassitol., Roma, v. 38 (2-3), 1977, 233-245
intestinal trematodes from various vertebrates, hydrolytic enzymes, distribution in parasite gut, functional significance

- Telorchis dhongokii* Mehra et Bokhari, 1932
Sharma, P. N., 1979, Indian J. Exper. Biol., v. 17 (5), 479-483
10 digenetic trematodes, histochemical localization of glycogen, lipids, proteins, and phosphatases in parenchyma and other tissues Kachuga dhongoka
- Telorchis diminutus* Stunkard 1915
Rosen, R.; and Marquardt, W. C., [1979], J. Parasitol., v. 64 (6), 1978, 1148-1149
Pseudemys scripta elegans (small intestine):
Lake Conway, Faulkner County, Arkansas
- Telorchis ercolani*
Ginetsinskaia, T. A.; et al., 1971, Parazitologia, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Telorchis medius*
Esch, G. W.; Gibbons, J. W.; and Bourque, J. E., 1979, J. Parasitol., v. 65 (4), 624-632
enteric helminths in *Chrysemys s. scripta* from various habitats, prevalence, densities, host variables (plastron length, small intestine length, weight), monthly changes: Savannah River Plant, near Aiken, South Carolina
- Telorchis singularis* (Bennett 1935) Wharton 1940
Rosen, R.; and Marquardt, W. C., [1979], J. Parasitol., v. 64 (6), 1978, 1148-1149
Pseudemys scripta elegans (small intestine):
Lake Conway, Faulkner County, Arkansas
- Telorchis solivagus* (Odhner, 1902), illus.
Mishra, G. S.; and Gonzalez, J. P., 1978, Arch. Inst. Pasteur Tunis, v. 55 (3), 303-326
Clemmys caspica leprosa (intestin posterior):
Tunisie
- Telorchis stunkardi* Chandler, 1923
Brooks, D. R.; and Fusco, A. C., 1978, J. Mississippi Acad. Sc., v. 23, 95-99
Amphiuma tridactylum: New Orleans, Louisiana
- Telorchis temimi* nov. sp., illus.
Gonzalez, J. P.; and Mishra, G. S., 1977, Arch. Inst. Pasteur Tunis, v. 54 (1-2), 29-38
Clemmys caspica var. *leprosa* (intestin posterior): Oued Leban (Gouvernorat de Nabeul, Delegation de Kelibia, localite de Menzel Temime)
- Telorchis temimi* Gonzalez et Mishra, 1977, illus.
Mishra, G. S.; and Gonzalez, J. P., 1978, Arch. Inst. Pasteur Tunis, v. 55 (3), 303-326
Clemmys caspica leprosa: Tunisie
- Telorchynchus* [sic] Crowcroft, 1947
Kohn, A., 1971, Atas Soc. Biol. Rio de Janeiro, v. 14 (3-4), 65-66
Prosorhynchidae, Allicorninae
- Tergestia* (Theledera) *karachiense* sp. n., illus.
Bilqees, F. M., 1978, Zool. Scripta, v. 7 (4), 255-256
Stromateus sinensis (intestine): Karachi coast, Pakistan
- Tergestia laticollis* (Rud., 1819) Stossich, 1899
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, Republik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 67-79
Trachurus mediterraneus (intestine): Mediterranean Sea
T. mediterraneus ponticus: Mediterranean basin
- Tergestia laticollis* (Rud., 1819) Stossich, 1899
Parukhin, A. M., 1966, Republik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Megalaspis cordyla
Selar malam
Selaroides leptolepis
Decapterus sp. 4
Caranx sp.
Selar crumenophthalmus
all from South China Sea
- Terminoisocoelium* gen. nov.
Gu, C.; and Shen, J., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 170-178
Acanthostomidae, Isocoeliinae
key; tod: *T. laterolecithale* gen. nov. et sp. nov.
- Terminoisocoelium laterolecithale* gen. nov. et sp. nov. (tod), illus.
Gu, C.; and Shen, J., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (2), 170-178
Lateolabrax japonicus: along coast of China Sea
- Tetracotyle* sp. I
Andrews, C., 1979, J. Fish. Biol., v. 15 (2), 195-209
parasite fauna of *Perca fluviatilis*, host specificity, comparison with different localities in British Isles, factors affecting composition
Perca fluviatilis (swimbladder): Llyn Tegid, Wales
- Tetracotyle* sp. II
Andrews, C., 1979, J. Fish. Biol., v. 15 (2), 195-209
parasite fauna of *Perca fluviatilis*, host specificity, comparison with different localities in British Isles, factors affecting composition
Perca fluviatilis (lens): Llyn Tegid, Wales
- Tetracotyle* sp.
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, J. Fish. Research Bd. Canada, v. 33 (11), 2489-2499
Salvelinus namaycush (pericardium, surface of heart): Aishihik Lake, Yukon Territory
Coregonus clupeaformis (pericardium, surface of heart): Aishihik Lake and Stevens Lake, Yukon Territory
Thymallus arcticus (pericardium, surface of heart): Aishihik Lake, Yukon Territory
Lota lota (surface of heart): Aishihik Lake, Yukon Territory
Prosopium cylindraceum (pericardium, surface of heart): Aishihik Lake, Yukon Territory

- Tetracotyle* sp.
Cone, D. K.; and Anderson, R. C., 1977, *Canad. J. Zool.*, v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (ventral surface of air bladder, kidney, striated muscle of body): Ryan Lake, Algonquin Park, Ontario
- Tetracotyle* sp.
Davis, J. R.; and Huffman, D. G., 1978, *Texas J. Sc.*, v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (mesenteries): near San Marcos, Texas
- Tetracotyle* sp.
Naidenova, N. N., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 46-51
larval form, intensity of infestation
Gobius melanostomus
G. batrachocephalus
G. niger
G. cobitis
G. ophiocephalus
all from Black Sea [and/or] Azov Sea
- Tetracotyle* sp. larvae
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, *Respublik. Mezhvedomstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 67-79
Trachurus mediterraneus ponticus: Mediterranean basin
- Tetracotyle* sp.
Otvodova, G. D., 1975, *Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad*, v. 93, 112-116
[*Abramis brama*]: Pskov-Chudskoe lake
- Tetracotyle biwaensis* Goto et Ozaki, 1930
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus platycephalus* (Creplin, 1825)
- Tetracotyle bufoi* n. sp., illus.
Agrawal, N., 1977, *Indian J. Zool.*, v. 16 (3), 1975, 187-188
Bufo sp. (mesenteries of intestine): Kathauta Tal, Lucknow
- Tetracotyle communis* Hughes, 1928
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus platycephalus* (Creplin, 1825)
- Tetracotyle communis*
Otvodova, G. D., 1975, *Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad*, v. 93, 112-116
[*Abramis brama*] (heart): Pskov-Chudskoe lake
- Tetracotyle coregoni* Dogiel et Achmerov
Niewiadomska, K.; and Kozicka, J., 1970, *Acta Parasitol. Polon.*, v. 18 (42-50), 487-496
as syn. of *Cotylurus erraticus* (Rudolphi, 1809)
- Tetracotyle coregoni* Achmerov, 1941
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus erraticus* (Rudolphi, 1809)
- Tetracotyle crystallina* (Rudolphi) Linstow, 1877
Gupta, N. K.; and Mishra, P. N., 1976, *Rev. Iber. Parasitol.*, v. 36 (1-2), 1-34
as syn. of *Strigea sphaerula sphaerula* (Rudolphi, 1803) Mathias, 1925
- Tetracotyle diminuta* Hughes, 1928
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus pileatus* (Rudolphi, 1802)
- Tetracotyle echinata* Diesing, 1858
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus platycephalus* (Creplin, 1825)
- Tetracotyle intermedia* Hughes, 1928
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus erraticus* (Rudolphi, 1809)
- Tetracotyle leucisci* Sidorov, 1956
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus platycephalus* (Creplin, 1825)
- Tetracotyle loricariae* n. sp., illus.
Szidat, L., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 753-786
[this species described under the heading "Genus *Cotylurus* Szidat, 1928", comb. not made]
Loricaria anus (encysted in musculature): Rio Matanza (Tributary of Rio Parana), Argentina
- Tetracotyle muscularis* n. sp., illus.
Chakrabarti, K. K., 1970, *Rev. Biol. Trop.*, v. 17 (1), 1969, 91-96
Heteropneustis fossilis (subcutaneous tissue): local fish market, India
- Tetracotyle ovata* v. Linstow, 1877
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus platycephalus* (Creplin, 1825)
- Tetracotyle percae-fluviatilis*
Astakhova, T. V.; and Stepanova, G. A., 1972, *Parazitologiya, Leningrad*, v. 6 (4), 364-368
Ctenopharyngodon idella (body cavity): pond and spawning-nursery fisheries, Volga delta
- Tetracotyle percae-fluviatilis* von Linstow, 1877
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus variegatus* (Creplin, 1825)
- '*Tetracotyle pileata*' sensu Dubois, 1938, 1968
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus platycephalus* (Creplin, 1825)
- Tetracotyle tahoensis* Haderlie, 1953
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2), 171-183
as syn. of *Ichthyocotylurus platycephalus* (Creplin, 1825)

- '*Tetracotyle variegata*' sensu Hughes, 1928
Odening, K., 1979, *Ann. Parasitol.*, v. 54 (2),
171-183
as syn. of *Ichthyocotylurus platycephalus*
(Creplin, 1825)
- Tetracotyloides*
Szidat, L., 1969, *J. Fish. Research Bd. Canada*,
v. 26 (4), 753-786
"I have found two species of metacercariae
which resemble *Tetracotyle* but are not en-
cysted. For these larval forms I propose
the name *Tetracotyloides*. They are possibly
the metacercariae of *Apatemon* species."
- Tetracotyloides gymnoti* n. sp., illus.
Szidat, L., 1969, *J. Fish. Research Bd. Canada*,
v. 26 (4), 753-786
[this species described under the heading
"Genus *Apatemon* Szidat, 1929", comb. not
made]
Gymnotus carapo (free in orbit and vitreous
humour of eye, and in brain): Laguna Salta
La Vieja (100 km west of Resistencia, Chaco
Province), Argentina
- Tetracotyloides jenynsiae* n. sp., illus.
Szidat, L., 1969, *J. Fish. Research Bd. Canada*,
v. 26 (4), 753-786
[this species described under the heading
"Genus *Apatemon* Szidat, 1929", comb. not
made]
Jenynsia lineata (encysted in visceral cavi-
ty): Laguna Monte, Buenos Aires Province,
Argentina
- Tetraonchidae*
Ergens, R., 1971, *Folia Parasitol.*, v. 18
(2), 191-192
Tetraonchus Diesing, 1858 accepted as only
genus in family *Tetraonchidae*, systematic
independence of the subgenera *Tetraonchus*
(*Tetraonchus*) and *T.* (*Salmonchus*) not
accepted
- Tetraonchus*
Ergens, R., 1971, *Folia Parasitol.*, v. 18
(2), 191-192
Tetraonchus Diesing, 1858 accepted as only
genus in family *Tetraonchidae*, systematic
independence of the subgenera *Tetraonchus*
(*Tetraonchus*) and *T.* (*Salmonchus*) not
accepted
- Tetraonchus*
Kazakov, B. E., 1971, *Trudy Gel'mint. Lab.*,
Akad. Nauk SSSR, v. 22, 59-62
Monogenoidea of fish, analysis of zooge-
ographic groups, comparison of some morpho-
logical and ecological parameters: Kol'skii
peninsula
- Tetraonchus* Diesing
Molnar, K., 1970, *Magy. Allatvilaga* (100), v. 2
(4), 75 pp.
Monogenea of Hungary, keys to superfamilies,
families, genera, and species

Coryphaenae hippurus
Thunnus albacores
Remora sp.
all from equatorial zone, Pacific Ocean
- Tetrochetus lesnoyi* sp. n., *illus.*
Tkachuk, L. P., 1979, Zool. Zhurnal, v. 58 (9), 1290-1295
Allocyttus verrucosus
Neocyttus rhomboidalis
Cyttosoma boops
(intestine of all): Agulhas shoal, Walters bank (Indian Ocean); South-East Atlantic
- Tetrochetus scomberesoxis* nov. sp., *illus.*
Nikolaeva, V. M., 1966, Republik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 52-66
Scomberesox saurus (intestine): Tyrrhenian Sea; Mediterranean Sea; Adriatic Sea; Ionian Sea
- Tetrochetus scomberesoxis* Nikolaeva, 1966
Korotaeva, V. D., 1976, Biol. Moria, Vladivostok (4), 60-62
[footnote, p. 61, indicates that formation of species name is incorrect and should have been "*scomberesocis*"]
Scomberesox saurus (intestine, stomach): south-eastern part of Pacific Ocean

- Texanocotyle* n. gen.
Simpson, D. T.; and McGraw, J. L., jr., 1979, Southwest. Nat., v. 24 (4), 557-561
Aspidogasteridae, Cotylaspidinae
key, mt: *Texanocotyle pogoniae* n. sp.
- Texanocotyle pogoniae* n. gen., n. sp. (mt), illus.
Simpson, D. T.; and McGraw, J. L., jr., 1979, Southwest. Nat., v. 24 (4), 557-561
Pogonias cromis (intestine): Port Isabel, South Padre Island, Texas, USA
- Thailandobilharzia* gen. nov.
Baugh, S. C., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 121-125
Schistosomatinae
tod: *T. harinasutai* (Kruatrachue, Bhaibulaya and Harinasuta, 1965) nomen novum [i.e., n. comb.]
- Thailandobilharzia harinasutai* (Kruatrachue, Bhaibulaya and Harinasuta, 1965) nomen novum [i.e., n. comb.] (tod)
Baugh, S. C., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 121-125
Syn.: *Orientobilharzia harinasutai* Kruatrachue, Bhaibulaya and Harinasuta, 1965
Bubalus bubalis (portal and mesenteric veins): Nakornsri thamaraj Province, South Thailand
- Thapariella udaipurensis* Gupta & Sharma, 1970, illus.
Sharma, P. N., [1978], Riv. Parassitol., Roma, v. 38 (2-3), 1977, 233-245
intestinal trematodes from various vertebrates, hydrolytic enzymes, distribution in parasite gut, functional significance
- Thapariella udaipurensis* Gupta and Sharma, 1970
Sharma, P. N., 1979, Indian J. Exper. Biol., v. 17 (5), 479-483
10 digenetic trematodes, histochemical localization of glycogen, lipids, proteins, and phosphatases in parenchyma and other tissues
+*Anastomus oscitans* (buccal cavity)
- Timonia caballeri* sp. nov., illus.
Madhavi, R., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 233-246
Polynemus sextarius (intestine): Waltair coast, Bay of Bengal
- Timonia indica* sp. nov., illus.
Madhavi, R., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 233-246
Polynemus indicus (intestine): Waltair coast, Bay of Bengal
- Timoniella praeteritum* (Looss, 1901)
Deblock, S., 1978, Ann. Parasitol., v. 53 (6), 577-593
Hydrobia ulvae: cote de France (Manche; Atlantique)
H. ventrosa: cote de France (Mediterranee)
H. acuta: cote de France (Mediterranee)
- Tormopsolus carangis* Paruchin (in press) [? nomen nudum]
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Caranx malabaricus: South China Sea
- Tormopsolus coelorhynchi* [lapsus p. 83 for *T. coelorhynchus* sp. n.]
Gavriliuk-Tkachuk, L. P., 1979, Biol. Moria, Vladivostok (3), 83-86
- Tormopsolus coelorhynchus* sp. n., illus.
Gavriliuk-Tkachuk, L. P., 1979, Biol. Moria, Vladivostok (3), 83-86
[lapsus p. 83 as *T. coelorhynchi*]
Coelorhynchus fasciatus (intestine): Cape Agulhas (Indian Ocean)
- Tormopsolus orientalis* Yamaguti, 1934
Parukhin, A. M., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Caranx malabaricus: South China Sea
- Tracheophilus* Skrjabin, 1913
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
Cyclocoelidae, key
- Tracheophilus* sp., illus.
Palmieri, J. R.; et al., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (2), 256-259
experimentally infected by *Nosema* sp.
Lymnaea rubiginosa (exper.)
- Tracheophilus* sp.
Palmieri, J. R.; and Sullivan, J. T., 1977, J. Invert. Path., v. 30 (2), 276
Microsporida, staining technique for location of spores in host tissues, used to locate *Nosema* sp. in *Lymnaea rubiginosa* snails and *Tracheophilus* sp. rediae
- Tracheophilus cymbius* (Dies., 1850) Skrjabin, 1913, illus.
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
Tracheophilus cymbius, epidemiology, life history
Syn.: *Tracheophilus sisowi* Skrjabin, 1913
Anas platyrhynchos domestica (nat. and exper.)
Cairina moschata x *Anas platyrhynchos domestica*
Hippeutis cantori (nat. and exper.)
Segmentina hemisphaerula (exper.)
Gyraulus convexiusculus (exper.)
all from vicinity of Fuzhou, Fujian
- Tracheophilus sisowi* Skrjabin, 1913
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
as syn. of *Tracheophilus cymbius* (Dies., 1850) Skrjabin, 1913
- Transcoelum oculus*
Ginetsinskaia, T. A.; et al., 1971, Parazitologia, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat

- Transversotrema patialense
Anderson, R. M.; Whitfield, P. J.; and Dobson, A. P., 1978, Parasitology, v. 77 (2), 189-200
Transversotrema patialense infections in Brachydanio rerio, overdispersion in distribution of successful infections/host can be generated within laboratory infection arenas, degree of over-dispersion or aggregation of parasites within host population increases as both infective-stage density and time of exposure to infection increases, stochastic simulation studies demonstrate that heterogeneity in host susceptibility to infection is probable generative cause of such patterns, variability in host susceptibility is most probably generated by differences in behavior
- Transversotrema patialense (Soparkar, 1924)
Betterton, C., 1979, Malayan Nature J., v. 32 (3-4), 271-279
Transversotrema patialense, incidence in fish and snails, size of host, ecology, cercarial productivity of Melanoides tuberculata
Melanoides tuberculata
Trichogaster trichopterus
Betta pugnax
Rasbora sumatrana
Aplocheilichthys panchax
Brachydanio albolineatus
all from Sungai Bayan Lepas, Penang, Malaysia
- Transversotrema patialense
Mills, C. A., 1979, Internat. J. Parasitol., v. 9 (6), 603-608
Transversotrema patialense, cercarial, post-cercarial, and adult stages, influence of differing ionic environments on survival and infectivity
- Transversotrema patialense (Soparkar, 1924), illus.
Mills, C. A., 1979, J. Fish. Dis., v. 2 (5), 443-447
Transversotrema patialense adults, attachment and feeding on Brachydanio rerio
- Transversotrema patialense
Mills, C. A.; Anderson, R. M.; and Whitfield, P. J., 1979, J. Animal Ecol., v. 48 (2), 383-399
Transversotrema patialense on Brachydanio rerio (exper.), host size (age) and parasite survival, (parasite) age- and density-dependent survival and reproduction, reinfection and transplantation experiments failed to provide evidence of host immunological responses
- Travassodendrium oligolecithum (Manter et Debus, 1945) Skarbilovich, 1948
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of Prosthodendrium chilostomum (Mehlis, 1831) Dollfus, 1931
- Travassodendrium piriforme (Yamaguti, 1939) Skarbilovich, 1948
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of Prosthodendrium chilostomum (Mehlis, 1831) Dollfus, 1931
- Travassostomum Bhalerao, 1938
Dubois, G., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 51-59
as syn. of Proalarioidinae Sudarikov, 1960
- Trematod[a]
Kisielewska, K., 1970, Acta Parasitol. Polon., v. 18 (13-26), 177-196
intestinal helminths of Clethrionomys glareolus, distribution pattern of helminth species within host population, seasonal variability, age and sex structure of host population: Poland
- Trematoda
Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Trematoda
Odening, K., 1978, Ang. Parasitol., v. 19 (1), 58-62
list of Trematoda in GDR, supplemented with hosts, habitats, and specific geographic localities
- Trematoda
Rohde, K., 1978, Marine Biol., v. 47 (2), 125-134
marine Monogenea and Digenea, latitudinal differences in host specificity, digenetic host specificity increases from cold to warm seas but no such gradient exists in Monogenea, differences explained in terms of reproductive strategies
- Trematoda
Ryzhikov, K. M.; et al., 1974, Helminths of birds of Yakutia and adjacent territories. Cestodes and trematodes, 339 pp.
extensive host-parasite lists, review
- Trematod[a sp.]
Armas, G., 1979, J. Fish. Dis., v. 2 (6), 543-547
Mugil cephalus (muscle tissue): Rio Moche coastal lagoon, northern Peru
- Trematoda gen. sp. larva
Astakhova, T. V.; and Stepanova, G. A., 1972, Parazitologiya, Leningrad, v. 6 (4), 364-368
Ctenopharyngodon idella (intestine): pond and spawning-nursery fisheries, Volga delta
- Trematoda sp.
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition [Pisces] bychok-pomatoshistus: 4 estuaries, Black Sea (northern coastal region)
- Trematoda sp. (1)
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition [Pisces] bychok-zelenchak [Pisces] bychok-pomatoshistus all from 4 estuaries, Black Sea (northern coastal region)
- Trematod[a sp.], metacercaria
Davis, J. R.; and Huffman, D. G., 1978, Texas J. Sc., v. 30 (1), 43-53
helminths of Gambusia affinis from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (musculature): near San Marcos, Texas

- Trematoda [sp.]
Frank, C., 1976, Acta Vet. Brno, v. 45 (4), 263-270
Podiceps cristatus (small intestine): south-eastern "Seewinkel", Burgenland
- [Trematoda sp.] unidentified fluke
Ishii, A., 1973, Snake, v. 5 (1-2), 133-140
Trimeresurus flavoviridis (gall bladder): Amami-oshima, southern Japan
- Trematod[a spp.]
Jain, S. P., 1977, Agra Univ. J. Research, v. 25 (1), 1976, 81-98
amphistome and other (unidentified) trematode infections of aquatic snails, incidence, seasonal variation
Bulimus pulchellus
Gyraulus convexiusculus
Indoplanorbis exustus
Lymnaea luteola
L. auricularia
Melania lineatus
M. tuberculatus
all from Bareilly District (U. P., India)
- Trematod[a sp.], could be echinostome eggs, illus.
Kan, S. K. P.; Hii, J. L. K.; and Razack, K. V., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (1), 113-114
trematode eggs, 72-year-old male farmer (feces), first documented report from Sabah, Malaysia
- Trematoda [sp.]
Keymer, I. F., 1978, Vet. Rec., v. 103 (25), 548-552
parasitic and other diseases of tortoises, necropsy survey
Geochelone pardalis (small intestine)
- Trematoda spp.
Kisielewska, K., 1970, Acta Parasitol. Polon., v. 18 (13-26), 121-147
intestinal helminths of Clethrionomys glareolus, structure and seasonal dynamics of helminth groupings in a host population: Bialowieza National Park, Poland
- Trematoda spp.
Kisielewska, K., 1970, Acta Parasitol. Polon., v. 18 (13-26), 163-176
structure and seasonal dynamics of intestinal helminth groupings in Clethrionomys glareolus populations of various forest biocoenoses in Poland
- Trematoda sp.
Makhovenko, E. T., 1972, Parazitologiya, Leningrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka
- Trematoda [sp.] cysts
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Paralichthys dentatus (gill filaments): Raritan Bay, New Jersey
- Trematod[a sp.]
Murua, R. E., 1978, Acta Parasitol. Polon., v. 25 (11-20), 149-161
ecology of parasites of Apodemus sylvaticus and Clethrionomys glareolus: analysis of parasite populations and their seasonal variation in two contrasting habitats
Apodemus sylvaticus (small intestine): Bristol area, England
- Trematoda gen. sp. larvae
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, Republik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 67-79
Trachurus mediterraneus ponticus: Mediterranean basin
- Trematod[a spp.]
Paperna, I.; and Baudin Laurencin, F., 1979, Aquaculture, v. 16 (2), 173-175
Dicentrarchus labrax (intestine): marine cultures in France
- Trematoda gen. sp. larvae
Parukhin, A. M., 1966, Republik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Megalaspis cordyla
Caranx malabaricus
Chorinemus lysan
Caranx sp.
Selar crumenophthalmus
all from South China Sea
- Trematoda species
Rao, S. L., 1976, Acta Parasitol. Polon., v. 24 (11-19), 119-124
Kachuga kachuga (liver): India
- Trematod[a sp.]
Remfry, J., 1978, Lab. Animals, v. 12 (4), 213-218
helminth infections in imported Macaca mulatta, incidence, pathogenicity, and treatment: imported from northern India to Primate Quarantine Unit, Oxford University
- Trematodes, avian, metacercariae
Jackson, P. B. N., 1978, J. South African Vet. Ass., v. 49 (1), 57-59
parasites of Anguilla mossambica, importance of disease control in aquaculture
Anguilla mossambica (body cavity): South Africa
- Tremiorchis Mehra & Negi, 1925, emend. Verma, 1930
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
Plagiiorchiidae, key
- Tremiorchis mathuraensis n. sp., illus.
Swarup, M.; and Jain, S. P., 1977, Agra Univ. J. Research, v. 25 (1), 1976, 99-102
Rana tigrina (intestine): Mathura district, U. P., India
- Tremiorchis ranarum (Mehra et Negi, 1926), illus.
Agrawal, V., 1967, Rev. Biol. Trop., v. 15 (1), 1-11
synonymy, description
Rana tigrina (intestine): Lucknow
- Tremiorchis ranarum Mehra & Negi, 1925
Gupta, P. D., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 171-190
synonymy
Rana cyanophlyctis (intestine): Jaisalmer Dist., Rajasthan, India
- Tremiorchis ranarum Mehra & Negi, 1926
Kameswari, M.; Ramulu, G. R.; and Rao, L. N., 1979, Indian J. Exper. Biol., v. 17 (9), 976-979
helminth-infected Rana tigerina, macromolecular changes in liver

- Tremiorchis ranarum Mehra et Negi (1926)
Karyakarte, P. P.; Baheti, S.; and Chawda, D. B., 1976, Marathwada Univ. J. Sc. (Nat. Sc.), v. 15 (8), 93-95
Tremiorchis ranarum from Rana cyanophlyctis, carbohydrate metabolism, glycogen content, before and after starvation, lactic acid analysis
- Tremiorchis ranarum Mehra et Negi, 1926, illus.
Karyakarte, P. P.; and Chawda, D. B., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 197-201
Tremiorchis ranarum, neurosecretory cells, histochemistry
- Tremiorchis ranarum Mehra et Negi, 1926, illus.
Lakshmi, V. V.; and Rao, K. H., 1978, Ztschr. Parasitenk., v. 56 (1), 55-61
Digenea, histology of gut, six types described, structure apparently independent of family, habitat, or food habits
Rana cyanophlyctis (intestine)
- Tremiorchis ranarum, illus.
Rao, L. N., 1976, J. Zool. Soc. India, v. 26 (1-2), 1974, 63-67
Tremiorchis ranarum, Ganeo tigrinum, Mehra et Negi, 1926, presence of only one type of epithelial cells in caeca performing both functions of secretion and absorption
- Tremiorchis ranarum
Singh, S. P.; and Sinha, D. P., 1979, Indian J. Animal Research, v. 13 (1), 27-30
trematodes of frogs, histochemical mechanism of egg shell formation
- Tremiorchis ranarum
Sinha, D. P.; Sircar, M.; and Singh, S. P., 1978, Indian J. Animal Research, v. 12 (2), 97-101
trematodes, cestodes, glycogen distribution, histochemistry; metabolism discussed
- Trichobilharzia sp.
Wills, W.; et al., 1976, Pub. Health Rep., U.S. Pub. Health Serv., v. 91 (5), 469-470
Trichobilharzia sp., children developed swimmer's itch dermatitis after swimming in farm pond which was discovered to contain Trichobilharzia-infected snails (Physa heterostropha), pond was also used by domestic ducks and geese and by migratory waterfowl, clinical report: farm pond near Harrisburg, Pennsylvania
- Trichobilharzia [sp.]
Yokogawa, M.; et al., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (5), 366-370
Trichobilharzia found in Austropeplea ollula and Anas poecilorhyncha, strongly suspected to be cause of dermatitis among farmers working in paddy fields: Noda city, Chiba prefecture
- Trichobilharzia cameroni
Sankurathri, C. S.; and Holmes, J. C., 1976, Canad. J. Zool., v. 54 (10), 1742-1753
parasites and commensals (Oligochaeta and larval Digenea) of Physa gyrina in control area vs. area affected by thermal effluents, prevalence, seasonal changes, interactions (including ingestion of cercariae by oligochaete), ecological model: Lake Wabamun, Alberta
- Trichobilharzia indica Baugh, 1963, illus.
Baugh, S. C., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 73-93
Trichobilharzia indica, miracidium, description, mode of hatching
Nettion creca (excreta, intrahepatic vessels): lake Chinhut, Lucknow
- Trichobilharzia jequitibaensis sp. n., illus.
Leite, A. C. R.; Costa, H. M. de Araujo; and Costa, J. O., 1978, Rev. Brasil. Biol., v. 38 (4), 843-846
Cairina moschata domestica (nat. and exper.) (blood vessels, mainly of liver, mesenteric veins, and kidneys): Jequitiba County, Minas Gerais State, Brazil
Aplexa rivalis
Lymnaea columella
- Trichobilharzia ocellata
Anderson, P. A.; Nowosielski, J. W.; and Croll, N. A., 1976, Canad. J. Zool., v. 54 (9), 1481-1487
Trichobilharzia ocellata cercariae, marked diel pattern of emergence from Lymnaea stagnalis during periods of illumination, host movement stimulates cercarial emergence
- Trichobilharzia ocellata
Gvozdev, M. A., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Khoz-iaistva, Leningrad, v. 93, 127-129
Lymnaea stagnalis: Kaleval region, Karelia
- Trichobilharzia ocellata
Mohamed, A. M., 1977, Egypt. J. Bilharz., v. 4 (2), 187-194
Trichobilharzia ocellata-infected Lymnaea stagnalis, increased growth rate, reduced tissue glycogen, shifts toward anaerobiosis
- Trichobilharzia ocellata
Rau, M. E.; Bourns, T. K. R.; and Ellis, J. C., 1975, Canad. J. Zool., v. 53 (5), 642-650
Trichobilharzia ocellata, reproductive success evaluated by passage of viable eggs by ducks exposed to initial and challenge infections, possible immunological basis for decline in egg production
Anas discors (exper.)
- Trichobilharzia ocellata
Sten'ko, R. P., 1978, Vestnik Zool., Akad. Nauk Ukrainsk. SSR, Inst. Zool. (5), 90-91
changes in trematode fauna of molluscs caused by human factors
Radix auricularia: Crimean reservoirs
- Trichobilharzia ocellata
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Radix auricularia: Crimea
- Trichobilharzia physellae (Talbot, 1936) McMullen et Beaver, 1945
Lien, C. A.; et al., 1975, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 21 (2), 183-189
Anas poecilorhyncha zonorhyncha
A. c. crecca
all from Chengnan People's Commune, Hailung Hsien, Kirin Province

- Trichobilharzia physellae*
Sankurathri, C. S.; and Holmes, J. C., 1976,
Canad. J. Zool., v. 54 (10), 1742-1753
parasites and commensals (Oligochaeta and
larval Digenea) of *Physa gyrina* in control
area vs. area affected by thermal effluents,
prevalence, seasonal changes, interactions
(including ingestion of cercariae by oligo-
chete), ecological model: Lake Wabamun,
Alberta
- Triganodistomum attenuatum* Mueller and Van
Cleave, 1932
Amin, O. M., 1977, Proc. Helminth. Soc. Wash-
ington, v. 44 (2), 210-217
Catostomus commersoni (posteriormost in-
testinal coil): southwestern Lake Michigan
- Triganodistomum attenuatum* Mueller & Van Cleave,
1932
Amin, O. M., 1977, Tr. Wisconsin Acad. Sc.,
Arts and Lett., v. 65, 225-230
fish parasites, differential distribution in
two streams
Catostomus commersoni: southeastern Wiscon-
sin
- Triganodistomum mutabile* (Cort, 1918), illus.
Yamaguti, S., 1969, J. Fish. Research Bd. Cana-
da, v. 26 (4), 845-848
special modes of nutrition in some digenetic
trematodes
- Triglicola* gen. n.
Mamaev, Iu. L.; and Parukhin, A. M., 1972,
Parazitologiya, Leningrad, v. 6 (1), 65-74
Plectanocotylidae, Plectanocotylinae
tod: *T. tonkinensis* gen. et sp. n.
- Triglicola* Mamaev et Parukhin, 1972
Mamaev, Iu. L., 1976, Biol. Moria, Vladivostok
(60), 52-54
Syn.: *Plectanocotylodes* Euzet et Suriano,
- Triglicola* Mamaev et Paruchin, 1972
Mamaev, Iu. L.; and Parukhin, A. M., 1972,
Parazitologiya, Leningrad, v. 6 (3), 259-268
Plectanocotylidae, Plectanocotylinae
- Triglicola australis* sp. n., illus.
Mamaev, Iu. L., 1976, Biol. Moria, Vladivostok
(6), 52-54
Trigla sp.
Pterigotrigla picta
all from Tasman Sea
- Triglicola dissimetrica* gen. et sp. n., illus.
Mamaev, Iu. L.; and Parukhin, A. M., 1972,
Parazitologiya, Leningrad, v. 6 (1), 65-74
Lepidotrigla natalensis (gills): Indian
Ocean, Mozambique Channel, on Bao-Pash tra-
verse
- Triglicola obscura* (Euzet et Suriano, 1974)
comb. n.
Mamaev, Iu. L., 1976, Biol. Moria, Vladivostok
(6), 52-54
Syn.: *Plectanocotylodes obscurum* Euzet et
Suriano, 1974
- Triglicola ocellata* gen. et sp. n., illus.
Mamaev, Iu. L.; and Parukhin, A. M., 1972,
Parazitologiya, Leningrad, v. 6 (1), 65-74
Lepidotrigla sp. (gills): Arabian Sea,
Saukira gulf
- Triglicola tonkinensis* gen. et sp. n. (tod),
illus.
Mamaev, Iu. L.; and Parukhin, A. M., 1972,
Parazitologiya, Leningrad, v. 6 (1), 65-74
Lepidotrigla sp. (gills): northern Vietnam
gulf
- Triglicoloides* gen. n.
Mamaev, Iu. L.; and Parukhin, A. M., 1972,
Parazitologiya, Leningrad, v. 6 (1), 65-74
Plectanocotylidae, Plectanocotylinae
tod: *T. indicus* gen. et sp. n.
- Triglicoloides* Mamaev et Paruchin, 1972
Mamaev, Iu. L.; and Parukhin, A. M., 1972,
Parazitologiya, Leningrad, v. 6 (3), 259-268
Plectanocotylidae, Plectanocotylinae
- Triglicoloides indicus* gen. et sp. n. (tod),
illus.
Mamaev, Iu. L.; and Parukhin, A. M., 1972,
Parazitologiya, Leningrad, v. 6 (1), 65-74
Chlorophthalmus agassizi (gills): Indian
Ocean, Wedge bank in Laccadive sea
- Triloborchidiplostomum* n. subgen.
Dubois, G.; and Angel, L. M., 1972, Tr. Roy.
Soc. South Australia, v. 96 (4), 197-215
subgen. of *Neodiplostomum*
type of subgen.: *Neodiplostomum* (T.) *diaboli*
n. sp.
- Tristoma adcoecineum* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of
Hawaiian fishes, 287 pp., illus.
Xiphias gladius (gills): Hawaii
- Tristoma adintegrum* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of
Hawaiian fishes, 287 pp., illus.
Xiphias gladius (gills, buccal cavity):
Hawaii
- Tristriata elegans* sp. nov., illus.
Filimonova, L. V., 1971, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 22, 211-214
Melanitta fusca (caecum): Iakutiia, lower
river Lena, near Iakutsk
- Tristriata elegans* Filimonova, 1971
Filimonova, L. V., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 179-186
description
Melanitta fusca
Histrionicus histrionicus
Mergus serrator
all from Iakutiia
- Trochopella candida* Euzet y Trilles, 1962,
illus.
Lopez-Roman, R.; and Guevara-Pozo, D., 1976,
Rev. Iber. Parasitol., v. 36 (1-2), 139-146
Peristedion cataphractum (branquias):
Mar de Alboran
- Trochopus pini* (Van Beneden and Hesse, 1863)
Lambert, A., 1978, Ann. Parasitol., v. 53 (4),
351-357
Capsalidae (*Benedenia monticelli*, *Trochopus*
pini, *Entobdella soleae*), oncomiracidium,
ciliated cells, chetotaxy
- Troglocephalus rhinobatidis* Young, 1967
Kearn, G. C., 1978, Internat. J. Parasitol.,
v. 8 (4), 305-311
Horricauda rhinobatidis and *Troglocephalus*
rhinobatidis from *Rhinobatos batillum* (gills),
level of infestation, microhabitat, larval
development of *Horricauda*, possible role of
certain structures in attachment and feeding:
Queensland, Australia

- Tylodelphys sp.
Sulgostowska, T.; and Grytner-Zieczina, B., 1974, Acta Parasitol. Polon., v. 22 (35-44), 401-413
Clangula hyemalis (duodenum, ileum): Baltic Coast, Gdansk Province, Poland
- Tylodelphys clavata
Astakhova, T. V.; and Stepanova, G. A., 1972, Parazitologiya, Leningrad, v. 6 (4), 364-368
Ctenopharyngodon idella (vitreous body): pond and spawning-nursery fisheries, Volga delta
- Tylodelphys clavata
Burrough, R. J., 1978, J. Fish Biol., v. 13 (1), 19-32
Tylodelphys clavata and Diplostomum spathaceum in roach, rudd, and roach/rudd hybrids, population biology, seasonal changes in incidence, intensity of infection, and frequency distribution, relationship of infection to fish size (age)
Rutilus rutilus
Scardinius erythrophthalmus
Rutilus rutilus x Scardinius erythrophthalmus (eyes of all): all from Higher and Lower Leys, Slapton Ley, South Devon
- Tylodelphys clavata (Nordmann, 1832)
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Perca fluviatilis
Esox lucius
Leuciscus cephalus
Rutilus rutilus
Scardinius erythrophthalmus
Abramis brama
all from Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Tylodelphys clavata (Nordmann, 1832)
Nedeva-Menkova, I., 1977, Khelmintologiya, Sofiia, v. 4, 34-39
Syn.: Diplostomum clavatum (Nordmann, 1832)
Barbus meridionalis petenyi
Leuciscus cephalus
(eye of all): all from Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Tylodelphys clavata (Nordm.)
Seyda, M., 1973, Acta Ichthyol. et Piscat., v. 3 (2), 67-76
Anguilla anguilla: Szczecin Firth, Dabie Lake, Poland
- Tylodelphys clavata (Nordmann, 1832), illus.
Shigin, A. A., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 220-232
Strigeata, description and taxonomic significance of cercarial sensory apparatus, distribution of sensillae
Radix auricularia: Volga delta
- Tylodelphys clavata
Wierzbicka, J., 1977, Acta Parasitol. Polon., v. 25 (1-10), 1-16
survey of trematodes of 3 species of fish with some data on seasonal dynamics of infestation
Abramis brama
Abramis ballerus
Blicca bjoerena
all from Dabie lake, Poland
- Tylodelphys clavata (Nordmann, 1832) Diesing, 1850
Wierzbicki, K., 1970, Acta Parasitol. Polon., v. 18 (1-12), 45-55
Perca fluviatilis (vitreous body of eyes): Lake Dargin, Mazurian Lakeland, Poland
- Tylodelphys conifera (Mehlis, 1846)
Bain, G. A.; and Threlfall, W., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 219-221
Lophodytes cucullatus (anterior small intestine, large intestine): Ontario
- Tylodelphys conifera
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Radix auricularia: Crimea
- Tylodelphys excavata (Rudolphi, 1819) Szidat, 1935
Frandsen, F., 1974, Acta Parasitol. Polon., v. 22 (1-11), 49-66
Rana esculenta (spinal cord): Denmark
- Tylodelphys podicipina Kozicka et Niewiadomska, 1960
Wierzbicki, K., 1970, Acta Parasitol. Polon., v. 18 (1-12), 45-55
Perca fluviatilis (vitreous body of eyes): Lake Dargin, Mazurian Lakeland, Poland
- Typhlocoelinae Harrah, 1922
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
Cyclocoelidae, key
- Typhlocoelum Stossich, 1902
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
Cyclocoelidae, key
- Typhlocoelum cucumerinum (Rudolphi, 1809)
Mahoney, S. P.; and Threlfall, W., 1978, Canad. J. Zool., v. 56 (3), 436-439
Anas rubripes (air sacs): Canada

- Unilacinia n.gen.
Manter, H. W., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 787-792
Hemiuridae, Lecithasterinae
tod: U. asymmetrica n.sp.
- Unilacinia asymmetrica n.gen., n.sp., illus. (tod)
Manter, H. W., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 787-792
Naso annulatus (stomach): Heron Island, Queensland, Australia
- Urocleidus Mueller
Molnar, K., 1970, Magy. Allatvilaga (100), v. 2 (4), 75 pp.
Monogenea of Hungary, keys to superfamilies, families, genera, and species
- Urocleidus acer (Mueller 1936) Mizelle and Hughes 1938
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Lepomis gibbosus: Ontario
- Urocleidus acer
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1247-1250
gill parasites of Lepomis gibbosus, role of season, habitat, host age, and sex: Ontario, Canada
- Urocleidus adspetus Mueller, 1936, illus.
Cone, D. K., 1978, Canad. J. Zool., v. 56 (4), 608-612
redescription
Perca flavescens (gills): Portobello Stream, New Brunswick, Canada
- Urocleidus adspetus Mueller, 1936
Tedla, S.; and Fernando, C. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 833-843
parasite fauna of Perca flavescens, seasonal changes in incidence and intensity
Perca flavescens (gill filaments): Bay of Quinte, Lake Ontario
- Urocleidus attenuatus Mizelle 1941
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Lepomis gibbosus: Ontario
- Urocleidus attenuatus
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1247-1250
gill parasites of Lepomis gibbosus, role of season, habitat, host age, and sex: Ontario, Canada
- Urocleidus biramosus
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Lepomis macrochirus: Florida
- Urocleidus chaenobryttus
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Lepomis macrochirus: Florida
- Urocleidus chautauquensis (Mueller 1938) Mizelle and Hughes 1938
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Ambloplites rupestris: Ontario
- Urocleidus chautauquensis
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1251-1253
gill parasites of Ambloplites rupestris, role of season, habitat, host age, and sex: Bay of Quinte, and West Lake, Ontario
- Urocleidus dispar (Mueller, 1936) Mizelle and Hughes, 1938
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of Lepomis gibbosus, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (gill lamellae): Ryan Lake, Algonquin Park, Ontario
- Urocleidus dispar (Mueller 1936) Mizelle and Hughes 1938
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Lepomis gibbosus: Ontario
- Urocleidus dispar
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1247-1250
gill parasites of Lepomis gibbosus, role of season, habitat, host age, and sex: Ontario, Canada
- Urocleidus dispar
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Lepomis macrochirus: Florida
- Urocleidus ferox
Aliff, J. V.; Smith, D.; and Lucas, H., 1977, Tr. Am. Micr. Soc., v. 96 (1), 145-148
Lepomis macrochirus: middle Georgia
- Urocleidus ferox Mueller 1934
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1235-1240
spatial distribution of gill parasites
Lepomis gibbosus: Ontario
- Urocleidus ferox Mueller, 1934
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1241-1243
Urocleidus ferox on Lepomis gibbosus, seasonal dynamics and spatial distribution: Glenora and West Lake, Ontario
- Urocleidus ferox
Hanek, G.; and Fernando, C. H., 1978, Canad. J. Zool., v. 56 (6), 1247-1250
gill parasites of Lepomis gibbosus, role of season, habitat, host age, and sex: Ontario, Canada
- Urocleidus furcatus
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Micropterus salmoides: Florida
- Urocleidus helicis
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Micropterus salmoides: Florida
- Urocleidus megalonchus (Mueller 1936) Price 1968
Sullivan, J. R.; et al., 1978, J. Parasitol., v. 64 (5), 810-812
as syn. of Leptocleidus megalonchus Mueller 1936

- Urocleidus perdix*
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Lepomis macrochirus: Florida
- Urocleidus similis* (Mueller, 1936) Mizelle and Hughes, 1938
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (gill lamellae): Ryan Lake, Algonquin Park, Ontario
- Urogonimus macrostomus* (Rudolphi, 1803) Monticelli, 1888, illus.
Bakke, T. A., 1977, Ztschr. Parasitenk., v. 54 (3), 299-307
Urogonimus macrostomus, genital organs, shape, size, and surface topography, light and scanning electron microscopy
Sturnus vulgaris (cloaca): Sola airport, Rogaland County, Norway
- Urogonimus macrostomus* (Rudolphi, 1803) Monticelli, 1888, illus.
Bakke, T. A., 1978, Zool. Scripta, v. 7 (1), 19-23
Syn.: *Distoma ringens* Rudolphi, 1819
Urogonimus macrostomus, re-investigation of type specimens confirms placement of species in *Urogonimus*; comparison of reproductive system of *U. macrostomus* with *Leucochloridium* and *Neoleucochloridium*
- Uterovesiculurus lutianus* sp. nov., illus.
Gu, C.; and Shen, J., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (4), 373-387
Lutianus erythropterus: China Sea
- Uterovesiculurus sinensis* sp. nov., illus.
Gu, C.; and Shen, J., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (4), 373-387
Chorinemus lysan
Zonichthys nigrofasciata
both from China Sea
- Uvitellina Witenberg*, 1926
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
Cyclocoelidae, key
- Uvitellina adelpha* (Johnston, 1916) Wit., 1922, illus.
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
Syn.: *Uvitellina pseudocotylea* Witenberg, 1923
Charadrius dubius curonicus
Capella g. gallinago
Calidris temminckii
all from vicinity of Fuzhou, Fujian
- Uvitellina kerii* Yamaguti, 1933, illus.
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
Charadrius dubius curonicus: vicinity of Fuzhou, Fujian
- Uvitellina pseudocotylea* Witenberg, 1923
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106
as syn. of *Uvitellina adelpha* (Johnston, 1916) Wit., 1922
- Uvulifer ambloplitis* (Hughes, 1927) Dubois, 1938
Cone, D. K.; and Anderson, R. C., 1977, Canad. J. Zool., v. 55 (9), 1410-1423
parasites of *Lepomis gibbosus*, prevalence and intensity in relation to host age and sex
Lepomis gibbosus (striated muscle of body, mainly at base of unpaired fins): Ryan Lake, Algonquin Park, Ontario
- Uvulifer ambloplitis*
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Lepomis macrochirus: Florida
- Uvulifer denticulatus* (Rud., 1819)
Dubois, G., 1978, Bull. Soc. Neuchatel. Sc. Nat., 3. s., v. 101, 69-70
"J. Knaack a ete induit en erreur dans la conduite du cycle experimental d'*Uvulifer denticulatus* (Rud.), puisque celui-ci se referme sur la cercaire d'*Apatemon* (A.) cobitidis"
- Vallisiopsis sphyraenae* n. sp., illus.
Yamaguti, S., 1968, Monogenetic trematodes of Hawaiian fishes, 287 pp., illus.
Sphyraena barracuda
S. helleri
(gills of all): all from Hawaii
- Vitellibaculum* Montgomery, 1957
Durio, W. O.; and Manter, H. W., 1968, J. Parasitol., v. 54 (4), 747-756 [For complete author reference see Supplement 19, Part 1]
Syn.: *Allomegasolena* Siddiqi and Cable, 1960
- Vitellibaculum attenuatum* (Siddiqi and Cable, 1960) n. comb.
Durio, W. O.; and Manter, H. W., 1968, J. Parasitol., v. 54 (4), 747-756 [For complete author reference see Supplement 19, Part 1]
- Vitellibaculum spinosum* (Siddiqi and Cable, 1960) n. comb.
Durio, W. O.; and Manter, H. W., 1968, J. Parasitol., v. 54 (4), 747-756 [For complete author reference see Supplement 19, Part 1]
- Vitellotrema fusipora* Guberlet, 1928
Brooks, D. R.; and Fusco, A. C., 1978, J. Mississippi Acad. Sc., v. 23, 95-99
description
Amphiuma tridactylum
A. means
all from Payne's Prairie, Alachua County, Florida and Ocean Springs, Jackson County, Mississippi

- Wardianum triangularum (Harrah, 1922) Wit., 1923
Tang, C.; and Tang, C., 1978, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 24 (1), 91-106 as syn. of Haematotrephus triangularum (Harrah, 1922)
- Wardius zibethicus
MacKinnon, B. M.; and Burt, M. D. B., 1978, Canad. J. Zool., v. 56 (2), 350-354
platyhelminth parasites of Ondatra zibethica, incidence and intensity, influence of host habitat: New Brunswick
- Waretrema piscicola Srivastava, 1939, illus.
Gupta, N. K.; and Miglani, A., 1976, Rev. Iber. Parasitol., v. 36 (3-4), 219-248
description
fish, marine teleost (intestine): Port Blair (Andaman and Nicobar Islands), India
- Watsonius [sp.]
Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca fascicularis (small intestine): wild caught in Asia, maintained at National Center for Primate Biology
- Winkenthughesia bramae (Parona y Perugia, 1896), illus.
Lopez-Roman, R.; and Guevara-Pozo, D., 1976, Rev. Iber. Parasitol., v. 36 (1-2), 139-146
Brama raii: Mar de Alboran
- Winkenthughesia bramae
Treasurer, J. W., 1976, Glasgow Naturalist, v. 19 (4), 325-333
Brama brama (gills): Scottish waters
- Winkenthughesia thyrstitae (Hughes, 1928) Price, 1943, illus.
Kagei, N.; Kihata, M.; and Asano, K., 1977, Bull. Inst. Pub. Health, Tokyo, v. 26 (1), 1-13
description
Thyrstites atum (gill): shore of Island of Banks, New Zealand
- Winteria gen. nov.
Lamothe-Argumedo, R., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (2), s. Zool., 1969, 179-194
Gorgoderidae, Anaporrhutinae, key
tod: W. pacifica (Caballero, 1945) n. comb.
- Winteria pacifica (Caballero, 1945) n. comb (tod)
Lamothe-Argumedo, R., [1971], An. Inst. Biol., Univ. Nac. Mexico, v. 40 (2), s. Zool., 1969, 179-194
description
Carcharhinus limbatus (celoma): San Blas, Nayarit, Mexico
- Wrightrenicola Odening, 1962
Odening, K., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 109-119
subgenus of Renicola
as syn. of Renicola Cohn, 1903
- Xenopodistomum Macnae, Rock and Makowski, 1973
Tinsley, R. C.; and Owen, R. W., 1979, J. Helminth., v. 53 (4), 307-316
Plagiorchhiidae
generic diagnosis emended
- Xenopodistomum xenopodis, illus.
Tinsley, R. C.; and Owen, R. W., 1979, J. Helminth., v. 53 (4), 307-316
Xenopodistomum xenopodis from Xenopus laevis laevis (gall bladder), morphology, growth and development, prevalence and intensity of infection, absence of pathological effects, parasite's diet: imported to England from Cape Flats, near Cape Town, South Africa
- Xiphidiocercaria II Sordi, 1959, illus.
Dolgikh, A. V., 1966, Republik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 114-133
description
Syn.: Cercaria monostomen Ankel, 1962
Hydrobia ventrosa: Novorossiisk bays
- Xiphidiocercaria A
Fashuyi, S. A.; and Williams, M. O., 1977, Ztschr. Parasitenk., v. 54 (1), 55-60
trematode-infected snails, role of oligochaete Chaetogaster limnaei in dynamics of trematode transmission (possibly protects snails against miracidia, plays no part in reducing number of cercariae), seasonal distribution in relation to cercarial shedding
Bulinus forskalii: Bo, Sierra Leone
- Xiphidiocercaria B
Fashuyi, S. A.; and Williams, M. O., 1977, Ztschr. Parasitenk., v. 54 (1), 55-60
trematode-infected snails, role of oligochaete Chaetogaster limnaei in dynamics of trematode transmission (possibly protects snails against miracidia, plays no part in reducing number of cercariae), seasonal distribution in relation to cercarial shedding
Lymnaea natalensis: Bo, Sierra Leone
- Xiphidiocercaria [sp.]
Saito, S.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 107-113
Semisulcospira spp.: Hiroshima Prefecture, Japan
- Xiphidiocercaria sp. 4 Odening
Sten'ko, R. P., 1978, Zool. Zhurnal, v. 57 (5), 658-663
Radix auricularia: Crimea
- Xiphidiocercariae, xiphidiometacercariae
Wright, C. A.; Rollinson, D.; and Goll, P. H., 1979, Parasitology, v. 79 (1), 95-105
Bulinus senegalensis and associated parasites, isoelectric focusing studies on enzymes, differences in prevalence and variety of infections in 7 host populations: south bank of Gambia River
- Xystretrum caballeroi Bravo-Hollis, 1954, illus.
Manter, H. W., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 93-97

- Xystretrum moretonense* sp. nov., illus.
Manter, H. W., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 93-97
Triacanthus biaculeatus (urinary bladder):
Moreton Bay region, Queensland, Australia
- Xystretrum plicoporatum* sp. nov., illus.
Manter, H. W., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 93-97
Balistidae (urinary bladder): Moreton Bay region, Queensland, Australia
- Xystretrum solidum* Linton, 1910, illus.
Manter, H. W., [1972], An. Inst. Biol., Univ. Nac. Mexico, v. 41 (1), s. Zool., 1970, 93-97
Xystretrum caballeroi, X. *solidum*, description of terminal genital ducts
- Yamagutiplectognathotrema* nom. nov.
Parukhin, A. M., 1977, Zool. Zhurnal, v. 56 (3), 459
for: *Plectognathotrematoides Yamaguti*, 1971, preoccupied by *Plectognathotrematoides Parukhin*, 1971
- Yamagutiplectognathotrema lobatus* (Ozaki, 1937) comb. nov.
Parukhin, A. M., 1977, Zool. Zhurnal, v. 56 (3), 459
- Zeugorchis aequatus*
Rau, M. E.; and Gordon, D. M., 1978, Canad. J. Zool., v. 56 (8), 1765-1767
helminths overwintering in garter snakes, host hypobiosis not accompanied by significant changes in prevalence or intensity of parasite infections
Thamnophis s. sirtalis (alimentary tract):
Ille Perrot, Province Quebec, Canada
- Zeuxapta japonica* (Yamaguti, 1940) Yamaguti, 1963
Lamothe-Argumedo, R., 1970, Rev. Biol. Trop., v. 16 (2), 1968, 153-169
morphological comparisons with *Z. seriola*
- Zeuxapta seriola* (Meserve, 1938) Price, 1962, illus.
Lamothe-Argumedo, R., 1970, Rev. Biol. Trop., v. 16 (2), 1968, 153-169
Zeuxapta seriola, redescription, morphological comparisons with *Z. japonica*
Caranx hippos (branquias): Bahia de Zihuatanejo, Mexico
- Zeuxapta seriola*
Rohde, K., 1978, Biol. Zentralbl., v. 97 (4), 405-418
gill parasites of marine fish, species numbers and microhabitat utilization at different latitudes, assumption of greater evolutionary speed in tropics as probable explanation of latitudinal gradients in species diversity (more species in tropical than in cold water fishes)
Seriola grandis
- Zonocotyle Travassos*, 1948
Padilha, T. N., 1978, Rev. Brasil. Biol., v. 38 (2), 415-429
Zonocotylidae
diagnosis; includes: *Z. bicaecata*
- Zonocotyle bicaecata* Travassos, 1948, illus.
Padilha, T. N., 1978, Rev. Brasil. Biol., v. 38 (2), 415-429

Neraasen, T. G.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens
Branta bernicla nigricans
all from Anderson River Delta, Northwest Territories, Canada
- Anomotaenia clavigera* (Krabbe, 1869)
Belopol'skaia, M. M., 1977, Vestnik Leningrad. Univ. (21), s. Biol. (4), 31-44
Calidris alpina: White Sea
- Anomotaenia depressoides* (Dollfus, 1958)
Illescas Gomez, P.; and Lopez Roman, R., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 851-854
Apus apus: provincia de Granada

- Anomotaenia globulus* (Wedl, 1855)
Belopol'skaia, M. M., 1977, Vestnik Leningrad. Univ. (21), s. Biol. (4), 31-44
Pluvialis apricaria: White Sea and Baltic Sea (Pukhtu)
P. dominica: lower Lena river
- Anomotaenia hydrochelidonis* Dubinina, 1953, illus.
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 153-161
Rissa tridactyla: lower Chukotka
- Anomotaenia macracantha* Fuhrmann, 1908
Rego, A. A., 1967, Atas Soc. Biol. Rio de Janeiro, v. 11 (2), 43-45
as syn. of *Parachoanotaenia macracantha* (Fuhrmann, 1908) comb. n.
- Anomotaenia microrhyncha* (Krabbe, 1869), illus.
Belopol'skaia, M. M., 1977, Vestnik Leningrad. Univ. (21), s. Biol. (4), 31-44
Charadrius hiaticula: White Sea
Tringa totanus: White Sea
Lymnocyptes minima: White Sea
Philomachus pugnax: Baltic Sea (Pukhtu, Rybachii)
Calidris alpina: Baltic Sea (Pukhtu, Rybachii); lower Lena (Chai-Tumus)
- Anomotaenia paucitesticulata* Fuhrmann, 1908
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
tentatively placed in *Notopentorchis* [comb. not made]
- Anomotaenia praecox* (Krabbe, 1869)
Illescas Gomez, P.; and Lopez Roman, R., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 851-854
Delichon urbica: provincia de Granada
- Anomotaenia pseudomicrorhyncha* nov. sp., illus.
Belopol'skaia, M. M., 1977, Vestnik Leningrad. Univ. (21), s. Biol. (4), 31-44
Calidris testacea: Baltic Sea (Pukhtu, Rybachii); lower Lena river
Calidris minuta: White Sea
- Anomotaenia reutensis* sp. n., illus.
Spasskaia, L. P.; and Shumilo, R. P., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (1), 56-64
Gallinago gallinago: poima reki Reut, raion Orgeeva
- Anonchocephalinae* n. subfam.
Protasova, E. N., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 133-144
Ancyrocephalidae n. fam.
includes: *Anonchocephalus* (type gen. of subfam.); *Glossobothrium*
- Anonchocephalus* Luehe, 1902 (type gen. of subfam.)
Protasova, E. N., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 133-144
Ancyrocephalidae n. fam., *Anonchocephalinae* n. subfam.
- Anonchotaenia bobica* Clerc, 1903
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
as syn. of *Orthoskrjabinia bobica* (Clerc, 1903) Spassky, 1947
- Anonchotaenia conica* Fuhrmann, 1908
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
as syn. of *Orthoskrjabinia conica* (Fuhrmann, 1908) Spassky, 1947
- Anonchotaenia globata* (Linstow, 1879)
Baugh, S. C.; and Saxena, S. K., 1976, Ang. Parasitol., v. 17 (3), 146-160
Passer domesticus: Lucknow, India
- Anonchotaenia globata* (Linstow, 1879)
Illescas Gomez, P.; and Lopez Roman, R., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 851-854
Sylvia atricapilla
Alauda arvensis
Hirundo rustica
all from provincia de Granada
- Anonchotaenia globata* (Linstow, 1879), illus.
Saxena, S. K.; and Baugh, S. C., 1978, Ang. Parasitol., v. 19 (2), 85-106
description
Passer domesticus: Uttar Pradesh, India
- Anophryocephalus skrjabini* (Krotov et Delamure, 1955)
Deliamure, S. L.; and Popov, V. N., 1974, Parazitologiya, Leningrad, v. 8 (2), 89-92
helminths of *Pusa hispida ochotensis*, seasonal variation: Okhotsk Sea
- Anophryocephalus skrjabini* (Krotov et Delamure, 1955)
Popov, V. N., 1975, Parazitologiya, Leningrad, v. 9 (1), 31-36
helminth fauna of *Histriophoca fasciata*, intensity and extensity, host age dynamics
Histriophoca fasciata (intestine): southern Okhotsk Sea
- Anoplocephala* spp.
Colglazier, M. L., 1979, Am. J. Vet. Research, v. 40 (3), 384-386
gastrointestinal helminths and stomach bots, ponies, critical trials with oxfendazole and caviphos; observations on spontaneous elimination of small strongylids prior to treatment: Maryland
- Anoplocephala magna*
Drudge, J. H.; Lyons, E. T.; and Tolliver, S. C., 1978, J. Equine Med. and Surg., v. 2 (1), 22-26
nematodes, cestodes, horses, controlled tests and clinical trials with suspension and granule formulations of fenbendazole highly effective; dose rate of 10 mg/kg inadequate for effective control of *Strongyloides westeri*; no activity on *Gasterophilus* spp., *Habronema* spp., *Draschia*, *Anoplocephala* spp.
- Anoplocephala magna*
Drudge, J. H.; Lyons, E. T.; and Tolliver, S. C., 1979, J. Equine Med. and Surg., v. 3 (3), 135-140
parasites, horses, critical tests with febantel alone or in combination with trichlorfon
- Anoplocephala magna*, illus.
Valvassori, R.; and de Equileor, M., 1977, Atti Accad. Naz. Lincei, Roma, s. 8, ann. 373, v. 61 (5), 1976, 495-502
Anoplocephala magna, fine structure of longitudinal and circular muscles, electron microscopy

- Anoplocephala perfoliata*
Bain, S. A.; and Kelly, J. D., 1977, N. Zealand Vet. J., v. 25 (1-2), 27-28
Anoplocephala perfoliata, survey of prevalence in horses, seasonal occurrence, no significant differences between ages or sexes of host: abattoir, South Auckland
- Anoplocephala perfoliata*
Cairns, G. C.; and Holmden, J. H., 1977, N. Zealand Vet. J., v. 25 (1-2), 35-37
cambendazole, efficacy against horse parasites
- Anoplocephala perfoliata*
Drudge, J. H.; Lyons, E. T.; and Tolliver, S. C., 1978, J. Equine Med. and Surg., v. 2 (1), 22-26
nematodes, cestodes, horses, controlled tests and clinical trials with suspension and granule formulations of fenbendazole highly effective; dose rate of 10 mg/kg inadequate for effective control of *Strongyloides westeri*; no activity on *Gasterophilus* spp., *Habronema* spp., *Draschia*, *Anoplocephala* spp.
- Anoplocephala perfoliata*
Drudge, J. H.; Lyons, E. T.; and Tolliver, S. C., 1979, J. Equine Med. and Surg., v. 3 (3), 135-140
parasites, horses, critical tests with febantel alone or in combination with trichlorfon
- Anoplocephala perfoliata*
Grieve, R. B.; Moore, B. G.; and Bradley, R. E., 1979, Am. J. Vet. Research, v. 40 (1), 139-141
gastrointestinal parasites, horses and ponies, critical test evaluation of butamisol, compared with efficacy of piperazine-thiabendazole
- Anoplocephala perfoliata*
Slocombe, J. O. D., 1979, Canad. Vet. J., v. 20 (5), 136-140
Anoplocephala perfoliata, horses, prevalence, efficacy of pyrantel pamoate, mebendazole, and niclosamide in field and critical trials: southern Ontario
- Anoplocephalidae*
Tenora, F.; and Murai, E., 1978, Acta Zool. Acad. Scient. Hungar., v. 24 (3-4), 415-429
key to 6 species of mammals of families Leporidae and Sciuridae in Europe
- Anoplocephalidae* [sp.]
Gottschalk, C., 1973, Ang. Parasitol., v. 14 (1), 44-54
endo-parasites of *Lepus europaeus*, seasonal dynamics, distribution according to locality, sex and age of host, economic importance of parasitism for regional hunting: Ostthuringen, DDR
- Anoplocephalidea*, new order
Wardle, R. A.; McLeod, J. A.; and Radinovsky, S., 1974, Advances in the zoology of tapeworms, 1950-1970, rev. of Wardle, R. A.; and McLeod, J. A., [1952 a], 274 pp., illus.
- Anoplocephalids*
Melbourne, C. P., 1978, J. Zoo Animal Med., v. 9 (4), 146-148
helminths, zebras, mebendazole: Longleat Safari Park, Great Britain
- Anoplocephalinae*
Tenora, F., 1978, Acta Univ. Agric., Fac. Agronom., Brno, v. 26 (2), 135-138
Anoplocephalinae, main morphological and anatomical characters
- Anoplocephaloides dentata* (Galli-Valerio, 1905)
Mas-Coma, S.; Tenora, F.; and Rocamora, J. M., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 63-72
Microtus agrestis
M. nivalis
(intestino ciego of all): all from region catalana, Queralbs, Peninsula Iberica
- Anoplocephaloides romerolagi* sp. n., illus.
Kamiya, M.; Suzuki, H.; and Villa-R., 1979, Japan. J. Vet. Research, v. 27 (3-4), 67-71
Romerolagus diazi (bile duct): Parres, 50 km south of Mexico City, Mexico
- Anoplocephaloides wimerosus* (Moniez, 1880)
Rausch, 1976
Tenora, F.; and Murai, E., 1978, Acta Zool. Acad. Scient. Hungar., v. 24 (3-4), 415-429
key
- Anteropera Subhapradha*, 1957
Shinde, G. B.; and Chincholikar, L. N., [1978], Riv. Parassitol., Roma, v. 38 (2-3), 1977, 171-175
as syn. of *Monoporophyllaeus*
- Anthobothrium cornucopia* (Beneden, 1850)
Threlfall, W., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 805-811
Raja radiata: Newfoundland
- Anthobothrium laciniatum* Linton, 1890, illus.
Rego, A. A., 1977, Rev. Brasil. Biol., v. 37 (4), 847-852
description
Carcharinus longimanus (valvula espiral): Costa do Recife, Pernambuco, Oceano Atlantico
- Aploparaksis birulai*, illus.
Bondarenko, S. K.; and Krasnoshchekov, G. P., 1978, v. 57 (4), 485-494
Aploparaksis birulai, postembryonic development in *Lumbriculus*, morphological and histological descriptions; cysticeroid is floriceroid type
Lumbriculus variegatus (exper.)
Lumbriculus sp. (exper.)
Somateria fischeri (exper.)
- Aploparaksis furcigera* (Nitzsch in Rudolphi, 1819) Fuhrmann, 1908
Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos
A. penelope
all from south-east England
- Aploparaksis larina* (Fuhrmann, 1921)
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 153-161
Sterna paradisea: lower Enisei
- Aploparaksis moldavica* sp. n., illus.
Spasskaia, L. P.; and Shumilo, R. P., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (1), 56-64
Gallinago gallinago: Moldaviia, okr. sela Pashkany

- Aploparaksis parafilum* Gasovska, 1932 (?)
Maksimova, A. P., 1973, *Parazitologiya*, Leningrad, v. 7 (4), 349-352
brief description of cysticeroid
Artemia salina: Tengiz lake, Tselinogradsk oblast, Northern Kazakhstan
- Aploparaksis polystictae*, *illus.*
Krasnoshchekov, G. P.; Kashin, V. A.; and Kontrimavichus, V. L., 1978, *Dokl. Akad. Nauk SSSR*, v. 241 (6), 1481-1484
Aploparaksis polystictae cysticeroid, lipid distribution at various stages of development
- Aploparaksis scolopacis* Yamaguti, 1935, *illus.*
Korniushin, V. V., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 207-212
redescription, valid species
Scolopax rusticola: Black Sea coast in Ukraine
- Aporia*, new order
Wardle, R. A.; McLeod, J. A.; and Radinovskiy, S., 1974, *Advances in the zoology of tapeworms, 1950-1970*, rev. of Wardle, R. A.; and McLeod, J. A., [1952 a], 274 pp., *illus.*
- Aporina* Fuhrmann, 1902
Saxena, S. K.; and Bauch, S. C., 1973, *Ang. Parasitol.*, v. 14 (4), 236-245
Aporina, taxonomy, differentiation from *Killigrewia* and *Taufikia*
- Aporina borealis* Linstow, 1905
Saxena, S. K.; and Bauch, S. C., 1973, *Ang. Parasitol.*, v. 14 (4), 236-245
as syn. of *Neoaporina borealis* (Linstow, 1905) [n. comb.]
- Aporina delafondi* (Railliet, 1892) Baer, 1927
Saxena, S. K.; and Bauch, S. C., 1973, *Ang. Parasitol.*, v. 14 (4), 236-245
as syn. of *Killigrewia delafondi* (Railliet, 1892) n. comb.
- Aporina delafondi* (Railliet)
Shotter, R. A., 1978, *Zool. J. Linn. Soc.*, London, v. 62 (2), 193-203
parasites of *Columba guinea*, intensity of infection, sex of host: Ahmadu Bello University Campus, Zaria, Nigeria
- Aporina fuhrmanni* Skrjabin, 1915
Saxena, S. K.; and Bauch, S. C., 1973, *Ang. Parasitol.*, v. 14 (4), 236-245
as syn. of *Pseudoaporina fuhrmanni* (Skrjabin, 1915) [n. comb.]
- Aprostataandrya* sp., *illus.*
Iushkov, V. Iu., 1971, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 22, 232-248
description
Sciurus vulgaris (small intestine): Komi ASSR
- Aprostataandrya caucasica* Kirschenblat, 1938
Iushkov, V. Iu., 1971, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 22, 232-248
Clethrionomys rutilus (small intestine)
Microtus agrestis
Clethrionomys glareolus
Arvicola terrestris
Microtus oeconomus
all from Komi ASSR
- Aprostataandrya macrocephala* (Douthitt, 1915)
Erhardova-Kotrla, B.; and Daniel, M., 1971, *Folia Parasitol.*, v. 18 (3), 227-233
Alticola argentata (caecum): Eastern Hindu Kush, West Pakistan (Tirich Mir region)
- Aprostataandrya macrocephala* (Douthitt, 1915)
Iushkov, V. Iu., 1971, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 22, 232-248
Clethrionomys glareolus (small intestine)
C. rutilus
Microtus agrestis
Clethrionomys rufocanus
Arvicola terrestris
all from Komi ASSR
- Aprostataandrya macrocephala* (Douthitt, 1915)
Spassky, 1951
Kisieleska, K., 1970, *Acta Parasitol. Polon.*, v. 18 (13-26), 163-176
structure and seasonal dynamics of intestinal helminth groupings in *Clethrionomys glareolus* populations of various forest biocoenoses in Poland
- Aprostataandrya macrocephala* (Deuthill, 1915)
Krasowska, I., 1974, *Acta Parasitol. Polon.*, v. 22 (35-44), 423-440
intestinal helminths, *Microtus arvalis*, fecal examination, Fulleborn flotation method evaluated under field conditions, useful in helminth population dynamics, not in diagnosis
- Aprostataandrya macrocephala*
Merkusheva, I. V., 1976, *Vestsi Akad. Navuk BSSR*, s. Biial. Navuk (4), 88-94
helminths of murine rodents, changes in parasite fauna compared to changes in forest biotope over several years: Belorussian Polesia
- Aprostataandrya macrocephala* (Douthitt, 1915)
Spassky 1951
Ubelaker, J. E.; and Downhower, J. F., 1965, *Tr. Kansas Acad. Sc.*, v. 68 (1), 206-208
Aprostataandrya macrocephala and *Paramoplocephala infrequens*, "the relationship between these two cestodes may be antagonistic."
Geomys bursarius (small intestine): Lawrence, Douglas Co., Kansas
- Archigetes iowensis* Calentine 1962, *illus.*

- Atelemerus* Quiart, 1935
Protasova, E. N., 1974, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 24, 133-144
Echinophallidae, Echinophallinae
- Atractolytocestus huronensis*
Edwards, S.; and Mueller, J. F., 1978, *J. Parasitol.*, v. 64 (5), 877
various genera and species of Caryophyllaeidae, apparent absence of C-viruslike particles which are found in Pseudophyllidea
- Atriotaeenia* Sandground, 1926
Saxena, S. K.; and Bauch, S. C., 1978, *Ang. Parasitol.*, v. 19 (2), 85-106
taxonomy, amendment in generic delineation suggested

- Atriotaeia antrozoi* (Voge, 1954) n. comb.
Saxena, S. K.; and Baugh, S. C., 1978, *Ang. Parasitol.*, v. 19 (2), 85-106
Syn.: *Mathevotaenia antrozoi* (Voge, 1954)
Yamaguti, 1959
- Atriotaeia parva* Sandground, 1926
Schmidt, G. D.; and Martin, R. L., 1978, *J. Helminth.*, v. 52 (3), 205-209
Nasua nasua aricana: Chaco Boreal, western Paraguay
- [*Avitellina*] *avitellin*
Vibe, P., 1978, *Veterinariia*, Moskva (5), 21-22
cestodes, sheep, fenasal highly effective for mass dehelminthiazation: southern Kazakhstan
- Avitellina* spp.
Selim, M. K.; et al., 1970, *Vet. Med. J.*, Giza, v. 17 (18), 173-193
cattle
sheep
camels
all imported to United Arab Republic
- A[*vitellina*] *centripunctata*
Bankov, D., 1976, *Vet. Med. Nauki*, v. 13 (10), 28-36
cestodes of sheep, drug trials; *Stilesia globipunctata*, tested several diagnostic methods with unfavorable results
- Avitellina centripunctata* (Rivolta, 1874), Gough, 1911
Bogdanov, V. R.; et al., 1977, *Sborn. Nauch. Rabot SibNIVI, Sibirsk. Nauchno-Issled. Vet. Inst.* (29), 90-91
cestodes, pathomorphology resulting from action of various anthelmintics
- Avitellina centripunctata*
Delavenay, R. P., 1978, *Rev. Elevage et Med. Vet. Pays Trop.*, n. s., v. 31 (2), 171-177
parasites of *Camelus dromedarius*, nitroxynil, well tolerated in toxicity assay, very effective against *Cephalopina titillator* and *Haemonchus contortus*: Ethiopia
- Avitellina centripunctata*
Della Bruna, C.; Ricciardi, M. L.; and Sanfilippo, A., 1973, *Antimicrob. Agents and Chemotherapy*, v. 3 (6), 708-710
axenomycins, effectiveness against several cestode spp. in nat. and exper. infections of various animals
- Avitellina centripunctata* (Rivolta, 1874)
Matevosian, E. M., 1978, *Biol. Zhurnal Armenii*, v. 31 (9), 979-982
Avitellina centripunctata, need to study life cycle, problems related to study
- Baerfainia Yamaguti*, 1959
Spasskii, A. A., 1979, *Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk* (1), 67-70
returned to Davaineidae from Hymenolepididae

redescription
Barbus bynni (anterior part of intestine): Nile River at Giza near Cairo, Egypt
- Bothriocephalus atherinae*
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)
- Bothriocephalus barbus* sp. nov., illus.
Fahmy, M. A. M.; Mandour, A. M.; and El-Naffar, M. K., 1978, Vet. Med. J., Giza, v. 24 (24), 1976, 253-262
Barbus bynni (stomach, ileum): River Nile, Assiut, Egypt

- Bothriocephalus claviceps*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Micropterus dolomieu (intestine): Susquehanna River, Pennsylvania
- Bothriocephalus claviceps* (Goeze, 1782)
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Anguilla anguilla: Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Bothriocephalus claviceps* Goeze
Seyda, M., 1973, Acta Ichthyol. et Piscat., v. 3 (2), 67-76
Anguilla anguilla: Szczecin Firth, West Odra River, and Dabie Lake, Poland
- Bothriocephalus cuspidatus* Cooper, 1917
Amin, O. M., 1977, Tr. Wisconsin Acad. Sc., Arts and Lett., v. 65, 225-230
fish parasites, differential distribution in two streams
Lepomis cyanellus: southeastern Wisconsin
- Bothriocephalus cuspidatus*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Micropterus dolomieu (cecae)
Stizostedion vitreum (cecae, stomach, intestine)
all from Susquehanna River, Pennsylvania
- Bothriocephalus cuspidatus* Cooper, 1917
Jilek, R.; and Price, R., 1978, Canad. J. Zool., v. 56 (11), 2456-2457
Dorosoma cepedianum (intestines): Crab Orchard Lake, Williamson County, and Carlyle Lake, Clinton County, Illinois
- Bothriocephalus cuspidatus* Cooper, 1917
Tedla, S.; and Fernando, C. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 833-843
Perca flavescens (intestine): Bay of Quinte, Lake Ontario
- Bothriocephalus euryciensis* n. sp., illus.
Schaefer, G. B.; and Self, J. T., 1978, Proc. Oklahoma Acad. Sc., v. 58, 154-155
Eurycea longicauda: Adair Cave, Adair County, Oklahoma
- Bothriocephalus gowkongensis*
Bachinskii, V. P., 1969, Rybn. Khoziaist., Kiev (8), 104-106
[*Cyprinus carpio*]
[*Abramis brama*]
[*Rutilus rutilus*]
[*Leuciscus idus*]
all from Kremenchugsk reservoir
- Bothriocephalus gowkongensis*
Davydov, O. N., 1973, Parazitologiya, Leningrad, v. 7 (4), 357-363
Bothriocephalus gowkongensis, effect of sodium, potassium, and calcium ions on locomotor activity
- Bothriocephalus gowkongensis*
Davydov, O. N., 1978, Gidrobiol. Zhurnal, v. 14 (4), 70-77
Bothriocephalus gowkongensis in cyprinid fishes, growth, development, and fertility in relation to temperature, host age and diet, and intensity of invasion
- Bothriocephalus gowkongensis* Yeh, 1955
Dubovskaia, A. Ia., 1973, Parazitologiya, Leningrad, v. 7 (2), 154-159
cestodes from different classes of vertebrate hosts, proteolytic activity, enzymatic activity of parasite is adapted to intensity of host's metabolism
- Bothriocephalus gowkongensis*
Iskov, M. P., 1979, Gidrobiol. Zhurnal, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Bothriocephalus gowkongensis* Yeh, 1955
Iukhimenko, S. S., 1970, Parazitologiya, Leningrad, v. 4 (5), 480-483
Ctenopharyngodon idella
Elopichthys bambusa
Opsariichthys uncirostris
all from Amur river
- Bothriocephalus gowkongensis*, illus.
Koerting, W., 1977, Fisch u. Umwelt (4), 37-48
fish parasites, histopathological changes
- Bothriocephalus gowkongensis*
Kozachenko, N. G.; and Vasil'kov, G. V., 1977, Veterinariia, Moskva (7), 59-62
Philometroides lusiana, carp, serology did not reveal any antibodies, allergic reaction nonspecific; host specific antigen recovered from extract of *P. lusiana* but not from *Bothriocephalus gowkongensis*
- Bothriocephalus gowkongensis*
Kuperman, B. I., 1978, Dokl. Akad. Nauk SSSR, v. 242 (1), 245-248
Eubothrium rugosum, *Bothriocephalus gowkongensis*, oncosphere, proceroid, plerocercoid, tegument ultrastructure; evolution of cestode tegument briefly discussed
- Bothriocephalus gowkongensis* Yeh, 1955
Nedeva-Menkova, I., 1977, Khel'mintologiya, Sofiia, v. 4, 34-39
Cyprinus carpio (intestine): Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Bothriocephalus gowkongensis*
Strazhnik, L. V.; and Davydov, O. N., 1975, Parazitologiya, Leningrad, v. 9 (1), 37-46
3 spp. of fish cestodes, glycogen content of parasites and host tissues, seasonal changes in glycogen content of parasites; effect of experimental exposure to various temperatures on parasite glycogen content, motor activity, and duration of life; effect of starvation on glycogen content of parasite and host in aquariums at various temperatures
- Bothriocephalus rarus*
Dunbar, J. R.; and Moore, J. D., 1979, J. Tennessee Acad. Sc., v. 54 (3), 106-109
helminths of plethodontid salamanders, host specificity correlated with host habitat
Desmognathus quadramaculatus: Horse Cove area, Washington County, Tennessee

- Bothriocephalus rarus* Thomas (1937), illus.
Jarroll, E. L., jr., 1979, *Parasitology*, v. 79 (2), 183-193
Bothriocephalus rarus, natural and experimental infections of copepod intermediate hosts, distribution and abundance in adult and larval *Notophthalmus viridescens*, parasite recruitment by *N. viridescens*, seasonal cycles in population structure, intensity of infection, maturation, and reproduction, effect of temperature on egg development
Notophthalmus viridescens
Macrocyclus ater (nat. and exper.)
Mesocyclops edax (exper.)
all from Ritchie County, West Virginia
- Bothriocephalus scorpii* (Mueller, 1775), illus.
Bazitov, A. A., 1978, *Biol. Moria, Vladivostok* (2), 87-91
Bothriocephalus scorpii, spermatogenesis described
Myoxocephalus sp. (pyloric appendage): Sea of Japan
- Bothriocephalus scorpii* (Mull., 1776), illus.
Bazitov, A. A.; et al., 1978, *Zool. Zhurnal*, v. 57 (5), 653-657
Bothriocephalus scorpii, embryonic development, cleavage characteristics, duration of developmental stages, time and growth rate of oncosphere hooks
Myoxocephalus sp. (pyloric appendages): Sea of Japan
- Bothriocephalus scorpii* (Mueller, 1776)
Gaevskaia, A. V.; and Umnova, B. A., 1977, *Biol. Moria, Vladivostok* (4), 40-48
Limanda ferruginea (intestine): Georges Bank, Northwest Atlantic
- Bothriocephalus scorpii*, illus.
Graeber, K.; and Storch, V., 1979, *Zool. Anz., Jena*, v. 202 (5-6), 331-347
cestodes, trematodes, integument, scanning and transmission electron microscopy, morphology
- Bothriocephalus scorpii*, illus.
Kotikova, E. A.; and Kuperman, B. I., 1978, *Biol. Moria, Vladivostok* (6), 41-46
Pseudophyllidea nervous systems, morphology, changes in scolex structure related to changes in nervous system structure
Myoxocephalus stelleri: Kamchatsk Gulf
- Bothriocephalus scorpii*
MacKenzie, K.; and Gibson, D. I., 1970, *Symposia Brit. Soc. Parasitol.*, v. 8, 1-42
Pleuronectes platessa
Platichthys flesus
(intestine of all): all from Scotland
- Bothriocephalus scorpii* Mueller, 1776
Meyers, T. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 120-128
Pseudopleuronectes americanus (intestine, pyloric caeca)
Scophthalmus aquosus (intestine)
all from Raritan Bay, New Jersey
- Bothriocephalus scorpii* Mueller, 1776
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
synonymy
Coregonus lavaretus
Perca fluviatilis
Lucioperca lucioperca
Hyperoplus lanceolatus
Scophthalmus maximus
Gadus callarias
Syngnathus typhle
Clupea harengus
Myoxocephalus scorpius
(intestine of all): all from Gdansk Bay (Baltic Sea)
- Bothriocephalus scorpii* Naller, 1766
Tsimbaliuk, E. M.; and Semeshko, N. N., 1971, *Parazitologiya, Leningrad*, v. 5 (5), 424-428
Myoxocephalus platicephalus platicephalus
Platichthys stellatus
Myoxocephalus stelleri stelleri
Hadropareia middendorffii
Eleginus navaga gracilis
(digestive tract of all): all from littoral zone of Okhotsk Sea near entrance to Penzhinsk zaliv, western Kamchatka
- Bothriocotyle Ariola*, 1900
Protasova, E. N., 1974, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 24, 133-144
Echinophallidae, *Bothriocotylinae*
- Bothriocotylinae Yamaguti*, 1959
Protasova, E. N., 1974, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 24, 133-144
Echinophallidae
includes: *Bothriocotyle* (type gen. of subfam.)

- Calliobothrium eschrichtii* Beneden, 1849
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Mustelus canis (intestine): Raritan Bay, New Jersey
- Calliobothrium verticillatum*
McDaniel, J. S.; MacInnis, A. J.; and Read, C. P., 1976, Rice Univ. Studies, v. 62 (4), 205-209
flatworms (free-living, symbiotic, parasitic), effects of carbon dioxide on glucose incorporation, results suggest that rates of glyco-gen synthesis in some flatworms vary with level of available carbon dioxide in the environment
- Calliobothrium verticillatum* Rudolphi, 1819
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Mustelus canis (intestine): Raritan Bay, New Jersey
- Callotetrarhynchus gracilis* Rudolphi, 1819
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Pomatomus saltatrix (pyloric caeca, mesenteries): Raritan Bay, New Jersey
- Capingens singularis*
Edwards, S.; and Mueller, J. F., 1978, J. Parasitol., v. 64 (5), 877
various genera and species of Caryophyllaeidae, apparent absence of C-viruslike particles which are found in Pseudophyllidea
- Capingentidae
Mackiewicz, J. S.; and Blair, D., 1978, J. Helminth., v. 52 (3), 199-203

van Maren, M. J., 1979, Bull. Zool. Mus. Univ. Amsterdam, v. 6 (24), 189-200
Barbus barbus
Leuciscus cephalus
L. leuciscus
all from Rhone River, N.E. of Lyon, France
- Caryophyllaeus laticeps* Pallas
Mashtakov, A. V.; et al., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 68-71
[*Abramis brama*] (intestine): Votkinsk reservoir
- Caryophyllaeus laticeps* (Pallas, 1781)
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Abramis brama: Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Caryophyllaeus laticeps*
Otvodova, G. D., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad, v. 93, 112-116
[*Abramis brama*] (intestine): Pskov-Chudskoe lake
- Caryophyllaeus laticeps* (Pallas, 1781)
Rokicki, J., 1970, Acta Parasitol. Polon., v. 18 (1-12), 71-79
Vimba vimba: Poland
- Caryophyllaeus laticeps* (Pallas, 1781)
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
synonymy
Vimba vimba
Abramis brama
Blicca bjoerana
Rutilus rutilus
Platichthys flesus
Lucioperca lucioperca
Leuciscus idus
(intestine of all): all from Gdansk Bay (Baltic Sea)
- Caryophyllidea*
Bazitov, A. A., 1976, Zool. Zhurnal, v. 55 (12), 1779-1787
Caryophyllidea, status in system of flatworms, embryogenesis and adult tissue organization compared with other cestodes; *Caryophyllidea* considered more primitive than other cestodes; taxonomic status of cestodes unsolved
- Caryophyllidea*
Mackiewicz, J. S.; and Blair, D., 1978, J. Helminth., v. 52 (3), 199-203
key to families, includes: *Balanotaeniidae* fam. n.; *Lytocestidae*; *Caryophyllaeidae*; *Capingentidae*
- Caryophyllidean cestodes*
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 401-409
key to *caryophyllidean cestodes* of Iowa fishes
includes: *Hunterella nodulosa* Mackiewicz & McCrae 1962; *Glaridacris catostomi* Cooper 1920; *Glaridacris confusa* Hunter 1929; *Glaridacris oligorchis* Haderlie 1953; *Hypocaryophyllaeus paratarius* Hunter 1927; *Spartoides wardi* Hunter 1929; *Monobothrium ingens* Hunter 1927; *Monobothrium ulmeri* Calentine & Mackiewicz 1966; *Monobothrium hunteri* Mackiewicz 1966; *Khawia iowensis* Calentine & Ulmer 1961; *Isoglaridacris longus* Fredrickson & Ulmer 1967; *Isoglaridacris folius* Fredrickson & Ulmer 1967; *Archigetes iowensis* Calentine 1962; *Biacetabulum biloculoides* Mackiewicz & McCrae 1965; *Biacetabulum carpiodi* Mackiewicz 1969; *Biacetabulum macrocephalum* McCrae 1962; *Biacetabulum infrequens* Hunter 1927; *Biacetabulum giganteum* Hunter 1929
- Catenotaenia* Janicki, 1904
Tenora, F., 1977, Acta Univ. Agric., Fac. Agronom., Brno, v. 25 (2), 163-170
Catenotaenia, systematic reorganization, diagnosis, hypothetical evolution key to subgen. and species
includes: subgen. *Catenotaenia* s. str.; *Hemicatenotaenia* subgen. nov.
- Catenotaenia* s. str.
Tenora, F., 1977, Acta Univ. Agric., Fac. Agronom., Brno, v. 25 (2), 163-170
subgen. of *Catenotaenia* Janicki, 1904, key type species: *Catenotaenia* (*Catenotaenia* s. str.) *pusilla* (Goeze, 1782)
- Catenotaenia* (*Catenotaenia* s. str.) *afghana* n. sp.
Tenora, F., 1977, Acta Univ. Agric., Fac. Agronom., Brno, v. 25 (2), 163-170
key, syn.: *Catenotaenia dentritica* (Goeze, 1782) *sensu* Tenora et Kullmann, 1970
Cricetulus migratorius
Alticola roylei
all from Unai, Salang, 3000-3400 m a.s.l., Afghanistan
- Catenotaenia asiatica* Tenora et Murai, 1975, illus.
Mas-Coma, S.; Tenora, F.; and Rocamora, J. M., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 63-72

brief description
Clethrionomys rufocanus bedfordiae (liver,
abdominal cavity)
Apodemus speciosus aimu (liver)
all from Nopporo National Forest, vicinity of
Nopporo, 20 km east of Sapporo, Hokkaido,
Japan
- Cladothyridium* sp., illus.
Kamiya, H.; et al., 1977, Kiseitokugaku Zasshi
(Japan. J. Parasitol.), v. 26 (3), 148-156
Clethrionomys rufocanus bedfordiae (liver):
Kushiro district, Eastern Hokkaido, Japan
- Cleberia* gen. n.
Rego, A. A., 1967, Atas Soc. Biol. Rio de
Janeiro, v. 11 (2), 79-80
Anoplocephalidae, Linstowiinae
tod: *C. oligonchius* sp. n.
- Cleberia oligonchius* sp. n. (tod), illus.
Rego, A. A., 1967, Atas Soc. Biol. Rio de
Janeiro, v. 11 (2), 79-80
Agouti paca (intestino delgado): Peraru,
Município de Caetano de Odiveas, Estado de
Para
- Clelamdia Johnston*, 1909 emend., illus.
Bona, F. V., 1978, Ann. Parasitol., v. 53 (2),
163-180
Clelamdia, remarks on diagnosis and validity,
comparisons and affinities with *Parvitaenia*
and *Neogryporhynchus*, phylogenetic links of
Parvitaenia with other genera infesting
Ciconiiformes
- Clelamdia parva*, illus.
Bona, F. V., 1978, Ann. Parasitol., v. 53 (2),
163-180
redescription
- Clestobothrium Rudolphi*, 1808
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
Ptychobothriidae, Ptychobothriinae
- Clestobothrium crassiceps* (Rudolphi, 1819)
Gavnskaia, A. V.; and Umova, B. A., 1977,
Biol. Moria, Vladivostok (4), 40-48
Merluccius bilinearis (intestine): Georges
Bank, Northwest Atlantic
- Clestobothrium crassiceps* Rudolphi, 1808
Meyers, T. R., 1978, Proc. Helminth. Soc.
Washington, v. 45 (1), 120-128
Merluccius bilinearis (intestine, pyloric
caeca, rectum): Raritan Bay, New Jersey
- Cloacotaenia Wolffhuegel*, 1938
Spasskii, A. A., 1977, Izvest. Akad. Nauk
Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-
70
Syn.: *Lailum Jehri*, 1960
- Cloacotaenia megalops* (Nitzsch im Creplin, 1829)
Wolffhuegel, 1938
Bewerley-Burton, M., 1975, Acta Parasitol.
Polon., v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos
A. crecca
A. acuta
Spatula clypeata
Aythya fuligula
(cloaca of all): all from south-east England
- Cloacotaenia megalops* (Nitzsch im Creplin, 1829)
Wolffhuegel, 1938
Czaplinski, B., 1975, Acta Parasitol. Polon.,
v. 23 (26-40), 305-327
Hymenolepididae of wild *Cygnus olor*, ex-
tensiveness and intensity of infestation,
age and sex of host, seasonal variation,
distribution within digestive tract: Poland
synonymy

- Cloacotaenia megalops*
Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Cloacotaenia megalops* (Nitzsch, 1829)
Neraasen, T. G.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens: Anderson River Delta, Northwest Territories, Canada
- Cloacotaenia megalops* (Nitzsch, 1829) Wolffhuegel, 1938
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
Lallum magniparuterina, aberrant example of *Cloacotaenia megalops*
- Coelobothrium Dollfus*, 1969
Protasova, E. N., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 133-144
Ptychobothriidae, Ptychobothriinae
- Coenurosis*
Artem'ev, G. M., 1978, Vestnik Sel'skokhoz. Nauki Kazakhstana (10), 91-93
helminthiasis, sheep, economic losses, phenothiazine salt and cupric sulfate mix: Pavlodarsk oblast
- Coenurosis*
Tsolov, B., 1977, Vet. Sbirka, v. 75 (3), 40-41
coenurosis, sheep, devastation caused by this disease, role of dogs in epidemiology: Vidin okrug
- Coenurus* or *Cysticercus*
Prosser, P. R.; Wilson, C. B.; and Forsham, P. H., 1978, Am. J. Trop. Med. and Hyg., v. 27 (5), 976-979
intrasellar cysticercosis presenting as pituitary tumor, woman, case report, successful transsphenoidal cystectomy without compromising pituitary function: El Salvador
- Coenurus* [sp.]
Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca radiata: wild caught in Asia, maintained at National Center for Primate Biology
- Coenurus cerebralis*
Dyson, D. A.; and Linklater, K. A., 1979, Vet. Rec., v. 104 (23), 528-529
Coenurus cerebralis, lambs (brain), problems of diagnosis other than by post mortem examination: United Kingdom
- Coenurus serialis*
Courtin, S.; et al., 1979, Arch. Med. Vet., Valdivia, v. 11 (1), 23-26
Oryctolagus cuniculus: Nahuelbuta, Chile
- Corallobothriinae*
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Proteocephalidae
includes: *Corallobothrium*; *Corallotaenia*; *Paraproteocephalus*; *Megathylacus*; *Megathylacoides*; *Marsipocephalus*; *Choanoscolex incertae sedis*; *Sciadocephalus incertae sedis*
- Corallobothrium* Fritsch, 1886
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Proteocephalidae, *Corallobothriinae*
- Corallobothrium* sp.
Boxrucker, J. C., 1979, Parasitology, v. 78 (2), 195-206
Ictalurus melas: Lake Monona, Dane County, Wisconsin
- Corallobothrium* sp.
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Ictalurus nebulosus
Ictalurus natalis
both from Florida
- Corallobothrium solidum* Fritsch, 1886, illus.
Fahmy, M. A. M.; Mandour, A. M.; and El-Naffar, M. K., 1978, Vet. Med. J., Giza, v. 24 (24), 1976, 253-262
description
Salopterus electricus (ileum, rectum): River Nile, Assiut, Egypt
- Corallotaenia* Freze, 1965
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Proteocephalidae, *Corallobothriinae*
- Coronacanthus apodemi*
Ishimoto, Y., 1974, Japan. J. Vet. Research, v. 22 (1-2), 13-31
helminths of voles, ecology, age and sex of host, seasonal changes: Nopporo National Forest, east of Sapporo, Hokkaido, Japan
- Coronacanthus apodemi* (Yamaguti, 1954) Spassky, 1954, illus.
Ishimoto, Y., 1974, Japan. J. Vet. Research, v. 22 (1-2), 1-12
description
Apodemus argenteus hokkaidi (small intestine): Nopporo National Forest, vicinity of Nopporo, 20 km east of Sapporo, Hokkaido, Japan
- Cotugnia* sp., illus.
Venkata Rama Krishna, G.; Narsiah, J. V.; and Simha, S. S., 1979, Current Sc., Bangalore, v. 48 (4), 183-184 [Letter]
Cotugnia sp., nervous system structure, acetylcholinesterase distribution, histochemical study
- Cotugnia bikanerensis* n. sp., illus.
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
key
Pterocles exustus (intestine): Bikaner, Rajasthan, India
- Cotugnia cuneata* Meggitt, 1924
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
key
Streptopelia decaocto (intestine): Devikund, Bikaner Dist., Rajasthan, India

- Cotugnia meleagridis*
Hodasi, J. K. M., 1976, Bull. Animal Health and Prod. Africa, v. 24 (1), 81-87
incidence and intensity
Numida meleagris galeata (upper small intestine, duodenum, gall bladder): markets of Ghana
- Crepidobothrium Monticelli*, 1900
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Proteocephalidae, Proteocephalinae
- Crepidobothrium amphiumae* Zeliff, 1932
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus amphiumae* (Zeliff, 1932) comb. n.
- Crepidobothrium fragile* Essex 1929
Fahmy, M. A. M.; Mandour, A. M.; and El-Naffar, M. K., 1978, Vet. Med. J., Giza, v. 24 (24), 1976, 253-262
as syn. of *Ophiotaenia fragilis* Essex 1929
- Crepidobothrium olor* Ingles, 1936
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus olor* (Ingles, 1936) comb. n.
- Ctenotaenia Railliet*, 1893
Tenora, F.; and Murai, E., 1978, Acta Zool. Acad. Scient. Hungar., v. 24 (3-4), 415-429
diagnosis emended
- Ctenotaenia marmotae* (Froelich, 1802) Railliet, 1893, *illus.*
Tenora, F.; and Murai, E., 1978, Acta Zool. Acad. Scient. Hungar., v. 24 (3-4), 415-429
description, taxonomic status, key
Marmota marmota: Switzerland; Austria; Czechoslovakia
- Culcitella Fuhrmann*, 1906
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
Paruterininae
- Cyathocephalus*
Amin, O. M., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 210-217
generic diagnosis emended
- Cyathocephalus catinatus* Riggenbach, 1898
Burt, M. D. B.; and Sandeman, I. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 975-996
as syn. of *Bothrimonus sturionis* Duvernoy, 1842
- Cyathocephalus truncatus* (Pallas, 1781)
Amin, O. M., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 210-217
Coregonus clupeiiformis (anterior half of gut)
Cottus cognatus (posterior half of gut)
all from southwestern Lake Michigan
- Cyathocephalus truncatus* Pallas 1781, *illus.*
Amin, O. M., 1978, J. Parasitol., v. 64 (5), 842-845
Pontoporeia affinis (body cavity)
Mysis relicta
all from southwestern Lake Michigan
- Cyathocephalus truncatus* (Pallas, 1781)
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, J. Fish. Research Bd. Canada, v. 33 (11), 2489-2499
Coregonus clupeiiformis (pyloric caeca): Aishihik Lake and Stevens Lake, Yukon Territory
Salvelinus namaycush (pyloric caeca): Aishihik Lake, Yukon Territory
Prosopium cylindraceum (pyloric caeca): Aishihik Lake, Yukon Territory
- Cyathocephalus truncatus*
Kennedy, C. R., 1978, J. Fish Biol., v. 13 (4), 457-466
parasite fauna of *Salvelinus alpinus*, comparison of species composition, number, diversity, and equitability in lakes on Norwegian mainland and its offshore Arctic islands, results do not agree well with predictions of island biogeographical theory
Salvelinus alpinus: Troms, Norway (Skogsfjordvann lake, Ringvassoy; Raisjavre lake; Anjavann lake)
- Cyathocephalus truncatus*
Konovalov, S. M.; Shevliakov, A. G.; and Krasin, V. K., 1970, Parazitologiya, Leningrad, v. 4 (6), 547-556
parasite fauna of various groups of young *Oncorhynchus nerka*, comparative analysis reveals 3 ecological groups: Lake Azabach'e, Kamchatka river basin
- Cyathocephalus truncatus, illus.*
Kotikova, E. A.; and Kuperman, B. I., 1978, Biol. Moria, Vladivostok (6), 41-46
Pseudophyllidea nervous systems, morphology, changes in scolex structure related to changes in nervous system structure
Oncorhynchus kisutsch: Azabach'e Lake, Kamchatka
- Cyathocephalus truncatus* (Pallas)
Lester, R. J. G., 1974, Syesis, v. 7, 195-200
Gasterosteus aculeatus (intestine): near Vancouver, British Columbia
- Cyathocephalus truncatus*
Makhovenko, E. T., 1972, Parazitologiya, Leningrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka
- Cyathocephalus truncatus*
Mamer, B. E., 1978, J. Parasitol., v. 64 (2), 314
Salmo clarki: Lake Squalicum, Whatcom County, Washington
- Cyathocephalus truncatus* (Pallas, 1781)
van Maren, M. J., 1979, Bijdr. Dierk., Amsterdam, v. 48 (2), 97-110
Gammarus fossarum
Thymallus thymallus (stomach and pars pylorica)
all from Rhone river system, near Lyon
- Cyathocephalus truncatus* (Pallas, 1781)
van Maren, M. J., 1979, Bull. Zool. Mus. Univ. Amsterdam, v. 6 (24), 189-200
Salmo trutta
Thymallus thymallus
all from Rhone River, N.E. of Lyon, France

- Cyclastera capito* (Rudolphi, 1819) Fuhmann, 1904, *illus.*
Rysavy, B.; and Macko, J. K., [1973], *An. Inst. Biol., Univ. Nac. Mexico*, v. 42 (1), s. Zool., 1971, 1-28
description
Ajaia ajaja (intestine): Cienaga de Zapata, Las Salinas, province Las Villas, Cuba
- Cyclastera ibisae* (Schmidt et Bush, 1972) n. comb.
Bona, F. V., 1974, *Parassitologia*, v. 16 (1), 63-78
Syns.: *Parvitaenia ibisae* Schmidt et Bush, 1972; *P. eudocimi* Rysavy et Macko, 1973
Mergus serrator
- Cylindrotaenia* sp.
Rau, M. E.; and Gordon, D. M., 1978, *Canad. J. Zool.*, v. 56 (8), 1765-1767
helminths overwintering in garter snakes, host hypobiosis not accompanied by significant changes in prevalence or intensity of parasite infections
Thamnophis s. sirtalis (intestine): Ille Perrot, Province Quebec, Canada
- Cylindrotaenia americana*
Dunbar, J. R.; and Moore, J. D., 1979, *J. Tennessee Acad. Sc.*, v. 54 (3), 106-109
helminths of plethodontid salamanders, host specificity correlated with host habitat
Desmognathus monticola
D. ochrophaeus
Plethodon glutinosus
Plethodon richmondi
Plethodon cinereus
all from Horse Cove area, Washington County, Tennessee
- Cysticeroid-like larvae A, *illus.*
Shimazu, T., 1975, *Kiseichugaku Zasshi* (Japan. *J. Parasitol.*), v. 24 (3), 122-128
Euphausia similis: Suruga Bay, Japan
- Cysticeroid
Smit, F. G. A. M., 1978, *J. Nat. Hist.*, v. 11 (6), 693-702
Neopsylla secura separata (abdomen): Dhaulagiri region of western Nepal
- Cysticeroids, *illus.*
Yutuc, L. M., 1975, *Philippine J. Vet. Med.*, v. 14 (1), 189-191
cysticeroids, may be *Dipylidium sexcoronatum*, found in abdomen of *Heterodoxus longitarsus* collected from dogs: Greater Manila Area
- Cysticercosis
Ahn, B. H.; Lee, J. H.; and Lee, J. H., 1975, *Taehan Ankwa Hakhoe Chapchi* (J. Korean Ophth. Soc.), v. 16 (4), 209-214
cysticercosis, human, intraocular lesions, 7 case reports, clinical aspects, therapy
- Cysticercosis
Arambulo, P. V. III; et al., 1978, *Acta Trop.*, v. 35 (1), 63-67
cysticercosis, human, serodiagnosis by microplate enzyme-linked immunospecific assay
- Cysticercosis
Arasil, E.; and Erdogan, A., 1978, *Surg. Neurol.*, v. 9 (1), 9-10
hydatid cyst of posterior fossa, woman, case report, attempted surgical therapy: Turkey
- Cysticercosis
Chana, T. S., 1975, *Bull. Animal Health and Prod. Africa*, v. 23 (1), 87-93
cysticercosis, wildebeeste, incidence and intensity, implications for human consumption of meat, problem appears to be of aesthetic rather than public health importance since cysts are not *Cysticercus bovis*, recommendations for meat inspection regulations: Kenya
- Cysticercosis
DeFeo, D.; Foltz, E. L.; and Hamilton, A. E., 1975, *Surg. Neurol.*, v. 4 (2), 247-251
cysticercosis meningitis complicated by double compartment hydrocephalus, 38-year-old Mexican American male, case report, clinical presentation and surgical management
- Cysticercosis
Ernst, S.; and Aguilar, H., 1978, *Bol. Chileno Parasitol.*, v. 33 (3-4), 66-69
zoonotic helminths, domestic animals, prevalence survey: Valdivia slaughter house, Chile
- Cysticercosis
Evans, D. G.; and Pratt, J. H., 1978, *Brit. Vet. J.*, v. 134 (5), 476-492
critical analysis of slaughterhouse condemnation data for cattle, pigs, and sheep 1969-1975, incidence of different disease conditions, factors affecting condemnation levels including seasonal variations, slaughtering level, and correlations between condemnations for different diseases
- Cysticercosis
Fleischer, N. K. F., 1979, *Med. Welt.*, v. 30 (44), 1625-1630
parasitic tropical diseases, humans, central nervous system involvement, clinical review
- Cysticercosis
Gemmell, M. A., 1978, *Vet.-Med. Nachr.* (1), 3-48
hydatidosis and cysticercosis, potential for treatment, review
- Cysticercosis
Gemmell, M. A., 1978, *Vet. Med. Rev.* (1), 3-48
hydatidosis, cysticercosis, control, extensive review
- Cysticercosis
Goepel, W., 1970, *Psychiat., Neurol. u. Med. Psychol.*, v. 22 (1), 32-38
human cysticercosis, case report of patient with generalized cerebral infection manifesting as meningoencephalitis, diagnosis only after surgical intervention
- Cysticercosis
Graber, M., 1978, *Rev. Elevage et Med. Vet. Pays Trop.*, n. s., v. 31 (1), 33-37
cysticercosis, incidence and distribution in wild and domestic ruminants: Africa, particularly Ethiopia
- Cysticercosis
Guerrero R., F., 1976, *Rev. Ecuator. Med. y Cien. Biol.*, v. 13 (1), 59-62
human cerebral cysticercosis, clinical review
- Cysticercosis
Han, B. Y.; Oh, P. K.; and Sohn, M. S., 1977, *Taehan Ankwa Hakhoe Chapchi* (J. Korean Ophth. Soc.), v. 18 (1), 109-113
cysticercosis, woman, posterior chamber of eye, surgical removal

- Cysticercosis**
Ibarra-Perez, C.; Fernandez-Diez, J.; and Rodriguez-Trujillo, F., 1972, *South. Med. J.*, v. 65 (4), 484-486
myocardial cysticercosis, humans, case reports, incidental findings in patients with coexisting heart disease: Mexico
- Cysticercosis**
Lopez Rico, A., 1977, *SPM Salud Pub. Mexico*, v. 19 (4), 537-542
taeniasis, cysticercosis, human, domestic animals, state programs of epidemiological surveillance and control: state of Veracruz, Mexico
- Cysticercosis**
Mann, I., 1978, *Ann. Ist. Super. San.*, Roma, v. 14 (2), 235-244
review of cysticercosis/hydatidosis problem in Africa, discussion of new integrated multidisciplinary environmental approach to problem with practical control applications
- Cysticercosis**
Marlet, J. M., 1978, *Rev. Saude Pub.*, S. Paulo, v. 12 (1), 23-25
human cysticercosis, description of new antigen used for a cutaneous diagnostic test, antigen is considered specific, sensitive and easy to use, suggested as test of choice for epidemiologic studies
- Cysticercosis**
Marques, J. da S., 1972, *Seara Med. Neurocir.*, v. 1 (1), 68-72
cysticercosis, human, spinal cord with compression of cauda equina, clinical case report: Brazil
- Cysticercosis**
Natarajan, M.; Ramasubramanian, K. R.; and Muthu, A. K., 1976, *Surg. Neurol.*, v. 6 ((3)), 157-158
intramedullary cysticercosis of spinal cord, 22-year-old man, case report: India
- Cysticercosis**
Paliwal, O. P.; Krishna, L.; and Kulshrestha, S. B., 1978, *Indian Vet. Med. J.*, v. 2 ((4)), 191-196
lambs and kids, incidence of mortality correlated with age, sex, season, and pathological conditions, including coccidiosis, amphistomiasis, and cysticercosis: organised farm, [India]
- Cysticercosis**
Rubio-Donnadieu, F.; and Diaz Badillo, M., 1977, *Rev. Inst. Nac. Neurol.*, v. 11 (1), 39-42
human cysticercosis with central nervous system involvement, relief of associated inflammatory processes involving the nervous system with large doses of paramethasone, particularly recommended to prevent ventricular obstruction
- Cysticercosis**
Saha, K.; et al., 1979, *Indian J. Med. Research*, v. 70, 22-32
parasitic diseases, human, serum immunoglobulin and complement profiles: India
- Cysticercosis**
Segall, H. D.; et al., 1973, *Surg. Neurol.*, v. 1 (3), 178-186
infectious of human brain and meninges, neuroradiologic diagnostic features, includes intracranial cysticercosis and other parasitic conditions
- Cysticercosis**
Sewell, M. M. H.; and Harrison, L. J. S., 1978, *Vet. Rec.*, v. 102 (10), 223 [letter]
cysticercosis, bovine, need for better meat inspection regulations; carcasses cleared for human consumption found to contain cysts
- Cysticercosis**
Skromne-Kadlubik, G.; and Celis Gonzalez, C., 1977, *SPM Salud Pub. Mexico*, v. 19 (5), 651-653
cysticercosis, human cerebral, preliminary studies using radio-active iodine as therapy
- Cysticercosis**
Skromne-Kadlubik, G.; Garcia-Solis, J.; and Ayala, A., 1977, *Rev. Invest. Salud Pub.*, Mexico, v. 37 (1), 53-55
human cerebral cysticercosis, therapeutic use of antibodies labeled with iodine-131, preliminary investigations
- Cysticercosis**
Varela-Diaz, V. M.; Coltart, E. A.; and D'Alessandro, A., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (3), 554-557
sera from 2 patients (one with *Echinococcus vogeli* and one with cysticercosis associated with multiple myeloma) were positive to immunoelectrophoresis test for hydatidosis based on *E. granulosus* are 5 positivity criterion
- Cysticercosis**
Venkatanaman, S.; Ahuja, G. K.; and Virmari, V., 1979, *J. Ass. Physicians India*, v. 27 (5), 421-428
cysticercosis, echinococcosis, malaria, differential diagnosis of neurological manifestations in humans
- Cysticercosis**
Venkatanaman, S.; and Vijayam, G. P., 1979, *J. Ass. Physicians India*, v. 27 (6), 543-549
neurocysticercosis, humans, diagnostic problems, clinical management: India
- Cysticercosis**
Vujosevic, M.; Kecmanovic, M.; and Takic, C., 1974, *Srpski Arhiv Tselok. Lekar.*, v. 102 (6), 493-496
cysticercosis, human, case reports, generalised calcified cysts, clinical aspects
- Cysticercus, illus.**
Kim, Y. M., 1974, *Taehan Ankwa Hakhoe Chupchi (J. Korean Ophth. Soc.)*, v. 15 (3), 197-200
cysticercosis, human ocular, surgical removal
- Cysticercus or Coenurus**
Prosser, P. J. R.; Wilson, C. B.; and Forsham, P. H., 1978, *Am. J. Trop. Med. and Hyg.*, v. 27 (5), 976-979
intrasellar cysticercosis presenting as pituitary tumor, woman, case report, successful transphenoidal cystectomy without compromise of pituitary function: El Salvador
- Cysticerci**
Wong, M. M.; and Conrad, H. D., 1978, *Lab. Animal Sc.*, v. 28 (4), 412-416
Macaca fascicularis
M. mulatta
M. nemestrina
M. radiata
all wild caught in Asia, maintained at National Center for Primate Biology

- Cysticercus* sp.
Ishimoto, Y., 1974, Japan. J. Vet. Research, v. 22 (1-2), 1-12
brief description
Apodemus argenteus hokkaidi (liver): Nopporo National Forest, vicinity of Nopporo, 20 km east of Sapporo, Hokkaido, Japan
- Cysticercus* sp.
Merkusheva, I. V., 1976, Vestsi Akad. Navuk BSSR, s. Biial. Navuk (4), 88-94
helminths of murine rodents, changes in parasite fauna compared to changes in forest biotope over several years: Belorussian Polesia
- Cysticercus* sp., illus.
Prosl, H.; and Tamer, A., 1979, Zentralbl. Vet-Med., Reihe B, v. 26 (9), 696-709
Macaca mulatta (Skelettmuskulatur)
- Cysticercus* sp., illus.
Shaldybin, L. S., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 97-101
[*Ondatra zibethica*] (large intestine): region of Pyra river, Gorky oblast
- Cysticercus bovis*
Biering-Sørensen, U., 1977, Dansk Vet.-Tidskr., v. 60 (21), 931-935
Cysticercus bovis, ultraviolet radiation for detection and diagnosis in meat inspection
- Cysticercus bovis*
Biering-Sørensen, U., 1977, Dansk Vet.-Tidsskr., v. 60 (24), 1055-1065
Cysticercus bovis, optimal techniques for slicing muscles for detection in meat inspection
- Cysticercus bovis*
Dada, B. J. O.; and Belino, E. D., 1978, Vet. Rec., v. 103 (14), 311-312
hydatidosis, cysticercosis, prevalence in slaughtered livestock used for food: Kano abattoir, Nigeria
- Cysticercus bovis*
Grindle, R. J., 1978, Trop. Animal Health and Prod., v. 10 (3), 127-140
Cysticercus bovis, cattle, incidence, economic losses: Botswana; Kenya
- Cysticercus bovis*, illus.
Machnicka, B.; et al., 1977, Acta Parasitol. Polon., v. 25 (1-10), 55-62
Cysticercus bovis in calves (exper.), morphogenesis, localization, host tissue reaction, immunological findings in indirect immunofluorescence test, histological and histochemical study of bladder
- Cysticercus bovis*
Mitchell, J. R., 1978, Vet. Rec., v. 102 (21), 469 [letter]
Cysticercus bovis, predilection distribution sites on cattle, survey: Uganda
- Cysticercus bovis*
Mobedi, I.; Vand-Youssefi, J.; and Esterabadi, A. H., 1978, Arch. Inst. Razi (30), 147-128
Actinomyces bovis as possible cause for degeneration and calcification of *Cysticercus bovis* and hydatid cyst in host tissue
- Cysticercus bovis*
Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
cattle: imported to United Arab Republic
- Cysticercus bovis*, illus.
Sreemammarayana, O.; and Christopher, K. J., 1977, Indian J. Animal Health, v. 16 (2), 188
combined infection of *Cysticercus bovis* and sarcosporidiasis, bullock: slaughter house, Guntur, Andhra Pradesh, India
- Cysticercus bovis*
Tarczyński, S., 1975, Ang. Parasitol., v. 16 (4), 208-215
Cysticercus bovis, cattle, incidence in slaughter-house surveys 1957-1972: Poland
- Cysticercus bovis*
Thomas, H.; and Goemmert, R., 1978, Ztschr. Parasitenk., v. 55 (2), 165-179
cestodes, praziquantel activity tested
- Cysticercus bovis*
Thornton, H., 1977, Rhodesian Vet. J., v. 8 (4), 77-78
Cysticercus bovis, cattle, infection acquired on land contaminated by human feces, suggested control measures: Mtoro district, Rhodesia
- Cysticercus cellulosa*
Akiguchi, I.; et al., 1977, Rimsho Shinkeigaku (Clin. Neurol.), v. 17 (8), 520-526
Cysticercus cellulosa, man, spinal involvement with resulting total paraplegia and other neurological symptoms, surgical removal of cyst, case report, literature review: Japan
- Cysticercus cellulosa*
Bolio Cicero, A.; Zavala Velazquez, J.; and Berzumza Nowelo, M., 1971, Rev. Latinoam. Patol., v. 10 (1), 13-18
human cysticercosis, case reports of subcutaneous infections: Mexico
- Cysticercus cellulosa*
Gomez Priego, A.; et al., 1977, SPM Salud Pub. Mexico, v. 19 (5), 735-741
Cysticercus cellulosa, serological diagnosis using soluble antigen dried by lyophilization on paper discs
- Cysticercus cellulosa*
Gomez Priego, A.; Moron Guzman, A.; and Beltran Hernandez, F., 1977, SPM Salud Pub. Mexico, v. 19 (3), 421-430
Cysticercus cellulosa, crude antigen, division into antigenic fractions of carbohydrates, proteins and RNA, adequate specificity for immunodiffusion tests
- Cysticercus cellulosa*
Guidugli Neto, J.; and Franca, L. C. M., 1977, Rev. Med. IAMPSE, v. 8 (3-4), 65-67
human neurocysticercosis, analysis of autopsy findings in 31 cases: Brazil
- Cysticercus cellulosa*
Gutierrez-Q., M.; Mantuscelli-Q., A.; and Oyarzabal-C., J. H., 1976, Rev. Invest. Salud Pub., Mexico, v. 36 (4), 203-213
sera of children with eosinophilia and history of parasitism compared with sera of normal children, indirect hemagglutination test

- Cysticercus cellulosae*
Jancic-Zguricas, M.; Isvaneski, M.; and Perunovic, P., 1976, Srpski Arhiv Tselok. Lekar., v. 104 (10), 751-760
echinococcosis, cysticercosis, trichinosis affecting human heart, diagnostic problems in relation to clinical and pathological findings, case reports
- Cysticercus cellulosae*, *illus.*
Koo, K. I.; Shin, H.; and Shin, N. Y., 1976, Taehan Ankwa Hakhoe Chapchi (J. Korean Ophth. Soc.), v. 17 (1), 111-114
Cysticercus cellulosae, human eye, pathology, clinical aspects, case reports
- Cysticercus cellulosae*
Machado, A. de J.; Carmargo, M. E.; and Hoshimo, S., 1973, Rev. Soc. Brasil. Med. Trop., v. 7 (3), 181-183
Cysticercus cellulosae, fluorescent antibody test for serodiagnosis, delipidized particles of parasite fixed on microscope slides used for antigen
- Cysticercus cellulosae*
Reznik, M., 1977, Rev. Med. Liege, v. 32 (12), 378-382
human cerebral cysticercosis, case report, pathology, clinical aspects, prophylactic measures: Belgium (native of Spain)
- Cysticercus cellulosae*
Riccetti, R. V., 1975, Rev. Fac. Med. Vet. e Zootec. Univ. S. Paulo, v. 12, 247-258
Cysticercus cellulosae, in vitro evagination, comparison of several artificial media, optimal temperature
- Cysticercus cellulosae*
Riccetti, R. V., 1975, Rev. Fac. Med. Vet. e Zootec. Univ. S. Paulo, v. 12, 259-268
Cysticercus cellulosae-infected swine carcasses, sodium chloride treatment, length of storage necessary to render meat safe for consumption, comparison with refrigeration
- Cysticercus cellulosae*, *illus.*
dos Santos, M. A. Q.; dos Santos, F. das C. C.; and Carneiro, J. R., 1974, Rev. Patol. Trop., v. 3 (3), 251-253
cao (figado, diafragma, coracao, musculos): Goiania, Brasil
- Cysticercus cellulosae*
Simanjuntak, G. M.; et al., 1977, Southeast Asian J. Trop. Med. and Pub. Health, v. 8 (4), 494-497
prevalence survey of taeniasis in humans and cysticercosis in pigs, socio-ecological data indicated infections in humans to be more common in those who ate raw meat dishes rather than those who were mostly fish eaters, poor sanitary conditions and easy access of pigs to human feces perpetuated infections in both pigs and humans: Bali Island, Indonesia
- Cysticercus cellulosae*, *illus.*
Sosa, A.; et al., 1978, Experientia, v. 34 (2), 175-177
Cysticercus cellulosae, ATPase demonstrated in microtriches by high resolution cytochemistry, possible role in preferential tissue distribution of this parasite
- Cysticercus cellulosae*
Tomovic, J.; and Litricin-Semerad, V., 1973, Srpski Arhiv Tselok. Lekar., v. 101 (11-12), 923-928
Cysticercus cellulosae, 5-year-old child, case report, conjunctival cyst
- Cysticercus cellulosae*
Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca mulatta
M. radiata
(brain tissues of all): all wild caught in Asia, maintained at National Center for Primate Biology
- Cysticercus cervi*
Zettl, K.; and Broemel, J., 1978, Prakt. Tierarzt, v. 59 (5), 334, 336, 342, 345-347
Rehwild (Herzmuskulatur): Nordhessen
- Cysticercus fasciolaris*
Sano, M.; et al., 1977, Internat. J. Zoonoses, v. 4 (2), 111-115
Rattus (intestine): Shimizu ship-port, Shizuoka Prefecture, Japan
- Cysticercus fasciolaris*
Thomas, H.; and Goennert, R., 1978, Ztschr. Parasitenk., v. 55 (2), 165-179
cestodes, praziquantel activity tested
- Cysticercus gryporhynchis-cheilancristroti*
Joyeux et Baer, 1936
Kozicka, J., 1971, Acta Parasitol. Polon., v. 19 (1-8), 81-93
as syn. of *Neogryporhynchus cheilancristrotus* (Wedl, 1855) Baer et Bona, 1960
- Cysticercus gryporhynchis-pusillae* Joyeux et Baer, 1936
Kozicka, J., 1971, Acta Parasitol. Polon., v. 19 (1-8), 81-93
as syn. of *Neogryporhynchus cheilancristrotus* (Wedl, 1855) Baer et Bona, 1960
- Cysticercus inermis*
Buric, M., 1977, Vet. Glasnik, v. 31 (3), 219-222
Cysticercus inermis, prevalence in cattle, 1973-1975: slaughterhouse, Belje Meat Industry in Mece, Baranja region
- Cysticercus ovis*
Dada, B. J. O.; and Belino, E. D., 1978, Vet. Rec., v. 103 (14), 311-312
hydatidosis, cysticercosis, prevalence in slaughtered livestock used for food: Kano abattoir, Nigeria
- Cysticercus ovis* [of] Nagaty, 1940
Elmossalami, E.; and El-Nawawi, F., 1971, Vet. Med. J., Giza, v. 19 (19), 47-76
as syn. of *Taenia hyaenae*
- Cysticercus ovis*
Evans, D. G.; and Pratt, J. H., 1978, Brit. Vet. J., v. 134 (5), 476-492
critical analysis of slaughterhouse condemnation data for cattle, pigs, and sheep 1969-1975, incidence of different disease conditions, factors affecting condemnation levels including seasonal variations, slaughtering level, and correlations between condemnations for different diseases

- Cysticercus pisiformis*
Courtin, S.; et al., 1979, Arch. Med. Vet.,
Valdivia, v. 11 (1), 23-26
Oryctolagus cuniculus: Nahuelbuta, Chile
- Cysticercus pisiformis*
Thomas, H.; and Goennert, R., 1978, Ztschr.
Parasitenk., v. 55 (2), 165-179
cestodes, praziquantel activity tested
- Cysticercus tarandi*
Iushkov, V. Iu., 1971, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 22, 232-248
[Alces alces] (heart muscle, skeletal
musculature): Komi ASSR
- Cysticercus tenuicollis*
Campos Bueno, M.; et al., 1978, Rev. Iber.
Parasitol., v. 38 (3-4), 639-648
cestodes, antigenic fractions (except those
of Taenia saginata and of Cysticercus tenui-
collis membranes) with reactivity similar
to albumins of human, bovine and ovine sera
- Cysticercus tenuicollis*
Dada, B. J. O.; and Belino, E. D., 1978,
Vet. Rec., v. 103 (14), 311-312
hydatidosis, cysticercosis, prevalence in
slaughtered livestock used for food: Kano
abattoir, Nigeria
- Cysticercus tenuicollis*
Dineen, J. K.; Kelly, J. D.; and Campbell, N.
J., 1978, Internat. J. Parasitol., v. 8 (3),
173-176
Fasciola hepatica, nature and characteristics
of cross protection produced in sheep by in-
fection with Cysticercus tenuicollis, mecha-
nism unknown, may be immunological
- Cysticercus tenuicollis*
Jarvis, T., 1977, Eesti Pollumaj. Akad. Teadusl.
Toode Kogum. (104), 137-143
helminths of roedeer [Capreolus capreolus],
role in infecting farm animals: Estonian
SSR
- Cysticercus tenuicollis*
Jørgensen, R. J., 1978, Dansk Vet.-Tidsskr.,
v. 61 (12), 577-585
echinococcosis, prevalence, diagnostic tech-
niques, differential diagnosis of Taenia hy-
datigena and Cysticercus tenuicollis: Denmark
- Cysticercus tenuicollis*
Nickel, S.; et al., 1978, Ang. Parasitol.,
v. 19 (4), 194-202
Capreolus capreolus (Mesenterium): DDR
- Cysticercus tenuicollis*
Selim, M. K.; et al., 1970, Vet. Med. J.,
Giza, v. 17 (18), 173-193
cattle (peritoneal cavity)
sheep (peritoneal cavity)
camels
all imported to United Arab Republic
- Cysticercus tenuicollis*
Thomas, H.; and Goennert, R., 1978, Ztschr.
Parasitenk., v. 55 (2), 165-179
cestodes, praziquantel activity tested
- Cyst[icercus] tenuicollis*
Trifonov, T. R., 1978, Vet. Med. Nauki, v. 15
(6), 108-112
helminths of liver, sheep, 5 year post-
mortem survey, occurrence, mixed infections:
Bourgas
- Dasyrhynchus* sp.
Meyers, T. R., 1978, Proc. Helminth. Soc.
Washington, v. 45 (1), 120-128
Paralichthys dentatus (stomach wall, intes-
tinal wall, pyloric caeca, mesenteries)
Pomatomus saltatrix (stomach wall, pyloric
caeca, pericardium, mesenteries)
Scophthalmus aquosus (stomach wall)
all from Raritan Bay, New Jersey
- Dasyrhynchus giganteus* (C.M. Diesing 1850) T.
Pintner 1929, illus.
Dollfus, R. P., 1969, J. Fish. Research Bd.
Canada, v. 26 (4), 1037-1061
description of adult
Carcharinus leucas
Negaprion brevirostris
all from Sarasota, Florida
- Davainea campanulata* Fuhrmann, 1909
Spasskii, A. A., 1979, Izvest. Akad. Nauk
Moldavsk. SSR, s. Biol. i Khim. Nauk (1), 67-
70
as syn. of Daveneolepis campanulata (Fuhr-
mann, 1909) comb. n.
- Davainea celebensis* Janicki, 1902
Fain, A.; et al., 1977, Ann. Soc. Belge Med.
Trop., v. 57 (3), 137-142
as syn. of Raillietina (R.) celebensis
(Janicki, 1902) Furmann, 1920

parasite fauna of *Perca fluviatilis*, host specificity, comparison with different localities in British Isles, factors affecting composition
Perca fluviatilis (viscera): Llyn Tegid, Wales
- Diphyllobothrium sp.
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Prosopium cylindraceum (encysted on digestive tract; liver, mesenteries): Aishihik Lake, Yukon Territory
Coregonus clupeaformis (encysted on digestive tract; liver, mesenteries): Aishihik Lake and Stevens Lake, Yukon Territory
Salvelinus namaycush (encysted on digestive tract; liver, mesenteries): Aishihik Lake, Yukon Territory
Lota lota (encysted on digestive tract): Aishihik Lake, Yukon Territory
Thymallus arcticus (encysted on digestive tract; liver): Aishihik Lake, Yukon Territory
- Diphyllobothrium [sp.] plerocercoids
Baer, J. G., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 717-723
Sarda chilensis
Scomberomorus maculatus
(membranous cysts in body cavity of all): all from Peru

- Diphyllobothrium* sp.
Beverley-Burton, M., 1978, *Canad. J. Zool.*, v. 56 (2), 365-368
Salvelinus alpinus (body cavity): Char Lake, Cornwallis Island, N.W.T., Canada
- Diphyllobothrium* sp., *illus.*
Carneiro, J. R.; et al., 1972, *Rev. Patol. Trop.*, v. 1 (1), 87-91
Panthera onca: jardim zoologico de Goiania
- Diphyllobothrium* sp.
Cordes, D. O.; and O'Hara, P. J., 1979, *N. Zealand Vet. J.*, v. 27 (7), 147-150
Arctocephalus forsteri (large intestine)
Hydrurga leptonyx (intestine)
all from marine zoological park
- Diphyllobothrium* sp.
Dartnall, H. J. G.; and Walkey, M., 1979, *J. Fish Biol.*, v. 14 (5), 471-474
Gasterosetus aculeatus (liver): Airds Bay, Loch Etive, Scotland
- Diphyllobothrium* sp.
Della Bruna, C.; Ricciardi, M. L.; and Sanfilippo, A., 1973, *Antimicrob. Agents and Chemotherapy*, v. 3 (6), 708-710
axenomycins, effectiveness against several cestode spp. in nat. and exper. infections of various animals
- Diphyllobothrium* sp., *illus.*
Figuerola, L.; et al., 1979, *Bol. Chileno Parasitol.*, v. 34 (1-2), 13-20
Diphyllobothrium sp., *Larus dominicanus* as possible definitive host for parasites of trout of south-Chilean lakes; parasite morphology, histology, morphometric data: lago Calafquen
- Diphyllobothrium* sp.
Freeman, R. S.; and Thompson, B. H., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 871-878
Diphyllobothrium sp., incidence of plerocercoids in *Salvelinus namaycush*, % of fish eating plankton, forage fish present, implications for route of transmission: Algonquin Park lakes, Canada
- Diphyllobothrium* sp.
Gonzalez, H.; et al., 1978, *Bol. Chileno Parasitol.*, v. 33 (1-2), 25-34
Diphyllobothrium sp. infecting over 70% of salmonid fish population, host sex distribution, localization; neither dogs or humans living around lake were infected suggesting that fisheating birds may be source of infection
Salmo trutta fario: Lago Rupanco, Chile
S. gairdneri irideus: Lago Rupanco, Chile
perro (exper.) (intestino, excrementos)
- Diphyllobothrium* plerocercoid larvae
Ishii, A., 1973, *Snake*, v. 5 (1-2), 133-140
Trimeresurus flavoviridis (muscles, subcutaneous tissue): Amami-oshima, southern Japan
- Diphyllobothrium* sp. pl.
Konovalov, S. M.; Shevliakov, A. G.; and Krasin, V. K., 1970, *Parazitologiya, Leningrad*, v. 4 (6), 547-556
parasite fauna of various groups of young *Oncorhynchus nerka*, comparative analysis reveals 3 ecological groups: Lake Azabach'e, Kamchatka river basin
- Diphyllobothrium* sp.
Lester, R. J. G., 1974, *Syesis*, v. 7, 195-200
Gasterosetus aculeatus (liver): near Vancouver, British Columbia
- Diphyllobothrium* sp. pl.
Makhovenko, E. T., 1972, *Parazitologiya, Leningrad*, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka
- Diphyllobothrium* sp.
Mamer, B. E., 1978, *J. Parasitol.*, v. 64 (2), 314
Salmo gairdneri: Silver Lake and Toad Lake, Whatcom County, Washington
S. clarki: Silver Lake, Whatcom County, Washington
Mergus merganser: Silver Lake, Whatcom County, Washington
- Diphyllobothrium* sp., plerocercoid
Parukhin, A. M., 1966, *Respublik. Mezhdovedstv. Sborn.*, Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
Selar mate (muscles)
S. malam
all from South China Sea
- Diphyllobothrium* sp.
Torres, P.; et al., 1977, *Bol. Chileno Parasitol.*, v. 32 (3-4), 73-80
Diphyllobothrium sp. plerocercoids, survey of infection incidence and intensity in *Salmo gairdneri* (celoma, higado, pared intestinal, gonadas, bazo, musculos); relationship of infection to age, sex, weight, length; brief discussion of problems of systematics of Pseudophyllidea: Calafquen Lake, Chile
- Diphyllobothrium* sp. 1 larvae, *illus.*
Tsimbaliuk, E. M.; and Semeshko, N. N., 1971, *Parazitologiya, Leningrad*, v. 5 (5), 424-428
Platichthys stellatus
Eleginus navaga gracilis
Pleuronectis quadrituberculatus
Porrocottus minutus minutus
Hippoglossoides ellasodon
Osmerus eperlanus dentex
Myoxocephalus platicephalus
all from littoral zone of Okhotsk Sea near entrance to Penzhinsk zaliv, western Kamchatka
- Diphyllobothrium* sp. 2 larvae, *illus.*
Tsimbaliuk, E. M.; and Semeshko, N. N., 1971, *Parazitologiya, Leningrad*, v. 5 (5), 424-428
Salvelinus leucomaenis
Eleginus navaga gracilis
all from littoral zone of Okhotsk Sea near entrance to Penzhinsk zaliv, western Kamchatka
- Diphyllobothrium* sp. 3 larvae, *illus.*
Tsimbaliuk, E. M.; and Semeshko, N. N., 1971, *Parazitologiya, Leningrad*, v. 5 (5), 424-428
Salvelinus leucomaenis
Theragra chalcogramma
Pleuronectis quadrituberculatus
Myoxocephalus platicephalus
Eleginus navaga gracilis
Mallotus villosus
Platichthys stellatus
all from littoral zone of Okhotsk Sea near entrance to Penzhinsk zaliv, western Kamchatka

cestodes of man, epidemiology
- Diphyllbothrium trinitatis* Cameron, 1936
Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
Nasua nasua aricana: Chaco Boreal, western Paraguay
- Diphyllbothrium ursi*
Juniper, I., 1978, Canad. Field-Naturalist, v. 92 (2), 186-189
Ursus americanus: north of Montreal, Province of Quebec
- Diphyllbothrium vogeli*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Pungitius pungitius
Gasterosteus aculeatus
all from Kol'skii peninsula, USSR
- Diphyllbothrium vogeli*, illus.
Vik, R.; Halvorsen, O.; and Andersen, K., 1969, Norwegian J. Zool., v. 17 (1), 75-80
Diphyllbothrium dendriticum and *D. vogeli* in *Gasterosteus aculeatus*, localization sites of plerocercoids and extent of encystment, preliminary report: river Elbe, Neuen-schleussen
- Diplocotyle Krabbe*, 1874
Burt, M. D. B.; and Sandeman, I. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 975-996
as syn. of *Bothrimonus Duvernoy*, 1842
- Diplocotyle cohaerens* Linstow, 1903
Burt, M. D. B.; and Sandeman, I. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 975-996
as syn. of *Bothrimonus sturionis* Duvernoy, 1842
- Diplocotyle nylandica* (Schneider, 1902)
Burt, M. D. B.; and Sandeman, I. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 975-996
as syn. of *Bothrimonus sturionis* Duvernoy, 1842
- Diplocotyle olrikii* Krabbe, 1874
Burt, M. D. B.; and Sandeman, I. M., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 975-996
as syn. of *Bothrimonus sturionis* Duvernoy, 1842
- Diplocotyle olrikii* Krabbe, 1874
Tsimbaliuk, E. M.; and Semeshko, N. N., 1971, Parazitologiya, Leningrad, v. 5 (5), 424-428
Salvelinus leucomaenis (small intestine and pyloric processes of intestine): littoral zone of Okhotsk Sea near entrance to Penzhinsk zaliv, western Kamchatka
- Diplogonoporus tetrapterus* (Siebold, 1848)
Popov, V. N., 1975, Parazitologiya, Leningrad, v. 9 (1), 31-36
helminth fauna of *Histiophoca fasciata*, intensity and extensity, host age dynamics
Histiophoca fasciata (intestine): southern Okhotsk Sea
- Diploposthe laevis*
Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Netta rufina: south-east England
- Diploposthe laevis*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus
Arctodiaptomus bacillifer
Acanthodiaptomus denticornis (exper.)
all from Kazakhstan
- Diploposthe laevis*
Jakutowicz, K.; and Korpaczewska, W., 1979, Bull. Acad. Polon. Sc., Cl. II, s. Sc. Biol., v. 27 (1), 69-70
6 tapeworms and *Fasciola hepatica*, determination of Cu concentration, atomic absorption spectrometry
Aythya ferina (small intestine): bird reserve Stawy Milickie
- Diploposthe laevis* (Bloch, 1782)
Noseworthy, S. M.; and Threlfall, W., 1978, J. Parasitol., v. 64 (2), 365-367
Aythya collaris (duodenum, small intestine): Canada

- Diploposthe laevis (Bloch, 1897), illus.
Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 21, 99-110
description of cysticeroid
Aythya ferina
Acanthocyclops viridis
all from Karasuk lakes (Novosibirsk oblast,
Western Siberia)
- Diploposthe monoposthe
Dobrokhotova, O. V., 1975, Acta Parasitol.
Polon., v. 23 (12-25), 237-242
Arctodiaptomus bacillifer: Kazakhstan
- Diplopylidium acanthotetra
Tarazona, J. M., 1974, An. Inst. Nac. Invest.
Agrar., s. Hig. y San. Animal (1), 161-165
Matrix saura: provincia de Huesca, Espana
- Diporotaenia gen. nov.
Spasskaia, L. P.; Spasskii, A. A.; and Borga-
renko, L. F., 1971, Izvest. Akad. Nauk Mol-
dask. SSR, ser. Biol. i Khim. Nauk (6), 49-53
Amabiliidae
tod: D. colymbi gen. et sp. nov.
- Diporotaenia colymbi g. n., sp. n. (tod), illus.
Spasskaia, L. P.; Spasskii, A. A.; and Borga-
renko, L. F., 1971, Izvest. Akad. Nauk Mol-
dask. SSR, ser. Biol. i Khim. Nauk (6), 49-53
Colymbus ruficollis: lake Derikul, Piandzhsk
region, Tadzhiksk SSR
- Dipylidium sp. or Joyeuxiella sp.
Edwards, G. T.; Hackett, F.; and Herbert,
I. V., 1979, Brit. Vet. J., v. 135 (5), 433-439
fox: Snowdonia, U. K.
- Dipylidium sp.
Farmer, J. N.; et al., 1978, Vet. Rec., v. 102
(4), 78-80
sheepdogs (feces): Gwyned, North Wales
- Dipylidium sp.
Martinez, F.; et al., 1978, Rev. Iber. Parasi-
tol., v. 38 (1-2), 207-211
Vulpes vulpes: provincia de Cordoba, Espana
- Dipylidium caninum
Abdel Rahman, M. S.; El Gendi, A. Y. I.; and
Moursi, H. S. A., 1977, J. Egypt. Vet. Med.
Ass., v. 37 (2), 55-69
nematodes and cestodes, dogs, effectiveness
of trichlorfon, oxinotiophos, and carbaryl
compared: Giza and Cairo Governorates,
Egypt
- Dipylidium caninum (L., 1758)
Babaev, Ia., 1976, Izvest. Akad. Nauk Turkmen.
SSR, s. Biol. Nauk (4), 68-74
Vulpes vulpes: area of Karakum canal,
Turkmenistan
- Dipylidium caninum (Linneus, 1758)
Bogdanov, V. R.; et al., 1977, Sborn. Nauch.
Rabot SibNIVI, Sibirsk. Nauchno-Issled. Vet.
Inst. (29), 90-91
cestodes, pathomorphology resulting from
action of various anthelmintics
- Dipylidium caninum
Bogdanov, V. R.; Koshkina, N. G.; and Logachev,
E. D., 1977, Sborn. Nauch. Rabot SibNIVI,
Sibirsk. Nauchno-Issled. Vet. Inst. (29), 92-
93
Dipylidium caninum, various anthelmintics,
in vitro action on surface tissues and in-
activation of enzymes
- Dipylidium caninum
Boray, J. C.; et al., 1979, Austral. Vet. J.,
v. 55 (2), 45-53
nematodes and cestodes of dogs and cats, ef-
ficiency and safety of nitroscanate, compari-
son with mebendazole, bunamidine hydrochlori-
de, and praziquantel
- Dipylidium caninum
Botero R., D., 1978, Ann. Rev. Pharmacol. and
Toxicol., v. 18, 1-15
chemotherapy of common intestinal protozoan
and helminth infections in humans, review of
antiparasitic drugs in current use
- Dipylidium caninum
Burke, T. M.; and Roberson, E. L., 1978, Am.
J. Vet. Research, v. 39 (11), 1799-1801
helminths, dogs, fenbendazole, critical
trials, no evidence of drug toxicosis
- Dipylidium caninum
Chopra, A. K.; et al., 1978, Experientia, v. 34
(11), 1457-1458
Dipylidium caninum, phospholipid composition
- Dipylidium caninum
Currier, R. W. II; Kinzer, G. M.; and Deshields,
E., 1973, South. Med. J., v. 66 (9), 1060-1062
Dipylidium caninum, 14-month-old child, pet
dog with fleas probable source of infection:
Huntsville, Alabama
- Dipylidium caninum
Della Bruna, C.; Ricciardi, M. L.; and San-
filippo, A., 1973, Antimicrob. Agents and
Chemotherapy, v. 3 (6), 708-710
axenomycins, effectiveness against several
cestode spp. in nat. and exper. infections of
various animals
- Dipylidium caninum
Dey-Hazra, A., 1976, Vet. Med. Rev. (2), 134-
141
tapeworms, dogs, droncit: India
- Dipylidium caninum
Düewel, D., 1978, Kleintier-Praxis, v. 23 (5),
237-242
helminths, dogs, fenbendazole in granule and
powder form, anthelmintic efficacy, no un-
desirable side effects
- Dipylidium caninum
Edwards, G. T.; Hackett, F.; and Herbert,
I. V., 1979, Brit. Vet. J., v. 135 (5), 433-439
prevalence
hunting dogs: Snowdonia, U. K.
- Dipylidium caninum
Girardi, C.; et al., 1977, Ann. Fac. Med. Vet.
Torino, v. 24, 82-113
nematodes, cestodes, mebendazole, controlled
test, naturally infected dogs or cats; tox-
icity, absorption and elimination of meben-
dazole, non-infected dogs, cats and guinea
pigs
- Dipylidium caninum
Guralp, N.; et al., 1976, Vet. Med. Rev. (2),
129-133
tapeworms, dogs, cats, droncit
- Dipylidium caninum
Guralp, N.; et al., 1976, Vet. Fak. Dergisi,
Ankara Univ., v. 23 (1-2), 171-174
tapeworms, dogs, droncit 100% effective

- Dipylidium caninum* (Linne, 1758)
Haak, W.; et al., 1972, Ang. Parasitol., v. 13 (4), 200-207
cestodes of humans, recommended drug therapy
- Dipylidium caninum*
Jones, W. E., 1979, Am. J. Trop. Med. and Hyg., v. 28 (2), 300-302
Hymenolepis diminuta, *Dipylidium caninum*, man, niclosamide, effective, relatively non-toxic drug for initial therapy
- Dipylidium caninum*
Klein, J. B.; Bradley, R. E., sr.; and Conway, D. P., 1978, Vet. Med. and Small Animal Clin., v. 73 (8), 1011-1013
Toxocara canis and *Ancylostoma caninum*, dogs, pyrantel pamoate effective against adult stages, not effective against *Dipylidium caninum*, *Trichuris vulpis*, or *Dirofilaria immitis*
- Dipylidium caninum*
Malloy, W. F.; and Embil, J. A., 1978, Canad. J. Comp. Med., v. 42 (1), 29-31
Toxocara canis, *T. cati*, *Toxascaris leonina*, and other parasites, prevalence in dogs or cats, percentages by sex and age, survey initiated because of cases of human visceral larva migrans, public health implications dogs: Halifax, Nova Scotia
- Dipylidium caninum*
Ono, S., 1977, Shonika Shonryo (J. Pediat. Pract.), v. 40 (5), 47-50
Dipylidium caninum, human, case report, bithionol
- Dipylidium caninum*
Sakamoto, T.; et al., 1979, Bull. Fac. Agric. Kagoshima Univ. (29), 81-87
cestodes, dogs, praziquantel
- D[ipylidium] caninum
Slepnev, N. K., 1973, Vet. Nauka--Proizvod., Trudy, Minsk, v. 11, 130-135
[*Canis familiaris*]: northern zone of Belorussia
- Dipylidium caninum*
Smith, J. P., 1979, Feline Pract., v. 9 (2), 14, 16, 18
intestinal parasites, cats, efficacy of parenteral aqueous levamisole
- Dipylidium caninum*
Thomas, H.; and Goennert, R., 1978, Research Vet. Sc., v. 24 (1), 20-25
cestodes of cats, dogs, and sheep, praziquantel highly effective in one oral or subcutaneous dose
- Dipylidium caninum*, illus.
Todd, K. S., jr.; and Schmidt, J. M., 1978, Canine Pract., Santa Barbara, v. 5 (1), 39-41
Dipylidium caninum, *Taenia* sp., Mesocestoides sp., dogs, differential diagnosis
- Dipylidium caninum*
Zembrzuski, K.; and Dymowska, Z., 1977, Przegł. Epidemiol., v. 31 (3), 345-349
human *Taenia* spp. and other cestodes, statistics of extensive epidemiologic survey, increasing incidence in Poland
- Dipylidium sexcoronatum*
Yutuc, L. M., 1975, Philippine J. Vet. Med., v. 14 (1), 189-191
cysticercoids, may be *Dipylidium sexcoronatum*, found in abdomen of *Heterodoxus longitarsus* collected from dogs: Greater Manila Area
- Djombangia Bovien* 1926
Sahay, S. N.; and Sahay, U., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 371-376
generic diagnosis revised
- Djombangia caballeroi* sp. nov., illus.
Sahay, S. N.; and Sahay, U., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 371-376
Heteropneustes fossilis (stomach): Ranchi (Chotanagpur), Bihar, India
- Drepanidotaenia ardeae* (Fuhrmann, 1906), illus.
Rysavy, B.; and Macko, J. K., [1973], An. Inst. Biol., Univ. Nac. Mexico, v. 42 (1), s. Zool., 1971, 1-28
description
Butorides virescens maculatus (small intestine): Peninsula Zapata, St. Tomas, province Las Villas; Punta de Hicacos, province Matanzas, Cuba
- Drepanidotaenia barrowensis* (Schiller, 1952)
Neraasen, T. G.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens
Anser albifrons
Branta bernicla nigricans
all from Anderson River Delta, Northwest Territories, Canada
- Drepanidotaenia lanceolata*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus
Arctodiaptomus bacillifer
Metadiaptomus asiaticus
all from Kazakhstan
- Drepanidotaenia lanceolata*
Enigk, K.; Dey-Hazra, A.; and Batke, J., 1975, Acta Parasitol. Polon., v. 23 (26-40), 367-372
helminths of geese, treatment (*Amidostomum anseris* with mebendazol, fenbendazol, levamisole, and pyrantel tartrate; *Trichostrongylus tenuis* with mebendazol and fenbendazol; *Drepanidotaenia lanceolata* and *Hymenolepis setigera* with mebendazol)
- Drepanidotaenia lanceolata* (Bloch, 1782)
Neraasen, T. G.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens
Branta bernicla nigricans
all from Anderson River Delta, Northwest Territories, Canada

- Drepanidotaenia lanceolata*
Vasilev, I.; Denev, I.; and Kostov, R., 1977,
Vet.-Med. Nachr. (2), 149-152
cestodes of poultry, droncit, highly effective
- Drepanidotaenia nyrocae* (Yamaguti, 1935)
Skrjabin et Mathevossian, 1945 nec Krotov, 1953
Czaplinski, B., 1975, Acta Parasitol. Polon.,
v. 23 (26-40), 305-327
as syn. of *Wardoides nyrocae* var. *cygni*
(Yamaguti, 1935) Spassky, 1962
- Dubininolepis furcifera*
Jakutowicz, K.; and Korpaczewska, W., 1979,
Bull. Acad. Polon. Sc., Cl. II, s. Sc. Biol.,
v. 27 (1), 69-70
6 tapeworms and *Fasciola hepatica*, determination of Cu concentration, atomic absorption spectrometry
Podiceps cristatus (small intestine): bird reserve Stawy Milickie
- Dubininolepis multistriata* (Rud., 1810) Spasski, Spasskaya, 1954
Illescas Gomez, P.; and Lopez Roman, R., 1978,
Rev. Iber. Parasitol., v. 38 (3-4), 851-854
Podiceps ruficollis: provincia de Granada
- Duplicibothrium* gen. n.
Williams, A. D.; and Campbell, R. A., 1978, J. Parasitol., v. 64 (5), 835-837
Tetraphyllidea; Phyllobothriidae
tod: *D. minutum* sp. n.
- Duplicibothrium minutum* sp. n. (tod), illus.
Williams, A. D.; and Campbell, R. A., 1978, J. Parasitol., v. 64 (5), 835-837
Rhinoptera bonasus (spiral valve): Chesapeake Bay, Virginia; Sakonnet Point, Rhode Island
- Duthiersia fimbriata* (Diesing, 1850)
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
synonymy, key
Varanus monitor (rectum): near Kailana tank, Jodhpur Dist., Rajasthan, India
- Duthiersia fimbriata*
Sinha, D. P.; Sircar, M.; and Singh, S. P., 1978, Indian J. Animal Research, v. 12 (2), 97-101
trematodes, cestodes, glycogen distribution, histochemistry; metabolism discussed
- Duthiersia fimbriata*
Sircar, M.; and Sinha, D. P., 1978, Indian J. Animal Research, v. 12 (1), 27-30
Lytocestus indicus, *Duthiersia fimbriata*, *Raillietina echinobothrida*, histochemical study, sites of alkaline phosphatase activity
Varanus bengalensis
- Duthiersia fimbriata*
Sircar, M.; and Sinha, D. P., 1979, Indian J. Animal Research, v. 13 (1), 23-26
Lytocestus indicus, *Duthiersia fimbriata*, *Raillietina echinobothrida*, water and protein content
Varanus bengalensis (small intestine)
- Echeneibothrium* sp.
McVicar, A. H., 1979, Internat. J. Parasitol., v. 9 (3), 165-176
5 cestode species, distribution within spiral intestine of *Raja naevus*, correlation with anatomical and physicochemical features of spiral intestine
- Echeneibothrium* sp., illus.
Williams, H. H., 1969, Norwegian J. Zool., v. 17 (1), 1-56
- Echeneibothrium bathyphilum* Campbell 1975
Campbell, R. A., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 191-197
Raja bathyphila (spiral valve (anterior half)): Western North Atlantic
- Echeneibothrium dubium abyssorum* ssp. n., illus.
Campbell, R. A., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 191-197
Raja radiata (spiral valve): Western North Atlantic
- Echeneibothrium pollonae* sp. n., illus.
Campbell, R. A., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 191-197
Bathyraja richardsoni (spiral valve): Northwest Atlantic
- Echinobothrium* sp., resembling *E. acanthophyllum*, illus.
Shimazu, T., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 122-128
Euphasia similis: Suruga Bay, Japan
- Echinobothrium harfordi*
McVicar, A. H., 1979, Internat. J. Parasitol., v. 9 (3), 165-176
5 cestode species, distribution within spiral intestine of *Raja naevus*, correlation with anatomical and physicochemical features of spiral intestine
- Echinococcosis*
Aarons, B. J., 1979, Austral. Vet. J., v. 55 (3), 146-148
hydatidosis, human, modern surgical treatment, review
- Echinococcosis*
de Alencar, R. A. (filho), 1978, Arq. Inst. Biol., Sao Paulo, v. 45 (2), 101-115
echinococcosis, cattle, swine, diagnosis by latex agglutination, immunodiffusion, and Casoni skin test compared
- Echinococcosis*
Alfano, C.; and Amabile, G., 1973, Rassegna Internaz. Clin. e Terap., Napoli, v. 53 (15), 908-922
human splenic echinococcosis, case reports, clinical aspects, surgical management
- Echinococcosis*
Allamand M., J.; and Lemus B., J., 1977, Rev. Med. Chile, v. 105 (7), 439-442
human pulmonary echinococcosis, surgical management of 450 cases, cyst localization, age and sex distribution of patients, surgical complications, criteria for surgical methods employed
- Echinococcosis*
Alonge, D. O.; and Fasanmi, E. F., 1979, Trop. Animal Health and Prod., v. 11 (1), 57-62
diseases and parasites of cattle resulting in carcass condemnations, abattoir survey, economic importance and public health: northern Nigeria

- Echinococcosis**
Altieri, A.; et al., 1973, Rassegna Internaz. Clin. e Terap., Napoli, v. 53 (19), 1188-1193
human renal echinococcosis, case report of infection diagnosed after daughter cysts were excreted via the urinary tract, clinical aspects
- Echinococcosis**
Ambroise-Thomas, P.; et al., 1970, Semaine Hop. Paris, v. 46 (19), 1304-1307
echinococcosis, fatal human alveolar infection with hepatic, pulmonary, and cerebral localizations, clinical case report of illness of 26 years' duration
- Echinococcosis**
Ambroise-Thomas, P.; and Desgeorges, P. T., 1978, Bull. World Health Organ., v. 56 (4), 609-613
parasitic diseases, diagnosis, enzyme-linked immunosorbent assay, modified micromethod
- Echinococcosis**
Aminzhanov, M., 1977, Veterinariia, Moskva (12), 86-88
echinococcosis, sheep, hematological changes, relationship to stage of parasite development, number of reinfections, and duration of infection
- Echinococcosis**
Aminzhanov, M., 1978, Uzbek. Biol. Zhurnal (2), 82
echinococcosis, canine, newborn puppies fed only mother's milk up to 30-45 days of age, not protected against experimental infection given 4-5 days after birth
- Echinococcosis**
Angiello, A.; et al., 1973, Riv. Chir. Pediat., v. 15 (4), 288-299
echinococcosis, boy, thyroid cyst, case report, surgical removal, pathology
- Echinococcosis**
Arevalo Jimenez, E.; et al., 1976, Rev. Espan. Enferm. Apar. Digest., v. 48 (6), 754-767
human hepatic echinococcosis, radiologic diagnostic methods compared
- Echinococcosis**
Aroney, M.; and Souvlis, L., 1979, Austral. Vet. J., v. 55 (3), 149
human hepatic hydatid disease, current alternate surgical management with emphasis on omentoplasty
- Echinococcosis**
Artem'ev, G. M., 1978, Vestnik Sel'skokhoz. Nauki Kazakhstana (10), 91-93
helminthiases, sheep, economic losses, phenothiazine salt and cupric sulfate mix: Pavlodarsk oblast
- Echinococcosis**
Baldi, E. M.; et al., 1973, Rev. Soc. Obst. y Ginec. Buenos Aires (724), v. 52, 384-389
human pulmonary and hepatic hydatid cysts as complication of pregnancy, clinical case report: Santiago del Estero, Argentina
- Echinococcosis**
Barrucand, D.; et al., 1976, Rev. Oto-Neuro-Ophth., Paris, v. 48 (4), 291-311
echinococcosis, human nervous system involvement, diagnosis, review of various localizations, clinical management, case reviews
- Echinococcosis**
Beard, T. C., 1979, Austral. Vet. J., v. 55 (3), 131-135
hydatid disease in man in Australia, review
- Echinococcosis**
Begic-Janev, A.; et al., 1974, Srpski Arhiv Tselok. Lekar., v. 102 (6), 485-491
echinococcosis, man, hepatic cysts with obstruction of the biliary tract and jaundice, fatal illness
- Echinococcosis**
Berri, R.; et al., 1974, Rev. Argent. Cirug., v. 26 (4), 66-69
human hepatic echinococcosis, statistical data of surgical cases and their management, recent improvements in surgical care: La Plata, Argentina
- Echinococcosis**
Bianca, T.; et al., 1977, Studi Sassaesi, Sez. II, Med., v. 55 (5-6), 515-538
echinococcosis, human kidney, extensive clinical review, diagnosis, pathology, therapy, surgical management, case report
- Echinococcosis**
Bieler, E. U.; Meyer, B. J.; and Jansen, C. R., 1972, South African Med. J., v. 46 (46), 1772-1781
liver diseases, humans, diagnosis using radio-active rose bengal, includes information on amoebic abscesses and echinococcosis
- Echinococcosis**
Biersack, H. J.; et al., 1977, ROEFO, v. 127 (5), 422-427
human hepatobiliary echinococcosis, differential diagnosis using ^{99m}Tc -diethyl-IDA in hepatobiliary scintigraphy
- Echinococcosis**
Blasco Huelva, P. M.; and Garcia Serna, D., 1977, Rev. San. e Hig. Pub., v. 51 (9-10), 1109-1128
human echinococcosis, extensive epidemiologic survey, the relationship of human infection to frequent contact with dogs and presence of large numbers of sheep has been established: provincia de Sevilla, Espania
- Echinococcosis**
Boragina, R. C.; Procupet, L.; and Coyego, M. O., 1977, Semana Med. (4974), an. 84, v. 150 (1), 2-4
echinococcosis, human pulmonary cysts, surgical therapy using Mabit procedure: Argentina
- Echinococcosis**
Bouker, T.; et al., 1978, Tunisie Med., v. 56 (1), 63-69
hydatid cyst of kidney with resulting renal-duodenal fistula, humans, clinical aspects, case reports, literature review
- Echinococcosis**
Bouree, P., 1978, Rev. Prat., Paris, v. 28 (37), 2897-2900
human echinococcosis, discussion on future possible use of anthelmintics as therapy
- Echinococcosis**
Bouvier, M.; et al., 1974, Rev. Rhumatisme et Mal. Osteo-Art., v. 41 (3), 173-177
human echinococcosis, solitary epidural cyst, radiologic diagnosis, clinical management, surgical excision, case report

- Echinococcosis**
Brucar, M., 1976, Rev. Chir. (Chirurgia), Bucuresti, v. 25 (1), 65-73
echinococcosis, woman with multiple cutaneous and muscular cysts, case report, diagnostic difficulties: Rimnicu Vilcea
- Echinococcosis**
Burlui, D.; et al., 1974, Rev. Chir. (Chirurgia), Bucuresti, v. 23 (8), 669-676
human hepatic hydatid cysts with complicating obstructive jaundice, case reviews of successful therapeutic surgical intervention
- Echinococcosis**
Caamano M., J. E.; and Izzo S., C., 1976, Rev. Chilena Pediat., v. 47 (2), 169-172
renal and pararenal hydatid cysts in children, diagnosis, clinical management, surgical treatment, case reports: Santiago, Chile
- Echinococcosis**
Calamai, G.; Perna, A. M.; and Venturini, A., 1974, Thorax, v. 29 (4), 451-458
echinococcosis, human (heart), case reports, clinical review, literature review
- Echinococcosis**
Calderon, C.; et al., 1976, Rev. Med. Chile, v. 104 (3), 152-154
human echinococcosis, serological survey using the immunoelectrophoresis test: District of Palena, Chiloe, Chile
- Echinococcosis**
Campron, R.; et al., 1974, Rev. Espan. Enferm. Apar. Digest., v. 43 (4), 365-378
human hepatic hydatid cysts, diagnostic scintigraphy, surgical methods used in treatment
- Echinococcosis**
Cano, J. M.; et al., 1976, Rev. Clin. Espan., v. 140 (1), 29-42
human hepatic hydatid cysts, comparison of efficacy of 5 procedures commonly used to diagnose space occupying hepatic lesions, gamma-scan and arteriography proved most satisfactory
- Echinococcosis**
Cantiello, L.; De Luca, F.; and Distasi, A. L., 1972, Rassegna Internaz. Clin. e Terap., Napoli, v. 52 (13), 792-800
echinococcosis, woman, case report of primary hydatid cyst of large ligament supporting internal reproductive structures: Italy
- Echinococcosis**
Capron, A.; et al., 1974, Tijdschr. Gastroenterol., v. 17 (1), 17-23
hepato-biliary parasitic infections, humans, use of immunologic diagnostic techniques for post-therapeutic evaluations
- Echinococcosis**
Capron, A.; Bout, D.; and Dugimont, J. C., 1975, Ann. Soc. Belge Med. Trop., v. 55 (5), 443-454
hydatidosis, bilharziasis, toxoplasmosis, humans, diagnosis, enzyme linked immunoadsorbent assay
- Echinococcosis**
Carpio, A.; Martin, F.; and Rosi, P., 1973, Rev. Clin. Espan., v. 128 (3), 263-264
pulmonary hydatid cyst, 7-year old boy who died of asphyxia after vomiting a massive amount of liquid and membranous hydatid materials, case report: Spain
- Echinococcosis**
Carrasquer, J.; et al., 1976, Rev. Espan. Enferm. Apar. Digest., v. 47 (3), 317-328
human hepatic echinococcosis, use of laparoscopy for diagnostic purposes, comparison with other diagnostic techniques
- Echinococcosis**
Cazin, A., 1976, Rev. Infirm. Afrique Noire (51), 5-13
human hydatid cysts, life cycle, diagnosis, treatment, brief review
- Echinococcosis**
Chassain, A. P.; and Aberkame, A., 1974, Rev. de Med. Limoges, v. 5 (2), 91-96
human pulmonary hydatid cysts, measurements of respiratory functions (vital capacity, residual respiratory volume, maximum expiratory volume) in infected persons, discussion of significance of these findings
- Echinococcosis**
Chiva, P.; Popovici, R.; and Pralea, E., 1978, Rev. Pediat. (Obst. si Ginec.), Bucuresti, v. 26 (3), 279-282
echinococcal peritoneal-genital tumors, human, case reports, clinical aspects, recommended surgical treatment
- Echinococcosis**
Ciobanu, S., 1975, Rev. Med.-Chir. Soc. Med. si Nat. Iasi, v. 69 (3), 403-405
human hepatic echinococcal cysts, post-surgical complications of the cyst cavity, management
- Echinococcosis**
Clarkson, M. J., 1978, Vet. Rec., v. 102 (12), 259-261
hydatidosis in man and domestic animals, public health importance, economic losses, suggested eradication schemes: Wales
- Echinococcosis**
Coman, C.; et al., 1978, Rev. Chir. (Chirurgia), Bucuresti, v. 27 (1), 21-28
human thoracic hydatid cysts, review of current surgical procedures and description of new surgical procedure for excision of intact cysts
- Echinococcosis**
Conigliaro, S.; and Gilardi, F. F., 1972, Rassegna Clin.-Scient., v. 48 (11), 343-347
human echinococcosis, cysts of pulmonary and pleural regions, differential diagnosis, clinical management
- Echinococcosis**
Contreras, M. del C.; et al., 1978, Bol. Chileno Parasitol., v. 33 (3-4), 53-56
human hydatidosis, diagnosis, indirect hemagglutination test
- Echinococcosis**
Cossey, A.; Dimichiel, A.; and Dunstone, J., 1979, European J. Biochem., v. 98 (1), 53-60
sheep hydatid-cyst fluid, isolation and characterization of glycoproteins with blood group P₁ activity using equilibrium density-gradient ultracentrifugation
- Echinococcosis**
Couinaud, C.; and Goddio, A. S., 1978, Rev. Prat., Paris, v. 28 (37), 2903-2908
human echinococcosis, spontaneous rupture of hepatic cyst into the peritoneum, diagnostic signs, surgical management

- Echinococcosis**
Cranley, J. J., 1979, *Vet. Rec.*, v. 104 (19), 441 [Letter]
hydatidosis, horses, ponies, and donkeys, incidence: England; Scotland; Wales
- Echinococcosis**
Dada, B. J. O., 1978, *J. Helminth.*, v. 52 (1), 70-72
hydatid disease, prevalence in food animals (sheep, goats, cattle, camels) reported at meat inspection, 1971-1975: Nigeria
- Echinococcosis**
Dada, B. J. O., 1978, *Trop. Animal Health and Prod.*, v. 10 (4), 204
hydatid cysts, camels (lungs, livers, spleens), prevalence: Kano abattoir, Nigeria
- Echinococcosis**
Dada, B. J. O.; and Belino, E. D., 1978, *Vet. Rec.*, v. 103 (14), 311-312
hydatidosis, cysticercosis, prevalence in slaughtered livestock used for food: Kano abattoir, Nigeria
- Echinococcosis**
Dajani, Y. F., 1978, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 72 (3), 320-321 [Letter]
echinococcosis in sheep, goats, cattle, prevalence survey: Syria and Jordan
- Echinococcosis**
Dayras, M.; and Dubrisay, J., 1973, *Semaine Hop. Paris*, v. 49 (23), 1657-1666
echinococcosis, humans, hepatic cysts, case reports, radiologic diagnostic methods
- Echinococcosis**
Debray, C.; et al., 1975, *Semaine Hop. Paris*, v. 51 (45), 2735-2737
Fasciola hepatica, echinococcosis, man, mixed infection, case report
- Echinococcosis**
De Juan, M.; et al., 1973, *Rev. Espan. Enferm. Apar. Digest.*, v. 41 (7), 835-836
human echinococcosis, cyst of inguinal canal, case report
- Echinococcosis**
DeNardo, G. L.; et al., 1974, *Radiology*, v. 111 (1), 135-141
amoebiasis, echinococcosis, humans, hepatic lesions diagnosed by means of scintiangiographic patterns
- Echinococcosis**
Descours, C.; et al., 1973, *Semaine Hop. Paris*, v. 49 (46), 3079-3083
echinococcosis, humans, peritoneal involvement, case reports, differential diagnosis, clinical management
- Echinococcosis**
Dharker, S. R.; et al., 1977, *Surg. Neurol.*, v. 8 (1), 31-34
cerebral hydatid cysts, diagnostic features, angiographic findings, case reports: India
- Echinococcosis**
Di Nardo, V.; De Rosa, F.; and Toraldo, P., 1977, *Riv. Parassitol.*, Roma, v. 38 (1), 103-107
echinococcosis, incidence of recurrence 1-20 years after surgical removal, detection of subclinical parasitosis using indirect haemagglutination
- Echinococcosis**
de Dios-Vega, J. F.; et al., 1977, *Rev. Clin. Espan.*, v. 144 (1), 37-42
human hepatic echinococcosis, evaluation of ultrasonics in diagnosis, useful in that it provides all diagnostic features (location, number, form, size, differentiation from other space occupying lesions)
- Echinococcosis**
Eguaras, M. G.; et al., 1979, *Internat. Surg.*, v. 64 (1), 77-78
hydatid cyst of lung, 12-year-old male, associated Hodgkin's disease, case report: Spain
- Echinococcosis**
Ernst M., S.; and Paredes M., J., 1979, *Arch. Med. Vet.*, Valdivia, v. 11 (1), 18-22
hydatidosis, statistical survey of hospital cases, 1970-1975, morbidity and mortality rates, epidemiological data: province of Valdivia, Chile
- Echinococcosis**
Evans, D. G.; and Pratt, J. H., 1978, *Brit. Vet. J.*, v. 134 (5), 476-492
critical analysis of slaughterhouse condemnation data for cattle, pigs, and sheep 1969-1975, incidence of different disease conditions, factors affecting condemnation levels including seasonal variations, slaughtering level, and correlations between condemnations for different diseases
- Echinococcosis**
Farris, A.; and Mameli, P., 1976, *Studi Sassa-resi, Sez. II, Med.*, v. 54 (5-6), 363-374
echinococcosis, human heart; presentation of myocardial infarction, case report, differential diagnosis
- Echinococcosis**
Felgner, P., 1978, *Tropenmed. u. Parasitol.*, v. 29 (4), 417-422
alveolar and cystic echinococcosis, human, antibody activity in stick-ELISA compared to activity of complement fixation and indirect hemagglutination, no test allowed species specific diagnosis of cystic disease but most alveolar infections could be recognized using homologous antibody and ELISA or complement fixation
- Echinococcosis**
Fernandez Herrero, L. J.; Rodriguez Codovilla, E.; and Quintanilla Toral, M., 1979, *Bol. Inform. Dent.* (298), v. 39, 35-40
echinococcosis, human masseter muscle, differential diagnosis, case reports: Spain
- Echinococcosis**
Ferreira Montero, V.; and Fabian, P. G., 1973, *Rev. Espan. Enferm. Apar. Digest.*, v. 39 (5), 589-594
human echinococcosis, rupture of hepatobiliary cyst into peritoneum with resulting peritonitis, 2 case reports, clinical management: Spain
- Echinococcosis**
Fleischer, N. K. F., 1979, *Med. Welt.*, v. 30 (44), 1625-1630
parasitic tropical diseases, humans, central nervous system involvement, clinical review
- Echinococcosis**
Flores, G.; Sanchez, C.; and Albala, F., 1976, *Rev. Clin. Espan.*, v. 141 (5), 431-433
human echinococcosis, diagnosis using immunofluorescence

- Echinococcosis
Gadzhiyev, Sh. M., 1979, Azerbaidzhan. Med. Zhurnal (8), 44-49
pulmonary echinococcosis, terminology and classification of surgical methods
- Echinococcosis
Gajjar, P. D.; and Sinclair-Smith, C. C., 1978, South African Med. J., v. 54 (23), 984-986
echinococcosis, renal infections in children, pathology, diagnosis, usefulness and limitations of Casoni skin test and serological tests: South Africa
- Echinococcosis
Garbe, L.; Girodroux, C.; and Payan, H., 1978, Rev. Prat., Paris, v. 28 (37), 2839-2845
human echinococcosis, pathology with emphasis on cysts of liver and lung
- Echinococcosis
Garcia Alvarez, J.; et al., 1974, Rev. Clin. Espan., v. 135 (3), 255-261
human hepatic hydatid cysts, clinical manifestations, laboratory and radiologic findings in review of 60 cases at autopsy
- Echinococcosis
Garcia Alvarez, J.; et al., 1974, Rev. Clin. Espan., v. 135 (3), 263-267
human hepatic hydatid cysts, evaluation of diagnostic procedures used in 60 proven cases and analysis of complications which were mainly infections and perforations
- Echinococcosis
Garcia Gil, F. A.; et al., 1977, Rev. Espan. Enferm. Apar. Digest., v. 51 (3), 279-290
human hepatic echinococcosis, pre- and post-operative radiography and scintigraphy, comparison with surgical findings
- Echinococcosis
Garrett, W. J.; et al., 1976, Radiology, v. 119 (2), 425-428
human hepatic echinococcal cysts, differential diagnosis using sulphur colloid liver scanning
- Echinococcosis
Gaur, S. N. S.; Tewari, H. C.; and Prakash, O., 1977, Indian J. Animal Research, v. 11 (2), 109
hydatid cyst, occurrence in a suckling calf (liver), reasonable to assume infection is of prenatal origin
- Echinococcosis
Gelfand, D. W., 1975, Seminars Roentgenol., v. 10 (3), 177-185
hepatic calcifications, human, radiologic diagnosis by plain film, includes information on amoebiasis and echinococcosis
- Echinococcosis
Gemmell, M. A., 1978, Vet.-Med. Nachr. (1), 3-48
hydatidosis and cysticercosis, potential for treatment, review
- Echinococcosis
Gemmell, M. A., 1978, Vet. Med. Rev. (1), 3-48
hydatidosis, cysticercosis, control, extensive review
- Echinococcosis
Georgescu, P.; et al., 1975, Rev. Chir. (Chirurgia), Bucuresti, v. 24 (4), 277-281
echinococcosis, human hepatic cysts with complicating abscesses and lung fistulae, clinical case reports
- Echinococcosis
Gerhardt, P.; et al., 1977, Roentgenpraxis, Stuttgart, v. 30 (7), 181-197
computer tomography in diagnosis of disease of thoracic and abdominal organs, mention of hepatic echinococcosis
- Echinococcosis
Glenn, F., 1971, Surg., Gynec. and Obst., v. 132 (1), 25-35
medical conditions involving obstruction of the common bile duct, humans, echinococcal cysts given as rare cause in the New York City area
- Echinococcosis, illus. following p. 160
Glumov, V. Ia.; and Abdrakhmanov, E. A., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (2), 157-160
echinococcosis, alveococcosis, human liver, pathomorphology
- Echinococcosis
Gobzem, M. P.; and Slepnev, N. K., 1975, Vet. Nauka--Proizvod., Trudy, Minsk, v. 13, 117-120
echinococcosis, experimental infection of calves, lambs, and piglets with swine and ovine strains, possibility of autoimmune aspects of pathogenesis
- Echinococcosis
Goebel, N.; and Gander, M. P., 1977, ROEFO, v. 126 (1), 11-14
human echinococcal cyst in ventral septum of heart with resulting pulmonary valve stenosis, clinical case report; discussion of clinical features and radiologic diagnosis
- Echinococcosis
Golematis, B., 1978, Surg. Annu., v. 10, 359-386
echinococcosis, human, history, etiology, epidemiology, epizootiology, locations, and prevention, extensive review with emphasis on surgical treatment
- Echinococcosis
Gomez Pereda, R., 1974, Radiologia, Madrid, v. 16 (2), 143-146
human echinococcosis, diagnosis of hepatopulmonary cysts using iodized contrast medium
- Echinococcosis
Gomez Pereda, R.; et al., 1975, Radiologia, Madrid, v. 17 (6), 481-488
human echinococcosis, comparative diagnostic study of renal cysts using simple radiography, urography, xerography, echography and renal arteriography
- Echinococcosis
Grippio, A.; Bassi, G.; and Martino, A., 1974, Rassegna Internaz. Clin. e Terap., Napoli, v. 54 (5), 276-284
echinococcosis, human, case report of hepatic hydatid cyst with rupture into peritoneal cavity, clinical aspects, differential diagnosis, surgical management: Italy

Echinococcosis

- Grosdidier, J.; Gaucher, P.; and Preaut, J., 1970, *Semaine Hop. Paris*, v. 46 (41), 2637-2638
 echinococcosis, woman, obstructive jaundice resulting from fistulization of biliary tract by hepatic hydatid cyst, surgical intervention successful

Echinococcosis

- Grosdidier, J.; Richaume, B.; and Rollin, B., 1971, *Semaine Hop. Paris*, v. 47 (46-47), 2675-2678
 echinococcosis, human, alveolar hepatic infection, successfully treated with left hepatectomy

Echinococcosis

- Gupta, P. P.; and Kalra, I. S., 1978, *Indian Vet. J.*, v. 55 (11), 916
 ciliate protozoa, bullock (lung), death appeared to be due to pulmonary echinococcosis

Echinococcosis

- Gutierrez Fuentes, J. A.; et al., 1976, *Rev. Clin. Espan.*, v. 141 (5), 487-490
 human peritoneal echinococcosis with associated encapsulated peritonitis, clinical case report: Spain

Echinococcosis

- Hernandez Guio, C.; Vazquez Iglesias, J. L.; and Gonzalez Campos, C., 1972, *Rev. Clin. Espan.*, v. 124 (4), 413-416
 hepatic hydatid cyst, man, with associated congenital hepatic fibrosis, clinical case report: Madrid, Spain

Echinococcosis

- Hivet, M.; et al., 1974, *Semaine Hop. Paris*, v. 50 (41), 2541-2543
 echinococcosis, human, case report, value of diagnostic radiographic procedures in complicated hepatic cysts with opacification of bile ducts

Echinococcosis

- Hureau, J.; et al., 1974, *Semaine Hop. Paris*, v. 50 (18), 1232-1234
 echinococcosis, man, case report, calcified hepatic cyst causing hepatitis and jaundice: France, native of Portugal

Echinococcosis

- Ibanez Delgado, F.; de Castro Sanchez, P.; and Torres Rodriguez de Torres, E., 1978, *Rev. Espan. Enferm. Apar. Digest.*, v. 52 (6), 707-712
 human echinococcosis, pancreas, surgical management, case report: Spain

Echinococcosis

- Iliescu, O. T., 1974, *Rev. Chir. (Chirurgia)*, Bucuresti, v. 23 (7), 621-628
 human echinococcosis, large pulmonary cysts, surgical method for residual drainage of cyst cavity, procedure superior to other accepted surgical methods

Echinococcosis

- Jitaru, I.; and Mihalache, S., 1977, *Rev. Med. Chir. Soc. Med. si Nat. Iasi*, v. 81 (4), 675-677
 echinococcal cyst involving right subclavicular region, unusual cause of Pancoast-Tobias syndrome, relief of most symptoms with surgical excision of cyst, case report, man: Romania

Echinococcosis

- Jørgensen, R. J., 1978, *Dansk Vet.-Tidsskr.*, v. 61 (12), 577-585
 echinococcosis, prevalence, diagnostic techniques, differential diagnosis of *Taenia hydatigena* and *Cysticercus tenuicollis*: Denmark

Echinococcosis

- Kasatkin, Iu. N.; et al., 1977, *Terap. Arkh.*, v. 49 (8), 20-24
 differential radiologic diagnosis of focal lesions of liver, humans, includes echinococcosis

Echinococcosis

- Kertesz, V.; Roberts, P. W.; and Sharp, P., 1979, *Med. J. Australia*, v. 2 (13), 678-680
 hydatid disease, humans, diagnosis, evaluation of sensitivity and specificity of 3 commonly used serological tests: complement fixation, haemagglutination, and fluorescent antibody techniques

Echinococcosis

- Khalfallah, A.; and Gharbi, S., 1978, *Tunisie Med.*, v. 56 (2), 183-186
 echinococcosis, children, respiratory distress resulting from hydatid pneumothorax, clinical aspects, case reports

Echinococcosis

- Khan, I. B., 1979, *Khirurgiia* (11), 119-120
 echinococcosis, child, thyroid gland, case report

Echinococcosis

- Klemencic, J.; et al., 1976, *ROEFO*, v. 124 (1), 40-43
 human echinococcosis, radiological course of pulmonary hydatid cyst before and after rupture into bronchial system, resultant tissue changes and discussion of surgical treatment, case report

Echinococcosis

- Kukreti, S. C.; Trivedi, P. S.; and Patel, J. M., 1975, *Quart. J. Surg. Sc.*, v. 11 (3), 135-136
 human echinococcal infections, case reports of hydatid cysts surgically excised from man's ankle and from woman's left breast: India

Echinococcosis

- Laigneau, P.; and Huguet, C., 1976, *Rev. de Med.*, Paris, v. 17 (4), 221-231
 human hepatic echinococcosis, surgical management

Echinococcosis

- Ledro Molina, D.; et al., 1977, *Rev. Espan. Enferm. Apar. Digest.*, v. 51 (4), 455-464
 echinococcosis, human spleen, radiologic diagnosis, surgical management, case reports: Spain

Echinococcosis

- Lemus B., J.; Guachalla U., J.; and Retamal, Q. F. C., 1976, *Rev. Chilena Cirug.*, v. 28 (1), 28-30
 human echinococcosis with secondary involvement of the thorax, analysis of 31 cases to establish original sites and mechanisms of spread

Echinococcosis

- Lemus, J.; Guachalla, J.; and Retamal, C., 1977, *Rev. Med. Chile*, v. 105 (7), 443-446
 human echinococcosis, multiple hydatid cysts of lung, diagnosis and surgical management

- Echinococcosis**
Lewin, T.; and Hedegard, B., 1971, Suomen Hammaslaak. Toim., v. 67, Suppl. 1, 63-70
echinococcosis, biological studies among the Lapps, survey of early medical reports: Sweden; Norway; Finland
- Echinococcosis**
Longo, O. F.; et al., 1974, Rev. Argent. Cirug., v. 26 (4), 57-59
human hepatic hydatid cysts with drainage into biliary tract, description of surgical management with cholecystectomy and cystojejunostomy, case reports: Cordoba, Argentina
- Echinococcosis**
Lopez-Lemes, M. H.; et al., 1975, Rev. Asoc. Argent. Microbiol., v. 7 (2), 39-43
human echinococcosis, comparison of diagnostic results obtained using immunoelectrophoresis and Casoni intradermal tests in patients where presence of cysts was later confirmed at surgery; immunoelectrophoresis test gave the better results but neither test was recommended for use
- Echinococcosis**
Loscertales Abril, J.; Loscertales Fontenla, F.; and Reig Redondo, J., 1973, Rev. Espan. Enferm. Apar. Digest., v. 41 (3), 311-322
human hepatic echinococcosis, review of and commentary on current surgical methods of treatment, surgical case reports
- Echinococcosis**
Louis, R.; Casanova, J.; and Baffert, M., 1976, Rev. Chir. Orthoped., v. 62 (1), 57-70
human spinal echinococcosis, discussion of surgical removal of spinal cysts, 2 case reports
- Echinococcosis**
Macedo, J. C.; et al., 1974, Rev. Espan. Tubercul. (475), v. 43, 565-568
human hepatic echinococcosis, frequent association with pulmonary echinococcosis, recommendations for further diagnostic workup when pulmonary infection has been established
- Echinococcosis**
Mann, I., 1978, Ann. Ist. Super. San., Roma, v. 14 (2), 235-244
review of cysticercosis/hydatidosis problem in Africa, discussion of new integrated multidisciplinary environmental approach to problem with practical control applications
- Echinococcosis**
Mansueto, S.; et al., 1979, Boll. Ist. Sieroterap. Milanese, v. 58 (3), 260-265
hydatidosis, human, diagnosis, counterimmunoelectrophoresis on cellulose acetate membrane with lyophilized commercially produced antigen
- Echinococcosis**
Matos Ferreira, A.; and Rommel Rangel, A. J., 1979, Brit. J. Urol., v. 51 (5), 345-348
echinococcosis, humans, clinical features, diagnosis, therapy, review of 8 cases: Portugal
- Echinococcosis**
Matossian, R. M.; et al., 1979, J. Helminth., v. 53 (4), 287-291
human hydatid disease, serodiagnosis, indirect haemagglutination, enzyme-linked immunosorbent assay, fluorescence using defined antigen substrate spheres
- Echinococcosis**
Mayer, F., 1976, Rozhl. Chir., v. 55 (6), 423-431
human hepatic echinococcal cysts, Ton-That Tung method of cyst resection, application to other hepatic surgery
- Echinococcosis**
de la Maza, D.; et al., 1977, Rev. Med. Chile, v. 105 (7), 464-466
human echinococcosis, evaluation of electro-syneresis for diagnostic use, test proved highly sensitive and specific
- Echinococcosis**
Merchante, A.; et al., 1974, Rev. Clin. Espan., v. 135 (3), 289-293
human hepatic echinococcosis resulting in acquired pulmonary stenosis because of compression on pulmonary artery, clinical case report: Madrid
- Echinococcosis**
Merchante, A.; et al., 1975, Rev. Clin. Espan., v. 137 (3), 277-282
human hepatic echinococcosis with accompanying pulmonary infiltrations and eosinophilia, differential diagnosis, clinical case report: Spain
- Echinococcosis**
Miguel Velasco, J. E.; et al., 1976, Rev. Espan. Enferm. Apar. Digest., v. 47 (6), 771-784
human pancreatic echinococcosis, perforation of primary cyst, extensive clinical report: Spain
- Echinococcosis**
de Mirleau, J. C., 1978, Rev. Prat., Paris, v. 28 (37), 2867-2873
human hepatic echinococcal cysts, review of currently used surgical treatment methods
- Echinococcosis**
de Montis, G.; et al., 1973, Semaine Hop. Paris, v. 49 (49), 3267-3271 (Ann. Pediat., Paris, v. 20 (12), 901-905)
echinococcosis, child, thyroid cyst diagnosed by scintigraphy, case report, brief literature review: France (native of Kabyle, Algeria)
- Echinococcosis**
Moreno de Vega, V.; et al., 1975, Rev. Clin. Espan., v. 139 (4), 327-332
human splenic echinococcosis, review of 3 cases giving clinical manifestations, diagnostic procedures and surgical management: Spain
- Echinococcosis**
Munz, E., 1977, Tieraerztl. Prax., v. 5 (2), 159-166
zoonoses of human and veterinary importance, includes mention of echinococcosis
- Echinococcosis**
Muro, J.; et al., 1971, Rev. Clin. Espan., v. 122 (3), 199-210
human hepatic hydatid cysts, reports on 10 cases with large volume cysts of right lobe diagnosed by selective coeliac arteriography
- Echinococcosis**
Muro, J.; et al., 1972, Rev. Clin. Espan., v. 126 (6), 501-508
human hepatic hydatid cysts, diagnostic problems associated with arteriographic demonstration of left lobe cysts

- Echinococcosis
Murray-Lyon, I. M.; and Reynolds, K. W., 1979, Brit. Med. J. (6198), v. 2, 1111-1112
hydatid cysts, humans, fever following mebendazole treatment possibly a reaction to drug-induced tissue necrosis in cysts
- Echinococcosis
Musonera, N. A.; Kindele, N.; and Shukla, R. R., 1979, Bull. Animal Health and Prod. Africa, v. 27 (2), 97-100
disease survey of bovine lungs and livers cattle (liver): Kundelungu Ranch, Shaba, Zaire
- Echinococcosis
Navarro Artilles, G., 1972, Rev. Clin. Espan., v. 125 (5), 461-464
human pulmonary echinococcosis with extension to vertebrae and spinal cord, resulting recurrent and progressive paraplegia, clinical case report, 6 attempts at surgical relief of symptoms: Spain
- Echinococcosis
Navarro Artilles, G.; Crespo-Lopez Valverde, F.; and Matias Riu, J., 1972, Rev. Clin. Espan., v. 124 (2), 167-170
human cerebral and spinal echinococcosis, differential diagnosis from pathology of other origins
- Echinococcosis
Navarro Izquierdo, A.; and Pereda Garcia, J. M., 1974, Rev. Clin. Espan., v. 135 (4), 395-398
human echinococcosis with primary localization in pelvic bone, discussion of clinical case: Spain
- Echinococcosis
Noirclerc, M.; et al., 1978, Rev. Prat., Paris, v. 28 (37), 2875-2886
human pulmonary echinococcal cysts, diagnosis, surgical management, review
- Echinococcosis
Norden, C. W.; et al., 1978, Ann. Int. Med., v. 89 (1), 144-145 [Letter]
human echinococcal infection, importance of diagnosis by immunoelectrophoresis if there is possibility that serologic studies (indirect hemagglutination, bentonite flocculation) give positive results that do not correlate with clinical history
- Echinococcosis
Nott, D. B., 1979, Austral. Vet. J., v. 55 (3), 136-139
hydatidosis, human, brief summary of observations on series of cases with emphasis on management: Australia
- Echinococcosis
Occhipinti, S.; and Satta, U., 1974, Recenti Prog. Med., v. 56 (3), 275-306
echinococcosis, human hepatic, extensive review of past and present diagnostic methods: Italy
- Echinococcosis
Oldenburg, K., 1973, Roentgen-Blaetter, v. 26 (12), 523-536
bilateral symmetrical echinococcosis of tibiae, man, confirmation of diagnosis by radiograph, scintigraphy and intracutaneous antigen test
- Echinococcosis
Olsina, J.; et al., 1975, Rev. Espan. Enferm. Apar. Digest., v. 45 (4), 373-386
human hepatic echinococcosis, difficulties involved in surgical treatment and management
- Echinococcosis
Ossa, P.; et al., 1977, Rev. Med. Chile, v. 105 (3), 171-173
human hepatic echinococcosis with resulting portal hypertension, clinical aspects, case reviews: Chile
- Echinococcosis
Ozgen, G., 1973, Saglik Dergisi, v. 47 (5-6), 28-38
human hepatic and pulmonary hydatid disease, review of cases treated over 7-year period at the Ataturk Sanatorium, Turkey
- Echinococcosis
Pascual, J.; et al., 1975, Rev. Espan. Enferm. Apar. Digest., v. 46 (5), 547-552
human echinococcosis, cystoenterostomy suggested as satisfactory method for evacuation of hydatid cysts, case report
- Echinococcosis
Pasquier, B.; et al., 1977, Semaine Hop. Paris, v. 53 (10), 637-638
alveolar echinococcosis, man, case report, fatal infection involving liver, lungs, and brain: France (native of Viuz-en-Sallaz, Haute-Savoie)
- Echinococcosis
Piegari, V.; Di Martino, G.; and Amici, G., 1973, Rassegna Internaz. Clin. e Terap., Napoli, v. 53 (18), 1107-1113
echinococcosis, pulmonary hydatid cysts in children, clinical aspects, medical and surgical management according to type of lesions
- Echinococcosis
Pietri, H.; and Kasbarian, M., 1978, Rev. Prat., Paris, v. 28 (37), 2853-2865
human hepatic hydatid cysts, review of radiographic and ultrasonic diagnostic techniques
- Echinococcosis
Pinto, R.; Midulla, S.; and Marchese, A., 1974, Rassegna Internaz. Clin. e Terap., Napoli, v. 54 (11), 657-661
human splenic echinococcosis, 2 case reports, discovered on X-ray because of cyst calcification
- Echinococcosis
Popovici, G.; Vintila, I.; and Neagu, S., 1976, Rev. Chir. (Chirurgia), Bucuresti, v. 25 (6), 425-428
splenic echinococcosis, humans, clinical case reports, surgical treatment
- Echinococcosis
Pulatov, A. T.; and Khamidzhanov, E. Kh., 1979, Khirurgiia (11), 41-46
echinococcosis, children, multiple hepatic cysts, clinical aspects, pre- and post-surgical management
- Echinococcosis
Ramazanov, V. T.; and Kereev, Ia. M., 1978, Vestnik Sel'skokhoz. Nauki Kazakhstana (5), 78-80
echinococcosis, female sheep (exper.), influence on fertility

- Echinococcosis**
Ramirez, R., 1978, Bol. Chileno Parasitol., v. 33 (1-2), 15-17
echinococcosis, statistics of deaths resulting from human hydatid disease, 1974-1977: Chile
- Echinococcosis**
Ramos, G.; et al., 1971, Rev. Clin. Espan., v. 121 (5), 411-424
human cardiac hydatid cyts, extensive clinical review
- Echinococcosis**
Ramos, G.; et al., 1973, Rev. Clin. Espan., v. 128 (1), 53-62
echinococcosis in 2-year-old child with multiple hydatid cysts (pulmonary, hepatic, cerebral and mesenteric), extensive clinical case report, surgical management: Valladolid, Spain
- Echinococcosis**
Ramos G., L.; et al., 1975, Radiologia, Madrid, v. 17 (5), 375-380
human echinococcosis, diagnosis of abdominal cysts using intravenous visceral tomography
- Echinococcosis**
Ramos, L.; et al., 1975, Radiology, v. 116 (3), 539-542
human echinococcosis, radiologic characteristics of perforated pulmonary cysts
- Echinococcosis**
Razzakov, Sh. A., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (2), 148-152
echinococcal or alveococcal antigen-antibody complexes used to immunize rabbits, resulting sera with narrow specificity, useful for immunochemical analysis of echinococcal or alveococcal antigens
- Echinococcosis**
Reeder, M. M., 1975, Seminars Roentgenol., v. 10 (3), 229-243
parasitic infections of human liver and bile ducts, radiologic diagnosis, general review
- Echinococcosis**
Reventos, J.; et al., 1976, Surg., Gynec. and Obst., v. 143 (4), 570-574
hepatic echinococcosis with intrathoracic involvement, human, radiological diagnosis, surgical management
- Echinococcosis**
Richard-Lenoble, D.; et al., 1978, Ann. Trop. Med. and Parasitol., v. 72 (6), 553-560
hydatidosis, human, serodiagnosis (radio-immunoassay, indirect haemagglutination, immuno-electrodiffusion), subclasses of specific anti-hydatid immunoglobulin, detection of circulating immune complexes
- Echinococcosis**
Rizk, G. K.; Tayyarah, K. A.; and Ghandur-Mnayneh, L., 1971, Radiology, v. 99 (2), 303-309
human echinococcosis of liver and spleen, study of angiographic changes in cysts, use in localizing cysts and in planning surgical approach for removal
- Echinococcosis**
Rodriguez Cuartero, A.; and Silio Vallecillo, A., 1976, Rev. Clin. Espan., v. 143 (2), 183-185
human renal echinococcosis, clinical case report: Granada, Spain
- Echinococcosis**
Roux, M.; and de Casaubon, A., 1974, Semaine Hop. Paris, v. 50 (41), 2544-2547
echinococcosis, human, case report, hepatic cyst with fistula into biliary tract, radiographic diagnosis, surgical management: France, had lived in North Africa
- Echinococcosis**
Ruiz Perales, F.; Medina Diez, J.; and Aragon de la Cruz, G., 1976, Radiologia, Madrid, v. 18 (6), 441-444
echinococcosis, child with multiple cysts of lung, radiologic diagnosis with inversion of right diaphragm as defining characteristic
- Echinococcosis**
Russell, C. O. H.; Dowling, J. P.; and Marshall, R. D., 1979, Gastroenterology, v. 77 (4, pt. 1), 758-760
hydatid cysts, patient (liver), associated acute eosinophilic cholecystitis: Turkey, had resided 10 mo. in Australia
- Echinococcosis**
Sadana, J. R.; and Kalra, D. S., 1978, Indian J. Animal Sc., v. 44 (12), 1974, 994-997
hydatid cysts, pigs (lungs), prevalence, pathology: northern India
- Echinococcosis**
Saha, K.; et al., 1979, Indian J. Med. Research, v. 70, 22-32
parasitic diseases, human, serum immunoglobulin and complement profile: India
- Echinococcosis**
Saidi, F., 1977, Ann. Roy. Coll. Surg. England, v. 59 (2), 115-118
human echinococcal cysts, new approach to surgical management
- Echinococcosis**
Saimot, A. G., 1978, Rev. Prat., Paris, v. 28 (37), 2887-2894
human echinococcosis, less frequently seen cyst locations, diagnostic review
- Echinococcosis**
Saiz Moreno, L., 1974, Rev. San. e Hig. Pub., v. 48 (12), 1075-1112
human echinococcosis, review of diagnostic methods in current use, recommendations for techniques useful in epidemiologic surveys
- Echinococcosis**
Saiz Moreno, L.; et al., 1977, Rev. San. e Hig. Pub., v. 51 (3-4), 341-347
human echinococcosis, immunoelectrophoretic diagnosis, possible desensitizing of patients with precipitating antigens, results hopeful
- Echinococcosis**
Saksouk, F. A., 1979, Brit. J. Radiol. (623), v. 52, 918-919
extrapleural hydatid cyst, woman, smooth rib erosion thought radiologically to be due to tumour

- Echinococcosis**
Sanjines, A.; and Tomalino, D., 1973, Rev. Espan. Tubercul. (458), v. 42, 265-296
human hepatic echinococcosis, clinical review, diagnosis, surgical methods of treatment: Uruguay
- Echinococcosis**
Sapunar, J.; Montebruno, D.; and Ramirez, R., 1977, Rev. Med. Chile, v. 105 (8), 515-519
human hepatic echinococcosis, analysis of clinical records of 65 patients, medical and surgical management: Chile
- Echinococcosis**
Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
cattle
sheep
camels (lungs, liver)
all imported to United Arab Republic
- Echinococcosis**
Serrano Munoz, F.; et al., 1977, Rev. Clin. Espan., v. 147 (1), 43-46
human hydatid cysts presenting on the posterior or superior surface of the liver, recommendations for clinical management, aspiration and drainage and care of special complications that these localizations present
- Echinococcosis**
Shtern, V. N.; and Gol'dfarb, M. G., 1976, Radiol. Diagnost., v. 17 (2), 231-240
human hepatic echinococcosis, methods used for radiologic diagnosis, review
- Echinococcosis**
Singh, J. P.; Grover, V. K.; and Nagabhushanam, V., 1974, Surg. J. Delhi, v. 9 (1-2), 42-45
primary hydatid cyst of spleen, human, case report, clinical discussion
- Echinococcosis**
Sinha, B. P.; Verma, B. B.; and Ray, S. K., 1977, Trop. Animal Health and Prod., v. 9 (1), 18
multiple hydatids in *Bubalus bubalus* (heart): Saharanpur (Uttar Pradesh) slaughter house
- Echinococcosis**
Solis Herruzo, J. A.; et al., 1971, Rev. Clin. Espan., v. 120 (5), 431-436
human hepatic echinococcosis, diagnostic features of laparoscopy
- Echinococcosis**
Stanciu, G.; Pana, C.; and Grozescu, T., 1977, Rev. Chir. (Radiologia), Bucuresti, v. 16 (1), 25-27
human echinococcosis, calcified cyst localized in the transverse mesocolon, clinical case report, radiologic diagnosis
- Echinococcosis**
Stoianov, G., 1979, Khirurgiia, Sofiia, v. 32 (6), 559-560
echinococcosis, human hepatic cysts, case reports, rupture into gastrointestinal tract
- Echinococcosis**
Sueiras Fechtenburg, M. A.; et al., 1978, Rev. Espan. Enferm. Apar. Digest., v. 53 (3), 289-308
human hepatic echinococcosis, Lagrot surgical method evaluated and compared with other types of surgical treatments
- Echinococcosis**
Taguri, S.; and Dar, F. K., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (4), 338-341
hydatid disease, human, differential diagnosis from cancer on basis of blood values and liver function tests, comparison of 3 immunodiagnostic tests (intradermal, complement fixation, indirect haemagglutination), usefulness of post-operative serological surveillance: Libya
- Echinococcosis**
Teymoorian, G. A.; and Bagheri, F., 1976, Radiology, v. 118 (1), 97-100
human echinococcosis of skull, clinical case reports, value of radiologic diagnosis, incidence most common in young males
- Echinococcosis**
Thelen, M.; et al., 1976, ROEFO, v. 124 (2), 110-119
human pulmonary echinococcosis, radiologic differentiation of lung changes associated with progressive pulmonary insufficiency
- Echinococcosis**
Tiberio, G.; et al., 1976, Surg. Italy, v. 6 (3), 168-185
hydatid cyst of liver, humans, diagnosis using echography
- Echinococcosis**
Timosca, G., 1973, Rev. Stomatol. et Chir. Maxillo-fac., v. 73 (5), 359-368
human echinococcal cysts involving muscles of the maxillo-facial areas, 2 case reports, clinical management
- Echinococcosis**
Tocornal C., J., 1973, Rev. Med. Chile, v. 101 (2), 132-136
human hepatic echinococcosis, right hepatic lobectomy as surgical therapy
- Echinococcosis**
Todorov, T.; and Jeleva, R., 1979, Tropenmed. u. Parasitol., v. 30 (2), 182-188
echinococcosis, humans, demonstration of precipitating antibodies using a counter immunoelectrophoresis and antigen prepared from hydatid fluid from sheep liver cysts
- Echinococcosis**
Tricot, J. F., 1976, Rev. de Med., Paris, v. 17 (3), 129-132
human hepatic echinococcosis, clinical review
- Echinococcosis**
Triolo, G.; et al., 1973, Rendic. Gastro-enterol., v. 5 (2), 97-99
echinococcosis, human hepatic, complicated by allergic hepatitis, case reports, resolution of symptoms after excision of cysts
- Echinococcosis**
Tsakayiannis, E.; Pappis, C.; and Moussatos, G., 1970, Surgery, St. Louis, v. 68 (2), 379-382
hydatid disease of lung, children, conservative surgical procedures, indications for surgery in intact or ruptured cysts, review of 70 cases: Greece
- Echinococcosis**
Urgoiti, A., 1973, Rev. Espan. Tubercul. (454), v. 42, 31-38
human pulmonary echinococcal cysts, statistics of radiologic survey of the local population to diagnose new cases of pulmonary infection: Spain

- Echinococcosis
Urquia, M.; et al., 1975, Rev. Clin. Espan., v. 138 (6), 521-527
human echinococcosis involving interventricular septum of heart and concomitant pulmonary cysts, differential diagnosis, surgical treatment, clinical case reports: Pamplona, Spain
- Echinococcosis
Vargas, E.; Ernst, S.; and Sievers, G., 1978, Bol. Chileno Parasitol., v. 33 (1-2), 18-24
echinococcosis, epidemiologic survey of endemic area to analyze factors contributing to infections (knowledge of the disease by the population, infections of slaughter animals, abundance of dogs, feeding of dogs with infected offal, presence of migratory workers, geographic isolation of area, possible reservoir hosts): Tierra del Fuego Province, Chile
- Echinococcosis
Venkataraman, S.; Ahuja, G. K.; and Virmani, V., 1979, J. Ass. Physicians India, v. 27 (5), 421-428
cysticercosis, echinococcosis, malaria, differential diagnosis of neurological manifestations in humans
- Echinococcosis
Verroust, P. J.; et al., 1979, Kidney Internat., v. 16 (1), 9-14
schistosomiasis, filariasis, hydatidosis, human, circulating immune complexes, C3d levels, complement activation by parasite antigens
- Echinococcosis
Vessal, K.; et al., 1977, Radiologe, v. 17 (7), 290-295
human pulmonary echinococcosis, role and limitations of radiology in diagnosis, clinical review
- Echinococcosis
Vestfrid, M. A.; et al., 1977, Rev. Clin. Espan., v. 145 (2), 149-151
human echinococcosis, report of 2 cases involving female mammary glands, recommendations for differential diagnosis: Argentina
- Echinococcosis
Vilaseca, J.; et al., 1974, Rev. Clin. Espan., v. 134 (3), 271-278
human hepatic echinococcosis, epidemiologic and clinical review of 47 cases mostly diagnosed by surgical procedures: Barcelona, Spain
- Echinococcosis
Vojtech, K.; Ringel, J.; and Homolova, R., 1976, Rozhl. Chir., v. 55 (10), 677-681
echinococcal abdominal cysts, children, principles of surgical treatment
- Echinococcosis
Vullo, V.; et al., 1979, Boll. Ist. Sieroterap. Milanese, v. 58 (2), 141-147
hydatidosis, amebiasis, urinary schistosomiasis, human, diagnosis, immunoperoxidase and immunofluorescence techniques compared
- Echinococcosis
Waterhouse, K., 1971, Seminars Roentgenol., v. 6 (3), 338-343
tropical parasitic diseases of the human urinary tract, radiologic diagnostic methods, clinical review
- Echinococcosis
Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca fascicularis
M. mulatta
M. radiata
all wild caught in Asia, maintained at National Center for Primate Biology
- Echinococcosis
Zenteno, H.; Parra, J. C.; and Dussuel, M., 1977, Rev. Med. Chile, v. 105 (7), 481-482
human hepatic echinococcosis, report on surgical management of 51 cases occurring in hospitals of the XI region, Coyhaique, Chile Chico y Puerto Aysen
- Echinococcosis
Zotti, G. C.; and Porcellini, M., 1976, Riforma Med., v. 90 (4), 149-154
echinococcal cyst of suprarenal gland, boy, clinical aspects, case report
- Echinococcus
Baumeister, L.; and Merten, D., 1976, Radiologe, v. 16 (4), 140-143
human echinococcosis, false radiologic diagnosis of splenic cyst, recommendation that complement binding and Casoni skin test be used in conjunction with radiation for accurate diagnosis
- Echinococcus
Becker, J. H. R., 1979, South African J. Surg., v. 17 (1), 43-45
Echinococcus, human, surgical evacuation of hepatic cyst using a cryogenic cone, sterilization of cavity with silver nitrate, prevent spillage of cyst fluid and possible anaphylactic shock
- Echinococcus
Bout, D.; Carlier, Y.; and Capron, A., 1979, Biomedicine, v. 31 (7), 214-215
echinococcosis, immunodiagnosis using monospecific immune serum anti-Ags in microdouble diffusion technique
- Echinococcus
Dumon, H.; Vervloet, D.; and Quilici, M., 1978, Rev. Prat., Paris, v. 28 (37), 2847-2852
human echinococcosis, review of currently used immunologic diagnostic techniques
- Echinococcus
Ernst, S.; and Aguilar, H., 1978, Bol. Chileno Parasitol., v. 33 (3-4), 66-69
zoonotic helminths, domestic animals, prevalence survey: Valdivia slaughter house, Chile
- Echinococcus
Hrzenjak, T.; et al., 1978, Vet. Glasnik, v. 32 (1), 49-51
Echinococcus, human, counter-immunoelectrophoresis as suitable diagnostic method
- Echinococcus
Kulke, H.; Liehr, H.; and Braun, H., 1977, Roentgen-Berichte, v. 6 (1), 77-82
Echinococcus, human hepatic abscessed cysts, assessment of size, character and surrounding changes by means of endoscopic retrograde cholangio-pancreatography before surgical intervention is attempted

- Echinococcus**
Markovic, Z.; and Dobricanin, S., 1977, Srpski Arhiv Tselok. Lekar., v. 105 (2), 217-223
echinococcosis, young girl, case report, undiagnosed cardiac cyst causing anaphylactic shock and sudden death, previous surgery for pulmonary cysts
- Echinococcus**
Mercati, U.; et al., 1978, Surg. Italy, v. 8 (2), 146-153
hepatic echinococcal cysts, human, diagnosis and surgical management of cysts that rupture into bile ducts, case reports
- [**Echinococcus**] ekhinokokkov
Oripov, A. O.; Bekirov, R. E.; and Dzhumaev, Z., 1978, Veterinariia, Moskva (12), 60
helminths, dogs, phenasal and nilverm given in feed (sausage form)
- Echinococcus**
Pestic, R., 1978, Srpski Arhiv Tselok. Lekar., v. 106 (1), 67-71
hepatic echinococcosis, human, case reports, secondary obstruction of extra-hepatic biliary vessels, surgical management
- Echinococcus**
Pokieser, H.; et al., 1977, Roentgen-Blaetter, v. 30 (2), 53-63
scintigraphy, sonography and angiography used in diagnosis of circumscribed lesions of the liver, mention of *Echinococcus*
- Echinococcus**
Prasad, B. N.; and Mandal, L. N., 1978, Philippine J. Vet. Med., v. 17 (1-2), 191-196
hydatidosis, goats, incidence higher in males than females, % distribution in liver, spleen, and right vs. left lung, only unilocular cysts observed, fertility rate: Patha and Ranchi, India
- Echinococcus**
Rask, M. R., 1979, Surg. Rounds, v. 2 (6), 63-64
hydatidosis, woman, primary tumor of sartorius muscle, case report, surgical excision
- Echinococcus**
Ruitenbergh, E. J.; et al., 1977, Biomedicine, v. 26 (5), 311-314
human parasitic infections, enzyme-linked immunosorbent assay in diagnosis, brief review
- Echinococcus**
Schrumpf, J.; and Hoffer, P. B., 1977, Radiology, v. 125 (1), 170
cerebral echinococcal cyst demonstrated in young child by means of radionuclide angiogram, clinical case report
- Echinococcus** sp., illus.
Eisenbrandt, D. L.; et al., 1978, Scan. Electron Micr., v. 2, 229-234
hydatid cyst prepared by cryofracturing and freeze drying, as well as non-fractured tissue prepared by critical point drying, scanning electron microscopy
- Echinococcus** sp.
Geldenhuys, J. J.; et al., 1971, J. South African Vet. Ass., v. 42 (1), 63-65
Papio ursinus (liver): University of Stellenbosch Primate Colony
- Echinococcus** [sp.]
Howells, R. E.; Schnur, L. F.; and Cadena, A., 1978, Ann. Trop. Med. and Parasitol., v. 72 (4), 395-396
Proechimys guyanensis (thoracic wall; peritoneal wall): Amazonas, Colombia
- (?) **Echinococcus** sp.
Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
Mazama gouazoubira: Chaco Boreal, western Paraguay
- Echinococcus acephalocysticus**
Daniiarov, I. A.; et al., 1978, Veterinariia, Moskva (2), 64-65
Echinococcus spp., sheep, 28 anthelmintics and dyes tested, none effective
- Echinococcus alveolaris**
Fernholz, H. J.; et al., 1976, Roentgen-Blaetter, v. 29 (10), 490-499
Echinococcus cysticus, *E. alveolaris*, discussion of various radiologic diagnostic techniques
- Echinococcus alveolaris** (= *E. multilocularis*)
Hess, U.; Eckert, J.; and Frohlich, A., 1974, Schweiz. Med. Wchnschr., v. 104 (24), 853-859
cystic and alveolar echinococcosis, human, sensitivities of complement-fixation, passive hemagglutination (PH), and indirect fluorescent-antibody (IF) tests compared, simultaneous use of the PH and IF tests recommended
- Echinococcus alveolaris**
Kern, P.; Dietrich, M.; and Volkmer, K. J., 1979, Tropenmed. u. Parasitol., v. 30 (1), 65-72
Echinococcus alveolaris, *E. granulosus*, humans, clinical trials with mebendazole, allergic reactions in 2 of 7 treated probably due to spillage of antigenic material, no other serious side effects
- Echinococcus alveolaris**
Koischwitz, D.; Frommhold, H.; and Grauthoff, H. J., 1979, Deutsche Med. Wchnschr., v. 104 (11), 401-405
Echinococcus cysticus, *E. alveolaris*, humans, diagnosis in liver by ultrasound
- E[**chinococcus**] **alveolaris**
Mannweiler, E.; Felgner, P.; and Lederer, I., 1979, Deutsche Med. Wchnschr., v. 104 (32), 1139-1142
E[**chinococcus**] **cysticus**, E[**chinococcus**] **alveolaris**, humans, serum antibodies, complement fixation, indirect haemagglutination, and indirect enzyme immune (ELISA) techniques
- Echinococcus alveolaris**
Merkle, P., 1978, Therapiewoche, v. 28 (46), 8851-8858
uncommon causes of obstructive jaundice in humans, includes echinococcal obstructions of liver and biliary system, radiologic differentiation
- Echinococcus alveolaris**
Schamaun, M., 1972, Schweiz. Med. Wchnschr., v. 102 (7), 224-227
Echinococcus alveolaris, human hepatic infection, case reports, difficulties of surgical resection when jaundice is present

- Echinococcus alveolaris*
Shumakov, V. I.; and Galperin, E. I., 1979, *Transplant. Proc.*, v. 11 (2), 1489
Echinococcus alveolaris, 38-year-old female with mechanical jaundice and chronic hepatic insufficiency, transplantation of left liver lobe, case report
- Echinococcus alveolaris*
Starke, J., 1979, *Deutsche Med. Wchnschr.*, v. 104 (32), 1132-1135
Echinococcus alveolaris, humans (liver), mebendazole, case reports
- Echinococcus alveolaris*
Thelen, M.; et al., 1978, *Roentgen-Blaetter*, v. 31 (12), 658-664
direct visualization of the bile duct via antegrade cholangiography and percutaneous transhepatic drainage of the biliary tract, brief reference to *Echinococcus alveolaris*
- Echinococcus cepanzoi* Szidat, 1971
Sousa Pitti, O. E., 1976, *Rev. Med. Panama*, v. 1 (3), 163-179
Echinococcus patagonicus, *E. cepanzoi*, species need further study as they may be synonyms of *E. granulosus*
- Echinococcus cysticus*
Elies, W.; and Pirschel, J., 1976, *ROEFO*, v. 124 (2), 187-188
human *Echinococcus cysticus*, myelographic diagnosis of cyst of lumbosacral area of spine with intravertebral involvement
- Echinococcus cysticus*
Fernholz, H. J.; et al., 1976, *Roentgen-Blaetter*, v. 29 (10), 490-499
Echinococcus cysticus, *E. alveolaris*, discussion of various radiologic diagnostic techniques
- Echinococcus cysticus* (= *E. granulosus*)
Hess, U.; Eckert, J.; and Frohlich, A., 1974, *Schweiz. Med. Wchnschr.*, v. 104 (24), 853-859
cystic and alveolar echinococcosis, human, sensitivities of complement-fixation, passive hemagglutination (PH), and indirect fluorescent-antibody (IF) tests compared, simultaneous use of the PH and IF tests recommended
- Echinococcus cysticus*
Hoeffgen, K. U.; and Brecht, T., 1975, *Tieraerztl. Prax.*, v. 3 (3), 369-380
Echinococcus cysticus, woman, longstanding undiagnosed abdominal disorders, clinical case report
- Echinococcus cysticus*
Koischwitz, D.; Frommhold, H.; and Grauthoff, H. J., 1979, *Deutsche Med. Wchnschr.*, v. 104 (11), 401-405
Echinococcus cysticus, *E. alveolaris*, humans, diagnosis in liver by ultrasound
- E[*chinococcus*] *cysticus*
Mannweiler, E.; Felgner, P.; and Lederer, I., 1979, *Deutsche Med. Wchnschr.*, v. 104 (32), 1139-1142
E[*chinococcus*] *cysticus*, E[*chinococcus*] *alveolaris*, humans, serum antibodies, complement fixation, indirect haemagglutination, and indirect enzyme immune (ELISA) techniques
- Echinococcus cysticus*
Merkle, P., 1978, *Therapiewoche*, v. 28 (46), 8851-8858
uncommon causes of obstructive jaundice in humans, includes echinococcal obstructions of liver and biliary system, radiologic differentiation
- Echinococcus cysticus*
Penschuck, C., 1979, *Chirurg*, v. 50 (9), 584-587
Echinococcus cysticus, man, case report, retroperitoneal cyst, differential diagnosis, surgical management
- Echinococcus granulosus, illus.*
Ali-Khan, Z., 1978, *Ztschr. Parasitenk.*, v. 58 (1), 47-54
Echinococcus granulosus, mice, pathological changes in thymus-dependent areas of spleen and lymph nodes
- Echinococcus granulosus*
Alvarez Cambras, R.; et al., 1973, *Rev. Cubana Cirug.*, v. 12 (4-6), 457-467
Echinococcus granulosus, human, case report, involvement of hip and pelvic bones, presentation with symptoms of chondrosarcoma, surgical management: Cuba
- Echinococcus granulosus*
Ambroise-Thomas, P.; Desgeorges, P. T.; and Monget, D., 1978, *Bull. World Health Organ.*, v. 56 (5), 797-804
Toxoplasma gondii, *Entamoeba histolytica*, *Trichinella spiralis*, *Echinococcus granulosus*, human, diagnosis by enzyme-linked immunosorbent assay with a modified micro-method, parallel study by comparative serological tests
- Echinococcus granulosus (E. cysticus), illus.*
Ammann, R.; et al., 1979, *Deutsche Med. Wchnschr.*, v. 104 (42), 1466-1469
Echinococcus spp., humans, epidemiology, clinical aspects and course, diagnosis, review
- Echinococcus granulosus, illus.*
Ammann, R.; Akovbiantz, A.; and Eckert, J., 1979, *Schweiz. Med. Wchnschr.*, v. 109 (5), 148-151
Echinococcus granulosus, humans (lungs, liver), mebendazole
- Echinococcus granulosus*
Andersen, F. L.; Conder, G. A.; and Marsland, W. P., 1978, *Am. J. Vet. Research*, v. 39 (11), 1861-1862
Echinococcus granulosus, dogs (exper.), praziquantel, efficacy of injectable and tablet formulations against mature tapeworms, no signs of toxicosis
- Echinococcus granulosus*
Andersen, F. L.; and Loveless, R. M., 1978, *J. Parasitol.*, v. 64 (1), 78-82
Echinococcus granulosus, survival time of protozoites of ovine origin stored at constant temperatures of -20 to 50 C, ability to survive extended periods of time after an infected sheep has died or been killed suggests that stringent preventive and control measures should be established in areas where hydatid disease is endemic

- Echinococcus granulosus*, illus.
Apt, W.; Barrera, R.; and Eggers, M., 1976, Rev. Med. Chile, v. 104 (3), 161-163
Echinococcus granulosus, human, cysts of thyroid, differential diagnosis by thin-needle biopsy, case reports: Chile
- Echinococcus granulosus*
Araj, G. F.; Matossian, R. M.; and Frayha, G. J., 1977, Ztschr. Parasitenk., v. 52 (1), 23-30
Echinococcus granulosus, mice with secondary hydatidosis, time-related development of complement-fixing and hemagglutinating antibodies, correlation with cyst development
- Echinococcus granulosus*
Araj, G. F.; Matossian, R. M.; and Malakian, A. H., 1977, Ztschr. Parasitenk., v. 52 (1), 31-38
Echinococcus granulosus, mice with secondary hydatidosis, cell-mediated immune response in relation to humoral immune response and cyst development, passive protection with spleen cells
- Echinococcus granulosus*
Arundel, J. H., 1979, Austral. Vet. J., v. 55 (3), 126-130
hydatid disease of animals in Australia, review
- Echinococcus granulosus*
Babcock, D. S.; Kaufman, L.; and Cosnow, I., 1978, Am. J. Roentgenol., v. 131 (5), 895-897
Echinococcus granulosus, humans, diagnosis by gray scale ultrasonography
- Echinococcus granulosus*
Bahr, J. M.; Frayha, G. J.; and Hajjar, J. J., 1979, Comp. Biochem. and Physiol., v. 62A (2), 485-489
Echinococcus granulosus, mechanism of cholesterol absorption by secondary hydatid cysts
- Echinococcus granulosus*
Bali, H. S.; et al., 1978, Indian Vet. J., v. 55 (9), 735-736
Echinococcus granulosus, subcutaneous hydatid cyst in brisket region of bullock
- Echinococcus granulosus*, illus.
Bali, H. S.; and Chhabra, R. C., 1978, Indian J. Animal Sc., v. 48 (6), 432-435
Echinococcus granulosus in Bubalus bubalis (thoracic cavity, lungs), morphology of brood capsules, analysis of cystic fluid contents, development and pathology in pups (exper.) (intestine)
- Echinococcus granulosus*
Bankov, D. E., 1977, Vet.-Med. Nachr. (2), 145-148
Echinococcus granulosus, dogs (exper.), bunamidine hydrochloride, cantrodiphen, praziquantel, praziquantel most effective and showed no toxicity
- Echinococcus granulosus*
Barbour, A. G.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (1, pt. 1), 94-100
Echinococcus granulosus, humans, prevalence by age, sex, dog ownership, extent of sheep raising, and infected dog exposure, efficacy of intradermal, indirect hemagglutination, and bentonite flocculation tests for screening: Utah
- Echinococcus granulosus*
Beard, T. C., 1978, Lancet, London (8079), v. 2, 30-32
Echinococcus granulosus, strain endemic to Australia and New Zealand, theory that latent period between infection and diagnosis is only a few years rather than that most cysts diagnosed in adults resulted from infection in childhood as had previously been thought
- Echinococcus granulosus*
Ben-Ismael, R.; Carme, B.; and Gentilini, M., 1979, Path. Biol., v. 27 (8), 487-489
Fasciola hepatica, F. gigantica, Echinococcus granulosus, detection of blood group antigen P1 activity in extracts, not detected in T[enia] saginata extract
- Echinococcus granulosus*
Bianchi, C.; et al., 1972, Rev. Med. Chile, v. 100 (1), 46-48
Echinococcus granulosus, woman, symptomless cardiomegaly of over 10 years diagnosed as due to hydatid cyst: Santiago, Chile
- Echinococcus granulosus*
Blumsohn, D.; Prajapat, D. K.; and Dajie, S. K., 1977, South African Med. J., v. 52 (23), 912 [Letter]
Echinococcus granulosus, sheep farmer with innumerable hydatid cysts throughout abdominal cavity probably caused by gradual intraperitoneal leakage over many years: Transkei
- Echinococcus granulosus*
Bonnet-Eymard, J.; et al., 1974, Rev. Med. Alpes Franc., v. 3 (8), 321-323
Entamoeba histolytica hepatic abscess, man, presentation as hepatic echinococcosis, differential diagnosis and post-surgical follow-up using the indirect immunofluorescence test, case report
- Echinococcus granulosus*
Boray, J. C.; et al., 1979, Austral. Vet. J., v. 55 (2), 45-53
nematodes and cestodes of dogs and cats, efficiency and safety of nitroscanate, comparison with mebendazole, bunamidine hydrochloride, and praziquantel
- Echinococcus granulosus*, illus.
Bortoletti, G.; and Diaz, G., 1978, Internat. J. Parasitol., v. 8 (6), 433-436
Echinococcus granulosus, stereological investigation of increase in surface area due to microtriches of hydatid cysts in different organs (lung vs. liver) and in different hosts (man, pigs, sheep): Sardinia
- Echinococcus granulosus*, illus.
Bortoletti, G.; and Ferretti, G., 1978, Internat. J. Parasitol., v. 8 (6), 421-431
Echinococcus granulosus, fertile vs. sterile cysts from different host species (humans and sheep vs. pigs and cows), ultrastructural differences: Sardinia
- Echinococcus granulosus*
Bouree, P., 1977, Rev. de Med., Paris, v. 18 (38), 1960-1968
Entamoeba histolytica, Fasciola hepatica, Echinococcus granulosus, human hepatic forms, therapeutic aspects compared
- Echinococcus granulosus*
Brenes Madrigal, R. R.; et al., 1977, Rev. Cubana Med. Trop., v. 29 (1), 5-8
Echinococcus granulosus, first reported human hepatic hydatid cyst in Costa Rica

- Echinococcus granulosus*
Byman, D.; et al., 1977, *Canad. J. Zool.*,
v. 55 (2), 376-380
Canis lupus (gut): northeastern Minnesota
- Echinococcus granulosus*
Calderon, C., 1977, *Rev. Med. Chile*, v. 105
(7), 460-463
Echinococcus granulosus, humans, comparison
of immunoelectrophoresis, latex agglutination
and indirect hemagglutination for diagnostic
purposes
- Echinococcus granulosus*
Catalano, D.; and Fodera-Pierangeli, L., 1972,
Radiologe, v. 12 (11), 358-360
Echinococcus granulosus, human, radiographic
diagnosis of kidney cysts
- Echinococcus granulosus*
Chambers, P. G., 1978, *Trop. Animal Health and
Prod.*, v. 10 (2), 74
Echinococcus granulosus, incidence in
slaughtered cattle (liver, lungs), 1971-
1976; lungs and livers of slaughtered cattle
used as pet food may be potential health
hazard, special attention to apical and car-
diac lobes of lungs needed during routine
meat inspection: Rhodesia
- Echinococcus granulosus*
Colli, C.; and Schantz, P. M., 1975, *Rev. Inst.
Med. Trop. S. Paulo*, v. 17 (2), 59-68
Echinococcus granulosus, mice and *Meriones
unguiculatus*, effect of egg dose, host age,
and host sex on susceptibility to primary
infection, increased resistance with in-
creased age but no differences with sex
- Echinococcus granulosus*
Coltorti, E. A.; and Varela-Diaz, V. M., 1978,
Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (3),
226-229
Echinococcus granulosus, humans, double
diffusion test for detection of antibodies
against arc 5 antigens, comparison with
immuno-electrophoresis and latex aggluti-
nation
- Echinococcus granulosus*
Connor, R. J.; and Hizzard, P., 1979, *Vet.
Rec.*, v. 104 (18), 417 [Letter]
Echinococcus granulosus, horses (liver,
lungs), prevalence: abattoir in South York-
shire, Great Britain
- Echinococcus granulosus*
Cross, J. H., 1973, *Taiwan i Hsueh Hui Tsa Chih
(J. Formosan Med. Ass.)*, v. 72 (7), 407-412
parasitic diseases of human respiratory sys-
tem, immunodiagnostic methods, review
- Echinococcus granulosus*
Dada, B. J. O.; Adegboye, D. S.; and Mohammed,
A. N., 1979, *Vet. Rec.*, v. 104 (14), 312-313
Echinococcus granulosus, prevalence in dogs
and slaughtered animals
dogs
cattle
sheep
goats
camels
pigs
all from Kaduna State, Nigeria
- Echinococcus granulosus*
Dar, F. K.; and Taguri, S., 1978, *Tr. Roy.
Soc. Trop. Med. and Hyg.*, v. 72 (3), 313-314
Echinococcus granulosus, human, 180 surgi-
cally confirmed hydatid cases, retrospec-
tive study: Libya
- Echinococcus granulosus*, *illus.*
Davies, C.; et al., 1978, *Parasitology*, v. 77
(2), 143-152
Echinococcus granulosus, *E. multilocularis*,
ultrastructural immunocytochemical localiza-
tion of 2 hydatid fluid antigens (antigen 5
and antigen B) in brood capsules and proto-
scolecex
- Echinococcus granulosus*
De Rosa, F.; Stagni, G.; and Di Nardo, V.,
1977, *Riv. Parassitol.*, Roma, v. 38 (1), 97-
102
Echinococcus granulosus, effect of Co⁶⁰ ir-
radiation on cyst development, encysting
capacity inhibited by 25,000 and 100,000 R
- Echinococcus granulosus*
De Rycke, P. H.; and Pennoit-De Cooman, E.,
1978, *Ztschr. Parasitenk.*, v. 55 (3), 229-234
Echinococcus granulosus of equine origin,
serial passages of larval stages in mice, in-
fection with protoscolices
- Echinococcus granulosus*
De Rycke, P. H.; and Pennoit-De Cooman, E.,
1978, *Ztschr. Parasitenk.*, v. 57 (3), 251-
254
Echinococcus granulosus of equine origin,
serial passages of larval stages in mice,
infection with sterile daughter cysts
- Echinococcus granulosus*
Derylo, A.; and Kinka, R., 1977, *Med. Wet.*, v.
33 (9), 568-569
Echinococcus granulosus, pigs, economic impor-
tance: Lublin, Poland
- Echinococcus granulosus*
Dey-Hazra, A., 1976, *Vet. Med. Rev.* (2), 134-
141
tapeworms, dogs, droncit: India
- Echinococcus granulosus*
Dighero, M. W.; and Bradstreet, C. M. P.,
1979, *J. Helminth.*, v. 53 (4), 283-286
human hydatid disease, serodiagnosis,
latex-agglutination and complement fixation
tests
- Echinococcus granulosus*, *illus.*
Disko, R., 1977, *Therap. Gegenw.*, v. 116 (2),
226-258
Echinococcus granulosus, *E. multilocularis*,
humans, animal reservoir hosts, life cycle,
epidemiology, diagnosis, therapy, extensive
clinical review
- Echinococcus granulosus*
Dixon, J. B.; et al., 1978, *J. Parasitol.*, v.
64 (5), 949-950
Echinococcus granulosus, blastic stimulation
of unprimed mouse lymphocytes by living
protoscolices, possible connection with trans-
plant immunity
- Echinococcus granulosus*
Dottorini, S.; and Tassi, C., 1978, *Internat. J.
Parasitol.*, v. 8 (4), 259-265
Echinococcus granulosus, comparison between
antigens in scolices and hydatid fluid
- Echinococcus granulosus*, *illus.*
Dumon, H.; and Quilici, M., 1978, *Rev. Prat.*,
Paris, v. 28 (37), 2827-2834
Echinococcus granulosus, human, parasitology,
epidemiology, prophylaxis, general discussion
on current status of this parasitic disease

- Echinococcus granulosus, *illus.*
Eckert, J.; Barandun, G.; and Pohlenz, J., 1978, *Schweiz. Med. Wchnschr.*, v. 108 (29), 1104-1112
Echinococcus spp., larval stages, laboratory animals, fenbendazole, mebendazole
- Echinococcus granulosus
Eckert, J.; and Wissler, K., 1978, *Therap. Umschau*, v. 35 (9), 766-776
echinococcosis, life cycle, current immunodiagnostic methods reviewed; exper. studies with vermorx in rodents, compared with previous studies in man
- Echinococcus granulosus
Ehrlich, I.; Huber, D.; and Jercic, J., 1978, *Vet. Glasnik*, v. 32 (1), 53-57
Echinococcus granulosus in *Cavia cobaya* (exper.) (omentum), various infection routes, potential laboratory host for immunological studies
- Echinococcus granulosus
Eslami, A.; Ahrari, H.; and Saadatzadeh, H., 1978, *Tr. Roy. Soc. Trop. Med. and Hyg.*, v. 72 (3), 307-308
Echinococcus granulosus, scolicial activity of cetrimide compared to that of sodium chloride; findings suggest that cetrimide can be used successfully during human hydatid surgery
- Echinococcus granulosus
Felgner, P., 1978, *Zentralbl. Bakteriol.*, 1. Abt. Orig., Reihe A, v. 240 (1), 118-122
new technique of heterogenous enzyme-linked immunosorbent assay (stick-ELISA), application to antigens of various infective agents (including *Entameba histolytica*, *Toxoplasma gondii*, *Echinococcus* spp., *Schistosoma mansoni*)
- Echinococcus granulosus
Forssek, Z.; et al., 1977, *Vet. Glasnik*, v. 31 (10), 771-779
fascioliasis, *Echinococcus granulosus*, sheep, diagnosis and control, review: Jugoslavia
- Echinococcus granulosus
Friedenberg, R. M.; and Lilienfeld, R. M., 1975, *Seminars Roentgenol.*, v. 10 (2), 155-165
acquired cystic lesions of kidney and retroperitoneum, human, radiologic diagnosis, includes information on *Echinococcus granulosus*
- Echinococcus granulosus
Friedmann, G.; and Thun, F., 1978, *Roentgen-Blaetter*, v. 31 (4), 242-249
radiologic differential diagnosis of intracranial calcifications including those resulting from parasitism
- Echinococcus granulosus
Gemmell, M. A., 1978, *Bull. World Health Organ.*, v. 56 (3), 433-443
tapeworm control in dogs for prevention of hydatidosis and cysticercosis in sheep, monthly drug treatment program, age-specific prevalence of *Taenia hydatigena* in lambs used as principal indicator, 13-year assessment: Styx Valley and Maniototo County, South Island, New Zealand
- Echinococcus granulosus
Gemmell, M. A., 1979, *Austral. Vet. J.*, v. 55 (3), 118-125
hydatidosis control, a global view: epidemiological considerations; setting up control programs; control methods and progress
- Echinococcus granulosus
Gemmell, M. A.; Johnstone, P. D.; and Oudemans, G., 1978, *Research Vet. Sc.*, v. 25 (1), 107-108
Echinococcus granulosus, *Taenia hydatigena*, dogs, controlled trial with mebendazole incorporated in prepared food vs. as tablets given with this food, neither treatment fully effective
- Echinococcus granulosus
Gemmell, M. A.; Johnstone, P. D.; and Oudemans, G., 1978, *Research Vet. Sc.*, v. 25 (1), 109-110
Echinococcus granulosus, *Taenia hydatigena*, dogs, antibiotic of streptothricin family (SQ 21,704), significant activity against *T. hydatigena*, evidence for similar activity against *E. granulosus* was less well marked
- Echinococcus granulosus
Gemmell, M. A.; Johnstone, P. D.; and Oudemans, G., 1978, *Research Vet. Sc.*, v. 25 (1), 111-112
Echinococcus granulosus, *Taenia hydatigena*, dogs, diuredosan, significant activity against *T. hydatigena*, no significant dose response curve against *E. granulosus*
- Echinococcus granulosus
Gemmell, M. A.; Johnstone, P. D.; and Oudemans, G., 1979, *Research Vet. Sc.*, v. 26 (3), 389-390
Echinococcus granulosus, *Taenia hydatigena*, dogs, oxfendazole
- Echinococcus granulosus, *illus.*
Gleeson, L. N., 1978, *Irish Vet. J.*, v. 32 (2), 34-39
Echinococcus granulosus, humans, etiology, treatment through surgical removal: Turkana District, Kenya
- Echinococcus granulosus
Golecki, J., 1977, *Med. Wet.*, v. 33 (10), 634
Echinococcus granulosus, massive invasion of pig liver
- Echinococcus granulosus
Golematis, B., 1978, *Surg. Annu.*, v. 10, 359-386
echinococcosis, human, history, etiology, epidemiology, epizootiology, locations, and prevention, extensive review with emphasis on surgical treatment
- Echinococcus granulosus
Gonzalez, H.; and Campano, S., 1978, *BoI. Chileno Parasitol.*, v. 33 (3-4), 61-65
Echinococcus granulosus, humans, slaughtered domestic animals, prevalence survey, cyst locations, host age and sex, urban vs. rural sector: County of Cauquenes, Chile
- Echinococcus granulosus
Guisantes, J. A.; et al., 1975, *Rev. Inst. Med. Trop. S. Paulo*, v. 17 (2), 69-74
Echinococcus granulosus, humans, standardization of immunoelectrophoresis test using whole or purified hydatid cyst fluid antigens allowed comparative evaluation of sensitivity and specificity of both antigens

- Echinococcus granulosus*
Guralp, N.; et al., 1976, Vet. Fak. Dergisi, Ankara Univ., v. 23 (1-2), 171-174
tapeworms, dogs, droncit 100% effective
- Echinococcus granulosus*
Guralp, N.; et al., 1976, Vet. Med. Rev. (2), 129-133
tapeworms, dogs, cats, droncit
- Echinococcus granulosus*
Hangval, H.; et al., 1979, J. Trop. Med. and Hyg., v. 82 (2), 34-35
ovarian hydatid cyst, 60-year-old woman, uterine prolapse, case report: Mashad, north east Iran
- Echinococcus granulosus*
Heath, D. D., 1978, Vet. Parasitol., v. 4 (1), 11-19
Taenia hydatigena, neonatal lambs, subcutaneous injection of viable eggs induced 100% protection against development of viable larvae from oral challenge but no protection against simultaneous infection with eggs of *Taenia ovis* and *Echinococcus granulosus*, maternally derived immunity was not enhanced by hyperimmunization of ewe but did not interfere with development of protection in immunized lambs, immunizing lesion regressed rapidly after treatment of lambs with mebendazole
- Echinococcus granulosus*
Heath, D. D.; and Lawrence, S. B., 1978, N. Zealand Vet. J., v. 26 (1-2), 11-15
Echinococcus granulosus, *Taenia hydatigena*, *T. ovis*, sheep, effect of extended oral dosing regime with mebendazole compared with one parenteral injection of either mebendazole or praziquantel
- Echinococcus granulosus* (*Echinococcosis*)
van der Heever, C. M.; Plotkin, R.; and Ronthal, M., 1970, South African Med. J., v. 44 (45), 1290-1293
tapeworm cysts, human, case reports, central nervous system infestations, clinical aspects
- Echinococcus granulosus*
Henne, E.; Nickel, S.; and Hiepe, T., 1978, Ang. Parasitol., v. 19 (1), 52-57
Sus scrofa (Leber): Nordosten der DDR
- Echinococcus granulosus*
Hoghoghi, N.; et al., 1977, Trop. and Geogr. Med., v. 29 (4), 393-398
Echinococcus granulosus, humans, evaluation of indirect haemagglutination and immediate intradermal tests, diagnosis
- Echinococcus granulosus*
Hrzenjak, T.; et al., 1977, Vet. Arhiv, Zagreb, v. 47 (6), 317-322
Echinococcus granulosus, polyhexosamine ceramide complex antigen isolated from hydatid fluid: use in quantitative complement fixation test with *Echinococcus*-positive human sera; mice sensitized with this antigen, precipitating antibodies
- Echinococcus granulosus*
Islam, A. W. M. S., 1979, J. Parasitol., v. 65 (1), 37
sheep (liver, lungs, spleen, heart, kidney, omentum): Mymensingh District, Bangladesh
- Echinococcus granulosus*, *illus.*
Iwamura, K., 1977, Therapiewoche, v. 27 (38), 6618-6638
helminth infections of liver, humans, diagnosis, pathology, extensive clinical review
- Echinococcus granulosus*
Jha, S. N.; et al., 1977, Kerala J. Vet. Sc., v. 8 (1), 119-125
F[asciola] *gigantica*, G[igantocotyle] *explanatum*, and *Echinococcus granulosus* in bovines, incidence, gross and microscopic pathology
bovines (liver parenchyma): Bihar, India
- Echinococcus granulosus*
Kagan, I. G., 1976, Immunol. Parasit. Infect., 130-142
hydatid disease, serodiagnosis, review
- Echinococcus granulosus*
Kang, S. Y., 1972, Taehan Uihak Hyophoe Chi (J. Korean Med. Ass.), v. 15 (6), 470-474
pulmonary parasitic diseases, human
- Echinococcus granulosus*
Kassai, T.; et al., 1977, Magy. Allat. Lapja, v. 99, v. 32 (6), 373-377
Echinococcus granulosus, dogs, bunamidine hydroxynaphthoate in biscuit form effective, lopatol containing cantrodifene unsatisfactory
- Echinococcus granulosus*
Kattan, Y. B., 1977, Ann. Roy. Coll. Surg. England, v. 59 (2), 108-114
Echinococcus granulosus, human, intrabiliary rupture of cysts into liver, guidelines for operative management
- Echinococcus granulosus*
Kern, P.; Dietrich, M.; and Volkmer, K. J., 1979, Tropenmed. u. Parasitol., v. 30 (1), 65-72
Echinococcus alveolaris, *E. granulosus*, humans, clinical trials with mebendazole, allergic reactions in 2 of 7 treated probably due to spillage of antigenic material, no other serious side effects
- Echinococcus granulosus*
Kobulej, T.; and Varga, I., 1978, Magy. Allat. Lapja, v. 33 (5), 306-308
Echinococcus granulosus, dogs (exper.), droncit, highly effective, no side effects
- Echinococcus granulosus*
Kovalenko, F. P., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (2), 226-227
Alveococcus multilocularis and *Echinococcus granulosus* in *Phodopus sungorus campbelli* as laboratory model
- Echinococcus granulosus*
Kublitskene, O.; et al., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (2), 153-157
Echinococcus granulosus, effects on rats (plasmocyte reaction, antibody in serum, liver glycogen content, serum transaminase)
- Echinococcus granulosus*, *illus.*
Landelius, L.; and Hinz, K. H., 1978, Prakt. Tierarzt, v. 59 (2), 103
Cairina moschata forma domestica (Leberparenchym)

- Echinococcus granulosus*
Lauriola, L.; et al., 1978, Zentralbl. Bakteri-
teriol., 1. Abt. Orig., Reihe A, v. 240 (2),
251-257
Echinococcus granulosus, preparation of
monospecific antisera against antigens in
sheep hydatid fluid, useful as reagents in
serodiagnostic tests
- Echinococcus granulosus*
Lazo, R. F., 1977, Rev. Ecuator. Hig. y Med.
Trop., v. 30 (3), 305-313
echinococcosis, human, general review
- Echinococcus granulosus*
Le Riche, P. D.; and Sewell, M. M. H., 1978,
Internat. J. Parasitol., v. 8 (6), 479-483
8 taeniid cestodes, differentiation by enzyme
electrophoresis
- Echinococcus granulosus*
Le Riche, P. D.; and Sewell, M. M. H., 1978,
Research Vet. Sc., v. 25 (2), 247-248
Echinococcus granulosus, zymograms of glu-
cose phosphate isomerase to differentiate
biochemical strains, results indicate an
'ovine' strain (in sheep and cattle) and an
'equine' strain (in horses), strain from
camels may also be biochemically different
- Echinococcus granulosus*
Loveless, R. M.; et al., 1978, Am. J. Vet.
Research, v. 39 (3), 499-502
Echinococcus granulosus, dogs, sheep,
prevalence survey during 1971-1976, de-
creasing prevalence suggests that control
measures are being effectively implemented:
Utah
- E[chinococcus] *granulosus*
McConnell, J. D.; and Green, R. J., 1979,
Austral. Vet. J., v. 55 (3), 140-145
hydatid disease control program, description,
results: Tasmania
- Echinococcus granulosus*
McManus, D. P.; and Smyth, J. D., 1978, Parasi-
tology, v. 77 (1), 103-109
Echinococcus granulosus (horse and sheep
strains), *E. multilocularis*, differences in
chemical composition and carbohydrate metabo-
lism between species and strains
- Echinococcus granulosus*
McManus, D. P.; and Smyth, J. D., 1979, Tr.
Roy. Soc. Trop. Med. and Hyg., v. 73 (3), 259-
265
Echinococcus granulosus, horse and sheep
strains, and *E. multilocularis*, comparison of
enzyme electrophoretic profiles
- Echinococcus granulosus*
Masaba, S.; Kanyambo, F. N.; and Moyo, M.,
1977, Bull. Animal Health and Prod. Africa,
v. 25 (4), 421-425
Fasciola gigantica, *Echinococcus granulosus*,
slaughtered cattle, incidence, main causes
of liver and lung condemnation: Mwanza
abattoir, Tanzania
- Echinococcus granulosus*
Mathur, K. N.; and Khanna, V. K., 1977,
Science and Culture, v. 43 (8), 371-372
goats
sheep
(liver of all): all from Jaipur, India
- Echinococcus granulosus*
Medda, A., 1973, Rassegna Med. Sarda, v. 75
[i.e. v. 76], n.s., v. 24 [i.e. v. 25] (5),
297-304
Echinococcus granulosus, decreasing incidence
in *Canis familiaris* from 1959 to present
time, apparent result of anti echinococcosis
campaign carried out by the Regional Govern-
ment of Sardinia
- Echinococcus granulosus*
Mirza, N. B.; Pamba, H. O.; and O'Leary, P.,
1979, East African Med. J., v. 56 (5), 235-236
Echinococcus granulosus, human female
(breast), case report: Turkana District,
Kenya
- Echinococcus granulosus*
Mobedi, I.; Vand-Yoosefi, J.; and Esterabadi,
A. H., 1978, Arch. Inst. Razi (30), 117-128
Actinomyces bovis as possible cause for
degeneration and calcification of *Cysticercus*
bovis and hydatid cyst in host tissue
- Echinococcus granulosus*
Mosavy, S. H.; Sajadieh, V.; and Vakhshuri, P.,
1975, Surgery, St. Louis, v. 77 (2), 194-200
echinococcosis, human, cysts involving sites
other than pulmonary, 10 case reviews, surgi-
cal management: Iran
- Echinococcus granulosus*
Musiani, P.; et al., 1978, J. Clin. Path.,
v. 31 (5), 475-478
Echinococcus granulosus, concentration of
antigens 4 and 5 in hydatid cyst fluids from
various organs and various animal species,
standardization of antigenic material for
immunodiagnosis of hydatid disease
- Echinococcus granulosus*
Pandey, N. N.; Nauriyal, D. C.; and Rathor,
S. S., 1978, Indian Vet. J., v. 55 (10), 823-826
Echinococcus granulosus, buffaloes, thoracic
cavity, clinical findings
- Echinococcus granulosus, illus.*
Pearl, M.; et al., 1978, Pediatrics, Am. Acad.
Pediat., v. 61 (6), 915-920
Echinococcus granulosus, cerebral cysts in
children, central nervous system pathology, 2
case reports, diagnostic and therapeutic re-
view: New York (immigrants from Italy and
Greece)
- Echinococcus granulosus*
Pennoit-De Cooman, E.; and De Rycke, P. H.,
1978, Vlaams Diergeneesk. Tijdschr., v. 47
(3), 236-241
Echinococcus granulosus, criteria for dif-
ferentiating sterile and fertile experi-
mental secondary cysts (minimum cyst age,
presence or absence of calcareous corpus-
cles)
- Echinococcus granulosus*
Pennoit-De Cooman, E.; and De Rycke, P. H.,
1978, Ztschr. Parasitenk., v. 56 (1), 39-45
Echinococcus granulosus of equine origin,
serial passages of larval stages in mice,
infection with small sterile secondary cysts
- Echinococcus granulosus*
Pinchuk, V. A., 1970, Parazitologiya, Lenin-
grad, v. 4 (6), 557-562
Echinococcus granulosus, hydatid cyst fluid,
antigenic analysis reveals parasite-specific
components and components common to various
helminths and to the intermediate host

- Echinococcus granulosus*
Pinon, J. M.; et al., 1979, Am. J. Trop. Med. and Hyg., v. 28 (2), 318-324
hydatidosis, human, evaluation of immunoelectrodiffusion test (IED) vs. immunoelectrophoresis and indirect hemagglutination, sensitivity of IED increased and classes of immunoglobulins defined by combining enzymatic labelling with IED resulting in ELIEDA (enzyme-linked immunoelectrodiffusion assay)
- Echinococcus granulosus*
Pozzuoli, R.; et al., 1976, Recenti Prog. Med., v. 60 (6), 625-638
Echinococcus granulosus, humans, comparative evaluation of immunoserological diagnostic methods, review
- Echinococcus granulosus*, illus.
Preiss, H.; and Luebke, R., 1978, Kleintier-Praxis, v. 23 (7), 345-346, 349-350
Echinococcus granulosus, dog, praziquantel, clinical aspects
- Echinococcus granulosus*
Raaf, J., 1978, Surg. Rounds, v. 1 (3), 79-80
peritoneal echinococcal cyst, female, case report, surgical excision
- Echinococcus granulosus*
Rajkovic-Janje, R.; and Ropic, D., 1978, Vet. Glasnik, v. 32 (3), 225-229
Echinococcus granulosus, dogs (exper.), echinon
- Echinococcus granulosus*
Ranucci, S.; and Grol-Ranucci, H., 1978, Clin. Vet., Milano, v. 101 (6), 324-333
Dicrocoelium lanceolatum, *Echinococcus granulosus*, sheep, changes in serum enzymes and proteins and blood bilirubin and cholesterol
- Echinococcus granulosus*
Rao, M. S.; et al., 1979, Fertil. and Steril., v. 32 (6), 706-707
Echinococcus granulosus, human, obstructive azoospermia due to retrovesical hydatid cyst, case report
- E[*chinococcus*] *granulosus*
Reyes, H.; and Alvarez, M., 1977, Rev. Med. Chile, v. 105 (7), 472-477
E[*chinococcus*] *granulosus*, human, statistics of hydatid disease, case analysis, 1969-1973: Chile
- Echinococcus granulosus*
Rickard, M. D., 1979, Austral. Vet. J., v. 55 (3), 99-104
Echinococcus granulosus, human, immunological diagnosis, review

Rodriguez Toro, R., 1976, Scient. Pub. (334). Pan Am. Health Organ., 67-76
Leishmania, *Echinococcus granulosus*, *E. multilocularis*, role of wildlife in transmission of zoonoses
synonymy
- Echinococcus granulosus*
Rossi, M., 1978, Riv. Ospedali, Roma, v. 10 (6), 420-423
Echinococcus granulosus, human, review of sero-immunologic diagnostic methods
- Echinococcus granulosus*
Rubin, A., 1973, South African Med. J., v. 47 (43), 2057-2059
Echinococcus granulosus, Bantu female, case report, pelvic infestation resulting in sudden death thought to be caused by anaphylactic shock after surgical removal of cysts: Lesotho
- Echinococcus granulosus*, illus.
Sakamoto, T., 1978, Mem. Fac. Agric. Kagoshima Univ. (23), v. 14, 103-107
Echinococcus granulosus and *E. multilocularis*, in vitro cultures, anomalies of protoscolexes, morphological classification and frequency
- Echinococcus granulosus*
Sakamoto, T.; and Gemmell, M. A., 1975, Japan. J. Vet. Research, v. 23 (3), 81-94
Echinococcus granulosus in vitro, scolical effect of salicylanilide and bisphenol derivatives
- Echinococcus granulosus*, illus.
Sakamoto, T.; and Gemmell, M. A., 1978, J. Parasitol., v. 64 (1), 185-187
Echinococcus granulosus, *E. multilocularis*, protoscolexes, frequency of anomalies
- Echinococcus granulosus*
Sakamoto, T.; and Gemmell, M. A., 1979, Mem. Fac. Agric. Kagoshima Univ. (24), v. 15, 125-130
Echinococcus granulosus, scolical effect of 65 antibiotic, antineoplastic, cytostatic, and other agents in vitro
- Echinococcus granulosus*
Samuel, W. M.; Ramalingam, S.; and Carbyn, L. N., 1978, Canad. J. Zool., v. 56 (12), 2614-2617
Canis latrans
C. lupus
(small intestine of all): all from area around Riding Mountain National Park, southwestern Manitoba
- Echinococcus granulosus* (Rud., 1801)
Savel'ev, V. D., 1972, Parazitologiya, Leningrad, v. 6 (4), 351-355
Rangifer tarandus (lungs)
[*Canis lupus*]
all from Taimir
- Echinococcus granulosus*
Schantz, P. M., 1973, Rev. Inst. Med. Trop. S. Paulo, v. 15 (4), 179-194
Echinococcus granulosus-infected sheep, comparative evaluation of the intradermal, Bentonite flocculation, and indirect hemagglutination diagnostic tests, some cross reactions with *Taenia hydatigena*-infected sheep (nat. and exper.), histopathology of intradermal reactions
- Echinococcus granulosus*
Schwabe, C. W., 1979, Austral. Vet. J., v. 55 (3), 109-117
hydatid disease, epidemiological aspects of planning and evaluation of control programs, review
- Echinococcus granulosus*
Seager, J.; Seal, R. M. E.; and Bray, P. T., 1978, Postgrad. Med. J. (638), v. 54, 809-812
Echinococcus granulosus, boy (lung), unilateral hilar lymphadenopathy which radiologically simulated primary tuberculosis, case report

- Echinococcus granulosus*
Simpson, D. A.; and Verco, P. W., 1976, *Surg. Neurol.*, v. 6 (6), 377-380
cerebral hydatid cysts in colonial Australia, historical article; case report of unsuccessful surgery on 10-year-old child
- Echinococcus granulosus*, illus.
Singh, G.; and Lee, R. E., 1979, *Arch. Path. & Lab. Med.*, v. 103 (9), 459-462
hydatid cyst, girl (right lobe of liver), ultrastructure, with particular study of integument: immigrated from Greece
- Echinococcus granulosus*
Slepnev, N. K., 1973, *Vet. Nauka--Proizvod.*, Trudy, Minsk, v. 11, 130-135
[*Bos taurus*]
[*Ovis aries*]
[*Sus scrofa*]
[*Canis familiaris*]
all from northern zone of Belorussia
- Echinococcus granulosus* (Batsch, 1786), illus.
Slepnev, N. K., 1975, *Vet. Nauka--Proizvod.*, Trudy, Minsk, v. 13, 113-116
Echinococcus granulosus, protoscolex from swine liver fed to dogs, resulting oncosphere develops into larva in swine but only survives in cattle; possible importance of swine-adapted strain in Belorussia
- E[*chinococcus*] *granulosus*
Slepnev, N. K.; and Zen'kov, A. V., 1973, *Vet. Nauka--Proizvod.*, Trudy, Minsk, v. 11, 135-137
E[*chinococcus*] *granulosus*, protoscolices, destructive action of high and low temperatures; lysol and creolin most destructive of chemicals tested
- Echinococcus granulosus*
Sousa Pitti, O. E., 1976, *Rev. Med. Panama*, v. 1 (3), 163-179
Echinococcus granulosus, *E. multilocularis*, *E. oligarthrus*, *E. vogeli*, morphological comparisons and morphometric data, intermediate and definitive hosts, discussions on distribution; *E. patagonicus*, *E. cepanzoi*, species need further study as they may be synonyms of *E. granulosus*
- Echinococcus granulosus*
Speiser, F.; and Weiss, N., 1979, *Experientia*, v. 35 (11), 1512-1514
112 sera from Europeans with parasitologically proven helminthiasis tested in enzyme-linked immunosorbent assay against 7 non-purified helminth antigens, extensive cross-reactions
- Echinococcus granulosus*, illus.
Spruance, S. L.; Klock, L. E.; and Chang, F., 1974, *Rocky Mountain Med. J.*, v. 71 (1), 17-23
Echinococcus granulosus, epidemiology of human hydatid disease in Utah, dogs and sheep as reservoir hosts, suggested control measures
- Echinococcus granulosus*
Supperer, R., 1973, *Tieraerztl. Prax.*, v. 1 (1), 33-42
parasitic diseases of swine, intensive rearing, treatment and control measures, review
- Echinococcus granulosus*
Thakur, A. S.; Prezioso, U.; and Marchevsky, N., 1978, *Am. J. Vet. Research*, v. 39 (5), 859-860
Echinococcus granulosus, dogs (exper.), droncit, 100% effective against both immature and gravid worms, no adverse reactions
- Echinococcus granulosus*
Thakur, A. S.; Prezioso, U.; and Marchevsky, N., 1979, *Exper. Parasitol.*, v. 47 (2), 131-133
Echinococcus granulosus, praziquantel did not possess absolute ovicidal activity against eggs either within or outside proglottids, bunamidine hydrochloride did not kill eggs within proglottids
- Echinococcus granulosus*
Thienpont, D.; et al., 1978, *Arzneimittelforsch.*, v. 28 (4), 605-612
intestinal helminths, nat. and exper. infections in laboratory and domestic animals, critical and controlled tests with flubendazole to establish biological and pharmacological properties
- Echinococcus granulosus*
Thompson, R. C. A., 1978, *Vet. Parasitol.*, v. 4 (2), 121-125
Echinococcus granulosus, horse and sheep strains in Great Britain, aspects of speciation, value of considering epidemiological, developmental, and biochemical criteria, review of recent work
- Echinococcus granulosus*
Thompson, R. C. A., 1979, *Vet. Rec.*, v. 105 (14), 335-336 [Letter]
Echinococcus granulosus, horses, prevalence, review: Great Britain
- Echinococcus granulosus*
Thompson, R. C. A., 1979, *Austral. Vet. J.*, v. 55 (3), 93-98
Echinococcus granulosus, biology and speciation, review
- Echinococcus granulosus*, illus.
Thompson, R. C. A.; Dunsmore, J. D.; and Hayton, A. R., 1979, *Exper. Parasitol.*, v. 48 (1), 144-163
Echinococcus granulosus, secretory activity of adults in situ in the dog, histological, histochemical, and ultrastructural studies
- Echinococcus granulosus*
Torres-Rodriguez, J. M.; and Wisnivesky, C., 1978, *Ann. Parasitol.*, v. 53 (5), 479-486
Echinococcus granulosus, mice (exper.), kinetics of serological response, immunoelectrophoresis, double diffusion, latex agglutination, and passive hemagglutination
- Echinococcus granulosus*
Trifonov, T. R., 1978, *Vet. Med. Nauki*, v. 15 (6), 108-112
helminths of liver, sheep, 5 year post-mortem survey, occurrence, mixed infections: Bourgas
- Echinococcus granulosus*
Valencia, J. M.; Sapunar, J.; and Maturana, R., 1978, *Bol. Chileno Parasitol.*, v. 33 (3-4), 73-77
Echinococcus granulosus, 14-year-old boy, case report, diagnosis by brain computerized tomography: Puerto Montt, Chile

- Echinococcus granulosus*
Varela-Diaz, V. M.; et al., 1977, Ztschr. Parasitenk., v. 53 (2), 183-188
Echinococcus multilocularis, Alaskan and Swiss patients with surgically confirmed cases, sera reveal *E. granulosus* diagnostic arc 5 in immunoelectrophoresis test, suggests that test based on arc 5 positivity is not *E. granulosus*-specific as originally described
- E[chinococcus] granulosus*
Varela-Diaz, V. M.; and Coltorti, E. A., 1975, Rev. Espan. Tubercul. (487), v. 44, 543-554
human echinococcosis, latex agglutination and indirect hemagglutination tests recommended for diagnostic purposes
- Echinococcus granulosus*
Varela-Diaz, V. M.; Coltorti, E. A.; and D'Alessandro, A., 1978, Am. J. Trop. Med. and Hyg., v. 27 (3), 554-557
sera from 2 patients (one with *Echinococcus vogeli* and one with cysticercosis associated with multiple myeloma) were positive to immunoelectrophoresis test for hydatidosis based on *E. granulosus* arc 5 positivity criterion
- Echinococcus granulosus*
Vishnevskii, A. A.; et al., 1979, Klin. Med., Moskva, v. 57 (12), 76-80
Echinococcus granulosus, 28-year-old man, associated pulmonary artery embolism, case report
- Echinococcus granulosus*
Walt, A. J., 1977, Surg. Clin. North Am., v. 57 (2), 449-464
hepatic cysts and benign tumors, human, clinical review with information on hydatid cysts
- Echinococcus granulosus*
Walters, T. M. H., 1978, Vet. Rec., v. 102 (12), 257-259
Echinococcus granulosus, literature review of prevalence in sheep, dogs (including fox hounds), and foxes, epidemiology; recent survey of sheep and dogs to formulate control measures: Wales
- Echinococcus granulosus, illus.*
Wesley, I.; et al., 1979, Acta Cytol., v. 23 (2), 134-136
Echinococcus granulosus, man (liver), cytologic diagnosis, case report: Mississippi
- Echinococcus granulosus, illus.*
Wikerhauser, T.; Brglez, J.; and Kuticic, V., 1978, Acta Parasitol. Iugoslavica, v. 9 (2), 57-63
Echinococcus granulosus, mice, mebendazole, praziquantel
- Echinococcus granulosus*
Williams, J. F.; and Prezioso, U., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (5), 333-335
Echinococcus granulosus, human, diagnosis, passive hemagglutination test, evaluation of glutaraldehyde as fixing and coupling agent
- Echinococcus granulosus*
Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca: wild caught in Asia, maintained at National Center for Primate Biology dogs (exper.)
- Echinococcus granulosus*
Yarzabal, L. A.; et al., 1975, Rev. Inst. Med. Trop. S. Paulo, v. 17 (5), 263-268
Echinococcus granulosus, human pulmonary hydatid cysts, immunoelectrophoresis evaluated for diagnosis
- Echinococcus granulosus*
Yong, W. K.; and Heath, D. D., 1979, Parasite Immunol., v. 1 (1), 27-38
Echinococcus granulosus-, *Taenia hydatigena*-, and *T. ovis*-infected sheep, immunoelectrophoretic (IEP) identification of 'arc 5' antibodies in sera; antigen similar to 'arc 5' antigen of *E. granulosus* cyst fluid demonstrated in *T. hydatigena* cyst fluid but not positively identified in *T. ovis* cyst fluid; evaluation of performance of IEP
- Echinococcus granulosus*
Yong, W. K.; Heath, D. D.; and Parmeter, S. N., 1978, N. Zealand Vet. J., v. 26 (9), 231-234
Echinococcus granulosus, *Taenia hydatigena*, *T. ovis*, sheep (nat. and exper.), indirect haemagglutination test using cyst fluids as antigens, serological cross-reactions, test useful for non-specific detection of larval cestodes
- Echinococcus granulosus*
Yong, W. K.; Heath, D. D.; and Savage, T., 1979, Brit. Med. J. (6176), v. 1, 1463-1464
Echinococcus granulosus, man with positive immunoelectrophoresis test for hydatidosis, later diagnosed as pulmonary carcinoma, possible antigenic similarity: New Zealand
- Echinococcus granulosus*
Zettl, K.; and Broemel, J., 1978, Prakt. Tierarzt, v. 59 (5), 334, 336, 342, 345-347
Rehwild (Lunge, Leber): Nordhessen
- Echinococcus granulosus dusicyontis*
Rodriguez Toro, R., 1976, Scient. Pub. (334). Pan Am. Health Organ., 67-76
as syn. of *Echinococcus granulosus*
- Echinococcus granulosus equinus*
Stevenson, P., 1979, J. Small Animal Practice, v. 20 (4), 233-237
Echinococcus granulosus, prevalence in animals and humans, distribution, need for control and treatment programs, brief review: Great Britain
- Echinococcus granulosus granulosus*
Burgu, A., 1975, Vet. Fak. Dergisi, Ankara Univ., v. 22 (3-4), 137-148
Echinococcus g. granulosus, albino mice, radiation effect on capability of secondary cyst formation of protoscolices, irradiation at higher levels strongly inhibited cyst growth
- Echinococcus granulosus granulosus*
Stevenson, P., 1979, J. Small Animal Practice, v. 20 (4), 233-237
Echinococcus granulosus, prevalence in animals and humans, distribution, need for control and treatment programs, brief review: Great Britain
- Echinococcus hominis*
Daniiarov, I. A.; et al., 1978, Veterinariia, Moskva (2), 64-65
Echinococcus spp., sheep, 28 anthelmintics and dyes tested, none effective

- Echinococcus hydatidosus*
Henne, E.; Nickel, S.; and Hiepe, T., 1978, Ang. Parasitol., v. 19 (1), 52-57
Syn.: *Echinococcus unilocularis*
Sus scrofa: Nordosten der DDR
- Echinococcus multilocularis*, illus.
Aikat, B. K.; et al., 1978, Tr. Roy. Soc. Trop. Med. and Hyg., v. 72 (6), 619-621
Echinococcus multilocularis, man, hepatic infection with extension to lung, first case report proved at autopsy in India
- Echinococcus multilocularis*, illus.
Ali-Khan, Z., 1978, Exper. Parasitol., v. 46 (2), pp. 157-165
Echinococcus multilocularis-infected mice, specific and nonspecific cell-mediated immune responses at various time intervals, data indicate that mice with chronic hydatidosis exhibit depressed in vivo CMI responses
- Echinococcus multilocularis*
Ali-Khan, Z., 1979, Ztschr. Parasitenk., v. 59 (3), 259-265
Echinococcus multilocularis, mice, potentiated humoral response to sheep red blood cells at 8 and 12 weeks post-infection
- Echinococcus multilocularis*
Alton, K. B.; Patrick, J. E.; and McGuire, J. L., 1979, J. Pharm. Sc., v. 68 (7), 880-882
mebendazole, high-performance liquid chromatographic assay, tested on human plasma with known drug amounts added; possible use with *Echinococcus multilocularis* patients receiving chronic high dosage
- Echinococcus multilocularis* (*E. alveolaris*), illus.
Ammann, R.; et al., 1979, Deutsche Med. Wchnschr., v. 104 (42), 1466-1469
Echinococcus spp., humans, epidemiology, clinical aspects and course, diagnosis, review
- Echinococcus multilocularis*, illus.
Davies, C.; et al., 1978, Parasitology, v. 77 (2), 143-152
Echinococcus granulosus, *E. multilocularis*, ultrastructural immunocytochemical localization of 2 hydatid fluid antigens (antigen 5 and antigen B) in brood capsules and protoscolices
- Echinococcus multilocularis*, illus.
Disko, R., 1977, Therap. Gegenw., v. 116 (2), 226-258
Echinococcus granulosus, *E. multilocularis*, humans, animal reservoir hosts, life cycle, epidemiology, diagnosis, therapy, extensive clinical review
- Echinococcus multilocularis*
Eastman, K. L.; and Worley, D. E., 1979, J. Parasitol., v. 65 (1), 34
Ondatra zibethicus (liver): Gallatin and Madison counties, Montana kittens (exper.)
- Echinococcus multilocularis*
Eaton, R. D. P.; and Secord, D. C., 1979, Canad. J. Comp. Med., v. 43 (2), 229-230
Arctic fox (*jejunum*, ileum): Banks Island, Northwest Territories
- Echinococcus multilocularis*, illus.
Eckert, J.; Barandun, G.; and Pohlenz, J., 1978, Schweiz. Med. Wchnschr., v. 108 (29), 1104-1112
Echinococcus spp., larval stages, laboratory animals, fenbendazole, mebendazole
- Echinococcus multilocularis*
Eckert, J.; and Wissler, K., 1978, Therap. Umschau, v. 35 (9), 766-776
echinococcosis, life cycle, current immunodiagnostic methods reviewed; exper. studies with vermox in rodents, compared with previous studies in man
- Echinococcus multilocularis*
Felgner, P., 1978, Zentralbl. Bakteriol., 1. Abt. Orig., Reihe A, v. 240 (1), 118-122
new technique of heterogenous enzyme-linked immunosorbent assay (stick-ELISA), application to antigens of various infective agents (including *Entameba histolytica*, *Toxoplasma gondii*, *Echinococcus* spp., *Schistosoma mansoni*)
- Echinococcus multilocularis*
Gamble, W. G.; et al., 1979, J. Am. Med. Ass., v. 241 (9), 904-907
Echinococcus multilocularis, human (liver), mebendazole, first case acquired in contiguous United States: Lyon County, Minnesota
- Echinococcus multilocularis*
Gemmell, M. A., 1979, Austral. Vet. J., v. 55 (3), 118-125
hydatidosis control, a global view: epidemiological considerations; setting up control programs; control methods and progress
- Echinococcus multilocularis* (*E. alveolaris*; *E. sibiricensis*)
Golematis, B., 1978, Surg. Annu., v. 10, 359-386
echinococcosis, human, history, etiology, epidemiology, epizootiology, locations, and prevention, extensive review with emphasis on surgical treatment
- Echinococcus multilocularis*
Guenther, R.; et al., 1975, ROEFO, v. 122 (3), 242-244
Echinococcus multilocularis, man, case report, alveolar hydatid disease with extensive biliary obstruction and large cavitation in the liver due to necrosis, clinical, epidemiologic and radiologic diagnostic findings
- Echinococcus multilocularis*
Hinz, E., 1978, Zentralbl. Bakteriol., 1. Abt. Orig., Reihe A, v. 240 (4), 542-548
Echinococcus multilocularis, mice, fenbendazole, significant reduction in worm burden and number of protoscolices, degree of efficiency subject to way of application, duration of medication and parasite strain
- Echinococcus multilocularis*
Hinz, E., 1978, Zentralbl. Bakteriol., 1. Abt. Orig., Reihe A, v. 241 (3), 388-394
Echinococcus multilocularis, HH vs. S strain, mice treated with fenbendazole as emulsion or in feed, serum protein values, compared with untreated and with uninfected mice

- Echinococcus multilocularis*
Hinz, E., 1978, Zentralbl. Bakteriologie, 1. Abt. Orig., Reihe A, v. 242 (2), 268-272
Echinococcus multilocularis, HH vs. S strain, mice treated with fenbendazole as emulsion or in feed, indirect fluorescent antibody titers, compared with untreated mice
- Echinococcus multilocularis*, illus.
Hinz, E.; and Kirsten, C., 1978, Tropenmed. u. Parasitol., v. 29 (3), 278-280
Echinococcus multilocularis, indirect immunofluorescent antibody test with paraffin-embedded histological sections as antigen, specificity and sensitivity in mouse model
- Echinococcus multilocularis*
Kagan, I. G., 1976, Immunol. Parasit. Infect., 130-142
hydatid disease, serodiagnosis, review
- Echinococcus multilocularis*, illus.
Kamiya, H., 1972, Japan. J. Vet. Research, v. 20 (3), 69-76
Echinococcus multilocularis, AKR mice, age and sex difference in host resistance
- Echinococcus multilocularis*, illus.
Kamiya, H.; et al., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (3), 148-156
Clethrionomys rufocanus bedfordiae
C. r. mikado
(liver of all): all from Kushiro district, Eastern Hokkaido, Japan
- Echinococcus multilocularis*
Kilejian, A.; and MacInnis, A. J., 1976, Rice Univ. Studies, v. 62 (4), 161-174
12 helminth species, DNA buoyant density and base composition, analysis of satellite DNAs of *Hymenolepis* spp., satellite DNA and chromosome diminution in *Ascaris lumbricoides*
- Echinococcus multilocularis* Leuckart 1863
Kritsky, D. C.; and Leiby, P. D., 1978, J. Parasitol., v. 64 (4), 625-634
Echinococcus multilocularis, factors influencing prevalence in *Vulpes vulpes* from 1965-1972: effects of collection interval (sampling year), climatic season, age and sex of host, geographic region, interactions between these variables, and definitive host prevalence and density: North Dakota
- Echinococcus multilocularis*
Lazo, R. F., 1977, Rev. Ecuator. Hig. y Med. Trop., v. 30 (3), 305-313
echinococcosis, human, general review
- Echinococcus multilocularis*
McManus, D. P.; and Smyth, J. D., 1978, Parasitology, v. 77 (1), 103-109
Echinococcus granulosus (horse and sheep strains), *E. multilocularis*, differences in chemical composition and carbohydrate metabolism between species and strains
- Echinococcus multilocularis*
McManus, D. P.; and Smyth, J. D., 1979, Tr. Roy. Soc. Trop. Med. and Hyg., v. 73 (3), 259-265
Echinococcus granulosus, horse and sheep strains, and *E. multilocularis*, comparison of enzyme electrophoretic profiles
- Echinococcus multilocularis*, illus.
Polley, L., 1978, Vet. Clinics North Am., v. 8 (2), 353-378
alveolar hydatid disease, animals and humans, review
- Echinococcus multilocularis*
Reuben, J. M.; and Tanner, C. E., 1979, Austral. Vet. J., v. 55 (3), 105-108
Echinococcus multilocularis, immunobiological host-parasite relationships, effect of complement, activation of macrophages and immuno-prophylaxis with BCG, review
- Echinococcus multilocularis*
Reuben, J. M.; Tanner, C. E.; and Portelance, V., 1979, Infect. and Immun., v. 23 (3), 582-586
Echinococcus multilocularis, cotton rats, BCG cell walls are as effective in protecting against infection as the viable organism
- Echinococcus multilocularis*
Reuben, J. M.; Tanner, C. E.; and Rau, M. E., 1978, Infect. and Immun., v. 21 (1), 135-139
Echinococcus multilocularis in *Sigmodon hispidus*, minimum effective immunoprophylactic dose of BCG which would not induce granulomas, protection coincided with general elevation of leukocytes especially cells of the monocyte/macrophage series, results support evidence for macrophage being principal potential effector cell in hydatid disease
- Echinococcus multilocularis*
Rodriguez Toro, R., 1976, Scient. Pub. (334). Pan Am. Health Organ., 67-76
Leishmania, *Echinococcus granulosus*, *E. multilocularis*, role of wildlife in transmission of zoonoses
- Echinococcus multilocularis*
Sakamoto, T., 1973, Japan. J. Vet. Research, v. 21 (3), 73-91
Echinococcus multilocularis in vitro, anthelmintic action of many drugs on larvae
- Echinococcus multilocularis*
Sakamoto, T., 1977, Vet.-Med. Nachr. (1), 64-74
adult tapeworms, dogs, cats, droncit, drug efficacy at various doses
- Echinococcus multilocularis*
Sakamoto, T., 1977, Vet.-Med. Nachr. (2), 153-162
Cysticercus fasciolaris, *Mesocestoides corti*, *Echinococcus multilocularis*, laboratory mice and rats, praziquantel, evaluation of activity against larval stages
- Echinococcus multilocularis*
Sakamoto, T., 1977, Vet. Med. Rev. (1), 64-74
adult tapeworms in cats or dogs, praziquantel highly effective, dosage range
- Echinococcus multilocularis*, illus.
Sakamoto, T., 1978, Mem. Fac. Agric. Kagoshima Univ. (23), v. 14, 103-107
Echinococcus granulosus and *E. multilocularis*, in vitro cultures, anomalies of protozoa, morphological classification and frequency
- Echinococcus multilocularis*, illus.
Sakamoto, T., 1978, Mem. Fac. Agric. Kagoshima Univ. (23), v. 14, 109-115
Echinococcus multilocularis, cells derived from germinal layer, development in vitro and in vivo (in diffusion chambers implanted in abdominal cavity of laboratory rodents) compared

- Echinococcus multilocularis*, illus.
Sakamoto, T., 1979, Mem. Fac. Agric. Kagoshima Univ. (24), v. 15, 115-128
Echinococcus multilocularis, various anthelmintics, scolicedal effects in vitro and/or therapeutic effects in mice
- Echinococcus multilocularis*
Sakamoto, T.; et al., 1979, Bull. Fac. Agric. Kagoshima Univ. (29), 81-87
cestodes, dogs, praziquantel
- Echinococcus multilocularis*, illus.
Sakamoto, T.; and Gemmell, M. A., 1978, J. Parasitol., v. 64 (1), 185-187
Echinococcus granulosus, *E. multilocularis*, protoscoleces, frequency of anomalies
- Echinococcus multilocularis*
Samuel, W. M.; Ramalingam, S.; and Carbyn, L. N., 1978, Canad. J. Zool., v. 56 (12), 2614-2617
Canis latrans
Vulpes vulpes
(small intestine of all): all from area around Riding Mountain National Park, southwestern Manitoba
- Echinococcus multilocularis*
Schantz, P. M., 1979, J. Am. Vet. Med. Ass., v. 175 (1), 3, 8 [Letter]
Echinococcus multilocularis, epidemiology, review of first reported human case in Minnesota
- Echinococcus multilocularis* Leuckart, 1863
Sousa Pitti, O. E., 1976, Rev. Med. Panama, v. 1 (3), 163-179
Echinococcus granulosus, *E. multilocularis*, *E. oligarthrus*, *E. vogeli*, morphological comparisons and morphometric data, intermediate and definitive hosts, discussions on distribution
- Echinococcus multilocularis*
Thomas, H.; and Goennert, R., 1978, Research Vet. Sc., v. 24 (1), 20-25
cestodes of cats, dogs, and sheep, praziquantel highly effective in one oral or subcutaneous dose
- Echinococcus multilocularis*
Thomas, H.; and Goennert, R., 1978, Ztschr. Parasitenk., v. 55 (2), 165-179
cestodes, praziquantel activity tested
- Echinococcus multilocularis*
Varela-Diaz, V. M.; et al., 1977, Ztschr. Parasitenk., v. 53 (2), 183-188
Echinococcus multilocularis, Alaskan and Swiss patients with surgically confirmed cases, sera reveal *E. granulosus* diagnostic arc 5 in immunoelectrophoresis test, suggests that test based on arc 5 positivity is not *E. granulosus*-specific as originally described
- Echinococcus multilocularis*, illus.
Vogel, H., 1977, Tropenmed. u. Parasitol., v. 28 (4), 409-427
Echinococcus multilocularis, Central European strain, morphology and development of larval stages in *Microtus arvalis* (exper.), hepatic pathology
- Echinococcus multilocularis*, illus.
Vogel, H., 1978, Tropenmed. u. Parasitol., v. 29 (1), 1-11
Echinococcus multilocularis in *Microtus arvalis* (exper.), cyst growth and structure
- Echinococcus multilocularis*
Walt, A. J., 1977, Surg. Clin. North Am., v. 57 (2), 449-464
hepatic cysts and benign tumors, human, clinical review with information on hydatid cysts
- Echinococcus multilocularis* Leuckart, 1863
Wilson, J. F.; Davidson, M.; and Rausch, R. L., 1978, Am. Rev. Resp. Dis., v. 118 (4), 747-757
Echinococcus multilocularis, humans, case reports, mebendazole, clinical trial
- Echinococcus multilocularis sibiricensis*
Ali-Khan, Z., 1978, Immunology, v. 34 (5), 831-839
Echinococcus multilocularis sibiricensis, C57L/J mice infected with 20 or 100 cysts, pathology of spleen, lymph nodes, and thymus at 2, 4, 8, and 12 weeks postinfection, implications for immunological status
- Echinococcus oligarthrus* Diesing, 1863, illus.
Brenes Madrigal, R. R.; et al., 1973, Rev. Biol. Trop., v. 21 (1), 139-141
Felis concolor costaricensis (intestino delgado): Costa Rica (private zoo in San Isidro de Coronado, San Jose province, captured in Talamanca region)
- Echinococcus oligarthrus*
Lazo, R. F., 1977, Rev. Ecuator. Hig. y Med. Trop., v. 30 (3), 305-313
echinococcosis, human, general review
- Echinococcus oligarthrus* (Diesing, 1863), illus.
Rausch, R. L.; Rausch, V. R.; and D'Alessandro, A., 1978, Am. J. Trop. Med. and Hyg., v. 27 (6), 1195-1202
Echinococcus oligarthrus, *E. vogeli*, discrimination of larval stages on basis of rostellar hook dimensions
Mus musculus (exper.)
Felis yagouaroundi: Colombia
Proechimys cf. guyannensis: Colombia
Cuniculus paca: Colombia
Dasyprocta punctata: Panama
- Echinococcus oligarthrus* (Diesing, 1863)
Sousa Pitti, O. E., 1976, Rev. Med. Panama, v. 1 (3), 163-179
Echinococcus granulosus, *E. multilocularis*, *E. oligarthrus*, *E. vogeli*, morphological comparisons and morphometric data, intermediate and definitive hosts, discussions on distribution; *E. pampeanus* needs further study as it may be synonym of *E. oligarthrus*
- Echinococcus pampeanus* Szidat, 1967
Sousa Pitti, O. E., 1976, Rev. Med. Panama, v. 1 (3), 163-179
Echinococcus pampeanus, needs further study as it may be synonym of *E. oligarthrus*
- Echinococcus patagonicus*
Rodriguez Toro, R., 1976, Scient. Pub. (334). Pan Am. Health Organ., 67-76
as syn. of *Echinococcus granulosus*

- Echinococcus patagonicus* Szidat, 1960
Sousa Pitti, O. E., 1976, Rev. Med. Panama, v. 1 (3), 163-179
Echinococcus patagonicus, *E. cepanzoi*, species need further study as they may be synonyms of *E. granulosus*
- Echinococcus polymorphus*
Mishra, G. S.; and N'Depo, A. E., 1978, Rev. Elevage et Med. Vet. Pays Trop., n. s., v. 31 (4), 431-436
larval cestodes in food animals, abattoir survey: Abidjan, Cote-d'Ivoire
- Echinococcus unilocularis*
Henne, E.; Nickel, S.; and Hiepe, T., 1978, Ang. Parasitol., v. 19 (1), 52-57
as syn. of *Echinococcus hydatidosus*
- Echinococcus veterinorum*
Daniyarov, I. A.; et al., 1978, Veterinariia, Moskva (2), 64-65
Echinococcus spp., sheep, 28 anthelmintics and dyes tested, none effective
- Echinococcus vogeli* Rausch and Bernstein, 1972, illus.
D'Alessandro, A.; et al., 1979, Am. J. Trop. Med. and Hyg., v. 28 (2), 303-317
Echinococcus vogeli infection in man, pathology, morphological characteristics of larval stages, case reports from various South American countries reviewed, exper. animal infections, man thought to be accidental host human (liver, mesentery nodules, bronchiole): Colombia (immigrants and natives)
dog (exper.)
mice "
Proechimys sp. (exper.)
Cercocyon thous "
Felis pardalis "
- Echinococcus vogeli* Rausch and Bernstein, 1972, illus.
Rausch, R. L.; Rausch, V. R.; and D'Alessandro, A., 1978, Am. J. Trop. Med. and Hyg., v. 27 (6), 1195-1202
Echinococcus oligarthrus, *E. vogeli*, discrimination of larval stages on basis of rostellar hook dimensions
human: Colombia
dog (exper.)
Cuniculus paca: Colombia
Meriones unguiculatus (exper.)
Dasyprocta aguti: Venezuela
- Echinococcus vogeli* Rausch y Bernstein
Sousa Pitti, O. E., 1976, Rev. Med. Panama, v. 1 (3), 163-179
Echinococcus granulosus, *E. multilocularis*, *E. oligarthrus*, *E. vogeli*, morphological comparisons and morphometric data, intermediate and definitive hosts, discussions on distribution
- Echinococcus vogeli*
Varela-Diaz, V. M.; Coltorti, E. A.; and D'Alessandro, A., 1978, Am. J. Trop. Med. and Hyg., v. 27 (3), 554-557
sera from 2 patients (one with *Echinococcus vogeli* and one with cysticercosis associated with multiple myeloma) were positive to immunoelectrophoresis test for hydatidosis based on *E. granulosus* arc 5 positivity criterion
- Echinocotyle brachycephala*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus
Arctodiaptomus bacillifer
Metadiaptomus asiaticus
all from Kazakhstan
- Echinocotyle clerci* Mathevossian et Krotov, 1949
Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab. Akad. Nauk SSSR, v. 21, 99-110
Anas crecca
A. querquedula
A. penelope
Diaptomus graciloides
all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Echinocotyle nitida*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus
Arctodiaptomus bacillifer
Metadiaptomus asiaticus
all from Kazakhstan
- Echinocotyle rosseteri* Blanchard, 1891
Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Spatula clypeata (intestine): south-east England
- Echinocotyle rosseteri* Blanchard, 1891, illus.
Brglez, J., 1974, Zborn. Bioteh. Fak. Univ. Ljubljani, Vet., v. 11 (1-2), 177-186
Anas platyrhynchos: Slovenia
- Echinocotyle rosseteri*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus
Arctodiaptomus bacillifer
Acanthodiaptomus denticornis
all from Kazakhstan
- Echinocotyle rosseteri* Blanchard, 1891
Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 99-110
Anas querquedula
Diaptomus graciloides
all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Echinocotyle ryjikovi* Jogis, 1963
Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 99-110
Anas clypeata
Diaptomus graciloides
Mesocyclops leuckarti
all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Echinocotyle tenuis*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus
Arctodiaptomus bacillifer
Metadiaptomus asiaticus
all from Kazakhstan
- Echinocotyle uralensis*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus
Arctodiaptomus bacillifer
Metadiaptomus asiaticus
all from Kazakhstan

- Echinolepis carioca*
Jurasek, V.; and Oviés Diaz, D., 1975, *Folia Vet.*, v. 19 (1-2), 173-189
cestodes and nematodes, *Gallus gallus f. domestica*, seasonal dynamics, prevalence, breed and age of host: Havana province, Cuba

Eubothrium spp., fishes, specificity, distribution, and habitat, life cycle, use as biological tags, review
- Eubothrium crassum*, *illus.*
Kuperman, B. I., 1978, *Biol. Moria, Vladivostok* (4), 53-60
Eubothrium salvelini, *E. crassum*, life cycles, egg structure, influence of salinity on ontogenesis of early stages
Oncorhynchus keta
O. tschawytscha
Salvelinus leucomaenis
S. alpinus
Osmerus eperlanus dentex
all from Kamchatka river basin
- Eubothrium crassum* (Bloch, 1779)
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
Syn.: *Taenia crassa* Bloch, 1779
Salmo salar
S. trutta m. trutta
Osmerus eperlanus
all from Gdansk Bay (Baltic Sea)

- Eubothrium crassum* Bloch, 1779
Tsimbaliuk, E. M.; and Semeshko, N. N., 1971, *Parazitologiya*, Leningrad, v. 5 (5), 424-428
Platichthys stellatus
Osmerus eperlanus dentex
Eleginus navaga gracilis
all from littoral zone of Okhotsk Sea near entrance to Penzhinsk zaliv, western Kamchatka
- Eubothrium crassum* Bloch
Vysotskaia, R. U.; and Sidorov, V. S., 1973, *Parazitologiya*, Leningrad, v. 7 (1), 51-57
8 helminth species from freshwater fish, lipid content, variation with respect to parasite maturity, host species and habitat, and season
- Eubothrium parvum* (Nybelin), *illus.*
Andersen, K., 1979, *Ztschr. Parasitenk.*, v. 60 (2), 147-156
pseudophyllidean cestodes, scolex morphology with emphasis on characters usable in species determination, scanning and transmission electron microscopy, light microscopy
Mallotus villosus (gut): Barents Sea
- Eubothrium parvum*
Kennedy, C. R., 1979, *J. Fish. Biol.*, v. 15 (2), 223-236
Eubothrium parvum in *Mallotus villosus*, distribution, incidence, intensity, seasonal changes in size and maturity, dispersion throughout its host populations (in relation to host age and size; frequency distributions), possible use as biological tag: Barents Sea; Balsfjord, close to Lyngen Fjord, North Norway
- Eubothrium rugosum*, *illus.*
Kuperman, B. I., 1978, *Dokl. Akad. Nauk SSSR*, v. 242 (1), 245-248
Eubothrium rugosum, *Bothriocephalus gowkongensis*, oncosphere, proceroid, plerocercoid, tegument ultrastructure; evolution of cestode tegument briefly discussed
- Eubothrium rugosum* (Batsch, 1786)
van Maren, M. J., 1979, *Bull. Zool. Mus. Univ. Amsterdam*, v. 6 (24), 189-200
Lota lota: Rhone River, N.E. of Lyon, France
- Eubothrium rugosum*
Shishova-Kasatochkina, O. A.; and Dubovskaja, A. J., 1975, *Acta Parasitol. Polon.*, v. 23 (26-40), 389-393
6 cestode species, proteinase activity, differences in adult and larval parasites, differences in relation to class of vertebrate host, high proteolytic activity in *Schistocephalus solidus* tegument
- Eubothrium salvelini* (Schrank, 1790), *illus.*
Amin, O. M., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 210-217
description
Salvelinus n. namaycush (second limb of gut)
Salmo trutta (second limb of gut)
Coregonus hoyi (rectum)
Salmo gairdneri (second limb of gut)
all from southwestern Lake Michigan
- Eubothrium salvelini* (Schrank), *illus.*
Andersen, K., 1979, *Ztschr. Parasitenk.*, v. 60 (2), 147-156
pseudophyllidean cestodes, scolex morphology with emphasis on characters usable in species determination, scanning and transmission electron microscopy, light microscopy
Salvelinus alpinus (gut): Norway
- Eubothrium salvelini* (Schrank, 1790)
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Salvelinus namaycush (pyloric caeca): Aishihik Lake, Yukon Territory
Prosopium cylindraceum (pyloric caeca): Aishihik Lake, Yukon Territory
Coregonus clupeaformis (pyloric caeca): Aishihik Lake and Stevens Lake, Yukon Territory
Thymallus arcticus (pyloric caeca): Aishihik Lake, Yukon Territory
- Eubothrium salvelini* (Schrank, 1790)
Beverley-Burton, M., 1978, *Canad. J. Zool.*, v. 56 (2), 365-368
Salvelinus alpinus (intestine): Char Lake, Cornwallis Island, N.W.T., Canada
- Eubothrium salvelini* (Schrank, 1790)
Curtis, M. A., 1979, *Naturaliste Canad.*, v. 106 (2), 337-338
Salvelinus alpinus (anterior intestine, caecum): southern Baffin Island
- Eubothrium salvelini*
Kennedy, C. R., 1978, *J. Fish Biol.*, v. 12 (5), 393-410
Eubothrium spp., fishes, specificity, distribution, and habitat, life cycle, use as biological tags, review
- Eubothrium salvelini*
Kennedy, C. R., 1978, *J. Fish Biol.*, v. 13 (4), 457-466
parasite fauna of *Salvelinus alpinus*, comparison of species composition, number, diversity, and equitability in lakes on Norwegian mainland and its offshore Arctic islands, results do not agree well with predictions of island biogeographical theory
Salvelinus alpinus: Diesetvassdraget lake, Spitsbergen; Stevatn, Oyangen, and Ellasjoen lakes, Bjornoya; Skogsfjordvann lake, Ringvassoy, Troms, Norway; Fiskelausvann, Raisjavarre, and Anjavann lakes, Troms, Norway
- Eubothrium salvelini*
Konovalov, S. M.; Shevliakov, A. G.; and Krasin, V. K., 1970, *Parazitologiya*, Leningrad, v. 4 (6), 547-556
parasite fauna of various groups of young *Oncorhynchus nerka*, comparative analysis reveals 3 ecological groups: Lake Azabach'e, Kamchatka river basin
- Eubothrium salvelini*, *illus.*
Kuperman, B. I., 1978, *Biol. Moria, Vladivostok* (4), 53-60
Eubothrium salvelini, *E. crassum*, life cycles, egg structure, influence of salinity on ontogenesis of early stages
Cyclops scutifer (exper.)
Gasterosteus aculeatus
Pungitius pungitius
Hypomesus olidus
Oncorhynchus nerka
O. kisutch
Salmo mykiss
Salvelinus alpinus
all from Kamchatka river basin
- Eubothrium salvelini*
Makhovenko, E. T., 1972, *Parazitologiya*, Leningrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka

- Eurycestus falciformis* sp. nov., illus.
Burt, D. R. R., 1979, Zool. J. Linn. Soc., London, v. 65 (1), 71-82
Recurvirostra americana (hind region of small intestine): near Garrison Dam, North Dakota, U.S.A.
- Eurycestus latissimus* sp. nov., illus.
Burt, D. R. R., 1979, Zool. J. Linn. Soc., London, v. 65 (1), 71-82
Eurycestus latissimus sp. nov., reproductive system development sequence, growth analysis
Recurvirostra americana (hind region of small intestine): near Garrison Dam, North Dakota, U.S.A.
- Eutetrarhynchidae* gen. sp., illus.
Shimazu, T., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (3), 122-128
Euphausia similis: Suruga Bay, Japan
- Fimbriaria amurensis*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus (exper.): Kazakhstan
- Fimbriaria fasciolaris* (Pallas, 1781) Wolff-huegel, 1900
Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos
A. crecca
A. acuta
Aythya fuligula
(intestine of all): all from south-east England
- Fimbriaria fasciolaris* (Pallas, 1781) Froelich, 1802, illus.
Brglez, J., 1974, Zborn. Bioteh. Fak. Univ. Ljubljani, Vet., v. 11 (1-2), 177-186
Anas platyrhynchos
A. crecca
all from Slovenia
- Fimbriaria fasciolaris* (Pallas, 1781) Wolff-huegel, 1899
Dau, C. P., 1978, Canad. J. Zool., v. 56 (8), 1882-1885
helminths of *Somateria fischeri* (intestinal tracts), survey by host age and sex, seasonal fluctuations in parasite numbers: Yukon-Kuskokwim Delta, Alaska
- Fimbriaria fasciolaris*
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus salinus
Arctodiaptomus bacillifer
Metadiaptomus asiaticus
Acanthodiaptomus denticornis
all from Kazakhstan
- Fimbriaria fasciolaris*
Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Fimbriaria fasciolaris*, illus.
Kishore, N.; et al., 1977, Indian J. Animal Research, v. 11 (2), 105-106
Fimbriaria fasciolaris, ducks (intestine), pathology: Patna
- Fimbriaria fasciolaris* (Pallas, 1781)
Neraasen, T. G.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens
Branta bernicla nigricans
all from Anderson River Delta, Northwest Territories, Canada
- Fimbriaria fasciolaris*, illus.
Neradova-Valkounova, J., 1971, Folia Parasitol., v. 18 (4), 303-313
Fimbriaria fasciolaris, *Dicranotaenia coronula*, life history studies, water birds
Mesocyclops crassus (nat. and exper.): Southern Bohemia, Czechoslovakia
M. leuckarti (nat. and exper.): Southern Bohemia, Czechoslovakia
Cyclops strenuus (nat. and exper.): Southern Bohemia, Czechoslovakia
Acanthocyclops vernalis (exper.)
A. viridis (exper.)
Paracyclops poppei (exper.)
Dolerocypris fasciata "
Macrocyclops albidus "
Anas platyrhynchos domestica (exper.)
- Fimbriaria fasciolaris* (Pallas, 1781), illus.
Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 99-110
morphology of cysticeroid
Anas platyrhynchos
A. crecca
A. clypeata
Aythya ferina
A. fuligula
Diaptomus graciloides
Cyclops strenuus
Acanthocyclops gigas
all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Fimbriaria fasciolaris*
Vasilev, I.; Denev, I.; and Kostov, R., 1977, Vet.-Med. Nachr. (2), 149-152
cestodes of poultry, droncit, highly effective
- Fimbriarioides intermedia* (Fuhrmann, 1913)
Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 99-110
description of cysticeroid
Aythya fuligula
Diaptomus graciloides
all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Fissurobothrium* Roytman, 1963
Protasova, E. N., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 133-144
Amphicotylidae, Amphicotylinae

- Fistulicola Luehe, 1899 (type gen. of subfam.)
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
Ancyrocephalidae n. fam., Fistulicolinae
n. subfam.
- Fistulicolinae n. subfam.
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
Ancyrocephalidae n. fam.
includes: *Fistulicola* (type gen. of subfam.);
Eubothrioides
- Flamingolepis dolguschini Gvosdev et Maksimova,
1968, illus.
Maksimova, A. P., 1973, Parazitologiya, Lenin-
grad, v. 7 (4), 349-352
brief description of cysticeroid
Artemia salina
Branchinella spinosa
Phoenicopterus roseus (intestine)
all from Tengiz lake, Tselinogradsk oblast,
Northern Kazakhstan
- Flamingolepis megalorchis (Luehe, 1898)
Rysavy, B.; and Macko, J. K., [1973], An.
Inst. Biol., Univ. Nac. Mexico, v. 42 (1),
s. Zool., 1971, 1-28
Phoenicopterus r. ruber (intestine): Playa
Larga, Cienaga de Zapata, province Las
Villas, Cuba
- Flamingolepis tengizi Gvosdev et Maksimova, 1968,
illus.
Maksimova, A. P., 1973, Parazitologiya, Lenin-
grad, v. 7 (4), 349-352
brief description of cysticeroid
Artemia salina
Phoenicopterus roseus (intestine)
all from Tengiz lake, Tselinogradsk oblast,
Northern Kazakhstan
- Floriceps caballeri sp. nov., illus.
Cruz-Reyes, A., 1977, Publicaciones Espec.
(4), Inst. Biol., Univ. Nac. Autonom. Mexico,
343-355
Negaprion brevirostris (valvula espiral):
Laguna de Agiabampo, entre los Estados de
Sinaloa y Sonora, Mexico
- Gangesia Woodland, 1924
Brooks, D. R., 1978, System. Zool., v. 27 (3),
312-323
Proteocephalidae, Gangesiinae
- Gangesiinae
Brooks, D. R., 1978, System. Zool., v. 27 (3),
312-323
Proteocephalidae
includes: *Gangesia*; *Electrotaenia*; *Siluro-
taenia*
- Gastrotaenia Wolffhuegel, 1938
Wisniewski, R. J., 1971, Acta Parasitol.
Polon., v. 19 (1-8), 49-61
diagnosis
Hymenolepididae, Nematoparataeniinae
- Gastrotaenia dogieli
Dobrokhotova, O. V., 1975, Acta Parasitol.
Polon., v. 23 (12-25), 237-242
Arctodiptomus bacillifer: Kazakhstan
- Gastrotaenia dogieli (Ginetsinskaja, 1944)
Egizbaeva, Kh. I.; and Erbolatov, K., 1975, Acta
Parasitol. Polon., v. 23 (12-25), 243-246
Gastrotaenia dogieli, histopathology in ducks
(exper.)
- Gastrotaenia kazachstanica nov. sp., illus.
Egizbaeva, Kh. I.; and Nasyrova, S. R., 1979,
Izvest. Akad. Nauk Kazakhsk. SSR, s. Biol. (2),
48-52
Anas platyrhynchos dom. (section of muscular
stomach around exit to duodenum, border of
transition from muscular stomach into
glandular stomach) (exper.)
Arctodiptomus salinus (body cavity): Tseli-
nogradsk oblast, Kazakhstan
- Gastrotaenia paracygni Czaplinski et Ryzikov,
1966
Czaplinski, B., 1975, Acta Parasitol. Polon.,
v. 23 (26-40), 305-327
Hymenolepididae of wild *Cygnus olor*, ex-
tensiveness and intensity of infestation,
age and sex of host, seasonal variation,
distribution within digestive tract: Poland
synonymy
- Gastrotaenia paracygni Czaplinski et Ryzikov,
1966, illus.
Wisniewski, R. J., 1971, Acta Parasitol. Polon.,
v. 19 (1-8), 49-61
Nematoparataenia southwelli, *Gastrotaenia*
paracygni, life cycle studies, development
in intermediate hosts
Cygnus olor: Lake Guber, Poland
Eudiptomus vulgaris (nat. and exper.): Lake
Guber, Poland
- Gilquinia squali Fabricius, 1794, illus.
Threlfall, W., 1969, J. Fish. Research Bd.
Canada, v. 26 (4), 805-811
Squalus acanthias: Newfoundland
- Glaridacris catostomi
Aliff, J. V.; Smith, D.; and Lucas, H., 1977,
Tr. Am. Micr. Soc., v. 96 (1), 145-148
Catostomus commersoni: middle Georgia
- Glaridacris catostomi Cooper, 1920
Amin, O. M., 1977, Proc. Helminth. Soc. Wash-
ington, v. 44 (2), 210-217
Catostomus commersoni (anterior half of in-
testine): southwestern Lake Michigan
- Glaridacris catostomi Cooper, 1920
Amin, O. M., 1977, Tr. Wisconsin Acad. Sc.,
Arts and Lett., v. 65, 225-230
fish parasites, differential distribution in
two streams
Catostomus commersoni: southeastern Wiscon-
sin
- Glaridacris catostomi Cooper, 1920
Arthur, J. R.; Margolis, L.; and Arai, H. P.,
1976, J. Fish. Research Bd. Canada, v. 33 (11),
2489-2499
Catostomus catostomus (intestine): Aishi-
hik Lake, Yukon Territory
- Glaridacris catostomi Cooper, 1920, illus.
Hayunga, E. G., 1979, J. Fish Dis., v. 2 (3),
239-248
Glaridacris catostomi, *G. laruei*, and
Hunterella nodulosa in *Catostomus commersoni*,
fine structure of parasite-host in-
terface at site of attachment, intestinal
pathology, light and electron microscopy:
vicinity of Albany, New York

- Glaridacris catostomi* Cooper, 1920, illus.
Mackiewicz, J. S., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 28-33
Glaridacris catostomi, *Penarchigetes* sp., anomalies involving duplication of reproductive systems; Promonobothrium minytremi, lateral swelling containing additional testes
Catostomus commersoni: small tributary of Watervliet Reservoir on Normanskill River, Bozenkill Creek, Albany Co., New York; Oyster River, Stratford Co., New Hampshire
- Glaridacris catostomi* Cooper 1920, illus.
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 401-409
key
- Glaridacris catostomi* Cooper, 1920
Williams, D. D., 1979, Iowa State J. Research, v. 53 (4), 305-310
Hypentelium nigricans: Red Cedar River (southern Barron Co.), Wisconsin
- Glaridacris catostomi* Cooper, 1920, illus.
Williams, D. D., 1979, Iowa State J. Research, v. 53 (4), 311-316
Glaridacris laruei and *G. catostomi* in *Catostomus commersoni*, seasonal incidence, parasite maturation: Red Cedar River (Barron County), Wisconsin
- Glaridacris confusus* Hunter, 1927
Mauney, M., jr., 1979, Southwest. Nat., v. 24 (4), 685-686
Ictiobus bubalus (gut mucosa): Cache River, Woodruff Co., Arkansas
- Glaridacris confusa* Hunter 1929, illus.
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 401-409
key
- Glaridacris laruei*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Catostomus commersoni (intestine): Susquehanna River, Pennsylvania
- Glaridacris laruei*
Edwards, S.; and Mueller, J. F., 1978, J. Parasitol., v. 64 (5), 877
various genera and species of Caryophyllaeidae, apparent absence of C-viruslike particles which are found in Pseudophyllidea
- Glaridacris laruei* (Lamont, 1921) Hunter, 1927, illus.
Hayunga, E. G., 1979, J. Fish Dis., v. 2 (3), 239-248
Glaridacris catostomi, *G. laruei*, and *Hunterella nodulosa* in *Catostomus commersoni*, fine structure of parasite-host interface at site of attachment, intestinal pathology, light and electron microscopy: vicinity of Albany, New York
- Glaridacris laruei* (LaMont, 1921)
Williams, D. D., 1979, Iowa State J. Research, v. 53 (4), 305-310
Hypentelium nigricans: Red Cedar River (southern Barron Co.), Wisconsin
- Glaridacris laruei* (LaMont, 1921)
Williams, D. D., 1979, Iowa State J. Research, v. 53 (4), 311-316
Glaridacris laruei and *G. catostomi* in *Catostomus commersoni*, seasonal incidence, parasite maturation: Red Cedar River (Barron County), Wisconsin
- Glaridacris oligorchis* Haderlie 1953, illus.
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 401-409
key
- Glaridacris terebrans*
Edwards, S.; and Mueller, J. F., 1978, J. Parasitol., v. 64 (5), 877
various genera and species of Caryophyllaeidae, apparent absence of C-viruslike particles which are found in Pseudophyllidea
- Glaridacris vogei*
Williams, D. D., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 142-143
Glaridacris vogei, larval development
Catostomus macrocheilus: Fern Ridge Reservoir, Lane Co., Oregon
Limnodrilus claparedeianus (nat. and exper.): Fern Ridge Reservoir, Lane Co., Oregon
L. hoffmeisteri (exper.)
Tubifex templetoni (exper.)
Dero digitata (exper.)
- Glaridacris vogei* Mackiewicz, 1976
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 397-400
Catostomus macrocheilus: Lane County, Oregon (Fall Creek; Fern Ridge Reservoir; Long Tom River; Noti Creek)
- Glossobothrium Yamaguti*, 1952
Protasova, E. N., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 133-144
Ancyrocephalidae n. fam., *Anonchocephalinae* n. subfam.
- Goezeella Fuhrmann*, 1916
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Monticelliidae, Monticelliinae
- Grillotia* sp.
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Merluccius bilinearis (intestinal wall, liver surface, mesenteries, stomach wall): Raritan Bay, New Jersey
- Grillotia* sp., illus.
Williams, H. H.; McVicar, A. H.; and Ralph, R., 1970, Symposia Brit. Soc. Parasitol., v. 8, 43-77
fish helminths, body shape and orientation in host gut, habitat specificity and migrations within gut
Raja radiata (mostly in tier 1): Scottish waters
- Grillotia dollfusi* Carvajal 1971
Carvajal, J.; and Catton, P. E., 1978, J. Parasitol., v. 64 (4), 695
Merluccius gayi (gonads, serosal surface of intestine, liver): Talcahuano, Chile
- Grillotia erinaceus* (v. Beneden, 1850)
Gaevskaia, A. V.; and Umnova, B. A., 1977, Biol. Moria, Vladivostok (4), 40-48
Merluccius bilinearis: Georges Bank
Urophycis tenuis: Georges Bank
Melanogrammus aeglefinus: Sable Island
all from Northwest Atlantic
- Grillotia erinaceus*
McVicar, A. H., 1979, Internat. J. Parasitol., v. 9 (3), 165-176
5 cestode species, distribution within spiral intestine of *Raja naevus*, correlation with anatomical and physicochemical features of spiral intestine

- Grillotia erinaceus* van Beneden
Shotter, R. A., 1976, J. Fish Biol., v. 8 (2), 101-117
Merlangius merlangus (stomach wall, body cavity, peritoneum, liver, intestine wall):
Manx waters near Isle of Man and/or Morecambe Bay, N.W. coast of England
- Grillotia* (Paragrillotia) *rowei* sp. n., illus.
Campbell, R. A., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 191-197
Bathyrāja richardsoni (spiral valve)
Coryphaenoides armatus
C. carapinus
C. leptolepis
all from Hudson Submarine Canyon, Northwest Atlantic, adjacent continental rise and abyssal plain
- Grillotia* (Paragrillotia) *simmonsii* n.s.g., n.sp., illus. (mt of subgen.)
Dollfus, R. P., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1037-1061
Ginglymostoma cirratum (tube digestif):
Sarasota, Florida
- Gruitaenia* gen. n.
Spasskii, A. A.; Borgarenko, L. F.; and Spasskaia, L. P., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (5), 61-65

Spasskii, A. A.; Borgarenko, L. F.; and Spasskaia, L. P., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (5), 61-65
Grus grus (intestine): lake Deviatoe (Tadzhiksk SSR)
- Gryporhynchus* sp. Kozicka, 1959
Kozicka, J., 1971, Acta Parasitol. Polon., v. 19 (1-8), 81-93
as syn. of *Neogryporhynchus cheilancristrotus* (Wedl, 1855) Baer et Bona, 1960
- Gryporhynchus cheilancristrotus*
Astakhova, T. V.; and Stepanova, G. A., 1972, Parazitologiya, Leningrad, v. 6 (4), 364-368
Ctenopharyngodon idella (intestine, gall bladder): pond and spawning-nursery fisheries, Volga delta
- Gryporhynchus cheilancristrotus* (Wedl., 1855)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Ardea cinerea]
[Ardea purpurea]
[Nycticorax nycticorax]
(intestine of all): all from Black Sea preserve, Kherson oblast
- Gryporhynchus pusillus* Nordmann, 1832
Kozicka, J., 1971, Acta Parasitol. Polon., v. 19 (1-8), 81-93
as syn. of *Neogryporhynchus cheilancristrotus* (Wedl, 1855) Baer et Bona, 1960
- Gryporhynchus pusillus* Nordmann, 1832
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young)
[Ardea cinerea]
[Ardea purpurea]
[Nycticorax nycticorax]
(intestine of all): all from Black Sea preserve, Kherson oblast
- Gymnorhynchus cybiumi* n. sp., illus.
Chincholikar, L. N.; and Shinde, G. B., [1978], Riv. Parasitol., Roma, v. 38 (2-3), 1977, 161-164
Cybium guttatum (intestine): Ratnagiri, Maharashtra, India
- Gymnorhynchus* (Molicola) *thyrsitae* Robinson, 1959, illus.
Kagei, N.; Kihata, M.; and Asano, K., 1977, Bull. Inst. Pub. Health, Tokyo, v. 26 (1), 1-13
description
Thyrsites atum (muscle mass): shore of Island of Banks, New Zealand
- Gyrocoelia* sp. 1, illus.
Shaldybin, L. S., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 73-80
description
Charadrius alexandrinus
C. asiaticus
(small intestine of all): all from Barsa-Kel'mes island (Aral Sea)
- Gyrocoelia* sp. 2, illus.
Shaldybin, L. S., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 73-80
description
Himantopus himantopus (small intestine): Barsa-Kel'mes island (Aral Sea)
- Gyrocotyle rugosa*
Kilejian, A.; and MacInnis, A. J., 1976, Rice Univ. Studies, v. 62 (4), 161-174
12 helminth species, DNA buoyant density and base composition, analysis of satellite DNAs of Hymenolepis spp., satellite DNA and chromosome diminution in Ascaris lumbricoides

- Hamatolepis teresoides* (Fuhrmann, 1906) Spassky, 1962
Czaplinski, B., 1975, *Acta Parasitol. Polon.*, v. 23 (26-40), 305-327
Hymenolepididae of wild *Cygnus olor*, extensiveness and intensity of infestation, age and sex of host, seasonal variation, distribution within digestive tract: Poland
- Hamatolepis teresoides* (Fuhrmann, 1906), illus.
Wisniewski, R. J., 1970, *Acta Parasitol. Polon.*, v. 18 (27-41), 315-322
Hamatolepis teresoides, attempted exper. infection of 10 potential intermediate hosts, development to cysticeroid only in *Heterocypris incongruens*, inhibited development in *Cypridopsis vidua*, *Dolerocypris fasciata*, and *Notodromas monacha*
- Helictometra giardi*
Ojukwu, E. M.; and Ikeme, M. M., 1978, *Bull. Animal Health and Prod. Africa*, v. 26 (3), 242-247 [pages assembled incorrectly]
helminths, Zebu cattle, helmoal B, critical tests and field trials: Nigeria
- Hemicatenotaenia* subg. nov.
Tenora, F., 1977, *Acta Univ. Agric., Fac. Agronom., Brno*, v. 25 (2), 163-170
subgen. of *Catenotaenia*, key
type species: *Catenotaenia* (*Hemicatenotaenia*) *geosciuri* Ortlepp, 1938
- Hepatotaenia* sp.
Mawson, P. M., 1971, *Tr. Roy. Soc. South Australia*, v. 95 (3), 169-183
Rattus fuscipes murrayi (intestine): Pearson Island, western coast of South Australia

Syn.: *Hilmylepis* sp. Ianchev, 1965
Crocidura leucodon
C. suaveolens
(intestine of all): all from southern Dobrudzha, north-eastern Bulgaria
- Hunterella nodulosa* Mackiewicz & McCrae, 1962
Amin, O. M., 1977, *Tr. Wisconsin Acad. Sc., Arts and Lett.*, v. 65, 225-230
fish parasites, differential distribution in two streams
Catostomus commersoni: southeastern Wisconsin
- Hunterella nodulosa*
Deutsch, W. G., 1977, *Proc. Pennsylvania Acad. Sc.*, v. 51 (2), 122-124
Catostomus commersoni (intestine): Susquehanna River, Pennsylvania
- Hunterella nodulosa*
Edwards, S.; and Mueller, J. F., 1978, *J. Parasitol.*, v. 64 (5), 877
various genera and species of *Caryophyllaeidae*, apparent absence of C-viruslike particles which are found in *Pseudophyllidea*
- Hunterella nodulosa* Mackiewicz and McCrae, 1962, illus.
Hayunga, E. G., 1979, *J. Fish Dis.*, v. 2 (3), 239-248
Glaridacris catostomi, *G. laruei*, and *Hunterella nodulosa* in *Catostomus commersoni*, fine structure of parasite-host interface at site of attachment, intestinal pathology, light and electron microscopy: vicinity of Albany, New York
- Hunterella nodulosa* Mackiewicz & McCrae, 1962
Williams, D. D., 1978, *Iowa State J. Research*, v. 52 (4), 397-400
Catostomus macrocheilus: Lane County, Oregon (Long Tom River; Noti Creek)
- Hydatid cysts. See *Echinococcosis*.
- Hydatid disease. See *Echinococcosis*.
- Hydatidosis. See *Echinococcosis*.
- Hydatigera krepkogorski* Schulz et Landa, 1934
Babaev, Ia., 1976, *Izvest. Akad. Nauk Turkmen. SSR, s. Biol. Nauk* (4), 68-74
Rhombomys opimus
Meriones erythrourus
all from area of Karakum canal, Turkmenistan

- Hydatigera taeniaeformis (Batsch, 1786) Lamarck, 1816
Babaev, Ia., 1976, Izvest. Akad. Nauk Turkmen. SSR, s. Biol. Nauk (4), 68-74
Mus musculus
Meriones meridianus
- Hydatigera taeniaeformis Batsch, 1786
Canese, A., 1974, Rev. Paraguaya Microbiol., v. 9 (1), 34
Rattus norvegicus (intestino): Capiata, Paraguay
- Hydatigera taeniaeformis (Batsch, 1783)
Erhardova-Kotrla, B.; and Daniel, M., 1971, Folia Parasitol., v. 18 (3), 227-233
Alticola argentata (liver): Eastern Hindu Kush, West Pakistan (Tirich Mir region)
- Hydatigera taeniaeformis (Batsch, 1786) (Cysticercus (Strobilocercus) fasciolaris Rudolphi, 1808)
Frank, C., 1977, Ang. Parasitol., v. 18 (4), 206-215
Vulpes vulpes (Jejunum, vorderer Abschnitt des Ileums)
Sorex araneus (Leber)
Mus musculus (Leber)
Microtus agrestis (Pleural-, Viszeral- und Retroperitonealraum, Leber)
Rattus norvegicus (Diaphragma, Leber)
Apodemus sylvaticus (Leber)
all from Neusiedlerseegebiet (Burgenland/Osterrreich)
- Hydatigera taeniaeformis
Guralp, N.; et al., 1976, Vet. Med. Rev. (2), 129-133
tapeworms, dogs, cats, droncit
- Hydatigera taeniaeformis
Guralp, N.; et al., 1976, Vet. Fak. Dergisi, Ankara Univ., v. 23 (1-2), 171-174
tapeworms, cats, droncit 100% effective
- Hydatigera taeniaeformis (Batsch, 1786)
Ianchev, I.; and Ridzhakov, N., 1977, Khel'mintologiya, Sofiya, v. 4, 73-96
Vulpes vulpes crucigera (small intestine): Northwestern Bulgaria
- Hydatigera taeniaeformis, illus.
Jones, B. R., 1979, IRCS J. Med. Sc., v 7 (8), 391-392
Hydatigera taeniaeformis eggs, surface topography, scanning electron microscopy and X-ray microanalysis
- Hydatigera taeniaeformis, illus.
Jones, B. R.; Smith, B. F.; and LeFlore, W. B., 1977, Microbios Letters (15), v. 4, 145-150
Hydatigera taeniaeformis cysticercus, ultrastructure of bladder tegument, scanning electron microscopy
- Hydatigera taeniaeformis, illus.
Jones, B. R.; Smith, B. F.; and LeFlore, W. B., 1979, Cytobios (95-96), v. 24, 195-209
Hydatigera taeniaeformis cysticercus, alkaline phosphatase activity, ultrastructural localization in tegument
- Hydatigera taeniaeformis (Batsch, 1786)
Mas-Coma, S.; and Feliu, C., 1977, Vie et Milieu, s. C, Biol. Terr., v. 27 (2), 231-241
Mus musculus: Cataluna, Espana
- Hydatigera taeniaeformis (Batsch, 1786)
Mas-Coma, S.; Tenora, F.; and Rocamora, J. M., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 63-72
Microtus agrestis: region catalana, Alpens and Queralbs, Peninsula Iberica
- Hydatigera taeniaeformis
Merkusheva, I. V., 1976, Vestsi Akad. Navuk BSSR, s. Biial. Navuk (4), 88-94
helminths of murine rodents, changes in parasite fauna compared to changes in forest biotope over several years: Belorussian Polesia
- Hydatigera taeniaeformis
Sakamoto, T., 1977, Vet.-Med. Nachr. (1), 64-74
adult tapeworms, dogs, cats, droncit, drug efficacy at various doses
- Hydatigera taeniaeformis (Cysticercus fasciolaris), illus.
Sakamoto, T., 1977, Vet.-Med. Nachr. (2), 153-162
Cysticercus fasciolaris, Mesocestoides corti, Echinococcus multilocularis, laboratory mice and rats, praziquantel, evaluation of activity against larval stages
- Hydatigera taeniaeformis
Sakamoto, T., 1977, Vet. Med. Rev. (1), 64-74
adult tapeworms in cats or dogs, praziquantel highly effective, dosage range
- Hydatigera taeniaeformis
Sakamoto, T.; et al., 1979, Bull. Fac. Agric. Kagoshima Univ. (29), 81-87
cestodes, cats, praziquantel
- Hydatigera taeniaeformis (Cysticercus fasciolaris)
Thienpont, D.; et al., 1978, Arzneimittel-Forsch., v. 28 (4), 605-612
intestinal helminths, nat. and exper. infections in laboratory and domestic animals, critical and controlled tests with flubendazole to establish biological and pharmacological properties
- Hydatigera taeniaeformis (Strobilocercus fasciolaris)
Trinkler, O. K., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 102-107
Apodemus sylvaticus (liver): Puchezhsk region, Ivanovsk oblast; Kstovsk region, Gorky oblast
Microtus arvalis (liver): Kstovsk region, Gorky oblast
- Hydatigera (= Taenia) taeniaeformis (Batsch, 1786)
Yap, L. F.; et al., 1977, Southeast Asian J. Trop. Med. and Pub. Health, v. 8 (3), 345-353
Rattus tiomanicus (liver): Jenderak Utara, Malaysia
- Hymenolepiasis
Kas'ianenko, A. M.; and Borisenko, V. S., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (2), 230-232
helminthiases, human, reductions in prevalence, control measures, 20-year period: Dnepropetrovsk oblast
- Hymenolepid cestode
Edwards, G. T.; Hackett, F.; and Herbert, I. V., 1979, Brit. Vet. J., v. 135 (5), 433-439
fox: Snowdonia, U. K.

- Hymenolepidae [sp.]
 Hodasi, J. K. M., 1976, Bull. Animal Health and Prod. Africa, v. 24 (1), 81-87
 incidence and intensity
 Numida meleagris galeata (duodenum): markets of Ghana
- Hymenolepididea, new order
 Wardle, R. A.; McLeod, J. A.; and Radinovsky, S., 1974, Advances in the zoology of tapeworms, 1950-1970, rev. of Wardle, R. A.; and McLeod, J. A., [1952 a], 274 pp., illus.
- [Hymenolepidids] gimenolepidid
 Golovneva, L. F., 1971, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 9, 116-119
 helminths and protozoa of domestic waterfowl, prevalence under intensive rearing conditions
- Hymenolepis
 Akhtaruzzaman, K. M.; et al., 1978, Tropenmed. u. Parasitol., v. 29 (4), 427-431
 comparison of different methods for detection of intestinal protozoa and helminths in human stool
- Hymenolepis spp.
 Bain, G. A.; and Threlfall, W., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 219-221
 Lophodytes cucullatus: Ontario
- Hymenolepis [sp.] cf. diminuta
 Betterton, C., 1979, Internat. J. Parasitol., v. 9 (4), 313-320
 intestinal helminths of small mammals, patterns of parasitism with respect to host ecology
 Rattus sabanus
 R. whiteheadi
 all from Peninsular Malaysia
- Hymenolepis sp.
 Davidson, W. R.; et al., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 156-161
 Bonasa umbellus: Michigan; New York; West Virginia
- Hymenolepis sp.
 Frank, C., 1976, Acta Vet. Brno, v. 45 (4), 263-270
 Podiceps cristatus (rectum, whole gut, small intestine)
 P. nigricollis (small intestine)
 all from south-eastern "Seewinkel", Burgenland
- Hymenolepis spp.
 Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
 usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of Aythya affinis (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
 Aythya affinis: Alberta, Canada
- Hymenolepis sp.
 Jackson, J. W.; Andrews, R. D.; and Ridgeway, B. T., 1977, Tr. Illinois State Acad. Sc., v. 69 (4), 455-460
 Meleagris gallopavo silvestris (alimentary tract): Illinois
- Hymenolepis sp.
 MacNeill, A. C.; and Barnard, T., 1978, Canad. Vet. J., v. 19 (1), 17-21
 Anatidae: British Columbia
- Hymenolepis sp., illus.
 Manuel, M. F.; and Sison, M. O., [1977], Philippine J. Vet. Med., v. 15 (1-2), 1976, 64-74
 incidence, intensity
 Anas boschas (small intestine): Philippines
- Hymenolepis sp.
 Marzochi, M. C. de A., 1970, Rev. Inst. Med. Trop. S. Paulo, v. 12 (4), 249-256
 human intestinal parasites, eggs and cysts from water used to irrigate vegetable gardens, increased risk of crop contamination in dry season: Ribeirao Preto, Sao Paulo, Brazil
- Hymenolepis sp.
 Marzochi, M. C. de A., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (3), 148-155
 enteroparasitic cysts and eggs, contamination of green vegetables and kitchen garden soils, epidemiological survey, most commonly found during dry-season when fecal polluted brooks were used for irrigation: Ribeirao Preto, Sao Paulo, Brasil
- Hymenolepis sp.
 Neraasen, T. G.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 277-289
 analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
 Branta bernicla nigricans: Anderson River Delta, Northwest Territories, Canada
- Hymenolepis sp.
 Ohbayashi, M.; Masegi, T.; and Kubota, K., 1972, Japan. J. Vet. Research, v. 20 (3), 50-56
 description
 Urotrichus talpoides (jejunum): Yumoto, Japan
- Hymenolepis sp.
 Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
 Akodon sp.
 Noctilio leporinus
 all from Chaco Boreal, western Paraguay
- Hymenolepis abortiva (von Linstow, 1904) von Linstow, 1905
 Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
 Anas platyrhynchos platyrhynchos
 Aythya fuligula
 (intestinal caeca of all): all from south-east England
- Hymenolepis abortiva
 Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
 usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of Aythya affinis (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
 Aythya affinis: Alberta, Canada

- Hymenolepis anthocephalus* van Gundy, 1935, *illus.*
Vaucher, C.; and Durette-Desset, M. C., 1978,
Rev. Suisse Zool., v. 85 (2), 361-378
measurements
Blarina brevicauda: New York; Ontario,
Canada
- Hymenolepis arcuata*
Hair, J. D.; and Holmes, J. C., 1975, *Acta
Parasitol. Polon.*, v. 23 (12-25), 253-269
usefulness of measures of diversity, niche
width, and niche overlap in analysis of
helminth communities in waterfowl, data sug-
gest hypothesis that intestinal helminth
fauna of *Aythya affinis* (particularly
hymenolepidids) is composed of chance com-
bination of ecological specialists whose
microhabitats and populations are deter-
mined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Hymenolepis asymmetrica* Janicki, 1904
Mas-Coma, S.; Tenora, F.; and Rocamora, J. M.,
1978, *Rev. Iber. Parasitol.*, v. 38 (1-2),
63-72
Microtus agrestis (intestino delgado): region
catalana. Oueralbs. Peninsula Iberica
- Hymenolepis cantaniana* (Polonio, 1860)
Hodasi, J. K. M., 1976, *Bull. Animal Health
and Prod. Africa*, v. 24 (1), 81-87
incidence and intensity
Numida meleagris galeata (duodenum):
markets of Ghana
- Hymenolepis cantaniana*
Humphrey, J. D., 1979, *Austral. Vet. J.*, v. 55
(4), 205-207 [Letter]
domestic fowl (alimentary tract): Papua New
Guinea
- Hymenolepis carioca*
Humphrey, J. D., 1979, *Austral. Vet. J.*, v. 55
(4), 205-207 [Letter]
domestic fowl (alimentary tract): Papua New
Guinea
- Hymenolepis citelli* McLeod, 1933
Broda, R. J.; and Schmidt, G. D., 1978, *J.
Helminth.*, v. 52 (4), 323-326
Spermophilus spilosoma: Colorado
- Hymenolepis citelli*
Grundmann, A. W.; Warnock, R. G.; and Wassom,
D. L., 1976, *Am. Midland Naturalist*, v. 95 (2),
347-360
mechanisms of natural regulation of parasitic
helminth populations
Spermophilus variegatus utah
Peromyscus maniculatus sonoriensis
P. maniculatus rufinus
Ammospermophilus leucurus leucurus
all from western Utah
- Hymenolepis citelli*
Kilejian, A.; and MacInnis, A. J., 1976, *Rice
Univ. Studies*, v. 62 (4), 161-174
12 helminth species, DNA buoyant density and
base composition, analysis of satellite
DNAs of *Hymenolepis* spp., satellite DNA and
chromosome diminution in *Ascaris lumbricoides*
- Hymenolepis collaris* (Batsch, 1786) Fuhrmann,
1908
Beverley-Burton, M., 1975, *Acta Parasitol.
Polon.*, v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos
Aythya marila
(intestine of all): all from south-east
England
- Hymenolepis collaris. illus.*
Manuel, M. F.; and Sison, M. O., [1977],
Philippine J. Vet. Med., v. 15 (1-2), 1976,
64-74
incidence, intensity
Anas boschas (small intestine): Philippines
- Hymenolepis compressa* (Linton, 1892) Kowalewski,
1904
Beverley-Burton, M., 1975, *Acta Parasitol.
Polon.*, v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos
A. crecca
Aythya fuligula
(intestine of all): all from south-east
England
- Hymenolepis compressa*
Hair, J. D.; and Holmes, J. C., 1975, *Acta
Parasitol. Polon.*, v. 23 (12-25), 253-269
usefulness of measures of diversity, niche
width, and niche overlap in analysis of
helminth communities in waterfowl, data sug-
gest hypothesis that intestinal helminth
fauna of *Aythya affinis* (particularly
hymenolepidids) is composed of chance com-
bination of ecological specialists whose
microhabitats and populations are deter-
mined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Hymenolepis crociduri* n. sp., *illus.*
Mikhail, J. W.; and Fahmy, M. A. M., [1977],
Egypt. J. Vet. Sc., v. 13 (1), 1976, 69-75
Crocidura olivieri (small intestine): Kom-O-
Shim, Faiyum Governorate, Egypt
- Hymenolepis diaphana* (Cholodowsky, 1906)
Jourdan, J., 1975, *Acta Parasitol. Polon.*,
v. 23 (12-25), 247-251
Hymenolepis spp., differences in interme-
diate hosts in the Pyrenees, Poland, and
Czechoslovakia
Panorpa communis
Lithobius sp.
all from Pyrenees
- Hymenolepis diminuta*
Andreassen, J.; Hindsbo, O.; and Ruitenber,
E. J., 1978, *Immunology*, v. 34 (1), 105-113
Hymenolepis diminuta in congenitally athymic
(nude) mice vs. their thymus-bearing litter-
mates, worm kinetics and intestinal histo-
pathology, passive immunization showed no
conclusive role of serum antibodies in host
protection, host protection was dependent on
number of worms and worms could be expelled
in absence of functional T-cells
- Hymenolepis diminuta*
Babaev, Ia., 1976, *Izvest. Akad. Nauk Turkmen.
SSR, s. Biol. Nauk* (4), 68-74
Nesokia indica
Mus musculus
Cricetulus migratorius
all from area of Karakum canal, Turkmenistan
- Hymenolepis diminuta*
Bartlett, M. S.; et al., 1978, *J. Clin.
Microbiol.*, v. 7 (6), 524-528
modified zinc sulfate flotation technique
evaluated in comparison with formalin-ether
concentration method for recovery of proto-
zoan cysts and helminth eggs and larvae from
feces preserved in formalin less than and
longer than 1 month, results suggest that
(except for schistosomes) F-ZnSO₄ compares
favorably to FE method for detecting infec-
tions of clinical significance

Trichinella spiralis, mice, effect of concurrent infection on survival and growth of *Hymenolepis microstoma* depends greatly on relative timing of the infections
- Hymenolepis microstoma*
Khan, Z. I.; and De Rycke, P. H., 1977, Ztschr. Parasitenk., v. 52 (3), 267-274
Hymenolepis microstoma in mice treated with cortisone, increased weight and glycogen content of worms seems to be immunosuppressive effect rather than hormonal action; cortisone in vitro produces no change in worm weight; infection by 30 worms provokes rejection process which can be partially suppressed by cortisone
- Hymenolepis microstoma*
Kilejian, A.; and MacInnis, A. J., 1976, Rice Univ. Studies, v. 62 (4), 161-174
12 helminth species, DNA buoyant density and base composition, analysis of satellite DNAs of *Hymenolepis* spp., satellite DNA and chromosome diminution in *Ascaris lumbricoides*
- Hymenolepis microstoma*
Pappas, P. W., 1978, J. Parasitol., v. 64 (2), 265-272
Hymenolepis microstoma-infected mice, biochemical alterations in liver, spleen, small intestine, and bile ducts, data indicate that all organs undergo significant hyperplasia and that deposition of collagen does not make significant contribution to process of organ growth
- Hymenolepis microstoma, illus.*
Pappas, P. W.; and Gamble, H. R., 1978, J. Parasitol., v. 64 (4), 760-762
Hymenolepis microstoma, surface topography as determined by scanning electron microscopy using critical point dried specimens
- Hymenolepis microstoma*
Pappas, P. W.; and Schroeder, L. L., 1979, Exper. Parasitol., v. 47 (2), 134-139
Hymenolepis microstoma adults, lactate and malate dehydrogenases, partial characterization

- Hymenolepis microstoma*
Thomas, H.; and Goennert, R., 1977, Ztschr. Parasitenk., v. 52 (2), 117-127
Hymenolepis nana and *H. microstoma* in mice, *H. diminuta* in rats, good results with praziquantel, in vivo mode of action (immobilization followed by paralysis)
- Hymenolepis microstoma*, *illus.*
Webb, R. A., 1977, Canad. J. Zool., v. 55 (10), 1726-1733
Hymenolepis microstoma, neurosecretory cells in neck region, electron microscopy
- Hymenolepis microstoma*, *illus.*
Webb, R. A.; and Davey, K. G., 1975, Canad. J. Zool., v. 53 (5), 661-677
Hymenolepis microstoma, metacystode, central nervous system, gross anatomy and histology
- Hymenolepis muris-sylvatici* (Rudolphi, 1819)
Murua, R. E., 1978, Acta Parasitol. Polon., v. 25 (11-20), 149-161
ecology of parasites of *Apodemus sylvaticus* and *Clethrionomys glareolus*: analysis of parasite populations and their seasonal variation in two contrasting habitats
Apodemus sylvaticus (small intestine): Bristol area, England
- Hymenolepis myoxi* (Rud., 1819)
Faivre, J. P.; and Vaucher, C., 1978, Bull. Soc. Neuchatel, Sc. Nat., 3. s., v. 101, 53-58
Hymenolepis sulcata from *Glis glis*, redescription, comparison with *H. myoxi*, host specificity of both
- Hymenolepis myoxi sensu* Janicki, 1906
Faivre, J. P.; and Vaucher, C., 1978, Bull. Soc. Neuchatel, Sc. Nat., 3. s., v. 101, 53-58
as syn. of *Hymenolepis sulcata* (von Linstow, 1879)
- Hymenolepis myoxi* (Rudolphi, 1819) *sensu* Janicki, 1904, 1906
Mas-Coma, S.; Feliu, C.; and Rey, J. M., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 579-584
as syn. of *Hymenolepis sulcata* (von Linstow, 1879)
- Hymenolepis nana*
Ahmad, S.; Kishor, K.; and Shanker, K., 1979, Indian Drugs, v. 16 (5), 107-109
Hymenolepis nana, anthelmintic activity of imidazolines in vivo and in vitro, synthesis and acetylcholine esterase inhibitory activity of compounds
- Hymenolepis nana*
Alaimo, R. J.; et al., 1978, J. Med. Chem., v. 21 (3), 298-300
Hymenolepis nana, imidazo[4,5-f]quinolin-9-ols, evaluation of anthelmintic activity using bunamidine as reference drug
- H[*y*menolepis] *nana*
Alonso, R. E., 1976, Semana Med. (4956), an. 83, v. 149 (7), 234-237
intestinal parasites, school children, clinical studies with tinidazole and mebendazole: Instituto Aguirre 'Patronato de la Infancia'
- Hymenolepis nana*, *illus.*
Arakcheeva, S. G.; Zubitskaia, M. A.; and Isaeva, Kh. B., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (1), 81-84
Hymenolepis nana, mice, comparative histochemical study of nucleic acids, carbohydrates, and alkaline phosphatase in parasite and in host
- Hymenolepis nana*
Awadalla, M. A.; Hussein, L. A.; and Salem, M., 1979, Nutrition Rep. Internat., v. 19 (5), 627-633
parasitic infestations in children, effect on intestinal absorption as determined by assay of fasting serum carotene and vitamin A levels and by vitamin A tolerance tests: Orphanage Institute of Giza and El-Zeitoun, Egypt
- Hymenolepis nana*
Bartlett, M. S.; et al., 1978, J. Clin. Microbiol., v. 7 (6), 524-528
modified zinc sulfate flotation technique evaluated in comparison with formalin-ether concentration method for recovery of protozoan cysts and helminth eggs and larvae from feces preserved in formalin less than and longer than 1 month, results suggest that (except for schistosomes) F-ZnSO₄ compares favorably to FE method for detecting infections of clinical significance
- Hymenolepis nana*
Bekhli, A. F.; et al., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (2), 228
Hymenolepis nana, mice, comparative activity of two polymorphic forms of phenasal
- Hymenolepis nana*
Blecka, L. J., 1978, J. Parasitol., v. 64 (2), 362-363
patients infected with intestinal parasites, attempt to quantitate immunoglobulin levels in fecal extracts with radial immunodiffusion, mean IgA levels higher than in controls, other immunoglobulin classes rarely detectable
- Hymenolepis nana*
Botero R., D., 1978, Ann. Rev. Pharmacol. and Toxicol., v. 18, 1-15
chemotherapy of common intestinal protozoan and helminth infections in humans, review of antiparasitic drugs in current use
- Hymenolepis nana*
Cabrera M., G.; et al., 1977, Rev. Med. Chile, v. 105 (5), 297-303
Entamoeba histolytica, *Giardia intestinalis*, *Ascaris lumbricoides*, *Hymenolepis nana*, listed as etiologic agents of human diarrheal syndrome
- Hymenolepis nana*
Dantas, A. M. P.; and Ferreira, L. F., 1973, Rev. Soc. Brasil. Med. Trop., v. 7 (3), 209-212
human intestinal parasites (especially *Schistosoma mansoni*), comparison of several fecal techniques used for diagnosis, concluded that Hoffman-Pons-Janer is most sensitive
- Hymenolepis nana*
Davies, D. H.; et al., 1978, J. Med. Chem., v. 21 (2), 189-193
Trichomonas vaginalis, *Entamoeba histolytica*, 6'-hydroxy analogue of sisomicin, antiprotozoal activity demonstrated in laboratory trials; no activity against *Histomonas meleagridis* and no anthelmintic activity observed
- Hymenolepis nana*
Della Bruna, C.; Ricciardi, M. L.; and Sanfilippo, A., 1973, Antimicrob. Agents and Chemotherapy, v. 3 (6), 708-710
axenomycins, effectiveness against several cestode spp. in nat. and exper. infections of various animals

- Hymenolepis nana*
Dovzhenko, V. A.; et al., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (2), 169-173
Diphyllobothrium latum, *Hymenolepis nana*, *Taeniarrhynchus saginatus*, phenasal effects on various parts of strobila
- Hymenolepis nana*
Dubey, S. K.; et al., 1978, J. Med. Chem., v. 21 (11), 1178-1181
Hymenolepis spp., *Taenia* sp., laboratory animals, synthesis and screening of substituted 1-hydroxy-2-naphthanilides as potential cestocidal agents, niclosamide used as reference compound
- Hymenolepis nana*
Evans, W. S.; Gray, B.; and Novak, M., 1979, J. Parasitol., v. 65 (1), 31-34
Hymenolepis spp., effect of pure mebendazole and Telmin on developing larvae in *Tribolium confusum*
- Hymenolepis nana*
Friedberg, W.; et al., 1979, J. Parasitol., v. 65 (1), 61-64
Hymenolepis nana, intestinal tissue phase in actively immunized mice, histopathology of reaction is consistent with that of humoral immunity
- Hymenolepis nana*, *illus.*
Furukawa, T.; et al., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (2), 49-62
Hymenolepis nana, fine structure of hatched oncospheres
- Hymenolepis nana*
Ghadirian, E.; Croll, N. A.; and Gyorkos, T. W., 1979, Trop. and Geogr. Med., v. 31 (4), 485-491
helminths, 7 human intestinal species, prevalence survey based on geographical and socio-agricultural criteria, differences emphasize variability of human ecology in study region: Caspian Littoral region of Iran
- Hymenolepis nana*
Glazebrook, J. S.; et al., 1978, Austral. J. Exper. Biol. and Med. Sc., v. 56 (2), 147-156
zoonotic infections, occurrence and distribution in rodents
Rattus fuscipes: north Queensland
- Hymenolepis nana*
Glazebrook, J. S.; Campbell, R. S. F.; and Hutchinson, G. W., 1977, Tropenmed. u. Parasitol., v. 28 (4), 545-551
survey of feral rodents in six tropical habitats for infections of potential zoonotic importance
- Hymenolepis nana*
Goldsmid, J. M., 1974, South African Med. J., v. 48 (54), 2265-2266
intestinal helminths, man, baboons, mebendazole, clinical trials, highly effective broad-spectrum drug: Central Africa
- H[*ymenolepis*] *nana*
Grinenko, N. V.; et al., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (1), 101-103
H[*ymenolepis*] *nana*, patients of different age groups, dichlosal or trichlosal in divided doses, 5 or 7 day courses
- H[*ymenolepis*] *nana*
Grinenko, N. V.; et al., 1976, Med. Parazitol. i Parazitar. Bolezni, v. 45 (2), 176-178
H[*ymenolepis*] *nana*, white mice, phenasal, trichlorophene, dichlosal, and trichlosal tested in graded doses
- Hymenolepis nana*
Guevara Benitez, D. C.; Osuna Carrillo, A.; and Suarez-Carrillo, L. E., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 783-791
Hymenolepis nana, in vitro culture, new methods and media
- Hymenolepis nana*
Hashimoto, A., 1972, Showa Igakkai Zasshi (J. Showa Med. Ass.), v. 32 (6), 292-296
Hymenolepis nana, mice, immunity acquired from primary infection suppressed by rabbit antimouse thymocyte serum but not by antimouse lymphocyte serum
- Hymenolepis nana*
Haugwitz, R. D.; et al., 1979, J. Med. Chem., v. 22 (9), 1113-1118
Nematospiroides dubius, *Hymenolepis nana*, mice, synthesis and activities of 2-pyridinyl-5-isothiocyanatobenzimidazoles
- Hymenolepis nana*
Huggins, D.; et al., 1971, Rev. Soc. Brasil. Med. Trop., v. 5 (5), 291-297
Hymenolepis nana, *Taenia* sp., incidence survey, fecal examinations, 1968-1970: Instituto de Medicina Tropical, Univ. Federal Pernambuco, Brasil
- Hymenolepis nana*
Ito, A., 1978, Exper. Parasitol., v. 46 (1), 12-19
Hymenolepis nana, mice immunized with initial egg inoculation become resistant not only to egg but also to mouse-derived cysticercoid challenge, cortisone acetate suppresses immune response against the cysts, a few of egg-derived tapeworms can survive 6 or more months in some of the immunized mice
- Hymenolepis nana*, *illus.*
Ito, A.; and Yamamoto, M., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (4), 247-253
Hymenolepis nana, inoculation with different doses of shell-free eggs, protective immunity, stage at which protection occurred
- Hymenolepis nana*
Ito, A.; and Yamamoto, M., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (5), 301-306
Hymenolepis nana, maturation rate in mice inoculated with eggs vs. mouse-derived cysts and in normal vs. immunosuppressed mice (both given eggs)
- Hymenolepis nana*, *illus.*
Ito, A.; Yamamoto, M.; and Okamoto, K., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (6), 345-349
Hymenolepis nana, application of Ito's method to collection of early tissue stages from mouse intestine, development of infective cysticercoids

- Hymenolepis nana*
Ito, A.; Yamamoto, M.; and Okamoto, K., 1978, Internat. J. Parasitol., v. 8 (2), 149-153
Hymenolepis nana, mice, primary infection with mouse-derived cysticercoids prepared from baby or adult mice did not make hosts immune to egg or cyst challenge whereas rapid protective immunity against egg challenge was acquired by inoculation with eggs, time course of cyst differentiation in baby mice was not different from that in adult mice
- Hymenolepis nana*, *illus.*
Lee, M. B.; Bueding, E.; and Schiller, E. L., 1978, J. Parasitol., v. 64 (2), 257-264
Hymenolepis diminuta, *H. nana*, 5-hydroxytryptamine, presence and distribution in nervous systems detected by biochemical and histochemical methods, occurs in pattern similar to that of acetylcholinesterase, lack of 5-HT in vestigial rostellum of *H. diminuta* may be correlated with loss of function of this organ
- Hymenolepis nana*
Loebenberg, D.; Counelis, M.; and Waitz, J. A., 1975, Antimicrob. Agents and Chemotherapy, v. 7 (6), 811-815
antibiotic G-418, promising activity against a variety of protozoa and helminths in vivo and in vitro
- Hymenolepis nana*
Lombardo, G.; and Consiglio, C., 1973, Riv. Pediat. Siciliana, v. 28 (3-4), 155-165
helminths, extensive hematologic study of infected children, iron deficiency anemia most frequently discovered pathologic condition
- Hymenolepis nana*
Martirani, I.; and Rodrigues, L. D., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (1), 71-75
intestinal helminths, humans, clinical trials with cambendazole
- Hymenolepis nana*
Middleton, K. R.; Schaefer, F. W. III; and Saz, H. J., 1979, Experientia, v. 35 (2), 243-244
4-isothiocyano-4'-nitrodiphenylamine, anthelmintic activity against *Nematospiroides dubius* and *Hymenolepis nana* in mice and *Hymenolepis diminuta* in rats, no activity against *Spirometra mansonioides* in cats
- Hymenolepis nana* (Siebold 1853), *illus.*
Mikhail, J. W.; and Fahmy, M. A. M., [1977], Egypt. J. Vet. Sc., v. 13 (1), 1976, 63-67
Hymenolepis nana, anomalies
Mus musculus
Rattus rattus
Arvicanthus niloticus niloticus
Acomys cahirinus
Hemiechinus auratus aegyptius
all from Egypt
- Hymenolepis nana*
Molodykh, Zh. V.; et al., 1977, Khimiko-Farm. Zhurnal, v. 11 (7), 37-40
Nippostrongylus braziliensis, *Hymenolepis nana*, mice, anthelmintic activity of hydrazones, phthalazones, and phthalazinyldiazones, relationship to chemical structure
- [*Hymenolepis nana*] karlikovogo tsepnia, *illus.*
Namitokov, A. A., 1972, Parazitologiya, Leningrad, v. 6 (2), 161-162
[*Hymenolepis nana*], specimen with multiple anomalies
- Hymenolepis nana*
Nawalinski, T.; Schad, G. A.; and Chowdhury, A. B., 1978, Am. J. Trop. Med. and Hyg., v. 27 (6), 1152-1161
hookworms and other intestinal helminths, children, prevalence and intensity over 22-month period, host age, sex, and religion, seasonal distribution: rural West Bengal
- Hymenolepis nana*
Osimani, J. J.; et al., 1976, Semana Med. (4964), an. 83, v. 149 (15), 503-508
helminthiasis, humans, clinical trials with mebendazole: Montevideo, Uruguay
- Hymenolepis nana*
Pasricha, A.; and Narang, P., 1978, Indian J. Med. Research, v. 67, 934-936
human intestinal parasites, evaluation of kerosene as substitute for ether in the formol-ether concentration diagnostic technique, morphology of ova and cysts equally well preserved by both techniques
- Hymenolepis nana*
Przyjalkowski, Z., 1977, Acta Parasitol. Polon., v. 25 (1-10), 63-68
Hymenolepis nana in germfree vs. conventional mice, establishment, growth, and rate of expulsion, results suggest that conditions for cestode growth in germfree mice were less favorable than in conventional mice
- Hymenolepis nana*
Rajasekaran, P., 1978, Madras Agric. J., v. 65 (9), 613-616
intestinal parasites, children, infection rates in relation to sources of drinking water (open dug wells, water taps in street, water tap within household): Athur block, Madurai district, Tamil Nadu
- Hymenolepis nana*
Remfry, J., 1978, Lab. Animals, v. 12 (4), 213-218
helminth infections in imported *Macaca mulatta*, incidence, pathogenicity, and treatment: imported from northern India to Primate Quarantine Unit, Oxford University
- H[*ymenolepis*] *nana*
Repetto, O. M.; and Slaski, F., 1975, Semana Med. (4928), an. 82, v. 147 (23), 673-676
intestinal parasites, children, evaluation of mebendazole as possible broad spectrum anthelmintic
- Hymenolepis nana*
Rodrigues, L. D.; et al., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (1), 57-67
Strongyloides stercoralis and other human intestinal parasites, clinical trials with cambendazole
- Hymenolepis nana*
Roman, E., 1978, Bull. Soc. Sc. Vet. et Med. Comp. Lyon, v. 80 (3), 139-145
Taenia taeniaeformis, *Hymenolepis diminuta*, *H. nana*, normal parasites of rats, possibilities of transmission to humans and domestic animals: area of Lyon
- Hymenolepis nana*
Rusak, L. V., 1974, Parazitologiya, Leningrad, v. 8 (2), 109-111
Hymenolepis nana, young and adult worms, changes in localization in intestine of white mice in course of a day

- Hymenolepis nana*
Rusak, L. V.; and Kovchur, V. N., 1972, *Parazitologiya*, Leningrad, v. 6 (1), 85-87
Hymenolepis nana, glycogen content in parasite tissues decreased after treatment of infected mice with aminoacrichine, phenasal, or trichlorophen, implications for mechanism of drug action
- Hymenolepis nana*
Rusak, L. V.; and Usachev, V. P., 1973, *Parazitologiya*, Leningrad, v. 7 (2), 160-163
Hymenolepis nana, locomotor activity, effect of acetylcholine, adrenalin, serotonin, and histamine on speed of movement and detachment of worms from wall of isolated mouse intestine
- Hymenolepis nana*
Sano, M.; et al., 1977, *Internat. J. Zoonoses*, v. 4 (2), 111-115
Rattus (intestine): Shimizu ship-port, Shizuoka Prefecture, Japan
- Hymenolepis nana*
Singh, H.; et al., 1978, *Ztschr. Naturforsch., Sect. C, Biosc.*, v. 33 (5-6), 447-448
Hymenolepis nana, rats, mice, 2'-chloro-1-hydroxy-2-naphthanalide-4'-isothiocyanate, synthesis and cestodicidal activity, highly effective and safe, comparative efficacy with yomesan; further tests showed marked activity against *H. diminuta* in rats and *Taenia* sp. in dogs
- Hymenolepis nana*
Sinha, D. P., 1978, *Indian J. Exper. Biol.*, v. 16 (10), 1085-1088
Hymenolepis nana, cultivation in vitro, effect of sheep liver extract serially filtered in combination with Hanks' BSS or reconstituted after Sephadex column fractionation
- Hymenolepis nana*
Sinniah, B., 1979, *Southeast Asian J. Trop. Med. and Pub. Health*, v. 10 (1), 115-121
distribution and prevalence
Rattus annandalei
R. rattus diardii
all from Peninsular Malaysia
- Hymenolepis nana*, *illus.*
Solonenko, I. G., 1970, *Parazitologiya*, Leningrad, v. 4 (5), 476-479
Hymenolepis nana, rats experimentally infected with eggs, occurrence of migration to mesenteric lymph nodes (with development to young adults) and liver (cysticercoids found)
- Hymenolepis nana*
de Souza, D. W. C.; Souza, M. S. de L.; and Neves, J., 1973, *Rev. Inst. Med. Trop. S. Paulo*, v. 15 (1), 30-33
mixed infections, intestinal parasites, mebendazole
- Hymenolepis nana*, *illus.*
Specian, R. D.; et al., 1979, *J. Parasitol.*, v. 65 (4), 569-578
Hymenolepis spp., unicellular endocrine glands in scolex and anterior neck region, cytochemical and ultrastructural observations, muscle tissue implicated as target tissue, neurosecretory regulation postulated
- Hymenolepis nana*
Tetzlaff, R. D.; and Weir, W. D., 1978, *Lab. Animal Sc.*, v. 28 (3), 287-289
concurrent *Hymenolepis nana* and *Syphacia obvelata* infections in mice, uredofos and disodium salt of uredofos, determination of effective dose levels
- Hymenolepis nana*
Thomas, H.; and Goennert, R., 1977, *Ztschr. Parasitenk.*, v. 52 (2), 117-127
Hymenolepis nana and *H. microstoma* in mice, *H. diminuta* in rats, good results with praziquantel, in vivo mode of action (immobilization followed by paralysis)
- Hymenolepis nana*
Thomas, H.; and Goennert, R., 1978, *Ztschr. Parasitenk.*, v. 55 (2), 165-179
cestodes, praziquantel activity tested
- Hymenolepis nana*
Tinar, R.; and Burgu, A., 1978, *Vet. Fak. Dergisi, Ankara Univ.*, v. 25 (3), 366-371
Hymenolepis nana, mice, praziquantel orally and subcutaneously
- Hymenolepis nana*
Tsuji, M., 1975, *Kiseichugaku Zasshi* (Japan. *J. Parasitol.*), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Hymenolepis nana*, *illus.*
Van Ros, G., 1973, *Rev. Franc. Gastro-Enterol.* (89), 35-50
human intestinal helminths, differential diagnosis
- Hymenolepis nana*
Vinayak, V. K.; et al., 1978, *Indian J. Med. Research*, v. 67, 231-233
human intestinal parasites, Kato thick smear technique superior to Stoll's method for quantitative estimation and determination of severity of infection
- H[*ymenolepis*] *nana*
Yalcinkaya, F., 1976, *Turk Hijiy. ve Deneysel Biyol. Dergisi*, v. 35 (2-3), 1975, 101-106
helminths, human, thiabendazole
- Hymenolepis nana*
Young, K. H.; et al., 1979, *J. Clin. Microbiol.*, v. 10 (6), 852-853
parasites, ethyl acetate as satisfactory substitute solvent in formalin-ether sedimentation technique for fecal specimens
- Hymenolepis nana*
Zembrzuski, K.; and Dymowska, Z., 1977, *Przegl. Epidemiol.*, v. 31 (3), 345-349
human *Taenia* spp. and other cestodes, statistics of extensive epidemiologic survey, increasing incidence in Poland
- Hymenolepis nana*
Zychowicz, C.; Kostkiewicz, M.; and Kowalczyk, S., 1975, *Przegl. Epidemiol.*, v. 29 (2), 223-227
Hymenolepis nana, children and adult personnel of a state home for children successfully treated with yomesan after discovery that more than 57% of the children had tapeworm infections: Mragowo

- Hymenolepis nana* var. *fraterna*
Cavier, R.; and Notteghem, M. J., 1979, Ann. Pharm. Franc., v. 37 (1-2), 33-36
Hymenolepis nana var. *fraterna*, mice, comparative study of mebendazole and flubendazole
- Hymenolepis nana* var. *fraterna*, *illus.*
Pesson, B.; and Leger, N., 1978, Ann. Parasitol., v. 53 (2), 147-154
Hymenolepis nana var. *fraterna*, development of non-encapsulated cysticercoids in haemocoel of *Leucophaea maderae* after inhibition of haemocytic reaction by means of irradiation or injection of soluble antigen of *H. nana*, fine structure of tegument of free larvae in relation to mechanism of possible defense of parasite against host reaction
- Hymenolepis nana* var. *fraterna*, *illus.*
Pesson, B.; Leger, N.; and Bouchet, P., 1978, Ann. Parasitol., v. 53 (2), 155-161
Hymenolepis nana var. *fraterna*, cysticercoid development in haemocoels of *Tenebrio molitor* and *Leucophaea maderae* (both exper.), comparison of host haemocytic defense reactions and structure of parasite tegument
- Hymenolepis nyrocae* *Yamaguti*, 1935
Czaplinski, B., 1975, Acta Parasitol. Polon., v. 23 (26-40), 305-327
as syn. of *Wardoides nyrocae* var. *cygni* (*Yamaguti*, 1935) Spassky, 1962
- Hymenolepis odaensis* *Sawada*, 1967
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Myotolepis crimensis* (*Skarbilovich*, 1946) Spassky, 1954
- Hymenolepis olivieri* n. sp., *illus.*
Mikhail, J. W.; and Fahmy, M. A. M., [1977], Egypt. J. Vet. Sc., v. 13 (1), 1976, 69-75
Crocidura olivieri (small intestine): Kom-O-Shim, Faiyum Governorate, Egypt
- Hymenolepis paramicrosoma* *Gasowska*, 1931
Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos
A. crecca
(intestine of all): all from south-east England
- Hymenolepis parvula* *Kowalewski*, 1904
Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos (intestine): south-east England
- Hymenolepis parvula*
Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Hymenolepis parvus* *Sawada*, 1967
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Myotolepis crimensis* (*Skarbilovich*, 1946) Spassky, 1954
- Hymenolepis peromysci* *Tinkle*, 1972
Stallard, H. E.; and Arai, H. P., 1978, Canad. J. Zool., v. 56 (1), 90-93
Hymenolepis peromysci, growth and development of cysticercoids in *Tribolium confusum* (exper.) and of adult worms in *Mesocricetus auratus* (exper.)
- Hymenolepis philactes* *Schiller*, 1951
Maksimova, A. P., 1972, Parazitologiya, Leningrad, v. 6 (3), 283-290
as syn. of *Parabisaccanthes philactes* (*Schiller*, 1951)
- Hymenolepis pistillum* (*Dujardin*, 1845)
Mas-Coma, S.; and Feliu, C., 1977, Vie et Milieu, s. C, Biol. Terr., v. 27 (2), 231-241
Crocidura russula: Cataluna, Espana
- Hymenolepis pusilla*
Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Hymenolepis rashomonensis* *Sawada*, 1972
Sawada, I., 1978, Annot. Zool. Japon., v. 51 (3), 155-163
brief description
Rhinolophus ferrumequinum
R. f. mikadoi
(small intestine of all): all from Japan
- Hymenolepis recurvata*
Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Hymenolepis rugosa* var. *birmanica* *Meggitt*, 1924, *illus.*
Malviya, H. C.; and Dutt, S. C., 1971, Proc. National Acad. Sc., India, sec. B, v. 41 (4), 373-375
redescription
Columba livia intermedia: Bareilly
- Hymenolepis rugosa birmanica* *Meggitt*, 1924
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
as syn. of *Sobolevicanthus serratus birmanicus* (*Meggitt*)
- Hymenolepis scalaris* (*Dujardin*, 1845)
Mas-Coma, S.; and Feliu, C., 1977, Vie et Milieu, s. C, Biol. Terr., v. 27 (2), 231-241
Crocidura russula: Cataluna, Espana

- Hymenolepis schaldybini* (Spassky, 1947)
 Jourdane, J., 1975, Acta Parasitol. Polon., v. 23 (12-25), 247-251
Hymenolepis spp., differences in intermediate hosts in the Pyrenees, Poland, and Czechoslovakia
Panorpa communis: Pyrenees
- Hymenolepis scutigera* (Dujardin, 1845)
 Jourdane, J., 1975, Acta Parasitol. Polon., v. 23 (12-25), 247-251
Hymenolepis spp., differences in intermediate hosts in the Pyrenees, Poland, and Czechoslovakia
Paleopsylla soricis: Pyrenees
- Hymenolepis setigera*
 Enigk, K.; Dey-Hazra, A.; and Batke, J., 1975, Acta Parasitol. Polon., v. 23 (26-40), 367-372
 helminths of geese, treatment (Amidostomum anseris with mebendazol, fenbendazol, levamisol, and pyrantel tartrat; Trichostrongylus tenuis with mebendazol and fenbendazol; Drepanidotaenia lanceolata and *Hymenolepis setigera* with mebendazol)
- Hymenolepis solowiowi* Skrjabin, 1914
 Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Anas acuta
Aythya fuligula
 (intestine of all): all from south-east England
- Hymenolepis spinocirrosa*
 Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
 usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Hymenolepis spinulosa* Cholodkowsky, 1906
 Frank, C., 1977, Ang. Parasitol., v. 18 (4), 206-215
 Syn.: *Vigisolepis spinulosa* (Cholodkowsky, 1906)
Sorex araneus (Jejunum): Neusiedlerseegebiet (Burgenland/Osterreich)
- Hymenolepis spiralibursata* Czaplinski, 1956
 Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos (intestine): south-east England
- Hymenolepis spiralibursata*
 Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
 usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Hymenolepis straminea* (Goeze, 1782)
 Mas-Coma, S., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 139-154
Apodemus sylvaticus frumentariae (intestino): isla de Formentera (Balears)
- Hymenolepis stylosa*, illus.
 Gabrion, C.; and Verdier, J. M., 1978, Ann. Parasitol., v. 53 (2), 131-146
Hymenolepis stylosa, cysticeroid, ultrastructure compared with *H. diminuta*, great variation in tegumental structures between the two species
- Hymenolepis sulcata* (von Linstow, 1879), illus.
 Faivre, J. P.; and Vaucher, C., 1978, Bull. Soc. Neuchatel, Sc. Nat., 3. s., v. 101, 53-58
Hymenolepis sulcata from *Glis glis*, redescription, comparison with *H. myoxi*, host specificity of both: nord du Jura (Ajoie)
 Syn.: *Hymenolepis myoxi sensu* Janicki, 1906
- Hymenolepis sulcata* (von Linstow, 1879)
 Mas-Coma, S.; Feliu, C.; and Rey, J. M., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 579-584
 synonymy
Glis glis (intestino delgado): Espana
- Hymenolepis tenuirostris* (Rudolphi, 1819) Raillet, 1899
 Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos
Aythya marila
 (intestine of all): all from south-east England
- Hymenolepis tiara* (Dujardin, 1845)
 Mas-Coma, S.; and Feliu, C., 1977, Vie et Milieu, s. C, Biol. Terr., v. 27 (2), 231-241
Crocidura russula: Cataluna, Espana
- Hymenolepis tuvensis*
 Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
 usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Hymenolepis vogeeae* Singh, 1956, illus.
 Mikhail, J. W.; and Fahmy, M. A. M., [1977], Egypt. J. Vet. Sc., v. 13 (1), 1976, 63-67
 redescription including egg
Meriones libycus (small intestine): Wadi El Cil near Suez, and the Red Sea
- Hymenolepis yukonensis* (Schiller, 1954)
 Dau, C. P., 1978, Canad. J. Zool., v. 56 (8), 1882-1885
 helminths of *Somateria fischeri* (intestinal tracts), survey by host age and sex, seasonal fluctuations in parasite numbers: Yukon-Kuskokwim Delta, Alaska
- Hymenospheonacanthus caroli* (Parona, 1887)
 Rysavy, B.; and Macko, J. K., [1973], An. Inst. Biol., Univ. Nac. Mexico, v. 42 (1), s. Zool., 1971, 1-28
Phoenicopterus r. ruber (intestine): Playa Larga, Cienega de Zapata, province Las Villas, Cuba

- Ichthyobothrium* [?i.e., *Ichthyobothrium*] Khalil, 1971
Protasova, E. N., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 133-144
Ptychobothriidae, Ptychobothriinae
- Ichthyotaenia percae* (Mueller, 1780)
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of *Proteocephalus percae* (Mueller, 1780)
- Icterotaenia borealis* (Linstow, 1905) Baer, 1925
Saxena, S. K.; and Bauch, S. C., 1973, Ang. Parasitol., v. 14 (4), 236-245
as syn. of *Neoaporina borealis* (Linstow, 1905) [n. comb.]
- Idiogenes* sp.
Hodasi, J. K. M., 1976, Bull. Animal Health and Prod. Africa, v. 24 (1), 81-87
incidence and intensity
Numida meleagris galeata (upper small intestine, duodenum): markets of Ghana
- Idiogenes flagellum* (Goeze, 1782)
Spasskii, A. A., 1979, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (1), 67-70
Raillietina sphaeroides, morphological and ecological characters indicate that it belongs to *Idiogenidae* and *Idiogenes*; combination with *Idiogenes* not made by earlier authors because species can not be differentiated from *Idiogenes flagellum*
- Inermicapsifer madagascariensis* (Davaine, 1870), Baer, 1956
Hira, P. R., 1975, Ann. Soc. Belge Med. Trop., v. 55 (4), 321-326
Inermicapsifer madagascariensis, children, case reports, niclosamide, wild rodents as reservoir hosts
humans (feces).
Mastomys natalensis
Cricetomys gambianus
Rattus rattus
Tatera leucogaster
Aethomys chrysophilus
Otomys irroratus
Beamys major
Graphiurus murinus
all from Zambia
- Inermicapsifer madagascariensis*, illus.
Horstmann, R.; et al., 1978, Tropenmed. u. Parasitol., v. 29 (4), 406-408
Inermicapsifer madagascariensis, child (faeces), parasitological, epidemiological, and clinical findings: Nyanza, East Africa
- Insectivorolepis takaschii* Sawada, 1968
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Myotolepis crimensis* (Skarbilovich, 1946) Spassky, 1954
- Insectivorolepis yosidae* Sawada, 1967
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of *Myotolepis crimensis* (Skarbilovich, 1946) Spassky, 1954
- Isoglaridacris bulbocirrus*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Catostomus commersoni (intestine): Susquehanna River, Pennsylvania
- Isoglaridacris calentinei*
Edwards, S.; and Mueller, J. F., 1978, J. Parasitol., v. 64 (5), 877
various genera and species of *Caryophyllaeidae*, apparent absence of C-viruslike particles which are found in *Pseudophyllidea*
- Isoglaridacris folius*
Edwards, S.; and Mueller, J. F., 1978, J. Parasitol., v. 64 (5), 877
various genera and species of *Caryophyllaeidae*, apparent absence of C-viruslike particles which are found in *Pseudophyllidea*
- Isoglaridacris folius* Fredrickson & Ulmer 1967, illus.
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 401-409
key
- Isoglaridacris longus* Fredrickson & Ulmer 1967, illus.
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 401-409
key
- Isoglaridacris wisconsinensis* Williams, 1977, illus.
Williams, D. D., 1979, Iowa State J. Research, v. 53 (4), 305-310
Isoglaridacris wisconsinensis in *Hypentelium nigricans*, seasonal incidence, parasite maturation: Red Cedar River (southern Barron Co.), Wisconsin
- Janiszewskella fortobothria*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Carpiodes cyprinus (intestine): Susquehanna River, Pennsylvania
- Joyeuxiella* sp. or *Dipylidium* sp.
Edwards, G. T.; Hackett, F.; and Herbert, I. V., 1979, Brit. Vet. J., v. 135 (5), 433-439
fox: Snowdonia, U. K.
- Joyeuxiella chyzeri*
Tarazona, J. M., 1974, An. Inst. Nac. Invest. Agrar., s. Hig. y San. Animal (1), 161-165
Tarentola mauritanica: provincia de Huesca, Espana
- Joyeuxiella echinorhynchoides*
Martinez, F.; et al., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 207-211
Vulpes vulpes: provincia de Cordoba, Espana
- Joyeuxiella pasqualei*
Guralp, N.; et al., 1976, Vet. Med. Rev. (2), 129-133
tapeworms, dogs, cats, droncit
- Joyeuxiella pasqualei*
Guralp, N.; et al., 1976, Vet. Fak. Dergisi, Ankara Univ., v. 23 (1-2), 171-174
tapeworms, cats, droncit 100% effective
- Joyeuxiella pasqualei*
Martinez, F.; et al., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 207-211
Vulpes vulpes: provincia de Cordoba, Espana

- Kapsulotaenia Freze, 1963
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Proteocephalidae, Acanthotaeniinae
- Khawia sp.
Amin, O. M., 1978, J. Parasitol., v. 64 (1), 93-101
Barbus bynni (midgut): Nile River at Giza near Cairo, Egypt
- Khawia armeniaca (Cholodkowskiy, 1915), illus.
Begoian, Zh. T., 1977, Biol. Zhurnal Armenii, v. 30 (5), 79-84
Khawia armeniaca, morphogenesis in definitive host Varicorhinus capoeta sevangi: various areas of Sevan island
- Khawia iowensis Calentine & Ulmer 1961, illus.
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 401-409
key
- Khawia sinensis (Hsu, 1935), illus.
Bazitov, A. A., 1976, Zool. Zhurnal, v. 55 (12), 1779-1787
Caryophyllaeus laticeps, Khawia sinensis, morphology of parenchyma and subcuticular cell layer: lake Khanka
- Killigrewia delafondi (Railliet, 1892) n. comb.
Saxena, S. K.; and Bauch, S. C., 1973, Ang. Parasitol., v. 14 (4), 236-245
Syns.: Taenia delafondi Railliet, 1892; Aporina delafondi (Railliet, 1892) Baer, 1927
- Kowalewskiella bodkini (Vevers, 1923) Burt, 1969
Spasskii, A. A., 1979, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (1), 67-70
synonymy
- Kowalewskius parvulus (Kowalewski, 1904)
Noseworthy, S. M.; and Threlfall, W., 1978, J. Parasitol., v. 64 (2), 365-367
Aythya collaris (duodenum, small intestine, large intestine): Canada
- Lacistorhynchus tenuis
Kilejian, A.; and MacInnis, A. J., 1976, Rice Univ. Studies, v. 62 (4), 161-174
12 helminth species, DNA buoyant density and base composition, analysis of satellite DNAs of Hymenolepis spp., satellite DNA and chromosome diminution in Ascaris lumbricoides
- Lacistorhynchus tenuis
McDaniel, J. S.; MacInnis, A. J.; and Read, C. P., 1976, Rice Univ. Studies, v. 62 (4), 205-209
flatworms (free-living, symbiotic, parasitic), effects of carbon dioxide on glucose incorporation, results suggest that rates of glycogen synthesis in some flatworms vary with level of available carbon dioxide in the environment
- Lacistorhynchus tenuis
Pappas, P. W., 1978, Ohio J. Sc., v. 78 (3), 152-153
Lacistorhynchus tenuis, inability to utilize CO₂ produced by urease during urea catabolism
- Lallum Johri, 1960
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
as syn. of Cloacotaenia Wolffhuegel, 1938
- Lallum magniparuterina Johri, 1960
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
Lallum magniparuterina, aberrant example of Cloacotaenia megalops
- Lateriporus clerci (Johnston, 1912)
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 153-161
Larus argentatus: lower Enisei
L. canus: lower Enisei
Sterna paradisea: lower Enisei
Chlidonias leucoptera: lower Enisei
Rissa tridactyla: lower Chukotka
Sterna hirundo: lower Chukotka
- Lateriporus clerci (Johnston, 1912) Fuhrmann, 1952, illus.
Shapkin, V. A.; and Guliaev, V. D., 1973, Parazitologiya, Leningrad, v. 7 (6), 509-512
Lateriporus spp. from Gammarus lacustris, description of strobilocysts: Cheliabinsk oblast
- Lateriporus geographicus Cooper, 1921, illus.
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 153-161
description
Sterna paradisea
Stercorarius longicaudatus
all from lower Enisei
- Lateriporus mahdiaensis Joyeux, 1923
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young) [Nycticorax nycticorax] (intestine): Black Sea preserve, Kherson oblast
- Lateriporus skrjabini
Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of Aythya affinis (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Lateriporus skrjabini Mathevossian, 1946, illus.
Shapkin, V. A.; and Guliaev, V. D., 1973, Parazitologiya, Leningrad, v. 7 (6), 509-512
Lateriporus spp. from Gammarus lacustris, description of strobilocysts: Cheliabinsk oblast
- Lateriporus teres (Krabbe, 1869) Fuhrmann, 1907
Dau, C. P., 1978, Canad. J. Zool., v. 56 (8), 1882-1885
helminths of Somateria fischeri (intestinal tracts), survey by host age and sex, seasonal fluctuations in parasite numbers: Yukon-Kuskokwim Delta, Alaska

- Lateriporus teres* (Krabbe, 1869), *illus.*
Shapkin, V. A.; and Guliaev, V. D., 1973, *Parazitologiya*, Leningrad, v. 7 (6), 509-512
Lateriporus spp. from *Gammarus lacustris*, description of strobilocysts: Cheliabinsk oblast
- Lateriporus teres* (Krabbe, 1869), *illus.*
Tolkacheva, L. M., 1971, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 21, 99-110
description of strobilocyst
Larus ridibundus
Revulogammarus lacustris
all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Lateroporidea*
Shinde, G. B.; and Chincholikar, L. N., [1978], *Riv. Parassitol.*, Roma, v. 38 (2-3), 1977, 171-175
"the order *Lateroporidea* should be accepted in which two families (*Biporophyllidae* and *Monoporophyllaeidae*) are included as suggested by Subhpradha"
- Laterorchites* (Fuhrmann, 1932) *emend.*
Rysavy, B.; and Macko, J. K., [1973], *An. Inst. Biol., Univ. Nac. Mexico*, v. 42 (1), s. Zool., 1971, 1-28
Amabiliidae, generic diagnosis
- Laterorchites bilateralis* Fuhrmann, 1908, *illus.*
Rysavy, B.; and Macko, J. K., [1973], *An. Inst. Biol., Univ. Nac. Mexico*, v. 42 (1), s. Zool., 1971, 1-28
synonymy, description
Podiceps d. dominicus (intestine): Laguna Jaguey, La Gloria, Guanahacabibes, province Pinar del Rio, Cuba
- Laterorchites rajasthanensis* n. sp., *illus.*
Mukherjee, R. P., 1970, *Rec. Zool. Surv. India*, v. 62 (3-4), 1964, 191-215
key
Falco jugger (intestine): Barmer city, Rajasthan, India
- Laterorchites rajasthanensis* Mukherjee, 1970
Spasskii, A. A., 1978, *Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk* (3), 88-89
belongs to genus *Cladotaenia*, *Paruterinidae*, more description needed, species inquirenda
- Laterotaenia* Fuhrmann, 1906
Spasskii, A. A., 1977, *Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk* (5), 65-70
Paruterininae
- Leptotaenia ischnorhyncha* (Luehe, 1898)
Rysavy, B.; and Macko, J. K., [1973], *An. Inst. Biol., Univ. Nac. Mexico*, v. 42 (1), s. Zool., 1971, 1-28
Phenicopterus r. ruber (intestine): Playa Larga, Cienaga de Zapata, province Las Villas, Cuba
- [*Ligula*] *ligulosis*
Tsolov, B.; and Ivanov, P., 1977, *Vet. Sbirka*, v. 75 (1), 32-33
[*Ligula*], fish, general review
- Ligula* sp.
Chernyshenko, A. S., 1966, *Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria*, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition
[*Pisces*] *bychok-pomatoshistus*: 4 estuaries, Black Sea (northern coastal region)
- Ligula colymbi*
Ginetsinskaia, T. A.; et al., 1971, *Parazitologiya*, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Ligula intestinalis* Linne, 1758
Ashurova, M., 1973, *Parazitologiya*, Leningrad, v. 7 (2), 164-168
Schizopygopsis stoliczkai: Sarez Lake, central Pamir

all from Kremenchugsk reservoir
- Ligula intestinalis*, *illus.*
Baron, P. J.; and Appleton, T., 1977, *Ztschr. Parasitenk.*, v. 53 (2), 239-246
Ligula intestinalis, aging plerocercoid probably about 10 years old in *Abramis brama*, light and electron microscopy of strobila, calcification of tissue with microcrystals similar to microapatite crystals in vertebrate bone; chemical analysis; mineral deposits possibly arise from host metabolic process: Layer Pit, Essex
- Ligula intestinalis*
Beverley-Burton, M., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 195-200
Gavia immer: south-east England
- Ligula intestinalis*
Chernyshenko, A. S., 1966, *Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria*, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition: 4 estuaries, Black Sea (northern coastal region)
- Ligula intestinalis*
Davydov, O. N.; and Kosenko, L. Ia., 1972, *Parazitologiya*, Leningrad, v. 6 (3), 269-273
Ligula intestinalis, amylase in surface layer of plerocercoids and in media in which they were maintained, findings suggest capability of membrane (contact) digestion and absorption of food from host
- Ligula intestinalis*, *illus.*
Frank, C., 1976, *Acta Vet. Brno*, v. 45 (4), 263-270
Gavia immer (small intestine, end of duodenum to rectum)
Podiceps cristatus (small intestine)
P. nigricollis (small intestine)
Blicca bjorkna (abdominal cavity)
Botaurus stellaris (exper.)
all from south-eastern "Seewinkel", Burgenland

- Ligula intestinalis*
Guttowa, A.; and Moczon, T., 1974, Acta Parasitol. Polon., v. 22 (1-11), 1-7
Diphyllobothrium latum, *Ligula intestinalis*, *Trienophorus nodulosus*, coracidia, oxidoreductase histochemistry
- Ligula intestinalis*
Iskov, M. P., 1979, Hidrobiol. Zhurnal, v. 15 (4), 68-72
parasites causing intensive epizootic disease of food fishes: Kremenchug reservoir
- Ligula intestinalis* (Linne)
Iziomova, N. A.; Mashtakov, A. V.; and Timoshechkina, L. G., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 71-76
[*Abramis brama*]: Upper Kama
- Ligula intestinalis*
Jakutowicz, K.; and Korpaczewska, W., 1979, Bull. Acad. Polon. Sc., Cl. II, s. Sc. Biol., v. 27 (1), 69-70
6 tapeworms and *Fasciola hepatica*, determination of Cu concentration, atomic absorption spectrometry
Podiceps cristatus (small intestine): bird reserve Stawy Milickie
Abramis brama
- Ligula intestinalis*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Phoxinus phoxinus: Kol'skii peninsula, USSR
- Ligula intestinalis*
Koerting, W.; and Barrett, J., 1978, Ztschr. Parasitenk., v. 57 (3), 243-246
Ligula intestinalis, no evidence for functional β -oxidation sequence in plerocercoids
- Ligula intestinalis* (Goeze, 1782) Gmelin, 1790, illus.
Lamothe-Argumedo, R.; and Cruz-Reyes, A., 1972, Rev. Soc. Mexicana Hist. Nat., v. 33, 99-106
redescription, pathogenicity especially in small fish
Lermichthys multiradiatus (cavidad celomica): Cienaga de Lerma, Estado de Mexico
- Ligula intestinalis* (Linne, 1758)
Leonov, V. A., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 29-37
degree of infection by host age (adult/young) [*Ardea cinerea*] (intestine): Black Sea preserve, Kherson oblast
- Ligula intestinalis*
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
[*Rutilus rutilus*]
[*Leuciscus idus*]
all from Neman river basin
- Ligula intestinalis*
Mahon, R., 1976, Canad. J. Zool., v. 54 (12), 2227-2229
Ligula intestinalis-infected *Notropis hudsonius*, parasitism results in sterilization, poor condition, and small size, infected fish mainly over 1 year of age: south shore of Long Point, Lake Erie
- Ligula intestinalis*
Matskasi, I.; and Nemeth, I., 1979, Internat. J. Parasitol., v. 9 (3), 221-227
Ligula intestinalis, plerocercoid larvae, properties of proteolytic and protease-inhibitor activities
- Ligula intestinalis*
Moczon, T.; and Guttowa, A., 1974, Acta Parasitol. Polon., v. 22 (1-11), 9-14
Diphyllobothrium latum, *Ligula intestinalis*, *Trienophorus nodulosus*, proceroids, oxidoreductase histochemistry
- Ligula intestinalis* (Linnaeus, 1758)
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Abramis brama: Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Ligula intestinalis* (L., 1758)
Nedeva-Menkova, I., 1977, Khel'mintologiya, Sofiia, v. 4, 34-39
Rutilus rutilus
Alburnus alburnus
(body cavity of all): all from Shiposhnitsa river, vicinity of Novo selo, Sofiiski okrug
- Ligula intestinalis*
Otvodova, G. D., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Koziastva, Leningrad, v. 93, 112-116
[*Abramis brama*] (body cavity): Pskov-Chudskoe lake
- Ligula intestinalis* (Linnaeus, 1758)
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
synonymy
Vimba vimba
Abramis brama
Blicca bjoerana
(body cavity of all): all from Gdansk Bay (Baltic Sea)
- Ligula intestinalis*
Strazhnik, L. V.; and Davydov, O. N., 1975, Parazitologiya, Leningrad, v. 9 (1), 37-46
3 spp. of fish cestodes, glycogen content of parasites and host tissues, seasonal changes in glycogen content of parasites; effect of experimental exposure to various temperatures on parasite glycogen content, motor activity, and duration of life; effect of starvation on glycogen content of parasite and host in aquariums at various temperatures
- Ligula intestinalis*
Sweeting, R. A., 1976, J. Fish Biol., v. 9 (6), 515-522
Ligula intestinalis, effect on *Rutilus rutilus* population in gravel pit, fall in number of parasitized roach due to predation by other fish, parasitized roach failed to become sexually mature but their actual growth rate was not markedly reduced, plerocercoids grew more rapidly during summer, roach less than 9 months of age should not be introduced into confined waters: southern England
- Ligula intestinalis* L.
Vysotskaia, R. U.; and Sidorov, V. S., 1973, Parazitologiya, Leningrad, v. 7 (1), 51-57
8 helminth species from freshwater fish, lipid content, variation with respect to parasite maturity, host species and habitat, and season
- Ligula intestinalis* (Linnaeus, 1758)
Wierzbicki, K., 1970, Acta Parasitol. Polon., v. 18 (1-12), 45-55
Perca fluviatilis: Lake Dargin, Mazurian Lakeland, Poland

- Ligula monogramma* Creplin, 1839
Rokicki, J., 1975, Acta Parasitol. Polon.,
v. 23 (1-11), 37-84
as syn. of *L. intestinalis* (Linnaeus, 1758)
- Ligula pavlovskii*
Chernyshenko, A. S., 1966, Respublik. Mezhved-
domstv. Sborn., Akad. Nauk Ukrain. SSR, s.
Biol. Moria, 105-113
ichthyoparasite fauna, extensity and inten-
sity of invasion, species composition: 4
estuaries, Black Sea (northern coastal re-
gion)
- Ligula piscium* Bloch, 1782
Rokicki, J., 1975, Acta Parasitol. Polon.,
v. 23 (1-11), 37-84
as syn. of *L. intestinalis* (Linnaeus, 1758)

- Mesocestoides [sp.]
Mankau, S. K.; and Widmer, E. A., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (4), 256-259
Mesocestoides tetrathyridia, reptiles, prevalence, histopathology
Coleonyx variegatus
Callisaurus draconoides
Dipsosaurus dorsalis
Phrynosoma m'calli
P. platyrhinos
Uma inornata
U. notata
U. scoparia
Uta stansburiana
Urosaurus graciosus
Cnemidophorus tigris
Crotalus ruber (nat. and exper.) (mesenteries, liver)
C. viridis
C. viridis helleri (exper.) (mesenteries)
all from southern California
- Mesocestoides sp.
Pence, D. B.; and Willis, K. D., 1978, J. Parasitol., v. 64 (3), 568-569
Bassariscus astutus (small intestine): west Texas
- Mesocestoides sp., illus.
Todd, K. S., jr.; and Schmidt, J. M., 1978, Canine Pract., Santa Barbara, v. 5 (1), 39-41
Dipylidium caninum, Taenia sp., Mesocestoides sp., dogs, differential diagnosis
- Mesocestoides corti
Baldwin, J. L.; Berntzen, A. K.; and Brown, B. W., 1978, Exper. Parasitol., v. 44 (2), 190-196
Mesocestoides corti, cation concentration in calcareous corpuscles of tetrathyridia grown in vitro
- Mesocestoides corti
Bennet, E. M.; Behm, C.; and Bryant, C., 1978, Internat. J. Parasitol., v. 8 (6), 463-466
Mesocestoides corti, mice (infected, injected with dead larvae previous to infection, or irradiated), effects of mebendazole and levamisole alone or together on tetrathyridia, concluded that anthelmintic efficacy of mebendazole depends on its anthelmintic activity supplemented by host's immune response and that levamisole stimulates the latter
- Mesocestoides corti
Chapman, C. B.; et al., 1979, Austral. J. Exper. Biol. and Med. Sc., v. 57 (4), 369-387
chronic parasitic infections in mice, IgG₁ hypergammaglobulinaemia, daily rate and location of production of IgG₁, T cell dependence of response
- Mesocestoides corti
Chapman, C. B.; et al., 1979, Austral. J. Exper. Biol. and Med. Sc., v. 57 (4), 389-400
Mesocestoides corti, Nematospiroides dubius, mice, IgG₁ hypergammaglobulinaemia, evidence that response reflects chronicity of antigen exposure
- Mesocestoides corti Hoeppli, 1925, illus.
Hess, E.; and Guggenheim, R., 1977, Ztschr. Parasitenk., v. 53 (2), 189-199
Mesocestoides corti tetrathyridium, microtriches and sensory processes on surface, transmission and scanning electron microscopy, microtriches may have roles in tissue penetration and food uptake
- Mesocestoides corti
Johnson, G. R.; et al., 1979, Internat. Arch. Allergy and Applied Immunol., v. 59 (3), 315-322
Mesocestoides corti, peritoneal cell population of infected mice as source of eosinophils, T cell dependence of peritoneal eosinophilia
- Mesocestoides corti
MacKenzie, M. R.; Warner, N. L.; and Mitchell, G. F., 1978, J. Immunol., v. 120 (5), 1493-1496
binding of immunoglobulins from Taenia taeniiformis and Mesocestoides corti-infected mice to staphylococcal protein A
- Mesocestoides corti
Mitchell, G. F.; et al., 1979, Austral. J. Exper. Biol. and Med. Sc., v. 57 (3), 287-302
Mesocestoides corti, mice, development of sensitive and specific prototype immunodiagnostic reagent based on use of an anti-parasite hybridoma antibody
- Mesocestoides corti
Nieder Korn, J. Y., 1978, J. Parasitol., v. 64 (2), 253-256
Mesocestoides corti, in vitro antiparasitic effects of intestinal extracts from mice subcutaneously vaccinated with live tetrathyridia not observed with intestinal extracts from previously orally infected or control mice, tetrathyridia pretreated with mouse serum from subcutaneously vaccinated mice were killed by incubation in intestinal extracts from untreated donor mice
- Mesocestoides corti
Nieder Korn, J. Y., 1978, J. Parasitol., v. 64 (4), 763-764
Mesocestoides corti, fluorescent antibody studies of sera and intestinal extracts of mice subcutaneously vaccinated with tetrathyridia, results favor hypothesis that intestinal immunity against tetrathyridia is antibody-mediated to some degree
- Mesocestoides corti
Novak, M., 1979, Internat. J. Parasitol., v. 9 (5), 429-433
Mesocestoides corti in mice of both sexes, effect of environmental temperature on intra-peritoneal tetrathyridial populations and on liver weight and infection
- Mesocestoides corti
Pence, D. B.; and Meinzer, W. P., 1979, Internat. J. Parasitol., v. 9 (4), 339-344
helminth fauna of Canis latrans, low similarity with those from other geographic regions in North America, associations between pairs of species in terms of frequency of occurrence, mean levels of infection in presence or absence of other species, host age and sex effects
Canis latrans (intestine): West Texas
- Mesocestoides corti, illus.
Pollacco, S.; et al., 1978, Internat. J. Parasitol., v. 8 (6), 457-462
Mesocestoides corti, collagenous encapsulation of tetrathyridia in mouse liver, probably restricts parasite's multiplication, is a T-cell dependent process

- Mesocestoides corti*
Sakamoto, T., 1977, Vet.-Med. Nachr. (1), 64-74
adult tapeworms, dogs, cats, droncit, drug efficacy at various doses
- Mesocestoides corti*
Sakamoto, T., 1977, Vet.-Med. Nachr. (2), 153-162
Cysticercus fasciolaris, *Mesocestoides corti*, *Echinococcus multilocularis*, laboratory mice and rats, praziquantel, evaluation of activity against larval stages
- Mesocestoides corti*
Sakamoto, T., 1977, Vet. Med. Rev. (1), 64-74
adult tapeworms in cats or dogs, praziquantel highly effective, dosage range
- Mesocestoides corti*, *illus.*
Sakamoto, T.; et al., 1979, Bull. Fac. Agric. Kagoshima Univ. (29), 81-87
cestodes, dogs, praziquantel
- Mesocestoides corti*, *illus.*
Schmidt, J. M.; and Todd, K. S., 1978, Am. J. Vet. Research, v. 39 (9), 1490-1493
Mesocestoides corti, life cycle in *Canis familiaris*
- Mesocestoides corti* Hoeppli 1925
Sogandares-Bernal, F.; and Voge, M., 1978, J. Parasitol., v. 64 (4), 620-624
Mesocestoides corti from infected mice or maintained in culture medium and then exposed to immune mouse serum, 7S₂ antibodies found attached to body surfaces and wall of excretory bladder of tetrathyridia
- Mesocestoides corti*
Stone, J. E.; and Pence, D. B., 1978, J. Parasitol., v. 64 (2), 295-302
helminth parasitism of *Felis rufus*, nature, prevalence, intensity, ecological relationships of parasitism including concentration of dominance, similarity of helminth faunas between different geographic areas, and nature of distributions of aggregations of helminth species in this host
Felis rufus (small intestine): Rolling Plains of West Texas
- Mesocestoides corti*
Thomas, H.; and Goennert, R., 1978, Research Vet. Sc., v. 24 (1), 20-25
cestodes of cats, dogs, and sheep, praziquantel highly effective in one oral or subcutaneous dose
- Mesocestoides corti*
Thomas, H.; and Goennert, R., 1978, Ztschr. Parasitenk., v. 55 (2), 165-179
cestodes, praziquantel activity tested
- Mesocestoides corti*
Thompson, R. C. A.; and Penhale, W. J., 1978, Ztschr. Parasitenk., v. 56 (2), 195-203
Mesocestoides corti tetrathyridia, mice given BCG, either enhancement or inhibition of parasite proliferation, depending upon BHC dosage level and time interval between dosage and parasite challenge, possible reasons for both effects
- Mesocestoides corti*
Todd, K. S., jr., 1978, Vet. Med. and Small Animal Clin., v. 73 (4), 453-454
Mesocestoides corti, dogs (exper.), albendazole completely effective in removing adults
- Mesocestoides corti*
Todd, K. S., jr.; Howland, T. P.; and Woerpel, R. W., 1978, Am. J. Vet. Research, v. 39 (2), 315-316
Mesocestoides corti, dogs (exper.), bunamidine hydrochloride and uredofos (good results), arecoline hydrobromide and niclosamide (variable results)
- Mesocestoides corti*, *illus.*
Todd, K. S., jr.; Simon, J.; and Dipietro, J. A., 1978, Lab. Animals, v. 12 (2), 51-53
Mesocestoides corti, tetrathyridia, mice, sequential pathologic changes
- Mesocestoides corti*, *illus.*
Voge, M.; Sogandares-Bernal, F.; and Martin, J. H., 1979, J. Parasitol., v. 65 (4), 562-567
Mesocestoides corti tetrathyridia, tegument, scanning and transmission electron microscopy
- Mesocestoides lineatus* (Goeze, 1782)
Ianchev, I.; and Ridzhakov, N., 1977, Khel'mintologia, Sofiia, v. 4, 73-96
Vulpes vulpes crucigera (small intestine): Northwestern Bulgaria
- Mesocestoides lineatus* (Goeze, 1782)
Iushkov, V. Iu., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 232-248
Mustela erminea
Alopex lagopus
(small intestine of all): all from Komi ASSR
- Mesocestoides lineatus*, *illus.*
Morisita, T.; et al., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (6), 353-356
Mesocestoides lineatus, human, 60-year-old man, case report, source of infection probably from eating raw blood and liver of snake: Nagoya City, Japan
- Mesocestoides lineatus* (Goeze, 1782)
Trinkler, O. K., 1960, Uchen. Zapiski Gor'kovsk. Gosudarstv. Pedagog. Inst. im. M. Gor'kii, v. 27, 102-107
Clethrionomys glareolus (body cavity): Puchezhsk region, Ivanovsk oblast
- Mesocestoides litteratus* Batsch, 1786
Bicik, V.; and Lysek, H., 1970, Acta Parasitol. Polon., v. 18 (1-12), 99-105
Mesocestoides litteratus, *Taenia pisiformis*, cat, tapeworm infection apparently had detrimental effect on host's space discrimination of acoustic signals, marked improvement after anthelmintic treatment, results indicate significant unfavorable influence of cestodiasis on function of central nervous system
- Mesocestoides litteratus*
Martinez, F.; et al., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 207-211
Vulpes vulpes: provincia de Cordoba, Espana

- Mesocestoides litteratus
Tarazona, J. M., 1974, An. Inst. Nac. Invest. Agrar., s. Hig. y San. Animal (1), 161-165
Vulpes vulpes: provincia de Huesca, Espana
- Mesocestoides paucitesticulus Sawada, 1973, illus.
Kugi, G., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (1), 25-27
Vulpes vulpes japonica (small intestine): Oita Prefecture, Japan
- Mesocestoididea, new order
Wardle, R. A.; McLeod, J. A.; and Radinovskiy, S., 1974, Advances in the zoology of tapeworms, 1950-1970, rev. of Wardle, R. A.; and McLeod, J. A., [1952 a], 274 pp., illus.
- Metadavainea sp.
Kamara, J. A., 1975, Bull. Animal Health and Prod. Africa, v. 23 (3), 265-268
Manis tricuspis: Sierra Leone
- Metroliasthes Ransom, 1900
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
Syn.: Hexaparuterina Palacios et Barroeta, 1967
- Metroliasthes lucida
Jackson, J. W.; Andrews, R. D.; and Ridgeway, B. T., 1977, Tr. Illinois State Acad. Sc., v. 69 (4), 455-460
Meleagris gallopavo silvestris (alimentary tract): Illinois
- Microsomacanthus fausti (Tseng-Shen, 1932) Lopez-Neyra, 1942, illus.
Brglez, J., 1974, Zborn. Bioteh. Fak. Univ. Ljubljani, Vet., v. 11 (1-2), 177-186
Anas crecca: Slovenia
- Microsomacanthus fausti (Tseng, 1932)
Noseworthy, S. M.; and Threlfall, W., 1978, J. Parasitol., v. 64 (2), 365-367
Aythya collaris (gizzard, duodenum, small intestine, ceca, large intestine): Canada
- Microsomacanthus fausti (Tseng-Shen, 1932), illus.
Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 99-110
morphology
Anas platyrhynchos
Aythya fuligula
Diaptomus graciloides
Cyclops strenuus
Revulogammarus lacustris
all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Microsomacanthus lari Belogurov et Kulokov, 1966
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 153-161
Rissa tridactyla: lower Chukotka
- Microsomacanthus paramicrosoma
Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
Arctodiaptomus bacillifer
Metadiaptomus asiaticus
Acanthodiaptomus denticornis
all from Kazakhstan
- Microsomacanthus paramicrosoma (Gasowska, 1931), illus.
Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 99-110
description of cysticeroid
Anas platyrhynchos
Diaptomus graciloides
all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Microsomacanthus parvula
Vasilev, I.; Denev, I.; and Kostov, R., 1977, Vet.-Med. Nachr. (2), 149-152
cestodes of poultry, droncit, highly effective
- Milina grisea Beneden, 1873
Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
as syn. of Myotolepis crimensis (Skarbilovich, 1946) Spassky, 1954
- Moniezia
Blanco, C.; and Aznar, E., 1977, Rev. Cubana Cien. Vet., v. 8 (1), 37-46
parasites and other agents, diarrhea, calves, clinical aspects, etiology: Cuba
- Moniezia
Borgsteede, F. H. M., 1977, Tijdschr. Diergeneesk., v. 102 (14), 801-804
gastro-intestinal helminths, calves, field trials with oxfendazole
- Moniezia
Cruthers, L. R.; et al., 1978, Experientia, v. 34 (12), 1574
variety of nematodes, cestode, and trematode species in domestic animals, orally active benzimidazole anthelmintics discovered to be active by injection also
- Moniezia
Kumar, V.; et al., 1978, Acta Zool. et Path. Antverpiensia (70), 221-225
helminthiasis in wild mammals and birds of zoological gardens, need for control through preventive and chemotherapeutic measures; summary of observations on use of mebendazole in mammals and birds and of methyridine in pheasants: Antwerp Zoo
- [Moniezia] moniezii
Lipnitskii, S. S.; and Iakubovskii, M. V., 1975, Vet. Nauka--Proizvod., Trudy, Minsk, v. 13, 143-147
helminths, protozoa, cattle, influence of micro-elements in host diet on infectivity
- Moniezia
Wescott, R. B.; et al., 1979, Am. J. Vet. Research, v. 40 (3), 369-371
cattle parasites, efficacy of albendazole in controlled and field trials: Washington
- Moniezia
Wescott, R. B.; Shelton, T. A.; and Gates, N. L., 1979, West. Veterinarian, v. 17 (2), 22-23
gastrointestinal nematodes and cestodes, sheep, 3 field trials with oxfendazole, effective; no apparent effect on coccidial oocysts

- Moniezia*
 Yazwinski, T. A.; and Brown, A. H., 1979, *Vet. Med. and Small Animal Clin.*, v. 74 (8), 1156-1158, 1160
 intestinal parasites, bulls, levels of infection, variation of growth performance factors in relation to levels of eggs per gram of feces, regression analysis: Arkansas
- Moniezia* sp.
 Alaimo, R. J.; et al., 1978, *J. Med. Chem.*, v. 21 (3), 298-300
 furodazole, anthelmintic trials with experimental animals, bunamidine and niclosamide used as reference drugs
- Moniezia* sp.
 Bezubik, B.; Sinski, E.; and Swietlikowski, M., 1970, *Acta Parasitol. Polon.*, v. 18 (27-41), 441-451
 gastrointestinal nematodes, *Strongyloides papillosus*, *Dictyocaulus filaria*, *Moniezia* sp., seasonal dynamics in different age classes of sheep in relation to nilverm treatment
- Moniezia* sp.
 Bezubik, B.; Stankiewicz, M.; and Chomicz, L., 1970, *Acta Parasitol. Polon.*, v. 18 (13-26), 299-303
 coproscopic examination of sheep, extensiveness of helminth infection in different host age groups and in different seasons of year, results compared with previously published post-mortem examinations of sheep in same area: Carpathian Mountains
- Moniezia* sp.
 Bezubik, B.; Stankiewicz, M.; and Sinski, E., 1974, *Acta Parasitol. Polon.*, v. 22 (35-44), 441-446
 helminths, sheep, coproscopical examinations, comparison with earlier post-mortem studies, host age and sex: Olecko and Kumielsk, Poland
- Moniezia* spp.
 Borgsteede, F. H. M.; and Kloosterman, A., 1977, *Tijdschr. Diergeneesk.*, v. 102 (24), 1428-1436
 bovine gastrointestinal helminths, infestation of cattle on pasture in relation to time of mowing, yearly cycle of larvae on grassland, epidemiology reviewed, prophylactic measures: Netherlands
- Moniezia* sp.
 Byman, D.; et al., 1977, *Canad. J. Zool.*, v. 55 (2), 376-380
Canis lupus (feces): northeastern Minnesota
- Moniezia* sp.
 Chandrasekharan, K.; Sundaram, R. K.; and Peter, C. T., 1973, *Kerala J. Vet. Sc.*, v. 4 (1), 59-62
 gastrointestinal helminths, calves and kids, morantel tartrate
- Moniezia* sp.
 Corba, J.; et al., 1977, *Veterinarstvi*, v. 27 (11), 516-517
Moniezia sp., sheep, Taeniafugin treatment
- Moniezia* spp.
 Corba, J.; et al., 1979, *Brit. Vet. J.*, v. 135 (4), 318-323
 helminths of sheep and cattle, efficacy of fenbendazole
- Moniezia* [sp.]
 Delavenay, R. P., 1978, *Rev. Elevage et Med. Vet. Pays Trop.*, n. s., v. 31 (2), 171-177
 parasites of *Camelus dromedarius*, nitroxylin, well tolerated in toxicity assay, very effective against *Cephalopina titillator* and *Haemonchus contortus*: Ethiopia
- Moniezia* sp.
 Diaz, L.; Rioseco, H.; and Cubillos, V., 1977, *Bol. Chileno Parasitol.*, v. 32 (3-4), 86-89
 survey of endoparasites of wild cervids
Hippocamelus bisulcus (muestras fecales): sur de Chile
- Moniezia* spp.
 Kalita, C. C.; Gautam, O. P.; and Banerjee, D. P., 1978, *Indian Vet. J.*, v. 55 (8), 660-662
Haemonchus spp., sheep, fenbendazole, good results, ineffective against *Trichuris* spp. and *Moniezia* spp.: India
- Moniezia* spp.
 Kistner, T. P.; et al., 1979, *Vet. Parasitol.*, v. 5 (2-3), 195-204
 gastrointestinal and lungworm helminths, sheep, oxfendazole, dose titration study
- Moniezia* spp.
 Lyons, E. T.; Drudge, J. H.; and Tolliver, S. C., 1978, *Vet. Med. and Small Animal Clin.*, v. 73 (7), 921-923
Dictyocaulus viviparus and gastro-intestinal nematodes, calves, cambendazole paste, controlled test, drug efficacy, some activity against *Moniezia* spp., no toxicosis: Kentucky
- Moniezia* spp.
 Pfister, K., 1978, *Schweiz. Arch. Tierh.*, v. 120 (2), 89-99
 gastro-intestinal strongyles in lambs free of or also infected with *Moniezia* spp., thia-bendazole administered periodically, changes in daily weight gain
- Moniezia* sp.
 Schroeder, J., 1979, *J. South African Vet. Ass.*, v. 50 (1), 23-27
 helminths, calves, seasonal incidence: Northern Transvaal Bushveld, South Africa
- Moniezia* spp.
 Selim, M. K.; et al., 1970, *Vet. Med. J.*, Giza, v. 17 (18), 173-193
 sheep
 camels
 all imported to United Arab Republic
- Moniezia* spp.
 Thomas, H.; and Goennert, R., 1978, *Research Vet. Sc.*, v. 24 (1), 20-25
 cestodes of cats, dogs, and sheep, prazi-quantel highly effective in one oral or subcutaneous dose
- Moniezia* sp.
 Ward, J. K.; Ferguson, D. L.; and Parkhurst, A. M., 1979, *J. Animal Sc.*, v. 49 (2), 306-309
 gastrointestinal parasites, beef cows (feces), level of infection, effect of animal age and season of year: Mead, Nebraska
- Moniezia* sp.
 Williams, J. C.; Sheehan, D.; and Fuselier, R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 129-131
 gastrointestinal parasites, cattle, oxibendazole, controlled test

- Moniezia autumnalia*
Bankov, D., 1976, Vet. Med. Nauki, v. 13 (10), 28-36
cestodes of sheep, drug trials; *Stilesia globipunctata*, tested several diagnostic methods with unfavorable results
- Moniezia benedeni*
Bankov, D., 1976, Vet. Med. Nauki, v. 13 (10), 28-36
cestodes of sheep, drug trials; *Stilesia globipunctata*, tested several diagnostic methods with unfavorable results
- Moniezia benedeni, illus.*
Brust, M. B., 1974, Bol. Inst. Biol., Bahia, v. 13 (1), 138-145
cattle: State of Bahia, Brazil
- Moniezia benedeni*
Ciordia, H.; McCampbell, H. C.; and Stuedemann, J. A., 1978, Am. J. Vet. Research, v. 39 (3), 517-518
Moniezia benedeni, *M. expansa*, calves, albendazole, anthelmintic efficacy at 4 dose levels, no signs of toxicosis
- Moniezia benedeni*
Della Bruna, C.; Ricciardi, M. L.; and Sanfilippo, A., 1973, Antimicrob. Agents and Chemotherapy, v. 3 (6), 708-710
axenomycins, effectiveness against several cestode spp. in nat. and exper. infections of various animals
- Moniezia benedeni*
Duewel, D.; and Tiefenbach, B., 1978, Tierarztl. Umschau, v. 33 (5), 252, 254-255
Moniezia expansa, *M. benedeni*, sheep, mixed infections with nematodes, fenbendazole, various preparation forms proved to be very effective
- Moniezia benedeni* (Moniez, 1879)
El-Moukdad, A. R., 1977, Ztschr. Parasitenk., v. 53 (3), 273-280
lambs: abattoir of Hama, Syria
- Moniezia benedeni*
Kozlov, D. P., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 62-63
Thysaniezia giardi, *Moniezia benedeni*, mature proglottids experimentally fed to birds, *Thysaniezia* capsules and *Moniezia* eggs passed in feces, birds as potential transport hosts or mechanical vectors
- Moniezia benedeni*
Krotov, A. I.; and Khalilov, A. G., 1971, Parazitologiya, Leningrad, v. 5 (5), 419-423
Moniezia benedeni, *Taenia hydatigena*, effect of various cholino- and adrenomimetic substances applied to scolex or posterior proglottids, importance of cephalic ganglions and peripheral nervous system in regulation of motor activity
- Moniezia benedeni*
Ojukwu, E. M.; and Ikeme, M. M., 1978, Bull. Animal Health and Prod. Africa, v. 26 (3), 242-247 [pages assembled incorrectly]
helminths, Zebu cattle, helmmoral B, critical tests and field trials: Nigeria
- Moniezia benedeni*
Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
cattle: imported to United Arab Republic
- Moniezia expansa*
Bankov, D., 1976, Vet. Med. Nauki, v. 13 (10), 28-36
cestodes of sheep, drug trials; *Stilesia globipunctata*, tested several diagnostic methods with unfavorable results
- Moniezia expansa* (Rudolphi, 1810) Blanchard, 1891
Bogdanov, V. R.; et al., 1977, Sborn. Nauch. Rabot SibNIVI, Sibirsk. Nauchno-Issled. Vet. Inst. (29), 90-91
cestodes, pathomorphology resulting from action of various anthelmintics
- Moniezia expansa*
Campos Bueno, M.; et al., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 639-648
cestodes, antigenic fractions (except those of *Taenia saginata* and of *Cysticercus tenuicollis* membranes) with reactivity similar to albumins of human, bovine and ovine sera
- Moniezia expansa*
Ciordia, H.; McCampbell, H. C.; and Stuedemann, J. A., 1978, Am. J. Vet. Research, v. 39 (3), 517-518
Moniezia benedeni, *M. expansa*, calves, albendazole, anthelmintic efficacy at 4 dose levels, no signs of toxicosis
- Moniezia expansa*
Della Bruna, C.; Ricciardi, M. L.; and Sanfilippo, A., 1973, Antimicrob. Agents and Chemotherapy, v. 3 (6), 708-710
axenomycins, effectiveness against several cestode spp. in nat. and exper. infections of various animals
- Moniezia expansa*
Douch, P. G. C., 1978, Xenobiotica, v. 8 (3), 177-182
Ascaris lumbricoides var. *suum*, *Moniezia expansa*, acetylsalicylic acid O-deacetylases, localization and some properties
- Moniezia expansa*
Douch, P. G. C., 1979, Xenobiotica, v. 9 (4), 263-268
Moniezia expansa, *Ascaris suum*, metabolism of clioxanide and resorantel and related compounds
- Moniezia expansa*
Douch, P. G. C.; and Buchanan, L. L., 1978, Xenobiotica, v. 8 (3), 171-176
Ascaris suum, *Moniezia expansa*, metabolism of xenobiotics by glutathione (GSH) conjugation, properties of GSH-S-aryltransferase, conjugations with GSH unlikely to be of importance in anthelmintic metabolism
- Moniezia expansa*
Douch, P. G. C.; and Buchanan, L. L., 1979, Xenobiotica, v. 9 (8), 467-473
Ascaris suum, *Moniezia expansa*, disophenol, nitroxynil, nitrodan, metabolism by intact helminths, by helminth enzyme preparations, and by mouse- and sheep-liver enzymes
- Moniezia expansa*
Douch, P. G. C.; and Buchanan, L. L., 1979, Xenobiotica, v. 9 (11), 675-679
Moniezia expansa, *Ascaris suum*, sulphoxidases and sulphoxide reductases, oxidation and reduction of anthelmintics

- Moniezia expansa*
Dubovskaia, A. Ia., 1973, Parazitologiya, Leningrad, v. 7 (2), 154-159
cestodes from different classes of vertebrate hosts, proteolytic activity, enzymatic activity of parasite is adapted to intensity of host's metabolism
- Moniezia expansa*
Düwel, D.; and Tiefenbach, B., 1978, Tierärztl. Umschau, v. 33 (5), 252, 254-255
Moniezia expansa, M. benedeni, sheep, mixed infections with nematodes, fenbendazole, various preparation forms proved to be very effective
- Moniezia expansa*
Gray, G. G.; Pence, D. B.; and Simpson, C. D., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 139-141
Ammotragus lervia: Palo Duro Canyon, Texas
- Moniezia expansa* (Rudolphi, 1810)
Khalil, L. F.; and Gibbons, L. M., 1976, Rev. Zool. Africaine, v. 90 (3), 559-577
Nesotragus moschatus: Ngong near Nairobi, Kenya
- Moniezia expansa*
Lin, Y. K.; Ho, Y. C.; and Sung, Y. L., 1975, Tung Wu Hsueh Pao (Acta Zool. Sinica), v. 21 (2), 141-154
Moniezia expansa, goats, seasonal incidence, age of host, biology of oribatid mite vectors, control measures
goats (feces)
Scheloribates chauhani
S. laevigatus
Galumna longipluma
G. curvum
G. virginienensis
Oribatella sp.
all from Sieng-Yu district, coastal Fukien
- Moniezia expansa*
Machnicka-Roguska, B., 1970, Acta Parasitol. Polon., v. 18 (13-26), 267-276
Moniezia expansa antigens, isolation and chemical analysis
- Moniezia expansa*
Michael, S. A.; et al., 1979, Vet. Rec., v. 104 (15), 338-340
nematodes, cestodes, indigenous Egyptian sheep, oxfendazole, field trial: Nile Delta region
- Moniezia expansa*
Nickel, S.; et al., 1978, Ang. Parasitol., v. 19 (4), 194-202
Capreolus capreolus: DDR
- Moniezia expansa*
Ojukwu, E. M.; and Ikeme, M. M., 1978, Bull. Animal Health and Prod. Africa, v. 26 (3), 242-247 [pages assembled incorrectly]
helminths, Zebu cattle, helminth B, critical tests and field trials: Nigeria
- Moniezia expansa*, illus.
Sakamoto, T.; et al., 1979, Bull. Fac. Agric. Kagoshima Univ. (29), 81-87
cestodes, goats, praziquantel
- Moniezia expansa*
Santiago, M. A. M.; Benevenga, S. F.; and da Costa, U. C., 1976, Pesquisa Agropec. Brasil., s. Vet., v. 11 (9), 1-7
helminthiasis, sheep, epidemiology, monthly incidence, proposed control scheme: Itaqui county, Rio Grande do Sul, Brazil
- Moniezia expansa*
van Schalkwyk, P. C.; et al., 1979, J. South African Vet. Ass., v. 50 (1), 31-35
helminths, sheep (nat. and exper.), alben-dazole
- Moniezia expansa*
Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
cattle: imported to United Arab Republic
- Moniezia expansa*
Shishova-Kasatochkina, O. A.; and Dubovskaja, A. J., 1975, Acta Parasitol. Polon., v. 23 (26-40), 389-393
6 cestode species, proteinase activity, differences in adult and larval parasites, differences in relation to class of vertebrate host, high proteolytic activity in Schistocephalus solidus tegument
- Moniezia expansa*
Varshney, T. R.; and Singh, Y. P., 1979, Indian Vet. J., v. 56 (3), 207-210
gastrointestinal helminths, sheep, naphthalophos more effective than parbendazole in controlled study under farm conditions
- Monieziasis
Artem'ev, G. M., 1978, Vestnik Sel'skokhoz. Nauki Kazakhstana (10), 91-93
helminthiasis, sheep, economic losses, phenothiazine salt and cupric sulfate mix: Pavlodarsk oblast
- Monieziasis
Georgieva, D., 1978, Vet. Sbirka, v. 76 (4), 32-33
anthelmintic treatment, lambs, weight gains
- Monieziasis
Kuchin, A. S., 1971, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 9, 94-96
parasites of lambs, distribution in the course of the year
- Monieziasis
Vibe, P., 1978, Veterinariia, Moskva (5), 21-22
cestodes, sheep, fenasal highly effective for mass dehelminthization: southern Kazakhstan
- Monobothrium hunteri Mackiewicz, 1963
Williams, D. D., 1979, Iowa State J. Research, v. 53 (4), 311-316
Catostomus commersoni: Red Cedar River (Barron County), Wisconsin
- Monobothrium ingens Hunter, 1927
Mauney, M., jr., 1979, Southwest. Nat., v. 24 (4), 685-686
Ictiobus bubalus (gut mucosa): Cache River, Woodruff Co., Arkansas
- Monobothrium ingens Hunter 1927
Williams, D. D., 1978, Iowa State J. Research, v. 52 (4), 401-409
key
Ictiobus cyprinellus: Fort Madison, Iowa

- Monobothrium ulmeri*
Edwards, S.; and Mueller, J. F., 1978, *J. Parasitol.*, v. 64 (5), 877
various genera and species of Caryophyllaeidae, apparent absence of C-viruslike particles which are found in Pseudophyllidea
- Monobothrium ulmeri* Calentine and Mackiewicz, 1966
Williams, D. D., 1979, *Iowa State J. Research*, v. 53 (4), 305-310
Hypentelium nigricans: Red Cedar River (southern Barron Co.), Wisconsin
- Monoecocestus* Beddard, 1914
Olsen, O. W., 1976, *Rev. Iber. Parasitol.*, v. 36 (3-4), 209-217
key to species, includes: *Monoecocestus rheiphilus* Voge and Read, 1953; *M. hagmanni* (Janicki, 1904); *M. gigantea* Buhler, 1970; *M. sigmodontis* (Chandler and Suttles, 1922); *M. parcitesticulatus* Rego, 1960; *M. grundlachi* Viguera, 1943; *M. americanus* (Stiles, 1895); *M. hydrochorei* (Baylis, 1928); *M. erethizontis* Beddard, 1914; *M. macrobursatum* Rego, 1961; *M. diplomys* Noble and Tesh, 1974; *M. anoplocephaloides* (Douthitt, 1915); *M. minor* Rego, 1960; *M. torresi* n. sp.
- Monoecocestus cysticercus*
Ubelaker, J. E.; and Hall, N. M., 1979, *J. Parasitol.*, v. 65 (2), 307
Sigmodon hispidus: Texas
- Monoecocestus mackiewiczzi* sp. n., *illus.*
Schmidt, G. D.; and Martin, R. L., 1978, *J. Helminth.*, v. 52 (3), 205-209
Phyllotis sp. (small intestine): Juan de Zalazar, Boqueron, Paraguay
- Monoecocestus sigmodontis*
Mollhagan, T., 1978, *Southwest. Nat.*, v. 23 (3), 401-407
helminths of *Sigmodon hispidus* from 2 mesic and 3 upland habitats in western Texas, incidence and prevalence, influence of host habitat on parasite fauna composition, comparison of 5 Texas sites with each other and with 3 sites in Florida
Sigmodon hispidus: western Texas
- Monoecocestus sigmodontis*
Ubelaker, J. E.; and Hall, N. M., 1979, *J. Parasitol.*, v. 65 (2), 307
Sigmodon hispidus: Texas
- Monoecocestus torresi* n. sp., *illus.*
Olsen, O. W., 1976, *Rev. Iber. Parasitol.*, v. 36 (3-4), 209-217
Ctenomys maulinus brunneus (small intestine): near Lonquimay, Chile
- Monoporophyllaeidae*
Shinde, G. B.; and Chincholikar, L. N., [1978], *Riv. Parasitol.*, Roma, v. 38 (2-3), 1977, 171-175
"the order Lateroporidea should be accepted in which two families (Biporophyllidae and Monoporophyllaeidae) are included as suggested by Subhpradha"
- Monoporophyllaeus*
Shinde, G. B.; and Chincholikar, L. N., [1978], *Riv. Parasitol.*, Roma, v. 38 (2-3), 1977, 171-175
Syn.: *Anteropora* Subhpradha, 1957
- Monopylidium passerinum* Fuhrmann, 1907
Spasskii, A. A., 1979, *Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk* (1), 67-70
Raillietina (Fuhrmannetta) nepalis transferred to Dilepididae, provisionally to *Monopylidium*, but new combination not created because *R. (F.) nepalis* is possibly a synonym of *Monopylidium passerinum*
- Monorygma* sp.
Dailey, M. D.; and Walker, W. A., 1978, *J. Parasitol.*, v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Stenella coeruleoalba (mesenteries): southern California
- Monorygma grimaldii* Moniez, 1889
Dailey, M. D.; and Walker, W. A., 1978, *J. Parasitol.*, v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Delphinus delphis
Lagenorhynchus obliquidens
Lissodelphis borealis (peritoneal cavity of all): all from southern California
- Monorygma grimaldii*
Waller, G. H.; and Tyler, N. J. C., 1979, *Naturalist*, London (949), v. 104, 61-64
Lagenorhynchus acutus (abdominal peritoneum, testes): Yorkshire coast
- Monosacanthus kazachstanica* (Maksimova, 1963), Czaplinski, 1967
Czaplinski, B., 1975, *Acta Parasitol. Polon.*, v. 23 (26-40), 305-327
Hymenolepididae of wild *Cygnus olor*, extensiveness and intensity of infestation, age and sex of host, seasonal variation, distribution within digestive tract: Poland synonymy
- Monticellia* LaRue, 1911
Brooks, D. R., 1978, *System. Zool.*, v. 27 (3), 312-323
Monticelliidae, Monticelliinae
- Monticelliidae
Brooks, D. R., 1978, *System. Zool.*, v. 27 (3), 312-323
Proteocephalidea
includes: Monticelliinae; Endorchiinae; Ephedrocephalinae; Zygobothriinae
- Monticelliinae
Brooks, D. R., 1978, *System. Zool.*, v. 27 (3), 312-323
Monticelliidae
includes: *Monticellia*; *Goezeella*; *Rudolphiella*; *Spatulifer*
- Mosgovoyia pectinata* (Goeze, 1782) Spassky, 1951
Maklakova, L. P., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 111-115
[*Lepus timidus*] (small intestine): Moscow game farms
- Mosgovoyia pectinata*
Pav, J., 1978, *Veterinarstvi*, v. 28 (2), 84-86
coccidia, cestodes, prevalence in hares: Czechoslovakia

- Mosgovoyia pectinata (Goeze, 1782) Spassky, 1951, illus.
Tenora, F.; and Murai, E., 1978, Acta Zool. Acad. Scient. Hungar., v. 24 (3-4), 415-429
description, taxonomic status, key
Oryctolagus cuniculus: Czechoslovakia
Lepus europaeus: Hungary
- [Multiceps] multitsepsov
Oripov, A. O.; Bekirov, R. E.; and Dzhumaev, Z., 1978, Veterinariia, Moskva (12), 60
helminths, dogs, phenasal and nilverm given in feed (sausage form)
- Multiceps sp., illus.
Ianchev, I.; and Ridzhakov, N., 1977, Khel-mintologiya, Sofiya, v. 4, 73-96
Vulpes vulpes crucigera (small intestine): Northwestern Bulgaria

Rocamora, J. M.; Feliu, C.; and Mas-Coma, S., 1978, Rev. Iber. Parasitol., v. 38 (1-2), 155-163
Meles meles (intestino delgado): Cataluna, N. E. de Espana
- Oochoristica indica* Misra, V. R. (1945), illus.
Shinde, G. B.; Ambhore, R. S.; and Mohekar, A. D., 1976, Marathwada Univ. J. Sc. (Nat. Sc.), v. 15 (8), 297-299
redescription
Calotes versicolor (intestine): Aurangabad, India
- Oochoristica ophia*, new species
Capoor, V. N.; Srivastava, V. C.; and Chauhan, A. S., 1976, J. Zool. Soc. India, v. 26 (1-2), 1974, 83-86
snake (intestine): Allahabad, India
- Oochoristica tuberculata* (Rudolphi, 1819)
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
synonymy, key
Varanus monitor (intestine): Sobasar village, Bikaner Dist. and Jaisalmer Dist., Rajasthan, India
- Oochoristica vanzolinii* Rego & Rodrigues, 1965
Rodrigues, H. de O., 1970, Atas Soc. Biol. Rio de Janeiro, v. 12, Suppl., 15-23
Hemidactylus mabouia (intestino delgado): Rio de Janeiro, Estado da Guanabara, Brasil
- Ophiotaenia LaRue*, 1914
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus*
- Ophiotaenia alternans* Riser, 1942
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus alternans* (Riser, 1942) comb. n.
- Ophiotaenia cryptobranchi* LaRue, 1914
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus cryptobranchi* (LaRue, 1914) comb. n.
- Ophiotaenia fragile* Essex, 1929
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus fragile* (Essex, 1929) comb. n.
- Ophiotaenia fragilis* Essex 1929, illus.
Fahmy, M. A. M.; Mandour, A. M.; and El-Naffar, M. K., 1978, Vet. Med. J., Giza, v. 24 (24), 1976, 253-262
Syn.: *Crepidobothrium fragile* Essex 1929 description
Synodontis schall (ileum): River Nile, Assiut, Egypt
- Ophiotaenia gracilis* Jones, Cheng, and Gillespie, 1958
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus gracilis* (Jones, Cheng, and Gillespie, 1958) comb. n.
- Ophiotaenia gracilis* Jones, Cheng and Gillespie, 1958, illus.
Buhler, G. A., 1970, J. Wildlife Dis., v. 6 (3), 149-151
Ophiotaenia gracilis, development of larval stages in *Eucyclops agilis* (exper.)
E. agilis (exper.)
Rana catesbiana: Brisco Lake, Weld County, Colorado
- Ophiotaenia magna* Hannum, 1925, illus.
Babero, B. B.; and Golling, K., 1974, Rev. Biol. Trop., v. 21 (2), 1973, 207-220
Rana catesbiana (small intestines): Ash Meadows, Nye County, Nevada
- Ophiotaenia najae* (Beddard, 1913), illus.
Bilqees, F. M.; and Rehana, R., 1975, Acta Parasitol. Polon., v. 23 (41-51), 485-492
description
land snake (intestine): Karachi University Campus, Pakistan

- Ophiotaenia racemosa*
Ginetsinskaia, T. A.; et al., 1971, Parazitologiya, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat
- Ophiotaenia saphena* Osler, 1931
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus saphenus* (Osler, 1931) comb. n.
- Ophiotaenia sireni* Brooks and Buckner, 1976
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
as syn. of *Proteocephalus sireni* (Brooks and Buckner, 1976) comb. n.
- Ophiovalipora* sp.
Davis, J. R.; and Huffman, D. G., 1978, Texas J. Sc., v. 30 (1), 43-53
helminths of *Gambusia affinis* from ecologically different habitats, variation with habitat, season, and host size
Gambusia affinis (gall bladder): near San Marcos, Texas
- Orlovilepis megalops* (Nitzsch in Creplin, 1829) Spassky et Spasskaja, 1954
Czaplinski, B., 1975, Acta Parasitol. Polon., v. 23 (26-40), 305-327
as syn. of *Cloacotaenia megalops* (Nitzsch in Creplin, 1829) Wolffhuegel, 1938
- Orthoskrjabinia* Spassky, 1947
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
synonymy
- Orthoskrjabinia bobica* Dubinina, 1950 nec Clerc, 1903
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
as syn. of *Orthoskrjabinia conica* (Fuhrmann, 1908) Spassky, 1947
- Orthoskrjabinia bobica* (Clerc, 1903) Spassky, 1947
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
synonymy
- Orthoskrjabinia conica* (Fuhrmann, 1908) Spassky, 1947
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
synonymy
- Orthoskrjabinia oschmarini* (Spassky, 1946) Mathevossian, 1969
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
provisionally remains in *Orthoskrjabinia*
- Orthoskrjabinia rostellata* (Rodgers, 1941) Mathevossian, 1969
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
provisionally remains in *Orthoskrjabinia*
- Orthoskrjabinia transcaucasica* (Bauer, 1941) Mathevossian, 1969
Spasskii, A. A., 1977, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (5), 65-70
probable synonym of *Orthoskrjabinia bobica* (Clerc, 1903)
- Orygmatobothrium* sp.
Kilejian, A.; and MacInnis, A. J., 1976, Rice Univ. Studies, v. 62 (4), 161-174
12 helminth species, DNA buoyant density and base composition, analysis of satellite DNAs of *Hymenolepis* spp., satellite DNA and chromosome diminution in *Ascaris lumbricoides*
- Orygmatobothrium dohrnii*
McDaniel, J. S.; MacInnis, A. J.; and Read, C. P., 1976, Rice Univ. Studies, v. 62 (4), 205-209
flatworms (free-living, symbiotic, parasitic), effects of carbon dioxide on glucose incorporation, results suggest that rates of glycogen synthesis in some flatworms vary with level of available carbon dioxide in the environment
- Othinosclex* Woodland, 1933
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Monticelliidae, Ephedrocephalinae
- Otobothrium* (*Pseudotobothrium*) *dipsacum* (Linton, 1897) Dollfus, 1942, illus.
Cruz-Reyes, A., [1974], An. Inst. Biol., Univ. Nac. Mexico, v. 44 (1), s. Zool., 1973, 25-34
synonymy, redescription
Balistes polylepsis (pared del cuerpo): Puerto Angel, Oaxaca, Mexico
- Otobothrium* (*Pseudotobothrium*) *linstowi* (Southwell, 1912) Dollfus, 1942
Cruz-Reyes, A., [1974], An. Inst. Biol., Univ. Nac. Mexico, v. 44 (1), s. Zool., 1973, 25-34
as syn. of *Otobothrium* (*Pseudotobothrium*) *dipsacum* (Linton, 1897) Dollfus, 1942
- Otobothrium* (*Pseudotobothrium*) *magnum* (Southwell, 1924) Dollfus, 1942
Cruz-Reyes, A., [1974], An. Inst. Biol., Univ. Nac. Mexico, v. 44 (1), s. Zool., 1973, 25-34
as syn. of *Otobothrium* (*Pseudotobothrium*) *dipsacum* (Linton, 1897) Dollfus, 1942

- Parabisaccanthes cygni* Maksimova, 1953
Maksimova, A. P., 1972, *Parazitologija*, Leningrad, v. 6 (3), 283-290
as syn. of *Parabisaccanthes philactes* (Schiller, 1951)
- Parabisaccanthes philactes* (Schiller 1951) Spassky et Reznik, 1963
Czaplinski, B., 1975, *Acta Parasitol. Polon.*, v. 23 (26-40), 305-327
Hymenolepididae of wild *Cygnus olor*, extensiveness and intensity of infestation, age and sex of host, seasonal variation, distribution within digestive tract: Poland synonymy
- Parabisaccanthes philactes* (Schiller, 1951), *illus.*
Maksimova, A. P., 1972, *Parazitologija*, Leningrad, v. 6 (3), 283-290
synonymy; experimental development in intermediate hosts
[*Anser anser*]: lake Baitak, Turgaisk lake system, Aktiubinsk oblast
Acanthocyclops viridis (exper.)
Eucyclops serrulatus (exper.)
Mesocyclops oithonoides (exper., development incomplete)
- Parabisaccanthes philactes* (Schiller, 1951)
Neraasen, T. G.; and Holmes, J. C., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens
Anser albifrons
Branta bernicla nigricans
all from Anderson River Delta, Northwest Territories, Canada
- Parabothriocephalidae* Yamaguti, 1959
Protasova, E. N., 1974, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 24, 133-144
Bothriocephaloidea n. superfam.
includes: *Parabothriocephalus* (type gen. of family); *Parabothriocephaloides*; *Neobothriocephalus*
- Parabothriocephaloides* Yamaguti, 1934
Protasova, E. N., 1974, *Trudy Gel'mint. Lab.*, Akad. Nauk SSSR, v. 24, 133-144

- Proteocephalus sp. (probably P. tumidocollus Wagner, 1953)
Thompson, P.-A.; and Threlfall, W., 1978, Naturaliste Canad., v. 105 (5), 429-431
prevalence, intensity
Salvelinus fontinalis (stomach): Port-Cartier-Sept-Iles Park, Quebec

- Proteocephalus aberrans* sp. n., illus.
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
key
Siren lacertina (upper small intestine): Gainesville, Alachua County, Florida
- Proteocephalus agkistrodontis* Harwood, 1933, illus.
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
key, diagnosis
Agkistrodon piscivorus (anterior 1/4 of intestine): Houston, Texas; Corney Lake, Union Parish, Louisiana
- Proteocephalus albulae*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Coregonus albula: Kol'skii peninsula, USSR
- Proteocephalus alternans* (Riser, 1942) comb. n.
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
key, salient features
Syn.: Ophiotaenia alternans Riser, 1942
Amphiuma tridactylum (small intestine): Reelfoot Lake, Tennessee
- Proteocephalus ambloplitis*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad. Sc., v. 51 (2), 122-124
Micropterus dolomieu (cecae, stomach, intestine): Susquehanna River, Pennsylvania
- Proteocephalus ambloplitis*
Riley, D. M., 1978, Tr. Am. Fish. Soc., v. 107 (1), 207-212
Lepomis macrochirus
Micropterus salmoides
Ictalurus nebulosus
all from Florida
- Proteocephalus amphiumae* (Zeliff, 1932) comb. n.
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
key, salient features
Syn.: Crepidobothrium amphiumae Zeliff, 1932
Amphiuma tridactylum (small intestine): Baton Rouge, Louisiana
- Proteocephalus amphiumicola* sp. n., illus.
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
key
Amphiuma means (upper small intestine): St. Andrew's Jackson County, Mississippi; Fowl River, Theodore, Mobile County, Alabama
- Proteocephalus buplanensis* Mayes, 1976
Amin, O. M., 1977, Tr. Wisconsin Acad. Sc., Arts and Lett., v. 65, 225-230
fish parasites, differential distribution in two streams
Semotilus atromaculatus
Lepomis cyanellus
all from southeastern Wisconsin
- Proteocephalus buplanensis* Mayes, 1976
Amin, O. M.; and Mackiewicz, J. S., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 228-229
Proteocephalus buplanensis, seasonal cycle "designated as *Proteocephalus* sp. (SA) by Amin"
Semotilus atromaculatus: Pike and Root rivers (Racine, Milwaukee, and Kenosha counties), southeastern Wisconsin
- Proteocephalus cernuae* Gmelin, 1970
Kakacheva-Avramova, D., 1976, Khel'mintologiya, Sofiia, v. 1, 12-18
Acerina schraetser (intestine): Bulgarian section of Danube River
- Proteocephalus cernuae*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Acerina cernua: Kol'skii peninsula, USSR
- Proteocephalus cryptobranchi* (LaRue, 1914) comb. n.
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
key, salient features
Syn.: Ophiotaenia cryptobranchi LaRue, 1914
Cryptobranchus allegheniensis (small intestine): Meadville, Pennsylvania
- Proteocephalus exiguus* La Rue, 1911
Al'betova, L. M., 1975, Izvest. Gosudarstv. Nauchno-Issled. Inst. Ozer. i Rech. Ryb. Khoziaistva, Leningrad, v. 93, 105-107
Proteocephalus exiguus, seasonal and age dynamics in [Coregonus]
[Coregonus peled]
[Coregonus muksun]
[Coregonus nasus]
all from Tiumen oblast
- Proteocephalus exiguus* La Rue, 1911
Amin, O. M., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 210-217
Coregonus clupeaformis (anterior part of intestine): southwestern Lake Michigan
- Proteocephalus exiguus*
Kennedy, C. R., 1978, J. Fish Biol., v. 13 (4), 457-466
parasite fauna of Salvelinus alpinus, comparison of species composition, number, diversity, and equitability in lakes on Norwegian mainland and its offshore Arctic islands, results do not agree well with predictions of island biogeographical theory
Salvelinus alpinus: Diesetvassdraget lake, Spitsbergen; Stevatn, Oyangan, and Ellasjoen lakes, Bjornoya; Skogsfjordvann lake, Ringvassoy, Troms, Norway; Fiskelausvann lake, Troms, Norway
- Proteocephalus exiguus*
Makhovenko, E. T., 1972, Parazitologiya, Leningrad, v. 6 (4), 369-375
Salvelinus alpinus inhabiting different ecological niches, possible use of differences in parasite fauna between groups as biological tags: Lake Azabach'e, Kamchatka
- Proteocephalus exiguus* Larue, 1911
Tsimbaliuk, E. M.; and Semeshko, N. N., 1971, Parazitologiya, Leningrad, v. 5 (5), 424-428
Osmerus eperlanus dentex
[Oncorhynchus gorbuscha]
all from littoral zone of Okhotsk Sea near entrance to Penzhinsk zaliv, western Kamchatka
- Proteocephalus exiguus* La Rue
Vysotskaia, R. U.; and Sidorov, V. S., 1973, Parazitologiya, Leningrad, v. 7 (1), 51-57
8 helminth species from freshwater fish, lipid content, variation with respect to parasite maturity, host species and habitat, and season

- Proteocephalus faranciae* (MacCallum, 1921) Harwood, 1932, *illus.*
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
key, diagnosis
Farancia abacura (middle third of intestine): Payne's Prairie, Alachua County, Florida
Natrix c. cyclopion (middle third of intestine): Lake Okeechobee, Okeechobee County, Florida
- Proteocephalus filaroides* LaRue, 1909
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
key, salient features
- Proteocephalus fragile* (Essex, 1929) comb. n.
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
Syn.: *Ophiotaenia fragile* Essex, 1929
- Proteocephalus gobiorum*
Chernyshenko, A. S., 1966, *Respublik. Mezhdomestv. Sborn., Akad. Nauk Ukrain. SSR*, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition
[Pisces] bychok-zelenchak: 4 estuaries, Black Sea (northern coastal region)
- Proteocephalus gracilis* (Jones, Cheng, and Gillespie, 1958) comb. n.
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
key
"Circumstantial evidence suggests that *P. magnus*, *P. olor*, *P. saphenus*, and *P. gracilis* . . . are geographical variants of a single species."
Syn.: *Ophiotaenia gracilis* Jones, Cheng, and Gillespie, 1958
Rana catesbeiana (small intestine): Mountain Lake, Giles County, Virginia
- Proteocephalus grandis* (LaRue, 1911) Harwood, 1933, *illus.*
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
key, diagnosis
Natrix c. cyclopion (anterior $2/3$ of intestine): [?] Rockefeller Wildlife Refuge, Cameron Parish, Louisiana
N. cyclopion floridense (anterior $2/3$ of intestine): [?] Payne's Prairie, Alachua County, Florida; [?] Lake Okeechobee, Okeechobee County, Florida
- Proteocephalus loennbergii* (Fuhrmann, 1895) LaRue, 1909, *illus.*
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
key, diagnosis
Necturus maculosus (small intestine): Carbondale, Illinois
- Proteocephalus longicollis* (Zeder, 1800)
Beverley-Burton, M., 1978, *Canad. J. Zool.*, v. 56 (2), 365-368
Salvelinus alpinus (intestine): Char Lake, Cornwallis Island, N.W.T., Canada
- Proteocephalus longicollis* (Zeder, 1800)
Curtis, M. A., 1979, *Naturaliste Canad.*, v. 106 (2), 337-338
Salvelinus alpinus (anterior intestine): southern Baffin Island
- Proteocephalus longicollis* (Zeder, 1800)
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
Osmerus eperlanus (intestine): Gdansk Bay (Baltic Sea)
- Proteocephalus longicollis* (Zeder, 1800), *illus.*
Swiderski, Z.; et al., 1978, *Electron Micr.*, v. 2, Biol., 442-443
Proteocephalus longicollis, vitelline cells, fine structure
- Proteocephalus longicollis* (Zeder, 1800), *illus.*
Swiderski, Z.; and Eklun-Natey, R. D., 1978, *Electron Micr.*, v. 2, Biol., 572-573
Proteocephalus longicollis, spermatozoon, fine structure
- Proteocephalus longicollis* (Zeder, 1800), *illus.*
Swiderski, Z.; and Subilia, L., 1978, *Electron Micr.*, v. 2, Biol., 444-445
Proteocephalus longicollis, embryonic envelope formation, electron microscopy
- Proteocephalus macrocephalus* (Creplin, 1825)
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
Anguilla anguilla (intestine): Gdansk Bay (Baltic Sea)
- Proteocephalus macrocephalus* (Crepl.)
Seyda, M., 1973, *Acta Ichthyol. et Piscat.*, v. 3 (2), 67-76
Anguilla anguilla: Szczecin Firth, West Odra River, and Dabie Lake, Poland
- Proteocephalus magna* (Hannum, 1925) Harwood, 1932
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
as syn. of *P. magnus* (Hannum, 1925) Harwood, 1932 nom. emend.
- Proteocephalus magnus* (Hannum, 1925) Harwood, 1932 nom. emend.
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
key
"Circumstantial evidence suggests that *P. magnus*, *P. olor*, *P. saphenus*, and *P. gracilis* . . . are geographical variants of a single species."
Syn.: *P. magna* (Hannum, 1925) Harwood, 1932
Rana catesbeiana (small intestine): Greeley, Colorado; Nebraska
R. clamitans (small intestine): Houston, Texas
- Proteocephalus marenzelleri* (Barrois, 1898) Railliet, 1899, *illus.*
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
key, diagnosis
Agkistrodon piscivorus (entire length of intestine): Rockefeller Wildlife Refuge, Cameron Parish, Louisiana; 16 km east of Ruston, Lincoln Parish, Louisiana
- Proteocephalus olor* (Ingles, 1936) comb. n.
Brooks, D. R., 1978, *Proc. Helminth. Soc. Washington*, v. 45 (1), 1-28
key
"Circumstantial evidence suggests that *P. magnus*, *P. olor*, *P. saphenus*, and *P. gracilis* . . . are geographical variants of a single species."
Syn.: *Crepidobothrium olor* Ingles, 1936
Rana aurora (small intestine): Berkeley, Alameda County, California
- Proteocephalus osculatus*
Ginetsinskaia, T. A.; et al., 1971, *Parazitologia*, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat

- Proteocephalus osculatus* (Goeze, 1782)
Rokicki, J., 1975, Acta Parasitol. Polon.,
v. 23 (1-11), 37-84
Silurus glanis (intestine): Gdansk Bay
(Baltic Sea)
- Proteocephalus pearsei*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad.
Sc., v. 51 (2), 122-124
Micropterus dolomieu (intestine): Susque-
hanna River, Pennsylvania
- Proteocephalus pearsei* LaRue, 1914
Tedla, S.; and Fernando, C. H., 1969, J. Fish.
Research Bd. Canada, v. 26 (4), 833-843
parasite fauna of *Perca flavescens*, seasonal
changes in incidence and intensity
Perca flavescens (intestine): Bay of
Quinte, Lake Ontario
- Proteocephalus percae* (Mueller, 1780)
Andersen, K., 1978, Ztschr. Parasitenk., v. 56
(1), 17-27
helminths, *Perca fluviatilis* gut, seasonal
appearance and abundance, possible associa-
tions between various species, small oligo-
trophic lake: southern Norway
- Proteocephalus percae* (Mueller)
Iziumova, N. A.; Mashtakov, A. V.; and Kash-
kovskii, V. V., 1977, Inform. Biul. Inst.
Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[*Lucioperca lucioperca*] (intestine): Kamsk
reservoir
- Proteocephalus percae* (Müller, 1780)
Moravec, F., 1978, Scripta Fac. Scient. Nat.
Univ. Purkynianae Brun., Biol., v. 8 (2), 77-
80
Perca fluviatilis
Esox lucius
all from Macha Lake fishpond system, Czecho-
slovakia (N. Bohemia)
- Proteocephalus percae* (Mueller, 1780)
Rokicki, J., 1975, Acta Parasitol. Polon.,
v. 23 (1-11), 37-84
Syn.: *Ichthyotaenia percae* (Mueller, 1780)
Perca fluviatilis
Gasterosteus aculeatus
(intestine of all): all from Gdansk Bay
(Baltic Sea)
- Proteocephalus percae* (O. F. Mueller, 1780)
Railliet, 1899
Wierzbicki, K., 1970, Acta Parasitol. Polon.,
v. 18 (1-12), 45-55
Perca fluviatilis: Lake Dargin, Mazurian
Lakeland, Poland
- Proteocephalus perspicua* (LaRue, 1911) Harwood,
1933, illus.
Brooks, D. R., 1978, Proc. Helminth. Soc.
Washington, v. 45 (1), 1-28
key, diagnosis
Natrix sipedon: Ocean Springs, Jackson Coun-
ty, Mississippi
N. rhombifer: Rockefeller Wildlife Refuge,
Cameron Parish, Louisiana
N. fasciata confluens: Monroe, Ouachita
Parish, Louisiana
N. c. cyclopion: Rockefeller Wildlife Ref-
uge, Cameron Parish, Louisiana
N. cyclopion floridense: Lake Okeechobee,
Okeechobee County, Florida; Payne's Prai-
rie, Alachua County, Florida
(posterior half of intestine of all)
- Proteocephalus pinguis*
Deutsch, W. G., 1977, Proc. Pennsylvania Acad.
Sc., v. 51 (2), 122-124
Esox niger (intestine): Susquehanna River,
Pennsylvania
- Proteocephalus pinguis* La Rue, 1911
Thompson, P.-A.; and Threlfall, W., 1978,
Naturaliste Canad., v. 105 (5), 429-431
prevalence, intensity
Esox lucius (stomach, small intestine):
Port-Cartier-Sept-Iles Park, Quebec
- Proteocephalus pugetensis* Hoff and Hoff
Lester, R. J. G., 1974, Syesis, v. 7, 195-200
Gasterosteus aculeatus (intestine): near
Vancouver, British Columbia
- Proteocephalus saphenus* (Osler, 1931) comb. n.
Brooks, D. R., 1978, Proc. Helminth. Soc.
Washington, v. 45 (1), 1-28
key
"Circumstantial evidence suggests that *P.*
magnus, *P. olor*, *P. saphenus*, and *P. gracilis*
. . . are geographical variants of a single
species."
Syn.: *Ophiotaenia saphena* Osler, 1931
Rana clamitans (small intestine): Douglas
Lake, Michigan
- Proteocephalus sireni* (Brooks and Buckner, 1976)
comb. n.
Brooks, D. R., 1978, Proc. Helminth. Soc.
Washington, v. 45 (1), 1-28
key, salient features
Syn.: *Ophiotaenia sireni* Brooks and Buckner,
1976
Siren intermedia (upper small intestine):
Pearl River, Highway I-10, St. Tammany Par-
ish, Louisiana
- Proteocephalus testudo* (Magath, 1924)
Acholonu, A. D., 1970, J. Wildlife Dis., v. 6
(3), 171-172
Trionyx spinifer: southeastern Louisiana
- Proteocephalus testudo* (Magath, 1924) Hughes,
Baker, and Dawson, 1941, illus.
Brooks, D. R., 1978, Proc. Helminth. Soc.
Washington, v. 45 (1), 1-28
key, diagnosis
Trionyx spiniferus (middle third of intes-
tine): Missouri River, 2.5 km south of
Brownville, Nebraska; Lake of the Woods,
Marshall County, Bremen, Indiana
Pseudemys elegans (middle third of intestine):
Meredosia, Illinois
- Proteocephalus thymallis*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 23, 64-70
Thymallus thymallus: Kol'skii peninsula,
USSR
- Proteocephalus tigrinus* Woodland, 1925
Kameswari, M.; Ramulu, G. R.; and Rao, L. N.,
1979, Indian J. Exper. Biol., v. 17 (9), 976-
979
helminth-infected *Rana tigerina*, macromolecu-
lar changes in liver
- Proteocephalus torulosus* (Batsch.)
Iziumova, N. A.; Mashtakov, A. V.; and Kash-
kovskii, V. V., 1977, Inform. Biul. Inst.
Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[*Leuciscus idus*] (intestine)
[*Acerina cernua*] (intestine)
all from Kamsk reservoir

- Proteocephalus torulosus* (Batsch, 1786)
van Maren, M. J., 1979, Bull. Zool. Mus. Univ. Amsterdam, v. 6 (24), 189-200
Leuciscus cephalus
L. leuciscus
all from Rhone River, N.E. of Lyon, France
- Proteocephalus tumidocollis* Wagner, 1953
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, J. Fish. Research Bd. Canada, v. 33 (11), 2489-2499
Coregonus clupearformis (pyloric caeca, intestine): Aishihik Lake and Stevens Lake, Yukon Territory
Esox lucius (intestine): Aishihik Lake, Yukon Territory
Cottus cognatus (pyloric caeca, intestine): Aishihik Lake, Yukon Territory
Salvelinus namaycush (pyloric caeca, intestine): Aishihik Lake, Yukon Territory
Prosopium cylindraceum (pyloric caeca, intestine): Aishihik Lake, Yukon Territory
Thymallus arcticus (pyloric caeca, intestine): Aishihik Lake, Yukon Territory
- Proteocephalus tumidocollis*
Mamer, B. E., 1978, J. Parasitol., v. 64 (2), 314
Salmo gairdneri (pyloric ceca): Silver Lake and Toad Lake, Whatcom County, Washington
S. clarki (pyloric ceca): Silver Lake, Whatcom County, Washington
- Proteocephalus variabilis* sp. n., illus.
Brooks, D. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 1-28
key
Natrix rhombifer (posterior half of intestine): Monroe, Ouachita Parish, Louisiana
Natrix c. cyclopiou (posterior half of intestine): Rockefeller Wildlife Refuge, Cameron Parish, Louisiana
- Proteocephalus woodlandi* Moghe, 1926
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 191-215
key
Uromastix hardwickii (rectum)
Varanus monitor (intestine)
all from Rajasthan, India
- Proterogynotaenia* sp., illus.
Belopol'skaia, M. M., 1973, Parazitologiya, Leningrad, v. 7 (1), 44-50
Squatarola squatarola: coast of Black Sea (Tendrovsk bay)
- Proterogynotaenia branchiuterina* sp. n., illus.
Belopol'skaia, M. M., 1973, Parazitologiya, Leningrad, v. 7 (1), 44-50
Squatarola squatarola (duodenum): coast of Black Sea (Tendrovsk bay)
- Proterogynotaenia dougi* Sandeman, 1959
Belopol'skaia, M. M., 1973, Parazitologiya, Leningrad, v. 7 (1), 44-50
Pluvialis apricaria: Kaliningrad oblast
- Proterogynotaenia polytestis* sp. n., illus.
Belopol'skaia, M. M., 1973, Parazitologiya, Leningrad, v. 7 (1), 44-50
Squatarola squatarola (small intestine): lower reaches of river Lena (Chai-Tumus)
- Proterogynotaenia variabilis?* Belopolskaia, 1953
Belopol'skaia, M. M., 1973, Parazitologiya, Leningrad, v. 7 (1), 44-50
Squatarola squatarola: Kaliningrad oblast
- Protogynella blarinae* Jones, 1943, illus.
Vaucher, C.; and Durette-Desset, M. C., 1978, Rev. Suisse Zool., v. 85 (2), 361-378
measurements
Blarina brevicauda: Ontario, Canada
- Pseudamphicotyla Yamaguti*, 1959 (type gen. of subfam.)
Protasova, E. N., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 133-144
Echinophallidae, *Pseudamphicotylinae* n. subfam.
- Pseudamphicotylinae* n. subfam.
Protasova, E. N., 1974, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 24, 133-144
Echinophallidae
type gen.: *Pseudamphicotyla*
- Pseudanomotaenia baeri* (Spassky, 1968), illus.
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 153-161
description
Rissa tridactyla: lower Chukotka
- Pseudanomotaenia micracantha* (Krabbe, 1869)
Sergeeva, T. P., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 153-161
Larus argentatus: lower Enisei
- Pseudanoplocephala* sp., illus.
Hatsushika, R.; et al., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (2), 86-90
description
Sus scrofa leucomystax (small intestine): Niimi City, Okayama Prefecture, Japan
- Pseudanthobothrium hanseni*, illus.
Williams, H. H.; McVicar, A. H.; and Ralph, R., 1970, Symposia Brit. Soc. Parasitol., v. 8, 43-77
fish helminths, body shape and orientation in host gut, habitat specificity and migrations within gut
Raja radiata (adults mostly in tiers 1,2,3, and on posterior facing surface of spiral intestine): Scottish waters
- Pseudhymenolepis redonica* Joyeux et Baer, 1935
Mas-Coma, S.; and Feliu, C., 1977, Vie et Milieu, s. C, Biol. Terr., v. 27 (2), 231-241
Crocidura russula: Cataluna, Espana
- Pseudoaporina* gen. nov.
Saxena, S. K.; and Bauch, S. C., 1973, Ang. Parasitol., v. 14 (4), 236-245
Anoplocephalidae; *Anoplocephalinae*
tod: *P. fuhrmanni* (Skrjabin, 1915) [n. comb.]
- Pseudoaporina fuhrmanni* (Skrjabin, 1915) [n. comb.] (tod)
Saxena, S. K.; and Bauch, S. C., 1973, Ang. Parasitol., v. 14 (4), 236-245
description
Syn.: *Aporina fuhrmanni* Skrjabin, 1915
Ornis sp.: Ost-Bolivien (Bolivie orientale)
- Pseudodiorchis reynoldsi* (Jones, 1914), illus.
Vaucher, C.; and Durette-Desset, M. C., 1978, Rev. Suisse Zool., v. 85 (2), 361-378
measurements
Blarina brevicauda: New York; Ontario, Canada
- Pseudogrillotia* n. gen.
Dollfus, R. P., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 1037-1061
Pseudogrillotiidae nouvelle famille
tod: *P. pleistacantha* n. sp.

- Pseudogrillotia pleistacantha* n.sp., illus. (tod)
Dollfus, R. P., 1969, J. Fish. Research Pd.
Canada, v. 26 (4), 1037-1061
Pogonias cromis (musculature): Galveston,
Texas
- Pseudogrillotiidae* nouvelle famille
Dollfus, R. P., 1969, J. Fish. Research Pd.
Canada, v. 26 (4), 1037-1061
includes: *Pseudogrillotia* n.gen.
- Pseudolytocestus differtus* Hunter, 1929
Mauney, M., jr., 1979, Southwest. Nat., v. 24
(4), 685-686
Ictiobus bubalus (gut mucosa): Cache River
Woodruff Co., Arkansas
- Pseudophyllidea*, illus.
Federman, H. B.; de Holanda, J. C.; and
Evangelista, A., 1973, Rev. Patol. Trop., v. 2
(2), 207-215
- Pseudophyllidea*
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
systematics, includes: *Bothriocephaloidea*
n. superfam.; *Amphicotyloidea* n. superfam.
- Pseudophyllidea*
Torres, P.; et al., 1977, Bol. Chileno Parasitol.,
v. 32 (3-4), 73-80
Diphyllobothrium sp. plerocercoids, survey of
infection incidence and intensity in *Salmo*
gairdneri (celoma, higado, pared intestinal,
gonadas, bazo, musculos); relationship of infection
to age, sex, weight, length; brief
discussion of problems of systematics of
Pseudophyllidea: Calafquen Lake, Chile
- Pseudophyllidea* [sp.]
Komma, M. D.; et al., 1972, Rev. Patol. Trop.,
v. 1 (3), 399-403
Didelphis a. azarae (intestino delgado):
zona urbana de cidade de Neropolis
- Pseudophyllidea* sp.
Kulachkova, V. G., 1972, Parazitologiya, Leningrad,
v. 6 (3), 297-304
helminths of *Sagitta elegans*, annual and
seasonal dynamics, occurrence compared with
other geographic areas
Sagitta elegans (body cavity): Chupinsk
bay, Kandalakshsk gulf, White Sea
- Pseudophyllidean* larvae
MacKenzie, K.; and Gibson, D. I., 1970, Symposia
Brit. Soc. Parasitol., v. 8, 1-42
Pleuronectes platessa (visceral cavity):
Scotland
- Pseudophyllidean* plerocercoid
Meyers, T. R., 1978, Proc. Helminth. Soc.
Washington, v. 45 (1), 120-128
Paralichthys dentatus
Pomatomus saltatrix
(intestinal wall of all): all from Raritan
Bay, New Jersey
- Pseudotobothrium* Dollfus, 1942
Cruz-Reyes, A., [1974], An. Inst. Biol., Univ.
Nac. Mexico, v. 44 (1), s. Zool., 1973, 25-34
subgen. of *Tobothrium*, redefined
- Ptychobothriidae* Luehe, 1902
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
Amphicotyloidea n. superfam.
includes: *Ptychobothriinae*; *Polyoncobothriinae*
n. subfam.
- Ptychobothriinae* Luehe, 1899
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
Ptychobothriidae
includes: *Ptychobothrium* (type gen. of
subfam.); *Clestobothrium*; *Coelobothrium*;
Ichtbothium; *Plicatobothrium*
- Ptychobothrium* Loennberg, 1889
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
Ptychobothriidae, *Ptychobothriinae*
- Ptychobothrium chelai* Shinde and Deshmukh
(1976) (in press) [?nom. nud.]
Chincholikar, L. N.; et al., 1976, Marathwada
Univ. J. Sc. (Nat. Sc.), v. 15 (8), 277-280
- Ptychobothrium clupeioidesii* n. sp., illus.
Chincholikar, L. N.; et al., 1976, Marathwada
Univ. J. Sc. (Nat. Sc.), v. 15 (8), 277-280
Chela clupeioides (intestine): Aurangabad,
Maharashtra, India
- Ptychobothrium khami* Shinde and Deshmukh (1976)
(in press) [?nom. nud.]
Chincholikar, L. N.; et al., 1976, Marathwada
Univ. J. Sc. (Nat. Sc.), v. 15 (8), 277-280
- Ptychobothrium phuloi* Shinde and Deshmukh (1976)
(in press) [?nom. nud.]
Chincholikar, L. N.; et al., 1976, Marathwada
Univ. J. Sc. (Nat. Sc.), v. 15 (8), 277-280
- Ptychobothrium ratnagiriensis* Deshmukh and
Shinde (1976) (in press) [?nom. nud.]
Chincholikar, L. N.; et al., 1976, Marathwada
Univ. J. Sc. (Nat. Sc.), v. 15 (8), 277-280
- Pyramicocephalus phocarum* (Fabricius, 1780),
illus.
Grabda, J., 1977, Acta Ichthyol. et Piscat.,
v. 7 (2), 15-34
degree of parasite infestation of *Theragra*
chalcogramma (between pyloric processes,
stomach, gonads, intestine, dorsal muscles),
commercial value: imported from USSR
- Pyramicocephalus phocarum* (Fabricius, 1780)
Popov, V. N., 1975, Parazitologiya, Leningrad,
v. 9 (1), 31-36
helminth fauna of *Histriophoca fasciata*, intensity
and extensity, host age dynamics
Histriophoca fasciata (stomach, intestine):
southern Okhotsk Sea
- Pyramicocephalus phocarum* Fabricius, 1780
Tsimbaliuk, E. M.; and Semeshko, N. N., 1971,
Parazitologiya, Leningrad, v. 5 (5), 424-428
Eleginus navaga gracilis
Myoxocephalus platicephalus platicephalus
all from littoral zone of Okhotsk Sea near
entrance to Penzhinsk zaliv, western Kamchatka

- Raillietina (Raillietina) sp., similar to *R. blanchardi* of Baylis (1926) (nec *R. blanchardi* Parona 1898)
 Betterton, C., 1979, Internat. J. Parasitol., v. 9 (4), 313-320
 intestinal helminths of small mammals, patterns of parasitism with respect to host ecology
Rattus sabanus
R. cremoriventer
 all from Peninsular Malaysia
- Raillietina sp.
 Carneiro, J. R.; et al., 1975, Rev. Patol. Trop., v. 4 (1), 39-41
Columbia livia domestica: Goiania, Brazil
- Raillietina sp.
 Davidson, W. R.; et al., 1977, Proc. Helminth. Soc. Washington, v. 44 (2), 156-161
Bonasa umbellus: West Virginia
- Raillietina sp.
 Hodasi, J. K. M., 1976, Bull. Animal Health and Prod. Africa, v. 24 (1), 81-87
 incidence and intensity
Numida meleagris galeata (small intestine): markets of Ghana
- Raillietina sp.
 Kamara, J. A., 1975, Bull. Animal Health and Prod. Africa, v. 23 (3), 265-268
Stigmatopelia senegalensis: Sierra Leone
- Raillietina sp.
 Kamiya, H.; and Machida, M., 1977, Bull. National Sc. Mus., s. A, Zool., v. 3 (3), 125-129
Rattus rattus: Ishigaki-jima Island, Okinawa Prefecture, Japan
- Raillietina sp.
 Rego, A. A., 1967, Atas Soc. Biol. Rio de Janeiro, v. 11 (2), 79-80
 Agouti paca (intestino delgado): Pereru, Municipio de Caetano de Odívelas, Estado do Para
- Raillietina sp.
 Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
Ortalis canicollis: Chaco Boreal, western Paraguay
- Raillietina spp.
 Shotter, R. A., 1978, Zool. J. Linn. Soc., London, v. 62 (2), 193-203
 parasites of *Columba guinea*, intensity of infection, sex of host: Ahmadu Bello University Campus, Zaria, Nigeria
- Raillietina sp.
 Yap, L. F.; et al., 1977, Southeast Asian J. Trop. Med. and Pub. Health, v. 8 (3), 345-353
Rattus tiomanicus (small intestines): Jenderak Utara, Malaysia
- Raillietina bakeri
 Mollhagan, T., 1978, Southwest. Nat., v. 23 (3), 401-407
 helminths of *Sigmodon hispidus* from 2 mesic and 3 upland habitats in western Texas, incidence and prevalence, influence of host habitat on parasite fauna composition, comparison of 5 Texas sites with each other and with 3 sites in Florida
Sigmodon hispidus: western Texas
- Raillietina (Paroniella) barmerensis n. sp., illus.
 Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
 key
Corvus splendens (intestine): Nehru Nagar, Barmer Dist., Rajasthan, India
- Raillietina (Paroniella) barmerensis
 Spasskii, A. A., 1978, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (3), 88-89
 Davaineidae, more description needed, species inquirenda
- Raillietina (Skrjabinia) bodkini Vevers, 1923
 Spasskii, A. A., 1979, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (1), 67-70
 as syn. of *Kowalewskiella bodkini* (Vevers, 1923) Burt, 1969
- Raillietina (R.) caballeri sp. nov., illus.
 Rysavy, B.; and Macko, J. K., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 367-370
Zenaida aurita zenaida (small intestine): Cayo Cantiles Island, Province Las Villas, Cuba
- Raillietina campanulata (Fuhrmann, 1909) Fuhrmann, 1932
 Spasskii, A. A., 1979, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (1), 67-70
 as syn. of *Daveneolepis campanulata* (Fuhrmann, 1909) comb. n.
- Raillietina caucasica, illus.
 Poliakova-Krusteva, O.; and Vasilev, I., 1976, Khelminnologiia, Sofiia, v. 2, 75-88
Raillietina caucasica, tegument, ultrastructure
- Raillietina caucasica, illus.
 Vasilev, I.; Poliakova-Krusteva, O.; and Gorchilova, L., 1976, Khelminnologiia, Sofiia, v. 2, 42-49
Raillietina spp., enzyme identification and distribution in tegument, differences among species in degree of enzyme manifestation interpreted as due to localization of species in chick intestine
- Raillietina (R.) celebensis (Janicki, 1902) Furmann, 1920, illus.
 Fain, A.; et al., 1977, Ann. Soc. Belge Med. Trop., v. 57 (3), 137-142
Raillietina celebensis, human infant, case report, mixed infection with *Trichuris trichiura*, complete recovery after treatment with mebendazole: Papeete, Tahiti, emigrated to Belgium
 synonymy, description
- Raillietina celebensis (Janicki, 1902)
 Kamiya, M.; and Kanda, T., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (4), 271-275
Rattus norvegicus
R. rattus
 all from Ishigaki Is., southwestern Japan
- Raillietina (R.) celebensis var. paucicapsulata Meggitt & Subramanian, 1927
 Fain, A.; et al., 1977, Ann. Soc. Belge Med. Trop., v. 57 (3), 137-142
 as syn. of *Raillietina (R.) celebensis* (Janicki, 1902) Furmann, 1920

- Raillietina cesticillus*
Jurasek, V.; and Ovies Diaz, D., 1975, *Folia Vet.*, v. 19 (1-2), 173-189
cestodes and nematodes, *Gallus gallus f. domestica*, seasonal dynamics, prevalence, breed and age of host: Havana province, Cuba
- Raillietina cesticillus*
Matta, S. C.; and Ahluwalia, S. S., 1979, *Indian Vet. J.*, v. 56 (7), 616-617
helminths, poultry, helmintha-P, sonex
- Raillietina cesticillus*
Moya, A.; Flores, R.; and Ovies, D., 1977, *Rev. Cubana Cien. Vet.*, v. 8 (1), 25-29
helminths, *Gallus gallus domestica* fed insect intermediate hosts
Gallus gallus domestica (exper.)
Dermestes ater: Cuba
Musca domestica: "
- Raillietina cesticillus*, illus.
Parshad, V. R.; and Guraya, S. S., 1977, *Ztschr. Parasitenk.*, v. 52 (1), 81-89
Ascaridia galli, *Cotylophoron cotylophorum*, *Raillietina cesticillus*, histochemistry of excretory systems, localization of lipids, carbohydrates, and hydrolytic enzymes; substance transportation and ionic regulation discussed
- Raillietina cesticillus*
Parshad, V. R.; and Guraya, S. S., 1978, *Vet. Parasitol.*, v. 4 (2), 111-120
4 helminth spp., comparison of phosphatases, effects of pH, various chemicals, and some anthelmintics on enzyme activity, anthelmintics may affect absorptive process in worms by virtue of their effect on phosphatase system at absorptive surfaces
- Raillietina cesticillus*
Vasilev, I.; Denev, I.; and Kostov, R., 1977, *Vet.-Med. Nachr.* (2), 149-152
cestodes of poultry, droncit, highly effective
- Raillietina cesticillus*, illus.
Vasilev, I.; Poliakova-Krusteva, O.; and Gorchilova, L., 1976, *Khelmitologiya, Sofiia*, v. 2, 42-49
Raillietina spp., enzyme identification and distribution in tegument, differences among species in degree of enzyme manifestation interpreted as due to localization of species in chick intestine
- Raillietina echinobothrida*
Jurasek, V.; and Ovies Diaz, D., 1975, *Folia Vet.*, v. 19 (1-2), 173-189
cestodes and nematodes, *Gallus gallus f. domestica*, seasonal dynamics, prevalence, breed and age of host: Havana province, Cuba
- Raillietina echinobothrida*
Matta, S. C.; and Ahluwalia, S. S., 1979, *Indian Vet. J.*, v. 56 (7), 616-617
helminths, poultry, helmintha-P, sonex
- Raillietina echinobothridia*
Sinha, D. P.; Sircar, M.; and Singh, S. P., 1978, *Indian J. Animal Research*, v. 12 (2), 97-101
trematodes, cestodes, glycogen distribution, histochemistry; metabolism discussed
Columba livia (small intestine)
- Raillietina echinobothridia*
Sircar, M.; and Sinha, D. P., 1978, *Indian J. Animal Research*, v. 12 (1), 27-30
Lytocestus indicus, *Duthiersia fimbriata*, *Raillietina echinobothridia*, histochemical study, sites of alkaline phosphatase activity pigeon
- Raillietina echinobothridia*
Sircar, M.; and Sinha, D. P., 1979, *Indian J. Animal Research*, v. 13 (1), 23-26
Lytocestus indicus, *Duthiersia fimbriata*, *Raillietina echinobothridia*, water and protein content
pigeon (small intestine)
- Raillietina echinobothrida*
Vasilev, I.; Denev, I.; and Kostov, R., 1977, *Vet.-Med. Nachr.* (2), 149-152
cestodes of poultry, droncit, highly effective
- Raillietina echinobothrida*, illus.
Vasilev, I.; Poliakova-Krusteva, O.; and Gorchilova, L., 1976, *Khelmitologiya, Sofiia*, v. 2, 42-49
Raillietina spp., enzyme identification and distribution in tegument, differences among species in degree of enzyme manifestation interpreted as due to localization of species in chick intestine
- Raillietina (R.) galeritae* (Skrjabin, 1915)
Baer, 1931, illus.
Baugh, S. C.; and Saxena, S. K., 1976, *Ang. Parasitol.*, v. 17 (3), 146-160
redescription, measurements
Passer domesticus: Lucknow, India
- Raillietina (R.) garrisoni* Tubanguai, 1931
Fain, A.; et al., 1977, *Ann. Soc. Belge Med. Trop.*, v. 57 (3), 137-142
as syn. of *Raillietina (R.) celebensis* (Janicki, 1902) Furmann, 1920
- Raillietina (Raillietina) johri*, illus.
Roy, T. K., 1979, *J. Helminth.*, v. 53 (3), 261-263
Raillietina johri, nucleoside diphosphatase, thiamine pyrophosphatase, histochemical localization
- Raillietina (Raillietina) johri*, illus.
Roy, T. K., 1979, *J. Helminth.*, v. 53 (1), 45-49
Raillietina johri, nonspecific and specific phosphatases, histochemical localization
- Raillietina (R.) murium* Joyeux et Baer, 1936
Fain, A.; et al., 1977, *Ann. Soc. Belge Med. Trop.*, v. 57 (3), 137-142
as syn. of *Raillietina (R.) celebensis* (Janicki, 1902) Furmann, 1920
- Raillietina (Raillietina) nagpurensis* Moghe, 1925, illus.
Malviya, H. C.; and Dutt, S. C., 1971, *Proc. National Acad. Sc., India, sec. B*, v. 41 (4), 351-356
description, life history
Columba livia intermedia (nat. and exper.): Bareilly
Pheidole rhombinoda (haemocoel of gaster)
- Raillietina (Raillietina) nagpurensis* Moghe, 1925
Mukherjee, R. P., 1970, *Rec. Zool. Surv. India*, v. 62 (3-4), 1964, 191-215
key
Columba livia (intestine): Jaisalmer, Rajasthan, India

- Raillietina* (Fuhrmannetta) nepalis Sharma, 1943
Spasskii, A. A., 1979, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (1), 67-70
Raillietina (Fuhrmannetta) nepalis transferred to Dilepididae, provisionally to Monopylidium, but new combination not created because *R. (F.) nepalis* is possibly a synonym of *Monopylidium passerinum*
- Raillietina* (*Raillietina*) polychalix (Kotlan)
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
synonymy, key
Columba livia (intestine): Bikaner city, Rajasthan, India
- Raillietina* (*Raillietina*) quadritesticulata Moghe, 1925
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
key
Streptopelia senegalensis (intestine): Jaisalmer city, Rajasthan, India
- Raillietina* sigmodontis
Ubelaker, J. E.; and Hall, N. M., 1979, J. Parasitol., v. 65 (2), 307
Sigmodon hispidus: Texas
- Raillietina* (R.) sinensis Hsu, 1935
Fain, A.; et al., 1977, Ann. Soc. Belge Med. Trop., v. 57 (3), 137-142
as syn. of *Raillietina* (R.) celebensis (Janicki, 1902) Furmann, 1920
- Raillietina* siriraji
Chaiyaporn, V.; and Patharangkura, P., 1975, Siriraj Hosp. Gaz., v. 27 (12), 1959-1963
Raillietina siriraji, attempts to infect *Tribolium confusum* and *Sitophilus oryzae* unsuccessful, concluded that they are not intermediate hosts of this parasite
- Raillietina* siriraji Chandler et Pradatsundarasar, 1957
Fain, A.; et al., 1977, Ann. Soc. Belge Med. Trop., v. 57 (3), 137-142
as syn. of *Raillietina* (R.) celebensis (Janicki, 1902) Furmann, 1920
- Raillietina* sphaeroides (Clerc, 1903) Fuhrmann, 1920
Spasskii, A. A., 1979, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (1), 67-70
Raillietina sphaeroides, morphological and ecological characters indicate that it belongs to Idiogenidae and Idiogenes; combination with Idiogenes not made by earlier authors because species can not be differentiated from *Idiogenes flagellum*
- Raillietina* tetragona, illus.
Chowdhury, N.; and Singh, A. I., 1978, Ztschr. Parasitenk., v. 56 (3), 309-312
Raillietina tetragona, *R. tunetensis*, distribution of calcareous corpuscles in pre-gravid and gravid proglottids and role in formation of egg-pouches
- Raillietina* tetragona
Jurasek, V.; and Oviés Diaz, D., 1975, Folia Vet., v. 19 (1-2), 173-189
cestodes and nematodes, *Gallus gallus* f. domestica, seasonal dynamics, prevalence, breed and age of host: Havana province, Cuba
- Raillietina* tetragona
Kellogg, F. E.; Doster, G. L.; and Johnson, J. K., 1971, J. Wildlife Dis., v. 7 (3), 186-187
Indian red junglefowl, pen-raised (small intestine)
- Raillietina* tetragona
Nadakal, A. M.; and Nair, K. V., 1979, Indian J. Exper. Biol., v. 17 (3), 310-311
Raillietina tetragona-infected domestic fowl, disturbances of carbohydrate metabolism
- Raillietina* tetragona, illus.
Poliakova-Krusteva, O.; and Vasilev, I., 1976, Khelmintologiya, Sofiia, v. 2, 89-103
Raillietina tetragona, tegument, ultrastructure
- Raillietina* tetragona
Srivastava, G. C.; and Kumar, J., 1979, Indian Vet. Med. J., v. 3 (2), 85-87
Raillietina tetragona, poultry, wopell expels segments but not scolices
- Raillietina* tetragona, illus.
Vasilev, I.; Poliakova-Krusteva, O.; and Gorchilova, L., 1976, Khelmintologiya, Sofiia, v. 2, 42-49
Raillietina spp., enzyme identification and distribution in tegument, differences among species in degree of enzyme manifestation interpreted as due to localization of species in chick intestine
- Raillietina* (*Raillietina*) torquata (Meggett, 1924) Southwell 1930, illus.
Malviya, H. C.; and Dutt, S. C., 1971, Proc. National Acad. Sc., India, sec. B, v. 41 (4), 357-362
description, life history
Syn.: *R. (R.) torquata* var. rajae
Columba livia intermedia (nat. and exper.): Bareilly
Pheidole rhombinoda (haemocoel of gaster)
- Raillietina* (*Raillietina*) torquata (Meggett, 1924) Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
synonymy, key
Columba livia (intestine): Jaisalmer, Rajasthan, India
- Raillietina* (*Raillietina*) torquata var. rajae
Malviya, H. C.; and Dutt, S. C., 1971, Proc. National Acad. Sc., India, sec. B, v. 41 (4), 357-362
as syn. of *R. (R.) torquata* (Meggett, 1924) Southwell 1930
- Raillietina* tapeczoides [i.e. ?trapezoides]
Leong, T. S.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 122-126
parasites of *Rattus r. diardii*, influence of human habitats on rat parasite fauna
Rattus rattus diardii (small intestine): Kuala Lumpur and nearby villages
- Raillietina* tunetensis, illus.
Chowdhury, N.; and Singh, A. I., 1978, Ztschr. Parasitenk., v. 56 (3), 309-312
Raillietina tetragona, *R. tunetensis*, distribution of calcareous corpuscles in pre-gravid and gravid proglottids and role in formation of egg-pouches

- Raillietina (s.l.) vaganda (Baylis, 1919) Fuhrmann, 1920
 Spasskii, A. A., 1979, Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk (1), 67-70
 characters more closely resemble those of Idiogenes
- Raillietina williamsi
 Jackson, J. W.; Andrews, R. D.; and Ridgeway, B. T., 1977, Tr. Illinois State Acad. Sc., v. 69 (4), 455-460
 Meleagris gallopavo silvestris (alimentary tract): Illinois
- Renyxa gen. n.
 Kurochkin, Iu. V.; and Slankis, A. Ia., 1973, Parazitologija, Leningrad, v. 7 (6), 502-508
 Litobothridae

 Eucyclops serrulatus (exper.)
 Mesocyclops leuckarti (exper.)
- Retinometra guberiana Czaplinski, 1965
 Misiura, M.; and Szelenbaum, D., 1975, Acta Parasitol. Polon., v. 23 (26-40), 347-353
 Sobolevicanthus gracilis, Retinometra guberiana, differentiation of larvae on the basis of development in different intermediate hosts and morphology
 Eucyclops serrulatus (nat. and exper.): Guber Lake, Mazurian Lakeland
- Retinometra longivaginata (Furhmann, 1906)
 Neraasen, T. G.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 277-289
 analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
 Anser caerulescens caerulescens
 Anser albifrons
 Branta bernicla nigricans
 all from Anderson River Delta, Northwest Territories, Canada
- Retinometra macracanthos (Linstow, 1877) Spassky, 1963, illus.
 Brglez, J., 1974, Zborn. Bioteh. Fak. Univ. Ljubljani, Vet., v. 11 (1-2), 177-186
 Anas platyrhynchos
 A. crecca
 all from Slovenia
- Retinometra macracanthos
 Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
 Arctodiaptomus salinus
 Arctodiaptomus bacillifer
 all from Kazakhstan
- Retinometra pittalugai
 Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
 Arctodiaptomus salinus
 Arctodiaptomus bacillifer
 all from Kazakhstan
- Retinometra pittalugai
 Hair, J. D.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 253-269
 usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of Aythya affinis (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
 Aythya affinis: Alberta, Canada
- Retinometra skrjabini
 Dobrokhotova, O. V., 1975, Acta Parasitol. Polon., v. 23 (12-25), 237-242
 Arctodiaptomus salinus
 Arctodiaptomus bacillifer
 all from Kazakhstan
- Retinometra venusta (Rosseter, 1897)
 Neraasen, T. G.; and Holmes, J. C., 1975, Acta Parasitol. Polon., v. 23 (12-25), 277-289
 analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
 Anser albifrons: Anderson River Delta, Northwest Territories, Canada
- Retinometra venusta (Rosseter, 1897), illus.
 Tolkacheva, L. M., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 21, 99-110
 description of cysticeroid
 Aythya ferina
 A. fuligula
 Diaptomus graciloides
 all from Karasuk lakes (Novosibirsk oblast, Western Siberia)
- Rhabdometra Cholodkowsky, 1906
 Olsen, O. W.; Haskins, A. G.; and Braun, C. E., 1978, Canad. J. Zool., v. 56 (3), 446-450
 key to species, includes: Rhabdometra setosa Fediushin, 1953; R. odiosa (Leidy, 1887); R. alpinensis n. sp.; R. nullicollis Ransom, 1909; R. tomica Cholodkowsky, 1906; R. cylindrica Beddard, 1914; R. dogieli Gvozdev, 1954; R. nigropunctata (Crety, 1890)
- Rhabdometra alpinensis n. sp., illus.
 Olsen, O. W.; Haskins, A. G.; and Braun, C. E., 1978, Canad. J. Zool., v. 56 (3), 446-450
 key
 Lagopus leucurus altipetens (small intestine): alpine regions of Rocky Mountains of northern Colorado, U.S.A.
- Rhabdometra terricoli Sharma (1947)
 Olsen, O. W.; Haskins, A. G.; and Braun, C. E., 1978, Canad. J. Zool., v. 56 (3), 446-450
 to Anonchotaenia [comb. not made]

- Rodentolepis* sp.
 Babero, B. B.; Cabello C., C.; and Kinoed, J. E., 1979, *Bol. Chileno Parasitol.*, v. 34 (1-2), 26-31
Myocastor coypus (intestino delgado): Chile
- Rodentolepis asymmetrica* (Janicki, 1904) Spassky, 1954
 Kisielewska, K., 1970, *Acta Parasitol. Polon.*, v. 18 (13-26), 163-176
 structure and seasonal dynamics of intestinal helminth groupings in *Clethrionomys glareolus* populations of various forest biocoenoses in Poland
- Rodentolepis erinacei* (Gmelin, 1789), *illus.*
 Prokopic, J., 1971, *Folia Parasitol.*, v. 18 (1), 27-32
Rodentolepis erinacei, life cycle, hedgehogs, beetles
Erinaceus europaeus (nat. and exper.): Czechoslovakia
E. roumanicus: Czechoslovakia
Necrophorus humator (nat. and exper.): southern Bohemia
N. vespillo (nat. and exper.): southern Bohemia
Ocecoptoma thoracica (nat. and exper.): southern Bohemia
Geotrupes stercorosus (nat. and exper.): southern Bohemia
Silpha obscura: southern Bohemia
- Rodentolepis evaginata* (Barker and Andrews 1915)
 Dyer, W. G.; and Klimstra, W. D., 1977, *Tr. Illinois State Acad. Sc.*, v. 70 (3-4), 356-362
Ondatra zibethicus (small intestine): southern Illinois
- Rodentolepis hattorii* n. sp., *illus.*
 Sawada, I., 1978, *Annot. Zool. Japon.*, v. 51 (3), 155-163
Rhinolophus ferrumequinum (small intestine): Yoshitsune-dokutsu Cave, Mashike-cho, Hokkaido, Japan
- Rodentolepis straminea* (Goeze, 1782) Spassky, 1954
 Babaev, Ia., 1976, *Izvest. Akad. Nauk Turkmen. SSR*, s. *Biol. Nauk* (4), 68-74
Mus musculus: area of Karakum canal, Turkmenistan
- Rodentolepis straminea* (v. Siebold, 1852)
 Haak, W.; et al., 1972, *Ang. Parasitol.*, v. 13 (4), 200-207
 cestodes of humans, recommended drug therapy
- Rowardleus pennensis*
 Deutsch, W. G., 1977, *Proc. Pennsylvania Acad. Sc.*, v. 51 (2), 122-124
Carpiodes cyprinus (intestine): Susquehanna River, Pennsylvania
- Rudolphiella Fuhrmann*, 1916
 Brooks, D. R., 1978, *System. Zool.*, v. 27 (3), 312-323
 Monticelliidae, Monticelliinae
- Sacciuterina paradoxa* (Rudolphi, 1802), *illus.*
 Matsaberidze, G. V.; and Kvavadze, E. Sh., 1977, *Soobshch. Akad. Nauk Gruzinsk. SSR*, v. 88 (3), 677-680
 description
Dendrobaena veneta: Mtskheta region, Georgian SSR
Eiseniella tetraedra: Mtskheta region, Georgian SSR
Lumbricus rubellus: near g. Vil'nus, Lithuanian SSR
Octolasmus lacteus: near g. Vil'nus, Lithuanian SSR
 (body cavity of all)
- Sandonella* Khalil, 1960
 Brooks, D. R., 1978, *System. Zool.*, v. 27 (3), 312-323
 Proteocephalidae, Sandonellinae
- Sandonellinae
 Brooks, D. R., 1978, *System. Zool.*, v. 27 (3), 312-323
 Proteocephalidae
 includes: *Sandonella*
- Schistocephalus* sp.
 Kilejian, A.; and MacInnis, A. J., 1976, *Rice Univ. Studies*, v. 62 (4), 161-174
 12 helminth species, DNA buoyant density and base composition, analysis of satellite DNAs of *Hymenolepis* spp., satellite DNA and chromosome diminution in *Ascaris lumbricoides*
- Schistocephalus pungitii*
 Kazakov, B. E., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 64-70
Pungitius pungitius
Gasterosteus aculeatus
 all from Kol'skii peninsula, USSR
- Schistocephalus pungitii* Dubinina, 1959
 Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
Gasterosteus aculeatus (body cavity): Gdansk Bay (Baltic Sea)
- Schistocephalus solidus* (O. F. Mueller, 1780)
 Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Cottus cognatus (body cavity): Aishihik Lake, Yukon Territory
- Schistocephalus solidus* (Mueller, 1776)
 Bain, G. A.; and Threlfall, W., 1977, *Proc. Helminth. Soc. Washington*, v. 44 (2), 219-221
Lophodytes cucullatus: Ontario
- Schistocephalus solidus*
 Beis, I.; and Barrett, J., 1979, *Internat. J. Parasitol.*, v. 9 (5), 465-468
Schistocephalus solidus, activated and non-activated plerocercoids, contents of adenine nucleotides and glycolytic and tricarboxylic acid cycle intermediates
- Schistocephalus solidus*, *illus.*
 Hopkins, C. A.; Law, L. M.; and Threadgold, L. T., 1978, *Exper. Parasitol.*, v. 44 (2), 161-172
Schistocephalus solidus plerocercoid, pinocytic uptake of macromolecules by tegument

- Schistocephalus solidus*, illus.
Kotikova, E. A.; and Kuperman, B. I., 1978, Biol. Moria, Vladivostok (6), 41-46
Pseudophyllidea nervous systems, morphology, changes in scolex structure related to changes in nervous system structure
Gasterosteus aculeatus
Larus ridibundus
all from Azabach'e Lake, Kamchatka
- Schistocephalus solidus* (Mueller)
Lester, R. J. G., 1974, Syesis, v. 7, 195-200
Gasterosteus aculeatus (coelomic cavity): near Vancouver, British Columbia
- Schistocephalus solidus*
Orr, T. S. C.; and Hopkins, C. A., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 741-752
Schistocephalus solidus, procedures for maintenance in laboratory, growth of plerocercoids, relationship between number of proglottids and weight (age) of plerocercoid
Anas boschas
Gallus domesticus
Cyclops agilis
Mesocyclops leuckartii
Diaptomus gracilis
Gasterosteus aculeatus
(all exper.)
- Schistocephalus solidus*
Shishova-Kasatochkina, O. A.; and Dubovskaja, A. J., 1975, Acta Parasitol. Polon., v. 23 (26-40), 389-393
6 cestode species, proteinase activity, differences in adult and larval parasites, differences in relation to class of vertebrate host, high proteolytic activity in *Schistocephalus solidus* tegument
- Schistocephalus solidus* Mueller
Vysotskaia, R. U.; and Sidorov, V. S., 1973, Parazitologiya, Leningrad, v. 7 (1), 51-57
8 helminth species from freshwater fish, lipid content, variation with respect to parasite maturity, host species and habitat, and season
- Schistometra nigriceps* sp. nov., illus.
Gupta, P. D., 1976, J. Bombay Nat. Hist. Soc., v. 73 (1), 183-186
Choriotis nigriceps (intestine): Pokaran (Jaisalmer District), Rajasthan, India
- Schistotaenia scolopendra* (Diesing, 1856), illus.
Rysavy, B.; and Macko, J. K., [1973], An. Inst. Biol., Univ. Nac. Mexico, v. 42 (1), s. Zool., 1971, 1-28
description
Podiceps dominicus (intestine): Guanahacabibes, province Pinar del Rio and Playa Larga, province Las Villas, Cuba
- Schizorchis ochotonae*
Grundmann, A. W.; Warnock, R. G.; and Wassom, D. L., 1976, Am. Midland Naturalist, v. 95 (2), 347-360
mechanisms of natural regulation of parasitic helminth populations
Ochotona princeps: western Utah
- Sciadocephalus incertae sedis*
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Proteocephalidae, Corallobothriinae
- Scolex* sp., illus.
Threlfall, W., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 805-811
Squalus acanthias (liver): Newfoundland
- Scolex pleuronectis*
Chernyshenko, A. S., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 105-113
ichthyoparasite fauna, extensity and intensity of invasion, species composition [Pisces] bychok-zelenchak [Pleuronectes flesus]
all from 4 estuaries, Black Sea (northern coastal region)
- Scolex pleuronectis* Mueller, 1776
Gaevskaia, A. V., 1978, Zool. Zhurnal, v. 57 (8), 1262-1263
Tentacularia coryphaenae and *Scolex pleuronectis* larvae accidentally hyperparasitic in *Phyllobothrium* sp. larvae in *Sthenoteuthis pteropus*
- Scolex pleuronectis* Mueller, 1776
Gaevskaia, A. V.; and Umnova, B. A., 1977, Biol. Moria, Vladivostok (4), 40-48
fishes (alimentary canal): Northwest Atlantic
- Scolex pleuronectis* Mueller
Ivanchenko, O. F.; and Grozdilova, T. A., 1971, Parazitologiya, Leningrad, v. 5 (3), 233-236
Clupea harengus pallasi natio maris-albi (digestive tract), larvae and fry bred under artificial conditions
- Scolex pleuronectis* Mueller, 1788
Kulachkova, V. G., 1972, Parazitologiya, Leningrad, v. 6 (3), 297-304
helminths of *Sagitta elegans*, annual and seasonal dynamics, occurrence compared with other geographic areas
Sagitta elegans (body cavity, intestine): Chupinsk bay, Kandalakshsk gulf, White Sea
- Scolex pleuronectis* Mueller, 1788
Meyers, T. R., 1978, Proc. Helminth. Soc. Washington, v. 45 (1), 120-128
Brevoortia tyrannus (intestine, pyloric caeca)
Cynoscion regalis (intestine, stomach, common and cystic bile ducts)
Merluccius bilinearis (pyloric caeca, intestine)
Myoxocephalus octodecemspinosus (intestine)
Paralichthys dentatus (intestine, pyloric caeca, common and cystic bile ducts, stomach)
Peprilus triacanthus (intestine)
Pomatomus saltatrix (intestine, pyloric caeca)
all from Raritan Bay, New Jersey
- Scolex pleuronectis*
Naidenova, N. N., 1966, Respublik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 46-51
larval form, intensity of infestation
Gobius melanostomus
G. batrachocephalus
G. fluviatilis
G. ratan
G. cephalarges
G. niger
G. cobitis
G. ophiocephalus
all from Black Sea [and/or] Azov Sea

- Scolex pleuronectis* Mueller, 1788
Nikolaeva, V. M.; and Kovaleva, A. A., 1966, Republik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 67-79
Trachurus mediterraneus (intestine): Adriatic Sea; Tyrrhenian Sea; Mediterranean Sea
T. picturatus: Aegean Sea
T. mediterraneus ponticus: Mediterranean basin
- Scolex pleuronectis* Muller, 1788
Parukhin, A. M., 1966, Republik. Mezhvedomstv. Sborn., Akad. Nauk Ukrain. SSR, s. Biol. Moria, 80-96
synonymy
Carangidae (gall bladder, intestine): South China Sea

Nama, H. S.; and Khichi, P. S., 1975, Acta Parasitol. Polon., v. 23 (12-25), 223-228
measurements
Columba livia (intestine): Jodhpur, Rajasthan, India
- Sobolevicanthus serratus birmanicus* (Meggitt, 1924)
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
key
Syn.: *Hymenolepis rugosa birmanica* Meggitt, F. J., 1924
Columba livia (intestine): Bikaner, Rajasthan, India
- Sparganosis**
Wang, L. T.; and Cross, J. H., 1974, Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.), v. 73 (3), 173-177
sparganosis, humans (eye, face, neck, thigh), 2 case reports, clinical review; one sparganum tentatively identified as *Diphyllobothrium mansonii* after recovery from intestine of cat to which sparganum had been fed: Taiwan
- Sparganum, illus.**
Chen, T. Y.; and Cross, J. H., 1975, Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.), v. 74 (7), 515-516
sparganosis, woman, mass on right thigh, case report: Kaohsiung Hsien, Taiwan
- Sparganum, illus.**
Lee, Y. G.; Ro, B. I.; and Kim, J. W., 1972, Taehan Pibukwa Hakhoe (Korean J. Dermat.), v. 10 (3-4), 203-206
sparganosis, adult brother and sister, subcutaneous nodular mass on leg, case reports
- Sparganum [sp.]**
Bennett, L. J., 1978, J. Parasitol., v. 64 (1), 182-185
Australian spargana, mice, immunological responses (tissue reactions, precipitation antibodies, anaphylactic reactions) not found to be weak or abnormal
Bufo marinus: Queensland, Australia
- Sparganum sp.**
Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
Euphractus sexcinctus flavimanus: Chaco Boreal, western Paraguay
- Sparganum [sp.]**
Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca fascicularis
M. nemestrina
M. arctoides
all wild caught in Asia, maintained at National Center for Primate Biology
- Sparganum mansonii, illus.**
Araki, T.; et al., 1976, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 25 (5), 343-349
Sparganum mansonii, human, 2 case reports
- Sparganum mansonii, illus.**
Cho, S. Y.; et al., 1974, Taehan Uihak Hyophoe Chi (J. Korean Med. Ass.), v. 17 (5), 367-371
Sparganum mansonii, 2 soldiers (scrotal sac, lower back), had eaten raw snakes and frogs during survival training: Korea
- Sparganum mansonii, illus.**
Nishizuka, K.; Morita, K.; and Oishi, M., 1978, Rinsho Ganka (Japan. J. Clin. Ophth.), v. 32 (10), 1404-1405
Sparganum mansonii, human, sparganum removed from ocular conjunctiva, case report
- Sparganum proliferum, illus.**
Lin, T. P.; et al., 1978, Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.), v. 77 (5), 467-472
Sparganum proliferum, 28-year-old woman, diagnosis by open lung biopsy 7 years after first abnormal chest X-ray manifestations, clinical aspects; sparganum histology: Juei-Fang, Taiwan
- Spathebothrium simplex** Linton, 1922
Nahhas, F. M.; and Krupin, R., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 261-266
Liparis callyodon (intestine): California
- Spatulifer** Woodland, 1934
Brooks, D. R., 1978, System. Zool., v. 27 (3), 312-323
Monticelliidae, Monticelliinae
- Sphenacanthus gracilis**
Tarazona, J. M., 1974, An. Inst. Nac. Invest. Agrar., s. Hig. y San. Animal (1), 161-165
Anas quercula: provincia de Huesca, Espana
- Sphenacanthus venusta** (Rosseter, 1897) Lopez-Neyra, 1942
Beverley-Burton, M., 1975, Acta Parasitol. Polon., v. 23 (12-25), 195-200
Anas platyrhynchos platyrhynchos
A. acuta
(intestine of all): all from south-east England
- Spinilepis gen. n.**
Oshmarin, P. G., 1972, Parazitologiya, Leningrad, v. 6 (6), 558-561
Dilepididae
mt: *S. turnicis* gen. et sp. n.
- Spinilepis turnicis gen. et sp. n., illus. (mt)**
Oshmarin, P. G., 1972, Parazitologiya, Leningrad, v. 6 (6), 558-561
Turnix tanki (intestine): Primorsk krai, near river Mo

- Spirometra* [sp.]
 Dei-Cas, E.; et al., 1976, Rev. Inst. Med. Trop. S. Paulo, v. 18 (3), 165-172
Spirometra [sp.] plerocercoid larvae, survey of wild vertebrates, correlations with previous studies
Leptodactylus ocellatus
Leimadophis poecylogirus
Listrophis d'orbigny
Philodryas patagoniense
Bothrops neuwiedii
 perros (exper.)
 gatos (exper.)
 all from Uruguay
- Spirometra* sp.
 Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
Felis concolor acrocodia: Chaco Boreal, western Paraguay
- Spirometra* sp.
 Wong, M. M.; and Conrad, H. D., 1978, Lab. Animal Sc., v. 28 (4), 412-416
Macaca fascicularis: wild caught in Asia, maintained at National Center for Primate Biology
 cats (exper.)
- Spirometra erinacei*
 Beveridge, I.; Presidente, P. J. A.; and Arundel, J. H., 1978, Austral. Vet. J., v. 54 (1), 46 [Letter]
 feral cat (small intestine): Kinchega National Park, Menindee, New South Wales
- Spirometra erinacei*, illus.
 Yamane, Y.; et al., 1978, Shimane J. Med. Sc., v. 2 (1), 1-14
Spirometra erinacei, plerocercoid and adult worms, transmission and scanning electron microscopic study of excretory canal, functional morphology
- Spirometra gracilis* (Baer, 1927) Wardle, McLeod, et Stewart, 1947
 Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
Felis geoffroyi paraguayae
F. yagouaroundi eyra
 all from Chaco Boreal, western Paraguay
- (?) *Spirometra longicollis* (Parodi et Widakowich, 1917) comb. n.
 Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
 partial description
Felis yagouaroundi eyra: Chaco Boreal, western Paraguay
- Spirometra mansoni*
 Bennett, L. J., 1978, J. Parasitol., v. 64 (1), 182-185
 Australian spargana, mice, immunological responses (tissue reactions, precipitating antibodies, anaphylactic reactions) not found to be weak or abnormal
- Spirometra mansoni*, illus.
 Bennett, L. J., 1978, J. Parasitol., v. 64 (4), 756-759
Spirometra mansoni, immunological responses of *Bufo marinus* to Australian spargana, comparison with reactions of mice
- Spirometra mansonioides*
 Fioravanti, C. F.; and Saz, H. J., 1978, J. Exper. Zool., v. 206 (2), 167-177
Spirometra mansonioides adults, "malic" enzyme, fumarate reductase, and transhydrogenase systems in mitochondria
- Spirometra mansonioides*
 Meyer, H.; Mueller, J.; and Meyer, F., 1978, Biochem. and Biophys. Research Commun., v. 82 (3), 834-839
Spirometra mansonioides, acyl-CoA carboxylase, isolation and some properties
- Spirometra mansonioides*
 Middleton, K. R.; Schaefer, F. W. III; and Saz, H. J., 1979, Experientia, v. 35 (2), 243-244
 4-isothiocyanato-4'-nitrodiphenylamine, antelmintic activity against *Nematospiroides dubius* and *Hymenolepis nana* in mice and *Hymenolepis diminuta* in rats, no activity against *Spirometra mansonioides* in cats
- Spirometra mansonioides*
 Phares, C. K.; and Carroll, R. M., 1978, J. Parasitol., v. 64 (3), 401-405
 effects of bovine pituitary growth hormone vs. *Spirometra mansonioides* plerocercoid growth factor on body growth and lipid composition in diabetic-hypophysectomized rats
- Spirometra mansonioides*
 Phares, C. K.; and Cook, D. E., 1978, J. Parasitol., v. 64 (3), 406-410
 effects of bovine pituitary growth hormone vs. *Spirometra mansonioides* plerocercoid growth factor on metabolism of lymphoid tissue (thymus and spleen) in diabetic-hypophysectomized rats
- Spirometra mansonioides* (Mueller, 1935)
 Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
Felis geoffroyi paraguayae
F. yagouaroundi eyra
Cerdocyon thous
Dusicyon gymnocercus
 all from Chaco Boreal, western Paraguay
- Spirometra mansonioides*
 Steelman, S. L.; et al., 1971, Recent Progr. Hormone Research, v. 27, 97-120
Spirometra mansonioides, comparative study of sparganum growth factor (SGF) and growth hormone: growth-promoting properties, metabolic actions on bone and protein synthesis, effects on carbohydrate and lipid metabolism, source and physicochemical properties of SGF, development of resistance to SGF (result of neutralizing antibodies)
- Staphylepis rustica* Meggitt, 1926
 Nama, H. S.; and Khichi, P. S., 1975, Acta Parasitol. Polon., v. 23 (12-25), 223-228
Columba livia (intestine): Jodhpur, Rajasthan, India
- Staphylocystis* sp. Zdzitowiecki, 1970
 Skvortsov, V. G., 1971, Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk (6), 53-59
 as syn. of *Vampirolepis spasskii* Andreiko, Skvortsov, Konovalov, 1969

- Staphylocystis acuta* (Rudolphi, 1819) Spassky, 1954
Skvortsov, V. G., 1971, *Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk* (6), 53-59
Syn.: *Dicranotaenia acuta* Rudolphi, 1819
- Staphylocystis sindensis* sp. n., illus.
Nama, H. S., 1976, *Acta Parasitol. Polon.*, v. 24 (1-10), 19-22
Suncus murinus sindensis (small intestine): Rajasthan, India
- Staphylocystis syrdariensis* (Skarbilovitsch, 1946) Spassky, 1954
Skvortsov, V. G., 1971, *Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk* (6), 53-59
Syn.: *Dicranotaenia syrdariensis* Skarbilovitsch, 1946
- Stilesia* spp.
Selim, M. K.; et al., 1970, *Vet. Med. J.*, Giza, v. 17 (18), 173-193
camels: imported to United Arab Republic
- Stilesia globipunctata*
Bankov, D., 1976, *Vet. Med. Nauki*, v. 13 (10), 28-36
cestodes of sheep, drug trials; *Stilesia globipunctata*, tested several diagnostic methods with unfavorable results
- Stilesia globipunctata*
Delavenay, R. P., 1978, *Rev. Elevage et Med. Vet. Pays Trop.*, n. s., v. 31 (2), 171-177
parasites of *Camelus dromedarius*, nitroxynil, well tolerated in toxicity assay, very effective against *Cephalopina titillator* and *Haemonchus contortus*: Ethiopia
- Stilesia globipunctata*
Murthy, R. C.; and Tayal, S., 1978, *Ztschr. Parasitenk.*, v. 56 (1), 63-68
Stilesia globipunctata, trehalase, activity in relation to temperature and pH, chemical activators and inhibitors
- Stilesia globipunctata*
Varshney, T. R.; and Singh, Y. P., 1979, *Indian Vet. J.*, v. 56 (3), 207-210
gastrointestinal helminths, sheep, naphthalophos more effective than parabendazole in controlled study under farm conditions
- Stilesia hepatica*
Heinichen, I. G., 1973, *J. South African Vet. Ass.*, v. 44 (3), 265-269
Aepyceros melampus (bile ducts): Nyala Game Ranch, northwest of Empangeni, Zululand
- Stilesia hepatica* (Wollfhuegel, 1903)
Shahlapour, A. A., 1977, *Arch. Inst. Razi* (29), 87-90
Stilesia hepatica, measurements sheep (liver): Khorassan, Iran
- Stilesia vittata* (Raillet, 1896)
Shahlapour, A. A., 1977, *Arch. Inst. Razi* (29), 87-90
Stilesia vittata, measurements sheep goats (intestine of all): all from Khorassan, Iran
- Strobilocephalus triangularis* Diesing, 1850
Dailey, M. D.; and Walker, W. A., 1978, *J. Parasitol.*, v. 64 (4), 593-596
60 stranded and 31 control cetaceans, parasites recovered, associated pathology, role of parasites as possible contributing factor in stranding behavior
Lagenorhynchus obliquidens (colon): southern California
- Strobilocercus fasciolaris* (Batsch, 1786) Lamarck, 1816
Ishimoto, Y., 1974, *Japan. J. Vet. Research*, v. 22 (1-2), 1-12
brief description
Apodemus argenteus hokkaidi (liver): Nopporo National Forest, vicinity of Nopporo, 20 km east of Sapporo, Hokkaido, Japan
- Taenia*
Akhtaruzzaman, K. M.; et al., 1978, *Tropenmed. u. Parasitol.*, v. 29 (4), 427-431
comparison of different methods for detection of intestinal protozoa and helminths in human stool
- Taenia*
Fernandes, J. L.; and Garcia, E., 1971, *Rev. Soc. Brasil. Med. Trop.*, v. 5 (3), 155-158
human intestinal parasites, clinical trials with combined piperazine and thiabendazole: Sao Paulo
- Taenia*
Friedmann, G.; and Thun, F., 1978, *Roentgen-Blaetter*, v. 31 (4), 242-249
radiologic differential diagnosis of intracranial calcifications including those resulting from parasitism
- Taenia*
Ramos Rodriguez, A.; and Mendoza Rangel, M. G., 1973, *Rev. Med.*, Mexico, v. 12 (2), 195-197
pulmonary eosinophilia with asthma-like symptoms, possible relationships with human intestinal parasites, resolution of symptoms after eradication of parasites: Mexico
- Taenia*
Wong, M. M.; and Conrad, H. D., 1978, *Lab. Animal Sc.*, v. 28 (4), 412-416
Macaca mulatta: wild caught in Asia, maintained at National Center for Primate Biology
- Taenia spec.*
Abdel Rahman, M. S.; El Gendi, A. Y. I.; and Moursi, H. S. A., 1977, *J. Egypt. Vet. Med. Ass.*, v. 37 (2), 55-69
nematodes and cestodes, dogs, effectiveness of trichlorfon, oxinotiofos, and carbaryl compared: Giza and Cairo Governorates, Egypt

- Taenia* spp.
Bartlett, M. S.; et al., 1978, J. Clin. Microbiol., v. 7 (6), 524-528
modified zinc sulfate flotation technique evaluated in comparison with formalin-ether concentration method for recovery of protozoan cysts and helminth eggs and larvae from feces preserved in formalin less than and longer than 1 month, results suggest that (except for schistosomes) F-ZnSO₄ compares favorably to FE method for detecting infections of clinical significance
- Taenia* spp.
Blecka, L. J., 1978, J. Parasitol., v. 64 (2), 362-363
patients infected with intestinal parasites, attempt to quantitate immunoglobulin levels in fecal extracts with radial immunodiffusion, mean IgA levels higher than in controls, other immunoglobulin classes rarely detectable
- Taenia* spp.
Burke, T. M.; and Roberson, E. L., 1978, Am. J. Vet. Research, v. 39 (11), 1799-1801
helminths, dogs, fenbendazole, critical trials, no evidence of drug toxicosis
- Taenia* sp.
Chieffi, P. P.; et al., 1974, Rev. Soc. Brasil. Med. Trop., v. 8 (2), 86-91
human intestinal parasites, epidemiologic survey of children in orphanage for methods of transfer of infections (clothing, dust, jewelry, feces, hands, nails, bed linens): Londrina, Parana, Brazil
- Taenia* species, *illus.*
Chiu, J. K.; and Yu, J. Y., 1974, Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.), v. 73 (11), 679-681
Taenia species, morphometric data, clinical case report
boy, Chinese (feces): Taiwan (native of Burma)
- Taenia* sp.
Dubey, S. K.; et al., 1978, J. Med. Chem., v. 21 (11), 1178-1181
Hymenolepis spp., *Taenia* sp., laboratory animals, synthesis and screening of substituted 1-hydroxy-2-naphthanilides as potential cestocidal agents, niclosamide used as reference compound
- Taenia* spp.
Düewel, D., 1978, Kleintier-Praxis, v. 23 (5), 237-242
helminths, dogs, fenbendazole in granule and powder form, anthelmintic efficacy, no undesirable side effects
- Taenia* sp.
Franson, J. C.; et al., 1978, J. Parasitol., v. 64 (2), 303-305
gastrointestinal parasitism in coyotes, relationship of host age and sex to prevalence of infection and parasite load: Iowa
- Taenia* spp.
Girardi, C.; et al., 1977, Ann. Fac. Med. Vet. Torino, v. 24, 82-113
nematodes, cestodes, mebendazole, controlled test, naturally infected dogs or cats; toxicity, absorption and elimination of mebendazole, non-infected dogs, cats and guinea pigs
- Taenia* sp., believed to be *T. serialis*, *illus.*
Hayes, M. A.; and Creighton, S. R., 1978, Canad. Vet. J., v. 19 (12), 341-343
case report
cat (cerebrum): Saskatchewan
- Taenia* sp.
Huggins, D.; et al., 1971, Rev. Soc. Brasil. Med. Trop., v. 5 (5), 291-297
Hymenolepis nana, *Taenia* sp., incidence survey, fecal examinations, 1968-1970: Instituto de Medicina Tropical, Univ. Federal Pernambuco, Brasil
- Taenia* sp.
Katz, N.; and Zicker, F., 1973, Rev. Soc. Brasil. Med. Trop., v. 7 (4), 225-229
Taenia spp., humans, clinical trials with mebendazole
- Taenia* spp.
Loebenber, D.; Counelis, M.; and Waitz, J. A. 1975, Antimicrob. Agents and Chemotherapy, v. 7 (6), 811-815
antibiotic G-418, promising activity against a variety of protozoa and helminths in vivo and in vitro
- Taenia* sp.
Marzochi, M. C. de A., 1970, Rev. Inst. Med. Trop. S. Paulo, v. 12 (4), 249-256
human intestinal parasites, eggs and cysts from water used to irrigate vegetable gardens, increased risk of crop contamination in dry season: Ribeirao Preto, Sao Paulo, Brazil
- Taenia* sp.
Marzochi, M. C. de A., 1977, Rev. Inst. Med. Trop. S. Paulo, v. 19 (3), 148-155
enteroparasitic cysts and eggs, contamination of green vegetables and kitchen garden soils, epidemiological survey, most commonly found during dry-season when fecal polluted brooks were used for irrigation: Ribeirao Preto, Sao Paulo, Brasil
- Taenia* sp., *illus.*
Nansen, P.; and Joergensen, R. J., 1977, Nord. Vet.-Med., v. 29 (6), 263-266
parasite eggs in fecal material from archaeological site, early Viking period (750-800 A. D.): Ribe, Denmark
- Taenia* sp.
Pasricha, A.; and Narang, P., 1978, Indian J. Med. Research, v. 67, 934-936
human intestinal parasites, evaluation of kerosene as substitute for ether in the formol-ether concentration diagnostic technique, morphology of ova and cysts equally well preserved by both techniques
- Taenia* sp.
Rajasekaran, P., 1978, Madras Agric. J., v. 65 (9), 613-616
intestinal parasites, children, infection rates in relation to sources of drinking water (open dug wells, water taps in street, water tap within household): Athur block, Madurai district, Tamil Nadu

- Taenia* sp.
Samuel, W. M.; Ramalingam, S.; and Carbyn, L. N., 1978, *Canad. J. Zool.*, v. 56 (12), 2614-2617
Canis latrans
C. lupus
Vulpes vulpes
(small intestine of all): all from area around Riding Mountain National Park, southwestern Manitoba
- Taenia* sp.
Singh, H.; et al., 1978, *Ztschr. Naturforsch.*, Sect. C, *Biosc.*, v. 33 (5-6), 447-448
Hymenolepis nana, rats, mice, 2'-chloro-1-hydroxy-2-naphthanilide-4'-isothiocyanate, synthesis and cestocidal activity, highly effective and safe, comparative efficacy with yomesan; further tests showed marked activity against *H. diminuta* in rats and *Taenia* sp. in dogs
- Taenia* spp.
Smith, J. P., 1979, *Feline Pract.*, v. 9 (2), 14, 16, 18
intestinal parasites, cats, efficacy of parenteral aqueous levamisole
- Taenia* sp.
de Souza, D. W. C.; Souza, M. S. de L.; and Neves, J., 1973, *Rev. Soc. Brasil. Med. Trop.*, v. 7 (4), 237-241
human polyparasitism, clinical trials with mebendazole, cure rates over 90% with all parasites except *Taenia*: vicinity of Belo Horizonte, Brazil
- Taenia* sp.
de Souza, D. W. C.; Souza, M. S. de L.; and Neves, J., 1973, *Rev. Inst. Med. Trop. S. Paulo*, v. 15 (1), 30-33
human mixed infections, intestinal parasites, mebendazole
- Taenia* sp., *illus.*
Todd, K. S., jr.; and Schmidt, J. M., 1978, *Canine Pract.*, Santa Barbara, v. 5 (1), 39-41
Dipylidium caninum, *Taenia* sp., *Mesocestoides* sp., dogs, differential diagnosis
- Taenia* sp.
Zembrzowski, K.; and Dymowska, Z., 1977, *Przegl. Epidemiol.*, v. 31 (3), 345-349
human *Taenia* spp. and other cestodes, statistics of extensive epidemiologic survey, increasing incidence in Poland
- Taenia crassa* Bloch, 1779
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *Eubothrium crassum* (Bloch, 1779)
- Taenia crassiceps*
Agosin, M.; and Naquira, C., 1978, *Comp. Biochem. and Physiol.*, v. 60B (2), 183-187
Taenia crassiceps, mRNA isolated from parasite polysomes directs synthesis of proteins in cell-free heterologous systems which are precipitable by antisera against parasite proteins
- Taenia crassiceps*
Alaimo, R. J.; et al., 1978, *J. Med. Chem.*, v. 21 (3), 298-300
furodazole, anthelmintic trials with experimental animals, bunamidine and niclosamide used as reference drugs
- Taenia crassiceps*
Anderson, M. J. D.; and Griffin, J. F. T., 1979, *Internat. J. Parasitol.*, v. 9 (3), 229-233
Taenia crassiceps, rats, differences in susceptibility to infection and development of immunocompetence in relation to host strain and age
- Taenia crassiceps*
Anderson, M. J. D.; and Griffin, J. F. T., 1979, *Internat. J. Parasitol.*, v. 9 (3), 235-239
Taenia crassiceps, neonatal rats, adoptive transfer of immunity and immunocompetence with lymph node cells
- Taenia crassiceps*, *illus.*
Belton, C. M., 1979, *Micron*, v. 10 (1), 1-4
Taenia crassiceps larvae, scanning electron microscopy, application of ruthenium red ligand binding of osmium
- Taenia crassiceps* (Zeder, 1800), *illus.*
Bilqees, F. M., 1970, *Acta Parasitol. Polon.*, v. 18 (27-41), 369-375
Taenia crassiceps, mice, administration of penicillin indirectly assists early development of parasite by weakening host tissue reaction, subcutaneous cyst thinner and contains more metacestodes as compared to mice not receiving penicillin, histological structure of subcutaneous cyst
- Taenia crassiceps*, *illus.*
Chernin, J.; and Tilleray, V. J., 1979, *J. Helminth.*, v. 53 (2), 127-129
Taenia crassiceps in mice suffering from obstructive jaundice, bilirubin extracted from metacestodes, reduced activity of β -D-glucuronidase in pigmented vs. normal parasites
- Taenia crassiceps*
Eaton, R. D. P.; and Secord, D. C., 1979, *Canad. J. Comp. Med.*, v. 43 (2), 229-230
Arctic fox (duodenum, jejunum, ileum): Banks Island, Northwest Territories
- Taenia crassiceps*
Heath, D. D.; and Lawrence, S. B., 1979, *Internat. J. Parasitol.*, v. 9 (1), 73-76
Taenia crassiceps, rats, mebendazole, single large oral treatment markedly more effective in killing cysts than same amount of drug divided into daily smaller doses, levamisole promoted vigorous host cellular response but did not enhance action of mebendazole
- Taenia crassiceps* (Zeder, 1800)
Ianchev, I.; and Ridzhakov, N., 1977, *Khel-mintologiya, Sofiya*, v. 4, 73-96
Vulpes vulpes crucigera (small intestine): Northwestern Bulgaria
- Taenia crassiceps* (Zeder, 1800)
Iushkov, V. Iu., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 22, 232-248
Alopex lagopus (small intestine)
Vulpes vulpes
all from Komi ASSR
- Taenia crassiceps*
Martinez, F.; et al., 1978, *Rev. Iber. Parasitol.*, v. 38 (1-2), 207-211
Vulpes vulpes: provincia de Cordoba, Espana

- Taenia crassiceps*
Miller, K. L.; Good, A. H.; and Mishell, R. I., 1978, *Infect. and Immun.*, v. 22 (2), 365-370
Taenia crassiceps, in vitro response to sheep erythrocytes of mesenteric lymph node cells from infected mice is significantly depressed and can be restored to control levels by addition of activated peritoneal cells depleted of functional T or B lymphocytes, results suggest that immunodepression in infected mice is primarily result of alterations in functional accessory cells
- Taenia crassiceps*
Novak, M., 1978, *Experientia*, v. 34 (9), 1149
Taenia crassiceps, heat- and cold-stressed mice harbored significantly less cysticerci than controls, effect more pronounced in heat-stressed than in cold-stressed animals and more in males than in females, results show that environmental temperature affects growth of cysticerci in mice
- Taenia crassiceps*
Samuel, W. M.; Ramalingam, S.; and Carbyn, L. N., 1978, *Canad. J. Zool.*, v. 56 (12), 2614-2617
Canis lupus
Vulpes vulpes
(small intestine of all): all from area around Riding Mountain National Park, southwestern Manitoba
- Taenia crassiceps*, *illus.*
Siebert, A. E., jr.; and Good, A. H., 1979, *Exper. Parasitol.*, v. 48 (1), 164-174
Taenia crassiceps, effort of normal and immune serum on metacestodes in vitro
- Taenia crassiceps* (Zeder, 1800) Rudolphi, 1810
Siebert, A. E., jr.; Good, A. H.; and Simmons, J. E., 1978, *Internat. J. Parasitol.*, v. 8 (1), 39-43
Taenia crassiceps, mice, kinetics of primary and secondary infections, prior subcutaneous implantation of larvae stimulates immunity to larvae inoculated intraperitoneally, two distinct components in host response, reduction in host response associated with increased worm burdens may indicate possible depression of host immune system
- Taenia crassiceps*, *illus.*
Siebert, A. E., jr.; Good, A. H.; and Simmons, J. E., 1978, *Internat. J. Parasitol.*, v. 8 (1), 45-53
Taenia crassiceps, mice, ultrastructural aspects of early immune damage to metacestodes, tegument damage is attributed to complement-mediated lysis of outer tegument membrane and death of larvae probably results from loss of tegument function
- Taenia crassiceps*, *illus.*
Siebert, A. E., jr.; Good, A. H.; and Simmons, J. E., 1979, *Internat. J. Parasitol.*, v. 9 (4), 323-331
Taenia crassiceps, mice, ultrastructural aspects of host cellular immune response to metacestodes
- Taenia crassiceps*
Uglen, G. L.; and Levy, M. G., 1976, *Rice Univ. Studies*, v. 62 (4), 225-236
Taenia crassiceps larvae, absorption kinetics of some purines, pyrimidines, and nucleosides
- Taenia cylindrica* Kreffft, 1871
Czaplinski, B., 1975, *Acta Parasitol. Polon.*, v. 23 (26-40), 305-327
as syn. of *Cloacotaenia megalops* (Nitzsch in Creplin, 1829) Wolffhuegel, 1938
- Taenia delafondi* Railliet, 1892
Saxena, S. K.; and Bauch, S. C., 1973, *Ang. Parasitol.*, v. 14 (4), 236-245
as syn. of *Killigrewia delafondi* (Railliet, 1892) n. comb.
- Taenia echinococcus*
Jancic-Zguricas, M.; Isvaneski, M.; and Perunovic, P., 1976, *Srpski Arhiv Tselok. Lekar.*, v. 104 (10), 751-760
echinococcosis, cysticercosis, trichinosis affecting human heart, diagnostic problems in relation to clinical and pathological findings, case reports
- Taenia echinococcus* (Echinococcus)
Meyer, H.; and von Geyses, M., 1973, *South African Arch. Opth.*, v. 1 (2), 141-147
Echinococcus, human, case report, subretinal cyst, surgical removal: Pietermaritzburg, Natal
- Taenia echinococcus* (Echinococcosis)
Mugnolo, R. J.; et al., 1977, *Semana Med.* (4979), an. 84, v. 150 (6), 168-174
echinococcosis, human, case report, multiple myocardial and pericardial cysts discovered during exploratory surgery; clinical review: Argentina
- Taenia echinococcus* (Echinococcosis)
Pomelov, V. S.; and Abizhanov, R. A., 1979, *Sovet. Med.* (5), 73-77
echinococcosis, human hepatic cysts with complications involving other organs, symptoms, surgical management
- Taenia echinococcus*
Yacoubian, H. D., 1976, *Surgery*, St. Louis, v. 79 (5), 544-548
hydatid cysts involving dome of liver, humans, thoracic complications, surgical management, case reports: Lebanon
- Taenia echinococcus*, *illus.*
Yurdakul, Y., 1976, *Saglik Dergisi*, v. 51 (9-10), 21-28
human hydatid cyst, life cycle, role of dogs in transmission to man
- Taenia heterosoma* Baird 1853
Burt, D. R. R., 1978, *Zool. J. Linn. Soc.*, London, v. 62 (4), 365-372
"the description of *T. heterosoma* by Fuhrmann (1932, 28) is that of a composite species as also is that of Baer (1954, 43, 44). Accordingly it is necessary to erect new names for these two species and it would seem appropriate to name the parasite of the frigate bird as *Tetrabothrius bairdi* and that of the gannet as *T. bassani*."
- Taenia hyaenae* (Cysticercus dromedarii), *illus.*
Elmossalami, E.; and El-Nawawi, F., 1971, *Vet. Med. J.*, Giza, v. 19 (19), 47-76
Taenia hyaenae (Cysticercus dromedarii), camels, morphology, incidence, predilection sites, 2 abnormal forms reported, differential diagnosis of degenerative forms from other common parasites of camels, need to include shoulder in routine carcass examination, unsuccessful attempt to infect dogs and jackals: Egypt
Syn: *C. ovis* [of] Nagaty, 1940

- Taenia hyaenae* Baer, 1924
 Graber, M., 1978, Rev. Elevage et Med. Vet. Pays Trop., n. s., v. 31 (1), 33-37
 incidence and distribution in Africa
Sylvicapra grimmia
Gazella soemmeringi
 both from Awash valley, Ethiopia
- Taenia hyaenae* (*Cysticercus dromedarii*)
 Selim, M. K.; et al., 1970, Vet. Med. J., Giza, v. 17 (18), 173-193
 cattle
 camels
 all imported to United Arab Republic
- Taenia hydatigena* (*Cysticercus tenuicollis*), *illus.*
 Ashizawa, H.; et al., 1977, Bull. Fac. Agric. Univ. Miyazaki, v. 24 (2), 277-286
Cysticercus tenuicollis, pigs (omentum), 3 cyst types (common, intermediate, degenerative) compared, migratory route of bladder worm
- Taenia hydatigena*
 Boray, J. C.; et al., 1979, Austral. Vet. J., v. 55 (2), 45-53
 nematodes and cestodes of dogs and cats, efficiency and safety of nitroscanate, comparison with mebendazole, bunamidine hydrochloride, and praziquantel
- Taenia hydatigena*
 Campbell, N. J.; Dineen, J. K.; and Kelly, J. D., 1979, Research Vet. Sc., v. 26 (3), 391-393
 effect of *Taenia hydatigena* infection on existing and concurrent infections of *Fasciola hepatica* in sheep
- Taenia hydatigena*
 Dey-Hazra, A., 1976, Vet. Med. Rev. (2), 134-141
 tapeworms, dogs, droncit: India
- Taenia hydatigena* (*Cysticercus tenuicollis*)
 Diaz, L.; Rioseco, H.; and Cubillos, V., 1977, Bol. Chileno Parasitol., v. 32 (3-4), 86-89
 survey of endoparasites of wild cervids
 Pudu pudu (peritoneo visceral): sur de Chile
- Taenia hydatigena*
 Edwards, G. T.; Hackett, F.; and Herbert, I. V., 1979, Brit. Vet. J., v. 135 (5), 433-439
 prevalence
 hunting dogs
 fox
 sheep (liver)
 all from Snowdonia, U. K.
- Taenia hydatigena*
 Farmer, J. N.; et al., 1978, Vet. Rec., v. 102 (4), 78-80
 sheepdogs (feces): Gwyned, North Wales
- Taenia hydatigena* Pallas, 1766
 Flores Barroeta, L., [1967], Rev. Soc. Mexicana Hist. Nat., v. 27, 1966, 37-48
 morphology with emphasis on larval phase
Canis familiaris (intestino delgado): Mexico, D. F.
- Taenia hydatigena*
 Gemmell, M. A., 1978, Bull. World Health Organ., v. 56 (3), 433-443
 tapeworm control in dogs for prevention of hydatidosis and cysticercosis in sheep, monthly drug treatment program, age-specific prevalence of *Taenia hydatigena* in lambs used as principal indicator, 13-year assessment: Styx Valley and Maniototo County, South Island, New Zealand
- Taenia hydatigena*
 Gemmell, M. A.; Johnstone, P. D.; and Boswell, C. C., 1978, Research Vet. Sc., v. 24 (3), 334-338
Taenia hydatigena, dispersion pattern of eggs on pasture over time and space assessed by cyst counts in lambs grazed immediately, 36 days, or 56 days after removal of infected dogs
- Taenia hydatigena*
 Gemmell, M. A.; Johnstone, P. D.; and Oudemans, G., 1978, Research Vet. Sc., v. 25 (1), 107-108
Echinococcus granulosus, *Taenia hydatigena*, dogs, controlled trial with mebendazole incorporated in prepared food vs. as tablets given with this food, neither treatment fully effective
- Taenia hydatigena*
 Gemmell, M. A.; Johnstone, P. D.; and Oudemans, G., 1978, Research Vet. Sc., v. 25 (1), 109-110
Echinococcus granulosus, *Taenia hydatigena*, dogs, antibiotic of streptothricin family (SQ 21,704), significant activity against *T. hydatigena*, evidence for similar activity against *E. granulosus* was less well marked
- Taenia hydatigena*
 Gemmell, M. A.; Johnstone, P. D.; and Oudemans, G., 1978, Research Vet. Sc., v. 25 (1), 111-112
Echinococcus granulosus, *Taenia hydatigena*, dogs, diuredosan, significant activity against *T. hydatigena*, no significant dose response curve against *E. granulosus*
- Taenia hydatigena*
 Gemmell, M. A.; Johnstone, P. D.; and Oudemans, G., 1979, Research Vet. Sc., v. 26 (3), 389-390
Echinococcus granulosus, *Taenia hydatigena*, dogs, oxfendazole
- Taenia hydatigena*
 Guralp, N.; et al., 1976, Vet. Med. Rev. (2), 129-133
 tapeworms, dogs, cats, droncit
- Taenia hydatigena*
 Guralp, N.; et al., 1976, Vet. Fak. Dergisi, Ankara Univ., v. 23 (1-2), 171-174
 tapeworms, dogs, droncit 100% effective

- Taenia hydatigena*
Heath, D. D., 1978, *Vet. Parasitol.*, v. 4 (1), 11-19
Taenia hydatigena, neonatal lambs, subcutaneous injection of viable eggs induced 100% protection against development of viable larvae from oral challenge but no protection against simultaneous infection with eggs of *Taenia ovis* and *Echinococcus granulosus*, maternally derived immunity was not enhanced by hyperimmunization of ewe but did not interfere with development of protection in immunized lambs, immunizing lesion regressed rapidly after treatment of lambs with mebendazole
- Taenia hydatigena*
Heath, D. D.; and Lawrence, S. B., 1978, *N. Zealand Vet. J.*, v. 26 (1-2), 11-15
Echinococcus granulosus, *Taenia hydatigena*, *T. ovis*, sheep, effect of extended oral dosing regime with mebendazole compared with one parenteral injection of either mebendazole or praziquantel
- Taenia hydatigena* (*Cysticercus tenuicollis*)
Henne, E.; Nickel, S.; and Hiepe, T., 1978, *Ang. Parasitol.*, v. 19 (1), 52-57
Sus scrofa (Oment, Mesenterium): Nordosten der DDR
- Taenia hydatigena* (*Cysticercus tenuicollis*)
Hughes, D. L.; Harness, E.; and Doy, T. G., 1978, *Research Vet. Sc.*, v. 25 (3), 356-359
Taenia hydatigena, goats, sheep, cattle (all exper.), challenged orally with *Fasciola hepatica metacercariae*, showed no evidence of resistance
- Taenia hydatigena* (Pallas, 1766)
Ianchev, I.; and Ridzhakov, N., 1977, *Khel-mintologiya, Sofiya*, v. 4, 73-96
Vulpes vulpes crucigera (small intestine): Northwestern Bulgaria
- Taenia hydatigena* Pallas, 1766
Iushkov, V. Iu., 1971, *Trudy Gel'mint. Lab.*, *Akad. Nauk SSSR*, v. 22, 232-248
Canis lupus (small intestine): Komi ASSR
- Taenia hydatigena*
Jørgensen, R. J., 1978, *Dansk Vet.-Tidsskr.*, v. 61 (12), 577-585
echinococcosis, prevalence, diagnostic techniques, differential diagnosis of *Taenia hydatigena* and *Cysticercus tenuicollis*: Denmark
- Taenia hydatigena* Pallas, 1766 (= *Cysticercus tenuicollis*)
Khalil, L. F.; and Gibbons, L. M., 1976, *Rev. Zool. Africaine*, v. 90 (3), 559-577

Pence, D. B.; and Willis, K. D., 1978, *J. Parasitol.*, v. 64 (3), 568-569
Bassariscus astutus (small intestine): west Texas
- Taenia martis* (Zeder, 1803), *illus.*
Savel'ev, V. D., 1972, *Parazitologiya*, Leningrad, v. 6 (4), 351-355
brief description of larvocyst
Lemmus sibiricus (thoracic cavity): Evenki

- Taenia martis americana* Wahl, 1967
Rausch, R. L., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 357-366
synonymy
Taenia twitchelli, specific distinction from *T. martis americana*, comparison of strobilar and larval stages
Martes americana: Arctic Village, and Lake Minchumina, Alaska; Mayo Lake, Yukon Territory
Microtus xanthognathus: northern Yukon Territory
- Taenia megalops* Nitzsch in Creplin, 1829
Czaplinski, B., 1975, Acta Parasitol. Polon., v. 23 (26-40), 305-327
as syn. of *Cloacotaenia megalops* (Nitzsch in Creplin, 1829) Wolffhuegel, 1938
- Taenia multiceps*
Edwards, G. T.; Hackett, F.; and Herbert, I. V., 1979, Brit. Vet. J., v. 135 (5), 433-439
prevalence
hunting dogs: Snowdonia, U. K.
- Taenia multiceps*
Farmer, J. N.; et al., 1978, Vet. Rec., v. 102 (4), 78-80
sheepdogs (feces): Gwyned, North Wales
- Taenia multiceps*
Le Riche, P. D.; and Sewell, M. M. H., 1978, Internat. J. Parasitol., v. 8 (6), 479-483
8 taeniid cestodes, differentiation by enzyme electrophoresis
- Taenia* (= *Multiceps*) *multiceps* (*Coenurus cerebralis*)
Zeybek, H., 1977, Vet. Hekim. Dernegi Dergisi, v. 47 (4), 41-44
Taenia multiceps, incidence and distribution in lambs, serious problem: Samsun region
- Taenia mustelae* (Gmelin, 1790)
Frank, C., 1977, Ang. Parasitol., v. 18 (4), 206-215
Syn.: *T. tenuicollis* Rudolphi, 1809
Mustela putorius (Jejunum, vorderer Abschnitt des Ileums): Neusiedlerseegebiet (Burgenland/Osterreich)
- Taenia mustelae* Gmelin, 1790
Iushkov, V. Iu., 1971, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22, 232-248
synonymy
Martes martes (small intestine)
M. zibellina
Mustela erminea
Clethrionomys rufocanus
C. rutilus
C. glareolus
Microtus agrestis
Arvicola terrestris
all from Komi ASSR
- Taenia mustelae* Gmelin, 1790
Rausch, R. L., 1977, Publicaciones Espec. (4), Inst. Biol., Univ. Nac. Autonom. Mexico, 357-366
Marmota monax (liver): 35 km west of Fairbanks, Alaska
Mustela nivalis: North America
M. erminea: North America
M. vison: " "
Martes americana: North America
- Taenia mustelae* (Gmelin, 1790)
Savel'ev, V. D., 1972, Parazitologiya, Leningrad, v. 6 (4), 351-355
Syn.: *T. tenuicollis* Rud., 1819
Lemmus sibiricus
Microtus middendorfi
Clethrionomys rutilus
Ochotona alpina
(liver of all): all from Evenki [and/or] Taimir
- Taenia mustelae* Gmelin 1790
Todd, K. S., jr.; Adams, J. H.; and Hoogeweg, J. H., 1978, J. Parasitol., v. 64 (3), 523
Ondatra zibethica (abdominal cavity): Hazel Crest, Illinois
- Taenia nana* Siebold, C. T., 1852
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 1964, 191-215
as syn. of *Vampirolepis nana* (Siebold)
- Taenia nodulosa* Pallas, 1781
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
as syn. of *Triaenophorus nodulosus* (Pallas, 1781)
- Taenia omissa* Luehe, 1910
Schmidt, G. D.; and Martin, R. L., 1978, J. Helminth., v. 52 (3), 205-209
Felis concolor acrocodia: Chaco Boreal, western Paraguay
- Taenia ovis*
Boray, J. C.; et al., 1979, Austral. Vet. J., v. 55 (2), 45-53
nematodes and cestodes of dogs and cats, efficiency and safety of nitroscanate, comparison with mebendazole, bunamidine hydrochloride, and praziquantel
- Taenia ovis*
Edwards, G. T.; Hackett, F.; and Herbert, I. V., 1979, Brit. Vet. J., v. 135 (5), 433-439
prevalence
hunting dogs: Snowdonia, U. K.
- Taenia ovis*
Gemmell, M. A., 1978, Bull. World Health Organ., v. 56 (3), 433-443
tapeworm control in dogs for prevention of hydatidosis and cysticercosis in sheep, monthly drug treatment program, age-specific prevalence of *Taenia hydatigena* in lambs used as principal indicator, 13-year assessment: Styx Valley and Maniototo County, South Island, New Zealand
- Taenia ovis*
Gregory, G. G., 1978, N. Zealand Vet. J., v. 26 (10), 262 [Letter]
Taenia ovis, dog, longevity (7 years and one month) and period of patency

Taenia ovis

Heath, D. D., 1978, *Vet. Parasitol.*, v. 4 (1), 11-19

Taenia hydatigena, neonatal lambs, subcutaneous injection of viable eggs induced 100% protection against development of viable larvae from oral challenge but no protection against simultaneous infection with eggs of *Taenia ovis* and *Echinococcus granulosus*, maternally derived immunity was not enhanced by hyperimmunization of ewe but did not interfere with development of protection in immunized lambs, immunizing lesion regressed rapidly after treatment of lambs with mebendazole

Taenia ovis

Heath, D. D.; et al., 1979, *Vet. Parasitol.*, v. 5 (1), 51-55

Taenia ovis, immunizing potential of various developmental stages injected subcutaneously into neonatal or 16-week-old lambs, colostrum-derived antibodies apparently suppressed immunizing potential of eggs in neonatal lambs

Taenia ovis

Heath, D. D.; et al., 1979, *Parasitology*, v. 79 (2), 177-182

Taenia ovis, duration of passive protection in lambs from immunized ewes

Taenia ovis

Heath, D. D.; and Lawrence, S. B., 1978, *N. Zealand Vet. J.*, v. 26 (1-2), 11-15

Echinococcus granulosus, *Taenia hydatigena*, *T. ovis*, sheep, effect of extended oral dosing regime with mebendazole compared with one parenteral injection of either mebendazole or praziquantel

Taenia ovis

Le Riche, P. D.; and Sewell, M. M. H., 1978, *Internat. J. Parasitol.*, v. 8 (6), 479-483
8 taeniid cestodes, differentiation by enzyme electrophoresis

Taenia ovis

Sutton, R. J.; and Gemmell, M. A., 1978, *Austral. Vet. J.*, v. 54 (12), 598 [Letter]
Taenia ovis, ewes which had not recently been exposed to *T. ovis* eggs, experimental infection one month before lambing, no organisms developed in any of their lambs

Taenia ovis

Yong, W. K.; and Heath, D. D., 1979, *Parasite Immunol.*, v. 1 (1), 27-38
Echinococcus granulosus-, *Taenia hydatigena*-, and *T. ovis*-infected sheep, immunoelectrophoretic (IEP) identification of 'arc 5' antibodies in sera; antigen similar to 'arc 5' antigen of *E. granulosus* cyst fluid demonstrated in *T. hydatigena* cyst fluid but not positively identified in *T. ovis* cyst fluid; evaluation of performance of IEP

Taenia ovis

Yong, W. K.; Heath, D. D.; and Parmeter, S. N., 1978, *N. Zealand Vet. J.*, v. 26 (9), 231-234

Echinococcus granulosus, *Taenia hydatigena*, *T. ovis*, sheep (nat. and exper.), indirect haemagglutination test using cyst fluids as antigens, serological cross-reactions, test useful for non-specific detection of larval cestodes

Taenia parenchymatosa (Puschmenkov, 1945)

Savel'ev, V. D., 1972, *Parazitologiya*, Leningrad, v. 6 (4), 351-355
Rangifer tarandus (liver): Taimir

Taenia parva Baer, 1924

Mas-Coma, S.; and Feliu, C., 1977, *Vie et Milieu*, s. C, *Biol. Terr.*, v. 27 (2), 231-241
Apodemus sylvaticus: Cataluna, Espana

Taenia pisiformis

Alaimo, R. J.; et al., 1978, *J. Med. Chem.*, v. 21 (3), 298-300
furodazole, anthelmintic trials with experimental animals, bunamidine and niclosamide used as reference drugs

Taenia pisiformis Bloch, 1780

Bicik, V.; and Lysek, H., 1970, *Acta Parasitol. Polon.*, v. 18 (1-12), 99-105
Mesocostoides litteratus, *Taenia pisiformis*, cat, tapeworm infection apparently had detrimental effect on host's space discrimination of acoustic signals, marked improvement after anthelmintic treatment, results indicate significant unfavorable influence of cestodiasis on function of central nervous system

Taenia pisiformis

Boray, J. C.; et al., 1979, *Austral. Vet. J.*, v. 55 (2), 45-53
nematodes and cestodes of dogs and cats, efficiency and safety of nitroscanate, comparison with mebendazole, bunamidine hydrochloride, and praziquantel

Taenia pisiformis Bloch

Byman, D.; et al., 1977, *Canad. J. Zool.*, v. 55 (2), 376-380
Canis lupus (gut): northeastern Minnesota

Taenia pisiformis

Della Bruna, C.; Ricciardi, M. L.; and Sanfilippo, A., 1973, *Antimicrob. Agents and Chemotherapy*, v. 3 (6), 708-710
axenomycins, effectiveness against several cestode spp. in nat. and exper. infections of various animals

Taenia pisiformis

Dey-Hazra, A., 1976, *Vet. Med. Rev.* (2), 134-141
tapeworms, dogs, droncit: India

Taenia pisiformis, illus.

Diogo, M. R.; et al., 1976, *Reposit. Trab. Lab. Nacional Invest. Vet.*, Lisboa, v. 8, 45-48
coelho (figado), pathology, first case reported: Portugal

Taenia pisiformis

Edwards, G. T.; Hackett, F.; and Herbert, I. V., 1979, *Brit. Vet. J.*, v. 135 (5), 433-439
prevalence
hunting dogs
fox
all from Snowdonia, U. K.

Taenia pisiformis

Heath, D. D.; and Chevis, R. A. F., 1978, *J. Parasitol.*, v. 64 (2), 252
Taenia pisiformis, rabbits, immunity to reinfection with larvae results from initial infection, may last for 12 months or more, and is not dependent on continued survival of initial infection

- Taenia pisiformis* (Bloch, 1780)
Ianchev, I.; and Ridzhakov, N., 1977, *Khel-mintologiya, Sofiia*, v. 4, 73-96
Vulpes vulpes crucigera (small intestine): Northwestern Bulgaria
- Taenia pisiformis* (Bloch, 1780)
Iushkov, V. Iu., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 22, 232-248
Alopex lagopus: Komi ASSR
- Taenia pisiformis*
Jacobson, H. A.; Kirkpatrick, R. L.; and McGinnes, B. S., 1978, *Wildlife Monogr.* (60), 53 pp.
disease and physiologic characteristics of cottontail rabbits in 2 study areas in relation to population density, includes data on seasonal and sex differences
Sylvilagus floridanus: Virginia
- Taenia pisiformis*
Jakutowicz, K.; and Korpaczewska, W., 1979, *Bull. Acad. Polon. Sc., Cl. II, s. Sc. Biol.*, v. 27 (1), 69-70
6 tapeworms and *Fasciola hepatica*, determination of Cu concentration, atomic absorption spectrometry
- Taenia pisiformis* (*Cysticercus pisiformis*)
Koudela, B.; and Schanzel, H., 1978, *Acta Vet. Brno*, v. 47 (1-2), 87-90
Cysticercus pisiformis, rabbits, praziquantel, negative result
- Taenia pisiformis*
Le Riche, P. D.; and Sewell, M. M. H., 1978, *Internat. J. Parasitol.*, v. 8 (6), 479-483
8 taeniid cestodes, differentiation by enzyme electrophoresis
- Taenia pisiformis*
Martinez, F.; et al., 1978, *Rev. Iber. Parasitol.*, v. 38 (1-2), 207-211
Vulpes vulpes: provincia de Cordoba, Espana
- Taenia pisiformis*
Nemeth, I.; Juhasz, S.; and Baintner, K., 1979, *Internat. J. Parasitol.*, v. 9 (6), 515-522
Taenia pisiformis, trypsin and chymotrypsin inhibitor demonstrated in somatic extract of mature tapeworms
- Taenia pisiformis*
Pence, D. B.; and Meinzer, W. P., 1979, *Internat. J. Parasitol.*, v. 9 (4), 339-344
helminth fauna of *Canis latrans*, low similarity with those from other geographic regions in North America, associations between pairs of species in terms of frequency of occurrence, mean levels of infection in presence or absence of other species, host age and sex effects
Canis latrans (intestine): West Texas
- Taenia pisiformis*
Sakamoto, T.; et al., 1979, *Bull. Fac. Agric. Kagoshima Univ.* (29), 81-87
cestodes, dogs, praziquantel
- Taenia pisiformis*
Samuel, W. M.; Ramalingam, S.; and Carbyn, L. N., 1978, *Canad. J. Zool.*, v. 56 (12), 2614-2617
Canis latrans (small intestine): area around Riding Mountain National Park, southwestern Manitoba
- Taenia pisiformis*
Slepnev, N. K., 1973, *Vet. Nauka--Proizvod., Trudy, Minsk*, v. 11, 130-135
[*Canis familiaris*]: northern zone of Belorussia
- Taenia pisiformis* (*Cysticercus pisiformis*)
Stepanian, S. G.; et al., 1978, *Biol. Zhurnal Armenii*, v. 31 (9), 971-978
Taenia pisiformis-infected rabbits, natural resistance increased by vitamin C
- Taenia pisiformis*
Thomas, H.; and Goennert, R., 1978, *Research Vet. Sc.*, v. 24 (1), 20-25
cestodes of cats, dogs, and sheep, praziquantel highly effective in one oral or subcutaneous dose
- Taenia polyacantha* (Leuckart, 1856)
Ianchev, I.; and Ridzhakov, N., 1977, *Khel-mintologiya, Sofiia*, v. 4, 73-96
Vulpes vulpes crucigera (small intestine): Northwestern Bulgaria
- Taenia rileyi* Loewen 1929
Flores Barroeta, L., [1967], *Rev. Soc. Mexicana Hist. Nat.*, v. 27, 1966, 37-48
morphology with emphasis on larval phase
Canis familiaris (intestino delgado): Mexico, D. F.
- Taenia rileyi*
Mollhagan, T., 1978, *Southwest. Nat.*, v. 23 (3), 401-407
helminths of *Sigmodon hispidus* from 2 mesic and 3 upland habitats in western Texas, incidence and prevalence, influence of host habitat on parasite fauna composition, comparison of 5 Texas sites with each other and with 3 sites in Florida
Sigmodon hispidus: western Texas
- Taenia rileyi*
Stone, J. E.; and Pence, D. B., 1978, *J. Parasitol.*, v. 64 (2), 295-302
helminth parasitism of *Felis rufus*, nature, prevalence, intensity, ecological relationships of parasitism including concentration of dominance, similarity of helminth faunas between different geographic areas, and nature of distributions of aggregations of helminth species in this host
Felis rufus (small intestine): Rolling Plains of West Texas
- Taenia saginata* (*Cysticercosis*)
Adonajlo, A.; et al., 1975, *Przegl. Epidemiol.*, v. 29 (3), 327-334
Taenia saginata cysticercosis, cattle, characteristics of rural localities with high vs. low prevalence: Poland
- Taenia saginata* (*Cysticercosis*)
Adonajlo, A.; et al., 1976, *Przegl. Epidemiol.*, v. 30 (1), 27-33
Taenia saginata, incidence of human taeniasis and bovine cysticercosis in rural areas, importance of migrations from villages and of locations of areas where cattle are pastured: Poznan Province, Poland
- Taenia saginata*
Adonajlo, A.; et al., 1977, *Przegl. Epidemiol.*, v. 31 (2), 177-182
Taenia saginata, humans, analysis of epidemiologic survey, comparison of statistics of rural and urban cases, clinical manifestations: Poland

- Taenia saginata* (*Cysticercus bovis*)
Albert, H.; and Hoerchner, F., 1979, Berl. u. Munchen. Tierarztl. Wchnschr., v. 92 (10), 189-193
Taenia saginata, calves (exper.), serum antibodies, enzyme-linked immunosorbent assay, titres following reinfection and drug therapy
- Taenia saginata*
Alonge, D. O.; and Fasanmi, E. F., 1979, Trop. Animal Health and Prod., v. 11 (1), 57-62
diseases and parasites of cattle resulting in carcass condemnations, abattoir survey, economic importance and public health: northern Nigeria
- Taenia saginata* Goeze, 1782
Antoniewicz, K.; Baer, W.; and Chmiel, J., 1977, Acta Parasitol. Polon., v. 24 (28-34), 283-293
Taenia saginata, phosphate compounds in immature, mature, and gravid proglottids
- Taenia saginata*-like species
Arambulo, P. V. III; Cabrera, B. D.; and Tongson, M. S., 1976, Proc. 19. Ann. Meet., Am. Ass. Vet. Lab. Diagn., 123-154
taeniasis, cysticercosis, humans, endemicity, failure to demonstrate *Taenia saginata* in indigenous animals or to produce infection in experimental hosts suggests that human parasite is possibly a *T. saginata*-like species; *T. solium* apparently obtained through human consumption of raw pork, survey of incidence in food animals: Philippines
- Taenia saginata*
Baer, J. G., 1974, Parassitologia, v. 16 (1), 47-52
cestodes of man, epidemiology
- T[*aenia*] *saginata*
Ben-Ismaïl, R.; Carme, B.; and Gentilini, M., 1979, Path. Biol., v. 27 (8), 487-489
Fasciola hepatica, *F. gigantica*, *Echinococcus granulosus*, detection of blood group antigen P1 activity in extracts, not detected in T[*aenia*] *saginata* extract
- Taenia saginata* (*Cysticercus bovis*)
Biering-Sørensen, U., 1978, Dansk Vet.-Tidskr., v. 61 (3), 96-104
Taenia saginata, cattle, prevalence, seasonal distribution, epidemiology, control measures: Denmark
- Taenia saginata*
Boron-Kaczmarek, A.; et al., 1978, Zentralbl. Bakteriol., 1. Abt. Orig., Reihe A, v. 240 (4), 538-541
Taenia saginata, leukocyte migration inhibition test with polysaccharide antigen C of *Taenia* evaluated in infected and uninfected humans, results demonstrate that infection brings about a cellular hypersensitivity reaction of delayed type
- Taenia saginata*
Botero R., D., 1978, Ann. Rev. Pharmacol. and Toxicol., v. 18, 1-15
chemotherapy of common intestinal protozoan and helminth infections in humans, review of antiparasitic drugs in current use
- Taenia saginata*
Campos Bueno, M.; et al., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 639-648
cestodes, antigenic fractions (except those of *Taenia saginata* and of *Cysticercus tenuicollis* membranes) with reactivity similar to albumins of human, bovine and ovine sera
- Taenia saginata*
Corral Carranceja, I.; et al., 1975, Rev. San. e Hig. Pub., v. 49 (2), 159-178
intestinal parasites, epidemiologic survey of children on admission to Sanatorio Marino de Gorliz
- Taenia saginata*, illus.
Craig, T. M.; and Ronald, N. C., 1978, South-west Vet., v. 31 (2), 121-124
Taenia saginata, calves (exper.), albendazole in single oral dose had apparent deleterious action against cysticerci, preliminary study
- Taenia saginata*
Dada, B. J. O.; and Usman, S., 1978, Ann. Trop. Med. and Parasitol., v. 72 (3), 297-298
Taenia saginata, possible role of traditional preparation of Suya (native beef dish) in the epidemiology of human taeniasis in the Zaria area, Nigeria
- Taenia saginata*
Gallie, G. J.; and Sewell, M. M. H., 1977, Trop. Animal Health and Prod., v. 9 (1), 24
Taenia saginata, calves (exper.), treatment with intraperitoneal injection of mebendazole, not deleterious to either young or fully developed cysticerci
- Taenia saginata*
Gallie, G. J.; and Sewell, M. M. H., 1978, Trop. Animal Health and Prod., v. 10 (1), 36-38
Taenia saginata, calves (exper.), praziquantel, ineffective against 4-week-old cysticerci, advisable to let at least 3 months elapse after initial infection for successful treatment
- Taenia saginata*
Geerts, S.; Kumar, V.; and Aerts, N., 1979, J. Helminth., v. 53 (4), 293-299
Taenia saginata, antigenic components and their relevance to diagnosis of bovine cysticercosis by immunoelectrophoresis
- Taenia saginata*
Ghadirian, E.; Croll, N. A.; and Gyorkos, T. W., 1979, Trop. and Geogr. Med., v. 31 (4), 485-491
helminths, 7 human intestinal species, prevalence survey based on geographical and socio-agricultural criteria, differences emphasize variability of human ecology in study region: Caspian Littoral region of Iran
- Taenia saginata*
Goldsmid, J. M., 1974, South African Med. J., v. 48 (54), 2265-2266
intestinal helminths, man, baboons, mebendazole, clinical trials, highly effective broad-spectrum drug: Central Africa
- Taenia saginata* (*Cysticercus bovis*)
Grabner, M., 1978, Rev. Elevage et Med. Vet. Pays Trop., n. s., v. 31 (1), 33-37
incidence and distribution in Africa zebu: Sidamo, Ethiopia

- Taenia saginata*
Grindle, R. J., 1978, *Trop. Animal Health and Prod.*, v. 10 (3), 127-140
Cysticercus bovis, cattle, incidence, economic losses: Botswana; Kenya
- Taenia saginata* (Cysticercus), illus.
Hammerberg, B.; MacInnis, G. A.; and Hyler, T., 1978, *J. Am. Vet. Med. Ass.*, v. 173 (11), 1462-1464
Taenia saginata cysticerci, grazing steers exposed to nonheat-treated city sewage sludge; multiple incisions of heart during meat inspection needed to increase efficiency of detection: southern Virginia
- Taenia saginata*
Hilwig, R. W.; Cramer, J. D.; and Forsyth, K. S., 1978, *Vet. Parasitol.*, v. 4 (3), 215-219
Taenia saginata, freezing times and temperatures required to kill cysticerci in beef
- Taenia saginata*
Hird, D. W.; and Pullen, M. M., 1979, *J. Food Protection*, v. 42 (1), 58-64
Taenia saginata and *T. solium* in man, review
- Taenia saginata* (Cysticercus bovis)
Hoerchner, F.; and Albert, H., 1979, *Berl. u. Munchen. Tierarztl. Wchnschr.*, v. 92 (6), 107-111
Taenia saginata, calves inoculated with eggs, response to reinfection and/or drug therapy (mebendazole, praziquantel)
- [*Taenia*] *saginata*
Jaroovesama, N.; and Harinasuta, T., 1972, *Siriraj Hosp. Gaz.*, v. 24 (7), 1095-1099
taeniasis, human, comparative treatment trials using quinacrine and niclosamide
- Taenia saginata* (Cysticercus bovis)
Karim, M. A., 1979, *Trop. Animal Health and Prod.*, v. 11 (4), 239-240
Cysticercus bovis, native cattle, prevalence and seasonal variation: Mosul abattoir, Iraq
- Taenia saginata*
Katz, N.; and Zicker, F., 1973, *Rev. Soc. Brasil. Med. Trop.*, v. 7 (4), 225-229
Taenia spp., humans, clinical trials with mebendazole
- Taenia saginata* (Goeze, 1782)
Komma, M. D.; and Santos, V. L. V., 1972, *Rev. Patol. Trop.*, v. 1 (1), 69-72
Taenia solium, *T. saginata*, humans, comparative therapeutic trials using yomesan and pumpkin seed based taeniafuge; correlation of species of *Taenia* with type of therapy and recovery of scolex with therapy
- Taenia saginata* (Cysticercosis), illus.
Kozakiewicz, B., 1977, *Med. Wet.*, v. 33 (8), 461-463
cysticercosis, experimentally infected sheep and goats, intravenous infection more effective than oral infection
- Taenia saginata* (Cysticercus bovis)
Kozakiewicz, B., 1977, *Med. Wet.*, v. 33 (10), 622-623
Cysticercus bovis, calves, sheep, goats, passive immunization
- Taenia saginata* (Cysticercus bovis)
Kozakiewicz, B., 1977, *Acta Parasitol. Polon.*, v. 24 (28-34), 357-369
Taenia saginata, experimental cysticercosis in calves infected with eggs or oncospheres orally or intravenously, course of infection with emphasis on intensity and localization of cysticerci
- Taenia saginata* (Cysticercus bovis)
Kumar, V.; Geerts, S.; and Mortelmans, J., 1977, *Ann. Soc. Belge Med. Trop.*, v. 57 (3), 181-184
Cysticercus bovis, failure of 74-day-old cysts to develop in exper. infected apes, monkeys, and hamsters, cysts apparently too immature; hamster (intestine) successfully infected with 89-day-old cyst
- Taenia saginata*
Le Riche, P. D.; and Sewell, M. M. H., 1978, *Internat. J. Parasitol.*, v. 8 (6), 479-483
8 taeniid cestodes, differentiation by enzyme electrophoresis
- Taenia saginata*
Lloyd, S.; Soulsby, E. J. L.; and Theodorides, V. J., 1978, *Experientia*, v. 34 (6), 723-724
Taenia saginata, calves (exper.), albendazole effective against metacestodes
- Taenia saginata*
Lombardo, G.; and Consiglio, C., 1973, *Riv. Pediat. Siciliana*, v. 28 (3-4), 155-165
helminths, extensive hematologic study of infected children, iron deficiency anemia most frequently discovered pathologic condition
- Taenia saginata*
Machnicka, B.; et al., 1977, *Acta Parasitol. Polon.*, v. 25 (1-10), 55-62
Cysticercus bovis in calves (exper.), morphogenesis, localization, host tissue reaction, immunological findings in indirect immunofluorescence test, histological and histochemical study of bladder
- Taenia saginata* (Cysticercus bovis)
Macpherson, R.; Mitchell, G. B. B.; and McCance, C. B., 1978, *Vet. Rec.*, v. 102 (7), 156-157 [Letter]
Cysticercus bovis, slaughterhouse inspection, high prevalence in bovine carcasses originating from pasture treated with human slurry from local sewage works: Glasgow
- Taenia saginata* (Cysticercus bovis)
Mango, A. M.; and Rubin, R. O., 1976, *Bull. Animal Health and Prod. Africa*, v. 24 (1), 69-71
Taenia saginata, calves (exper.), cambendazole, seems to be active against Cysticercus bovis in tissues
- Taenia saginata*
Mello, E. B. F.; et al., 1978, *Zentralbl. Bakteriol.*, 1. Abt. Orig., Reihe A, v. 241 (3), 384-387
Taenia solium, *T. saginata*, humans, oral treatment with aspidium preceded by hypertonic magnesium sulphate solution

- Taenia saginata* (*Cysticercus bovis*)
Mishra, G. S.; and N'Depo, A. E., 1978, Rev. Elevage et Med. Vet. Pays Trop., n. s., v. 31 (4), 431-436
larval cestodes in food animals, abattoir survey: Abidjan, Cote-d'Ivoire
- Taenia saginata* (*Cysticercus bovis*)
Nyaga, P. N.; and Gathuma, J. M., 1979, Bull. Animal Health and Prod. Africa, v. 27 (1), 51-59
Taenia saginata, slaughter cattle, calcified vs. non-calcified cysts, localization, implications for meat inspection procedures: Kenya
- Taenia saginata*
Oguz, T., 1976, Vet. Fak. Dergisi, Ankara Univ., v. 23 (1-2), 75-81
turkischen Frauen (Kot): Berlin
- Taenia saginata*, illus.
Onyango-Abuje, J. A., 1978, Bull. Animal Health and Prod. Africa, v. 26 (1), 17-22
Taenia saginata, development of gamma-irradiated oncospheres in calves
- Taenia saginata*
Osimani, J. J.; et al., 1976, Semana Med. (4964), an. 83, v. 149 (15), 503-508
helminthiasis, humans, clinical trials with mebendazole: Montevideo, Uruguay
- Taenia saginata* (*Cysticercosis*)
Pawlowski, Z.; Kozakiewicz, B.; and Wroblewski, H., 1978, Vet. Sc. Commun., v. 2 (2), 137-139
Taenia saginata cysticerci, bullocks (exper.), mebendazole and praziquantel administered in fodder, drug efficacy
- Taenia saginata* (*Cysticercus bovis*), illus.
Proctor, E. M., 1972, South African Med. J., v. 46 (9), 234-238
Taenia solium, *T. saginata*, differential diagnostic features of mature worms
- Taenia saginata* (*Cysticercus bovis*)
Richmond, S. M., 1976, State Vet. J., Min. Agric., Fish. and Food (93), v. 31, 258-263
Cysticercus bovis, cattle, outbreak resulting from single human carrier of *Taenia* ova, need for sanitary facilities for workers on beef cattle enterprises and for veterinary control of meat inspection, review of meat inspection regulations: Scotland
- Taenia saginata* (*Cysticercus bovis*)
Schillhorn van Veen, T. W., 1979, Vet. Rec., v. 104 (16), 370
Cysticercus bovis, cattle (livers), massive infections, no detectable cysticerci in muscles: Nigeria
- Taenia saginata*
Simanjuntak, G. M.; et al., 1977, Southeast Asian J. Trop. Med. and Pub. Health, v. 8 (4), 494-497
prevalence survey of taeniasis in humans and cysticercosis in pigs, socio-ecological data indicated infections in humans to be more common in those who ate raw meat dishes rather than those who were mostly fish eaters, poor sanitary conditions and easy access of pigs to human feces perpetuated infections in both pigs and humans: Bali Island, Indonesia
- Taenia saginata* (*Cysticercosis*)
Slonka, G. F.; et al., 1978, Am. J. Trop. Med. and Hyg., v. 27 (1, pt. 1), 101-105
Taenia saginata, cattle, outbreak of cysticercosis attributed to one feedlot, infected feedlot worker was probable source of infection, recommendations for preventing similar epizootics: southern California
- Taenia saginata*
Soto Travieso, R.; et al., 1977, Rev. Cubana Med. Trop., v. 29 (3), 115-120
human intestinal parasites, diagnosis, modified Baermann's technique compared with standard diagnostic methods
- Taenia saginata* G.
Stepien-Rukasz, H., 1978, Terap. i Leky, v. 6, v. 28 (10), 350-352
Taenia saginata, *Ascaris lumbricoides*, *Enterobius vermicularis*, eggs, effects of chlorhexidine
- Taenia saginata* (*Cysticercus bovis*)
Thornton, H., 1979, Vet. Rec., v. 104 (13), 287
Taenia saginata, human, symptoms, diagnosis, treatment, brief review
- Taenia saginata*
Tsuji, M., 1975, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 24 (4), 227-236
18 helminth spp., antigenic structure, comparison using immunoelectrophoresis
- Taenia saginata*
Walther, M.; and Sanitz, W., 1979, Berl. u. Munchen. Tierarztl. Wchnschr., v. 92 (7), 131-135
Taenia saginata, calves (exper.), enzyme-linked immunosorbent assay using *T. saginata* and *T. crassiceps* antigens, comparison with indirect hemagglutination during course of infection and following praziquantel treatment
- Taenia saginata*
Wikerhauser, T.; et al., 1978, Acta Parasitol. Jugoslavica, v. 9 (2), 51-56
Taenia saginata, calves, immunization using a metabolic, parasite-free vaccine, no evidence of immunizing capacity
- Taenia saginata*
Zembrzuski, K.; and Dymowska, Z., 1977, Przegl. Epidemiol., v. 31 (3), 345-349
human *Taenia* spp. and other cestodes, statistics of extensive epidemiologic survey, increasing incidence in Poland
- Taenia serialis*
Pence, D. B.; and Meinzer, W. P., 1979, Internat. J. Parasitol., v. 9 (4), 339-344
helminth fauna of *Canis latrans*, low similarity with those from other geographic regions in North America, associations between pairs of species in terms of frequency of occurrence, mean levels of infection in presence or absence of other species, host age and sex effects
Canis latrans (intestine): West Texas
- Taenia solium*
Agarwal, R.; Kharya, M. D.; and Shrivastava, R., 1979, Indian J. Exper. Biol., v. 17 (11), 1264-1265
Taenia solium, *Bunostomum trigonocephalum*, *Oesophagostomum columbianum*, anthelmintic activity of essential oil of *Nigella sativa* in vitro

- Taenia solium* (Cysticercosis)
Alarcon G., T.; and Olivares L., L., 1975, Rev. Invest. Clin., v. 27 (3), 209-215
human cerebral cysticercosis, diagnosis by complement fixation or evidence of calcifications on X-ray, clinical symptoms, frequent coexistence of cysticercosis with other central nervous system conditions in areas of high prevalence
- Taenia solium* (Cysticercosis)
Alarcon G., T.; and Olivares L., L., 1977, Rev. Ecuator. Hig. y Med. Trop., v. 30 (1), 7-15
human cerebral cysticercosis, clinical manifestations of 132 patients, statistics of survey: Mexico
- Taenia solium* (Cysticercosis), illus.
de Almeida, A. A.; and de Oliveira, J. E. B., 1971, Rev. Inst. Med. Trop. S. Paulo, v. 13 (1), 1-8
human ocular cysticercosis, pathology, possible complications, currently used surgical procedures and new technique described: Brazil
- Taenia solium*
Arambulo, P. V. III; et al., 1978, Acta Trop., v. 35 (1), 63-67
cysticercosis, human, serodiagnosis by microplate enzyme-linked immunospecific assay
- Taenia solium*
Arambulo, P. V. III; Cabrera, B. D.; and Tongson, M. S., 1976, Proc. 19. Ann. Meet., Am. Ass. Vet. Lab. Diagn., 123-154
taeniasis, cysticercosis, humans, endemicity, failure to demonstrate *Taenia saginata* in indigenous animals or to produce infection in experimental hosts suggests that human parasite is possibly a *T. saginata*-like species; *T. solium* apparently obtained through human consumption of raw pork, survey of incidence in food animals: Philippines
- Taenia solium* (Cysticercosis)
Arseni, C.; and Cristescu, A., 1974, Rev. Med.-Interna. (Neurol., Psihiat., Neurochir.), Bucaresti, v. 19 (4), 331-336
Taenia solium, cysticercosis of supratentorial ventricular system, human case reports, diagnosis by ventriculography, surgical treatment
- Taenia solium*
Baer, J. G., 1974, Parassitologia, v. 16 (1), 47-52
cestodes of man, epidemiology
- Taenia solium*
Bloch, M., 1978, Rev. Inst. Invest. Med., San Salvador, v. 7 (2), 120-127
human intestinal parasites, review of parasites frequently encountered in Latin American countries, suggestions for management, possible control measures
- Taenia solium* (Cysticercosis)
Bora, B. N.; Chaudhary, B. S.; and Singh, S. V., 1972, Rajasthan Med. J., v. 11 (4), 189-192
Taenia solium, widely disseminated calcified cysticerci in man with active bilateral tuberculosis, clinical aspects, case report: India
- Taenia solium*
Botero R., D., 1978, Ann. Rev. Pharmacol. and Toxicol., v. 18, 1-15
chemotherapy of common intestinal protozoan and helminth infections in humans, review of antiparasitic drugs in current use
- Taenia solium*
Bruckner, D. A., 1979, J. Parasitol., v. 65 (3), 450
Taenia solium, in vitro growth of racemose cysticercus from human brain
- Taenia solium* (Cysticercosis)
Carbajal, J. R.; et al., 1977, Radiology, v. 125 (1), 127-131
human cysticercosis with nervous system involvement, radiologic features, value of computed tomography in assessing infections
- Taenia solium* (Cysticercus cellulosae)
Carrasco Marin, J., 1977, SPM Salud Pub. Mexico, v. 19 (2), 255-261
porcine cysticercosis, prevalence survey, economic importance, information from 8 health centers of the State of Sonora, Mexico
- Taenia solium* (Cysticercus cellulosae)
Chaiyaporn, V., 1974, Siriraj Hosp. Gaz., v. 26 (8), 1529-1533
Taenia solium, attempts to experimentally infect *Corvus macrorhynchus* nestling unsuccessful
- Taenia solium* (Cysticercosis)
Cross, J. H., 1973, Taiwan i Hsueh Hui Tsa Chih (J. Formosan Med. Ass.), v. 72 (7), 407-412
parasitic diseases of human respiratory system, immunodiagnostic methods, review
- Taenia solium* (Cysticercosis)
Desowitz, R. S.; et al., 1977, Southeast Asian J. Trop. Med. and Pub. Health, v. 8 (3), 303-307
human cysticercosis, immunoepidemiologic survey to evaluate usefulness of counter-immunoelectrophoresis as diagnostic tool: endemic focus of Irian Jaya
- Taenia solium* (Cysticercus cellulosae)
Escobar, A., 1978, N. England J. Med., v. 298 (7), 403-404 [Letter]
human cerebral cysticercosis, diagnosis and clinical management, review
- Taenia solium* (Cysticercosis)
Garza-Mercado, R., 1976, Surg. Neurol., v. 5 (6), 331-332
intramedullary cysticercosis, 22-year-old female, case report, successful surgical removal: Mexico
- Taenia solium* (Cysticercosis cellulosae), illus.
Giri, I. W., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (2), 232-236
cysticercosis, human, 6 new and 3 previously reported cases, host age, sex, nationality, and religion, localization and size of cysts, host response; Surabaya, Indonesia
- Taenia solium* Linne, 1758
Haak, W.; et al., 1972, Ang. Parasitol., v. 13 (4), 200-207
cestodes of humans, recommended drug therapy

- Taenia solium* (Cysticercosis)
van der Heever, C. M.; Plotkin, R.; and Ronthal, M., 1970, South African Med. J., v. 44 (45), 1290-1293
tapeworm cysts, human, case reports, central nervous system infestations, clinical aspects
- Taenia solium*
Hird, D. W.; and Pullen, M. M., 1979, J. Food Protection, v. 42 (1), 58-64
Taenia saginata and *T. solium* in man, review
- Taenia solium* (Cysticercosis), illus.
Hoffman, S. F.; and Guthrie, T. H., jr., 1975, South. Med. J., v. 68 (1), 105-108
cerebral cysticercosis, human, clinical review, case report
- Taenia solium* (Cysticercus cellulosae)
Kang, S. Y., 1972, Taehan Uihak Hyophoe Chi (J. Korean Med. Ass.), v. 15 (6), 470-474
pulmonary parasitic diseases, human
- Taenia solium* (Cysticercosis), illus.
Kaplan, J. O.; and Weinfeld, A., 1979, Brit. J. Radiol. (622), v. 52 841-844
Taenia solium, Haitian woman, parietal pleural lesion, radiographic evaluation, differential diagnosis
- Taenia solium* (Cysticercus cellulosae), illus.
Kapoor, S., 1978, Trop. and Geogr. Med., v. 30 (2), 253-256
Taenia solium, human ocular cysticercosis, frequent occurrence, poor hygiene, case reports; localization in various countries compared: Andhra and Tamilnadu states, India
- Taenia solium*, illus.
Katz, N.; and Zicker, F., 1973, Rev. Soc. Brasil. Med. Trop., v. 7 (4), 225-229
Taenia spp., humans, clinical trials with mebendazole
- Taenia solium* (Cysticercus cellulosae)
King, J. S.; and Hosobuchi, Y., 1977, Surg. Neurol., v. 7 (3), 125-129
cysticercosis cerebri, human, clinical presentation, diagnosis, indications for surgery; clinical case report: Mexican-American living in California
- Taenia solium* (Lineu, 1758)
Komma, M. D.; and Santos, V. L. V., 1972, Rev. Patol. Trop., v. 1 (1), 69-72
Taenia solium, *T. saginata*, humans, comparative therapeutic trials using yomesan and pumpkin seed based taeniafuge; correlation of species of *Taenia* with type of therapy and recovery of scolex with therapy
- Taenia solium* (Cysticercosis)
Lafont H., A.; and Quintero Gonzalez, J., 1971, Rev. Latinoam. Patol., v. 10 (3-4), 151-153
human cysticercosis, youth with cyst on tongue, case report, infection probably from eating undercooked pork: Cartagena, Colombia
- Taenia solium*
Le Riche, P. D.; and Sewell, M. M. H., 1978, Internat. J. Parasitol., v. 8 (6), 479-483
8 taeniid cestodes, differentiation by enzyme electrophoresis
- Taenia solium*
Lombardo, G.; and Consiglio, C., 1973, Riv. Pediat. Siciliana, v. 28 (3-4), 155-165
helminths, extensive hematologic study of infected children, iron deficiency anemia most frequently discovered pathologic condition
- Taenia solium* (Cysticercosis)
Martin, H.; and Michalik, M., 1977, Psychiat., Neurol. u. Med. Psychol., v. 29 (2), 87-95
human neurocysticercosis, 3 case reports with autopsy findings of severe meningitis and hydrocephalus, clinical aspects, recommendations for use of complement fixation for reliable diagnosis
- Taenia solium* (Cysticercosis)
Mayo, F.; and Baier, H., 1979, Arch. Int. Med., Chicago, v. 139 (1), 115-116
cysticercosis, Haitian woman (pleura), abnormal chest roentgenogram, history of eating undercooked pork
- Taenia solium* (Cysticercosis)
Meira, G. de B.; Boccaletti, V. R.; and Mello, G. de B. (filho), 1978, Seara Med. Neurocir., v. 7 (3), 367-374
cysticercosis, human, involvement of optic chiasma, diagnosis, clinical aspects, case reports
- Taenia solium*
Mello, E. B. F.; et al., 1978, Zentralbl. Bakteriol., 1. Abt. Orig., Reihe A, v. 241 (3), 384-387
Taenia solium, *T. saginata*, humans, oral treatment with aspidium preceded by hypertonic magnesium sulphate solution
- Taenia solium* (Cysticercus cellulosae), illus.
Messner, K. H.; and Kammerer, W. S., 1979, Arch. Ophth., Chicago, v. 97 (6), 1103-1105
Taenia solium, human (eye), removal of cysts by pars plana vitrectomy: central Pennsylvania
- Taenia solium* (Cysticercus cellulosae)
Michiels, J.; et al., 1970, Bull. Soc. Belge Opht. (155), 560-575
Cysticercus cellulosae, human, sub-conjunctival lesions, differential diagnosis from Sparganum mansoni
- Taenia solium* (Cysticercus cellulosae)
Mishra, G. S.; and N'Depo, A. E., 1978, Rev. Elevage et Med. Vet. Pays Trop., n. s., v. 31 (4), 431-436
larval cestodes in food animals, abattoir survey: Abidjan, Cote-d'Ivoire
- Taenia solium* (Cysticercosis)
Miziara, H. L.; et al., 1975, Rev. Patol. Trop., v. 4 (1), 43-47
cysticercosis, human, cardiac involvement, case report: Minas Gerais
- Taenia solium* (Cysticercus cellulosae), illus.
Monteiro-De Gandt, D.; Bethelon, S.; and Zanen, A., 1971, Bull. Soc. Belge Opht. (159), 597-603
Cysticercus cellulosae, man, case report, ocular lesion, surgical management: Belgium
- Taenia solium* (Cysticercus cellulosae), illus.
Noya, M.; et al., 1974, Rev. Clin. Espan., v. 134 (1), 59-66
human cysticercosis, clinical case reports, diagnosis by radiologic finding of numerous calcifications of soft tissue

- Taenia solium* (*Cysticercus cellulosae*)
 Pandey, V. S.; and Mbemba, Z., 1976, Ann. Soc. Belge Med. Trop., v. 56 (1), 43-46
Cysticercus cellulosae, survey of slaughtered pigs, high incidence in some areas attributed to poor sanitation, living habits, and absence of control facilities, implications for continued spread to both man and animals: Zaire
- Taenia solium*
 Patharangura, P.; and Chaiyaporn, V., 1973, Siriraj Hosp. Gaz., v. 25 (2), 285-294
Taenia solium, humans, increased incidence, partly due to consumption of "Nam" prepared from heavily infected pork: Siriraj Hospital
- Taenia solium* (*Cysticercus cellulosae*), illus.
 Perry, H. D.; and Font, R. L., 1978, Arch. Opth., Chicago, v. 96 (7), 1255-1257
Cysticercus cellulosae, solitary cyst in eyelid of young girl who several years previously had lived for 2 years in Vietnam and Laos, clinical case report, histologic diagnosis
- Taenia solium* (*Cysticercus*), illus.
 Pochaczewsky, R.; and Sugar, A., 1979, Am. J. Roentgenol., v. 133 (1), 128-129
Taenia solium *cysticerci*, 14-year-old girl (eye), case report, diagnosis by contact B-scan ultrasonography
- Taenia solium* (*Cysticercus cellulosae*), illus.
 Proctor, E. M., 1972, South African Med. J., v. 46 (9), 234-238
Taenia solium, *T. saginata*, differential diagnostic features of mature worms
- Taenia solium* (*Cysticercus cellulosae*), illus.
 Raimer, S.; and Wolf, J. E., jr., 1978, Arch. Dermat., Chicago, v. 114 (1), 107-108
cysticercosis, human cases, subcutaneous nodules, surgical removal; previous tapeworm infection in Mexico; importance of careful diagnosis of travelers' infections: Texas
- Taenia solium* (*Cysticercus cellulosae*)
 Raverdy, Ph.; et al., 1976, Rev. Neurol., Paris, v. 132 (8), 555-562
 human cerebral *cysticercosis*, presentation as epilepsy, case reports, immigrant workers living in Paris
- Taenia solium* (*Cysticercus cellulosae*), illus.
 Reeder, M. M., 1973, Seminars Roentgenol., v. 8 (1), 47-71
Cysticercus cellulosae, filariasis, dracunculosis, human, radiologic diagnosis of infections in soft tissues
- Taenia solium* (*Cysticercus cellulosae*)
 Riccetti, R. V.; Panetta, J. C.; and Barbuto, O. J. M., 1977, Rev. Fac. Med. Vet. e Zootec. Univ. S. Paulo, v. 14 (1), 113-122
Cysticercus cellulosae in swine meat fragments, effect of refrigeration temperature and salt on viability
- Taenia solium* (*Cysticercus cellulosae*), illus.
 Roy, R. N.; et al., 1976, Surg. Neurol., v. 6 (2), 129-131
 spinal *cysticercosis*, man, compression of spinal cord by cyst resulted in paraplegia, improvement after surgery: Calcutta, India
- Taenia solium*
 Simanjuntak, G. M.; et al., 1977, Southeast Asian J. Trop. Med. and Pub. Health, v. 8 (4), 494-497
 prevalence survey of taeniasis in humans and *cysticercosis* in pigs, socio-ecological data indicated infections in humans to be more common in those who ate raw meat dishes rather than those who were mostly fish eaters, poor sanitary conditions and easy access of pigs to human feces perpetuated infections in both pigs and humans: Bali Island, Indonesia
- Taenia solium* (*Cysticercus cellulosae*)
 Soares, E. F.; and Goes-Monteiro, R., 1972, Rev. Brasil. Oftal., v. 31 (3), 361-366
cysticercosis, infestation of anterior chamber of human eye by living *cysticercus*, resulting uveitis, successful surgical removal of parasite by cryo-probe
- Taenia solium*
 Sosa, A.; et al., 1978, Experientia, v. 34 (2), 175-177
Cysticercus cellulosae, ATPase demonstrated in microtriches by high resolution cytochemistry, possible role in preferential tissue distribution of this parasite
- Taenia solium* (*Cysticercosis*)
 Subianto, D. B.; Tumada, L. R.; and Margono, S. S., 1978, Trop. and Geogr. Med., v. 30 (3), 275-278
Taenia solium (cerebral *cysticercosis*), association with burns and epileptic fits in mountain people of central highlands of Irian Jaya, New Guinea, Indonesia
- Taenia solium* (*Cysticercosis*)
 Tasker, W. G.; and Plotkin, S. A., 1979, Pediatrics, Am. Acad. Pediat., v. 63 (5), 761-763
 cerebral *cysticercosis*, 2-year-old child, case report, development of seizures and meningitis, probable indirect contamination from father, differential diagnosis: United States
- Taenia solium* (*Cysticercus cellulosae*)
 Tjahjadi, G.; et al., 1978, Southeast Asian J. Trop. Med. and Pub. Health, v. 9 (2), 247-251
 cerebral *cysticercosis*, human, as cause of epilepsy, case report: Irian Jaya, Indonesia
- Taenia solium* (*Cysticercus cellulosae*), illus.
 Tjahjadi, G.; et al., 1978, Trop. and Geogr. Med., v. 30 (3), 279-283
Taenia solium, human cerebral *cysticercosis* associated with epilepsy, case report: Irian Jaya, New Guinea, Indonesia
- Taenia solium* (*Cysticercosis*)
 Vanderick, F. X.; and Mbonyingabo, P., 1972, Ann. Soc. Belge Med. Trop., v. 52 (2), 153-155 [Letter]
cysticercosis, humans, case reports: Rwanda
- Taenia solium*, illus.
 Voge, M.; and Brown, W. J., 1979, J. Parasitol., v. 65 (2), 262-266
Taenia solium, racemose *cysticercus* from human brain, fine structure, scanning and transmission electron microscopy

- Taenia solium*
Zembrzuski, K.; and Dymowska, Z., 1977, Przegł. Epidemiol., v. 31 (3), 341-344
Taenia solium, humans, epidemiologic survey, increasing incidence from 1971 to 1974 with evidence that increase will continue: Poland
- Taenia solium*
Zembrzuski, K.; and Dymowska, Z., 1977, Przegł. Epidemiol., v. 31 (3), 345-349
human *Taenia* spp. and other cestodes, statistics of extensive epidemiologic survey, increasing incidence in Poland
- Taenia sulcata* von Linstow, 1879
Mas-Coma, S.; Feliu, C.; and Rey, J. M., 1978, Rev. Iber. Parasitol., v. 38 (3-4), 579-584
as syn. of *Hymenolepis sulcata* (von Linstow, 1879)
- Taenia taeniaeformis*
Ayuya, J. M.; and Williams, J. F., 1979, Immunology, v. 36 (4), 825-834
Taenia taeniaeformis, rats, immunization, influence of antigen source, route of administration, and adjuvant selection on efficacy, mechanism of resistance in vaccinated animals is different from that which develops following infection
- Taenia taeniaeformis*
Betterton, C., 1979, Internat. J. Parasitol., v. 9 (4), 313-320
intestinal helminths of small mammals, patterns of parasitism with respect to host ecology
Rattus surifer (liver)
R. sabanus (liver)
all from Peninsular Malaysia
- Taenia taeniaeformis*
Campbell, N. J.; Kelly, J. D.; and Martin, I. C. A., 1979, Internat. J. Parasitol., v. 9 (5), 469-474
Taenia taeniaeformis, *Fasciola hepatica*, rats, homologous resistance and cross resistance
- Taenia taeniaeformis*
Chapman, C. B.; et al., 1979, Austral. J. Exper. Biol. and Med. Sc., v. 57 (4), 369-387
chronic parasitic infections in mice, IgG₁ hypergammaglobulinaemia, daily rate and location of production of IgG₁, T cell dependence of response
- Taenia taeniaeformis*
Dey-Hazra, A., 1976, Vet. Med. Rev. (2), 134-141
Taenia taeniaeformis, cats, droncit: India
- Taenia taeniaeformis*, *illus.*
Hammerberg, B.; and Williams, J. F., 1978, J. Immunol., v. 120 (3), 1033-1038
Taenia taeniaeformis, factors present in cystic bladder fluid of metacestodes and released by parasites maintained in vitro are shown to interact nonimmunologically with the complement system in vitro and in vivo, possibility that local consumption of complement around metacestode in vivo could contribute to successful evasion of inflammation and immune rejection during infection
- Taenia taeniaeformis*
Hammerberg, B.; and Williams, J. F., 1978, J. Immunol., v. 120 (3), 1039-1045
Taenia taeniaeformis, complement-fixing activity washed from surface of metacestodes and characterized physicochemically, active substance may be polysulfated proteoglycan, location at host-parasite interface may have significance in evasion of immune rejection
- Taenia taeniaeformis* (*Hydatigera taeniaeformis*), *illus.*
Jones, B. R.; Smith, B. F.; and LeFlore, W. B., 1977, Microbios Letters (14), v. 4, 71-77
Hydatigera taeniaeformis cysticercus, surface topography of scolex, scanning electron microscopy
- Taenia taeniaeformis* (Batsch, 1786)
Kamiya, M.; and Kanda, T., 1977, Kiseichugaku Zasshi (Japan. J. Parasitol.), v. 26 (4), 271-275
Rattus norvegicus
R. rattus
all from Ishigaki Is., southwestern Japan
- Taenia taeniaeformis* (Batsch, 1786)
Kamiya, H.; and Machida, M., 1977, Bull. National Sc. Mus., s. A, Zool., v. 3 (3), 125-129
Rattus rattus: Ishigaki-jima Island, Okinawa Prefecture, Japan
- Taenia taeniaeformis*, *illus.*
Kwa, B. H.; and Liew, F. Y., 1978, J. Helminth., v. 52 (1), 1-6
Taenia taeniaeformis, rats, blocking antibody may be involved in survival of 1 year old established larvae in immune hosts, experiments with 1 month old larvae were inconclusive
- Taenia taeniaeformis*
Kwa, B. H.; and Liew, F. Y., 1978, J. Helminth., v. 52 (2), 99-107
Taenia taeniaeformis, rats, haemagglutinating antibody production, passive transfer of immunity using sera from different time intervals after infection, passive transfer using dilutions of hyperimmune serum, time course of protection conferred by passive serum transfer before and after challenge
- Taenia taeniaeformis*
Leong, T. S.; et al., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 122-126
parasites of *Rattus r. diardii*, influence of human habitats on rat parasite fauna
Rattus rattus diardii (liver): Kuala Lumpur and nearby villages
- Taenia taeniaeformis*
Le Riche, P. D.; and Sewell, M. M. H., 1978, Internat. J. Parasitol., v. 8 (6), 479-483
8 taeniid cestodes, differentiation by enzyme electrophoresis

- Taenia taeniaeformis*
Lloyd, S.; and Soulsby, E. J. L., 1978, Immunology, v. 34 (5), 939-945
Taenia taeniaeformis, mice, passive transfer of protection with intestinal, colostrum, or serum immunoglobulins, protective capacity found to be associated mainly with IgA of colostrum and intestinal secretions and IgG of serum
- Taenia taeniaeformis*
McBee, R. H., jr., 1977, Great Basin Nat., v. 37 (2), 252
Taenia taeniaeformis, lower incidence in *Microtus pennsylvanicus* located 16 km vs. 1 km from city attributed to lack of large numbers of primary hosts in rural area: near Bozeman, Gallatin County, Montana
- Taenia taeniaeformis*
MacKenzie, M. R.; Warner, N. L.; and Mitchell, G. F., 1978, J. Immunol., v. 120 (5), 1493-1496
binding of immunoglobulins from *Taenia taeniaeformis* and *Mesocestoides corti*-infected mice to staphylococcal protein A
- Taenia taeniaeformis*
Mollhagan, T., 1978, Southwest. Nat., v. 23 (3), 401-407
helminths of *Sigmodon hispidus* from 2 mesic and 3 upland habitats in western Texas, incidence and prevalence, influence of host habitat on parasite fauna composition, comparison of 5 Texas sites with each other and with 3 sites in Florida
Sigmodon hispidus: western Texas
- Taenia taeniaeformis* (Batsch)
Mukherjee, R. P., 1970, Rec. Zool. Surv. India, v. 62 (3-4), 191-215
synonymy, key
Gerbillus gleadowi (intestine): Kolayat, Bikaner dist., Rajasthan, India
- Taenia taeniaeformis*
Musoke, A. J.; Williams, J. F.; and Leid, R. W., 1978, Immunology, v. 34 (3), 565-570
Taenia taeniaeformis, systemic sensitization with reaginic antibodies accelerates rate at which challenge organisms are killed in passively immunized rats, inflammatory mediators which are released during immediate hypersensitivity responses may have direct effects on viability of early larval stages of parasite, these results indicate that reaginic antibody may play role in protective mechanism of immunity against *Taenia taeniaeformis* in the rat
- Taenia taeniaeformis*
Roman, E., 1978, Bull. Soc. Sc. Vet. et Med. Comp. Lyon, v. 80 (3), 139-145
Taenia taeniaeformis, *Hymenolepis diminuta*, *H. nana*, normal parasites of rats, possibilities of transmission to humans and domestic animals: area of Lyon
- Taenia taeniaeformis* (*Cysticercus fasciolaris*)
Singh, B. B.; and Rao, B. V., 1977, Riv. Parasitol., Roma, v. 38 (1), 5-6
Taenia taeniaeformis *cysticerci*, albino rats found to be immune to superinfection
- Taenia taeniaeformis*
Singhvi, A.; and Johnson, S., 1979, Comp. Physiol. and Ecol., v. 4 (1), 28-30
helminths, *Rattus rattus*, relationship between natural diet and level of infection, difference between sexes: Jodhpur, India
- Taenia taeniaeformis*
Sinniah, B., 1979, Southeast Asian J. Trop. Med. and Pub. Health, v. 10 (1), 115-121
distribution and prevalence
Rattus annandalei
R. argentiventer
R. rattus diardii
R. exulans
R. norvegicus
Bandicota indica
Rattus tiomanicus
all from Peninsular Malaysia
- Taenia taeniaeformis*
Thomas, H.; and Goennert, R., 1978, Research Vet. Sc., v. 24 (1), 20-25
cestodes of cats, dogs, and sheep, praziquantel highly effective in one oral or subcutaneous dose
- Taenia taeniaeformis* (= *Cysticercus fasciolaris*), illus.
Verheyen, A.; et al., 1978, J. Parasitol., v. 64 (3), 411-425
Taenia taeniaeformis, mebendazole medication of infected mice induced drastic time-related changes on surface topography of mature *cysticerci*, difference in susceptibility towards the drug between scolex, pseudoproglottids, and bladder in relation to morphology of their microtrichous covering
- Taenia tenuicollis* Rudolphi, 1819
Erhardova-Kotrla, B.; and Daniel, M., 1971, Folia Parasitol., v. 18 (3), 227-233
Alticola argentata (liver): Eastern Hindu Kush, West Pakistan (Tirich Mir region)
- Taenia tenuicollis* Rudolphi, 1809
Frank, C., 1977, Ang. Parasitol., v. 18 (4), 206-215

Addison, E. M.; and Boles, B., 1978, Canad. J. Zool., v. 56 (10), 2241-2242
Gulo gulo (digestive tract): District of Mackenzie, Northwest Territories, Canada

- Taenia twitchelli* Schwartz, 1924, illus.
Rausch, R. L., 1977, Publicaciones Espec.
(4), Inst. Biol., Univ. Nac. Autonom. Mexico,
357-366
Taenia twitchelli, specific distinction
from *T. martis americana*, comparison of
strobilar and larval stages
Marmota caligata (pleural cavity): Mt.
Healy, Alaska Range; Yukon Territory
M. broweri: Brooks Range, Arctic Alaska
Microtus oeconomus (thoracic cavity):
Wrangell Mountains, eastern Alaska
Gulo gulo: Beluga Mountain, Alaska (64 km
north of Tyonek, Cook Inlet region)
- Taenia vaginatus* Rudolphi, C. A., 1819
Mukherjee, R. P., 1970, Rec. Zool. Surv.
India, v. 62 (3-4), 1964, 191-215
as syn. of *Acoleus vaginatus* (Rudolphi)
- Taeniarhynchus saginatus*
Dovzhenko, V. A.; et al., 1976, Med. Parazitol.
i Parazitar. Bolezni, v. 45 (2), 169-173
Diphyllobothrium latum, *Hymenolepis nana*,
Taeniarhynchus saginatus, phenasal effects
on various parts of strobila
- Taeniarhynchus saginatus*
Engelbrecht, H., 1975, Ang. Parasitol., v. 16
(4), 214-218
Taeniarhynchus saginatus, human, increase in
incidence 1966-1973, higher rate of infection
in women and in people between 21 and 50
years old, control measures: GDR
- Taeniarhynchus saginatus* (*Cysticercus bovis*)
Flentje, B.; Buchwalder, R.; and Hiepe, T.,
1978, Arch. Exper. Vet.-Med., v. 32 (2), 205-
212
Taeniarhynchus saginatus, cattle (exper.),
intravital diagnosis by means of immuno-
fluorescent antibody technique, economically
superior to other immunodiagnostical proce-
dures
- Taeniarhynchus saginatus*
Genov, G.; et al., 1975, Ang. Parasitol., v. 16
(4), 202-207
Taeniarhynchus saginatus, humans, incidence
in relation to host age, sex, occupation,
and geographic locality, prophylaxis: 5
districts of Bulgaria
- Taeniarhynchus saginatus*
Ginetsinskaia, T. A.; et al., 1971, Parazito-
logiia, Leningrad, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and
fat distribution in yolk glands and complex
eggs, accumulation of reserve substances in
yolk glands appears to vary with type of
egg development (in external environment vs.
in uterus of parent), digenetic trematodes
accumulate only glycogen and not fat
- Taeniarhynchus saginatus* (*Cysticercus bovis*)
Hiepe, T.; et al., 1978, Monatsh. Vet.-Med.,
v. 33 (23), 888-892
Cysticercus bovis, cattle, epidemiology,
diagnosis, control
- Taeniarhynchus saginatus*
Krause, W., 1976, Ang. Parasitol., v. 17 (4),
185-190
Taeniarhynchus saginatus, humans, statistics
on number of reported cases and those re-
ceiving treatment (1967-1970) in various
areas of Leipzig, DDR

Inst. (29), 90-91
cestodes, pathomorphology resulting from
action of various anthelmintics
- Thysaniezia giardi* Moniez, 1879
Kozlov, D. P., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 62-63
Thysaniezia giardi, *Moniezia benedeni*, ma-
ture proglottids experimentally fed to
birds, *Thysaniezia* capsules and *Moniezia*
eggs passed in feces, birds as potential
transport hosts or mechanical vectors
- Triaenophoridae* Loennberg, 1889
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
Bothriocephaloidea n. superfam.
includes: *Triaenophorus* (type genus of
family)
- Triaenophorus Rudolphi*, 1793
Kuperman, B. I., 1973, Lentochnye chervi roda
Triaenophorus--parazity ryb. Eksperimental'naiia
sistematika, ekologiya [Tapeworms of the genus
Triaenophorus--parasites of fish. Experimen-
tal systematics, ecology] 207 pp.
Triaenophorus, monographic review of mor-
phology, life cycle, development, geographic
distribution, interrelation with host and
pathogenic role, host specificity, evolution,
species formation; key to species, host
list, synonymy, includes: *T. nodulosus*
(Pallas, 1781); *T. amurensis* Kuperman, 1968;
T. stizostedionis Miller, 1945; *T. crassus*
Forel, 1868; *T. meridionalis* Kuperman, 1968;
T. orientalis Kuperman, 1968
- Triaenophorus Rudolphi*, 1793
Protasova, E. N., 1974, Trudy Gel'mint. Lab.,
Akad. Nauk SSSR, v. 24, 133-144
Triaenophoridae
- Triaenophorus amurensis*
Kuperman, B. I.; and Monakov, A. V., 1972,
Parazitologiya, Leningrad, v. 6 (3), 274-282
Triaenophorus spp., experimental infections
of potential 1st intermediate hosts, evalua-
tion of their possible roles under natural
conditions
Acanthocyclops languidoides
Mesocyclops oithonoides (development incom-
plete)
M. leuckarti (development incomplete)
Cyclops strenuus
Acanthodiptomus denticornis
(all exper.)

- Triaienophorus crassus*, *illus.*
Andersen, K., 1979, *Ztschr. Parasitenk.*, v. 60 (2), 147-156
pseudophyllidean cestodes, scolex morphology with emphasis on characters usable in species determination, scanning and transmission electron microscopy, light microscopy
Esox lucius: Norway
- Triaienophorus crassus* Forel, 1768
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Thymallus arcticus (musculature): Aishihik Lake, Yukon Territory
Coregonus clupeiiformis (musculature): Aishihik Lake and Stevens Lake, Yukon Territory
Esox lucius (intestine): Aishihik Lake and Stevens Lake, Yukon Territory
Salvelinus namaycush (musculature): Aishihik Lake, Yukon Territory
Prosopium cylindraceum (musculature): Aishihik Lake, Yukon Territory
- Triaienophorus crassus*
Kazakov, B. E., 1973, *Trudy Gel'mint. Lab., Akad. Nauk SSSR*, v. 23, 64-70
Esox lucius
Salmo trutta m. lacustris
Coregonus l. lavaretus
C. lavaretus pidschian
C. albula
all from Kol'skii peninsula, USSR
- Triaienophorus crassus*, *illus.*
Koerting, W., 1977, *Fisch u. Umwelt* (4), 37-48
fish parasites, histopathological changes
- Triaienophorus crassus*, *illus.*
Kreuzer, W.; Obermeier, O. P.; and Kotter, L., 1976, *Tieraerztl. Prax.*, v. 4 (1), 115-126
parasites and other diseases of fishes consumed by humans, clinical review
- Triaienophorus crassus*
Kuperman, B. I.; and Monakov, A. V., 1972, *Parazitologiya, Leningrad*, v. 6 (3), 274-282
Triaienophorus spp., experimental infections of potential 1st intermediate hosts, evaluation of their possible roles under natural conditions
Cyclops scutifer
C. strenuus
C. vicinus
C. insignis
Microcyclops varicans
M. bicolor
Eudiaptomus graciloides
E. gracilis
Cyclops kolensis
Macrocyclops albidus
M. fuscus
Acanthocyclops bicuspidatus
A. viridis
Mesocyclops oithonoides
Eudiaptomus coeruleus
Mesocyclops leuckarti
Eucyclops serrulatus
(all exper.)
- Triaienophorus crassus* Forel
Mashtakov, A. V.; et al., 1977, *Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR* (36), 68-71
[*Acerina cernua*] (liver): Votkinsk reservoir
- Triaienophorus crassus* Forel, 1868
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
Syn.: *Triaienophorus robustus* Olsson, 1893
Perca fluviatilis (liver): Gdansk Bay (Baltic Sea)
- Triaienophorus crassus* Forel, 1868
Thompson, P.-A.; and Threlfall, W., 1978, *Naturaliste Canad.*, v. 105 (5), 429-431
prevalence, intensity
Esox lucius (small intestine): Port-Cartier-Sept-Iles Park, Quebec
- Triaienophorus lucii* (Mueller, 1776)
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *Triaienophorus nodulosus* (Pallas, 1781)
- Triaienophorus meridionalis* Kuperman, 1968
Kakacheva-Avramova, D., 1976, *Khelmitologia, Sofiia*, v. 1, 12-18
synonymy
Esox lucius (intestine): Bulgarian section of Danube River
- Triaienophorus nodulosus*, *illus.*
Andersen, K., 1979, *Ztschr. Parasitenk.*, v. 60 (2), 147-156
pseudophyllidean cestodes, scolex morphology with emphasis on characters usable in species determination, scanning and transmission electron microscopy, light microscopy
Esox lucius: Norway
- Triaienophorus nodulosus* (Pallas, 1781)
Andrews, C., 1979, *J. Fish. Biol.*, v. 15 (2), 195-209
parasite fauna of *Perca fluviatilis*, host specificity, comparison with different localities in British Isles, factors affecting composition
Perca fluviatilis (viscera): Llyn Tegid, Wales
- Triaienophorus nodulosus* (Pallas, 1781)
Arthur, J. R.; Margolis, L.; and Arai, H. P., 1976, *J. Fish. Research Bd. Canada*, v. 33 (11), 2489-2499
Esox lucius (intestine): Stevens Lake, Yukon Territory
Cottus cognatus (stomach): Stevens Lake, Yukon Territory
- Triaienophorus nodulosus*
Davydov, V. G., 1975, *Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR* (27), 17-20
Triaienophorus nodulosus, localization and dynamics of glycogen and lipids in all developmental stages
- Triaienophorus nodulosus*
Dubovskaia, A. Ia., 1973, *Parazitologiya, Leningrad*, v. 7 (2), 154-159
cestodes from different classes of vertebrate hosts, proteolytic activity, enzymatic activity of parasite is adapted to intensity of host's metabolism
- Triaienophorus nodulosus*
Ginetsinskaia, T. A.; et al., 1971, *Parazitologia, Leningrad*, v. 5 (2), 147-154
platyhelminths (47 species), glycogen and fat distribution in yolk glands and complex eggs, accumulation of reserve substances in yolk glands appears to vary with type of egg development (in external environment vs. in uterus of parent), digenetic trematodes accumulate only glycogen and not fat

- Trianaenophorus nodulosus* (Pall.)
Guttowa, A.; and Boniecka, B., 1977, Acta Parasitol. Polon., v. 24 (28-34), 315-322
Fasciola hepatica, *Trianaenophorus nodulosus*, embryos, in vitro effects of pesticides Vapam and Lebaycid, implications for effects of environmental pollution on structure of ecosystems
- Trianaenophorus nodulosus*
Guttowa, A.; and Moczon, T., 1974, Acta Parasitol. Polon., v. 22 (1-11), 1-7
Diphyllobothrium latum, Ligula intestinalis, *Trianaenophorus nodulosus*, coracidia, oxidoreductase histochemistry
- Trianaenophorus nodulosus* (Pallas)
Iziumova, N. A.; Mashtakov, A. V.; and Kashkovskii, V. V., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36) 64-68
[*Esox lucius*] (intestine): Kamsk reservoir
- Trianaenophorus nodulosus*
Kazakov, B. E., 1973, Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 23, 64-70
Perca fluviatilis
Lota lota
Acerina cernua
Coregonus l. lavaretus
C. albula
all from Kol'skii peninsula, USSR
- Trianaenophorus nodulosus*, illus.
Kreuzer, W.; Obermeier, O. P.; and Kotter, L., 1976, Tieraerztl. Prax., v. 4 (1), 115-126
parasites and other diseases of fishes consumed by humans, clinical review
- Trianaenophorus nodulosus*
Kuperman, B. I.; and Monakov, A. V., 1972, Parazitologiya, Leningrad, v. 6 (3), 274-282
Trianaenophorus spp., experimental infections of potential 1st intermediate hosts, evaluation of their possible roles under natural conditions
Cyclops scutifer
C. strenuus
C. insignis
C. vicinus
Microcyclops varicans
M. bicolor
Eudiaptomus graciloides
E. gracilis
Cyclops kolensis
Mesocyclops oithonoides

Macrocyclops fuscus
Eudiaptomus coeruleus
Acanthocyclops bicuspidatus
Acanthodiptomus denticornis
Eucyclops macrurus
Acanthocyclops viridis
A. vernalis
Mesocyclops leuckarti
Eucyclops serrulatus
(all exper.)
- Trianaenophorus nodulosus*
Lawler, G. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 821-831
Trianaenophorus nodulosus in *Perca flavescens*, life history, description of cyst, plerocercoid, and invasive stages, annual incidence and intensity of infection, relationship of host size to infection, dynamics of infection: Heming Lake, Manitoba
- Trianaenophorus nodulosus*
Linnik, V. Ia.; and Zen'kovich, E. M., 1970, Nauch. Trudy, Nauchno-Issled. Vet. Inst., v. 8, 109-114
[*Perca fluviatilis*]
[*Esox lucius*]
all from Neman river basin
- Trianaenophorus nodulosus* Pallas
Mashtakov, A. V.; et al., 1977, Inform. Biul. Inst. Biol. Vnutren. Vod, Akad. Nauk SSSR (36), 68-71
[*Perca fluviatilis*] (liver)
[*Acerina cernua*] (liver)
[*Esox lucius*] (intestine)
all from Votkinsk reservoir
- Trianaenophorus nodulosus*
Michajlow, W.; Guttowa, A.; and Grabiec, S., 1971, Acta Parasitol. Polon., v. 19 (19-28), 275-283
Diphyllobothrium latum, *Trianaenophorus nodulosus*, tentative synthesis of to-date studies on respiratory metabolism in embryos and coracidia
- Trianaenophorus nodulosus*
Moczon, T.; and Guttowa, A., 1974, Acta Parasitol. Polon., v. 22 (1-11), 9-14
Diphyllobothrium latum, *Ligula intestinalis*, *Trianaenophorus nodulosus*, procercooids, oxidoreductase histochemistry
- Trianaenophorus nodulosus* (Pallas, 1781)
Moravec, F., 1978, Scripta Fac. Scient. Nat. Univ. Purkynianae Brun., Biol., v. 8 (2), 77-80
Esox lucius
Perca fluviatilis
all from Macha Lake fishpond system, Czechoslovakia (N. Bohemia)
- Trianaenophorus nodulosus* (Pallas, 1781)
Rokicki, J., 1975, Acta Parasitol. Polon., v. 23 (1-11), 37-84
synonymy
Perca fluviatilis
Gasterosteus aculeatus
Esox lucius
all from Gdansk Bay (Baltic Sea)
- Trianaenophorus nodulosus*
Shishova-Kasatochkina, O. A.; and Dubovskaja, A. J., 1975, Acta Parasitol. Polon., v. 23 (26-40), 389-393
6 cestode species, proteinase activity, differences in adult and larval parasites, differences in relation to class of vertebrate host, high proteolytic activity in *Schistocephalus solidus* tegument
- Trianaenophorus nodulosus*
Strazhnik, L. V.; and Davydov, O. N., 1975, Parazitologiya, Leningrad, v. 9 (1), 37-46
3 spp. of fish cestodes, glycogen content of parasites and host tissues, seasonal changes in glycogen content of parasites; effect of experimental exposure to various temperatures on parasite glycogen content, motor activity, and duration of life; effect of starvation on glycogen content of parasite and host in aquariums at various temperatures
- Trianaenophorus nodulosus* Pallas, 1781
Tedla, S.; and Fernando, C. H., 1969, J. Fish. Research Bd. Canada, v. 26 (4), 833-843
Perca flavescens (liver): Bay of Quinte, Lake Ontario

- Triænoporus nodulosus*, *illus.*
Timofeev, V. A.; and Kuperman, B. I., 1973, *Parazitologiya*, Leningrad, v. 7 (4), 339-348
Triænoporus nodulosus, changes in ultrastructure of body surface during development from oncosphere into proceroid
- Triænoporus nodulosus* Pallas
Vysotskaia, R. U.; and Sidorov, V. S., 1973, *Parazitologiya*, Leningrad, v. 7 (1), 51-57
8 helminth species from freshwater fish, lipid content, variation with respect to parasite maturity, host species and habitat, and season
- Triænoporus nodulosus* (Pallas, 1781)
Wierzbicki, K., 1970, *Acta Parasitol. Polon.*, v. 18 (1-12), 45-55
Perca fluviatilis (liver): Lake Dargin, Mazurian Lakeland, Poland
- Triænoporus orientalis*
Kuperman, B. I.; and Monakov, A. V., 1972, *Parazitologiya*, Leningrad, v. 6 (3), 274-282
Triænoporus spp., experimental infections of potential 1st intermediate hosts, evaluation of their possible roles under natural conditions
Acanthocyclops languidoides
Mesocyclops oithonoides (development incomplete)
M. leuckarti (development incomplete)
Cyclops strenuus
Acanthodiptomus denticornis (all exper.)
- Triænoporus robustus* Olsson, 1893
Rokicki, J., 1975, *Acta Parasitol. Polon.*, v. 23 (1-11), 37-84
as syn. of *T. crassus* Forel, 1868
- Triænorhina daouensis* (Joyeux, Baer et Martin, 1936) comb. n.
Spasskii, A. A., 1977, *Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk* (5), 65-70
Syn.: *Paruterina daouensis* Joyeux, Baer et Martin, 1936
- Triænorhina rectangula* (Fuhrmann, 1908) Spassky et Schumilo, 1965
Spasskii, A. A., 1977, *Izvest. Akad. Nauk Moldavsk. SSR, s. Biol. i Khim. Nauk* (5), 65-70
synonymy
- Trichocephaloides megaloccephala* (Krabbe, 1869), *illus.*
Tomilovskaia, N. S., 1974, *Parazitologiya*, Leningrad, v. 8 (2), 179-181
description of cysticeroid and adult
Chironomus sp., probably *C. obtusidens*:
Chaun Bay coast in region of mouth of Chaun river, northwestern Chukotka
Calidris alpina (intestine) (exper.)
- Trilocularia gracilis* (Olsson, 1869)
Threlfall, W., 1969, *J. Fish. Research Bd. Canada*, v. 26 (4), 805-811
Squalus acanthias
Raja radiata
all from Newfoundland
- Triplotaenia* sp.
Smales, L. R.; and Mawson, P. M., 1978, *Tr. Roy. Soc. South Australia*, v. 102 (1-2), 9-15
helminths of *Macropus eugenii*, occurrence and incidence at 4 ecologically different sites, seasonal variation of strongyle nematodes in the stomach
Macropus eugenii (intestine): Kangaroo Island, Australia
- Triplotaenia fimbriata*
Beveridge, I.; and Arundel, J. H., 1979, *Austral. Wildlife Research*, v. 6 (1), 69-77
Macropus giganteus
Macropus fuliginosus (small intestine of all): all from eastern Australia
- Triplotaenia undosa*
Beveridge, I.; and Arundel, J. H., 1979, *Austral. Wildlife Research*, v. 6 (1), 69-77
Macropus giganteus
Macropus fuliginosus (small intestine of all): all from eastern Australia
- Trypanorhynch* larvae
MacKenzie, K.; and Gibson, D. I., 1970, *Symposia Brit. Soc. Parasitol.*, v. 8, 1-42
Pleuronectes platessa
Platichthys flesus
all from Scotland
- Trypanorhynch* larva, *illus.*
Sey, O., 1977, *Acta Zool. Acad. Scient. Hungar.*, v. 23 (3-4), 387-394
trypanorhynch larva, morphology, life cycle
Caretta caretta: Egyptian coast
- Tschertkovilepis krabbei* (Kowalewski, 1895)
Neraasen, T. G.; and Holmes, J. C., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens
Anser albifrons
Branta bernicla nigricans
all from Anderson River Delta, Northwest Territories, Canada
- Tschertkovilepis krabbei*
Vasilev, I.; Denev, I.; and Kostov, R., 1977, *Vet.-Med. Nachr.* (2), 149-152
cestodes of poultry, droncit, highly effective
- Tschertkovilepis setigera* (Froelich, 1789)
Neraasen, T. G.; and Holmes, J. C., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens
Anser albifrons
Branta bernicla nigricans
all from Anderson River Delta, Northwest Territories, Canada
- Tschertkovilepis setigera*
Vasilev, I.; Denev, I.; and Kostov, R., 1977, *Vet.-Med. Nachr.* (2), 149-152
cestodes of poultry, droncit, highly effective
- Tylocephalum* [sp.], metacestodes, *illus.*
Stephen, D., 1978, *J. Invert. Path.*, v. 32 (1), 110-111
Crassostrea madrasensis (gill matrix): estuary at Mulki, State of Karnataka, India
- Tylocephalum pingue* Linton, 1890, *illus.*
Shinde, G. B., 1976, *Marathwada Univ. J. Sc. (Nat. Sc.)*, v. 15 (8), 289-291
redescription
Trygon sp. (spiral intestine): Ratnagiri, Maharashtra, India

- Uncibilocularis aurangabadensis* Deshmukh & Shinde 1976 (in press.) [?nom. nud.]

Sawada, I., 1978, *Annot. Zool. Japon.*, v. 51 (3), 155-163
brief description
Rhinolophus ferrumequinum (small intestine): Japan
- Vampirolepis spasskii* Andreiko, Skvorzov, Konov-
alov, 1969
Skvortsov, V. G., 1971, *Izvest. Akad. Nauk Moldavsk. SSR, ser. Biol. i Khim. Nauk* (6), 53-59
Syn.: *Staphylocystis* sp. Zdzitowiecki, 1970
- Vampirolepis wislockii* (Sandground, 1938), illus.
Rysavy, B.; and Barus, V., 1970, *Folia Parasitol.*, v. 17 (1), 89-90
Solenodon paradoxus: Santa Domingo, Haiti
- Varirolepis farciminosa* (Goeze, 1782)
Stoimenov, K.; K'osev, B.; and Bonev, B., 1976, *Khelintologiia, Sofiia, v. 2*, 104-109
Garrulus glandarius (small intestine): Northeastern Bulgaria
- Vigisolepis spinulosa* (Cholodkowsky, 1906)
Frank, C., 1977, *Ang. Parasitol.*, v. 18 (4), 206-215
as syn. of *Hymenolepis spinulosa* Cholodkowsky, 1906
- Vitta rustica* (Neslobinski, 1911) Baer, 1957
Illescas Gomez, P.; and Lopez Roman, R., 1978, *Rev. Iber. Parasitol.*, v. 38 (3-4), 851-854
Delichon urbica: provincia de Granada
- Wardium* sp.
Hair, J. D.; and Holmes, J. C., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 253-269
usefulness of measures of diversity, niche width, and niche overlap in analysis of helminth communities in waterfowl, data suggest hypothesis that intestinal helminth fauna of *Aythya affinis* (particularly hymenolepidids) is composed of chance combination of ecological specialists whose microhabitats and populations are determined in part by inter-specific interactions
Aythya affinis: Alberta, Canada
- Wardium aequabilis* (Rudolphi, 1810) Spassky et Spasskaja, 1954, illus.
Brglez, J., 1974, *Zborn. Bioteh. Fak. Univ. Ljubljani, Vet.*, v. 11 (1-2), 177-186
Anas crecca: Slovenia
- Wardium aequabile* (Rudolphi, 1810) Spassky et Spasskaja, 1954
Czaplinski, B., 1975, *Acta Parasitol. Polon.*, v. 23 (26-40), 305-327
Hymenolepididae of wild *Cygnus olor*, extensiveness and intensity of infestation, age and sex of host, seasonal variation, distribution within digestive tract: Poland synonymy
- Wardium creplini* (Krabbe, 1869)
Neraasen, T. G.; and Holmes, J. C., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser albifrons: Anderson River Delta, Northwest Territories, Canada
- Wardium fusa* (Krabbe, 1869)
Sergeeva, T. P., 1971, *Trudy Gel'mint. Lab., Akad. Nauk SSSR, v. 22*, 153-161
Chlidonias leucoptera: lower Enisei
Larus argentatus: lower Chukotka
L. hyperboreus: lower Chukotka
- Wardium himantopodis* (Krabbe, 1869), illus.
Rysavy, B.; and Macko, J. K., [1973], *An. Inst. Biol., Univ. Nac. Mexico, v. 42* (1), s. Zool., 1971, 1-28
description
Butorides virescens maculatus (intestine): Santo Tomas, peninsula Zapata, province Las Villas, Cuba
- Wardoides nyrocae* (Yamaguti, 1935)
Neraasen, T. G.; and Holmes, J. C., 1975, *Acta Parasitol. Polon.*, v. 23 (12-25), 277-289
analysis of circulation of cestodes among 3 species of geese (young and adult) nesting in close association, 4 groups of cestodes delineated representing different pathways and patterns of exchange
Anser caerulescens caerulescens
Branta bernicla nigricans
all from Anderson River Delta, Northwest Territories, Canada
- Wardoides nyrocae* var. *cygni* (Yamaguti, 1935) Spassky, 1962
Czaplinski, B., 1975, *Acta Parasitol. Polon.*, v. 23 (26-40), 305-327
Hymenolepididae of wild *Cygnus olor*, extensiveness and intensity of infestation, age and sex of host, seasonal variation, distribution within digestive tract: Poland synonymy
- Wenyonia virilis* Woodland, 1923, illus.
Fahmy, M. A. M.; Mandour, A. M.; and El-Naffar, M. K., 1978, *Vet. Med. J., Giza, v. 24* (24), 1976, 253-262
description
Synodontis schall (ileum, stomach, rectum): River Nile, Assiut, Egypt

- Yogeshwaria gen. nov.
Chincholikar, L. N.; and Shinde, G. B., 1976,
Marathwada Univ. J. Sc. (Nat. Sc.), v. 15
(8), 273-276
Lecanicephalidea
tod: Y. nagabhushani sp. nov.
- Yogeshwaria nagabhushani gen. et sp. nov. (tod),
illus.
Chincholikar, L. N.; and Shinde, G. B., 1976,
Marathwada Univ. J. Sc. (Nat. Sc.), v. 15
(8), 273-276
Trygon sp. (spiral intestine): Ratnagiri,
Maharashtra, India
- Yorkeria southwelli n. sp., illus.
Deshmukh, R. A., 1979, Current Sc., Bangalore,
v. 48 (6), 271-272 [Letter]
Ginglymostoma concolor (spiral valve): Rat-
nagiri (west coast of India)
- Zygobothriinae
Brooks, D. R., 1978, System. Zool., v. 27 (3),
312-323
Monticelliidae
includes: Zygobothrium; Amphoteromorphus;
Nomimoscolex
- Zygobothrium Diesing, 1850
Brooks, D. R., 1978, System. Zool., v. 27 (3),
312-323
Monticelliidae, Zygobothriinae
